Those who think Prof. Pickens is a disciplinarian of the first water should have witnessed his work in that branch last Friday morning. A team of hard-headed stubborder-mouthed mules, which had been left standing unhitched on the street, became somewhat frightened at the whistling of the Southbound accommodation and started into their heads to return home to their country home. Prof. Pickens was passing by and this thought entered the head of the aforesaid mules not being accustomed to orderly procedure, determined immediately to leave town unaccompanied. Quick as a flash, he skidded across the street, grabbed the bridle of one of the mules and brought it back; the mule seemed not to know just what it was or who the man was trying to hinder and started to march so, mule like, he turned up the street with its team mate, Prof. Pickens struggling heroically with the incorrigible animal. At the intersection of Main and Seventh, assistance came and the runaway team was halted. It was a noble effort.

COMER THE MAN OF HOUR WITH VOTERS OVER 2 COUNTIES

Washington Collector Declares Candidate Will Poll Large Ballot.

"He Will Make Best Executive"

Pugh States People Do Not Favor Him For Any Personal Friendship But For Principles.

Braxton Bragg Comer will certainly carry Washington and Clarke counties for governor of Alabama, and he will get more votes than all the other candidates put together, according to W. S. Pugh, Tax Collector of Washington county, who made his annual settlement Thursday with the state auditor. Mr. Comer carried both of these counties when he was elected governor in 1906, and Mr. Pugh declares that there is not the least doubt that the former executive is equally as strong as he was at that time.

"Comer is by far the strongest man for governor in Washington county," said the tax collector, "and the same conditions prevail in Clarke, because I come originally from the latter county and frequently visit there. I have found that a great many people are for Mr. Comer because they are convinced that he made a good governor when he was in the chair.

THE PROPER MAN

"They are not voting for him because of personal reasons, but because they think he is the proper man to have charge of the state government. At the present time, Comer has more strength than all the other candidates combined and he will sweep Washington and Clarke, unless some unexpected changes occur.

"I understand, also, that Comer has strength in Choctaw county, but I am frank to confess that I am not so very familiar with conditions in Choctaw, because I rarely get into that county."

Mr. Pugh said that Washington county has about 1,200 votes and Clarke about 2,000.

"The people of our sections are absolutely convinced of his sincerity and of his ability to handle the state government," added the collector. Mr. Pugh resides at Chatom, the county seat of Washington. Ledger.

FUNNY BUT TRUE.

It is wonderful how many men who never saw the inside of a newspaper office, can tell an old newspaper man how to run his business.—Montgomery Journal.

Not strange a bit. The fact that they "never saw the inside of a newspaper office" explains it fully.—Roanoke Leader.

BE SENT OUT TO TAKE UP CANINES

The large number of rabid dogs within the past week may result in the annual revival of the dog-catcher and the dog wagon. Two dogs were killed Tuesday within a few paces of the entrance of the city hall. Both were infected.

One commissioner favored the muzzling of animals in the down-town section, and another proposed the sending out of a wagon on its annual crusade against the canines.

A magnificent bulldog had to be shot Friday by Motorcycle Officer L. E. Curtis, who had been called to 211 Heron street. With its glaring eyes and display of fangs, the animal had alarmed some children, and they sought refuge in the house while the housekeeper notified the police station. The Policemen found the dog in the yard suffering with pydrophobia and ended its life. Journal.

DELEGATES ARE NAMED FOR GOOD ROADS MEET

Twenty Alabama delegates were appinted by governor O'Neal to represent Alabama at the annual convention of the United States Good Roads Association at St. Lous, Mo., November 10-15.

The delegates are: H. K. Milner Birmingham; John Craft, Mobile; John W. O'Neal, Birmingham; J. A. Rountree, Birmingham; N. C. Winn, Birmingham; M. B. Wellborn, Anniston; F. A. Gulledge, Verbena; W. B. Edmonson, Anniston; W. E. Skeggs, Decauter, Geo. H. Parker, Cullman; W. T. Brown, Ragland; E. B. Deason, Clanton; J. D. Bloch, Mobile; V. B. Atkins, Selma; Daniel Green, Birmingham, Judge W. I. Grubb, Birmingham, Hugh McGeever, Birmingham; W. P. G. Harding, Birmingham, Robert Rawls, Athens, M. P. Camper, Florence.

MULLINS FAMILY HOLDS A REUNION

Members of fourth generation of the Mullins family in point of numbers one of the most noted of the wiregrass section, have just completed a reunion at the old Killibrew woolen mills near Newton, that brought out some interesting statistics that would rejoice the Rooseveltian heart.

All of the attendants at the gathering were descendents of Louis and Catherine Mullins, pioneer settlers of the section who ran on the good old fashioned theory that large families were the best, with the result that they left 336 descendants of whom only 44 are dead. Mrs. W. W. Waldo of this city, is a grand daughter and with Mr. Waldo attended the reunion.

Children of the remarkable couple were S. Q. Mullins, father of twelve children: J. L. Mullins, father of ten; W. H. Mullins, father of eight; G. H. Mullins, father of nine; M. E. Reynolds, mother of seven; Emily J. Reynolds, mother of four; Catherine Byrd, Mother of twelve; Henrietta Wells, mother of eighteen; Della Grimes, mother of ten, and Octavo Byrd, mother of nine. Journal.

THANKS

We wish to extend our sincere thanks to our community, neighbors and friends for the kindness shown us during the illness of our precious little child, Pearl.

Mr. and Mrs. J. A. Brasfield.

FALSE REPORT

Rumors were flying thick and fast upon the streets of Clanton during Monday and Tuesday of another accident out at the dam, which upon investigation was ascertained to be without foundation.

One rumor had it that an overhead cable had broken precipitating a large quantity of rock upon workmen below and killing twelve of them.

Another rumor was to the effect that a boiler had exploded early Monday morning killing five men.

Both these rumors were traced by the Press man who could find no substantiation for them. They doubtless grew out of garbled reports of the collision which happened Sunday morning in which Ragland lost his life.

DISASTROUS WRECK

JOE RAGLAND KILLED; OTHERS INJURED.

Sunday was anything but a day of rest and quietude for those out at the river dam; in addition to a party of merry makers gathered there to enjoy the hospitality of the officials the pale horse was seen stalking about bringing sadness to many hearts.

About ten O'clock Sunday morning the train under directions of Mr. Zuber as conductor was working its way westward toward Ocampo, without orders, and came into collision with the engine of which Mr. Joe Ragland was fireman. It appears that the wires were down between the dam and lock four so that train orders could not be given; under such circumstances Mr. Zuber has always advocated "smoking in"—as the railroad men express it—in order to avoid possible dangers. On this occasion Mr. Zuber's crew were "smoking in" and at an "s" curve a mile out from lock four came in contact with the east bound engine; both were heavily loaded and each was under full steam trying to make a hill just ahead. The impact was just terrific, hurling those in the engines and cars about as if they were chips. Mr. Ragland attempted to jump through the window of his engine but his clothes caught upon a fire iron which fastened him half way in the car and directly in line of a flow of steam. Here Mr. Ragland was pinioned for some minutes till his body was almost roasted by the escaping steam. As quickly, however, as possible a man was put upon the shoulders of another and cut the cloths of Mr. Ragland thus releasing him from his death prison. He lingered till about eight o'clock Sunday night in the greatest agony when death relieved the unfortunate man.

The engineer was more fortunate; seeing the danger he jumped and thereby escaped injury. In fact both engineers and one fireman escaped with but slight bruises; Mr. Zuber, the conductor was more or less injured but is now resting quite comfortably at Hopkins' infirmary where he is being treated.

The body of Mr. Ragland was carried to Birmingham for interment Monday morning accompanied by several of his friends from the dam.

TWO CASES TRIED IN U. S. DISTRICT COURT

The United States District Court convened Tuesday morning with Judge Thomas presiding. The court occupied in trying two cases, both defendents pleading guilty to violation of the postal laws. The evidence was secured by Postoffice Inspector Brannon and his assistants.

Eugene Peterson, a 14-year-old boy pleaded guilty of stealing a package containing a pair of eyeglasses from a postoffice box at Thorsby, Chilton county, and was sentenced to serve three years in the juvenile reformatory at Washington. The boy will be taken to Washington to begin his term of correction at once.

The other case heard was that of the United States against Jesse Caddell, a rural letter carrier, at Jemison, Ala., who was charged with embezzling $14 in January, 1911. Mr. Caddell pleaded guilty and was sentenced to pay a fine of $28 and to serve five months in Montgomery county jail.

Cases that are on the docket for Wednesday are: The United States against Jesse Thornton, Wils Berry, Lonnie Durham and W. E. Carlisle.

Jesse Thornton is a young Coosa county boy charged with having secured cash on a postoffice order sent to another party named Thornton whom he represented himself to be. This occurred some months since when Miss Florence Hopkins (now Mrs. Denson) was connected with the post office, at Clanton; the post master was out at the time and there not being sufficient funds in the drawer to cash the postoffice order, young Thornton, who had represented himself as the party to whom the order was payable, was directed to go to the bank for the cash. This he did and it afterwards developed that he had secured the letter and the cash on the order by misrepresentation. Mrs. Denson went down Wednesday morning to be present at the trial.

MANY OLD OPPONENTS STRONG FOR COMER

THOMAS F. SEALE TALKS OF POLITICAL CONDITIONS IN WEST ALABAMA

Thomas F. Seale, of Livingston, chairman of the democratic county committee of Sumter county and one of the best informed political observers in west Alabama, spent Tuesday in Birmingham and discussed interestingly politics in Sumter county.

"Fully 90 per cent of the people of Sumter county who express themselves on the race for the governorship are for Comer," said Mr. Seale, "though Seed, Kolb and Henderson have supporters in our section of the state. Heretofore I have opposed Governor Comer in all of his political contests, and I find there are many in our county who have been against Mr. Comer in the past, but are supporting him at the present time." Ledger.

THE RESOLUTION ADOPTED

"Be it resolved by the Board of Commissioners of the city of Birmingham, that an advisory election be held on September 15, 1913, for the purpose of determining whether or not this board shall call and hold a regular bond election to authorize the issuance by the city of not exceeding $300,000 of five per cent bonds for the construction of a municipal auditorium."

MARION COUNTY IS ENTHUSIASTIC ON ROAD BOND ISSUE

BIG MEETING URGES ISSUING $100,000 AND IT IS THOUGHT IT WILL CARY OVERWHELMINGLY.

Hamilton, July 17.—(Special.)—The most enthusiastic good roads meeting ever held in Marion county was held in the courthouse yesterday. Every precinct in the county had prominent representation, and the building was crowdt ed with voters. The meeting was presided over by G. W. Maxwell and W. P. Letson was elected secretary. A resolution committee composed of one citizen from each precinct was appointed. Several speeches were made advocating the issuance of bonds for the working of roads. The following resolutions were unanimously adopted:

1. That we favor the calling of an election by the commissioners' court for the purpose of issuing bonds to build and construct a good system of public roads in Marion county.

2. That the amount of the bonds submitted at said election shall be in the sum of $100,000, in such denomination as the said court may see proper, said bonds to mature in 30 years.

3. That said election shall be called to be held not later than the second Tuesday in November, 1913.

4. That a committee of three shall be appointed by the chaiman of this meeting for the purpose of preparing necessary petitions to be presented to the voters, and later filed with the Commissioners' court looking to the calling of this election.

5. That a campaign committe be appointed by the chairman of this meeting after the said election is ordered, consisting of three members from each precinct.

The people of Marion county are fully aroused on the good roads question and there is no doubt but that the bond election will be called and that the issue will carry by a large majority.

HEALTH OFFICER'S REPORT FOR JUNE.

Births: White males	15	
" females	11	
" total	26	
Colored males	3	
" females	2	
" total	5	
Grand total of births	31	
Deaths: white males	2	
" females	8	
" total	10	
colored males	5	
" females	1	
" total	6	
Grand total of deaths	16	

The prevailing diseases are typhoid fever and measles. Our report of births, deaths, and infectious diseases are short of the average. The State Department of Health advises me to report names of delinquent doctors or midwives to the Probate Judge. We hope however that this will not be necessary as nearly all have reported this month.

As all reports are put on record in book form and bound and placed on open shelves in the State Health office for inspection for time to come, great care should be taken in their preparation.

I would also call the attention of the doctors to the lack of reports of typhoid fever. If they report more deaths from this disease than cases of the disease then it will appear from the record that the disease is very fatal or not well treated.

Yours for better reports,
County Health Officer.

U. S. BLUEJACKETS ATTACK SOCIALISTS

SEATTLE HEADQUARTERS OF SOCIALISTS AND INDUSTRIAL WORKERS SACKED.

A RIOT FOLLOWS SPEECH

Secretary of the Navy Daniels Had Declared There Was No Place for Red Flag in This Country.

Seattle, Wash.—A party of United States marines and sailors from the reserve fleet, most of the sailors wearing the name bands of the cruisers Colorado and California, started to "clean up the town," as they expressed it, by attacking Socialist and Industrial Workers of the World headquarters.

A second party of men from the Pacific reserve fleet attacked the big Industrial Workers' headquarters on Washington street, in the southern part of the city. The contents of the buildings were dragged into the street and a bonfire made of them.

A provost guard of fifty men from the fleet was hurried ashore in cutters to arrest all the men ashore.

Secretary of the Navy Daniels was dining on the curiser West Virginia, the guest of Admiral Reynolds at the time rioting began.

About a dozen sailors, all young, were in the first wrecking party that got under way. They were aided by several members of the Washington naval militia and by a hundred civilians, who had made most of the noise. Waving United States flags the storming party swooped down on the cart news stand of Milard Price, a Socialist orator, at the intersection of Fourth avenue and West Lake boulevard, the busiest night corner of the city. The cart was broken to splinters in a moment, and the big stock of Socialist papers and magazines were torn, tossed into the street and jumped upon.

Secretary Daniel of the Navy Department addressed a banquet given at the Ranier club in his honor, and spoke in eulogy of the American flag and took occasion to praise the attitude of the mayor of Boston, who stopped a red flag parade.

"The red flag has no place in this country," he said, "and believers in it have no place in this country. A mayor who does not enforce the law against the red flag is not fit to hold office, and people who believe in the red flag should be driven from the country."

Mr. Daniels then passed on to eulogize President Wilson and closed his address amid great cheering. His red flag remarks occupied only a minute and those who observed him closely say that he had no intention of making them apply locally. However, word was passed about the street that the secretary had made a long address devoted to the two flags and had urged that all believers in the red flag be driven out of the country.

HEAT WAVE STRIKES SOUTH

Reports of Deaths and of Prostrations Come From Many Cities.

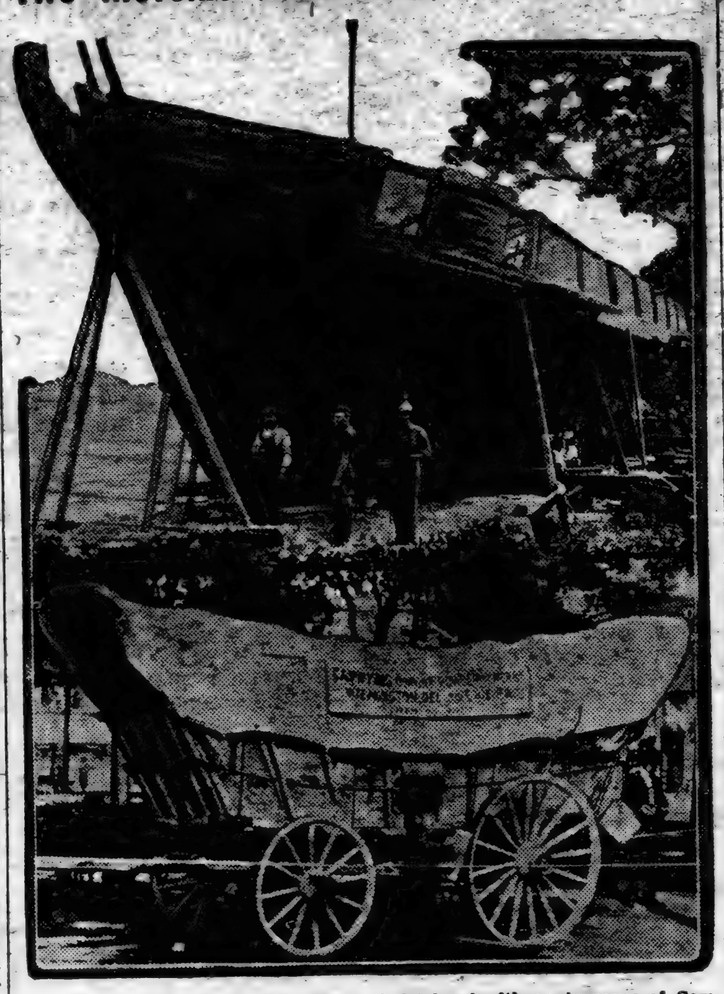
Atlanta, Ga.—The heat wave under which the southwest has sweltered the last few days pushed the mercury to 97 degrees in Atlanta, making a record for the year. The minimum through the day was 76 degrees, higher than it has been this year.

Reports from points throughout the south Atlantic states indicated intense heat from Virginia to Florida. The highest temperatures were recorded in Georgia towns. No deaths were reported.

At Macon, Ga., the mercury topped 104, the highest ever recored there. Street thermometers at Augusta, where there were five prostrations, registered 107 1-2. The government thermometer said 99.

Charlotte reported 101 degrees, the hottest in twenty-five years. The maximum at Jacksonville was 95. It was 93 in Savannah. At Columbia the temperature was 99.

In Knoxville there were six heat prostrations. In Indiana there were six deaths and numerous prostrations; in St. Louis three deaths were reported and as many prostrations; Louisville had five deaths and three prostrations, and from many other cities



Wilson's List Has Many Republicans.

Washington.—A large number of nominations of consular officers will be transmitted to the senate soon. The list will include many of the names contained in the slate which failed of confirmation at the close of the Taft administration. It is said this list will be the first demonstration of the purpose of President Wilson to continue the application of civil service principles in the consular service, as many of the officers named for promotion are either Republicans or of unknown political affiliations.

Chinese Revolters Defeated.

Peking.—Four thousand southern rebels from Nan King, province of Kiang-Su, who had crossed the Yang-Tse-Kiang, to attack the northerners, met defeat at the hands of 2,000 loyal troops near Suchowfu, in the northwestern part of Kiang-Su province a short distance across the northern border of Anhwei province. Doctor Sun Yat Sen, former provisional president of the republic, finally has taken sides in the revolt by openly proceeding to Nanking, where the southerners are much disheartened by their defeat.

TWO HISTORIC RELICS OF THE WAR OF 1812

During the current celebrations of the hundredth anniversary of Commodore Perry's victory on Lake Erie the center of interest naturally is his flagship Niagara, shown in the photograph as it appeared after being raised from the bottom of the lake. While Perry was waiting with his fleet at Erie, the very wagon shown below was toiling overland from Delaware with his ammunition.

U. S. REPLIES TO JAPAN

AMERICAN REPLY TO LAST TWO JAPANESE NOTES ON CALIFORNIAN CONTROVERSY.

Believed This Country Has Said Last Word Regarding California Land Law.

Washington.—The American reply to the last two Japanese notes on the California alien land law was delivered by Secretary Bryan to Ambassador Chinda, who at once cabled it to Tokio. As in the case of the preceding notes, contents of the latest one were withheld from publication.

There is some expectation in official circles that the delivery of this last note will conclude the negotiations on this subject between the two countries, for the present at least, if not altogether.

It is declared that the American reply to the various points of objection to the California legislation has been made so complete as to remove most of them from the field of discussion. Even in cases where the Japanese contentions have not been manifestly completely negatived the expert diplomatists are said to have so framed their responses as to reduce the points to clear issues which probably can be adjusted only on the basis of judicial decisions.

The result has been reached through the exchange of five notes, the negotiations beginning May 8 last, with the original protest by Japan against the projected alien land-owning act by the California legislature. This elicited a reply from Secretary Bryan

TURKS INVADE BULGARIA

Turkey Intends to Occupy Lot of Bulgar Teritory.

London, England.—Both Turkey and Roumania are rapidly pushing the occupation of as much Bulgarian territory as possible, not ostensibly with a view to permanent occupation, but in order to procure for themselves a weightier voice in the final settlement.

King Charles of Roumania has gone to join his army headquarters, the Turks have occupied Luleburgas, Bunar Hissar and Visa and are marching toward Kirk Kilisseh. The Greek army has occupied Nevrokop.

Arm of Law Found Man at Last.

Louisville, Ky.—Richard Allen, aged 58, said to be a prosperous farmer of New Madrid, Mo., is in jail here, and will resume his journey to the state penitentiary at Frankfort to serve a two-year sentence pronounced upon him twenty-six years ago for killing Deputy Sheriff Charles Tucker at Liberty, Ky. After his conviction twenty-six years ago, Allen escaped from the jail at Liberty and had not been heard from until recognized recently in Missouri by relatives of Tucker.

Reinsch Chosen Minister to China.

Washington.—Dr. Paul S. Reinsch, professor of political economy in the University of Wisconsin, has been selected for minister to China. Doctor Reinsch is a writer of recognized authority on Oriental topics and far Eastern politics. His works on these subjects have been translated into Japanese, Chinese, Spanish and German. Doctor Reinsch was born in Milwaukee, in 1869, was educated in Berlin, Rome and Paris and began his college career in the University of Wisconsin in 1889.

EUROPE PRESSES UNCLE SAM

WANTS HER TO DECLARE INTENTIONS IN REGARD TO MEXICAN CONDITIONS.

Situation Is Intolerable for Foreigners and Revolutionary Conditions Exist.

Washington.—Administration officials admitted that the situation in Mexico and diplomatic inquiries over Europe as to what the attitude of this country would be toward its neighbor on the south were engaging their deepest attention.

It is stated that European diplomats stationed in Mexico have sent to their respective governments identical notes in which they declare that the position taken by the United States with reference to Mexico is contributing to revolutionary conditions and suggesting that the representatives at Washington of the respective European countries be instructed to request recognition or that the United States assume responsibility for affairs here.

Mr. Bryan declined to say what the policy of the United States government would be toward any European representations, but intimated that a pronouncement on the situation might be expected in a short time.

GEORGIA URGED TO EXHIBIT

U. S. Commissioner Tells Legislators Appropriation Should Be Made.

Atlanta, Ga.—T. Sambola Jones of Louisiana, commissioner-at-large from the United States of the Panama-Pacific exposition to be held at San Francisco, Cal., in 1915, addressed the general assembly of Georgia extolling the merits of the great exposition and of the Panama canal and urging that a proper showing be made by the state of Georgia.

Mr. Jones emphasized the fact that the South would be the main recipient of any good that may and will be derived by the completion of the Panama canal and stated that every Southern state would answer to the roll call in 1915 by an adequate exhibition of their products, and that Georgia by virtue of her high rank among the states should have an exhibition which would be representative of her natural resources.

Inez Milholland Married.

London.—Miss Inez Milholland, the New York suffragist, was married in London to Eugene Boissevain, a wealthy Dutchman, whose home is in Amsterdam. Inez Milholland is the daughter of John Milholland, a wealthy New York lawyer, and is herself a practicing lawyer with offices in the financial district, New York. She has been prominent in woman's suffrage work since her graduation from Vassar. She has appeared in her professional capacity in legal cases affecting the condition of working girls.

Lightning Bolt Kills Girl.

Adairsville, Ga.—When lightning struck the home of John Gentry, a farmer living about five miles from here, his granddaughter, Nate, was instantly killed and Mr. Gentry was knocked unconscious. He will recover, but his body is burned from head to feet. The lightning came down the chimney and tore its way through the side of the house and one fireplace upon which the young lady was sitting. [illegible]

AMERICAN EAGLE TO STRETCH WINGS

PROPOSAL FOR PROTECTORATE OVER NICARAGUA FORECASTS NEW POLICY.

PRESIDENT FAVORS PLAN

Senators Divided on Proposition. Sensation Is Created in Diplomattic Circles.

Washington.—The proposed new Nicaraguan treaty, virtually establishing an American protectorate over Nicaragua, which Secretary of State Bryan urged before the senate foreign relations committee with the consent and approval of President Wilson inaugurates a vastly important new policy for this government in relation to its Central American neighbors.

It will ultimately establish the United States as Lord Paramount of the western hemisphere, and has led to the suggestion that Mr. Bryan has abandoned his anti-imperialist views.

The matter has become the absorbing topic of diplomatic and congressional discussion.

While official utterances have not been given of the purpose of the administration to outline a general policy toward Central America, members of the senate evince a growing conviction that the principle to be applied to Nicaragua is one that the Wilson administration would be glad to see extended to the other Central American republics.

Members of the foreign relations committee who were present when Secretary Bryan unfolded his plan continued to assert they could not discuss the new development. The original Nicaraguan treaty has been the subject of open discussion among senators. This compact did not go further, however, than to guarantee the United States exclusive canal rights, and naval base site, in exchange for a payment of $3,000,000 in gold.

The later project to extend a virtual protectorate over Nicaragua, has assumed the character of an international policy, which members of the senate are discussing with emphatic expressions of opinion. It is believed that Senators Clarke of Arkansas, Borah and some other influential members of the foreign relations committee will take the general attitutde of opposition toward the Bryan-Wilson plan; while Senators O'Gorman, Burton and several others are known to favor many of its essential points.

NO FILIBUSTER ON TARIFF

G. O. P. Senators Say They Will Not Delay Measure.

Washington.—Republican senators have served notice upon their Democratic opponents that there is to be no unnecessary delay of the Underwood-Simmons tariff revision bill. While the sharp tongue of Republican criticism and dire prediction is to be loosed throughout the tariff debate, the Republican do not plan to add any general filibustering tactics or to attempt to hold up final action on tariff revision.

This policy has been partially outlined in the opening speech of the Republican opponents of the administration bill, in colloquies on the floor of the senate and in private conferences among senators. Within the next few days a series of vigorous attacks are to be made on the general principles of the Underwood-Simmons bill, following out the lines of Senator Cummins' speech.

The general denunciations will be followed by concerted attacks on certain schedules, where the Republicans insist that the new measures will mean ruin to American industries. The Democrats are prepared to meet all the Republican arguments

Engineer Cuts Throat.

Decatur, Ala. — Pinned beneath an overturned locomotive, Huston Fleming, an engineer, put an end to his torture by cutting his own throat when spectators of his plight refused his request to kill him. Fleming, with Floyd Hamlin, an air inspector, was testing a new locomotive in the Louisville and Nashville yards when it was hurled from the tracks by a switch engine and overturned.

Storm Ravages New Orleans.

New Orleans.—Five persons were hurt when a severe electrical and wind storm struck Spanish Fort, an amusement resort on Lake Pontchartrain, blowing 25 feet of transom from the theater roof down upon the audience, extinguishing the lights and causing pandemonium. A bolt of lightning struck and fired a tank containing 26,000 gallons of oil across the river in Algiers, the property of the Texas Oil company. The loss will be about $25,000. Lightning damaged and the electric light plant in Algiers.

Bulgaria Is Begging for Peace.

London.—The advent of a new Bulgarian cabinet, comprising a coalition of the liberal groups, seems to have brought a prospect that peace negotiations soon will be entered into. After vain attempts separately with Roumania, the Bulgarian government seized on the advice of Russia and referred to Roumania an inquiry [illegible]

BUSINESS TREND IS IN RIGHT DIRECTION

Cheerful Views Predominate Despite Dull Season.—Labor Well Employed.

New York.—Dun's review of trade says:

"The trend of business is still in the right direction, even though progress is slow. This is ordinarily a dull season and various restraining factors curtail activity, yet encouraging features are manifest and cheerful views predominate. In the great crop producing regions optimism is general owing to prospects of another prosperous year on the farms. Eastern financial markets recently have been confronted with an unusual array of adverse influences, yet it is significant that these have been largely ignored and for a time this week securities advanced in an impressive manner. Sentiment responded to the agreement to arbitrate the railway labor controversy and the offerings of foreign funds at this center, both of which tended to offset the developments in the Mexican situation. Changes in strictly commercial and industrial conditions are mainly favorable with improvement in some instances quite pronounced. Wholesale distribution continues restricted—as usual at this time but warm weather has stimulated the retail demand for seasonable clothing and footwear.

"Midsummer shutdowns of the steel mills were of brief duration, as pressure for deliveries continues and new orders are in well maintained volume. More activity is apparent in pig iron, the buying movement broadening under the stimulus of lower quotations. Traffic returns indicate continued gain in railroad gross earnings over last year—the increase during the first week of July being 4.4 per cent—but bank exchanges this week declined 5.3 per cent, owing mainly to the dullness in speculative channels. There was, however, a slight improvement of 0.4 per cent as compared with 1911.

Commercial failures this week in the United States were 272, against 250 the corresponding week last year. Failures in Canada number 36 against 37 last year."

New York.—Bradstreet's statement of trade says:

Trade is quiet as a whole, a condition usual at this season, but despite tariff uncertainty, which has tended to deepen of late, and high rates of money, the needs of nearly 100,000,000 people from day to day with necessary provisions for short distances ahead make for a very fair volume in the aggregate. Best reports as to activity come from agricultural sections, while industrial centers, and particularly the east, return relatively the slowest advices.

Labor, aside from a few lines, is well employed, and midsummer shut downs in heavy industries are no longer than usual. Crop prospects in some sections, notably the northwest and west, are such as to stimulate fall trade preparations. Buying in these sections is classed as good, probably better than a year ago. Textiles are still the center of the tariff storm, but even here there is a lack of uniformity in trade reports, cotton and silk goods faring better than wool fabrics, and even the latter showing differences as between various divisions of that trade.

Wheat, including flour, exports from the United States and Canada, for the week ending July 17, aggregate 3,599,406 bushels, against 5,176,622 bushels last week and 1,984,456 this week last year. For the two weeks ending July 17 exports were 8,776,028 bushels, against 4,479,863 bushels in the corresponding period last year. Corn exports for the week were 225,612 bushels, against 91,992 bushels last week and 44,594 bushels in 1912. For the two weeks ending July 17 corn exports were 257,605 bushels, against 170,773 bushels last year.

Business failures for the week ending July 17 were 231, which compares with 288 in the like week of 1912.

Business failures in Canada number 34, compared with 22 the corresponding week last year.

NEWS BREVITIES.

New York.—Charged with attempting to carry out a suicide pact, Maurice Doherty, 30 years old, and his wife, aged 28, are in a hospital technically under arrest. They have been married only a month. They were found in a critical condition from poison. They refuse to tell why they attempted suicide.

Spartanburg, S. C.—The U. S. public health and marine hospital service will establish a receiving station here for pellagra patients.

New York.—Hugo Meisner, apprentice in a Brooklyn ice plant, was found frozen to death in an abattoir of ammonia which he entered to adjust machinery.

Seattle, Wash.—The annual potlatch celebration marked the arrival of the steamer Senator from Nome, Alaska, with $700,000 in gold bullion.

New York.—A stock exchange seat sold for $37,000, which is $3000 below the previous low record.

Jackson, Miss.—The Union Trust & Title company of New Jersey, [illegible]

MEXICAN SITUATION NEARING CLIMAX

STRIFE BETWEEN HUERTA AND REVOLUTIONISTS DRAWING TO HEAD.

AWAITING WILSON'S REPORT

Reports of Impending Collapse of Provisional Government Cause Excitement.

Washington.—Reports of conditions surrounding the Huerta government in Mexico have put administration officials in an attitude of keenest apprehension toward the situation there. Advices which officials believe are perfectly trustworthy seem to indicate that the strife between the Huerta regime and the revolutionary movements is nearing a point where some definite conclusion is to be reached.

Information of this situation was permitted to become known when supplied with the authoritative statement that the United States was making no additional naval or military preparations. Reports of impending collapse of the Huerta regime are being talked over freely in official circles, though no official of the administration will permit his name to be supplied with them. All information for the public was with the stipulation that it should be represented as reflecting the views of the administration.

Meanwhile President Wilson is awaiting the coming of Ambassador Henry Lane Wilson, hurrying home from Mexico City, to make a first hand report of conditions. His reports will be compared with those President Wilson has received from other sources. Secretary Bryan, who has cancelled some of his lecture dates that he may return to Washington, will participate in the conference.

Refusal of foreign consular representatives to hold a parley with General Urbina, the Mexican revolutionary leader, before his attack on Durango, is given as the reason for the outrages against residents, irrespective of nationality, following the recent rebel occupancy of the city. According to state department advices received. General Urbina sent the consuls word of his intention to besiege Durango and sought a conference with them. As a retaliation for the refusal to meet him, it is said the city virtually was given over to the soldiery and the mob, who fired and plundered property indiscriminately. Money was demanded from the foreigners and from wealthy citizens. Supplies now are very high and Consul [illegible] fears that famine is ahead, although all Americans remaining in the city are reported well.

The state department has been advised that the government at Mexico City has expressed its intention of preventing a demonstration upon the arrival of the new Japanese minister which might be considered anti-American in character.

Transportation facilities in Mexico continue in a state of demoralization. More than 200 bridges have been destroyed between Monterey and Torreon.

So delicate is the Mexican situation considered in official circles that the White House issued the following statement to clear up misrepresentations:

"On his attention being called to the following statements appearing in certain afternoon newspapers (1) that the president had stated that he did not recognize the Huerta administration, and that it would not last a year; (2) that the president has stated that this country would establish a protectorate over all Central American countries to guard the Panama canal, Secretary Tumulty stated that there was absolutely no foundation in fact for either of the above statements, and emphatically denied that the president had expressed any opinion at this time regarding the Huerta administration or its stability, or stated any intention as to its recognition.

TWO FARMERS ASSASSINATED

Bob Miller and Rube Carter Fired From Ambush.

Cullman, Ala.—Unknown assassins fired from ambush and killed two farmers, Rube Carter and Bob Miller, along the road about two miles east of here. Only one load of buckshot was fired from a shotgun, both men being killed and the assassins escaping. Court troubles of some kind are believed to have been at the bottom of the double killing.

FILES $75,000,000 SUIT

Mississippi Attorney General Files Unlawful Merger of I. C. and M. V. Roads.

Jackson, Miss.—Attorney General Ross A. Collins announced that he will file in Coahoma county suit against the Illinois Central railroad & Mississippi Valley railroad, charging an unlawful merger. The penalties approximating [illegible] attorney general states that the suit will be filed in the chancery court and will be vigorously prosecuted.

SAM SPICER IS CONVICTED

Andalusia Man Also Charged With Killing Negro to Conceal Crime.

Sam Spicer, of Andalusia, was convicted of murder in the first degree and his punishment was fixed at life imprisonment by a verdict rendered after the jury had deliberated three hours. Spicer was charged with killing his wife, Mrs. Noble Spicer, and Joe Green, a negro, to obtain insurance money amounting to about $15,000, carried on his wife's life. Spicer took the verdict of the jury calmly. His attorneys announced an appeal would be taken to the supreme court.

* * *

A circuit of county fairs has been organized and their dates set as follows: Clarke county fair at Thomasville, October 7-11; Hale county fair at Greensboro, October 15-19; Perry county fair at Marion, October 22-25, and Baldwin county fair at Bay Minette, October 29-November 1. The fairs on this circuit will co-operate in the matter of getting attractions and exhibits and expect to employ the same carnival company for each fair.

* * *

After having failed to end his life by swallowing carbolic acid, Albert L. Hackworth, a well-known citizen of Tuscumbia, employed for several years in Tuscumbia and Sheffield, leaped from his bed, grabbed an automatic shot-gun, which was standing in the corner of the room, and fired a load of shot into his heart. He fell over dead. His wife was lying by his side and witnessed the tragedy, being powerless to prevent it.

* * *

The semi-annual convention of the Third Pythian district, which includes the Knights of Pythias lodges of Jefferson, Walker, Cullman and parts of Shelby and Bibb counties, will be held August 14 at Dolomite. This convention promises to be one of the best attended and most enthusiastic in the history of the order.

* * *

E. C. Boswell, a young white man, was convicted at Troy of getting money on false pretenses.

* * *

Considerable improvements are being made at the Girls' Technical institute at Montevallo.

* * *

The annual state convention of the Farmers' Union will convene in Montgomery August 20-22.

* * *

Mr. and Mrs. Arthur Clark of Clay county were injured in a runaway, Mrs. Clark seriously.

* * *

Huntsville's new Country club has sought an option on Byrd spring and 200 acres of land.

* * *

The city council of Troy voted to dedicate the Permanent Way park [illegible]

CONFERENCE OF FARMERS

Large number of Etowah County Farmers Entertained in Gadsden July 23.

A large number of Etowah county farmers were entertained in Gadsden July 23, when the farmers' conference, under the auspices of the Chamber of Commerce, was held. Capt. Ruben F. Kolb of the state department of agriculture; J. B. Hobdy of Auburn and other prominent men delivered addresses. At the conference the Etowah County Farmers' Improvement association was formed. The association will be an auxiliary to the Chamber of Commerce and business men and farmers will work in harmony for the upbuilding of the city and county. The plan is a novel one and has not been tried, it was stated, before in Alabama.

TWENTY DELEGATES NAMED

Will Represent Alabama at St. Louis Convention.

Twenty delegates to represent Alabama at the annual convention of the United States Good Roads association, St. Louis, November 10-15, have been appointed by Governor O'Neal as follows: H. K. Milner, Birmingham; John Craft, J. A. Rountree and N. C. Winn, Birmingham; M. B. Wellborn, Anniston; F. N. Guledge, Verbena; W. B. Edmondson, Anniston; W. E. Skeggs, Decatur; George H. Parker, Cullman; W. T. Brown, Ragland; E. B. Deason; Clanton; J. D. Bloch, Mobile; John W. O'Neill, Birmingham Greene, and Judge W. I. Grubb, Birmingham; Hugh McGeever, Birmingham; W. P. G. Harding, Birmingham; Robert Rawls, Athens; M. P. Camper, Florence.

ALABAMA BREVITIES.

Work on the new oil mill at Opp is progressing.

* * *

Pea river bridge in Geneva is open for traffic.

* * *

Troy's artesian well is 175 feet, but has to go deeper.

* * *

Three men of Huntsville want to be city commissioner.

* * *

Jerry Alexander was killed by lightning near Dadeville.

* * *

The mill of the Lindsey Lumber company at Pollard was burned.

* * *

Work has begun on the manse of the Presbyterians of Huntsville.

* * *

The roads in Coffee county are reported as being in bad condition.

* * *

Mrs. Matilda Stephens, 93, celebrated her birthday at Troy on the 11th.

* * *

W. S. Irby's new gin house at Lower Peachtree was blown down by a storm.

* * *

Two negroes were killed by lightning at Flea Hop, in Tallapoosa county.

* * *

Reports say that all parts of Tallapoosa has had good rains or some rain.

* * *

The plant of the Alabama Power company at East Gadsden is nearly completed.

* * *

Tuscumbia had a big fire. The loss is estimated between $25,000 and $30,000, and may even go beyond the latter figure.

* * *

A son was born to John Vincent and ten hours later a daughter was born to his brother, Joseph, both of East Gadsden.

* * *

Governor O'Neal appointed W. Y. Atchison of Maplesville as a member of the board of county commissioners of Chilton county.

* * *

A movement is on foot to establish a big morning daily newspaper in Dothan. It is proposed to have a capital stock of from $10,000 to $25,000.

* * *

Governor O'Neal appointed D. H. Slade of Magnolia a member of the board of pension examiners of Marengo county. Mr. Slade's appointment becomes effective immediately.

* * *

Gadsden's advantages as a place for locating the proposed armor plate plant have been presented to the authorities at Washington. It is contended that its position on the river gives it an advantage over other applicants for the plant.

* * *

President John Craft of the Alabama Good Roads Association, has been appointed by Governor O'Neal as delegate to the United States Good Roads Association Convention and Exposition, which is to be held in St. Louis, November 13-14.

* * *

Sinclair Wade shot and instantly killed Buck Willis on the Porter place near Town Creek. Immediately after the killing the slayer fled and has not been captured. All of the parties are negroes.

* * *

It is understood that the proposed deep water Panama Canal celebration for Mobile, to be held [illegible] at the convention of the Southern Commercial Congress in Mobile April 30 next.

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

One sure way to clear up boot legging is for men to refuse to go on the bond of those whom they know to be guilty. A good dose of prison life, prison food and prison reflection would work wonders.

Clanton can secure a High School if it will; Clanton is entitled to a High School; the future of a large majority of Clanton's children depends upon securing a High School. Will Clanton rise equal to the occasion and secure what is justly her own? Will she provide for her children that to which they are entitled? A little systematic work will turn the trick; a little self sacrifice will bring the answer. Clanton can, we believe Clanton will.

The boll wevil while not yet reported in Chilton is said to be within striking distance. Gather this crop, Mr. Farmer, and then fool the weevil bug by planting corn, peas, potatoes and grain. You'll find him a money destroyer if you undertake to plant cotton. Learn from the experience of others to be wise.

If we were the Legislature of Alabama there are a number of things we would do; for instance we would so change the present Fuller bill as to make it a misdemeanor punishable by fine or imprisonment or both, to sell good whiskey in prohibition territory, and we'd make it a felony punishable by death to sell such stuff as is boot-legged about the county. A man would sell some of the poison that is palmed off as whiskey would not hesitate to commit murder if provication or opportunity presented itself. The only difference is that one is a slow, degrading death while the other would, possibly, be quick and almost painless.

The day was when a father could provide a common education for his children and feel that he had discharged his fatherly duty. The day was when a boy equipped with a common school education could get along fairly well in the world, but that day has passed. The educated farmer is as far above the uneducated farmer as the present day limited express is ahead of the old stage coach. Success, achievement and happiness these days are all largely dependent upon education and he who fails to provide a liberal education for his children fails in the most important duty of life.

Comer still stirs things up. Strange his "weakness" attracts so much attention and requires so much of the eloquence of the other candidates.

COURTS AND WITNESSES.

That court proceedings need revision along more lines than one was clearly demonstrated the other day in the Montgomery courts. Chief of Police Hayes was summoned to Montgomery instanter ni a certain horse stealing case. He went; when he arrived—as instanter as possible—he found that the Grand jury had adjourned till the following Monday and was instructed to return Monday for examination. This he did and was then mformed that the jury had secured sufficient evidence on which to warrant an indictment without his presence.

Two days away from his duties; two days pay from the treasury of the county with mileage added and yet not a word spoken in court!

This is but one of many instances where the money of the people is uselessly expended. Witnesses and jurors summoned who are never used yet whose time is taken from their regular occupations and who are paid ont of the county treasury!

These same Grand juries frequently have much to say about guardling the finances of the county—the strong box of the "people."

Our friends are invited and requested to send us in all the neighborhood news; we will appreciate it and so will our readers.

Subscribers who do not receive their paper regularly and on time are requested to notify the editor of the Press, giving date and post office address.

Articles containing advertising matter of any character will not be published as news unless paid for in advance and are marked as advertising.

Notices of all-day singings and kindred subjects are invited as news articles, but they will not be published more than one time except as advertising matter at regular rates.

We wish to cater to our friends and patrons, but dislike to publish articles signed "Somebody's Sweetheart" or "Nobody's Darling" or with other kindred pet names; get something more classical.

Subscribers who are in arrears must forward subscription price in order to keep their subscriptions alive. The Post Office department requires this of us and we request it of our patrons.

Subscribers who wish their address changed MUST furnish the old address together with the new; this is absolutely necessary and unless the old address is given no attention will be paid to requests for change.

Unsigned articles invariably go to the waste basket. If you do not wish your name published we will not do so, but we must have it as a guarantee of good faith. Select a nom-de-plume and stick to it, but always give your proper name in the margin of your communication.

On and after this date all newspaper subscriptions are invariably payable strictly in advance. There will be no variations from this rule. It is the rule of all other newspapers and we have decided to adopt it and adhere to it. Please be governed accordingly.

Articles riduculing or reflecting upon others ither in a social or political way—or otherwise—will not be published except when paid for at regular rates (cash to accompany communication) and signed by the writer with proper name. Even then we reserve the right to reject such articles if in our opinion they are objectionable.

We have heretofore charged nothing for publishing obituaries, but our columns cannot be used as grave stones without we receive something for the service. Three hundred words will be published absolutely free, but all in excess of that number must be paid for at the rate of one cent per word—cash to accompany.

LEGAL NOTICE.

The State of Alabama,
Chilton County.

In The Chancery court of said county, Seventh District, Northern Chancey Division.

The town of Thorsby, Ala.,—VS S. O. Brant, Della Goldbin, C. H. Swan, J. L. Weal, Emil Carlson, and Emil Larson.

In this cause it is made to appear to the Register, by the certified tax list heretofore filed in my office at Clanton, Ala., by the town of Thorsby on the 20th day of May, 1913 that the following list of property in the said town of Thorsby, Ala., was assessed to the following named persons towit:—

10—C. H. Swain, Beginning at a point 50' south of the N.E. corner of S.E. 1-4 of S.W. 1-4 of S.W. 1-4 of Sec. 6, T. 23 Range 14, thence south 50', thence west 140', thence north 50', thence east 140' to the point of beginning, for the tax year 1912.

11—To J. L. Weal, N.W. 1-4 of N. E. 1-4 of S.W. 1-4 of Sec. 1, T. 22, R. 13 for for the tax year 1912.

12—To Della Goldbin, S.W. 1-4 of N. W. 1-4 of N.W. 1-4 of Sec. 7, T. 22, R. 14 for the tax years of 1911 and 1912.

13—To Emil Carlson, Lot One (1) in block eveven (11) for the tax year 1912.

15—To Emil Larson, N.E. 1-4 of N.E. 1-4 of S c. 6, T. 22, R. 14 for the tax year 1912.

16—To S. O. Brant, Lots number 17 and 18 in Block (2) for the tax years 1909, 1910, 1911 and 1912.

And that summons having been issued to said above named property owners as required by law, has been returned by the Sheriff of Chilton county, Alabama "not found."

It is therefore ordered by the Register that publication be made in the Preess, a newspaper published in the county of Chilton, state of Alabama, once a week for four (4) conservative weeks, requiring them, the said S. O. Brant, Della Goldbin, C. H. Swain, J. L. Weil, Emil Carlson and Emil Larson to answer or demur to the same within thirty (30) days after the 16th day of August, 1913 and failing to do so, a final decree will be made by the Chancellor of the northeastern chancery division of Alabama adjudging the above described property liable for such taxes and directing the Register in Chancery to sell said property for the payment of the taxes, charges and penalties interests and costs that are charged thereon unless the amount due and costs shall have been paid to the Register aforesaid before such date.

Done at office in Clanton, Ala., this the 18th day of July, 1913.

H. M. Simpson, Register in Chancery.
7-24-4t

Mr. and Mrs. H. B. Fulton and children, who have been visiting Mrs. Fulton's parents here, left Wednesday for Frankfort, Ky., where they will spend some time with the relatives of the former, after which they will visit other points of interest.

Foundation of Prosperity

It should be a source of pride and gratification to the farmer to reflect that his endeavors constitute the very basis of national and international prosperity. Industrial, financial and commercial discontent may produce discord in the business organization; but let serious affliction beset the agricultural interests of the country, and downright calamity results.

Agriculture is the very fountain head of life. We do not mean to confine life to a bare existence—the air we breathe, the water we drink, the food we eat, the clothes we wear. We mean life in its broadest aspect. Education, that makes for progress; culture, that makes for enjoyment; ambition, that stimulates effort; success, that makes for happiness.

It is therefore the part of wisdom for the thoughtful individual to co-operate with those engaged in agricultural pursuits. And by agricultural pursuits we mean the growing of things to eat and wear; the various branches of poultry and dairying. We go a step beyond agriculture and include mining—in fact include everything that comes out of the ground.

That is why our Agricultural Bureau was organized. We want to contribute to the successful development of the territory through which our lines operate and from which we draw our revenue. With increased prosperity for that territory comes increased prosperity for us.

Our Immigration and Industrial Bureau has been in operation for a number of years. Its efforts to locate desirable citizens throughout the territory of the Southeast have been successful. The Agricultural Bureau will now endeavor to be of assistance, not only to these new and comparatively new arrivals, but to all who will avail themselves of the service, which is offered free.

Communications addressed to Mr. G. A. Park, General Immigration and Industrial Agent, Louisville, Ky., will receive prompt and cordial attention.

Louisville & Nashville Railroad Co.

SOUTHERN UNIVERSITY

Greensboro, Ala.

A SCHOOL OF CHARACTER

THE COLLEGE

1. The EDUCATIONAL STANDARDS meet the college requirements of the National Association of State Universities, of the Southern Association of Schools and Colleges, and of the Alabama Association of Colleges of which the institution is a member. The curriculum is high and varied, and the instruction is careful personal and thorough.

2. The IDEAL of the institution is the development of CHRISTIAN CHARACTER. It believes the studies are more impartant than athletics, and that righteousness is more important than all. And this belief determines its whole attitude and policy.

3. The COST per year is very low. Tuition, fees and board amount to only $200 for the full nine months session,—$150 for the sons of ministers and ministerial students.

THE FITTING SCHOOL.

For the benefit of students who are not yet prepered to enter college, but who desire the advantages of a high grade preparatory school, the Southern University has established and maintains its FITTING SCHOOL. This school offers a standard high school course under peculiarly attractive coditions. Students of the Fitting School enjoy the privileges of a college gymnasiun, library, Y. M. C. A., and all public lectures and entertainments given by the college. At the same time, they have their own dormitory, where they live together with the principal and his family and the Matron, and so have the advantage of close association with their teachers, and constant supervision by them. The cost is the same as in the college.

FALL TERM OPENS SEPT. 10, 1913.

ANDREW SLEDD, Ph D. (Yale) D. D., L. L. D., President,
RALEIGH W. GREENE, B. S., B. D., Prin. Fitting School.

Do You Know What

Had You Thought What It Means to Look Neat?

We take your old clothes, remove all ink and grease spots, repair torn places, renew "wholly" pockets, press them neatly and return them to you at an insignificant cost, but at a tremendous saving to you.

We make OLD Clothes look NEW. Ladies Skirts and Waists a specialty

Look up your old clothing and give us a chadoe to renew them for you. Let us rejuvenate your wardrobe

That's What The Firm Of

B. E. Jones & Bro.

Claims To Be

We make all of our claims good—why shouldn't we? We make no extravagant boasts; hence, we can keep our promises inviolate.

When we say we have the best selected stock of DRY-GOODS, SHOES, HATS, HOUSE-HOLD FURNISHINGS, GROCERIES, FEED-STUFFS and general supplies at the most reasonable prices, we are prepared to make this statement good in all respects.

If you have not already done so, give us a trial and prove the quality of our truthfulness, as well as the excellence of our goods.

B. E. Jones and Brother
Clanton, - Alabama.

No: Six-Sixty-Six

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

Miss Sallie Mac Robertson, whom no more popular young ever visited Clanton, who has been the guest of Mrs. J. H. Middle left for her home at Fayette T day evening, much to the re of her many friends here.

LOCAL & PERSONAL

Mr. J. P. Gore and little daughter Jewel are visiting relatives and friends in Maplesville and Centerville this week.

Mr. E. Hopkins accompanied his daughter, Mrs. Denson to Montgomery Wednesday where the latter goes to testify in the case of the government against Thornton charged with obtaining money falsely from the postoffice.

The moving picture show is growing in popularity as it should. Mr. Rubenstein is now putting on some real interesting as well as attractive pictures.

Obey That Impulse!

Instead of enduring the daily tormen, weak back, backache, sore kidneyst pain joints and rhematism, obey that impulse to take Foley Kidney Pills. They co-operate with nature, which acts for their success in all kidney and bladder disorders. They are healthstrengthening and tonic. Obey that impulse to-day and give them a chance to help you. Alred Drug Co.

Do you want your collars and cuffs made new? Take them to Mc. D. Ruffin and see results. Old stand.

Rev. L. H. S. Chappelle and son closed a most successful and interesting revival service at Mount Zion church last Sunday night. Quite a number of children were baptised and a number of members were received into the church in addition to a great revival of the church members.

The Methodist Ladies will serve ice cream, cake, home-made candy and fruit punch at Alred's Drug store on Thursday afternnoon and night, July 24, beginning at 3 o'clock. Your patronage is solicited.

Mr. and Mrs. John Garner who have been spending sometime at Bell's springs in the hope of benefitting the health of the former have decided to return immediately to their Florida home.

FOR SALE—60 acres of land; 35 acres in cultivation; 4 room dwelling and one tenant house. Will sell at a bargain, if sold within 60 days. Three miles southeast of Clanton.

Alonza L. Williams.

In this issue appears the advertisement of the Alabama & Georgia Real Estate Company of which Mr. W. W. Langley, a former Clanton man is manager. He has some very interesting facts for the home seekers and what he says is backed by a positive guarantee.

Your Laundry work is the best obtainable. Laundry collected and delivered promptly. None but the "perfection" work. Mc. D. Ruffin.

DON'T use a cough medicine containing opium or morphine. They constipate the bowels and do not cure, only relieve the cough. Examine the label and if the medicine contains these harmful opiates refuse it. Foley's Honey and Tar Compound contains no opium and is healing and soothing. Alred Drug Co.

The Press is now equipped with a new typewriter purchased from the Typewriter Exchange of Birmingham of which Mr. E. W. House is manager. By the way Mr. House while here left an advertisement of his enterprising house which appears elsewhere. Read it.

Mrs. S. J. Watts has been confined to her room with fever for the past several days much to the regret of her many friends.

Miss Gertrude Wimberly of Reform a most interesting young lady is the charming guest of Miss Lizzette Matthews.

To get good results, patronize a good Laundry Mc. D. Ruffin presents the very best ever. Work correct; work guaranteed.

Mr. J. D. Sims who lost his glasses in a blue bird some days ago, was in Clanton Monday preparing to receive instructions as to the duties of his new job. He arrived in time Tuesday to take his lessons before the early south bound train.

Miss Deason has named the new addition to his family Master Deason in honor of his friend Dr. Chas. Strock of Birmingham.

Mr. Peyton D. Wilson spent Sunday at McNeill springs for his health.

Mary Thornton, colored, was put in jail Sunday night, charged with the theft of a watch from Mrs. Grant, another brother in law.

Mr. Cliff Giles is again the "jerk water" at the refreshment counter of Mr. Jos. P. VanDerveer, Jr.

Monday morning's north bound accommodation carried something over two-hundred negro men to Ocampo bound for the river dam. Some dark traveling in the day time!

Miss Mary Will Stewart, now connected with St. Margaret's Infirmary of Montgomery is in Clanton on a visit to her mother.

You can tell our laundry work wherever you see it. Domestic finish, snowy whiteness, no rough edges. Mc. D. Ruffin (Old stand)

Judge S. M. Adams has returned from a visit to his Florida home and reports everything lovely down about Dade City.

Mr. Chas. Gulledge of Verbena spent Sunday with friends here.

NOTICE.

The new CLANTON AMUSEMENT CO. have equipped an electric theatre with first-class Moving Picture service. Three long reels with new and up-to-date pictures every night. It is educational to children and clean moral pastime for adults. We will entertain you for a solid hour or so for the nominal admission of 10 cents; children under 12 5 cents; little fellows under 5 free. We change program every night with 3 new reels of pictures. If you will help us with your patronage, Clanton will have as good an electric theatre as any city in the South. We give two continuous performances every night, 7:30 and 8:30. The house is equipped with electric fans, which makes it cool and pleasant. Come to see us and bring the children. It is Educational.

Clanton Amusement Co.

Personal Appearance is a Personal Asset

LOOK PROSPEROUS——GAIN STATION!

THE old saying that a "Man is known by the clothes he wears" may be obsolete. In fact Bobby Burns said

"A Man's a Man For All O' That."

But somehow the world doesn't look at it that way.

You've Got to Dress to Dance, You Must Dance to Borrow Money, You Ought to Dress Anyway for Your Own Sake.

¶We are moving heaven and earth to clothe Clanton and the country side. Realizing our responsibility we bought largely of the best manufacturers. We bought so that we could sell closely and dress our customers fashionably at the least cost.

Suits, Trousers, Coats, Hats, Shoes, Underwear, Shirts, Collars, Socks, Cravats, Handkerchiefs, Gloves.

We are moving these goods at phenominal prices—prices that would astonish the WHOLESALER and make him scared.

It's Up to You to Get Yourself Rigged Out In Togs That Tell.

Tell It To Us and Let Us Tell It To the World Through You!

NO TROUBLE TO SHOW YOU EVEN IF YOU DO NOT PURCHASE.

NOTICE.

The new CLANTON AMUSEMENT CO. have equipped an electric theatre with first-class Moving Picture service. Three long reels with new and up-to-date pictures every night. It is educational to children and clean moral pastime for adults. We will entertain you for a solid hour or so for the nominal admission of 10 cents; children under 12 5 cents; little fellows under 5 free. We change program every night with 3 new reels of pictures. If you will help us with your patronage, Clanton will have as good an electric theatre as any city in the South. We give two continuous performances every night, 7:30 and 8:30. The house is equipped with electric fans, which makes it cool and pleasant. Come to see us and bring the children. It is Educational.

NEWS and GOSSIP of WASHINGTON

Washington Is a City of Many Tall Flagpoles

WASHINGTON.—If you will look out of the window of a high building and begin a count of the flagpoles that point upward from the tops of private as well as government buildings you will probably be impressed by the number. The idea of the builder of a Washington business structure seems to be that the building is not complete without a tall flagpole on which at certain times Old Glory can be run up.

One some of the more notable private buildings a flag is kept flying all the time, night and day, and when whipped into ribbons by the winds is replaced. On many private buildings the flag is hauled down in the evening; on many buildings the flag is run up only on occasions of celebration; on a few buildings which are surmounted by flagpoles a flag never appears and the inference is that a flag is not among the accessories of that building.

A man who has an intimate knowledge of such things told the writer that he had computed that there are 500 flagpoles above the roofs of Washington city. A number of private and public buildings support more than one pole. The capitol has four permanent staffs, one on the senate side, one on the roof of the house, one at the west front and one at the east front. On the state, war and navy building are three poles, one for each of the departments quartered in that crowded structure. On the postoffice department are two poles, one on the east and the other on the west tower. Some of the big new office buildings carry more than one flagpole. On the Colorado building are three. Even some of the older buildings are not content with one. On the Ebbitt house are four.

A tall pole is 50 feet. A few in the city rise a little above this height. The average cost of one of these poles, including the installation of it, is $200.

In the grounds of the naval and military establishments in and around Washington the masts rise 150 feet, but they are in two or three sections.

Subpoenaed Man "Cum Ez Quick Ez He Could"

THERE walked into the hearing room of the senate lobby investigators the other day a lank man, wearing a yellow linen duster, a black slouch hat, and a yellow-gray beard that looked like half a yard of cornsilk. He carried in his hand a yellow telegram.

"Well, I'm here," announced the stranger to the capitol cop guarding the door of the committee room. "I cum ez quick ez I could, and here I am."

The yellow telegram was a subpoena addressed to A. D. Baldwin, Cleveland, Ohio, and commanded the person designated to appear before the investigators forthwith. Mr. Baldwin was attending a class reunion at Yale university, and the office boy at his Cleveland quarters had forwarded the message to New Haven. There the telegraph company, for want of specific instructions, had looked up A. D. Baldwin in the city directory and served the telegraphic subpoena upon the first A. D. Baldwin in sight.

There was parley with the committee clerk, and explanations followed. The wrong Mr. Baldwin averred that "if the committee wuzn't in a hurry for him" he thought he'd just stroll around and take a look at this shack.

"I haint been to Washington sence 1865," he announced, as he indicated

a little bronze button in the lapel of his faded coat, "and I'd like to see ef it hez changed much."

Finally, it was explained to Mr. Baldwin that he was not the man wanted. "The committee will pay your expenses and your day's service," said the clerk. "What are your expenses?"

"Oh, I dunno," replied the wrong Mr. Baldwin. "I paid fer my railroad ticket. I guess that was all. Oh, no, I had to pay a nickel ter ride acrost New York."

"Haven't you eaten anything?" demanded the clerk.

"Oh, sure," replied the wrong Mr. Baldwin. "I et a snack in New York this morning. I guess it was about a quarter's wuth. I don't eat much, unless I'm hungry."

The sergeant-at-arms was instructed to pay the wrong Mr. Baldwin the sum of $26.80.

Battleships Indiana and Massachusetts as Targets

TWO more warships of the United States navy, a few short years ago rated as among the most powerful battleships in the world, are to be pounded to pieces by the heavy guns of the modern dreadnoughts and their scarred remains then sold for junk. The Indiana and the Massachusetts, twenty-year-old war vessels that cost more than $3,000,000 apiece, are the victims selected for the slaughter. The Indiana distinguished herself in the battle of Santiago in 1898, when the Spanish fleet was destroyed as it attempted to run to safety. The Massachusetts also participated in the same war.

Development of warship building has left the Indiana and the Massachusetts far behind. The Massachusetts and Indiana were built at Cramps' shipyard and were launched in 1893. Their main armament consists of four 13-inch guns and eight 8-inch guns and their speed was about 16 knots an hour. Each vessel cost $3,063,333.

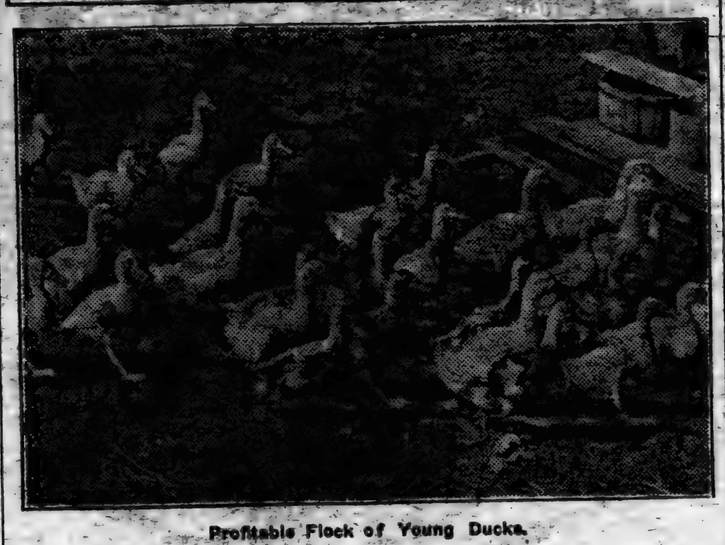
Modern battleships have a speed of 21 knots, a displacement of 27,500 tons, and their armament consists of ten 14-inch guns, each 50 feet long; twenty 5-inch guns and other smaller weapons. The new vessels can place a shot accurately far beyond the guns of the batteries of the Indiana and Massachusetts.

"The best use the government could make of the Massachusetts and the Indiana is to take them out to Chesapeake bay and use them as targets for our modern long-distance guns," declares Capt. Grant of the Philadelphia navy yard, where the two old vessels are quartered. "They are slow in speed, and way behind the standards of modern war vessels in every respect. The Missouri and Alabama will soon be as obsolete as the Massachusetts and Indiana and will very soon be consigned to the target service or the junk heap."

Experts Would Dress Biddy in Much Gay Attire

FOWL fanciers and experts in the bureau of animal industry are seeking some method of cross-breeding whereby the unattractive but useful hen can sprout plumage as variegated as Joseph's coat of many colors.

The activity of the experts is inspired by the fact that an ever-increasing number of states are passing stringent laws against the destruction of birds for their plumage, while several federal laws prohibiting the traffic in such plumage already are in effect.



The bird division of the National museum also has the matter under consideration, but it is inclined to believe that the evolution of the common hen along the lines desired is scarcely practicable.

"It might be accomplished," said one of the museum scientists facetiously, "by hatching the eggs in a dye house or a paint shop.

"It might also be accomplished by feeding the chicks-biddies—ochre, Prussian blue and other variegated paint powders instead of corn or other grain. But you know one never can quite tell what happens in such a delicate scientific experiment."

The bureau of animal industry, however, is taking the matter more seriously and is carried out by experts.

BEGIN SMALL FOR SUCCESS WITH POULTRY

Profitable Flock of Young Ducks.

A poultry farm built upon a secure foundation is sure to be successful if it is afterward properly managed. It is not only necessary to make the right kind of a start but the work must be regularly and faithfully performed, day in and day out.

As a rule beginners start with great enthusiasm and not a few build air castles, but to many of them the sameness of the work, the close application, the constant watching, soon becomes monotonous and then there is a shirking of duty neglect, carelessness and the enterprise becomes a failure.

The point is to begin small—measure the size of the initial step with the amount of capital and experience at hand.

It is often the case that men with more or less available capital practically put all their money in houses and stock. This is a mistake and more so the case of those who have no personal experience in the work.

In the parlance of today, "a man must be onto the job." He must know what to do and how best to do it. He must be aware that inexperience may cause leaks and leaks will soon sink the enterprise.

It is a noteworthy fact that the most successful poultry farms of today are those that have started for a small beginning and gradually expanded as business and experience warranted.

Men who would not go into the dry goods business for the reason that they knew nothing about it will build houses and stock them and expect the hens to do the rest.

Hens, like cows yield a profit according to the treatment given them. They will not stand neglect. They are hard workers when properly managed and rewarded, but they can be the most idle and indifferent producers when made to shift for themselves.

Our agricultural colleges have done much to teach the new aspirants how to tread in poultry paths and men and women who endeavor to improve by these excellently arranged courses of instruction will have won half the battle. The other half naturally belongs to practical experience.

A man with 10,000 would better invest one-half of it in buildings, stock and fixtures and reserve the other half for feed and running expenses, than invest the entire amount in the equipment and have to go in debt for the feed.

Eggs and poultry are staple crops and the demand is far greater than the supply. This country needs more poultry farms and they will be successful when properly built and managed. But, the beginning must be small and the growth gradual so that every part of the work is promptly noted and correctly performed.

FILTER NEEDED IN CISTERN

Device Is So Easily Constructed That Every Farmer Should Have One—Barrel Is Made Use Of.

Every cistern should have a filter, and it is so easily made that anyone can have one. I took a standard size barrel and cut a hole in the bottom large enough to contain a strainer, writes a Tennessee man in the Southern Agriculturalist. After fitting a strainer in this another one was

A Cistern Filter.

placed over it. A mixture of charcoal and creek gravel was then placed in the barrel until it was about three-fifths full.

A coarse sack wasp laced over the top of the barrel to catch the trash, and a close-fitting cover was placed over the barrel. Water from the roof passes through a spout directly into the barrel. The opening at the bottom empties into a glazed tile with cement joints. This empties into the cistern. The filter is cleaned out and refilled each fall.

We have a metal roof. Before turning water into the cistern the roof is allowed to become washed off and all gutters are examined to see if they are clean. The cistern is large enough so that only rains of winter are caught. After February no more water is saved until the following December.

Bartlett Pears.

Bartlett stands at the head of the list of pears for amount produced, demand and perhaps for profitableness. It is a good bearer from youth to old age; brings as good a price in the general market as any; better known than any other variety. It is not disputed that it is the large commercial pear grown in the United States. It ripens over a long season, and is a favorite with canners. It does not require special soil or climate, but is at its best when grown in a deep, rich, moist loam.

FACTS ABOUT THE SOY BEAN

Plant Grows Well in Cotton Region and Is Strongly Drought Resistant—Some Varieties.

In farmer's bulletin 509 of the United States department of agriculture are the following facts about soy beans:

Soy beans grow well in the cotton region as well as farther north. They are strongly drought resistent, and make a hay similar to that from cowpeas, though usually with a larger proportion of seed and more foody stems.

There are many varieties differing greatly in time of growth, some ripening within thirty days from sowing the seed, while others require the whole season. The Mammoth, a late variety, is now commonly grown in the south. The Ito San is a good early variety, commonly grown. A number of recently introduced varieties are becoming popular, among them Haberlant, Acme and Tokyo. For regions near the gulf coast the Riceland and Barchet varieties have given the best results.

The land should be prepared as for cowpeas and the seed planted in drills at a sufficient distance to permit one or two cultivations. One bushel of seed will plant two or three acres, the amount depending on the distance between the rows. The planting should be shallow, never more than two inches, or many of the seeds will decay. Innoculation of the soil from an old soy bean field is desirable, but not usually necessary in the south.

Rabbits are exceedingly fond of the young plants and sometimes cause serious injury when the field is near woods. If wanted for hay the crop should be cut when the upper leaves begin to turn yellow, but if wanted for seed the gathering should be delayed until nearly all the leaves have fallen. The hay is easily cured and is fully as nutritious as that from cowpeas. The yield of seed varies from one to thirty bushels per acre. It is not a desirable crop to plant with corn, as it matures too late.

As the seeds of many varieties shatter badly, the gathering for seed should not be delayed longer than is necessary for their ripening and many more seeds will be saved if the cutting is done early in the morning while the pods are still damp with dew.

Bush Beans.

Some growers of bush beans have found it desirable to save their own seed because this is a means of avoiding pod spot or anthracnose. When beans free from disease germs are planted in soil free from disease there is little danger of infection. This matter is well worth the consideration of careful growers.

Sour Crop Remedy.

When fowls are made sleepy by

THE BEST HOT WEATHER TONIC, GROVE'S TASTELESS Chill TONIC

The Old Standard, General Tonic. Drives out Malaria, Enriches the Blood and Builds up the Whole System.

FOR ADULTS AND CHILDREN.

It is a combination of QUININE and IRON in a tasteless form that wonderfully strengthens and fortifies the system to withstand the depressing effect of the hot summer. GROVE'S TASTELESS chill TONIC has no equal for Malaria, Chills and Fever, Weakness, general debility and loss of appetite. Gives life and vigor to Nursing Mothers and Pale, Sickly Children. Removes Biliousness without purging. Relieves nervous depression and low spirits. Arouses the liver to action and purifies the blood. A true tonic and sure appetizer. Guaranteed by your Druggist. We mean it. 50c

FORGOT DESIRE TO QUESTION

Chairman's Reception of Would-Be Interrogator Somehow Discovered the Rest of Them.

At a political meeting in a certain New South Wales gold-mining district the chair was taken by an athletic miner. The candidate during his speech was much interrupted by hootings and rough chaff, and his chairman was soon in a state of boiling indignation. Smothering his wrath, however, he pacified the "boys" by assuring them that at the end of the candidate's speech they should be at liberty to put any question they chose. Accordingly, at the end of the harangue he arose and inquired in stentorian tones and in a rich Irish brogue: "His inny gintleman a question to airsk?" A stout little Welsh miner, who had been a conspicuous disturber of the peace of the evening, shuffled slowly up the steps of the platform. But at the top he was met by the chairman, who, without the slightest warning, delivered a terrific left-and-righter, and sent the Welshman sprawling on his back. "Now," roared the chairman, "has inny other gintleman a question to airsk?"—and there was no response.

Negligence Called Manslaughter.

The case of Stehr vs. State before the supreme court of Nebraska involved the sentence of a father for from one to ten years in the penitentiary for criminal negligence, because during a blizzard in Nebraska, when the weather was bitter cold, he permitted the fire to go out, snow drifted through a crack in the door and a broken windowpane and the bedding of all the members of the family was frozen stiff. The feet of one of the children were frozen, and although such fact was apparent to the father no physician was called in for sixteen days, when amputation was found to be necessary and the child died of blood poisoning. The defendant was convicted of manslaughter for criminal negligence in failing to provide medical care after he discovered the frozen condition of the child's feet. In affirming the conviction the court held that for a parent having special charge of an infant child culpably to neglect it so that death ensues as a consequence is manslaughter, although death or grievous bodily harm was not intended, and if the parent has not the means for the child's nurture it is his duty to apply to the public authorities for relief.

World's Saddest Sight.

The saddest sight in all the world is not a grave of the dead, grievous as that might be, but is a grave of the living—humanity sepulchred while yet alive.—Frances E. Willard.

Wild Beastie.

"Have you ever owned a horse?"

"Not for long. I had a nightmare once."—Boston Evening Transcript.

Silence has this advantage over speech, that you never have to take it back.

CLOUDED BRAIN

Clears Up on Change to Proper Food.

The brain cannot work with clearness and accuracy, if the food taken is not fully digested, but is retained in the stomach to ferment and form poisonous gases, etc. A dull, clouded brain is likely to be the result.

A Mich. lady relates her experience in changing her food habits, and results are very interesting:

"A steady diet of rich, greasy foods such as sausage, buckwheat cakes and so on, finally broke down a stomach and nerves that, by inheritance, were sound and strong, and medicine did no apparent good in the way of relief.

"My brain was clouded and dull and I was suffering from a case of constipation that defied all remedies used.

"The 'Road to Wellville,' in some providential way, fell into my hands, and may Heaven's richest blessings fall on the man who was inspired to write it.

"I followed directions carefully, the physical culture and all, using Grape-Nuts with sugar and cream, leaving meat, pastry and hot biscuit entirely out of my bill of fare. The result—I am in perfect health once more.

"I never realize I have nerves, and my stomach and bowels are in fine condition. My brain is perfectly clear and I am enjoying that state of health which God intended his creatures should enjoy and which all might have by giving proper attention to their food." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a reason."

Easiest Way.

"Where did you get all that hard cash?"

"From a soft thing."

DOES YOUR HEAD ACHE?

Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

How He Grew.

"Then you weren't always a black sheep?"

"No, mum; I started my career as a Wall street lamb."—Kansas City Journal.

RUB-MY-TISM

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

Gone Forever.

Mother (to little Ethel sobbing as if her heart was broken)—Well, well, what is the manner, dear?

Ethel—Tabby got losted.

Mother—Never mind, darling, we'll advertise in the papers for tabby.

Ethel (still sobbing)—She'll never, never come home 'cause she can't read.

BAD CASE OF DANDRUFF

Bissell, Ala.—"I had a very bad case of dandruff on my head. I was tormented by itching and my hair began to come out by the combfuls. I almost became frantic, fearful that I would lose all of my hair which was my pride. There were some pimples on my scalp and I scratched them until they made sores. My hair was dry and lifeless.

"I saw the advertisement of Cuticura Soap and Ointment and sent to my druggist for three cakes of Cuticura Soap and a box of Cuticura Ointment. I washed my scalp with warm water strong with the Cuticura Soap and dried, afterwards applying the Cuticura Ointment, working it in the scalp slowly with my fingers. After using them for several days my hair began to stop coming out. The dandruff all disappeared and in less than four weeks a cure was accomplished permanently." (Signed) Miss Lucy May, Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

Telling a Secret.

It is doubtful whether the person who asserted that secrets were made to tell, foresaw, even in his most cynical mood, anything like the following conversation in Das Echo:

"Lottie tells me that you told her the secret that I told you not to tell anyone."

"Oh, isn't she mean! I told her not to tell you that I told it to her."

"Yes, I told her that I wouldn't tell you if she told me, so please don't tell her that I told you!"

Her Varying Preference.

Until a girl is eighteen any sort of uniform supplies a man with the necessary credentials. But after that his interest does not respond to anything short of a pair of shoulder straps.

Game He Likes.

"What are you doing in that cupboard, Bertie?"

"Hush," said Bertie, digging a spoon into a jam pot, "I'm pretending to be a thief."—Pearson's Weekly.

The mere fact that a man does laugh at his own jokes is no indication that he doesn't think them funny.

Why Scratch

"Hunt's Cure" is guaranteed to stop and permanently cure the terrible itching. It is compounded for this purpose and your money will be promptly refunded WITHOUT QUESTION if Hunt's Cure fails to cure Itch, Eczema, Tetter, Ringworm or any other Skin Disease. 50c at your druggist's, or by mail direct if he hasn't it. PAINFUL, TRYING TIMES

"Every Picture Tells a Story"

Housework is hard enough for a healthy woman. The wife who has a bad back, who is weak or tired all the time, finds her duties a heavy burden. Thousands of nervous, discouraged, sickly women have traced their troubles to sick kidneys — have found quick and thorough relief through using Doan's Kidney Pills. The painful, trying times of woman's life are much easier to bear if the kidneys are well.

A North Carolina Case

Mrs. J. W. Wilkinson, Statesville, N. C., says: "I suffered acutely from bladder inflammation and almost total suppression of kidney secretions. My usual weight was 140 lbs., but I had run down to 90. Doctors said an operation was my only hope, but I would not consent and was given up to die. Doan's Kidney Pills cured me completely."

CHILLS AND FEVER AND AGUE Are Promptly Cured by Elixir Babek. "I recommend 'Elixir Babek' to all sufferers of Malaria and Chills. Have suffered for several years, have tried everything, but failed, until I came across your wonderful medicine. Can truly say it has cured me."—George Inscoe, Company G, 4th Batallion. Elixir Babek 50 cents, all druggists or by Parcels Post prepaid from Kloczewski & Co., Washington, D. C.

Stung.

"I want my money back for these here socks," said the man as he handed the clerk a package. "The sign you had up said the socks was guaranteed for three months.'

"Well, what's the matter with the socks?" asked the clerk.

"I only wore them three weeks, and had to take them off and buy another pair because this pair had holes in the toes," replied the man.

Overdid It.

"What's the matter?" asked the lawyer's friend. "Been in a railroad accident?"

"No. I had a jury case the other day, and I argued so elaborately for the purpose of making it appear that my client was a fool instead of a knave that I got him acquitted on that plea."

"What has that to do with your appearance?"

"He met me outside, after court had adjourned."—Judge.

What Made Him Sick.

Certainly public employes who have to submit daily to a rapid fire of well-meant but needless questions may be excused if they occasionally turn upon their persecutors. An elevator boy, in the New York Tribune, was one of the victims.

"Don't you ever feel sick going up and down in this elevator all day?" a fussy lady asked him.

"Yes, ma'am," courteously replied the elevator boy.

"Is it the motion going down?" pursued the lady.

"No, ma'am."

"The going up?"

"No, ma'am."

"Is it the stopping that does it?"

"No, ma'am."

"Then what is it?"

"Answering questions, ma'am."

DAY OF LOBBY ENDED

With Democratic Administration the People Rule.

Privileged Interests Will No Longer Be Allowed to Direct Legislation for Their Special Interests—President's Position Right.

It begins to look as though "Prof." Woodrow Wilson knew what he was talking about when he denounced the lobby. When the gang's confidential agent turns state's evidence and tells a story of ten years' interference with law making—a story backed by letters, telegrams, returned checks and receipted bills, even the most confirmed standpatter must admit that the president's condemnation of the pernicious activity of the lobby was not a whit too strong.

If Colonel Mulhall's story is true, a group of privileged manufacturers who claim a vested right in federal taxation, banded together to enforce their claims. They paid money, directly, and indirectly, to a long line of Republican congressmen. They were on terms of confidential intimacy with stand-pat senators, and with a former vice-president of the United States.

They were the power behind the throne throughout the Roosevelt and Taft administrations. They backed the infamous robbery of the Aldrich tariff, and lobbied for a tariff commission as a means of heading off any honest revision. They spent large sums of money to help their "friends" and hurt their enemies; and neither in helping nor hurting did they pay much attention to the ethics of political controversy.

The lobby has fallen on evil days. The new political leaders—Underwood, and Kern, and above all Wilson—are men whom a trust agent cannot even approach. This is sad enough for the privileged interests which have managed this nation's affairs so long. To have that misfortune capped by inside exposure of lobby methods is downright disaster.

The lobby's extremity is the people's opportunity.

Need of Currency Legislation.

In urging currency legislation upon congress at this session, President Wilson is showing himself capable of taking a look ahead.

The Aldrich-Vreeland law, a makeshift patchwork designed to provide emergency currency in time of panic, expires by limitation in 1914—next year. Unless congress inaugurates a better plan the country then will go back to the system prevailing in 1907, when practically every bank in the United States suspended payment at the same time.

To allow that to happen would be to put the fortunes of the administration and of the country in the hands of the Wall street clique that made profit out of the needless crash of six years ago. President Wilson is well advised in taking time by the forelock and insisting on the reform of currency and the emancipation of credit. At any cost of personal discomfort, congress must take the same wise view; and pass a law that will put it out of the power of money kings to have "stringencies" and panics to order.

Party Leaders Should Get Busy.

Unlike the tariff, the currency is not primarily in the hands of the house. But, in the circumstances, the house must take up the question first. The senate is occupied with the tariff, and will not have time for anything else until the tariff is disposed of. So that if the guess of six weeks or two months for the passage of the tariff bill through the senate proves correct September 1, assuming that the house meanwhile has agreed upon and passed a currency bill, will find currency reform still quite a distance from goal.

The present is thinking time for all party leaders, whether Democratic, Republican or Bull Moose, and regardless of where they stand on the question of tariff revision.

Roosevelt's Real Position.

Mr. Roosevelt probably thinks he is an advocate of real popular government, but in fact he is the champion of a bureaucracy, and that is very close to centralized and personal government. Five or ten years are as a moment in the life of a nation, and full discussion and cautious experimentation are of the very essence of popular government. The American people will not lay aside democracy and representative government in order to realize the ideal Roosevelt borrowed from Beaconsfield's novels of Monarch and Multitude.

Emphatically One-Man Party.

The Progressives, says Chairman Ellis, don't permit a few men to get off somewhere in a closed room and fix up things for them. You bet they don't. One man does all the fixing for the Progressive party.

"Something Doing."

So long as the senate committee investigated senators and representatives it failed to discover that "numerous and insidious" lobby; but when it began hearing evidence from men outside of congress, it quickly arrived at some quite startling facts. There are now many Republican members of the senate and house who are compelled to "explain" things and quite a large number of plain people of Hamilton who seem to be mentioned in connection with [illegible]

SAW OPPORTUNITY FOR JOKE

President Taft's Reply to Request Had Secretary of War on the Anxious Seat.

William H. Taft, when he was president, never overlooked an opportunity for a joke. In the closing months of his administration Henry L. Stimson, then secretary of war, wrote Mr. Taft a very urgent request that he give a friend of Stimson a certain federal position.

Mr. Taft wrote to Stimson as follows:

"My Dear Stimson:—I am very sorry I cannot do anything for your friend in response to your letter of today. I would like to accommodate you, but it is impossible. Sincerely yours,

"WILLIAM H. TAFT."

Under that he wrote:

"Turn over."

Then Mr. Stimson read on the other side of the paper:

"I couldn't do it today because I gave the fellow the job yesterday."—Popular Magazine.

French View of Women.

The life of a woman can be divided into three epochs; in the first she dreams of love, in the second she experiences it, in the third she regrets it.—Antoine Jean Casse de Saint Prosper.

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

Wasn't Overlooking Anything.

"That lawyer of mine has a nerve."

"Why so?"

"Listen to this item in his bill: "'For waking up in the night and thinking over your case, $5.'"—Pathfinder.

For Aching, Perspiring Feet use Tyree's Antiseptic Powder either sprinkled into the shoes or used in solution. Never fails to relieve. 25c. at all druggists or sample sent free by J. S. Tyree, Washington, D. C.—Adv.

Its Usual Way.

"The hot spell came rather suddenly."

"Oh, no! It's been getting warmer by degrees."

All a Means of Advancement.

Apply thyself earnestly to thy task, whether it be small or great, for the achievement of years is but the study of many days.—Simon de Bruges.

FOR SUMMER HEADACHES

Hicks' CAPUDINE is the best remedy—no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 50c and $1.00 per bottle at medicine stores.—Adv.

Occasionally a widower's heart is warmed over by an old flame.

A girl marries to gain liberty; a man remains single to keep it.

Nothing is dearer to well-earned labor.—Samuel Rogers.

Legal Opinion.

"A cat sits on my back fence every night, and he yowls and yowls and yowls. Now, I don't want to have any trouble with Neighbor Jones, but this thing has gone far enough, and I want you to tell me what to do?"

The young lawyer looked as solemn as an old, sick owl, and said not a word.

"I have a right to shoot the cat, haven't I?"

"I would hardly say that," replied young Coke Blackstone. "The cat does not belong to you, as I understand it."

"No, but the fence does."

"Then," concluded the light of law, "I think it safe to say you have a perfect right to tear down the fence."

Original Sort of Ham.

A lady gave a luncheon recently and explained that she always cooked ham by the recipe used by Thomas Jefferson, which had been handed down in her family for years.

This recipe required that the ham be cooked for about two hours by simmering, but under no condition must it be allowed to boil.

A ham was on the stove, its destinies presided over by a young colored woman from up in the mountains.

"Jane," called the mistress of the house, "don't let that ham boil."

"No'um," replied Jane, "I ain't er gwine to boil no ham. It's on the stove now just a simpering!"

Not the Way.

An "advanced" woman tells the New York Tribune that "women are headed straight for trousers." We beg to inform the dear girl that the manner of approach must be reversed before the effort can be successful.—Louisville Courier-Journal.

Some Girls Do.

"I wonder why all the girls in our set titter whenever they see me."

"I think your fiancee passes your love letters around, my boy."

Which Is Different.

"He says he is always outspoken in his wife's presence."

"He means outsiked."

Many a man has been sold who didn't get his price.

TOOK ON DIFFERENT ASPECT

Somehow Antics of Playful Pups on Second Morning Did Not Appeal to Mr. Knox.

The morning was young and beautiful and Mr. Knox stood at the side window and looked over into the next yard interestedly. He chuckled for sheer delight as he watched the antics of two little pups his neighbor had bought a few days before.

"Oh, Amy, come here and see these pups, over in Porter's yard," he called to Mrs. Knox, who was busily arranging the breakfast table. "Aren't they just having a circus? Bless 'em!" he went on, with all the effusiveness of a genuine dog lover. "Oh, look, Amy, they have taken the morning paper off the porch and each one has an end of it in his mouth, tussling with it. Is there anything in the world more cunning than a little pup?" His enthusiasm was running away with him. "I think, dearie, we will have to get a dog one of these days."

The next morning Mr. Knox arose, dressed and went down to bring in the morning paper, as was his habit. He was just in time to see the cunning little pups next door playfully tearing his paper into shreds and each vanishing around the house with a portion of it. He came back to the kitchen sullenly.

"Those blankety blang dogs next door have torn up the paper," he said, wtih no trace of his earlier enthusiasm.

Dull Boy.

"Thomas, you have disobeyed your grandmother."

"No, I didn't, mother."

"Yes, you did. Have you not been in swimming?"

"Yes, mother."

"Didn't I hear her say to you not to go in swimming?"

"Oh, she didn't tell me that. She only came out and said: 'Boys, I wouldn't go in swimming,' and I shouldn't think she would, an old rheumatic woman like her; but she didn't say anything about our going in swimming."

Made a Difference.

"Darn those cats!" "Don't shoot, Abner. I think the one with the contralto voice is our tabby."—Washington Herald.

When put to the test, some virtues are found to be thinly veneered.

Anyway, it doesn't take nine tailors to make a self-made man.

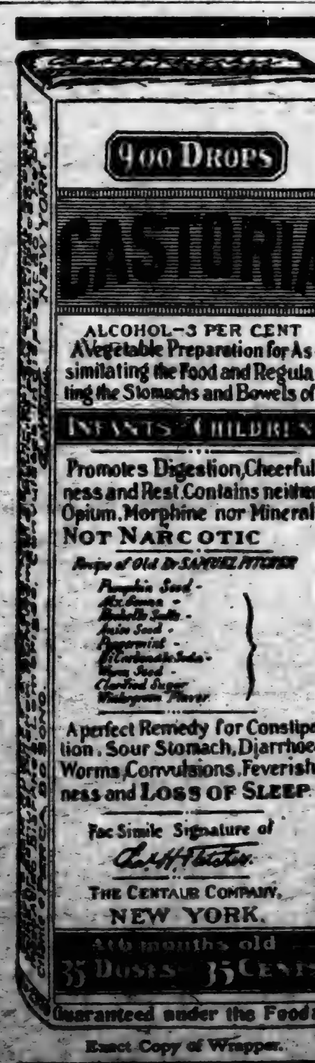
IN SUCH PAIN WOMAN TORE HER CLOTHES

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Malone, N. Y.,—"Lydia E. Pinkham's Vegetable Compound has certainly done me a lot of good. I first heard of it when I was a girl and I always said that if I ever had female trouble I would take it.

"I suffered from organic inflammation and would have spells when I would be in such pain that I would tear my clothes. One day my husband got the neighbors in to see what the matter was but they could not help me. My first thought was for Lydia E. Pinkham's Vegetable Compound and I sent my husband out for it and took it until I was entirely cured. I am a woman of perfect health and my health and happiness came from Lydia E. Pinkham's medicine. You may rest assured that I do all I can to recommend your wonderful medicine to my friends."—MRS. FRED STONE, Route No. 3, Malone, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.



MORPHINE WHISKEY and TOBACCO Habits Cured by new painless method NO DEPOSIT OR FEE required until cure is effected. Endorsed by Governor and other State officials. Home or sanitarium treatment. Booklet free.

A FRAME UP

Officer Imposed Upon In Dastardly Manner.

Just how an officer of the law, who is charged with up-holding the law of the state in which he lives, can create a wholesome respect for the law by willful violation of its mandates, is a question which the sages have not yet answered; yet; it would seem that this is what some law-defying miscreant undertook to demonstrate, by placing Mr. A. moss, a deputy sheriff under suspicion last Sunday.

Just how the "frame up" was to work has not yet been figured out, but, that it was working smoothly and came near engulfing a deputy sheriff in its net, there is no sort of doubt, according to deputies Fallon and Moss, the latter the would be victim.

It appears from the best information obtainable that the sheriff was informed of a quantity of booze having been stored out near the Coosa River dam. Sunday night investigation was made and the liquor located in a briar patch, close to the house occupied by deputy sheriff Moss. He and a Mr. Geo. E. Young, together with the fifty or more quarts of booze were brought to Clanton and lodged in the county jail, charged with violation of the prohibition law. Moss protested his innocence from the first, but, as the liquid pizen was found near his domicile, the sheriff thought it best to allow him to explain to the courts; accordingly he was brought to goal, where he lanquished for some hours before making bond. Mr. Young is still in jail.

It now appears that the liquor was owned by another party and to throw suspicion off himself, he undertook to implicate the deputy.

The sheriff's force is still at work on the damnable plot, not only to violate a plain law of the land, but to incriminate an innocent officer. And, just here it might be well to say that the selling of intoxicants of any kind is bad enough; boot-legging is to be condemned at all times and under all circumstances, but when a poor cuss undertakes to poison his fellow man with such vile concoctions as this assembly of booze is reported to be, he should be shown no mercy; the full extent of the law should be imposed. Anyone who will sell such death-dealing, leg-twisting, brain-destroying, word-confusing, manners-annihilating, health-impairing mixture, deserves no consideration at the hands of law abiding citizens. It probably never saw a grain of corn and is a total stranger to rye; it is made of the cheapest chemicals, colored with poisonous dyes and labeled with a lie. The government often prosecutes for violations of its revenue laws and shows comparatively little mercy, but it seems never to "go after" the thief who infringes upon the law by disposing of liquors under the name of whiskey that are nothing short of death dealing poisons. Just what the investigation will lead up to is not yet known, but one thing is certain: If the sheriff's force has been imposed upon and one of its members put under suspicion without facts to back that suspicion the guilty party should be put behind prison bars and required to remain there without bond to contemplate the manner of man he really is.

J. T. SIMS IN TOILS.

CHARGED WITH FRAME-UP

Tuesday afternoon Sheriff Jones escorted Mr. J. T. Sims, a resident of the eastern part of the county to jail charged with violation of the prohibition law. At this writing Mr. Sims had not made bond. During Tuesday the Sheriff's force suspicioned something of a crooked nature in connection with the whiskey found at the Dam, which Mr. Moss, the deputy, was accused of owning and arrested for selling. Mr. Geo. E. Young, who was arrested at the same time with Mr. Moss, seeing that his chances of escape were slender indeed, "unbuttoned" to the sheriff and told the whole story. In substance he said that the whiskey was the property of Mr. Sims; that he and Sims had been selling it, he turning the cash over to Sims; that Moss was trying all the while to catch them and that Sims decided to throw suspicion off himself and upon Moss, hence they hid the whiskey in the briars naer Moss' house where it was found and circulated the report that it was the property of Moss.

In the mean time Sims was after Moss' job as deputy; he had approached Sheriff Jenes and asked to be appointed as deputy. Jones had informed him that he would have to secure good recommendations and make bond; Sims was so anxious for the job that he was on his way to Birmingham to make bond and secure the endorsement of the Power plant authorities when arrested.

When taken in by sheriff Jones he remarked that he had suspected something of the kind and seemed to be in no way surprised.

The difference between "The Summer Girl" and the "Summer Woman."

While the former is having a "good time" the latter is too often dragging around nervous, run down, tired out, with aching back and weary limbs, sleepless and wretched. Often it is kidney trouble not female trouble and Foley Kidney Pills are a direct and positive help for the condition. Alred Drug Co.

Rheumatism and the Heart.

Don't overlook the grave fact that rheumatism easily settles in the heart," and disturbs the valvular action. The cure consists in removing the cause. Foley Kidney Pills so tone up and strengthen the kidneys that they keep the blood free of poisons and uric acid crystals, that cause rheumatism, swollen joints, backache, urinary irregularities, and disturbed heart action. Try them. Alred Drug Co.

IN MEMORY

On Saturday, July 12th, 1913, the death angel visited the home of Mr. and Mrs. J. Boockholdt and took from their midst their darling little girl Pearl. This precious little child was sick only twenty days with typhoid fever and she bore her suffering with a patience that would have been commendable in one much older than she. In this their hour of grief and sorrow, the bereaved parents have the sympathyand love of the entire community; we know that their hearts are bowed in deepest gloom at the departure of their darling child.

To them we would say, "weep not for your loved one; she is on the other side of the swelliug tide, where all is well with her soul; there she is with her Savior, waiting and watching for the coming of her loved ones, prepared to extend to them a joyous welcome into the City of God."

Pearl Boockholdt was but six years of age and had so entwined her sweet personality about the hearts of those who knew her as to make a place in their affections which can never be filled.

All that loving hearts and skilled physicians could do was accomplished for her but He who guideth the swallow in its long flight through the trackless azure wanted her spirit to adorn His Crown of Glory and therefore bade her come up higher.

She was layed to rest Sunday afternoon in Bethany cemetery, Rev. I. Bice officiating.

"Beautiful hands of a little one see.
Pearlie's voice is calling, O! mother, for thee;
Rosy cheek'd darling, the light of the home,
Taken so early, is beckoning, come!"

IDA VANCE.

CLANTON PRESS

PUBLISHED IN THE INTEREST OF CHILTON COUNTY AND HER PEOPLE

VOL. 1. CLANTON, ALA., THURSDAY JULY 31, 1913 NO. 17.

Practically Cinched

anton to Get High School. Concert of Action Gets the Answer.

a demonstration of what can ccomptished by concert of ac-, by a determination to win, by ting in unity for a common se, notice the rapid strides within the past two weeks Clanton securing a High School he county.

or several years past this has the ambition of a number of ton citizens; from the dav of irth this paper has hammered ason and out of season for the blishment of a high school in midst. That it could be se- has never beeu doubted by Press, that it would eventually ured never was doubted, only question that arose to the horizon look at all dim the inability to secure concert tion, but at last this has been ed. Through whose efforts been accomplished is not question—the fact that it has accomplished is the fact up- which Clanton should congrat- itself. Perhaps to the untir- efforts of Prof. Pickens, more to any other one person, is the glorious hope that now es. He was backed up in ght by both local papers, and by a number of interested ns, and the answer came as ally as would good roads if our citizens could be per- d to follow the same plan d in the fight for the high l—keep hammering, never discouraged, try to en- others, never grow impa- but have an eye to the fu- nd make others see the re- to be attained from the same that the optimist views them.

oday there gathered at the House the members of the issioners Court, the Mayor nton and his Council, Prof. s and a number of interest- itizens. Plans were layed be- them showing that if the y, the town and the citizens d co-operate, a high school be instituted here by the g of the next school session Clanton or Chilton coun- ld thereby secure the $3000 riation made by the State schools which for years been permitted to slip h her grasp by non-action. al talks were made upon ject, after which the Pro- dge and the Commissioners signified their willingness to rate to the extent permitted by law; the Mayor and the Council stated that they were and willing to go their toward the consummation greatly desired object; a of citizens, speaking for llow townsmen, stated that were anxious to begin opera- to secure this coveted prize. gs seemed to work enthu- lly, in perfect harmony and vim and vigor which is an of things surely to be ac- hed.

plan now is to open the hool in temporary quarters academy building till a new e can be reared to care particular branch of the nal department of the nd county; a committee, ng of Probate Judge Mayor Matthews, ioner Robinson, ex-Judge and Tipton Mullins enting the citizens) and ickens (representing the interests) were appointed to with theState school es and arrange for the inauguration of the County High School.

Within a reasonably short time it is expected that the erection of a handsome school building will be under headway to care for the higher grades of Clanton's educational system. Just where this building will be located has not yet been decided; several locations are in view, one has already been practically donated and doubtless this location will be accepted.

The work of securing subscriptions to carry out the citizens' part of the obligation will be pushed vigorously; if the solicitors come to you do not turn a deaf ear or a closed pocket book to them. Clanton needs a high school badly; it is your duty to help in this laudable enterprise; if you cannot give twenty dollars give ten, if you are unable to give ten donate five, or whatever you can possibly give. Let's not permit this opportunity to elude us; we must have the HIGH SCHOOL, at all sacrifices. Citizens of the county outside of Clanton will be expected to put their shoulders to the wheel and help turn; it is their school as well as Clanton's; it will be the means of giving to the young of Chilton opportunities for securing an education which they never before possessed; it will bring three thousand dollars more of educational money into the county than has ever come our way before; it will mean the erection of a fine building within our midst; it will bring more teachers among us to assist in the cultivation of our mental, moral and spiritual faculties. The results cannot be figured in dollars and dimes, therefore it is your bounden duty to ASSIST this movement not only by your words but by your WORKS.

DEATH OF MRS. HARRIS

In the midst of life we are in death. It is sad but true that from every home there is a path to some lonely abode of the dead.

On July 15, 1913, by the providence of God, there was taken from our midst our highly esteemed friend Mrs. E. H. Harris. She had been in our community only since last Winter a very short time, but to know her was to love her. Mrs. Harris had been sick several weeks but was not thought to be in a serious condition until a few days before the end came. She was a faithful and devoted wife, an affectionate mother, and a consistent member of the Missionary Baptist church for eighteen years; she was baptised and received into the church by Rev. J. D. Hughs.

The deceased leaves a husband one son and two daughters and a great number of friends and relatives to mourn her departure. The bereaved ones have the sympathy of all who know them, and we commend them to the God of our fathers, who is able to comfort those that mourn. Dear friends you do not have to mourn as those that have no hope, for the one that sleepeth is at rest.

Mollie Yeargan.

TEACHERS' INSTITUTE

The Chilton county Teachers' Institute will begin on Monday, the 11th day of August, at the court house. Just yet, Prof. Moore does not know positively who will be assigned to conduct the Institute, but it is more than probable that Prof. Smith of Birmingham and a lady teacher of Mobile will have charge of the Institute.

MORE BAD BOOZE CORRALLED

Deputy Smitherman Catches Man And Wares.

Hearing Sunday afternoon that some one was dispensing wild cat whiskey out near the river dam, Deputy Sheriff Smitherman decided to make an investigation of the rumor; accordingly he went out as the shades of evening were falling and engaged several persons in conversation, which led him to the location of the wild cat's lair. Secreting himself for a while, his patience was rewarded by the approach of several darkies, who were more or less intoxicated.

Upon questioning and searching one of them he found a pint bottle of the most outrageous wild cat whiskey upon his person; that is he found a goodly quantity upon his person, the remainder of the pint being in his person. He also learned that the party who was plying his trade would soon return with another "turn" of liquor, which he sold at the magnificent price of one dollar (cash) per pint. Waiting for the return of this individual for some minutes, enabled him to "bag" Mr. Joe Foshee, of Coosa county, with a quantity of home-made booze ready for sale. Mr. Foshee disclaimed having made the booze, saying that the sheriff was at liberty to question every merchant in Coosa county to ascertain if he had purchased sugar with which to make whiskey; however, the sheriff says he did not dispute the fact that the liquor was his and that it was for sale to cash purchasers.

Mr. Foshee was brought to the Chilton county jail, where, up to this writing, he is awaiting the appearance of frieuds to make bond for him.

THOMASVILLE VOTES FOR WATER WORKS

THOMASVILLE, ALA., July 30.—An ordinance for the installation of a water works system was passed here by a majority of 61 to 9.—Birmingham Ledger.

Thomasville is a little village on the Southern railroad, in southern Alabama, but evidently those few inhabitants are men of enterprize.

Estimating one vote for eaeh five persons, which is somewhat above the average, there is about three hundred and fifty persons living in that little Clarke county hamlet, but they are evidently "live ones," every mother's son of them. Other towns no larger than Thomasville, no richer than Thomasville have their systems of sewerage and waterworks, yet Clanton, with her boasted fifteen hundred successful, ease-loving, enterprising, hustling, bustling men of affairs, must be content with surface closets and branch water.

Alas and alack!!

CARD OF THANKS

ODD FELLOWS ARE GRATEFUL.

Editor Press—Please allow us space in your paper to give utterance to a resolution unanimously passed by Mayflower Lodge of Odd Fellows as follows: "Be it Resolved by Mayflower Lodge No. 417 (I. O. O. F.) in regular session that we, the officers and members, extend to the people of New Cedron and surrounding community our sincere thanks, through the columns of the county papers, for their support in helping us to observe memorial services on July 24th, and especially do we wish to thank the good ladies who prepared for us and our friends such an excellent dinner.

Respectfully submitted,
M. C. WILLIAMS,
Recording Secretary.

Fell Dead

Whiskey And Water Melon; Water And Oil; Sulphur Water And Peaches; These Do not Mix Well

LET US ALSO OBSERVE

Birmingham, Ala., July 28 (special)

The Alabama Good Roads Association; which named and established August 14, 15, and 16, as Good Roads Days, is making every effort possible to see that these three days are observed. A strong effort is being made to have those three days declared by Gov. Emmett O'Neal as public holidays. Secretary J. A. Rountree of the Alabama Good Roads Association, has sent out a ringing appeal to the road organizations, Probate Judges, Boards of Revenue, Courts of County Commissioners and Mayors, asking them to supplement the proclamation of Governor O'Neal's with proclamation of their own, asking the people to participate in the movement. Also calls upon the women of the state to assist duriug these three days, by serving dinner to the road builders. It is believed that the work done during these three days by the people of Alabama will be worth $1,500,000, and that the observing of these three days will make an epoch in the history of good roads in Alabama. Already the officials in over thirty counties in the state have agreed to recommend the observing of these days. Enthusiasm is growing and it is believed that by August 14, every county in the state will be in line and the people will turn out in great numbers and put the public roads in splendid shape.

Saturday was pay day out at the dam. A number of negroes always desert their work immediately after pay day at the dam and Monday was no exception to the rule. Usually the Sunday after pay day is spent by the negroes in crap shooting, skin games, cards and other devices calculated to separate one from his hard earned salary. The 'broke' ones usually return to work Monday to amass another stake, while those who win turn toward the city of Clanton and make for other fields of labor and amusements.

This is no fault of those in charge at the dam; they would put a stop to the gambling and booze selling if they possibly could; in fact they pay an officer to look after these very things and correct the evils, as nearly as possible; they would not willingly permit a single workman to leave the camp for they want as many workmen as can be secured; but, there are things over which the best of us have no control, and this is one of the things over which the dam people have no control.

But to the facts: Monday morning an unknown negro, after having won a considerable sum Sunday, presumably, decided that he would take a vacation for a few weeks at least. Instead he is taking a vacation, so far as this mundane sphere is concerned, for several billion times two or three weeks.

He tanked up on mean whiskey, the wild cat variety of recent vintage or distillation, and then capped off the drinking bout with an over dose of red meat water "million," of which the brother in black is so passionately fond.

Evidently he had never read Senator Carmack's remarks about water and oil, water melon and whiskey, vinegar and blood, sulphur water and peaches not mixing with good results; or, if he had read them, he doubted the statement with a deep seated doubt. Anyway, pushing aside the advice of scientists, the admonitions of physicians and the instructions of nature, he pushed down his gullet a quantity of booze and followed it with melon as a "chaser;" then he started to Clanton; the way was long, the road dusty and hot. As he neared the Baptist church on Main Street—almost within sight of the "promised land"—the railroad, which would carry him to the big city, where he could spend his wealth in riotous living—he was seen to stagger and fall. Dr. Marcus was hastily called and attended the negro, but he was almost too far gone for resustication; he was carried to the Hopkins Infirmary where in a few moments he passed away.

"Sun heat," superinduced by mean whiskey and water melon" —that's the verdict—a cold stiff body clasped in death; a spirit ushered into the presence of its Maker—that's the result.

Mr. and Mrs. A. J. DeVaughan and little daughter, of New Castle, are on a visit to Mr. and Mrs. McAfee, the parents of Mrs. DeVaughan.

The Facts in the Case

YOU send your children to the school room to be instructed by the teachers, because the teachers know more than your children. If they are sick, you call a physician, because he knows how to give medicine to relieve the suffering. When you want a box of pills, you go or send to a drug store for them, not to a grocery store, and if you desire the latest style lady's hat, you call at a first-class millinery establishment instead of the meat market.

In these things you are wise, then why have them call at a dry goods store, or go yourself for Hardware, when a regular Hardware man learns more about Hardware in a year than a dry goods fellow can know in a life m e?

At a Furniture store is certainly the place to buy Furniture. Our Furniture department is separate and apart, and occupies the entire second floor.

If you need Hardware, Furniture, Furnishings, Farm Implements, Mill Supplies, Brick, Lime, Cement, Paints, Sash and Doors, you cannot do better than come to us. This is our life, our trade, our business. In buying, we consider quality, price and appearance. Trade with us and you get the benefit of our efforts, experience and price.

UNITED STATES DEPOSITORY

CHANGES MADE IN PARCEL POST

PARCEL POST CHANGES WILL TAKE EFFECT AUGUST FIFTEENTH.

RATES ARE TO BE LOWER

Postmaster Burlesons' Proposition Is Sanctioned by the Commerce Commission.

Parcel Post Regulations as Proposed.

Maximum weight of mailable packages increased to 20 pounds.

Cost of delivery of 20-pound package in cities and on rural routes, 15 cents.

Maximum cost, 20-pound package carried 150 miles, 24 cents. Express charges for same service, 40 cents.

Cost to department of handling 20-pound package transported 75 miles, 14 cents. Postoffice profit, 10 cents. Fifty-four per cent. of parcel post packages weigh under four ounces. Thirty-four per cent. are transported less than 150 miles.

Washington. — Postmaster General Burleson appeared before the senate committee on postoffice and post roads to explain new regulations in the parcel post service to become effective August 15. He indicated that the service will ultimately be extended to handle 100-pound packages as demanded by various parcel post experts in congress.

The promised development of the parcel post service will mean the practically complete absorption of the express companies.

Senator Hoke Smith, a member of the committee, heartily approved the changes, and, said Mr. Burleson, was entirely within the law in making them. Because of the great increase in work put upon the rural letter carrier by the parcel post service, Senator Smith has introduced a bill increasing their compensation to $1,200 a year.

Senator Hoke Smith, a member of the postoffice committee, has from the first sided with the postmaster general in his parcel post reform. After the hearing the senator said:

"I think the order is entirely within the authority given him by the act adopted by the last congress, and that it will greatly facilitate the use of the parcel post and lessen the cost on the people from one-third to one-half."

REAFFIRM MONROE DOCTRINE

Resolution Aimed at Those With Whom Caucasian Will Not Assimilate.

Washington.—Representative Clark of Florida introduced a concurrent resolution reaffirming the Monroe doctrine. It was directed particularly against "people with whom the Caucasian cannot and will not assimilate." "We hereby reaffirm what is known as the Monroe doctrine in each and every essential," the resolution read, "and declare our unfaltering allegiance thereto."

"In reaffirming the Monroe doctrine," concludes the resolution, "we do so with the earnest desire to maintain peace and friendly relations with every nation upon earth, but we cannot permit the further extension of any colonization systems of European nations upon any territory of this hemisphere, and particularly shall we object to such colonization by peoples with whom the Caucasian cannot and will not assimilate."

60 Barrels of Liquor in Jail.

Decatur, Ala.—Sixty barrels of whiskey, shiped from Chattanooga, Tenn., to various persons here, were attached by Sheriff R. N. McCullough and locked in the county jail here. The sheriff met the steamer carrying the shipment before it had reached the boundaries of Morgan county. As soon as the line was crossed the sheriff made the attachment.

Move Convicts Because of Riots.

Ossining, N. Y.—Sixty convicts—the dregs of the New York criminal class—were taken one by one from their cells in Sing Sing prison and placed aboard a train for the state prison at Auburn. Recent roits in Sing Sing caused the warden to take no chances. Each convict was heavily handcuffed and shackled and then chained to his place in the railroad car which had been brought inside the prison enclosure. A hundred prison guards did this work while in the state armory them illtia waited.

Mine Strike Settles into Siege.

Calumet, Mich.—With six militia companies on duty and other state troops en route, the strike of copper miners settled measurably towards a state of dull routine. Some of the more enthusiastic union members marched through several locations, but there was practically no disorder. The union leaders held fast to their attitude demanding recognition of the Western Federation of Miners, but this was not even considered by the company management.

ROBERT H. GITTINS

Mr. Gittins, who now represents the Fortieth New York district in congress, is a Democrat and lives in Niagara Falls.

50 GIRLS ARE CREMATED

THE FIRE SPREAD SO RAPIDLY THAT IT WAS IMPOSSIBLE FOR GIRLS TO ESCAPE

At First It Was Thought the Alarm Was for Fire Drill and the Girls Continued at Work.

Binghampton, N. Y.—Fifty persons were killed, and as many injured, a dozen or more fatally, in a fire which swept the four-story factory building of the Binghampton Clothing company. The victims were chiefly women and girls. Twenty-two bodies have been recovered. In the city hospital and in private institutions are thirty injured. Some two score persons are known to have escaped, as if by a miracle, from the building, which burst into flame like a tinderbox and became a roaring furnace almost in no time after the first alarm was sounded.

Around the scene of the catastrophe, the greatest this city has ever known, thousands watched the rescuers work in the glare of three big searchlights, many in the great throng being restrained only by the closely-drawn police lines from rushing into the ruins to seek the bodies of relative or friends.

As the ruins were cooled slightly, from time to time in a spot upon which the streams were centered, men went forward to dig as long as human endurance would allow them to work. Occasionally a body was found

MAY INVOLVE THE POWERS

Action of Turkey in Reoccupying Territory Threatens War.

London.—The European concert is faced by a most delicate and difficult suitation, requiring the exercise of the utmost diplomatic tact, if Europe is not to be plunged into a general war by the Turkish reoccupation of Adrianople and Kirk Kilisseh.

Burgaria, helpless, sees the fruits of her dearly won victories snatched from her hand, and, while negotiations for an armistice are proceeding in a leisurely manner at Nish, the Greeks and Servians continue to push their advantage.

The official announcement made at Constantinople that the Turkish troops had reoccupied Adrianople created the worst possible impression in diplomatic circles, and the powers immediately began an exchange of views to find the best means of checkmating Turkey's action.

South Carolina Detached.

Washington.—President Wilson has issued an executive order that the state of South Carolina, now a part of the fourth internal revenue district of North Carolina, be detached and hereafter constitute one collection district to be known as the district of South Carolina.

Carnegie's Bomb Just Juicy Cheese.

Nek York.—The mystery of the bomb sent to Andrew Carnegie in care of the secretary of the Carnegie corporation was solved. It was a juicy cheese inclosed an air smell-proof case of zinc, a Scotch cheese, according to an expert called into conference after the bureau had definitely determined that the bomb contained neither nitroglycerin, dynamite or other deadly explosives. On a vacant lot officials of the bureau of combustibles fired four bullets from a safe distance through the box before they opened it.

Wilson's Candidate Wins.

Sussex, N. J.—Archibold C. Hart, Democrat, was elected to the house from the sixth congressional district of New Jersey to succeed the late James Martin. Hart had the support of President Wilson. The Republican candidate, S. Woods McClave, who was mentioned in the Mulhall testimony before the senate lobby investigators, ran second, and Herbert M. Bailey, progressive, third, the returns are incomplete but indications were that Hart ran ahead of McClave by more than 5,000 votes.

REBELLION GAINING IN CHINA

MARTIAL LAW IS DECLARED THROUGHOUT THE CHINESE REPUBLIC.

Great Explosion Is Indicated—Sun Yat Sen Heads the Southern Revolt.

London.—The Pekin correspondent of The Daily Telegraph sends the following dispatch:

"The declaration of martial law here shows that the northern government admits its desperate position. This synchronizes with the creation of a complete confederate government at Nanking. Parliament has not yet been dissolved, but it is unlikely that it will survive.

"The war news is baffling, but foreign military experts now believe the southerners are in far greater strength than has been supposed.

"A private dispatch says the southerners have not been repulsed from the Pukow railway. Reinforcements are coming daily and Kwangtung promises 60,000 troops, half of which are due this week.

"All indications point to a great explosion in Hu-Peh province. There is a general reluctance among the merchantile classes to hazard their lives and fortunes and the iron will of the southern leaders must shortly bring all into light.

"Dr. Sun Yat Sen, former provisional president, issued a manifesto irrevocably backing the rebellion. He makes three appeals, the first to Yuan Shi Kai, recounting the southern grievance and declaring that just resistance to intolerable tyranny is no rebellion. He concludes: 'I am determined to oppose you as firmly as I did the Manchus. Retirement is absolutely your only course.'

GUARDS DEFY THE VATICAN

The Residence of Pope Pius in a Veritable State of Siege.

Rome.—The vatican is in a vertable state of siege. This was the outcome of the mutiny of Swiss guards, whose demands, in form of a memorial relating their grievances and setting forth the conditions on which they would remain in the service, were rejected.

Three leaders in the movement were expelled from the vatican. Four others left and twelve have requested leave to depart for their homes in October.

Those who left were accompanied to the gates of the vatican by their comrades. At the separation they cried: "Viva Garlibald!"

Serious trouble was expected when the guards were notified that all their claims had been rejected and it had been arranged that any of the guards attempting a demonstration should be arrested by the papal gendarmes and turned over to the Italian police for transportation to the Swiss frontier. When the reply to their memorial was read the commander and other officers, armed with revolvers, stood ready to suuupress any show of force.

Weekly Information for Farmers.

Washington. — Secretary Houston announced that hereafter the department of agriculture would send a weekly letter to its 35,000 townships and 2,800 county correspondents of the department, giving the latest agricultural information of value to the farmer. The letters will treat of crop conditions and prices, the discovery of new plant or animal pests, pure food decisions and those which affect users of irrigated lands and the national forests and any other work which can benefit the farmer.

Used Bible to Make Cigarettes.

Dallas, Texas.—How some of his Mexican captors used his Bible for cigarette papers was told by L. L. Davis of Dallas, who reached home after being a prisoner of constitutionalists in Mexico from May 13 until July 19. Davis said there were only a few chapters left in the book when he was released. He said his captors at times had little to eat themselves, but always shared equally with him. He was held for ransom, but was released without paying a cent, in demands by American authorities.

EXPECT LARGE YIELD

Cotton Crop of State Will Be One of Largest in Years.

PLANT IS HEAVILY FRUITED

Corn Has Fared Badly, and With Hay Crop It Will Be Almost a Total Failure.

Montgomery.—With a series of seasonable rains, the crop nearly all laid by and the outlook bright for a large output of cotton, an optimistic wave seems to have floated over the Alabama farmers within the last two weeks. Changing from what seemed to be a stunted crop caused by drouth, to a green, heavily fruited plant, the conditions warrant the optimism, according to the reports, and Alabama will make one of the largest cotton crops in years, despite the unfavorable conditions of planting time.

Two weeks of favorable weather has done much for the Alabama farmers. Cotton has begun to grow and by leaps and bounds. The crop is pulling to the front in such a manner to warrant the existing belief that the crop will be an exceptionally heavy one in Alabama. The plant is showing a marked growth, and fruit since the rains, and in some places open bolls are beginning to be seen. It is estimated that ginning will be started in some of the counties before August 10.

Although the rains were excellent for the cotton in the majority of the counties, some sections report too much rain, while others are suffering from drouth. Those not favored with the excellent conditions, however, are a small per cent., and it might be said that splendid weather, as a whole, has prevailed over the state for the past two weeks.

While the cotton has received its share of showers, the corn has not fared so well, and the rains came too late for the parched plant, which in many counties, has dried up already. The late corn, the reports say, has been greatly benefited by the rains and will make a fair crop, while the earlier crop and the upland plant was a complete failure, and will cause a great scarcity of the product in many parts of the state.

The hay crop suffered with the corn, and this crop is reported an absolute failure in many sections. The weather, however, was good for potatoes and watermelons and bumper crops of these products are being made.

Drouth is reported in Calhoun county, and it is estimated that the coming crop will not average 90 per cent. of the ten-year average. The dry heat is also reported to have damaged the crop considerably in Cherokee and Geneva counties, but the later county has improved under the recent rains. Too much rain was reported in Coffee and Dale counties, and other parts of Southeast Alabama, but excepting these scattered downpours and a few drouths, the weather averages up favorably all over the state.

The boll weevil is reported lightly infesting Sumter, Clarke, Covington, Lowndes and Pickens counties, but the damage is exceedingly small, the farmers picking and burning the perforated squares. Covington county however, reports a crop of 100 percentage. The weevil over the infested sections, seems to have hardly reached the state in time for any material damage this year, and is making little advance up to the present. Weather conditions have helped the farmer materially.

FARMERS' SUMMER SCHOOL

Agricultural Men From All Over the State Will Attend Lectures August 1-9.

Auburn.—The Farmers' Summer school will open on August 1 and continue through August 9. Announcement of the course of lectures and other activities of the school this term promise some unusually good work. Numbers of farmers from all over the state and from surrounding states are expected to attend.

DEFICIT REDUCED TO $300,000

Statement of Financial Condition Made by Governor.

Montgomery.—Alabama's deficit in the treasury has been reduced to a little more than $300,000, according to figures given out by Governor O'Neal. There are outstanding warrants of approximately $390,000 and a balance in the treasury of $89,650. The exact deficit amounts to $301,255.54.

REPORT WILL BE CONTESTED

People of Alabama and Mississippi Will Protest.

Tuscaloosa.—Following the adverse report recently made by the army board of the United States engineers on the proposed developments for the Tombigbee and Sipsey rivers, the people of West Alabama and East Mississippi living in the districts affected will take up the matter with the government in September and an effort will be made to have the question reconsidered.

SOME POLITICAL GOSSIP.

Montgomery.—Notwithstanding the rather persistent rumors that were circulated in official circles less than a month ago to the effect that another candidate for gubernatorial honors would shortly loom upon the political horizon, weeks of patient watching, breathless suspense and tireless inquiry have failed to identify that mysterious personage, though a dozen names have been suggested, and various and sundry methods have been used to learn the precious secret. The "dark horse" report is now receiving little credence. The man most prominently mentioned a week ago as a "dark horse" possibility was former Gov. William D. Jelks of Birmingham, but there are few who now believe that Mr. Jelks has any intention of entering the race. Another man of state-wide prominence mentioned as a possibility was State Senator R. E. Spragins of Huntsville, but it is declared that Mr. Spragins has no intention of becoming a candidate. A similar report declared that Ray Rushton of Montgomery might enter the race, and the chief denial to that report came from Mr. Rushton himself. Other names were mentioned as "dark horse" possibilities, but none of sufficient consequence to cause any degree of importance or weight to be attached to the rumors concerning their candidacy.

* * *

Editor A. B. Tucker of The Thomasville Echo has determined to make the race for senator from the Nineteenth Senatorial district, composed of Clark and adjoining counties. He has made his formal announcement for senator and the papers of the district are paying him some very high compliments.

* * *

It is probable that either H. S. Doster or Eugene Ballard will make the race for the legislature from Autauga county. Mr. Ballard and Mr. Doster were in the legislature of 1907, Mr. Doster being the senator and Mr. Ballard holding a post in the house. While thus legislating Mr. Ballard became the author of the Ballard prohibition bill, a state-wide measure which was among the first pieces of liquor legislation done in 1907. Mr. Doster is one of the best-known citizens in this part of the state. He made a reputation in the legislature; he has long been the bachelor editor of The Prattville Progress; he owns a big plantation in Autauga county and is also a business man. He once wrote a history of Autauga county that attracted considerable attention.

* * *

News comes from Prattville that Mr. M. A. Graham of that place is now an avowed candidate for the office of state treasurer. For several weeks the papers have carried gossip to the effect that friends of Mr. Graham were urging him to make the race for this office and it is stated, they have finally prevailed upon him to get into the fight.

* * *

George Webster Duncan, well-known text book man, probably will be a candidate for the state senate from the Franklin county district. A number of Mr. Duncan's old friends are urging him to make the race and he is, it was stated, giving the matter serious consideration.

* * *

State Senator W. L. Lancaster of Wetumpka, may enter the race for state treasurer. He is considering the advisability of running and will make the race, he states, if his business affairs do not conflict. He was a member of the 1907 legislature and was elected to the senate in 1910.

* * *

An interesting bit of gossip is going the rounds of some of the state papers to the effect that J. Lee Long, president of the state back tax commission, might become a candidate for Lieutenant-Governor. Two or three papers in different parts of the state have had something to say about the matter. Heretofore Mr. Long has been regarded as a probable candidate for governor. He stated a few months ago before anybody announced for governor, that in case the present gentlemen, who are candidates, should get in the race for governor, he saw no reason why he, too, should not get in the race, as he believed that with such a line-up he could easily be elected. Lately Mr. Long has not indicated what his intentions were.

L. & N. LOSES SUIT.

Injunction Against Alabama Railroad Commission Denied.

Montgomery.—Circuit Judge David S. Shelby and District Judge W. I. Grubb, as judges of the United States district court for the Middle district of Alabama denied the motion of the Louisville & Nashville Railroad company for an injunction against the enforcement of a 2 1-2 cents passenger rate on its lines in Alabama ordered by the Alabama railroad commission.

The temporary restraining order heretofore granted the railroad was dissolved, effective August 12, 1913.

Unless the railroad appeals and supersedes the decree of the district court it will be required to adopt the 2 1-2 cents rate on that date.

The motion was heard in Atlanta on June 23 before Circuit Judges Pardee and Shelby and District Judge Grubb. Opinions were written by Judges Shelby and Grubb.

Judge Don A. Pardee of Atlanta, the third judge who sat at the hearing did not sign the decree.

Must Be Away.

"I haven't quarreled with my wife for a week."

"When do you expect her home?"

Granulated Eyelids Cured

The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. Relieves pain and heals at the same time. 25c, 50c, $1.00.

Grocer—Because he's an undertaker.—Brooklyn Citizen.

Something to Remember.

"Now is the time to pitch in and achieve, now, now!" said Norman Hapgood in an eloquent political address in New York.

"Remember, my friends," said Mr. Hapgood, "the present is the future from which you hoped so much."

WILL RELIEVE NERVOUS DEPRESSION AND LOW SPIRITS.

The Old Standard general strengthening tonic, GROVE'S TASTELESS chill TONIC, arouses the liver to action, drives out Malaria and builds up the system. A sure Appetizer and aid to digestion. For adults and children. 50 cents.

How to Stop Pen Leaking.

"That reminds me of the story of the advertisement which said that for the small sum of 25 cents, anyone could receive the information on how to keep a fountain pen from dripping ink," said City Attorney Daniel W. Hoan in illustrating a point.

"A young man whose pen bothered the life out of him, sent a quarter for the desired information. The reply was:

"'Don't put any ink in it.'"—Milwaukee Wisconsin.

No Wonder He Was Angry.

The previously accepted lover was infuriated when one evening he called on "the only girl" and was informed by her that their engagement was at an end.

"If you insist, Grace Cheever, on breaking off our engagement, I will publish in the Oakdale Times the letters you have written me."

"As you please," she replied indifferently, toying with her bracelet. There is nothing about those letters I need be ashamed of—except the address."—Lippincott's.

Taking It Out of Clients.

A well-known Milwaukee attorney had just returned from a northern Wisconsin city where he tried a case. His partner was just closing a minor legal affair as the attorney entered the office.

There had been a long night ride to Milwaukee and the attorney was greatly exercised over the poor railroad accommodations on the train.

"Well, I just cleaned this little matter up today," said the partner.

"How long did it take you?"

"About two hours. What shall we charge our client?"

"—— these railroads, anyway. Charge him $1,000."

WOE BROUGHT MOTHER FOX

Tragic Moments for Vixen After She Had Carried Poisoned Food to Her Litter.

On one of the large estates in Hingham, a few weeks ago, a fox was found to be destroying poultry. The time of the raids, and their boldness, were proof enough that the fox must be a female with young. Poisoned meat was prepared for her, and at once the raids ceased. A few days later one of the workmen of the estate came upon the den of a fox, at the mouth of which lay dead a whole litter of young ones. They had been poisoned. The mother had not eaten the doctored food herself, but had carried it home to her family. They must have died in the burrow, for it was evident from the signs that she had dragged them out into the fresh air to revive them, and deposited them gently on the sand by the hole. Then in her perplexity she had brought various tidbits of mouse and bird and rabbit and placed at their noses to tempt them to wake up out of their strange sleep and eat as hungry children ought to eat. Who knows how long she watched beside the still forms, and what her emotions were? She must have left the neighborhood soon after, however, for no one has seen her since about the estate.—Dallas Lore Sharp, in the Atlantic.

HOW TO TREAT PIMPLES AND BLACKHEADS

For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, mothy and other unwholesome conditions of the skin.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post card "Cuticura, Dept. L, Boston."—Adv.

Why She Was Timid.

They stood upon the crest of the mountain, and gazed off through the purple distances.

"Honey plum," he whispered, bending closer, "give me a kiss—just one?"

"No, Harold," she answered timidly, "some one will hear me. There may be other ears around."

"Other ears? Why should you think so, fairest flower?"

"Oh, because I have so often heard of mountain ears I thought perhaps there might be some around and—"

But just then there was a mighty crash.

A mountain goat had heard the awful pun and jumped over the cliff.

Enthusiast.

"An up-to-date preacher, you say?"

"Yes. His sermons are bristling with motor car metaphors."

Cures Constipation, Indigestion, Sick Headache, and Distress After Eating.

SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature

Brent Good

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or landanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, landanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "*A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death.*" The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

UNITED STATES DEPOSITORY

CHANGES MADE IN PARCEL POST

PARCEL POST CHANGES WILL TAKE EFFECT AUGUST FIFTEENTH.

RATES ARE TO BE LOWER

Postmaster Burlesons' Proposition is Sanctioned by the Commerce Commission.

Parcel Post Regulations as Proposed.

Maximum weight of mailable packages increased to 20 pounds.

Cost of delivery of 20-pound package in cities and on rural routes, 15 cents.

Maximum cost, 20-pound package carried 150 miles, 24 cents. Express charges for same service, 40 cents.

Cost to department of handling 20-pound package transported 75 miles, 14 cents. Postoffice profit, 10 cents. Fifty-four per cent. of parcel post packages weigh under four ounces. Thirty-four per cent. are transported less than 150 miles.

Washington. — Postmaster General Burleson appeared before the senate committee on postoffice and post roads to explain new regulations in the parcel post service to become effective August 15. He indicated that the service will ultimately be extended to handle 100-pound packages as demanded by various parcel post experts in congress.

The promised development of the parcel post service will mean the practically complete absorption of the express companies.

Senator Hoke Smith, a member of the committee, heartily approved the changes, and, said Mr. Burleson, was entirely within the law in making them. Because of the great increase in work put upon the rural letter carrier by the parcel post service, Senator Smith has introduced a bill increasing their compensation to $1,200 a year.

Senator Hoke Smith, a member of the postoffice committee, has from the first sided with the postmaster general in his parcel post reform. After the hearing the senator said:

"I think the order is entirely within the authority given him by the act adopted by the last congress, and that it will greatly facilitate the use of the parcel post and lessen the cost on the people from one-third to one-half."

REAFFIRM MONROE DOCTRINE

Resolution Aimed at Those With Whom Caucasian Will Not Assimilate.

Washington.—Representative Clark of Florida introduced a concurrent resolution reaffirming the Monroe doctrine. It was directed particularly against "people with whom the Caucasian cannot and will not assimilate." "We hereby reaffirm what is known as the Monroe doctrine in each and every essential," the resolution read, "and declare our unfaltering allegiance thereto."

"In reaffirming the Monroe doctrine," concludes the resolution, "we do so with the earnest desire to maintain peace and friendly relations with every nation upon earth, but we cannot permit the further extension of any colonization systems of European nations upon any territory of this hemisphere, and particularly shall we object to such colonization by peoples with whom the Caucasian cannot and will not assimilate."

60 Barrels of Liquor in Jail.

Decatur, Ala.—Sixty barrels of whiskey, shiped from Chattanooga, Tenn., to various persons here, were attached by Sheriff R. N. McCullough and locked in thec ounty jail here. The sheriff met the steamer carrying the shipment before it had reached the boundaries of Morgan county. As soon as the line was crossed the sheriff made the attachment.

Move Convicts Because of Riots.

Ossining, N. Y.—Sixty convicts—the dregs of the New York criminal class—were taken one by one from their cells in Sing Sing prison and placed aboard a train for the state prison at Auburn. Recent roits in Sing Sing caused the warden to take no chances. Each convict was heavily handcuffed and shackled and then chained to his place in the railroad car which had been brought inside the prison enclosure. A hundred prison guards did this work while in the state armory them litia waited.

Mine Strike Settles Into Siege.

Calumet, Mich.—With six militia companies on duty and other state troops en route, the strike of copper miners settled measurably towards a state of dull routine. Some of the more enthusiastic union members marched through several locations, but there was practically no disorder. The union leaders held fast to their attitude demanding recognition of the Western Federation of Miners, but this was not even considerde by the company management.

ROBERT H. GITTINS

Mr. Gittins, who now represents the Fortieth New York district in congress, is a Democrat and lives in Niagara Falls.

50 GIRLS ARE CREMATED

THE FIRE SPREAD SO RAPIDLY THAT IT WAS IMPOSSIBLE FOR GIRLS TO ESCAPE

At First It Was Thought the Alarm Was for Fire Drill and the Girls Continued at Work.

Binghampton, N. Y.—Fifty persons were killed, and as many injured, a dozen or more fatally, in a fire which swept the four-story factory building of the Binghampton Clothing company. The victims were chiefly women and girls. Twenty-two bodies have been recovered. In the city hospital and in private institutions are thirty injured. Some two score persons are known to have escaped, as if by a miracle, from the building, which burst into flame like a tinderbox and became a roaring furnace almost in no time after the first alarm was sounded.

Around the scene of the catastrophe, the greatest this city has ever known, thousands watched the rescuers work in the glare of three big searchlights, many in the great throng being restrained only by the closely-drawn police lines from rushing into the ruins to seek the bodies of relastive or friends.

As the ruins were cooled slightly, from time to time in a spot upon which the streams were centered, men went forward to dig as long as human endurance would allow them to work. Occasionally a body was found

MAY INVOLVE THE POWERS

Action of Turkey in Reoccupying Territory Threatens War.

London.—The European concert is faced by a most delicate and difficult suitation, requiring the exercise of the utmost diplomatic tact, if Europe is not to be plunged into a general war by the Turkish reoccupation of Adrianople and Kirk Kilisseh.

Burgaria, helpless, sees the fruits of her dearly won victories snatched from her hand, and, while negotiations for an armistice are proceeding in a leisurely manner at Nish, the Greeks and Servians continue to push their advantage.

The official announcement made at Constantinople that the Turkish troops had reoccupied Adrianople created the worst possible impression in diplomatic circles, and the powers immediately began an exchange of views to find the best means of checkmating Turkey's action.

South Carolina Detached.

Washington.—President Wilson has issued an executive order that the state of South Carolina, now a part of the fourth internal revenue district of North Carolina, be detached and hereafter constitute one collection district to be known as the district of South Carolina.

Carnegie's Bomb Just Juicy Cheese.

Nek York.—The mystery of the bomb sent to Andrew Carnegie in care of the secretary of the Carnegie corporation was solved. It was a juicy cheese inclosed an a smell-proof case of zinc, a Scotch cheese, according to an expert called into conference after the bureau had definitely determined that the bomb contained neither nitroglycerin, dynamite or other deadly explosives. On a vacant lot officials of the bureau of combustibles fired four bullets from a safe distance through the box before they opened it.

Wilson's Candidate Wins.

Sussex, N. J.—Archibold C. Hart, Democrat, was elected to the house from the sixth congressional district of New Jersey to succeed the late James Martin. Hart had the support of President Wilson. The Republican candidate, S. Woods McClave, who was mentioned in the Mulhall testimony before the senate lobby investigators, ran second, and Herbert M. Bailey, progressive, third, the returns are incomplete but indications were that Hart ran ahead of McClave by more than 5,000 votes.

Currency Reform Will Be Enacted.

hington.—President Wilson has further assurances from lead- congress that his program of reform will receive favorable at this session of congress. surances have been made in the sharp split amongst the ers of the house banking and committee, and in spite, also, desire of many Democrats in ate to delay currency action the December session. Rapid has been made on the tariff the senate.

DR. PABLO GALDOS

Dr. Pablo Desverino y Galdos, the newly arrived minister from Cuba, is a lawyer and a close personal friend of President Menocal. He is president of the National university of Cuba.

REBELLION GAINING IN CHINA

MARTIAL LAW IS DECLARED THROUGHOUT THE CHINESE REPUBLIC.

Great Explosion Is Indicated—Sun Yat Sen Heads the Southern Revolt.

London.—The Pekin correspondent of The Daily Telegraph sends the following dispatch:

"The declaration of martial law here shows that the northern government admits its desperate position. This synchronizes with the creation of a complete confederate government at Nanking. Parliament has not yet been dissolved, but it is unlikely that it will survive.

"The war news is baffling, but foreign military experts now believe the southerners are in far greater strength than has been supposed.

"A private dispatch says the southerners have not been repulsed from the Pukow railway. Reinforcements are coming daily and Kwangtung promises 60,000 troops, half of which are due this week.

"All indications point to a great explosion in Hu-Peh province. There is a general reluctance among the merchantile classes to hazard their lives and fortunes and the iron will of the southern leaders must shortly bring all into light.

"Dr. Sun Yat Sen, former provisional president, issued a manifesto irrevocably backing the rebellion. He makes three appeals, the first to Yuan Shi Kai, recounting the southern grievance and declaring that just resistance to intolerable tyranny is no rebellion. He concludes: 'I am determined to oppose you as firmly as I did the Manchus. Retirement is absolutely your only course.'

GUARDS DEFY THE VATICAN

The Residence of Pope Pius in a Veritable State of Siege.

Rome.—The vatican is in a vertable state of siege. This was the outcome of the mutiny of Swiss guards, whose demands, in form of a memorial relating their grievances and setting forth the conditions on which they would remain in the service, were rejected.

Three leaders in the movement were expelled from the vatican. Four others left and twelve have requested leave to depart for their homes in October.

Those who left were accompanied to the gates of the vatican by their comrades. At the separation they cried: "Viva Garlibald!"

Serious trouble was expected when the guards were notified that all their claims had been rejected and it had been arranged that any of the guards attempting a demonstration should be arrested by the papal gendarmes and turned over to the Italian police for transportation to the Swiss frontier. When the reply to their memorial was read the commander and other officers, armed with revolvers, stood ready to suuupress any show of force.

Weekly Information for Farmers.

Washington. — Secretary Houston announced that hereafter the department of agriculture would send a weekly letter to its 35,000 townships and 2,800 county correspondents of the department, giving the latest agricultural information of value to the farmer. The letters will treat of crop conditions and prices, the discovery of new plant or animal pests, pure food decisions and those which affect users of irrigated lands and the national forests and any other work which can benefit the farmer.

Used Bible to Make Cigarettes.

Dallas, Texas.—How some of his Mexican captors used his Bible for cigarette papers was told by L. L. Davis of Dallas, who reached home after being a prisoner of constitutionalists in Mexico from May 13 until July 19. Davis said there were only a few chapters left in the book when he was released. He said his captors at times had little to eat themselves, but always shared equally with him. He was held for ransom, but was released without paying a cent, in demands by American authorities.

EXPECT LARGE YIELD

Cotton Crop of State Will Be One of Largest in Years.

PLANT IS HEAVILY FRUITED

Corn Has Fared Badly, and With Hay Crop It Will Be Almost a Total Failure.

Montgomery.—With a series of seasonable rains, the crop nearly all laid by and the outlook bright for a large output of cotton, an optimistic wave seems to have floated over the Alabama farmers within the last two weeks. Changing from what seemed to be a stunted crop caused by drouth, to a green, heavily fruited plant, the conditions warrant the optimism, according to the reports, and Alabama will make one of the largest cotton crops in years, despite the unfavorable conditions of planting time.

Two weeks of favorable weather has done much for the Alabama farmers. Cotton has begun to grow and by leaps and bounds. The crop is pulling to the front in such a manner to warrant the existing belief that the crop will be an exceptionally heavy one in Alabama. The plant is showing a marked growth, and fruit since the rains, and in some places open bolls are beginning to be seen. It is estimated that ginning will be started in some of the counties before August 10.

Although the rains were excellent for the cotton in the majority of the counties, some sections report too much rain, while others are suffering from drouth. Those not favored with the excellent conditions, however, are a small per cent., and it might be said that splendid weather, as a whole, has prevailed over the state for the past two weeks.

While the cotton has received its share of showers, the corn has not fared so well, and the rains came too late for the parched plant, which in many counties, has dried up already. The late corn, the reports say, has been greatly benefited by the rains and will make a fair crop, while the earlier crop and the upland plant was a complete failure, and will cause a great scarcity of the product in many parts of the state.

The hay crop suffered with the corn, and this crop is reported an absolute failure in many sections. The weather, however, was good for potatoes and watermelons and bumper crops of these products are being made.

Drouth is reported in Calhoun county, and it is estimated that the coming crop will not average 90 per cent. of the ten-year average. The dry heat is also reported to have damaged the crop considerably in Cherokee and Geneva counties, but the later county has improved under the recent rains. Too much rain was reported in Coffee and Dale counties, and other parts of Southeast Alabama, but excepting these scattered downpours and a few drouths, the weather averages up favorably all over the state.

The boll weevil is reported lightly infesting Sumter, Clarke, Covington, Lowndes and Pickens counties, but the damage is exceedingly small, the farmers picking and burning the perforated squares. Covington county however, reports a crop of 100 percentage. The weevil over the infested sections, seems to have hardly reached the state in time for any material damage this year, and is making little advance up to the present. Weather conditions have helped the farmer materially.

FARMERS' SUMMER SCHOOL

Agricultural Men From All Over the State Will Attend Lectures August 1-9.

Auburn.—The Farmers' Summer school will open on August 1 and continue through August 9. Announcement of the course of lectures and other activities of the school this term promise some unusually good work. Numbers of farmers from all over the state and from surrounding states are expected to attend.

DEFICIT REDUCED TO $300,000

Statement of Financial Condition Made by Governor.

Montgomery.—Alabama's deficit in the treasury has been reduced to a little more than $300,000, according to figures given out by Governor O'Neal. There are outstanding warrants of approximately $390,000 and a balance in the treasury of $89,650. The exact deficit amounts to $301,255.54.

REPORT WILL BE CONTESTED

People of Alabama and Mississippi Will Protest.

Tuscaloosa.—Following the adverse report recently made by the army board of the United States engineers on the proposed developments for the Tombigbee and Sipsey rivers, the people of West Alabama and East Mississippi living in the districts affected will take up the matter with the government in September and an effort will be made to have the question reconsidered.

SOME POLITICAL GOSSIP.

Montgomery.—Notwithstanding the rather persistent rumors that were circulated in official circles less than a month ago to the effect that another candidate for gubernatorial honors would shortly loom upon the political horizon, weeks of patient watching, breathless suspense and tireless inquiry have failed to identify that mysterious personage, though a dozen names have been suggested, and various and sundry methods have been used to learn the precious secret. The "dark horse" report is now receiving little credence. The man most prominently mentioned a week ago as a "dark horse" possibility was former Gov. William D. Jelks of Birmingham, but there are few who now believe that Mr. Jelks has any intention of entering the race. Another man of state-wide prominence mentioned as a possibility was State Senator R. E. Spragins of Huntsville, but it is declared that Mr. Spragins has no intention of becoming a candidate. A similar report declared that Ray Rushton of Montgomery might enter the race, and the chief denial to that report came from Mr. Rushton himself. Other names were mentioned as "dark horse" possibilities, but none of sufficient consequence to cause any degree of importance or weight to be attached to the rumors concerning their candidacy.

* * *

Editor A. B. Tucker of The Thomasville Echo has determined to make the race for senator from the Nineteenth Senatorial district, composed of Clark and adjoining counties. He has made his formal announcement for senator and the papers of the district are paying him some very high compliments.

* * *

It is probable that either H. S. Doster or Eugene Ballard will make the race for the legislature from Autauga county. Mr. Ballard and Mr. Doster were in the legislature of 1907, Mr. Doster being the senator and Mr. Ballard holding a post in the house. While thus legislating Mr. Ballard became the author of the Ballard prohibition bill, a state-wide measure which was among the first pieces of liquor legislation done in 1907. Mr. Doster is one of the best-known citizens in this part of the state. He made a reputation in the legislature; he has long been the bachelor editor of The Prattville Progress; he owns a big plantation in Autauga county and is also a business man. He once wrote a history of Autauga county that attracted considerable attention.

* * *

News comes from Prattville that Mr. M. A. Graham of that place is now an avowed candidate for the office of state treasurer. For several weeks the papers have carried gossip to the effect that friends of Mr. Graham were urging him to make the race for this office and it is stated, they have finally prevailed upon him to get into the fight.

* * *

George Webster Duncan, well-known text book man, probably will be a candidate for the state senate from the Franklin county district. A number of Mr. Duncan's old friends are urging him to make the race and he is, it was stated, giving the matter serious consideration.

* * *

State Senator W. L. Lancaster of Wetumpka, may enter the race for state treasurer. He is considering the advisability of running and will make the race, he states, if his business affairs do not conflict. He was a member of the 1907 legislature and was elected to the senate in 1910.

* * *

An interesting bit of gossip is going the rounds of some of the state papers to the effect that J. Lee Long, president of the state back tax commission, might become a candidate for Lieutenant-Governor. Two or three papers in different parts of the state have had something to say about the matter. Heretofore Mr. Long has been regarded as a probable candidate for governor. He stated a few months ago before anybody announced for governor, that in case the present gentlemen, who are candidates, should get in the race for governor, he saw no reason why he, too, should not get in the race, as he believed that with such a line-up he could easily be elected. Lately Mr. Long has not indicated what his intentions were.

L. & N. LOSES SUIT.

Injunction Against Alabama Railroad Commission Denied.

Montgomery.—Circuit Judge David S. Shelby and District Judge W. I. Grubb, as judges of the United States district court for the Middle district of Alabama, denied the motion of the Louisville & Nashville Railroad company for an injunction against the enforcement of a 2 1-2 cents passenger rate on its lines in Alabama ordered by the Alabama railroad commission.

The temporary restraining order heretofore granted the railroad was dissolved, effective August 12, 1913.

Unless the railroad appeals and supersedes the decree of the district court it will be required to adopt the 2 1-2 cents rate on that date.

The motion was heard in Atlanta on June 23 before Circuit Judges Pardee and Shelby and District Judge Grubb. Opinions were written by Judges Shelby and Grubb.

Judge Don A. Pardee of Atlanta, the third judge who sat at the hearing, did not agree with them.

Must Be Away.

"I haven't quarreled with my wife for a week."

"When do you expect her home?"

Granulated Eyelids Cured

The worst cases, no matter of how long standing, are cured by the wonderful, old reliable Dr. Porter's Antiseptic Healing Oil. Relieves pain and heals at the same time. 25c, 50c, $1.00.

Case in Point.

"Pa, what is dollar diplomacy?"

"Borrowing a dollar, son, from a man who doesn't want to lend it."

DOES YOUR HEAD ACHE?

Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Ever Think of This?

"Why don't women dress sensibly?"

"If they did, half the industries of the world would go to smash."

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

Occasionally a man kicks because his name is in the paper—in small type.

Don't Reach That Far.

Bacon—The United States makes enough paper money each year to reach twice around the world.

Egbert—That's queer. Very little of it reaches me.

Perhaps They Do.

Mr. Flatbush—This paper says that in Italy 600,000 persons find employment in rearing silkworms.

Mrs. Flatbush—Well, I hope to gracious they bring them up properly!

Its Location.

"How that house of Plunger's stands out."

"Yes; you see, he built it on a bluff."

Serious Obstacle.

Customer—When that gentleman offered to buy goods and have you take the bill out in trade, why did you refuse?

Grocer—Because he's an undertaker.—Brooklyn Citizen.

Something to Remember.

"Now is the time to pitch in and achieve, now, now!" said Norman Hapgood in an eloquent political address in New York.

"Remember, my friends," said Mr. Hapgood, "the present is the future from which you hoped so much."

WILL RELIEVE NERVOUS DEPRESSION AND LOW SPIRITS.

The Old Standard general strengthening tonic, GROVE'S TASTELESS chill TONIC, arouses the liver to action, drives out Malaria and builds up the system. A sure Appetizer and aid to digestion. For adults and children. 50 cents.

How to Stop Pen Leaking.

"That reminds me of the story of the advertisement which said that for the small sum of 25 cents, anyone could receive the information on how to keep a fountain pen from dripping ink," said City Attorney Daniel W. Hoan in illustrating a point.

"A young man whose pen bothered the life out of him, sent a quarter for the desired information. The reply was:

"'Don't put any ink in it.'"—Milwaukee Wisconsin.

No Wonder He Was Angry.

The previously accepted lover was infuriated when one evening he called on "the only girl" and was informed by her that their engagement was at an end.

"If you insist, Grace Cheever, on breaking off our engagement, I will publish in the Oakdale Times the letters you have written me."

"As you please," she replied indifferently, toying with her bracelet. There is nothing about those letters I need be ashamed of—except the address."—Lippincott's.

Taking It Out of Clients.

A well-known Milwaukee attorney had just returned from a northern Wisconsin city where he tried a case. His partner was just closing a minor legal affair as the attorney entered the office.

There had been a long night ride to Milwaukee and the attorney was greatly exercised over the poor railroad accommodations on the train.

"Well, I just cleaned this little matter up today," said the partner.

"How long did it take you?"

"About two hours. What shall we charge our client?"

"— these railroads, anyway. Charge him $1,000."

WOE BROUGHT MOTHER FOX

Tragic Moments for Vixen After She Had Carried Poisoned Food to Her Litter.

On one of the large estates in Hingham, a few weeks ago, a fox was found to be destroying poultry. The time of the raids, and their boldness, were proof enough that the fox must be a female with young. Poisoned meat was prepared for her, and at once the raids ceased. A few days later one of the workmen of the estate came upon the den of a fox, at the mouth of which lay dead a whole litter of young ones. They had been poisoned. The mother had not eaten the doctored food herself, but had carried it home to her family. They must have died in the burrow, for it was evident from the signs that she had dragged them out into the fresh air to revive them, and deposited them gently on the sand by the hole. Then in her perplexity she had brought various tidbits of mouse and bird and rabbit and placed at their noses to tempt them to wake up out of their strange sleep and eat as hungry children ought to eat. Who knows how long she watched beside the still forms, and what her emotions were? She must have left the neighborhood soon after, however, for no one has seen her since about the estate.—Dallas Lore Sharp, in the Atlantic.

HOW TO TREAT PIMPLES AND BLACKHEADS

For pimples and blackheads the following is a most effective and economical treatment: Gently smear the affected parts with Cuticura Ointment, on the end of the finger, but do not rub. Wash off the Cuticura Ointment in five minutes with Cuticura Soap and hot water and continue bathing for some minutes. This treatment is best on rising and retiring. At other times use Cuticura Soap freely for the toilet and bath, to assist in preventing inflammation, irritation and clogging of the pores, the common cause of pimples, blackheads, redness and roughness, yellow, oily, mothy and other unwholesome conditions of the skin.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post card "Cuticura, Dept. L, Boston."—Adv.

Why She Was Timid.

They stood upon the crest of the mountain, and gazed off through the purple distances.

"Honey plum," he whispered, bending closer, "give me a kiss—just one?"

"No, Harold," she answered timidly, "some one will hear me. There may be other ears around."

"Other ears? Why should you think so, fairest flower?"

"Oh, because I have so often heard of mountain ears I thought perhaps there might be some around and—"

But just then there was a mighty crash.

A mountain goat had heard the awful pun and jumped over the cliff.

Enthusiast.

"An up-to-date preacher, you say?"

"Yes. His sermons are bristling with motor car metaphors."

Trade Mark.

Make the Liver Do its Duty

Nine times in ten when the liver is right the stomach and bowels are right.

CARTER'S LITTLE LIVER PILLS gently but firmly compel a lazy liver to do its duty.

Cures Constipation, Indigestion, Sick Headache, and Distress After Eating.

SMALL PILL, SMALL DOSE, SMALL PRICE.

Genuine must bear Signature

Brent Good

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: *"A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death."* The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

WINTERSMITHS CHILL TONIC FOR MALARIA and as a general TONIC

If not sold by your druggist will be sent by Parcels Post on receipt of price. Winters Drug Co., Louisville, Ky.

Help push that High School proposition!

Verily the Lord is good. About the time watermelons are out of season sweet taters put in an appearance, followed quickly by ripe, juicy possums.

If things turn out as we expect them to do, there will be some men working on the 14th, 15th and 16th of August who have not hit a real hard lick of work in lo, these many years. It's "Good Roads" days, you remember.

There is no country like this for corn, potatoes, grain, hay, cane and other articles of home consumption; eschew cotton for the next year or two and see how prosperous this country will become. Plant cotton and see how want will stare many in the face.

The door to the house of opportunity is swinging open in old Chilton; it needed but a guiding hand to turn the knob, and that has been supplied; the hinges were well oiled and the door readily yielded to the gentle touch, to an appeal in behalf of the children of the county. The High School is well nigh assured; don't be a grouch, a knocker, a pessimist; help all you can to make it a reality. If you can't and won't help, then don't knock—keep your chin buckled tight; nobody likes a knocker anyway.

The excessive rains the past few days are creating considerable speculation among the farmers. While it's making corn "hump" they fear it will also make the cotton rust.

The boll weevil is reported all around us; wonder if the farmers of Chilton are preparing for his inevitable coming? If you are not it's time to begin getting ready for his reception, Mr. Farmer; he may be an unwelcome guest, but he is none the less sure to come; and having come he will make it extremely uncomfortable for those who have not prepared for his entertainment.

Lest some of our friends in the country get it into their heads that the proposed High School soon to be established in Clanton is strictly and entirely a Clanton institution, we wish to say that it is altogether a Chilton county affair; not one section of the county but is interested in the establishment of this school; not one section but will be benefitted by its establishment. It will belong to all the people and all the people will have equal rights and privileges. It will bring into the county (not the town of Clanton) more school money than she has ever received and will furnish the county, and the town, more school facilities than she has ever enjoyed. Don't get it into your cranium that is a Town institution; it belongs to YOU.

It now appears that Kolb is getting in behind. Henderson instead of training his guns upon Comer, as all the other candidates are doing. Kolb charges that Henderson is not and cannot be a local option candidate for the reason that he supported Mallory in the last gubernatorial race on a prohibition platform.

This is at least a straw to show that the newspaper report of the activity of Gov. O'Neal and his friends who are seek to re-organize the old anti-amendment forces is true.

Report has it that O'Neal and his associates are to call a meeting soon to re-organize and to center upon a local option candidate to lead the forlorn hope against Comer; Kolb is evidently trying to become that candidate by showing that Henderson cannot consistently represent the local optionists.

Doesn't make any material difference which of them wins out in the preferential "primary" or caucus, Mr. Comer will win out at the polls, the place where all the people have an opportunity to express a choice.

CULP WON'T SPEAK

DENIED THAT RIGHT BY SHERIFF.

Last week the State papers were carrying a challenge issued by Mrs. Oscar R. Hundley of Birmingham to Hon. Thos. Heflin to debate the equal suffrage issue with her or some representative of the equal suffrage league. Mr. Heflin declined the challenge and, it appears that Mr. M. W. Culp took up the gauntlet thrown down by Mrs. Hundley and promptly accepted her challenge to discuss the question. In fact Mr. Culp went Mrs. Hundley one better than her challenge called for; he desired to stump the state on the issue, but before the proposition of Mr. Culp could be accepted or declined, others stepped in and interfered. Mr. Mack Culp, the challenger, is well known to residents of Chilton county, he having been born and reared in this county and his unfortunate predicament is regretted by all who are acquainted with him. However, the fact of the challenge having been issued by him to so prominent a lady as is Mrs. Hundley has caused considerable comment, and we publish the clipping for what it is worth—not with any desire to bring the unfortunate young man's affairs more prominently to light.

PRISONER IN PIKE COUNTY JAIL ASKS SUFFRAGE DEBATE.

In these days of gubernatorial candidates firing challenges back and forth at one another, no experience of B. B. Comer, Charles Henderson or John H. Wallace, Jr., has been so novel as that of Mrs. Oscar Hundley, President of the Birmingham Equal Suffrage Association, who bears the distinction of having the gauntlet of debate offered to her by a prisoner.

During the past week, Mack Culp, at present receiving his mail in care of the sheriff of Pike county, issued a challenge to Mrs. Hundley to meet in a debate on votes for women and even tour the State, beginning about August 15.

The challenge appeared Thursday morning, the identity of the person seeking the speaking jaunt around Alabama, was published. Here follows the challenge, which is self-explanatory:

Troy, Ala., July 22, 1913

I today noted an article in which I saw Hon. J. Thomas Heflin had declined to debate with Mrs. Oscar R. Hundley of Birmingham, on the suffragette platform and will say through the columns of your paper that I will gladly meet Mrs. Hundley and debate the question or will arrange to make a complete tour of the State, that is the principal cities, and debate this question; or I will meet her at any special place and debate this question. I owe it to my great State to do this and I don't believe that old Alabama will ever become a suffragette State. I will not discuss any further points, but my challenge is open to any one else just the same as to Mrs. Hundley, although I prefer debating with her, and will make a complete tour of the State if agreeable, with the other side arranging our dates, say beginning about August 15th and continuing until we work the State. Any one interested can communicate with me through the Advertiser, or direct.

Yours truly,
Mack W. Culp.
P. O. Box 166, Troy, Ala.

In answer to this challenge appeared the following editorial:

The Advertiser is in receipt of the following letter from Mr. F. B. Collier:

"Editor The Advertiser—I notice an article in today's paper signed by one Mack W. Culp, challenging Mrs. O. R. Hundley to a joint debate on the suffrage question.

"It is generally understood in Brundidge that the aforesaid Mr. Culp is now securely confined in the county jail, and it would be interesting to all suffrage-for-women enthusiasts to know just how 'Colonel' Culp will manage to secure a 'leave of absence' from Sheriff McBride in the event some true and tried suffragette should accept his most flattering challenge?

"I inquire to know."

The Troy Messenger states that the postoffice box, which Culp gave as his address, was the private box of the Sheriff of Pike county, showing at least that Culp "stood in" with the Sheriff.

RAILROAD ACCIDENT.

MAN BADLY CRUSHED AT JEMISON. RAILROAD NOT TO BLAME.

News comes to Clanton Tuesday morning of a serious accident on the L. & N. railroad near Jemison, which will perhaps cost an unknown white man his life. From the best reports obtainable at this time it appears that the unfortunate victim was sitting on the roadway, probably asleep, when an early morning train passed by, knocking him from the track, cutting off part of one foot and breaking a thigh bone.

The man claims that he was engaged at the river dam and that on Saturday night he was robbed of $200, which he had saved up for his family; after the robbery he decided to return to his home in Talladega, and had gotten as far as Jemison, when weary from the long walk he sat down upon the railroad to rest, and fell asleep. His cries in the early hours of the morning brought assistance, otherwise the poor man might have bled to death.

The railroad is in no way to blame for the accident as the man was not taking the ordinary precautions to avoid an accident.

LEGAL NOTICE.

The State of Alabama,
Chilton County.

In The Chancery court of said county, Seventh District, Northern Chancey Division.

The town of Thorsby, Ala.,—VS S. O. Brant, Della Goldbin, C. H. Swan, J. L. Weal, Emil Carlson, and Emil Lanson.

In this cause it is made to appear to the Register, by the certified tax list heretofore filed in my office at Clanton, Ala., by the town of Thorsby on the 20th day of May, 1913 that the following list of property in the said town of Thorsby, Ala., was assessed to the following named persons towit:—

10—C. H. Swain, Beginning at a point 50' south of the N.E. corner of S.E. 1-4 of S.W. 1-4 of S.W. 1-4 of Sec. 6, T. 23 Range 14, thence south 50', thence west 140', thence north 50', thence east 140' to the point of beginning, for the tax year 1912.

11—To J. L. Weal, N.W. 1-4 of N. E. 1-4 of S.W. 1-4 of Sec. 1, T. 22, R. 13 for for the tax year 1912.

12—To Della Goldbin, S.W. 1-4 of N. W. 1-4 of N.W. 1-4 of Sec. 7, T. 22, R. 14 for the tax years of 1911 and 1912.

13—To Emil Carlson, Lot One (1) in block eveven (11) for the tax year 1912.

15—To Emil Larson, N.E. 1-4 of N.E. 1-4 of Sec. 6, T. 22, R. 14 for the tax year 1912.

16—To S. O. Brant, Lots number 17 and 18 in Block (2) for the tax years 1909, 1910, 1911 and 1912.

And that summons having been issued to said above named property owners as required by law, has been returned by the Sheriff of Chilton county, Alabama "not found."

It is therefore ordered by the Register that publication be made in the Press, a newspaper published in the county of Chilton, state of Alabama, once a week for four (4) conservative weeks, requiring them, the said S. O. Brant, Della Goldbin, C. H. Swain, J. L. Weil, Emil Carlson and Emil Larson to answer or demur to the same within thirty (30) days after the 16th day of August, 1913 and failing to do so, a final decree will be made by the Chancellor of the northeastern chancery division of Alabama adjudging the above described property liable for such taxes and directing the Register in Chancery to sell said property for the payment of the taxes, charges and penalties interests and costs that are charged thereon unless the amount due and costs shall have been paid to the Register aforesaid before such date.

Done at office in Clanton, Ala. this the 16th day of July, 1913.

E. M. Simpson, Register in Chancery.

7-24-4t

INJUNCTION SUIT FILED

EFFORT TO RESTRAIN BLOCKING OF PUBLIC STREETS BY GIN COMPANY.

An injunction suit involving the right of private citizens to blockade public thoroughfares is in process of submission for decision by Dr. J. E. Gowan against Messrs. W. I. Mullins, W. L. Popwell and associates, to be submitted to Chancellor W. W. Whitesides, in which it is sought by the plaintiff to enjoin the defendants from encroaching upon that part of Third Avenue, South, in close proximity to the cotton gin now being erected by the defendants. It is claimed by the plaintiff that the defendants are erecting seed houses, wood yards and other obstructions upon the street, much to the injury of his private property and virtually prohibiting ingress or egress from or to the southwest of said property. The street which the plaintiff avers is being blockaded, originally fell to Dr. Arthur Johnson in the division of the Johnson estate; but he subsequently arranged with Dr. Gowan, another of the Johnson heirs, to open a street sixty feet wide over the stretch of land afterward sold to the plaintiffs, and which is now known as Third Avenue, South, a part of the public street system of the Town of Clanton.

It appears that there was no written agreement between Drs. Johnson and Gowan as to the opening of the avenue mentioned, but the opening was done according to the original plan and survey and after the street was opened Dr. Johnson erected a wire fence along both sides of said avenue, showing that he recognized the agreement formerly made.

Just what the outcome of the suit will be cannot be foretold, but that it is now a part of the property belonging to the Town of Clanton, and not to private individuals, cannot be disputed.

The difference between "The Summer Girl" and the "Summer Woman."

While the former is having a "good time" the latter is too often dragging around nervous, run down, tired out, with aching back and weary limbs, sleepless and wretched. Often it is kidney trouble not female trouble and Foley Kidney Pills are a direct and positive help for the condition. Alred Drug Co.

Mr. Tipton Mullins is having his store house on Main street remodeled, and when completed it will be one of the handsomest in town. Large plate glass fronts will be installed and the store divided so as to make two separate stores. The work is being done by Farley Bros.

Dr. L. M. Latham, who has been in north Alabama for the past few weeks regaining his lost health, has returned to Clanton greatly improved, much to the delight of his many friends.

SOUTHERN UNIVERSITY

Greensboro, Ala.

A SCHOOL OF CHARACTER

THE COLLEGE

1. The EDUCATIONAL STANDARDS meet the college requirements of the National Association of State Universities, of the Southern Association of Schools and Colleges, and of the Alabama Association of Colleges of which the institution is a member. The curriculum is high and varied, and the instruction is careful personal and thorough.

2. The IDEAL of the institution is the development of CHRISTIAN CHARACTER. It believes the studies are more important than athletics, and that righteousness is more important than all. And this belief determines its whole attitude and policy.

3. The COST per year is very low. Tuition, fees and board amount to only $200 for the full nine months session,—$150 for the sons of ministers and ministerial students.

THE FITTING SCHOOL.

For the benefit of students who are not yet prepered to enter college, but who desire the advantages of a high grade preparatory school, the Southern University has established and maintains its FITTING SCHOOL. This school offers a standard high school course under peculiarly attractive coditions. Students of the Fitting School enjoy the privileges of a college gymnasium, library, Y. M. C. A., and all public lectures and entertainments given by the college. At the same time, they have their own dormitory, where they live together with the principal and his family and the Matron, and so have the advantage of close association with their teachers, and constant supervision by them. The cost is the same as in the college.

FALL TERM OPENS SEPT. 10, 1913.

ANDREW SLEDD, Ph D. (Yale) D. D., L. L. D., President,
RALEIGH W. GREENE, B. S., B. D., Prin. Fitting School.

Do You Know What

Had You Thought What It Means to Look Neat?

We take your old clothes, remove all ink and grease spots, repair torn places, renew "wholly" pockets, press them neatly and return them to you at an insignificant cost, but at a tremendous saving to you.

We make OLD Clothes look NEW. Ladies Skirts and Waists a specialty

Look up your old clothing and give us a chadce to renew them for you. Let us rejuvenate your wardrobe.

Miss Inez Hicks, after a very pleasant visit to her sister, Mrs. Ed Smitherman, has returned to her home at Lawley.

Misses Agnes Courtney, who have been on a visit to Mrs. Hugh Jones, returned to her home in Montgomery Sunday afternoon.

Dr. Hoke Smith Pipes leaves tomorrow for Birmingham to make final arrangemenis for his tour of the northwest.

Our Laundry work is the best obtainable. Laundry collected and delivered promptly. None but the "par excellence" work. Mc. D. Ruffin.

BRILLIANT SUCCESS

MRS. CROSWELL'S MUSICAL RECITAL.

Notwithstanding the extremely inclement weather, the musical recital given Tuesday evening by the pupils of Mrs. R. H. Croswell at the home of Mr. and Mrs. W. T. Callen, was a decided success in every respect. The fearful rain just two hours previous to the time appointed for the beginning of the recital interferred somewhat with the arrangement and kept quite a number of invited guests away, but the evening was, nevertheless, thoroughly enjoyed by those fortunate enough to be present.

Mrs. Croswell has been teaching in Clanton but about two months—a very limited time for a teacher to bring her pupils up to such a standard of excellence as was shown by Mrs. Croswell's pupils on this occasion.

The following program was rendered, and to select any one rendition as "the best" would be difficult indeed, for each was so well rendered as to elicit hearty applause from all present, each number of which reflected credit upon both teacher and pupil:

Dorothy Waltz, by Sartoris, Miss Marzella Mullins.

Tiny Tot Waltz, by Orth, Miss Warrine Spigener.

Dance of Clowns, by Eilenberg, Miss Sara Adams.

Picnic in the Woods (duet) Miss Annie Gragg and Mrs. Croswell.

Santa Claus March (Krogman) Miss Mamie Sightler.

Pink (Lichner) Miss Mary Sue Mullins.

Merry Kate (Eilenberg) Miss Kathleen Mullins.

Tulip (Lichner) Miss Kate Goodgame.

O'er Hill and Dale (duet) Miss Izora Callen and Mrs. Croswell.

A Night Song (Mildenberg) Miss Mary Louise Croswell.

The Woodpecker (Neven) Miss Mary Louise Croswell.

Priest's March (duet) Miss Alice Stanfield and Mrs. Croswell.

During the evening's entertainment Miss Mary Louise Croswell, the beautiful and talented daughter of the teacher, entertained the audience by the rendition of several vocal selections, which were highly enjoyed.

CLANTON 3--6 ROBINSON SP'GS 4--1

Clanton and Robinson Springs ball clubs played a "double header" on the latter's grounds last Thursday. The first game was a pitchers' battle, between "Sucker" Wilson and Frazier, the score 4 to 3 in Robinson Springs' favor. Wilson pitched a beautiful game and deserved to win, but a heavy down pour of rain in the forenoon, making a muddy field, coupled with bad dscisions by umpire Jack Fuqua, gave the home team the victory. Jim Ramsey, first time up, slammed out a long fly to deep right for three bases, which would have been a home run had the grounds been in good condition.

In the second game Manager Reynolds sent "Pal" Pyron to the box with McDowell catching, while Zeigler did the twirling for Robinson Springs. The Clanton boys took favorably to Zeigler's offerings and won the game easily, the score resulting 6 to 1. Pyron pitched a good game and was given brilliant support.

The decisions of umpire Fuqua were very unsatisfactory and caused considerable wrangling.

Clanton has played 15 games this season and has only been defeated twice.

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. We are willing to personally guarantee this and to return your money without argument if your complexion is not fully restored to its natural beauty. WILSON'S FRECKLE CREAM is fine, fragrant and absolutely harmless. Will not make hair grow but will positively remove TAN, PIMPLES and FRECKLES. Come in today and try it. The jars are large and results absolutely certain. Sent by mail if desired. Price $1. Mammoth jars $1.60. WILSON'S FRECKLE SKIN SOAP 25c. For sale by

Alred Drug Company.

EXCHANGED AUTOS

Watts Gets Little Auto And Boot; Higgins Gets Big Auto And Puncture.

Messrs. C. H. Watts and Frank Higgins have exchanged automobiles, Mr. Higgins giving his little machine and "boot" for the large five passenger touring car of Mr. Watts—incidentally Mr. Watts threw in a puncture for which he had no particular use.

Watts is now enjoying himself in his machine, having made a hurried trip to Montgomery last Sunday, since which time he has not returned—up to this writing. He says that Higgins' car goes so fast he has no time to strike stumps as he did with the touring car.

Both seem perfectly satisfied with the trade; if they are satisfied who has any kick coming?

FAIR WARNING

The season on doves will open August 1st, and hunters' are advised to equip themselves with hunters' licenses, before entering the dove field. Attention is also called to the 'bag' limit; not more than twenty-five doves must be killed by one person in a day.

The baiting of fields is prohibited. This practice has been largely stopped and an effort will be made this season to entirely stamp it out. It is reported to this office that dynamiting of the fish in Yellow Leaf creek has recently been done; this is one form of barbarianism, and all land owners and other good citizens will please see to it that the guilty parties are apprehended and brought to justice. Deputy game and fish wardens are requested to be on the alert, and to prosecute all violators of the game and fish laws. One half of my part of any fine will be given to any deputy warden who secures the conviction of any violator of the game and fish laws.

J. W. E. GULLEDGE,
County G. & F. Warden.

Mortgage Sale.

Default having been made in the payment of a debt secured by that certain mortgage made by William McCorkle and his wife, Fannie McCorkle, to J. M. McCorkle, dated the 12th day of November, 1898, and recorded in Book 120, at page 241, of the records of conveyances for Chilton county, Alabama, and said default continuing, said J. M. McCorkle will, under and by virtue of the powers of sale in said mortgage contained, proceed to sell at public outcry to the highest bidder for cash within the legal hours of sale, in front of the court house door in Clanton, Chilton county, Alabama, on

AUGUST 23rd, 1913,

the following described real estate, situated in Chilton county, Alabama, namely:

The south half of the northeast quarter of Section 34, Township 20, north, Range 12, east, and containing eighty (80) acres, more or less.

This sale is made for the purpose of paying the debt secured by said mortgage, including the expense of this foreclosure, together with attorney's fees for collecting said debt and foreclosing said mortgage.

J. M. McCORKLE, Mortgagee.
Pettus, Fuller & [illegible]
Attorneys.

7-31-4t

The young man Thornton ... in United States Court last ... for misappropriation of a money order, was discharged by the jury as not being guilty. Senator Murry was young Mr. Thornton's attorney and made an able defense for his client.

Mr. and Mrs. V. H. Vines of Birmingham returned to their home Tuesday, after a most pleasant visit to the parents of the former, Mr. and Mrs. J. H. Vines.

Our friends are invited and requested to send us in all the neighborhood news; we will appreciate it and so will our readers.

Subscribers who do not receive their paper regularly and on time are requested to notify the editor of the Press, giving date and post office address.

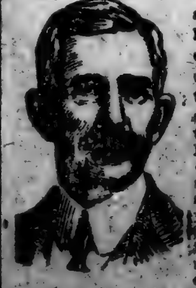
Articles containing advertising matter of any character will not be published as news unless paid for in advance and are marked as advertising.

Notices of all-day singings and kindred subjects are invited as news articles, but they will not be published more than one time except as advertising matter at regular rates.

We wish to cater to our friends and patrons, but dislike to publish articles signed "Somebody's Sweetheart" or "Nobody's Darling" or with other kindred ppt names; get something more classical.

Subscribers who are in arrears must forward subscription price in order to keep their subscriptions alive. The Post Office department requires this of us and we request it of our patrons.

Subscribers who wish their address changed MUST furnish the old address together with the new; this is absolutely necessary and unless the old address is given no attention will be paid to requests for change.



Unsigned articles invariably go to the waste basket. If you do not wish your name published we will not do so, but we must have it as a guarantee of good faith. Select a nom-de-plume and stick to it, but always give your proper name in the margin of your communication.

On and after this date all newspaper subscriptions are invariably payable strictly in advance. There will be no variations from this rule. It is the rule of all other newspapers and we have decided to adopt it and adhere to it. Please be governed accordingly.

Articles riduculing or reflecting upon others either in a social or political way—or otherwise—will not be published except when paid for at regular rates (cash to accompany communication) and signed by the writer with proper name. Even then we reserve the right to reject such articles if in our opinion they are objectionable.

We have heretofore charged nothing for publishing obituaries, but our columns cannot be used as grave stones without we receive something for the service. Three hundred words will be published absolutely free, but all in excess of that number must be paid for at the rate of one cent per word—cash to accompany.

Heart Disease Almost Fatal to Young Girl

"My daughter, when thirteen years old, was stricken with heart trouble. She was so bad we had to place her bed near a window so she could get her breath. One doctor said, 'Poor child, she is likely to fall dead any time.' A friend told me Dr. Miles' Heart Remedy had cured her father, so I tried it, and she began to improve. She took a great many bottles, but she is spared to me today, a fat, rosy cheeked girl. No one can imagine the confidence I have in Dr. Miles' Heart Remedy." A. R. CANON, Worth, Mo.

The unbounded confidence Mr. Canon has in Dr. Miles' Heart Remedy is shared by thousands of others who know its value from experience. Many heart disorders yield to treatment, if the treatment is right. If you are bothered with short breath, fainting spells, swelling of feet or ankles, pains about the heart and shoulder blades, palpitation, weak and hungry spells, you should begin using Dr. Miles' Heart Remedy at once. ALABAMA POLYTECHNIC INSTITUTE

"AUBURN"
The Oldest School of Technology in the South

69 Professors and Instructors 810 Students 20 Well Equipped Laboratories

Next Session Begins September 10, 1913
Summer Session, July 25 to Sept. 5, 1913

NEW BUILDINGS: Smith Dining Hall, Carnegie Library, Agricultural Hall, Broun Engineering Hall, Dairy and Horticultural Laboratories and Greenhouses

DEPARTMENTS: I. Engineering and Mines—Civil, Electrical and Mechanical, Chemical and Mining Engineering, Architecture, Metallurgy, Mechanic Arts, Technical Drawing, Machine Design, etc. II. Agricultural Sciences—Agriculture, Horticulture, Animal Industry, Botany, Entomology, Chemistry, and Pharmacy. III. Academic—History, English, Mathematics, Latin, German, French, Physics and Astronomy, Political Economy, Psychology. IV. Veterinary Medicine.

EXPENSES: Free tuition to residents of Alabama, $20.00 to non-residents. Board in Dormitory and with private families. For Catalogue and Other Information, Address

CHAS. C. THACH, M. A. LL. D., President, Auburn, Ala.

NOTICE.

The new CLANTON AMUSEMENT CO. have equipped an electric theatre with first-class Moving Picture service. Three long reels with new and up-to-date pictures every night. It is educational to children and clean moral pastime for adults. We will entertain you for a solid hour or so for the nominal admission of 10 cents; children under 12 5 cents; little fellows under 5 free. We change program every night with 3 new reels of pictures. If you will help us with your patronage, Clanton will have as good an electric theatre as any city in the South. We give two continuous performances every night, 7:30 and 8:30. The house is equipped with electric fans, which makes it cool and pleasant. Come to see us and bring the children. It is Educational.

Clanton Amusement Co.

Personal Appearance is a Personal Asset

LOOK PROSPEROUS——GAIN STATION!

THE old saying that a "Man is known by the clothes he wears" may be obsolete. In fact Bobby Burns said

"A Man's a Man For All O' That."

But somehow the world doesn't look at it that way.

**You've Got to Dress to Dance,
You Must Dance to Borrow Money,
You Ought to Dress Anyway for Your Own Sake.**

¶We are moving heaven and earth to clothe Clanton and the country side. Realizing our responsibility we bought largely of the best manufacturers. We bought so that we could sell closely and dress our customers fashionably at the least cost.

Suits, Trousers, Coats, Hats, Shoes, Underwear, Shirts, Collars, Socks, Cravats, Handkerchiefs, Gloves.

We are moving these goods at phenominal prices—prices that would astonish the WHOLESALER and make him scared.

It's Up to You to Get Yourself Rigged Out In Togs That Tell.
Tell It To Us and Let Us Tell It To the World Through You!

NO TROUBLE TO SHOW YOU EVEN IF YOU DO NOT PURCHASE.

NATIONAL CAPITAL AFFAIRS

He Twists Letters Like Mexican Juggling Lariat

WASHINGTON.—Frank B. Willis, the rising young statesman from Wool Town, Ohio, who pulled down the spelling laurels in the recent Press Clubs ladies' night entertainment, had better study up that bluebacked speller, because there's another chap in town who can twist the letters round his tongue like a Mexican greaser juggling a lariat. This same fellow is Wrisley Brown, special assistant attorney general of the department of justice.

Some time ago a correspondent who purported to be a college professor wrote a letter to President Taft complaining that the recurrence of crime waves was due to malign thought impulses hurtled about by detectives of the department of justice. Then the detectives would issue forth and arrest these law breakers, according to the writer, in this way working up a reputation for efficiency. The writer also said he had appeared before the senate "third degree" committee, and that his views were greeted with loud guffaws. In conclusion he said:

"They laughed, Mr. President," he wrote, "at the profundity of their own ineptitude."

The letter was referred to the department of justice, and Wrisley Brown was asked to prepare an indosement for it. There was a scream of laughter when Brown turned in a burlesque opinion, couched in words which outranked the professors' ten to one. They say President Taft chuckled all day over it. And as for big words—just watch:

"After careful reflection," wrote Wrisley Brown, "I concur in the physical theorems herein deduced by the complainant. His conclusions regarding, the auto-suggestion of crime are fully borne out by the history of human experience. Its insidious effect upon the mind has a pronounced tendency to bring on aboulomania or cretinism of the will power, combined with a choreic condition of the faculties.

"In some cases it has even been known to induce katatonia or some more serious dissociation of the mental elements of a luetic character and furibund developments such as, for instance, confusional encephalomalacia.

"The application of the third degree annihilates the inhibitory powers of the average victim and plunges him into a state of volitional hypnosis, thereby breaking down the fundamental doctrine of free agency."

How John Burroughs Found a Place to Sleep In

JOHN BURROUGHS, accompanied by two well known naturalists, Ernest Thompson-Seton and Glenn Buck of Chicago, was a recent visitor to the capitol.

At the capitol Mr. Burroughs gazed with thoughtful eyes directed toward the imposing, glistening white, marble senate office building.

"Beautiful building, isn't it?" he was asked.

"Hugh! Yes," was the slow response.

"But," he added, "I would a whole sight rather gaze at a scene I remember so distinctly. I had visited a small hamlet in a state that was "dry."

"I looked about, but could find no place to sleep. It took only a few minutes to traverse the settlement. There was only one place where a light could be seen. The nature of the business being transacted there was apparent to all who cared to understand. It was a so-called "blind tiger."

"Seeking rest there was out of the question, but I was tempted to enter and ask for information. As I was hesitating, a faint light in a building opposite showed, and in a few minutes the form of a man, partly dressed, appeared in the doorway and began an unsteady course for the blind tiger.

"I did not stop him, but as he entered the place of liquor dispensing, I entered the place he vacated, blew out the light and cast myself into his bed, which was warm.

"It seemed hours later when I was awakened by a reeling Swede.

"'Ah bane thanking you've my bade,' he began.

"'Man,' I replied. 'You've been to the blind tiger.'

"That was enough. The man was too dazed to think. He turned about, by degrees, and walked out of the place. I don't know where he went, but probably back to the blind tiger."

Calamitous Cessation for Bobby's Little Lamb

IT is an admitted fact that Mary had a little lamb, but it may be news to the general public that Bobby Blank, who lives out Georgetown way, had another. Leastwise, he had, until the other day, when his ownership came to what one might briefly call a calamitous cessation.

Bobby had been week-ending with a little cousin who lives out in the country two hours by wagon, on a hill, off the pike. Little cousin owned a pet lamb, and when the wagon was waiting for Bobby he, somehow, managed to sneak pet off and get away with the goods.

The wise men who make the world go round for us assert that character changes with environment, and it must be so, for, by the time the wagon had wheeled up to the home curb the small white thing that had been as docile as those other dear lambkins that skip on the forever-green grass in the way-back spelling book, took on a kiddish butting velocity.

Bobby's mamma was waiting to welcome little son as he hopped out of the wagon, dragging the lamb at the end of a string. The first thing the two knew the lamb had butted in and sprawled them, mother and manchild, on the pavement.

A crowd developed with a suddenness that suggested it must have swarmed up from the crevices in the bricks.

The little lamb got busy and butted around at the human fringe with skillful impartiality, until a particularly big man gave it what was intended to be a down-and-out kick. But it wasn't. Not for the little lamb. As for the man—but maybe he wouldn't like it mentioned; some people are so delicately sensitive—and, anyhow, maybe he would have done better if the little lamb had given him a second try, but it wasn't that sort of a little lamb. It preferred to streak off like white lightning—and maybe it is streaking yet.

Some Mighty Beautiful Things in the Constitution

SENATOR TOM MARTIN of Virginia is radically different from most statesemen from the sunny south. He is not an orator. On the contrary, he is usually so silent that he makes the Sphinx seem like the star book agent for an installment publishing house. As some of his constituents like to say: "Tom takes his'n out in thinkin' and actin'."

But while Martin says little, he listens much. And when he does finally break into speech his words are to the point.

Some time ago there came up, in the senate, a bill on which there was a bitter fight. Straightway several of those senators who have come to be known as "constitutional sharks" leaped to their feet one after another, in high sounding and resounding protest.

"Shall we, unworthy as we are, dare to violate either the letter or the spirit of our beloved constitution?" they demanded. "Never—never—not one iota—NEVER!"

Martin listened calmly until all had done. Then he rose slowly and draped himself gracefully over the edge of his desk.

"Mistah President," said he in his soft drawl, "I yield to no man, suh, in my respect foh the Constitution and its framers. They did well. They did nobly, suh—foh their time. But, Mistah President, those gentlemen have been dead mo' than one hundred years, suh, and times, suh, have changed. We've got to remember that, suh.

"An' remembering that, Mistah President, what I started to say was this: There are some mighty beautiful things in our Constitution. It's a beautiful work, suh. But, Mistah President, of all the beautiful things in all that beautiful work, to my mind the mos' beautiful of all are those glorious words, suh, givin' us the right to amend."

SLUGGER HELPS KEEP PHILLIES IN RACE.

Sherwood Magee, Hard-Hitting Outfielder.

Even if the Phillies do not win the National league pennant this year they have demonstrated that they are a fast and game team. Manager Charley Dooin has some of the heaviest hitters in the league on his roster. Cactus Cravath and Sherwood Magee are the star sluggers of Dooin's club, and have contributed in large measure to keeping the Phillies at the top the greater part of the season. Sherwood Magee has done some rare execution with the stick, though he has experienced batting slumps at times. His present batting mark is over .300. Magee has long been recognized as among the great hitters of the diamond and has a batting eye that the passing years do not appear to dim.

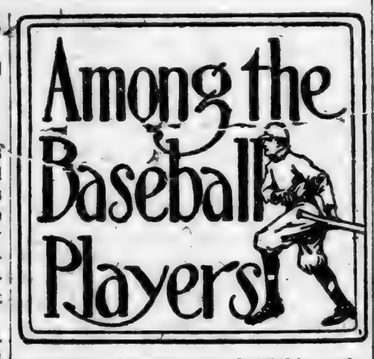
WORLD TOUR GREAT SUCCESS

Japan, Philippines, Australia and France Will Receive Americans With Open Arms.

A warm welcome in foreign lands awaits the Chicago White Sox and the New York Giants, asserts James A. Hart, formerly president of the Chicago Cubs, who returned recently from a trip around the world, traversing part of the route the globe-trotting baseball teams will follow next winter.

He predicts an enthusiastic reception of the baseball players in all those nations which already have shown an interest in the sport, and especially in Japan, the Philippines, Australia and France.

"Manila will give a great welcome to the teams," said Mr. Hart. "So will Australia, if too many games are not played in one city. In Japan baseball is confined mostly to the colleges, though I saw small boys playing the game. It appeals more to the educated classes than the rank and file, however, so the work there will be educational rather than remunerative.



James A. Hart.

There are a number of leagues in Paris where the game has a great vogue and they should draw well. The department of players on and off the field will be most important, as the people in the countries to be visited hardly would understand the quarreling with the umpires and some of the tricks which are here regarded as legitimate.

Slugging Pitcher.

Pitcher Rube Benton of the Reds is getting to be some hitter.

Among the Baseball Players

Walter Johnson is Griffith's only heaver who bothers the Mackmen.

• • •

Mike Balenti, the former Carlisle Indian, is becoming a star shortstop.

• • •

Smoky Joe Woods considers that speed is his best asset in the pitching line.

• • •

The Cuban fans are certainly loyal to their players whenever they get the chance.

• • •

First Baseman Pipp of the Tigers sure is a Pippin. His batting and fielding is very good.

• • •

Larry Doyle is given the cerdit by George Stallings for putting and keeping the Giants out in front.

• • •

Birdie Cree of the highlanders ascribes his batting slump to playing the sun field at the Polo grounds.

• • •

Lee Tannehill is playing grand ball for the Minneapolis Millers since he was released to that club by the Kansas City Blues.

• • •

"This man Lavan of the Browns is the best shortstop I have ever seen," said Umpire George Hildebrand of the American league.

• • •

Big league scouts are heading for the Pacific coast to watch the work of Player Coffey of the Long Beach team of the Southern California league.

• • •

Secretary Foster of the New York Giants says he has received many letters from anxious fans asking for tickets to be reserved for them to the world's series.

• • •

Catcher Jimmy Block, who was one of the players sent to Milwaukee in the Schalk deal, has quit the team for good. Jimmy's salary has been cut in two by the Milwaukee club.

• • •

Manager Birmingham has gathered in another young catcher. He is Robert Young. Young stands 6 feet 1½ inches in his socks, weighs 185 pounds and is built for endurance and speed.

ALPHABETICAL BALL TEAMS

Interesting Fad of Eastern "Bug" in Selecting Players for Champion "Letter" Club.

The alphabetical craze has caught some of the baseball fans in its meshes, with the result that a number of teams with players all of whose names begin with the same letter have been picked from the two big leagues. A "bug" in the east has picked eight complete teams under this condition, but to do so he has had to shift many players out of their regular positions and used a number of athletes who would not add much strength to any good club. A Virginia rooter has chosen four teams, the names of the players beginning with L, M, W and B, respectively. The teams are as follows:

Catcher Lapp.

L.

Lapp (Philadelphia American)....Catcher
Lange (Chicago American).....Pitcher
Ludurus (Philadelphia National).....
..... First Base
Lajoie (Cleveland American).SecondBase
Lord (Chicago American).....Third Base
Laporte (Washington American).....
..... Shortstop
Lobert (Philadelphia National).Left Field
Lewis (Boston American)....Center Field
Lord (Boston National).....Right Field

W.

Wilson (New York National).....Catcher
Wood (Boston American).....Pitcher
Walsh (Philadelphia National).First Base
Wagner (Boston American)..Second Base
Wallace (St. Louis American).Third Base
Wagner (Pittsburg National....Shortstop
Wheat (Brooklyn National)....Left Field
Walsh (Philadelphia American).....
..... Center Field
Wilson (Pittsburg National)..Right Field

M.

Myers (New York National).....Catcher
Marquard (New York National)...Pitcher
Merkle (New York National)..First Base
Miller (Pittsburg National)..Second Base
Mowrey (St. Louis National)..Third Base
McBride (Washington American).....
..... Shortstop
Magee (Philadelphia National).Left Field
Milan (Washington American).....
..... Center Field
Marsans (Cincinnati National).Right Field

B.

Bresnahan (Chicago National)..Catcher
Bender (Philadelphia American)..Pitcher
Byrne (lPttsburgh National)..First Base
Bush (Detroit American)....Second Base
Barry (Philadelphia American).Shortstop
Baker (Philadelphia American).....
..... Third Base
Bescher (Cincinnati National)..Left Field
Bodie (Chicago American)....Center Field
Bates (Cincinnati National)..Right Field

In glancing over these clubs it seems that the M team has it. That is the strongest and best-balanced team of the four, having a regular infield and a powerful battery. Award the the championship to letter M.

Welsh of Philadelphia Nationals.

Tinker to Evers to Chance.

The managers recruited from the Cub infield are not burning up the baseball world. Evers is having a hard time sticking in first division in the National. Chance with the New York Americans and Tinker leading the Cincinnati Nationals are positive leaders for last place in their different leagues.

GOOD ROADS

DISTRIBUTE COST OF ROADS

Let Money Spent Be Levied Upon Assessed Valuation of State—New York Plan Favored.

Country roads should be built and maintained from the funds of the general public. No public road is of purely local importance; no community nor industry but is in some degree dependent upon the efficiency of all highways. Since the development of automobiles, more than half the traffic on the average country road is purely city traffic. Why should townships, for instance, be made to bear their equal share for road expense regardless of wealth and resources when the roads to be built benefit neighboring communities and even distant cities as much, and sometimes more, than the immediate locality. Roads are the arteries and veins of commerce. Because some of them are remote from the heart of trade does not lessen their significance to the whole.

New York Cementatious Gravel Road.

Let money spent for roads be levied upon the assessed valuation of the state, says the Farm and Home. In Illinois, for instance, 67 per cent of the total taxable property is located in incorporated cities and towns. Should the 33 per cent. comprising country property bear all the burden for building and maintaining the highways? By means of state and county appropriations, or state and county bonds, or both, equitably divided, the road burden would be more fairly distributed. The New York plan of dividing the cost between state, county and town works very well and is probably as fair and just as any that could be devised.

TO TAX TOBACCO FOR ROADS

Representative Warburton of Washington Has Novel Plan to Raise $80,000,000 Yearly.

The constructing of a comprehensive system of national highways out of a tax imposed upon the consumers of tobacco is a proposition which Representative Warburton of Washington has embodied in the form of a bill introduced in the house. He proposes that a tax shall be imposed so light as not to be felt by the users of tobacco, but every puff of smoke from burning tobacco will represent a part of a system of highways.

The plan contemplates trunk lines connecting the capitals of the different states with the national capital at Washington and with each other and running to the different national parks. The cost of construction is to be paid out of a tax similar to that of 1879 on tobacco. It is calculated that the tax will raise $80,000,000 a year, or more than twice the amount of internal revenue now collected.

UNITED STATES GOOD ROADS

Estimated That Percentage of Improved Thoroughfares Gone Well Beyond Nine Per Cent.

In the past three years it is roughly estimated that the percentage of improved roads in the United States has gone well beyond 9 per cent. and possibly close to 10 per cent. It is estimated that if 20 per cent. of the public highways were improved—each highway being selected and improved with a view to the proportionate traffic upon it—a high degree of efficiency in highway transportation would be reached. It is figured that millions of dollars would be saved annually in the transportation of crops, the wear and tear on horses and vehicles, and in the minimizing of the waste in truck farming. Where roads are bad, the farmers frequently find it impossible to get their products to the shipping points and thus perishable products are wasted, perceptibly increasing the cost of living.

Eradication of Dandelion.

The best way to get rid of the dandelion pest is to devise some use for them. The moment they become valuable that moment it is going to require a lot of trouble to produce them.

Crossing Is Harmful.

No flock owner can achieve success in the breeding of sheep, either for market or breeding purposes, if he resorts to constant crossing of two different breeds to improve his flock

EFFORT TO DEFEAT CURRENCY BILL

SECRETARY McADOO SAYS THIS IS CAUSE OF DECLINE IN GOVERNMENT BONDS.

MONIED INTERESTS AT WORK

Secretary Charges Concerted Action on Part of the Banks to Defeat New Currency Measure.

Washington.—Secretary McAdoo issues a statement flatly charging that the decline of government 2 per cent bonds to 95½—a new low record—was due "almost wholly to what appeared to be a campaign waged with every indication of concerted action on the part of a number of influential New York City banks to cause apprehension and uneasiness about these bonds in order to help them in their efforts to defeat the currency bill."

Banks throughout the country own almost entirely $730,882,130 of the 2 per cents. Their market value was approximately $30,000,000 less than when the banks bought them. Almost all the entire issue is used as security for national bank notes.

Secretary McAdoo announced that it was not his intention to require the banks to charge off the present depreciation below par, but that the banks might continue to put in the bonds at par in their statement to the comptroller of currency, at least "until some material change in conditions should compel the adoption of anohter course." In his statement Secretary McAdoo declared 2 per cents were worth par—notwithstanding their decline in the New York market, and continued:

"The idea seems to be that the country banks, which hold about two-thirds of the 2 per cent bonds, and use them as the basis of their circulating notes, may be induced to unite with the New York City banks in opposition of the bill if they can be made to believe that the proposed currency measure is going to injure these bonds and cause loss to the banks. This is, of course, unfounded.

"Meantime it is folly for any bank to sell government 2's at a sacrifice because of any apprehended legislation adverse to government bonds, as no such legislation will result. In the 124 years of its existence, the government has kept faith scrupulously with its creditors, and it is not going to change its honorable character now. If the necessities of any bank oblige it to sell bonds at depressed prices, that, of course, is another matter—a matter solely for the bank to determine:

"The secretary said that not only had nothing occurred to impair the value of the 2 per cent bonds, but that the amendment already adopted by the banking and currency committee of the House enhances their intrinsic worth.

"1. Because the banks and all other holders of 2 per cent bonds are given a privilege, not now possessed, of exchanging the 2's for 3's withuot the circulation rights, at the rate of 5 per cent per annum of their holdings, present or hereafter acquired. So long as they do not make the exchange, they may retain or sell and buy the 2 per cent bonds and exercise the circulation privilege attached thereto.

"2. At the end of 20 years, the government will pay at par and interest all 2 per cent bonds which at that time remain outstanding. In view of the fact that the 2's have no due date, and are payable after 1930 only at the option of the government, the definite promise of payment at the end of 20 years is distinctly beneficial to the holder of the 2 per cent bonds.

THE TWO WILSONS DIFFER

President and Ambassador Disagree on Mexican Situation.

Washington. — Ambassador Henry Lane Wilson, summoned from Mexico City to inform the Washington administration of the conditions in the rebellion-torn republic, talked for an hour with President Wilson and Secretary Bryan, submitting chiefly a recommendation that the United States use its influence to stabilize the Huerta regime.

No policy was evolved—at least, none was announced—but it became known that the President's idea and those of Ambassador Wilson as to the course to be pursued are so radically different that the administration officials interpreted the acceptance of Ambassador Wilson's resignation.

BIG SILK MILL STRIKE OVER.

Estimated That Strike Cost Employes $5,300,000 in Wages—Manufacturers Lose Heavily.

Paterson, N. J.—The big silk mill strike is over, but not all the operatives who left the plants 21 weeks ago were able to find work. The manufacturers said they had all the hands they could use until they received orders pending settlement of the labor troubles. It is estimated that the strike cost $5,300,000 in wages.

FEELING IN STEEL MARKET IMPROVES

Crop News Due to Rains More Favorable — Money Not So Tight.

New York.—Bradstreet's review of trade says:

Crop news, due to beneficial rains is more favorable; feeling in the iron and steel market is better, money does not appear to be so tight, the stock market reflects a rather healthier undertone, favorable weather has helped retail distribution, railway traffic is enlarging and conservative optimism seems to be spreading.

On the other hand trade with wholesale dealers and jobbers reflects more or less irregularity. Some of the irregularity may be attributed to midsummer conditions, to restrictions imposed by high rates for money and to tariff uncertainties. That there are but few dissenting notes as to expectations of good business during the fall and winter is significant.

While the stock market does not manifest much activity, the undertone is stronger and realizing sales are quite readily absorbed.

Business failures for the week ending July 24 were 254, which compares with 252 in 1912.

Wheat, including flour, exports from the United States and Canada for the week ending July 24, Galveston not reported, aggregate 3,592,901 bushels, against 2,056,958 bushels last year.

New York.—Dun's review of trade says:

There is the customary mid-summer pause in mercantile and industrial activity, yet the volume of transactions continues large and confidence is fully sustained. Conservatism remains general in most channels, but this is tempered with a degree of optimism that reflects favorable sentiment as to the future. That the trend of business is still forward is evidenced by current statistics of trade movements.

The transportation companies continue to limit purchases of equipment to well defined needs, but signs of improvement are apparent in iron and steel, with the leading producer reporting a slight enlargement in new orders.

The aggregate of former commerce for the latest week reported was smaller than for the same period of the two years immediately preceding, the decline being due entirely to a falling off in merchandise exports.

Failures this week numbered 298 in the United States, against 266 last year, and 29 in Canada, compared with 30 a year ago.

THREE MEET TRAGIC DEATH.

According to Story Reaching Bessemer, Father Accidentally Kills One Child With Axe.

Bessemer, Ala.—A report is current from several different sources of a deplorable tragedy in the northwestern part of Tuscaloosa county, but the truth of the story has not been verified.

It is reported that George Hogg, a farmer, was at work chopping wood when his axe slipped from his hands striking one of his children in the head, killing it instantly.

The frantic father grabbed the child and rushed to the house with it in his arms when, just as he reached the door a neighbor dashed up and told him that a mule on which his two boys were riding had thrown them, killing both.

Mr. Hogg has a number of relatives in the Virginia Mines neighborhood, and an effort was made to reach them to ascertain the truth of the story, but a near neighbor of them stated that the report was current there also.

TELEGRAPHIC TIPS

Washington.—While administration officials here believe the crisis will not be reached in Mexico until the northern rebel armies press closer to Mexico City and the federal strongholds, indications were than an effort would be made by the Washington government to pursue a well defined policy before events reached a critical stage.

London.—The important development in the Balkan situation was a demand presented by the Austrian representative at Athens and Belgrade for an immediate cessation of hostilities, together with a warning that Austria will not allow Bulgaria to be too greatly humiliated.

Washington. — Admiral Cowles, at Guaymas, informed the navy department that Thomas Hind, the American railroad man, reported held at Guaymas, Mexico, for a ransom, was not a prisoner.

Madison, Wis.—The Wisconsin legislature passed a bill requiring a certificate of health from both parties to a nuptial agreement as a preliminary to the granting of a marriage license.

Washington.—George Carroll Todd of Virginia was nominated by President Wilson to be assistant to Attorney General McReynolds and "trust buster" of the administration to succeed James A. Fowler of Knoxville, who will retire in August.

Mexico City.—Torreon has not been attacked by the rebels, nor is it besieged, according to official reports received here. The report adds that a detachment under Colonel Goroarena has been sent from Torreon toward Monclova.

BLUE AND DISCOURAGED

Mrs. Hamilton Tells How She Finally Found Health in Lydia E. Pinkham's Vegetable Compound.

Warren, Ind.—"I was bothered terribly with female weakness. I had pains and was not regular, my head ached all the time, I had bearing down pains and my back hurt me the biggest part of the time, I was dizzy and had weak feelings when I would stoop over, it hurt me to walk any distance and I felt blue and discouraged.

"I began taking Lydia E. Pinkham's Vegetable Compound and am now in good health. If it had not been for that medicine I would have been in my grave a long time ago."—Mrs. ARTIE E. HAMILTON, R.F.D. No. 6. Warren, Ind.

Another Case.

Esmond, R. I.—"I write to tell you how much good your medicine has done me and to let other women know that there is help for them. I suffered with bearing down pains, headache, was irregular and felt blue and depressed all the time. I took Lydia E. Pinkham's Vegetable Compound and commenced to gain in a short time and I am a well woman today. I am on my feet from early morning until late at night running a boarding house and do all my own work. I hope that many suffering women will try your medicine. It makes happier wives and mothers."—Mrs. ANNA HANSEN, Esmond, Rhode Island.

AGENTS—No experience required; earn $20 to $40 weekly, selling household specialties. Dept. 20, C. S. Williams, Mail-Order Dealer, 332 Lemon St., Dawson, Ga.

W. N. U., Birmingham, No. 31-1913.

Perfectly Clear.

"Peters has a clear head."

"Yes, there's nothing in it."

For SUMMER HEADACHES Hicks' CAPUDINE is the best remedy—no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 25c and 50c per bottle at medicine stores. Adv.

Unlucky.

Chollie—Do you believe the number thirteen is unlucky?

Mollie—Indeed, I do. You were the thirteenth man who proposed to me.

RUB-MY-TISM

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

Honk! Honk!

"Did she come to the door when you serenaded her with your mandolin?"

"No; but another fellow came along and brought her out with an auto horn."

Poor John.

"John," said Mrs. Newlywed, "I've got to have some money and some new clothes and some new shoes and a hat and a new coat."

"Gracious!" replied John, "you don't have to have all that, do you?"

"Well, I really do, but I'll compromise on the money."

Brute!

"My husband is one of the most stubborn men in the world."

"He can't be any more stubborn than mine."

"Oh, yes, I'm sure he must be. Yesterday I had an engagement to meet him at three o'clock."

"Yes?"

"Well, it was nearly 4:30 when I got there, and he won't admit yet that the rest he got while he was waiting did him good."

Just Wanted to Be Sure.

Four four entire hours had the lady remained in the shop. She had visited every department and worried the majority of the salesmen without spending a penny.

Toward the close of the afternoon one of the salesmen, feeling somewhat exasperated, ventured to make a mild protest.

"Madam," he asked sweetly, "are you shopping here?"

The lady looked surprised, but not by any means annoyed.

"Certainly," she replied. "But what else should I be doing?"

For a moment the salesman hesitated, then blurted out:

"Well, madam, I thought perhaps you might be taking an inventory."

Then the lady melted away among the shadows by the door.

TIRED OF HIS PEEVISHNESS

Millionaire Gently Reminded That He Was Not Alone In Quest of the Missing Link.

A western millionaire of the "newly rich" variety recently came to New York and one of his first extravagant purchases was a pair of diamond-crusted cuff-links, for which he paid $250.

But the pride of possession lasted only two days, for one of the links became lost. High and low the millionaire hunted for it, turning the whole hotel upside down in the search, but it was not discovered. But he would not give up the search.

One evening a week later, while giving a dinner party to a few friends and business associates, he recounted the circumstancer of his loss and concluded by saying:

"Confound it; I don't understand it. Here I've spent a whole week hunting for that there missing link, and still, by crackey, I can't find it!"

"Oh, cheer up," advised one of the men who was bored by the recital. "Charles Darwin spent a whole lifetime in the same quest, but he wasn't half as peevish as you are!"

For Sale, For Division

Alabama plantation, 1,500 acres, within one mile of railroad town. A considerable portion of this land lies in the valley of the Tom Bigbee River, richest land in the world, except the valley of the Nile. Fine farming or stock proposition, stock keep fat in winter on pasture; Colonial residence, eight tenant houses, occupied by good laborers; stables, new woven wire fences, three artesian wells of pure water; mild, healthful climate, and neighbors best class of hospitable southern people. Will sell for $17 per acre, easy terms, or will cut up and sell in smaller tracts. Will also sell 300 head cattle and hogs, work stock and farm implements. For further information address E. B. Trahern, Clarksville, Tenn., who has an undivided interest in above lands. —Adv.

Modern Life.

"John, you'll kill yourself smoking."

"Never mind, my dear. For 15,000 coupons the tobacco company will provide you with a new husband."

His Mind on Insects.

She (hearing her father coming)—Fly!

He (a bit moony)—Where? I'll swat it!

She—No, no! I mean flee!

He—Oh! Where did it nip you?

Not Too Hot.

The kindly district nurse had sent to Mary's cheerless home fuel and food and clothing. Several days later she visited the house to find Mary and the family warm, comfortable and happy.

"You're such a good woman," said the little mother earnestly. "And I've been praying to the dear Lord every night that he will bless you, and when you die send you to a nice, warm place."

Compliment.

"The English are a heavy-handed race," said a suffragette in the smoking room of the Colony club.

She lighted a fresh cigarette and sipped her coffee.

"The English are heavy-handed," she repeated. "I went to hear Mrs. Pankhurst lecture in Woodstock on my last visit to England, and do you know how the jolly old farmer chairman introduced her? Well, this is what he said, intending it for a compliment, mind you:

"'Ladies and gentlemen, you have heard of Mr. Gladstone, the grand old man. Let me now introduce to you the grand old woman.'"

True Business Instinct.

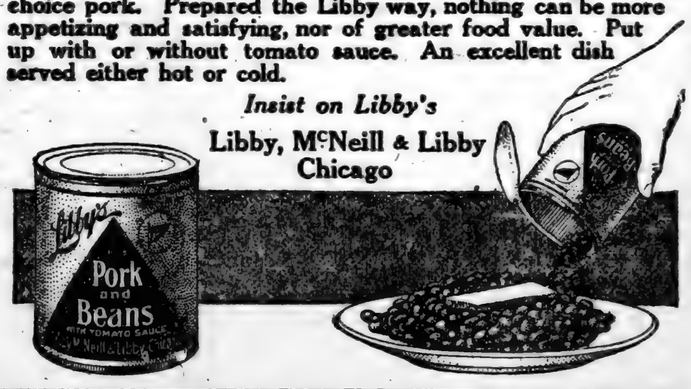
Topham's was the smartest emporium for miles around. You had to be the last word in "go" before a situation was obtained in that establishment. Keen business men filled every post.

One afternoon when trade was in full swing an unfortunate customer fell down the first floor stairs.

"Help!" he groaned in agony. "I do believe I've broken my leg!"

A shopwalker immediately flew to his side.

"Broken your leg, sir?" he inquired, sympathetically. And then, in sharp, clear tones: "Cork legs! Third counter to the right, sir! Forward, Miss Davis!"



Libby's Pork and Beans

Delicious - Nutritious

Plump and nut-like in flavor, thoroughly cooked with choice pork. Prepared the Libby way, nothing can be more appetizing and satisfying, nor of greater food value. Put up with or without tomato sauce. An excellent dish served either hot or cold.

LED HOST IN PATH OF DUTY

Abernathy "Kids," on Trip to Washington, Said to Have Induced Paper Man to Go to Church.

The two Abernathy kids, who came through Indianapolis on motorcycles on their way to New York, made a newspaper man go to church, though they probably did not know it.

The N. M. had the boys as guests at his house while they were in town. The first night when it came time to go to bed the boys handed him a surprise when they both said their prayers. Sunday morning the boys intimated that they always went to church. When one of them naively asked the host: "Do you go to church?" he said that he did, though he admitted inwardly that he had been neglecting the church going of late.

"Well, let's go to church," said Temple, who is nine years old.

"Would you like to go with me or would you boys just as soon go with the boy across the street?" asked the newspaper man, eyeing the porch swing which swayed gently in the breeze.

"We'd rather go with you," said Louis, the elder. And they all went. The newspaper man admitted afterward that he had not attended church for six months.—Indianapolis News.

So Far.

Bill—I hear he is preparing for one of those trips to the north or south pole.

Jill—How far has he got?

Bill—Oh, he's written all the press-agent stuff!

Do They Eat Them?

Yeast—I see exports of American horses are increasing. Last year the value of our horseflesh sent to foreign countries was nearly $5,000,000.

Crimsonbeak—Mercy! What eaters those foreigners are, to be sure!

Only a newly married man ever dodges when his wife throws things at him.

The earth's fertile area is estimated at 28,269,200 square miles.

Long-Lost Mine Found.

The long-lost Cinnabar mine in Nevada has been found after a search lasting more than thirty years. The discovery was made some weeks ago by George Keough while searching for strayed stock, seven miles from Mina.

The discovery was kept secret until claims were staked and assays made of the ore, showing it to run high in quicksilver.

Following the announcement of the finding of the mine a rush was started for the district in which it is located.

Hawthorne, after finding the Cinnabar deposit, became confused and lost his way on the desert. He wandered about for several days and finally landed at New Boston, formerly a thriving camp, but now extinct.

He conducted expedition after expedition in search of the deposit, but his efforts were fruitless. He described the location, stating that two petrified trees stood near the mound.

The stone trees are to be noticed today as described by the old prospector, who died thirteen years ago.

Bonehead.

Mollie—What were you and that fellow arguing about?

Chollie—The size of my head.

Mollie—Oh, that was the bone of contention, was it?

His First Thought.

Mrs. Justwed—I think, dear, you really ought to get your life insured.

Hubby—You don't mean that you are going to do the cooking.

Let It Shine.

Baker—Puffer doesn't believe in hiding his light under a bushel.

Hamilton—I should say he doesn't. He puts it in front of a reflector.

Trained.

"How did you guess at once that Mr. Jones was a married man?"

"Because he is such a good listener."

Real Thing.

"Let's have a corking good time."

"No, let's have an uncorking one."

Never put off till tomorrow what any one is willing to do for you today.

Death Lurks In A Weak Heart

FORM GOOD ROADS CLUB

ORGANIZATION IS PERFECTED AT SPRING CREEK CHURCH.

Montevallo, Ala., July 26

A meeting was held at the Spring Creek church, midway between Montevallo and Dargin, at which a good roads club was organized. The meeting was a very enthusiastic one and those present determined that the road from Montevallo to Dargin will be under construction within ten days. The road will connect with the new State highway, tapping it at Dargin, the nearest point.

The officers of the association are A. A. Herndon, president; Mr. Baldwin, of Dargin, first vice-president; L. N. Nabors, second vice-president; Prof. Edd Trost, secretary; P. J. Kroell, treasurer; J. M. Frost, chairman campaign committee; S. L. Chesnutt, chairman survey committee.

Over $500 was subscribed at the first meeting. The campaign committee is now at work and expects to report a large subscription fund at the next meeting. The survey committee is also at work and will submit plans and specifications for the next meeting.

It is proposed to hold a picnic and good roads rally at the Spring Creek school house on July 31. All interested in good roads are invited to attend."

Is Chilton county to take lessons from Shelby county? Are we to permit our sister county to forge ahead of us in public affairs; will we sit idly by and allow the citizens of our neighboring county to show more public spirit than we?

From all over the State comes the news that business men, professional men, men of affairs, have signified their intention to take a pick and shovel and devote the 14th, 15th and 16th of August to the improvement of county roads; even the Governor of the State has given out the information that he and his entire office are arranging to spend these days upon the public roads of Montgomery county. Will Chilton fail in its duty? So far we have heard no expression from the business or professional men of Clanton as to what they propose to do. It's true they do not use the roads so much themselves, but their custmoers, their clients do use them largely.

It is not yet too late to organize "road working crews" among the business men and assist our country friends on these days. What say the people? What says the Probate Judge, the Sheriff, the Tax Collector, the Mayor of Clanton?

The Press man will work as best he can those three days on any road in the county accessible to Clanton; who will join the "road working club" and thereby show a real, genuine desire to have better roads in the county?

There is yet time; the columns of the Press are open; have a say free of charge; express yourself, show your faith by your works!

There is yet time; will not the Probate Judge call a mass meeting of citizens to organize? Will not the Mayor call another to organize an opposition club?

Here's a proposition: Let each call a meeting, organize a club and the gang which makes the best half mile of road is to receive a supper at the expense of the "laggards." What say you, Mr. Judge? Mr. Mayor?

The distance can be measured by disinterested parties, the stretch of road selected with a view to giving both "squads" practically equal chances and the inspection can be made by the County Commissioners or some other disinterested parties to award the prize.

In one of the counties of the State the county has been divided into four sections and the Commissioners have promised a handsome steel bridge to that section which makes the best roads on the 14th, 15th and 16th days of August. Our Commissions might "go and do likewise" and not lose a thing by their magnanimitv.

But, we are more interested in Chilton county roads just now; is there no way by which our people can be induced to follow the good example set them by the citizens of other counties.

Will not some one in each precinct, in each settlement to take it upon himself to organize little bands of workers to observe "Good Roads Days?"

We venture to say that if the men will undertake to work, and actually work, the good women in each neighborhood will supply them with nice dinners and keep them well watered with fresh, nice cool spring water brought by their own hands. What more does a fellow want anyway?

It's up to you, Mr. Judge, Mr. Mayor, to call those meetings, the quicker the better. The Press man is waiting to be ass.gned to his squad—who will join "de gang?"

We know the Judge is interested for he has already issued his proclamation, and we understand he has purchased overalls in which to work; let our lawyers, doctors, bankers, merchants follow suit and show our country friends that we are actually interested.

It is also reported that "squads" are being organized, but let that work proceed according to the rules of order; organization, system, is the thing.

Rheumatism and the Heart.

Don't overlook the grave fact that rheumatism easily "settles in the heart," and disturbs the valvular action. The cure consists in removing the cause. Foley Kidney Pills so tone up and strengthen the kidneys that they keep the blood free of poisons and uric acid crystals, that cause rheumatism, swollen joints, backache, urinary irregularities, and disturbed heart action. Try them. Alred Drug Co.

IN AND AROUND COURT HOUSE

Wednesday morning Judge Deason was busy with preliminary trials in three cases.

The first case called was that of Newt Minor, charged with seduction; witnesses were examined, after which the Judge discharged the defendant, there not being sufficient testimony to warrant the holding of the young man.

In the case of the State against Robert Blassengale, (colored) charged with seduction, was nol prossed, while that of the State against Fenny Huckabee, (colored) also charged with a similar offense, was continued on account of the absence of witnesses till Monday morning next.

Mr. Marion Foshee, after a two weeks seige of fever, is again able to be at his office.

Probate Judge Deason, who was appointed by Gov. O'Neal as one of the Alabama delegates to the National Good Roads Convention, which convenes in St. Louis soon, has signified his intention to attend the meeting. When he returns we shall expect him to furnish us with not a few articles on the building of good roads.

Sheriff Jones has purchased the home of Mr. W. M. McDaniel, who since the death of his wife, has decided to divide his time between his son in Montgomery and his daughter, Mrs. H. M. Simpson, in Clanton.

The following marriage licenses have been issued recently, showing that the persuasive tongues of our modern wooers has not lost its sweetness:

Mr. Fred Cunningham to Miss Bulah Garner, Mr. A. L. Smith to Miss Viola Jones, Mr. C. L. Smitherman to Miss Laura Robinson, Mr. W. J. Gray to Miss Annie Marcus, Mr. Philip William O. Horn to Miss Charlotte M. Mastin.

Mr. Smith and Miss Jones were married at the court house Sunday before last in the presence of a few friends; Judge Deason, in his usual Chesterfieldian manner, performing the ceremony.

John T. Boswell, A. and B.; waived to Grand Jury, bond fixed at $200.

Joe Foshee, Jr., V. P. L; pleads guilty; fined $75 and costs.

Ocie Thompson, killing dog; fined $10 and costs.

Emma Bell, murder first degree; continued.

ANOTHER UNFORTUNATE.

Sheriff Jones landed in jail this week the person of Tom Rosenberry, a white man, charged with violation of the prohibition law; it appears from the best information obtainable that Rosenberry was implicated in the sale of liquors out at the dam for which others are now under bond; Mr. Rosenberry, so it is stated, says that since he has been corralled he proposes to "come clean" and tell the whole story, which will implicate half a dozen or more others connected with the same "industry."

ELMORE'S PROBATE JUDGE.

Probate Judge M. D. Still of Elmore county was in Clanton last Friday observing the working of Chilton county's road machine; he was accompanied by Mr. O. Newell, the Birmingham representative of the road machine company. Judge Still stated that his county proposed to go extensively into the working of country roads and desired to acquire the best machinery possible for that purpose. He went away well pleased with the work done here.

MARRIAGE LICENSES.

The little God of Love called Dan Cupid, has been working overtime for the past few days, if the number of marriage licenses issued can be taken as an indication of his activity. The following marriage contracts have been granted by the Probate Judge this week:

Mr. Jesse C. Jones to Miss Lucy Devaughan, Mr. James B. Potter to Miss Odie A. Graham, Mr. H. H. Bates to Miss Mayme M. Boockholdt, Mr. J. T. Cobern to Miss Maggie E. Kincaid, Mr. T. M. Dison to Miss Rosa Hamilton.

A WHOLE MILLION! JUST THINK, A MILLION DOLLARS!

Some days since there was filed in the office of the Probate Judge for record a voluminous instrument which would make some people quake and trimble like an aspen leaf, and yet those who signed that instrument realized that it was nothing short of good business to execute the paper.

It was a mortgage for a cool million dollars executed by the Alabama Power Company to the Munsey Trust Company of Baltimore. Just think, a mortgage for one million dollars, and yet our people grow red in the face when one speaks of the entire county executing thirty year bonds for one tenth that amount to build good roads in the county!

The power people are business men of world-wide reputation; they realize that to conduct their business they must have ample funds; they do not hesitate to execute the necessary papers to secure the desired amount.

Will not some of our "skittish" financiers go to the court house and see for themselves what a giant company has accomplished by executing bonds, and will they not then please learn from observation that business men do not hesitate to enter into legitimate contracts to secure funds with which to develop their properties?

A MILLION DOLLARS IS A MILLION DOLLARS.

CATTLE BREEDING

SUCCESSFUL FARMER TALKS.

Mr. Joseph Popwell, one of Chilton's most successful Farmers, was in the Press offices one day last week discussing boll weevils, cotton planting, cattle breeding and kindred subjects of interest to the farmer; during the conversation he ventured the remark that, perhaps, the stock laws now in operation had more to do with the decrease in cattle raising than any other one thing While he was not inveighing against the law as it now stands, he contended that a large majority of the farmers had given up cattle raising because they thought it an impossible task under present conditions. However, said he, "I have a plan by which cattle raising can be successfully prosecuted, even under most stringent stock laws; I have tried my plan successfully and know it will work, and I shall be glad to have those who are discouraged in cattle raising write me for my plan; I will gladly give them all the information I have gathered by observation and experience."

The next year is going to witness the advent of the boll weevil in this section; he will be a genuine blessing in disguise, tho' our farmers will not so look upon him—at first; neither will the commission merchant; but, in other sections, where the weevil has visited he has been shown to be a veritable God-send; he has taught the farmer to be independent of cotton, to raise more grain, hay, meat and other home supplies and make cotton the surplus, or cash crop. It has taught the commission merchant to look upon the corn farmer as the better customer and the safer one to whom to advance.

The farmer who is raising his own beef cattle and other meats, is the one who will soon become independent of the commission merchant.

Let all who are interested communicate with Mr. Jos. Popwell and secure his plan.

JEMISON ITEMS

Mrs. Burns Marsh, of Helena, visited her parents, Mr. and Mrs. W. E. Lowrey, last week.

Mr. and Mrs. John Garner are the guests of Mrs. Hertalene Allen, the latters mother.

Mrs. Mollie Bandy and Miss Ethel Garner are also visiting Mrs. Allen.

Mrs. Susie Hand left Monday for several days visit to South Alabama.

Mr. J. M. Langston and daughter Sibyl, made a short visit to Montgomery the early part of the week

Mrs. D. L. Langston, of Anniston, is visiting her parents, Mr. and Mrs. J. E. Scaggs and relatives.

Mr. Joe Gaines and wife were callers in Jemison Sunday.

Miss Bonnie Jenkins is visiting relatives at Montevallo.

Mr. Wallace Hand narrowly escaped being shocked by lightning during an electric storm. An umbrella he was carrying was completely demolished, his clothes partly burned off him, yet he was never prostrated.

The new brick hotel has opened under the management of Mr. and Mrs. T. S. Millsap.

More anon.

TURNED TOPSY TURVY

WILD HORSE RUNS AMUCK

A frightened horse, the property of Dr. P. I. Hopkins, created quite a little excitement on Main street Tuesday afternoon. The horse was attached to a light buggy and was driven by Dr. S. C. Matthews, who had stopped for a few moments at the home of his parents. For some reason the horse became frightened and dashed madly down the street toward town; just as he reached the railroad the south bound accommodation blocked the passage and his horseship had to make a complete turn to save his bacon; this he did with a most graceful curve, taking the sidewalk just in front of the Davis Cafe. From there he traveled as fast as his hoofs would carry him, felling overhead shelters as he came to them and, incidentally frightening everyone in sight.

That no life was lost is nothing short of the miraculous, as usually at that hour the streets are crowded with women and children.

Two other teams became frightened and started on a wild dash, but were quickly checked. The shelters are either poorly supported—dangerous in fact—or else Dr. Hopkins has one of the best and most substantial buggies ever put on the market, for though the buggy tore down two complete shelters, each with four supports under it, and started in on the third, the buggy was not greatly damaged.

By the way this leads us to remark that this is the second time a run-away horse has within the past twelve months, taken to the side-walk and demolished overhead shelters.

Surely these structures are extremely weak, and therefore dangerous to life and limb, or else the horses and buggies in this section are exceptions to the general rule. Usually one good post puts a stop to the ordinary run-a-way horse and buggy, but here they seem to be no obstruction whatever.

A DAY OF PLEASURE

A number of friends and relatives spent the day at the home of Mr. and Mrs. W. C. Roper last Sunday, and report having had a nice time.

At the noon hour a bountiful dinner was spread in the lane in front of the house and everyone seemed to enjoy the good things to eat. After dinner all returned to the house, where they amused themselves by discussing various subjects. Music was rendered by the young people during the afternoon, which was greatly enjoyed by all.

Those present were Mrs. J. H. Williams and little son, Louis Mitchell, Mrs. J. T. Roper and little daughters Lucy and Dorothy, Mrs. J. M. Roper, Mr. and Mrs. G. C. Vance and children, Ethel Carl and Bernice, Mr. and Mrs. W. C. Roper, Mr. and Mrs. James Roper, Messrs. Samuel Culp and Robert Roper, Misses Everree Williams, Annie Culp, Eula and Minnie Roper.

MOUNTAIN CREEK NEWS

Editor Press—It has been some time since I paid you a visit, so I thought I would drop in again for old-times sake. Tell me, are there any boll weevils in the cotton fields of Chilton yet? I just recently returned home quite an extended sojourn in northern Florida and South Alabama, and down there I saw what they claimed to be the genuine pest. Since my return [illegible]

COMMENT UNNECESSARY

We are making no comment whatever on the article printed below. It was taken from a report by the Tampa Tribune and handled editorially by the Montgomery Journal. The facts speak for themselves; comment would not only be superfluous but entirely useless. There are none so blind as those who will not see.

$1,000,000 FOR GOOD ROADS.

The citizens of Hillsboro county, Fla., have voted to issue a $1,000,000 in bonds to build good roads. When the vote was counted it showed the bond issue had been carried by a vote of five to one. This gives an ideaof the interest the citizens are taking in building good roads in the South.

With this bond money the people intend to build seventy-five miles of brick roadway and extend the shell and rock roads. This will be a great thing for Tampa and for Hillsboro county. It will mean much for the State of Florida as it is believed other counties will now issue bonds to improve the roads. The people of Florida believe in having brick highways and they cost money, but they want them, because they believe they will last longer, will need little repairing and will make them a model highway.

"Hillsboro county lived splendidly up to its reputation as a progressive county yesterday when it voted overwhelmingly for a one million dollar bond issue for building seventy-five miles of brick roads," says the Tampa Tribune.

"It was a day of triumph for those citizens who want to see their county take the front rank of growing and developing communities. It was in every respect the best days's work that Hillsboro county ever did. It will make this county the recognized good roads county of the South. The mere announcement of the result is worth millions to us and to our every interest."

FAMILY REUNION

The doors of Mr. W. H. Killingsworth's home near Jemison were thrown open last Wednesday, July 30, to quite a large number of relatives and friends to enjoy with him a family reunion. A bounteous dinner was served in the grove in front of the house, which was greatly enjoyed by all present. Watermelons, fruits, ice cream and cold drinks were enjoyed in the afternoon; several indulged in out door games, with a large swing of much attraction and enjoyment for the young people.

At a late hour in the afternoon the entire party, after expressing their great enjoyment of the day, left for their respective homes.

One of the guests.

CARD OF THANKS

Please extend through the columns of your paper our sincere appreciation of the kindly acts shown us by neighbors and friends during our recent bereavement when we were so unfortunate as to lose our mother.

W. E. Headley.

The Quality Shop

The Place Where Your Money Gets The Answer.

¶Drug Sundries of all descriptions; everything fresh; all guaranteed. We have the largest and best selected stock of Proprietary medicines in the entire county. We selected with care, bought for cash and consequently can give you better prices than elsewhere.

DYNAMITE BURSTS GAS POCKET

And Thirty Miners Perish in Terrific Blasts.

Tower City, Penn.—Thirty men are dead and as many more seriously injured as the result of an explosion of dynamite which occurred at the East Brookside Colliery in the west end of this county.

Ten tons of dynamite exploded, with a roar and a tremendous power which shook the massive mine pillars and props as though they were straws, and sent sheets of flame shooting along the gangways and breasts seeking an outlet.

The dynamite burst a "pocket" of gas which had gathered since a fire boss made his inspection this morning, and a second and more deadly explosion occurred, overwhelming Superintendent John Lorenz and a rescuing party who had gone to the aid of the men injured in the first explosion.

For five minutes the bottom of the mine, which is 1,800 feet below the surface, reached by the deepest shaft in the anthracite region, looked like a fiery furnace with all the miners within reach of the flames lying prostrate on their faces, where they had thrown themselves to avoid breathing the flames.

The heat, however, either scorched the life out of most of these men ,or the severe concussion and flying rock killed them.

A second rescue force succeeded in reaching the bodies of Superintendent Lorenz and Harry Schoffstall. Lorenz was brought to a hospital at Pottsville and it is said he will recover. He is not burned. Schoffstall, however, is said to be fatally injured.

The explosion set fire to the mine and the rescuing force in helmets, containing stored oxygen, was soon on the scene. Millions of dollars' worth of fine red ash in the coal region was threatened by the fire.

THREE MEN DIE IN GUN PLAY

Triple Tragedy Result of Two Kentucky Factions Meeting.

Louisville, Ky.—The battle of ballots in the primary election held in Owsley County ended in a battle of bullets when two factions of citizens met on upper Buffalo Creek and opened fire on each other, killing three men and mortally wounding a fourth. The dead: Gilbert Harris, Clabe Gilbert, Harris Gilbert.

The wounded man is Sid Gabbard, who was caught between the two opposing forces, and shot down before he could escape to a place of safety.

The fight began late in the afternoon when Grover Gabbard and Gilbert Harris met face to face on the bank of the creek. The two men had opposed each other on behalf of two candidates in the primary, and a heated quarrel arose over the result of the election.

Friends and relatives of both men were near at hand when the first shot was fired and they joined in the battle. According to reports that reached London, Ky., shortly after the killing, more than a dozen men used revolvers in the tragedy.

LEGACY TO BE GIVEN

Former Ohioan Who Lived Up to Terms of Father's Will.

Pittsburg, Penn.—Jesse McGregor, formerly of Lisbon, Ohio, and who had served a term in the Ohio Penitentiary, will get a $25,000 legacy which, while on deposit in the German National Bank, this city, has been almost doubled by accrued interest.

The money was left by the young man's father, Charles McGregor, late of Wellsville, Ohio. The will provided that if Jesse McGregor were pardoned from the penitentiary, lived a sober, upright life for a period of five years and stayed out of Ohio, he was to get the bequeathment.

McGregor came to this city, where he has since resided. He was sent to the penitentiary for being responsible for the death of Lizzie Ewing at Wellsville, Ohio.

LOVER ENRAGED BY A BEAUTY

New York.—In the midst of a dense throng of shoppers at Fifth avenue and Thirtieth street, one of the busiest points in the down-town shopping district, Abram Fink, of Buffalo, a jewelry salesman, shot and seriously wounded Miss Silverman, and then killed himself. The affair took place at 11 o'clock in the morning in sight and hearing of hundreds of persons in the neighborhood of the busy corner.

The woman was shot in the neck with the first of three bullets from Fink's revolver. She fell instantly and to that fact owes her life since her enraged lover fired twice more before he stepped out on the curb and ended his life with a bullet in the temple. He died instantly, but the woman, it was said at the New York Hospital, will recover.

The would-be murderer is well known in the jewelry trade in the East. He was a successful salesman, had hundreds of friends and lived in a manner that attested his abundant income. He had nearly $3,000 in cash, $2,000 of it in $1,000 bills, in his pocket and his clothing and jewelry were of the costliest sort.

The young woman, too, was richly dressed and is known to be wealthy. For years she has lived in Buffalo.

Fink was divorced six years ago because of his alleged relations with the girl he endeavored to kill.

WOMEN APPLY LIPS

To Wounds of Two Children Bitten by Rabid Dog.

Rochester, N. Y.—Elise Parrish, writer of children's verses, and Mrs. William Sterling, of Pittsford, applied their lips to the wounds of two children who were bitten by a dog at Miss Parrish's summer home. It was later determined by Cornell chemists that the animal had rabies. All four now show symptoms of hydrophobia and are under treatment.

MAY BE SENSATION

Pension Report of Brooke Will Be an Eye-Opener.

MANY DESERTERS ON ROLLS

Estimates That $200,000 a Year Is Being Paid to Pensioners Illegally.

Montgomery.—That Alabama's action in prying into its pension roll may be followed not only by other Southern states, but by the federal government as well, and that in case of the latter event, a national scandal would be developed, is the opinion of H. Y. Brooke, state examiner of public accounts. Mr. Brooke has been in Washington two months, and will remain there for another year, it is probable.

Mr. Brooke has discovered that $200,000 of $1,250,000 is paid by Alabama to pensioners illegally. The national pension payments amount to $200,000,000. It is contended that if the national pension rolls are as rotten as those of Alabama, the federal government is paying annually a sum of $30,000,000 illegally.

In a letter to a Birmingham paper, Mr. Brooke states that he is forbidden to detail his findings into other ears than those of Governor O'Neal and C. E. McCall, chief examiner. He states, however, that there is no question but that there was cause for sending him to Washington.

"Up to the present time," writes Mr. Brooke, "I have examined the rolls of eight counties, or a county a week. It is seen that to examine the rolls of the remaining counties, it will be necessary for me to remain in Washington for many more weeks. In eight counties, I have found 300 illegal pensioners drawing an average per annum of $75."

Mr. Brooke has found that those illegally drawing pensions are equally divided between the deserters and those who have never been on the rolls of a company. He is amazed that the number of Alabama deserters promise to run into the hundreds.

Mr. Brooke states that he is as liberal as possible in passing on claimants for pensions.

There is in Alabama great interest in the work of Mr. Brooke, for it is certain that a sensation will be caused throughout the state when his report is made public.

MANY APPLICANTS FOR JOB

O'Neal May Order Test for Would-Be Examiners.

Montgomery.—Governor O'Neal may call a "civil service" examination for the applicants for the position of Examiner of Public Accounts. There is now a vacancy on the staff of examiners caused by the resignation of Frank V. Evans. There are several applicants for the position and, unless the Governor makes a selection in a few days, he will probably hold the examination in order to test the efficiency of the applicants.

Captain James T. Brooks of Gadsden is one applicant who has been highly endorsed. Captain Brooks has served as a county official in Etowah county for more than forty years. He was recently defeated for the position of Clerk of the City Court. He is familiar with every phase of the work required of county officials.

WANT BETTER TRAIN SERVICE

Petitions Heard by Railroad Commission at August Session.

Montgomery.—Four towns in Alabama want better passenger train service. Their petitions were heard at the regular August session of the State Railroad Commission which was held in the court room of the Commission at the Capitol.

Abbeville wants double daily train service on the Abbeville branch of the Atlantic Coast Line railway; Scottsboro asks better passenger train facilities on the Southern Railway between Huntsville and Stevenson; Brilliant Branch seeks double passenger service and a depot on the Illinois Central railroad; and Blocton petitions passenger facilities on the Southern Railway.

HOLD RATE HEARING.

Case of South and North Alabama Railroad.

Montgomery.—Hearing of the South and North Alabama passenger rate case was taken up by the State Railroad Commission at the Capitol. This case is a citation issued by the State Railroad Commission to the South and North Alabama railroad to appear before the Commission and show why a reasonable passenger rate should not be established on its lines in Alabama.

Threaded Needle in Woman's Knee.

Enfield.—After suffering severe pain in the knee for several weeks, Mrs. C. M. Thompson of this city had it lanced to find that a threaded needle imbedded in the flesh was the source of all the trouble. Mrs. Thompson is unable to account for the needle which had evidently been wandering around in the flesh for many months, if not years. At about the middle which had caused Mrs. Thompson pain, was found the [illegible] needle.

GOOD ROADS DAYS AUG. 14, 15, 16.

Probate Judges Are Busy — All Counties Getting the Fever and Interest Being Manifested.

Montgomery.—A message from Birmingham says that according to information received at the headquarters of the Alabama Good Roads Association by Secretary J. A. Rountree, forty counties in Alabama have already taken formal action looking to observing good roads days on August 14, 15 and 16.

From the interest already shown, the indications are that the good roads days will be observed in every one of the 60 counties and that fully 100,000 people will take part in the road improvement on these days that have been set aside for that purpose. Last year the days were observed in 42 counties and 50,000 people had a part in the great work.

Governor O'Neal has issued a proclamation calling upon every citizen in the state to lend a hand in the work of road improvement on August 14, 15 and 16, and the probate judges of the various counties are busy sending out letters urging the people to observe the days set apart as Good Roads days.

MOVE FOR NEW COUNTY

Proposed to Slice From Clay, Coosa and Talladega Counties.

Montgomery. — A movement talked of for years, it was stated, has been launched for the purpose of forming a new county in Alabama, with Sylacauga, now in Talladega county, as the seat. It is proposed to cut off a slice from the northern part of Coosa county, a similar section from Talladega county, and a small piece from Clay county.

It is claimed that the people residing in this territory find their present county seats inaccessible, and the movement has apparently met with much favor. A new railroad is planned from Coosa county into Sylacauga, which, together with the Central and the Louisville & Nashville, now running into the town, would make it easily reached from every point of the compass.

The next legislature, it is understood, will be asked to create the new county.

SHORTAGES IN HENRY COUNTY

Examiner Gorman Files Report Showing Amounts Due From Officials.

Montgomery.—Technical discrepancies of $5,786.11 were found in the accounts of Henry county officials, as shown by reports filed with Governor O'Neal by Examiner J. T. Gorman. Of this sum $788.65 was due the state, all of which, except $72.60, has been paid, and the remainder was due the county.

W. Y. Carr, ex-treasurer, was found due the largest amount, $3,007.66. The examiner found Probate Judge S. B. Wood due $1,330.50. Discrepancies ranging from $46 to more than $400 were charged against J. N. Corbitt, sheriff; J. M. Mathison, circuit clerk; J. E. Searcy, tax collector; S. Kirkland, treasurer, and J. E. Searsy, hard labor agent.

SUNDAY SCHOOL HANDBOOK

Advance Copies of Unique Publication Reach Office of Association.

Montgomery. — Advance copies of the "Alabama Sunday School Handbook," the first of its kind ever issued by a state Sunday school association, has been received by its publishers, the Alabama Sunday School Association, and has been accepted by the organization. The pioneer booklet in a condensed form, places before the readers practically every fact of importance pertaining to Sunday school work in Alabama and contains a full and itemized statement of the results attained by the Alabama Sunday School association.

INSTRUCTOR FOR ALABAMA.

To Increase Efficiency of Field Hospital Service.

Montgomery. — A sergeant instructor in the field hospital service will be detailed for work in Alabama soon, according to the statement of Adjutant General J. B. Scully. The new officer will serve as instructor and will visit the different companies of the regiments at regular periods.

Legislative Halls to be Renovated.

Montgomery. — After being used for more than sixty years by numerous historical bodies of Alabama and after being linked with some of the South's most interesting historical achievements, the senate chamber and the house of representatives hall at the state capitol are to be refurnished and renovated throughout. A meeting of the capitol commission was held August 6, at which time plans for the work were formulated.

Williegham Announces Institutes

Montgomery. — Teachers' institutes for this week are being held in the following places: Blount county, Oneonta; Calhoun, Jacksonville; Cherokee, Center; Clay, Ashland; Cleburne, Edwardsville; Etowah, Gadsden; Randolph, Wedowee; St. Clair, Pell City; Sterling, Collinsville. Magic institutes are being held as follows: Calhoun county, Anniston; Hale, Greensboro; Shelby, Columbiana; Sumter, Livingston; Tuscaloosa, [illegible]

HAND AX USED BY GEORGIA NEGRO

In Attempt to Murder Family of Eight—Six Victims Fatally Injured—Posse in Search.

Cairo, Ga.—Ed Le Conte, a negro, it is charged, entered the home of George Bondiford, a prominent farmer living near here, and with a hand ax attempted to murder the entire family consisting of father, mother and six children.

Mr. and Mrs. Bondiford and four of the children were virtually brained. They have been unconscious since being attacked and physicians say that death is inevitable.

Two little girls were not so seriously injured. They became conscious during the morning and told the story.

The noise made by the negro awakened one of the little girls. She screamed and the negro struck her first, almost cutting her nose from her face. The father and mother were struck while in bed. The children crowded about in terror and the negro began to swing an ax on them.

As he struck one girl she fell and caught him by the leg bringing him down. The negro then became frightened and fled, leaving his ax in the house and shoes in the yard.

The ax and shoes have been identified as Ed Le Conte's by his wife.

Over 300 men with bloodhounds are chasing the negro, and if he is caught there will be no trial.

Le Conte had been accused by Bondiford of stealing the latter's watermelons and it is said the negro swore that no man could accuse him of stealing and live.

CHAIRMAN OF SENATE COMMITTEE

Tells Country Bankers Advantages to Them of the Glass-Owen Currency Bill.

Washington.—In a circular letter to country bankers issued by Chairman Owen, of the Senate Banking Committee, he enumerated what he considered to be the advantage to them of the Glass-Owen currency bill, and stated that it would relieve the banking business from the control of a half dozen "very ambitious gentlemen, who could shake this country to its foundation by panics whenever they pleased."

"If an exhaustive investigation were made of the panic of 1907 to ascertain who were the beneficiaries of that panic this country would learn a much-needed lesson in finance," said he.

After an array of figures Senator Owen reached the conclusion in his letter that the net result to the average $100,000 bank would be a substantial gain of the present system of approximately $3,000 a year, or 3 per cent on its capital. He declared another advantage of the bill would be to permit country banks to loan half their time deposits ,or a fourth of their capital and surplus on farm loans.

"I should be also," said he, "in favor of giving them other advantages which we can do more intelligently when we codify the national bank act next winter."

VEIL HANGS O'ER SUDDEN DEATH

Of Young Druggist After Tooth Is Extracted—Body Is Found on Floor in Dentist's Office.

Springfield, Ill.—Searching inquiry is being made by Coroner Rhodes to determine the cause of the mysterious death here of A. T. Kammerer, a young druggist, of this city, who was in good health when he went to the office of a dentist to have a tooth pulled.

The dentist insists that Kammerer drank a quart of whisky before the tooth was pulled. He admits he pulled the tooth while the druggist was lying on the floor. When asked why he denied that Kammerer was in his office when friends inquired about him, the dentist said he wanted Kammerer to get over the effects of the stimulant.

The druggist's presence in the dentist's office was discovered by Mrs. Kammerer. When the dentist told her that her husband was not there she caught a glimpse of his hat and coat. On the floor of a back room she found her husband unconscious. He was taken home, given medical treatment, but died later.

Coroner Rhodes says examination of the stomach failed to reveal the presence of whisky.

MOTHER ATTACKS HER CHILDREN

With a Butcher Knife, Killing Two—Philadelphia Woman Then Ends Own Life.

Philadelphia.—Mrs. J. Brogan, of Callowhill street, West Philadelphia, attacked her four young children with a huge butcher knife and then cut her throat.

Neighbors heard the screams of the children and called policemen, who found the children horribly mutilated and the rooms spattered with blood.

The five were rushed to a hospital, but the mother was dead when the institution was reached.

Two of the younger children died in a few minutes and the other two cannot live.

NINETEEN MINERS KILLED.

Broken Drill Causes Accident in Pennsylvania Anthracite Coal District.

Pottsville, Pa.—Nineteen men are dead and as many more seriously injured as the result of an explosion of dynamite which occurred at the East Brookside colliery in the west end of this county. Tons of dynamite exploded and shook the massive mine pillars and props as though they were straws, sending sheets of flame shooting along the gangways and breasts seeking an outlet.

MUTINY FEARED IN CHINA.

Hong Kong.—The situation in Canton remains serious. The electric lights are out all at midnight and the people are fearful of rioting. Trains, junks and other vessels leaving the city are filled with refugees. A state of [illegible] is expected with the arrival here of Gen. Lung Chi Kwang, commander of the government forces in the province of Kwang-si, who is [illegible]

RUSSIAN TOWN BURNING

St. Petersburg. — The historic town of Makariev, on the Volga river, is burning. The flames have reached the famous fourteenth century monastery where the annual fair, which is now held at Nizhni-Novgorod, formerly was held. Makariev has a population of about 1,500.

Settlers Enter Government Land.

Dodge City, Kan.—Hundreds of [illegible] there entered the 10,000 acres of [illegible] in Hamilton county, Kansas, [illegible] by the government and staked the claims they wanted. The [illegible] for the most part was good [illegible] and there was none of excitement usually incident to land openings. [illegible] petitioners naively walked from [illegible] land to the claims they desired. [illegible] there will not be allowed to file [illegible] their claims until September 1, [illegible] will have a month in which to [illegible] improvements.

CASTRO RETURNS TO LEAD REVOLT

STATE DEPARTMENT HOPED TO PREVENT HIS GOING BACK TO VENEZUELA.

GUNBOAT SENT TO SCENE

Former President Is Reported at Coro at the Head of an Armed Force.

Washington.—News of the appearance in Venezuela of ex-President Cipriano Castro, after his five years' exile, caused something of a sensation at the state department. For the past five years the department has been keeping Castro under surveillance to prevent his returning to Venezuela, which country has been enjoying a period of unwonted prosperity and quiet since his retirement.

Department officials supposed the exile was living quietly in the Canary islands until a cablegram came announcing his re-entrance into the country of his birth at the head of an armed force, while various uprisings in his behalf were reported from different points in Venezuela. He was said to be at Coro.

From the legation at Caracas the state department was informed of uprising in the state of Tachira, at Coro and Masuro. Telegraphic communication between the capital and the disturbed points was interrupted, but the Venezuelan foreign office claimed the revolutionists had been defeated by state troops at all points. The president had been granted dictatorial powers, it was said, and men were being impressed for military service.

The United States government is represented in Venezuela at present only by a legation clerk, Richard J. Biggs. Minister Northcott resigned and left his post and Secretary Caffery now is in Washington attached to the Latin-American bureau.

The state department called upon the navy department for a warship to look after American interests in Venezuelan waters and the gunboat Des Moines, now at Brunswick, Ga., was ordered to make the cruise. It is calculated that the gunboat can make the run to Laguira, the nearest point to Caracas, in about six days.

TO DISTRIBUTE HUGE SUM

$50,000,000 of Government Funds Are to Be Parceled Out.

Washington. — Secretary McAdoo prepared to distribute twenty-five to fifty millions of dollars of government funds in the agricultural regions of the South and West. The secretary is collecting information as to the relative needs of each section where harvesting is now under way or soon to begin, and expects to have the money in the banks in ample time for the movement of crops. Treasury officials were confident that the secretary's plan would be a powerful factor in averting or relieving the prorspective tightness of money characteristic of the crorp moving season.

Much interest was manifested in the secretary's declaration of willingness to receive prime commercial paper as security for the deposits. This innovation marks the government's first participation in the commercial market.

Elephants in Panic.

Winnipeg, Manitoba.—During a severe electrical storm here a herd of eighty elephants with a circus showing here, broke loose, wrecked half of the circus tents and thousands of seats, damaged a number of small buildings and caused a panic in the neighborhood. The elephants were captured several times, only to break their bonds again. Trainers with iron bars and pitchforks at length subdued them. No other animals escaped.

23 Hurt in Dust Explosion.

Hymera, Ind.—Five men were fatally burned and eighteen others dangerously hurt in a dust explosion at Jackson Hill No. 2 mine, three miles east of Hymera. It is believed the dust was fired by a "windy" shot. The mine property was heavily damaged. Rescuers brought out all the injured miners.

Drastic Demands at Peace Conference

London.—The allies in demands presented to the Bucharest peace conference proposed the establishment of frontier standing east from the Struma river, river running midway through Rumalia and reaching the Aegean sea 15 miles west of Dedeagatch. This would leave Bulgaria a coast line on the Aegean sea of less than thirty miles. If these drastic terms are accepted, Bulgaria will issue from two wars a little larger than when she entered into them, but she will have to abandon a large amount.

Delaware Gap Swept by Storm.

Stroudsburg, Pa.—Stroudsburg and the Delaware Gap were the center of a storm which is said to be unprecedented in this section of the state. Seven and one-half inches of rain fell between twelve-thirty and three o'clock, doing damage estimated at more than one hundred thousand dollars. No lives have been reported lost. Mount Chunk, Penargy, Poolland and Bangor also suffered severely. Houses at the Delaware Water Gap crowded with summer tourists were badly damaged.

PROMINENT IN MEXICAN EMBROGLIO

If General Huerta is recognized as president of Mexico by the United States, Senor Don Angel Algara, the young Mexican charge d'affaires in Washington, will be named as ambassador. Nelson O'Shaunessy, first secretary of the American embassy in Mexico, is in charge of American interests there in the absence of Ambassador Wilson. Carlos de Pererya, an accomplished diplomat, is acting minister of foreign affairs in the Huerta cabinet.

HURRICANE STRKIES CAPITAL

STORM LASHES BACK AND FORTH ACROSS WASHINGTON, LEAVING DEATH AND RUIN.

Many Buildings Wrecked and the Capitol and White House Damaged.

Washington.—Like a giant flail, a cyclonic storm of wind, rain and hail whipped back and forth across the nation's capital, leaving death and ruin in its wake. Three dead, scores injured and hundreds of thousands of dollars' worth of property destroyed was the toll recorded in the hurried canvass made when the city aroused itself from half an hour of helplessness in the grasp of the elements.

Out of a blazing sky, under which the city was sweltering with the temperature at 100 degrees, came the storm, roaring from the north, driving a mass of clouds that cast a mantle of darkness over the city.

The gale, reaching a velocity of almost seventy miles an hour, swept the streets clear, unroofed houses, tore detached small structures from their foundations, wrecked one office building, overturned wagons and carriages in the streets and swept Washington's hundred parks, tearing huge branches from trees and even uprooting sturdy old elms, landmarks of a century.

Washington's well-kept streets, with their wealth of trees, were littered with broken foliage, roofs, debris and dead birds, as if a playful giant had carelessly swished his club up and down the city.

As the wind wreaked havoc, the rain came, and in five minutes the temperature dropped from the hundred mark to between 60 and 70. Then the rain turned to hail and hailstones battered on roofs and crashed through skylights and windows.

For half an hour the city, covered, paralyzed, under the beating of the storm, every activity suspended. Trolley cars, street traffic and telephone service were halted, government departments suspended operations.

Heat Wave Sweeps Country.

Chicago.—Mid-summer heat, bringing to many cities temperatures as high as 106 and making the 100 degree mark common over wide areas, extended throughout the central states. Generally described the heat wave extended from the Rocky mountains to the Atlantic coast, but the maximum temperatures were reported from points between Kansas and Ohio. The weather bureau temperatures, usually several degrees lower than the street level temperatures from Cincinnati and Indianapolis were 102.

Engineer Killed; 146 Passengers Hurt.

Altoona, Pa.—One man was killed and 146 passengers and trainmen were injured, only one dangerously, when a fast express crashed into the rear end of a passenger train on the Pennsylvania railroad at Tyrone, 15 miles east of the city. All of the injured, including eleven, who were hospitalized in the Altoona hospitals, were able to continue their journey. Both trains were of steel construction, and it is believed to explain that only three cars were badly damaged.

SOUTHERN GROCERS FINED

U. S. JUDGE GRUBB HOLDS THE CONTEMPT CHARGES HAVE BEEN SUSTAINED.

Decree of 1911 Prohibited Any Violations of the Anti-Trust Law.

Birmingham, Ala. — Federal Judge Grubb fined the Southern Wholesale Grocers' Association $2,500 for contempt of court in violating a decree issued in 1911, commanding the organization to abide by federal anti-trust laws. President J. H. McLaurin of Jacksonville, Fla., was fined $1,000. H. Lacey Hunt of Wilmington, N. C., and L. A. Melchers of Charleston, S. C., were fined $1,000 each and the costs were assessed against the corporation and the three individual defendants according to costs of their respective witnesses.

The decree of 1911 prohibited any violations of the anti-trust law. A suit was filed this year against the Southern Wholesale Grorcers Association, its president and officers, and many members, but after the trial was on a few days all defendants were expurgated except those named in the decision by Judge Grubb.

MARVIN FOR WEATHER CHIEF

Chief of Instrument Division Is to Succeed Willis L. Moore.

Washington.—Prof. Charles F. Marvin has been selected for chief of the weather bureau to succeed Willis L. Moore, recently removed. Professor Marvin is now chief of the instrument division. He was appointed to the old signal service in 1884 from Ohio. President Wilson sent his nomination to the senate.

Professor Marvin, the new chief of the bureau, was recommended for the place by the National Academy of Sciences. President Wilson was requested by the executive committee of this body to delay the appointment of a successor to Willis L. Moore until it had canvassed the field and recommended a man.

"Uncle Joe" Cannon Tumbles.

Danville, Ill.—Former Speaker Joseph G. Cannon's automobile plunged down a steep bank and alighted right side up in a small lake in Spring Hill cemetery near here. "Uncle Joe" was riding with his daughter, Mrs. E. X. LeSeure. At a sharp bend in the roadway along the lake bank his chauffeur missed the brake with his foot and the car leaped off the ten foot bank. The water was shallow, and the passengers easily waded to the shore. Neither Mr. Cannon nor his daughter were hurt.

Drops Bombs Around Warship.

At the Front, Above Guaymas, Mexico.—Didier Masson, from his big biplane, dropped bombs around the gunboat Tampico, lying in Guaymas harbor. Four bombs were dropped, one striking within a few feet of the fighting gunboat. This probably gave rise to the report that the boat had been struck. The French aviator operating under Henry Wilson, circled over the town and then returned to the front.

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

Governor Comer continues to "Shell down the corn;" seed corn, too!

The extremely hot days may be making the cotton crop "hump," but it is also making the cotton maker limp.

A newspaper man who could please everybody died last week; he was just one day and two hours old at the time of his demise. Others may be born, but the average newspaper man refuses to believe it.

The Birmingham Ledger of last Friday in its Concord news had the following to say in reference to a very interesting subject:

"An adlul rdlu m mfw m a otn ttn."

We believe every word of it; in fact the writer could have said much more without having exhausted the subject.

News articles in the State papers announce that the Alabama Power Company has closed contracts with the Birmingham Railway, Light and Power Company for the furnishing of electric current for lighting and street car service.

These same news articles state that two other giant plants in Birmingham have contracted with the same company for electric power. The three contracts closed will amount to not less than $600,000.00 per annum.

Ten or twenty thousand would probably light Clanton admirably, furnishing day current for fans during the sweltering weather. Birmingham is sixty or more miles from the power plant, Clanton is thirteen miles!

Birmingham has closed its contract; Clanton has not opened negotiations! Nuf sed!

We hear some complaint from the rural sections about the county donating any amount to assist in securing the High School. It is not by any manner or means a Clanton institution, but rather a CHILTON county affair in which every individual citizen is, or should be, vitally interested. That High School must be located somewhere—why not Clanton as the central point? The fight over location is not in good taste; it does not show love of county institutions to say the least No two towns or localities can have it and if Clanton is fortunate enough to secure it why should those of another section grumble? Why are taxes levied and collected anyway if not for the development and support of the county? Because every locality cannot have the High School is that good reason why any particular section should fight the proposition?

Week before last the Press printed an article which seems to have reflected somewhat upon young Mr. Thornton, in that it stated that Mr. Thornton was the gentleman who cashed a post office order at the Clanton Bank and that he had been placed on trial for the offense before the United States Court at Montgomery. The article was written in good faith and was not intended in any manner to reflect upon the young man; it was given strictly as a matter of news. Mr. Thornton was arraigned before court charged with the offence but proved his innocency and was immediately discharged by a jury who heard the testimony in the case.

We write this in justice to Mr. Thornton as the impression may have been created that he was the actual perpetrator of the crime, whereas the testimony produced in court showed that he was innocent.

MISS RUBYE GORE ENTERTAINS

Miss Rubye Gore entertained informally Friday evening at a heart party, in honor of her guest Miss Lillian Gore, of Centreville.

The home was most effectively decorated with cut flowers and ferns. Music was furnished during the evening by Misses Glennie Evans, Mary Curry, Ruby Downs and Mr. Newton Aldridge.

As the guests arrived they were received by the hostess, carried to the porch by Miss Lake Jones, where delicious punch was dispensed from a pretty flower-laden table by Miss Jewel Gore.

Progressive hearts was the feature of the evening.

Miss Alma Jones received the ladies prize, by making the highest score, which was a beautiful book. Mr. Guy Roberts received the gentleman's prize, which was also a book. Miss Lillian Gore won the visitor's prize, which was a beautiful box of stationery

At the close of the evening a delicious ice course was served, carrying out the color scheme of pink and white.

Miss Jones wore a pretty gown of lace over yellow.

The hostess was gowned in pink satin, draped with white net and pink rosebuds.

Miss Gore wore a yellow messaline, draped in black chiffon.

The evening will be long remembered, as Miss Gore proved an ideal hostess.

LEGAL NOTICE.

The State of Alabama,
Chilton County.

In The Chancery court of said county, Seventh District, Northern Chancey Division.

The town of Thorsby, Ala.,—VS S. O. Brant, Della Goldbin, C. H. Swan, J. L. Weal, Emil Carlson, and Emil Larson.

In this cause it is made to appear to the Register, by the certified tax list heretofore filed in my office at Clanton, Ala., by the town of Thorsby on the 20th day of May, 1913 that the following list of property in the said town of Thorsby, Ala., was assessed to the following named persons towit:—

10—C. H. Swan, Beginning at a point 50'. south of the N.E. corner of S.E. 1-4 of S.W. 1-4 of S.W. 1-4 of Sec. 6, T. 23 Range 14, thence south 50', thence west 140', thence north 50', thence east 140' to the point of beginning, for the tax year 1912.

11—To J. L. Weal, N.W. 1-4 of N. E. 1-4 of S.W. 1-4 of Sec. 1, T. 22, R. 13 for for the tax year 1912.

12—To Della Goldbin, S.W. 1-4 of N. W. 1-4 of N.W. 1-4 of Sec. 7, T. 22, R. 14 for the tax years of 1911 and 1912.

13—To Emil Carlson, Lot One (1) in block eveven (11) for the tax year 1912.

15—To Emil Larson, N.E. 1-4 of N.E. 1-4 of Sec. 6, T. 22, R. 14 for the tax year 1912.

16—To S. O. Brant, Lots number 17 and 18 in Block (2) for the tax years 1909, 1910, 1911 and 1912.

And that summons having been issued to said above named property owners as required by law, has been returned by the Sheriff of Chilton county, Alabama "not found."

It is therefore ordered by the Register that publication be made in the Preess, a newspaper published in the county of Chilton, state of Alabama, once a week for four (4) conservative weeks, requiring them, the said S. O. Brant, Della Goldbin, C. H. Swan, J. L. Weal, Emil Carlson and Emil Larson to answer or demur to the same within thirty (30) days after the 16th day of August, 1913 and failing to do so, a final decree will be made by the Chancellor of the northeastern chancery division of Alabama adjudging the above described property liable for such taxes and directing the Register in Chancery to sell said property for the payment of the taxes, charges and penalties interests and costs that are charged thereon unless the amount due and costs shall have been paid to the Register aforesaid before such date.

Done at office in Clanton, Ala., this the 18th day of July, 1913.

H. M. Simpson, Register in Chancery.

7-24-4t

Mr. Mallie White shed the light of his handsome countenance upon the citizens of Birmingham Tuesday, having gone up on a short business trip.

HIGGINS, THE WATCH AND EYE MAN

HAS SUCCESSFUL OPERATION PERFORMED

By having his old line of watches "cut out," and has had a fine line of the famous "Hamilton Watches" put in instead. So it means successful time keeping to you if you buy a Hamilton watch from Higgins, the reliable watch and eye man.

INSTITUTE CONDUCTORS

The Chilton County Teachers Institute which will convene next Monday morning at the Court House in Clanton will be conducted by Prof. E. E. Smith of Birmingham, assisted by Miss Maude Kimball of Barton Academy, Mobile. Teachers are urged to be on hand promptly and to attend each session of the Institute.

J. W. Moore,
County Superintendent of Education.

Mr. Tom Littlejohn is again with his first love, attending to the wants of his many friends for E. M. Pinckard & Co. No more popular salesman ever took cash over a counter than genial Tom Littlejohn and Pinckard & Co. are to be congratulated in again having secured his services.

If Mr. Bryan finds it impossible to live on his insignificent salary of $12,000.00 per annum, why can't he try using a safety razor at home instead of paying out his hard earned wealth to the barber?

Mr. Wilson, the President, and Mr. Wilson, the Ambassador, seem not to be on the same puncheon in so far as Mexico is concerned. We've staked our money on Woodrow.

Mr. J. Monroe Parrish, much to the delight of his friends, has been discharged from St. Margaret's Infirmary (Montgomery) where he went last week to undergo an operation for appendicitis. He returned home Tuesday afternoon.

Prof. J. J. Pickens left Monday evening for a few days rest at his old home in Mount Hope, Lawrence county. He will return shortly to begin the distribution of the academy catalogs which the Press in now engaged in printing.

Legal Notice.

Birmingham, Ala., Aug. 1, 1913

Hon. B. L. Jones,
Sheriff Chilton County, Ala.

No United States Internal Revenue License have been issued to your (Chilton) county in the month of July, 1913.

I hereby certify that I have carefully examined the record of the Collector of Internal Revenue and the above is complete and correct.

Yours very truly,
SAM. P. JONES.

Sworn to and subscribed before me this 1st day of August, 1913.

8-7-2t J. B. Mosley, Notary Public.

THE FACTS IN THE CASE

YOU send your children to the school room to be instructed by the teachers, because the teachers know more than your children. If they are sick, you call a physician because he knows how to give medicine to relieve suffering. When you want a box of pills, you go or send to a drug store for them, not to a grocery store, and if you desire the latest style lady's hat, you call at a first-clall milinery establishment instead of a meat market.

In these things you are wise, then why have them call at a dry goods store, or go yourself for Hardware, when a regular Hardware man learns more about Hardware in a year, than a dry goods fellow can know in a life time?

At a Furniture store is certainly the place to buy Furniture. Our Furniture department is seperate and apart, and occupies the entire second floor.

If you need, Hardware, Furniture, Furnishings, Farm Implements, Mill Supplies, Lime, Brick, Cements, Paints, Sash and Doors, you cannot do better than come to us. This is our life, our trade, our business. In buying we consider quality, price and appearance. Trade with us and get the benefit of our effort, experience and price.

SOUTHERN UNIVERSITY

Greensboro, Ala.

A SCHOOL OF CHARACTER

THE COLLEGE

1. The EDUCATIONAL STANDARDS meet the college requirements of the National Association of State Universities, of the Southern Association of Schools and Colleges, and of the Alabama Association of Colleges of which the institution is a member. The curriculum is high and varied, and the instruction is careful personal and thorough.

2. The IDEAL of the institution is the development of CHRISTIAN CHARACTER. It believes the studies are more impartant than athletics, and that righteousness is more important than all. And this belief determines its whole attitude and policy.

3. The COST per year is very low. Tuition, fees and board amount to only $200 for the full nine months session,—$150 for the sons of ministers and ministerial students.

THE FITTING SCHOOL.

For the benefit of students who are not yet prepered to enter college, but who desire the advantages of a high grade preparatory school, the Southern University has established and maintains its FITTING SCHOOL. This school offers a standard high school course under peculiarly attractive coditions. Students of the Fitting School enjoy the privileges of a college gymnasiun, library, Y. M. C. A., and all public lectures and entertainments given by the college. At the same time, they have their own dormitory, where they live together with the principal and his family and the Matron, and so have the advantage of close association with their teachers, and constant supervision by them. The cost is the same as in the college.

FALL TERM OPENS SEPT. 10, 1913.

ANDREW SLEDD, Ph D. (Yale) D. D., L. L. D., President,
RALEIGH W. GREENE, B. S., B. D., Prin. Fitting School.

Do You Know What

Had You Thought What It Means to Look Neat?

We take your old clothes, remove all ink and grease spots, repair torn places, renew "wholly" pockets, press them neatly and return them to you at an insignificant cost, but at a tremendous saving to you.

We make OLD Clothes look NEW. Ladies Skirts and Waists a specialty

Look up your old clothing and give us a chadge to renew them for you. Let us rejuvenate your wardrobe.

RUB-MY-TISM

Will cure your Rheumatism Neuralgia, Headaches, Cramps, Colic, Sprains, Bruises, Cuts and Burns, Old Sores, Stings of Insects Etc. Antiseptic Anodyne, used internally and externally. Price 25c.

Sometimes the symptons of kidney and bladder trouble are so plain no one can mistake them. Backache, sweat and lame back with soreness over the kidneys, sharp pains, rheumatism, dizzy headache, and disturbed sleep, are all indications of a trouble that Foley Kidney pills will relieve quickly and permanently. Try them. Alred Drug Co.

LOCAL & PERSONAL

Judge Deason left Tuesday afternoon for Auburn, where he will take a course at the Alabama Polytechnic Institute in farming; he will be gone for several days. In the meantime Mr. Tom Pyron is keeping the lid down on the Judge's office with becoming grace.

Judge Reynolds and Editor Byrd went up to Birmingham Tuesday, returning just in time to see the clean-away scrape which nearly demolished the west side of Main street.

Ex-Sheriff Jno. S. Catts, Mrs. Catts, Miss Katie Pitts, and Mr. Caffey of Verbena were visitors to Clanton Tuesday afternoon. They were accompanied by Mr. and Mrs. Gordon Catts of West Point, N. Y., who came to Clanton to take the fast train to Montgomery.

Mr. Gordon Catts is now a member of the United States Army, having graduated with honors from West Point some time since; and his beautiful wife were on a bridal tour, having come from New York on a visit to the parents of the former.

FOR SALE—60 acres of land; 35 acres cleared, 4 room dwelling and one tenant house. Will sell at a bargain, if sold within 60 days. Three miles southeast of Clanton.

7-17-4t Alonza L. Williams.

Mr. and Mrs. J. O. Middleton returned Tuesday afternoon from a visit to Birmingham.

News from the bedside of Mrs. J. Tyus states that she is resting as well as could be expected under the circumstances. Last Friday, Mrs. Tyus, who is quite advanced in age, had the misfortune to be knocked down upon the streets of Birmingham by an automobile, sustaining a broken limb. She was carried to the Hillman Hospital, where she is reported as progressing nicely.

FOR RENT—Two nicely furnished rooms at reasonable rates; possession given immediately; suitable for ladies or gentlemen; room with two large beds. For information, call upon or address

7-24-2t Mrs. J. M. Glass.

We are requested by Congressman Blackmon to state that he will have quite a number of packages of seed (garden and flower) and cotton seed for distribution in the early Fall and that those desiring to secure seed should communicate with him.

Mr. C. W. Reynolds, representing the Buckeye Cotton Oil Company, was in Clanton Wednesday in connection with the business of the firm.

"Cures of Honey and Tar" from West and East.

Mrs. Lee, Paskenta, Calif., says, "It gives universal satisfaction and I use Foley's Honey and Tar Compound for my children." E. C. Rhodes, Hampton, Ga., writes, "I had a racking hoarse cough and finally got relief using Foley's Honey and Tar Compound." Use no other in your family refuse substitutes. Alred Drug Co.

Mrs. W. P. Crump of Birmingham, who has been on a visit to her parents, Prof. and Mrs. J. W. Abercrombie, returned to her home Monday morning.

Mr. Charles Thompson of Atlanta, Ga. has been on an extended visit to his aunt, Mrs. J. W. Stanley, returned to his home Monday evening.

YOU who require the best and purest medicine see that you get Foley's Honey and Tar Compound in preference to any other for coughs, colds, croup, asthma, hoarseness, tickling throat and other throat and lung troubles. It is a strictly high grade medicine, and only approved ingredients of first quality are used in its manufacture. It gives the best results, and contains no opiates. Alred Drug Co.

Mr. Henry Candler, wife and son of Birmingham, arrived in Clanton Wednesday morning on a visit to the parents of the former, Mr. and Mrs. W. A. Candler. Mr. Candler came down to spend his little third birthday with his parents. It is needless to say the fatted calf was killed and greatly enjoyed.

Mr. W. H. Acton of Birmingham is in Clanton on a visit to his mother, Mrs. Belle George.

Miss Katie Kenwell, who has been the guest of her aunt, Mrs. Morma Denty, returned to her home in Birmingham last Sunday, accompanied by her husband, Mr. Kenwell.

Miss Norma Denty is visiting her cousin, Mrs. Taylor, in Verbena.

ALFALFA MOST PROFITABLE CROP

Adds Fertility to the Soil—Yields Three to Four Crops of Hay Each Year in the Corn Belt.

EXCELS EVERY OTHER CROP

The Introduction of Alfalfa as a General Farm Crop in the United States Will Revolutionize Agriculture—Means More Live Stock, Better Soil and Larger Returns From the Crops That Follow.

By PROF. P. G. HOLDEN, Director Agricultural Extension Department International Harvester Co. of New Jersey.

Alfalfa Should be Grown on Every Farm

1. It is a profitable crop.
2. Increases farm values.
3. Excels every other crop
   - In yield per acre
   - In feeding value
   - As a drouth resister
   - As a soil enricher.
4. No harder to grow than clover.
5. Make a beginning—start now grow some alfalfa.

Repeated experiments made by the agricultural colleges, and the results obtained by the actual growers of alfalfa in the semi-arid sections of the west, throughout the corn belt states, and in the south and east, are conclusive evidence of the great value of alfalfa.

There are few farmers whose profits would not be increased greatly by raising alfalfa. Every farmer should aim to produce, as far as possible, his foodstuffs upon his own farm.

During the last few years, the area devoted to alfalfa has greatly increased in the region west of the Missouri river, and it is certain that there will be an equally rapid increase throughout the eastern and southern parts of the United States.

Many of the attempts in the past to grow alfalfa in the humid regions have failed, but with our present knowledge of the requirements of the crop there will be little, if any, more trouble in securing a stand.

Alfalfa will soon be grown abundantly and profitably upon every farm. It is no more difficult to grow than clover and gives double the yield. The deep rooting habit of alfalfa enables it to resist drouth when clover, timothy, blue grass and other forage grasses die for want of moisture. Alfalfa roots grow deep into the soil—far beyond the roots of other plants.

Its drouth resisting power is of no greater importance than its great value as a soil enricher. The long roots bring phosphorus, potash and other plant foods from below and store them in the upper soil for the use of other plants. Experiments show greatly increased yields of other crops grown upon alfalfa sod.

Alfalfa is rich in protein the most essential element in feed to make bone, blood and muscle in growing animals.

Why We Need Alfalfa.

There is no combination of feeds so economical for the production of beef, pork, mutton, butter and eggs, as corn and alfalfa. Neither will give the best results alone. We need alfalfa because it balances up the corn ration and saves the large waste of starch which always takes place where corn is fed alone. We need alfalfa because we can by means of it grow on our own farms the protein more profitably than we can buy it in feed stuffs. We need alfalfa because it feeds the soil and enables us to grow larger crops of corn and oats. We need alfalfa because it produces on an average double the feed value per acre of clover or any other forage crop.

Advisable to Inoculate.

In regions where alfalfa has not been grown it is found to be necessary to inoculate the ground by sowing three or four bags of soil secured from a field where alfalfa or sweet clover has been grown for a number of years; or where it is more convenient, artificial culture, such as "nitragin," "farmogerm," etc., may be applied. Where alfalfa has not been grown before it may make the difference between success and failure.

Alfalfa Essentials.

A well prepared, firm, solid seed bed, plenty of good barnyard manure, and fallow to kill the weeds, are most important. Lime? Yes, one to two loads per acre, and by all means inoculate. Ground too wet for corn is not suited for alfalfa.

Make a Beginning—Start Now.

Every farmer should try at least a small piece of alfalfa and if he does not succeed at first, try again and keep on trying until he does succeed. It is worth the while. If the work is thoroughly done and at the proper time, you will most certainly succeed in securing a good stand; if the work is half done and out of season, you will just as certainly fail. Make a beginning—start now.

Mr. K. A. Chappelle of Pensacola, Fla., arrived in Clanton Monday morning on a visit to his parents, Rev. and Mrs. Chappelle, remaining here several days, after which he left for Atlanta. Mr. Chappelle is Advertising Manager for the Pensacola Journal.

Miss Minnie Muse returned several days since from a two weeks outing at Mineral Springs. She leaves within the week for Cincinnati and St. Louis to purchase her Winter millinery.

Mr. C. Reese Mullins is having a number of changes made in the building occupied by the L. Bloch Millinery Co. and himself as an insurance office.

Miss Blanche Tisdale, who was one of the popular teachers at Clanton academy last year, left Friday for her home at Bluff Springs, Florida, much to the regret of her friends here. She stopped over several days to visit relatives at Garland and Evergreen before proceeding to her home. Miss Tisdale was one of the most popular young ladies who ever taught in Clanton and many are the expressions of regret that she is not to return next year.

Several new advertisements will be found in this week's issue which our readers will do well to scan. Mid-season bargains are offered by most of them that are bargains indeed. Read every advertisement; they are well worth your time.

Miss Lottie Wells of Faceville, Ga., is spending a few days with Mr. F. W. Denty's family.

Mortgage Sale.

Default having been made in the payment of a debt secured by that certain mortgage made by William McCorkle and his wife, Fannie McCorkle, to J. M. McCorkle, dated the 12th day of November, 1898, and recorded in Book 120, at page 241, of the records of conveyances for Chilton county, Alabama, and said default continuing, said J. M. McCorkle will, under and by virtue of the powers of sale in said mortgage contained, proceed to sell at public outcry to the highest bidder for cash within the legal hours of sale, in front of the court house door in Clanton, Chilton county, Alabama, on

AUGUST 23rd, 1913,

the following described real estate, situated in Chilton county, Alabama, namely:

The south half of the northeast quarter of Section 34, Township 20, north, Range 12, east, and containing eighty (80) acres, more or less.

This sale is made for the purpose of paying the debt secured by said mortgage, including the expense of this foreclosure, together with attorney's fees for collecting said debt and foreclosing said mortgage.

J. M. McCORKLE, Mortgagee.

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. We are willing to personally guarantee this and to return your money without argument if your complexion is not fully restored to its natural beauty. WILSON'S FRECKLE CREAM is fine, fragrant and absolutely harmless. Will not make hair grow but will positively remove TAN, PIMPLES and FRECKLES. Come in today and try it. The jars are large and results absolutely certain. Sent by mail if desired. Price 50c. Mammoth jars $1.00. WILSON'S FRECKLE CREAM SOAP 25c. For sale by

Alred Drug Company.

Mr. Barney Roberts went down to Montgomery Monday on business connected with the firm of Roberts & Son Lumber Company, to be gone several days.

Tax Collector Dennis is attending the Summer sessions of the Alabama Polytechnic Institute at Auburn.

It the citizens of the county generally will respond liberally toward the erection of the County High School it will be a surety well assured; if they fail at this time the opportunity may pass never to return again. Remember it's a CHILTON COUNTY affair, therefore let Chilton countyites work for its success.

"Shadow Tag."

One of the prettiest games for young children to play out of doors is "shadow tag."

It can only be played on a sunshiny day when shadows form plainly.

Tag is played in the usual way, except that the girl who is counted "out" must jump on the shadow of one of the players and at the same time call her name. The youngster whose shadow is stepped upon thereupon becomes "it."

Sweet, Sweet Girls!

Adeline—I've heard so much about Stella. I wonder if she is the right sort?

Adele—Dear, I don't believe half I know about her.—Judge.

Dull.

Gabe—Smith is the dullest fellow I ever met.

Steve—Should say so. Why, he couldn't even break a monotony.

Our friends are invited and requested to send us in all the neighborhood news; we will appreciate it and so will our readers.

Subscribers who do not receive their paper regularly and on time are requested to notify the editor of the Press, giving date and post office address.

Articles containing advertising matter of any character will not be published as news unless paid for in advance and are marked as advertising.

Notices of all-day singings and kindred subjects are invited as news articles, but they will not be published more than one time except as advertising matter at regular rates.

We wish to cater to our friends and patrons, but dislike to publish articles signed "Somebody's Sweetheart" or "Nobody's Darling" or with other kindred pet names; get something more classical.

Subscribers who are in arrears must forward subscription price in order to keep their subscriptions alive. The Post Office department requires this of us and we request it of our patrons.

Subscribers who wish their address changed MUST furnish the old address together with the new; this is absolutely necessary and unless the old address is given no attention will be paid to requests for change.

Unsigned articles invariably go to the waste basket. If you do not wish your name published we will not do so, but we must have it as a guarantee of good faith. Select a nom-de-plume and stick to it, but always give your proper name in the margin of your communication.

On and after this date all newspaper subscriptions are invariably payable strictly in advance. There will be no variations from this rule. It is the rule of all other newspapers and we have decided to adopt it and adhere to it. Please be governed accordingly.

Articles riduculing or reflecting upon others either in a social or political way—or otherwise—will not be published except when paid for at regular rates (cash to accompany communication) and signed by the writer with proper name. Even then we reserve the right to reject such articles if in our opinion they are objectionable.

We have heretofore charged nothing for publishing obituaries, but our columns cannot be used as grave stones without we receive something for the service. Three hundred words will be published absolutely free, but all in excess of that number must be paid for at the rate of one cent per word—cash in advance.

WASHINGTON GOSSIP

Uncle Sam Manufactures Some Expensive Toys

WASHINGTON.—In the midst of the ponderous national duties which constantly beset him, Uncle Sam finds time to indulge in the occupation of toymaker, an occupation which makes him beloved by children and admired by grown-ups who may never hope to see the mighty originals of the wonderful toys.

Three rooms in a tiny brick building, tucked away in a secluded corner of the Washington navy yard, where the thunder of giant machinery making mighty guns is shut out and the everlasting crashing of metal is faint and dim, constitute the toy shop for things marine.

Six of Uncle Sam's most able assistants, all experts in their line, are employed here steadily turning out the expensive playthings. There is one workman laboriously threading wire into a long cage. Here is another slowly carving with small instruments many pieces of wood that dovetail perfectly once their jigsaw individualities are united in a whole. There is another with a tiny brazier melting small pigs of metal with anxious care, and far in a shadowy corner another is arranging his paints.

A room in the building of the army signal corps is the home of the army toy, the tiny field gun, the mule team with animals complete, all less than three feet long; the miniature field hospital and a horde of other things.

Children going through the war and navy departments cry out in delight when they first learn what a wonderful Santa Claus Uncle Sam can be if he puts his hand to it. One millionaire gravely offered a secretary of the navy $15,000 for a single toy and was refused because Uncle Sam desires that his playthings be enjoyed by all alike.

Hardy plainsmen, visiting fairs in desert towns, stare open-mouthed at Uncle Sam's toys and chuckle with pride at the strength which he has shown them in minature.

Uncle Sam's toyshop at the navy yard is wonderful. Here exact models—on a scale of one-quarter of an inch to one foot—of the mighty fighting craft of the nation are built. Tools no larger than a surgeon's lancet are used to cut and shape the hull, for every line in the miniature dreadnought is made according to the plans of the original. A mistake of one one-hundredth of an inch would be fatal.

Jackson Monument Guns Are Bronze Smoothbores

WITHIN the circular fence which girdles the green mound on which the Jackson monument stands in Lafayette square are four old field guns pointing outward from the corners of the white stone pedestal. They are slightly depressed.

The guns are bronze, muzzle-loading smoothbores, with a caliber of about two inches. They are crusted with the gray-green which comes to cannon with age and lends charm to antique ordinance.

The carriages have been freshly painted, the wood gray and the iron parts black. The carriages are well preserved. It seems impossible that they can be the original carriages of these guns. The wheels have wooden hubs as big as beer kegs, with fourteen spokes and seven felloes. The lynch pin through the spindle is of a pattern that was superseded several years ago by the new artillery hub-cap fastening. The elevating screws, square wooden axles, square timber trails, the brackets for trail handspike, the slings for rammer staffs and the trunnion seats and fastenings seem to mark these gun carriages as of the Civil war type of field artillery.

Two of the guns, those at the southeast and the northwest corners of the pedestal, have the ornamented handles that were common in seventeenth and eighteenth century French and Spanish ships' guns and fortress artillery. The guns at the southwest and northeast angles of the monument are without these handles. The guns with handles are chased on the barrel.

The writer asked Col. Spencer Cosby, engineer corps, United States army, officer in charge of public buildings and grounds in the District of Columbia, about these guns. Colonel Cosby said:

"Nine years ago the office made an effort to ascertain the history of the four cannons located at the base of the Jackson statue in Lafayette square, but was unable to learn anything definite either from our own records or from those of the war department."

Says Failure to Kill Flies Is Blot Upon Civilization

THAT the failure to destroy house flies in a community is a blot on civilized methods of life is the opinion of Dr. L. O. Howard, chief of the bureau of notomology of the United States department of agriculture, who probably has made a more exhaustive study of the insect than any other scientist in America.

Doctor Howard is watching with interest the campaign against the pest and believes that the preventive methods being urged constitute the only feasible means of eradicating this source of danger to mankind.

The conclusion reached by the department of agriculture expert is that the fly acts as a freight train for the output of Germville. The carrying of typhoid germs, he says, is the fly's chief asset, but, in addition, the insects manage to distribute a few hundred thousand tuberculosis, cholera, infantum and dysentery bacilli. As a general thing, every fly carries a quarter of a million bacilli and spends most of the summer months in scatering free samples wherever he goes.

A careful collection of garbage in cans, watertight floors for stables, absolute cleanliness and careful inspection by board of health employes are the fly-prevention methods suggested by Doctor Howard.

The final solution of the fly nuisance, he points out, must rest entirely on prevention—that is to say, the breeding places of flies must be done away with. The majority of flies being reared in stable refuse, it is stated, would seem to point the way for the successful abatement of the fly nuisance.

Dr. Arthur L. Murray of the District of Columbia health department, who is supervising the local campaign of a large number of stables and suggest to owners steps that may be taken to prevent those places from serving as fly hatcheries.

Problem of Feeding the Help in Large Hotels

"THE problem of feeding the help in large hotels has perplexed managers in every city in the world," said the head of one of Washington's largest hotels the other day. "The question is now being considered by many of the large hotels in this country whether it is cheaper to raise the salary of the employes and not to furnish them with meals or to provide regular meals for them.

"In many large hotels there is a class of help that is fed in the kitchen, while other employes have special dining rooms. The chambermaids, bellboys, porters, scrubwomen and all employes of the lower grade are fed usually from the help's kitchen. One of the leading hotels of Chicago allows the first officers $90 per month for their meals, and they order from the regular menu. As this is the most exclusive house and the cafe prices are almost prohibitive, this amount is not too much to give any officer a hearty good meal. Two other hotels in the less pretentious allow the first officers 50 cents for breakfast, 75 cents for lunch and $1 for dinner from a bill of fare prepared especially for them, the prices being about 25 per cent less than a regular card. Second and third officers are furnished a menu also especially prepared, giving them a soup, meat or fish, one vegetable, tea or coffee and a dessert. Several New York hotels have put their officers on a basis the basis of [illegible] and engage their men on a weekly salary, not including board, laundry or other side issues which have been so long customary with the hotel employe."

NAP LAJOIE THINKS JOHNSON IS BEST

Walter Johnson of Washington.

"Walter Johnson is far and away a better pitcher than Joe Wood, or any other pitcher in the American league," declared Larry Lajoie, than whom there could scarcely be a better judge of pitching. "Johnson simply has so much stuff and speed that if he turned loose his hardest throw with his stuff on, no catcher could get down in time to receive the ball.

"Every ball he throws has stuff on it. Some of the hops his fast ones take are bigger curves than the biggest the average pitcher has. I've seen him throw balls up to the plate that didn't look larger than a pinhead. Wood is a good pitcher, all right, but he is simply not in Johnson's class, nor is anybody else.

"Wood broke into the league from Kansas City against us in 1908, in Boston. There was a little house in center field, and we had about seven men who were hitting .300.

"Wow! What a reception he got! First we'd knock a brick out of the chimney, then a few shingles off the roof, then we'd batter a window pane.

"Nobody ever did anything like that to Johnson, and never will. When a fellow is coaching off first when he's pitching, it's next to impossible to see his fast one. If he didn't have good control, he would kill so many batters he would be barred from the league. He'd wreck every club he pitched against. There's next to no chance to duck or back away from his delivery.

"Almost any time you get a hit off Johnson don't figure that you're smart. Just figure it that you're lucky; lucky that you happen to make that blind swing in the spot where the ball came. If all the pitchers in the league were like Johnson the pitcher's box would hove to be placed at second base so one club could get a run without the game going into extra innings."

ONE ON THE UMPIRE.

American league players were grinning at the trick played by Jimmy Callahan at Chicago. Callahan does not like the umpires, particularly Umpire Hildebrand. As a result, when it came time to give the arbitrators the official batting order, Callahan sent Acting Manager Gleason out to the plate with a Chinese laundry slip, containing nothing but a row of Chinese hieroglyphics.

"What's that?" asked Hildebrand.

"Our batting order," replied Gleason. "The league rules do not say that it shall be written in English."

Turning his back, he hustled back to the bench, leaving Hildebrand standing there, dumfounded, with a laundry slip in his hand.

HERZOG IS A HARD SLUGGER

Stick Work With the Giants in World's Series Last Fall Attracted Attention in Sport Circles.

Charles Lincoln Herzog, infielder of the New York Giants, was born in Baltimore July 9, 1885. He began his baseball career at the University of Maryland in 1904, and for two years played shortstop on the college nine. In 1906 he managed a semi-professional team in Ridley, Md. One of his players was "Home Run" Baker, who now shines with the Athletics. The next season Herzog joined the professional ranks, playing with York and Reading in the Tri-State league. He signed with the Giants in 1908 and remained a member of McGraw's team until traded to Boston in 1919. Owing to dissensions among the players the Boston club sent Herzog back to the Giants in return for Al Bridwell and Hank Gowdy, Gowdy returning to New York Herzog has played every ball [illegible] his team in the world's series [illegible]

Charles Lincoln Herzog.

MANAGER STAHL IS DEPOSED

According to Rumor George Stovall and Joe Birmingham Are Also Slated to Be Let Down.

The release of Jake Stahl as manager of the Boston Red Sox, the present world's champions, was a big jolt to the baseball world. It had been rumored that trouble was brewing between Stahl and McAleer, but both had denied these reports.

That Stahl was ordered to step aside was due to his own action, and was not caused by any previous misunderstandings by the pair, it was learned from a trustworthy source.

Stahl voluntarily went to McAleer and asked him whether he was to manage the Boston team next year.

"Not unless you are able to play first base," replied McAleer. Stahl then told the Boston president that he was averse to continuing as manager unless he was to lead the team next season.

"In that event you had better resign," McAleer said to Stahl. Manager Stahl said he wouldn't resign under any circumstances, and thereupon the head of the Red Sox deposed him as manager and appointed Catcher Bill Carrigan to take charge of the team.

That other managerial heads in the American league will fall is not unlikely. Rumor has fastened on two in the persons of George Stovall and Joe Birmingham. The Ferguson incident, when Stovall was suspended, brought the ax very near to Brother George, but back of that were reasons that were not made public at the time and have not been.

The three games taken from Detroit helped Stovall more than a little, for it was the position of the team and

Jake Stahl.

the way that it was going that weighed more than anything else with the owner. Ban Johnson has never been friendly to Stovall nor has George held the most cordial feelings of good will toward the president of the league. Stovall did not better his position by openly siding with the striking Tigers a year ago, and it was freely predicted at the time that he had forfeited his chances of managing the Browns. This did not prove to be the case, but he certainly did not endear himself to Big Ban.

Birmingham's trouble is that he has made the Naps too aggressive. In his efforts to put fight in the team he has overdone the thing, but now promises to work with his foot on the soft pedal so that all may still be well.

Thieving His Forte.

Hap Meyers has done much to lift the Boston team from last place in the National league, because of daring on the bases. Meyers is a very weak hitter, drawing only a .224 average, but is leading the league in base stealing. Were he to hit above .300 his chances to pilfer would be greater on account of getting on first oftener. Meyers stole 115 bases in the Northwestern circuit last year and is undoubtedly the fastest youngster to break under the big tent this year.

Hedges Is Optimistic.

Bob Hedges, owner of the St. Louis Americans, says the Tigers have no license to finish ahead of the Browns. "Stovall's men ought to be ashamed of themselves if they cannot climb above Detroit," he adds, "but I am going to leave the team in George's hands to see what he can do."

High-Priced Twirler.

Walter Johnson, the great right hander of the Washington Americans, is going to be the highest priced twirler in baseball next season, according to the dope. His contract now calls for $7,000, but he has announced that with its expiration he will demand $10,000.

Cree Alone Holds His Job.

Birdie Cree is the only player on the New York American league team who held his place on the team since the opening of the season. Cree has been playing left field right along, while Manager Chance has used five men in the center garden and two in right.

REAL MERIT HAS MADE BOND'S LIVER PILLS

a household word through the S[illegible] We have spared neither time [illegible] money in perfecting BOND'S PILLS for the cure of Headaches, Biliousness, Constipation, Malaria, and similar ills. MERIT was our chief object. Not how "cheap" but how good we could make them.

Thoughtful Papa.

"I don't think your father feels very kindly toward me," said Mr. Staylate.

"You misjudge him. The morning after you called on me he seemed quite worried for fear I had not proved courtesy."

"Indeed! What did he say?"

"He asked me how I could be so rude as to let you go away without your breakfast."

Made Daddy Gasp.

A certain small Chicago laddie, quick-witted as imitative, and so given to considering himself as quite an adult in comparison with his baby brother, that he now and then talks and acts in a manner that might be the uncomprehending be judged impertinent. Not long since at the family table the boy attempted to relate a recent experience. His father, who was talking, paid no attention, and the child's anger got the better of his politeness. Raising his voice shrilly and speaking with an absolutely unconscious resemblance to his father's tone and manner under similar circumstances, he demanded:

"Paps, will you kindly close your little trap for just one moment while I get in a word!"

PANTRY CLEANED
A Way Some People Have.

A doctor said:

"Before marriage my wife observed in summer and country homes, came in touch with families of varied means, culture, tastes and discriminating tendencies, that the families using Postum seemed to average better than those using coffee.

"When we were married two years ago, Postum was among our first lot of groceries. We also put in some coffee and coffee for guests, but after it had stood around the pantry about a year untouched, they were thrown away, and Postum used only.

"Up to the age of 28 I had been accustomed to drink coffee as a regular habit and suffered constantly from indigestion and all its relative disorders. Since using Postum all the old complaints have completely left me and I sometimes wonder if I ever had them.

Name given by Postum Co., Battle Creek, Mich. Write for booklet, "The Road to Wellville."

Postum comes in two forms.

Regular (must be boiled).

Instant Postum doesn't require boiling but is prepared instantly by stirring a level teaspoonful in an ordinary cup of hot water, which makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the amount that pleases your palate, then have it served that way in the future.

"There's a Reason" for Postum.

FOREIGN WAR[illegible] TO GUARD

[illegible]TATE DEPARTMENT [illegible]ROPE WILL REVOL[illegible] NAVAL POLI[illegible]

FOREIGN WARSHIPS TO GUARD ROUTES

WAR DEPARTMENT LEARNS EUROPE WILL REVOLUTIONIZE NAVAL POLICY.

INVOLVES MONROE DOCTRINE

Great Britain to Establish Great Naval Base in the Bermudas and Germany Seeks Naval Base.

Washington.—Keen interest has been aroused in official circles here by the report reaching the state department that Great Britain is constructing a great naval base in the Bermuda islands. It is authoritatively stated that the British government has made inquiry concerning the plans of the United States for protection of the Panama canal routes, and it has been suggested that this indicates an intention to safeguard British shipping through the isthmus as is done in the Mediterranean.

Officials realize that the problem involved is a tremendous one, involving perhaps the very life of the Monroe doctrine and marking, perhaps, a complete revolution in foreign naval policy in the western hemisphere, for it is expected that if Great Britain changes her naval policy in American Atlantic waters, other European nations probably will follow suit, and while these changes may be expected in the Atlantic waters and the West Indies officials likewise realize that with the opening of the canal, the United States must contend with Japan for domination of the Pacific.

The British royal navy abandoned its naval stations in this country about ten years ago, when the United States gave up the idea of the construction of the Nicaraguan canal, but about digging the big waterway across Panama, whose approaching completion bids fair to revolutionize international relations.

Apart from its West Indian stations, the royal navy maintained stations at Esquimault, British Columbia, and Halifax, Nova Scotia.

There was once a plant to strengthen greatly the fortifications at Esquimault, overlooking the strait of Juan de Fuca, in order to make that an important base, but both these stations now have a merely nominal existence under the government of the Dominion of Canada, and are little more than recruiting stationsf or the royal navy.

SERIOUS SITUATION IN CHINA

British and French Marines Are Guarding Foreign Quarter.

Hong Kong.—The situation in Canton remains serious. The electric lights are cut off and the people are afraid of mutiny. Trains, junks and other vessels leaving the city are crowded with refugees. A siege of Canton is expected with the arrival before of General Chi-Kuang, commander of the government forces in the province of Kwang-Si, who is moving toward the city with his army. Soldiers are patrolling the streets of Canton as the police there are unreliable. Seventy traitorous soldiers were shot in that city. A reward of $500 has been offered for the head of Governor Chan of Canton.

Men with guns from British and French warships are guarding the foreign quarter of Canton, where valuables worth millions of dollars are stored. The international fleet lying off the city has been augmented by the arrival of American, German, Japanese and French men-of-war. Soldiers have been sent from Hong Kong to Canton and three naval vessels here are ready to start for that point at a moment's notice with stores and additional troops.

Explosion Kills 18 Men.

Clover City, Pa.—Eighteen men were killed and two seriously injured in a double explosion in the East Lykens mine of the Philadelphia and Reading Coal and Iron company, here, by a double explosion of gas. It is believed to have been dynamite and gas. Thirteen men died in the first explosion and five met death in the second blast after a heroic attempt to rescue the first victims. One of the rescuers escaped.

Saved 29 Persons to Save Girl.

Hammond.—Twenty-nine persons, all of Chicago, were injured when Martin Roy, a chauffeur of the autobus in which they were riding, drove into the ditch to avoid running down four-year-old Mary Banko. The bus turned over on the occupants, but with the exception none of the injuries were serious. Martin Roy was cut over the eyes and at a hospital here it was said he may lose his sight. The party was returning from a night's outing at a Lake county summer resort.

Follows Demolition of Mosque.

Calcutta, India.—The demolition of a portion of a mosque at Cawnpore to permit improvements which had been the indignation meetings to be held in many parts of India and Burma and to serious rioting at Cawnpore. A procession of natives carrying bloody rags visited the mosque and began throwing the bricks of the partly demolished edifice. An attempt to disperse the gathering resulted in a conflict with the police, who fired a volley into the crowd killing 12 persons and wounding 30.

TO BRING SETTLERS SOUTH

Southern Railway to Make Splendid Exhibits of South at Northern Fairs.

Washington, D. C.—Splendid exhibits of Southern farm products showing the alluring agricultural opportunities awaiting industrious settlers in the territory along their lines, will be made by the Southrn railway and affiliated companies (including the Mobile & Ohio, the Georgia, Southern & Florida, the Alabama Great Southern, the Cincinnati, New Orleans & Texas Pacific, and the Virginia & Southwestern), at three great expositions and thirty-five district and county fairs in the North and Middle West during the late summer and fall. This is the most extensive campaign of this character ever undertaken for attracting settlers to the Southern states and will place their advantages in the most striking way before thousands of sturdy farmers of just the type that is desired in the South.

Special exhibits will be made at the Canadian National Exhibition at Toronto, August 23 to September 8, the attendance of which touches the million mark, the famous dairy show at Waterloo, Iowa, in November, and the International live Stock Exposition in Chicago during November and December. Exhibits at district and county fairs in New York, Connecticut, Pennsylvania, Ohio, Michigan, Indiana, Illinois, Wisconsin, Iowa and Minnesota, have been arranged in four circuits, running from August 5 to late in October.

In addition to this series of exhibits at Northern fairs and expositions, the Southern railway and affiliated lines will make educational exhibits at a large number of fairs throughout the South.

FIGHTS RHINO IN ZOO CAGE

New York Central Park Keeper Is Attacked by Animal and Has Narrow Escape.

New York.—Old Smiles, the two-horned rhinoceros in the Central Park zoo, was not in the best of humor the other day. Hattie, the elephant next door, had given a long talk on woman's suffrage, and Jewel, her brother, had backed her up with a trunkful of arguments.

When Billy Snyder, the head keeper, went to give Old Smiles his annual smear, the rhino was ready for war. He did not feel any more kindly when he was roped and trussed to one of the bars.

The only entrance to the cage is a door in the back, which never has been unlocked since the rhinoceros was put behind the bars. Snyder reached the top of the cage by means of a long ladder, then lowered another ladder into the cage.

Old Smiles tugged at his ropes until he got free. The keeper jumped around the cage. He made the ladder and scampered for the top. Rhino was not to be fooled so easily. He rushed for the ladder and threw Snyder into the air, but the keeper, much to his and Old Smiles' surprise, landed on the back of the rhino.

Snyder made a jump for the ladder, and his assistant, Bob Hurton, stuck a pitchfork into Old Smiles. The animal was kept at bay until the keeper escaped. Then Old Smiles was trussed up again and his annual toilet was made, despite his protestations. He's new for another year.

STUNG TO DEATH BY BEES

Old Man Walks Into Swarming Hive and Is Enveloped by Angry Insects.

Pittsburgh, Pa.—Unknowingly because of poor sight, Jeremiah Kramer, aged seventy-two, of Wind Cap road in Chartiers township, ran into a big hive of bees which were about to swarm on a projecting beam in his wagon shop the other day.

The bees enveloped Kramer and piled onto his face and two-foot-long whiskers. The old man yelled for help and fought the bees as best he could, but he was soon blinded and helpless from their stings. The onslaught of bees soon rendered him unconscious and he was found by his son, Joshua, three hours later laying on the wagon shed floor with the myriads of bees on his head, arms and neck which were swolled to twice their natural size. Although medical aid was hurriedly summoned Kramer died.

Tipped the Plaintiff.

New York.—After the court had decided for him in a suit for $9.30 instituted by Mayor Gaynor's lawyer, Dr. George Dickson handed the plaintiff a $10 note and told him "keep the change."

Mere Detail.

The Stoojent—For the love of Mike! Can't you go any faster than this?

The Shofoor—Why, softenly. But ye see I have to stay on the car.—Cornell Widow.

Does the Work of Hundreds.

A machine has been perfected which pours any dry powder into a paper bag, folds the bag, makes a paper box and places bag and folded circular within it, pasted on the label and seals the box, at the rate of one thousand five hundred boxes an hour.

Arts Developments.

Arts and sciences are not cast in a mold, but are found and perfected by degrees, by long handling and polishing, all hands intently bent their gaze into shape.—Montaigne.

IT'S HARD TO WORK

It's torture to work with a lame, aching back. Get rid of it. Attack the cause. Probably it's weak kidneys.

Heavy or confining work is hard on the kidneys, anyway, and once the kidneys become inflamed and congested, the trouble keeps getting worse.

The danger of running into gravel, dropsy or Bright's disease is serious. Use Doan's Kidney Pills, a fine remedy for backache or bad kidneys.

A New Jersey Case

Louis Henry, 626 Grove St., Jersey City, N. J., says: "I suffered almost everything from broken down kidneys. My back was stiff and pained terribly. I was all run down. Doan's Kidney Pills gave my kidneys new life and a few boxes cured me completely."

BIRD'S TROUBLES AT AN END

Fancier's Pet, Anticipated Winner of Many Prizes, Most Effectually "Isolated."

Here is a poultry story which comes from the country. While away on a holiday a fancier who owns some valuable specimens instructed a servant—a rather new country girl—in the feeding of the birds, and gave strict directions that she was to communicate with him immediately in the event of any of them showing signs of ailment.

One day he received a letter stating that a bird of which he had had great expectations as a prize winner was unwell, and from the symptoms described the fancier concluded that it was a case of roup—a very infectious trouble. Accordingly he wired to the girl:

"Isolate bird at once. Important. Home this evening."

"Where did you put the bird, Mary?" he asked as soon as he arrived.

"It's in the coal 'ole," said she.

"You isolated it at once, of course?" he added.

"Well, I didn't," replied the girl, simply. "I got Jim to do it. 'E just gie it one whack wi' the broomstock, an' it was all over in a twinkling!"—London Tit-Bits.

IN PAIN WITH HEMORRHOIDS

Bissell, Ala.—"I was troubled for several years with protruding hemorrhoids. They caused pain of the most severe kind and some loss of blood. They were so inflamed that the touch of anything against them was most intense agony. I got no rest nights and had to have my legs and feet propped up in the bed.

"I tried all kinds of advertised cures, and I was told that an operation was the only relief. I suffered untold agony. I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. I tried it and then procured a box of Cuticura Soap and Cuticura Ointment. I was cured sound and well in three weeks' time. A cake of Cuticura Soap and two boxes of Cuticura Ointment accomplished what all else failed to do." (Signed) L. R. Cook, Nov. 12, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address post card "Cuticura, Dept. L, Boston."—Adv

Trouble Easily Got Over.

Zeuxis, the celebrated artist, of ancient Greece, had painted the cherries so true to life that the birds came and pecked at them.

Of course, the rich pork packer who had paid $500,000 for the canvas couldn't stand for that.

"Paint in a scarecrow!" he commanded, with apair of one accustomed to meet emergencies.—Puck.

Local Expert.

Summer Boarder ((just arrived from Boston)—What are the six best sellers in this locality?

Farmer Stubblegrass—That depends on whether you want to store potaters or cider in 'em.—Puck.

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv

Canaries Warn of Danger.

Canary birds are now part of the equipment of very well regulated mines. If the atmosphere is questionable the birds are carried into it, and they show signs of its effects at once.

Love may make the world go round, but sometimes it takes marriages to square it.

When a guest boasts of his memory keep an eye on your spoons.

COULD POINT TO ONE VIRTUE

Husband's Comparison of Wife's Cigarette With Himself Gave Her Opportunity for "Shot."

President A. Lawrence Lowell of Harvard said at a dinner in his honor in Chicago:

"Early marriages are the best. It is neither good for the man nor for the community that he should wait until he is twenty-eight years old before marrying."

President Lowell paused a moment and then, smiling, he continued:

"Another trouble about late marriages is that the man's habits—his bad habits—are formed, and it's hard to break him of them. You know, perhaps, the story of the cigarette?

"A man of the old-fashioned 'manly man' type—the soft, full-stomached type that drinks too much, belongs to too many lodges, and must be superior to woman in everything—this man took umbrage over his wife's cigarette, the one modest cigarette that she took after dinner, though he, of course, smoked like a chimney all day long. And so he said one evening:

"'I believe you think more of that nasty, poisonous cigarette than you do of me, your husband.'

"'Well, dear,' his wife replied, smiling and blowing a cloud, 'I can keep my cigarette, you know, from going out.'"

Slightly Adulterated.

Mandre de Fouquieres, the celebrated Parisian cotillon leader, talked to a group of reporters, before his departure for France, about the American woman.

"It is a mistake to suppose that the question of money plays an important part in American marriages," said M. de Fouquieres. "The love match is not rare. Indeed, it is much more common here than with us." Smiling, the Frenchman added:

"I believe there are few American girls who would answer as the candid New York debutante did when asked if she was marrying for pure love.

"'Pure love?' said the debutante, with a roquish smile. 'Well, not altogether. Pure love, adulterated with a little money.'"

Special Hospitals Needed.

The National Association for the Study and Prevention of Tuberculosis estimates that there are over a million consumptives in the United States, of whom probably at least one-third are unable to provide for themselves the necessary treatment at home. Most of these cases are a menace to the health of their families and associates, and should be in special hospitals. At the present time, however, even if every case were known, it would not be possible to provide accommodations for more than one in eight or ten. The removal of these foci of infection demands more and better hospital and sanatorium provision.

Alas, That Poor Egg!

"Waiter!" From the table by the window the voice of an elderly gentleman rose in accents wrathful. "Waiter!"

"Yes, sir," replied the much harassed one, hastening forward.

The elderly gentleman, overcome by his emotions, made several vain efforts at articulate utterances. Then:

"Take this egg away!" he roared. "Take it away!"

"Yes, sir," said the waiter obligingly, as he glanced wistfully at the offending article. "And—and what shall I do with it, sir?"

"Do with it?" The outraged customer rose menacingly from his chair. "Do with it?" he bellowed fiercely. "Why, wring its neck!"

Mandy's Gentle Little Hint.

"Mandy," said her mistress, "that beau of yours shouldn't wear white clothes. He is so black it makes him appear all the blacker. Why don't you give him a hint?"

"Lord, Miss Sally, you know somethin'!," said Mandy, with animation. "I dont give him ar hint, but he jes natterly ain't got sense ernuff ter take it."

"Perhaps you didn't make it strong enough.

"No'm, thet's right, maybe I didn't. I jes looks at him right hard, an' I says: Nigger, you sho do look like a black snake crawlin' out o' cream, you do!'—that's whu.' I says ter him, Miss Sally."

Tetterine Conquers Poison Oak.

I enclose 50 cents in stamps for a box of Tetterine. I have poison oak on me again, and that is all that has ever cured it. Please hurry it on to

M. E. Hamlett.

More Latitude.

"Say, Pete, why don't you leave your church and join mine?"

"What would be the advantage in that?"

"I can swear all I durn please, and you can't."

Going Away.

"You seem sad. Family going away for the summer?"

"No; the Pool."

THE BEST HOT WEATHER TONIC, GROVE'S TASTELESS Chill TONIC

The Old Standard, General Tonic. Drives out Malaria, Enriches the Blood and Builds up the Whole System.

FOR ADULTS AND CHILDREN.

It is a combination of QUININE and IRON in a tasteless form that wonderfully strengthens and fortifies the system to withstand the depressing effect of the hot summer. GROVE'S TASTELESS chill TONIC has no equal for Malaria, Chills and Fever, Weakness, general debility and loss of appetite. Gives life and vigor to Nursing Mothers and Pale, Sickly Children. Removes Biliousness without purging. Relieves nervous depression and low spirits. Arouses the liver to action and purifies the blood. A true tonic and sure appetizer. Guaranteed by your Druggist. We mean it. 50c.

Obliging Her.

The sweet young thing was being shown through the Baldwin locomotive works.

"What is that thing?" she asked, pointing with her dainty parasol.

"That," said the guide, "is an engine boiler."

She was an up-to-date young lady and at once became interested. "And why do they boil engines?" she inquired again.

"To make the engine tender," politely replied the resourceful guide.—Pennsylvania Punch Bowl.

Square Meal.

Jones, who is somewhat of a philanthropist, went to his favorite restaurant at noon for lunch.

"Say," he began, addressing the manager, "a poor fellow came to me this morning asking for food, as he said he was starving. I gave him my card and sent him to your restaurant and told him to get a good, square meal and I would pay for it. How much is the bill?"

"Fifty-five cents, sir."

"What did the poor man have?"

"Nine beers and a cigar."

HEADACHE AND BILIOUS ATTACKS Caused by Malaria removed by the use of **Elixir Babek** cure for such ailments. "Myself and whole household had suffered very much for some time with Malarial Fever. 'Elixir Babek' has cured us perfectly, so that we enjoy at present the best of health."—Jacob Eberly, Fairfax Court House, Va. **Elixir Babek** 50 cents, all druggists or by Parcels Post prepaid from Klocsewski & Co., Washington, D. C.

Its Nature.

"Would you put any reliance on an opinion that it is healthy to eat candy?

"Well, it may not be a true opinion, but it is certainly a candied one."

Important to Mothers

Motors Displace Handcars.

Motor cars for laborers have almost entirely displaced handcars on railroads. They are economical because they deliver the men at the place of operation in good condition.

Irritating Skin Troubles, so prevalent in summer, such as hives, poison oak, chafing, sunburn, eczema, etc., are quickly relieved when Tyree's Antiseptic Powder is used. 25c. at druggists or sample sent free by J. S. Tyree, Washington, D. C.—Adv.

Showed Little Abrasion.

Measurements of ball bearings on the axles of a New Jersey trolley car that has traveled about 150,000 miles in four years showed that they had resisted abrasion almost perfectly.

DOES YOUR HEAD ACHE? Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Not Addicted.

"Is there unanimity in your club?"

"Naw; nobody don't drink that brand."

You Can Stop a Carbuncle or Boil After it begins to form, by using DR. PORTER'S ANTISEPTIC HEALING OIL. 25c, 50c, $1.00.

It's when riches take unto themselves wings that they feather other people's nests.

No cat can be fooled into watching the wrong mouse hole.

Borrowers are scarce when you have nothing but trouble to lend.

Quite Superfluous.

Mrs. Ellsworth had a new colored maid. One morning, as the maid came down stairs, the mistress said:

"Emma, did you knock at Miss Flora's door when I sent you up with her breakfast?"

"No, ma'am," replied the maid, with preternatural gravity. "What was de use ob a-knockin' at her do' when I knowed fo' sure she was in dar?"—New York Evening Post.

Too Much Ball.

"Why did you move away from Chicago?"

"The doctor advised my husband to move to some town with only one team to worry about."

Certain Fate.

"I am going to get on the stage by hook or by crook."

"Oh, you'll get the hook on it all right."

The religion that makes a man take his coat off isn't the kind he makes a cloak of.

SUNDAY SCHOOL CONVENTION

The annual convention of the Chilton County Sunday School Association, which was in session Thursday and Friday at Jemison, closed Friday with a climax session full of enthusiasm over the prospect for the coming year's work.

The address Thursday by Mr. D. H. Marbury on "The Superintendent and His Work" was one of the features of the convention. Mr. Marbury's coming to the convention at Jemison was anticipated with great eagerness by workers, he being Alabama's representative on the Executive Committee of the International Sunday School Association, as well as a member of the State Executive Committee, and his able address was given close attention.

Friday the reports from the district presidents were given, and showed that two districts were up to the gold standard of the state association. The convention expressed appreciation of the work of the two districts, of which Mr. E. L. Thornton, of Mountain Creek and Mr. W. E. Thomas, of Jemison, are the respective presidents.

After the reports and a strong address by Mr. W. D. Dillard, of Mathews, State Home Department Superintendent of the Alabama Sunday School Association, an address was made by Leon C. Palmer, of Montgomery, secretary on 'Results of Organized Sunday School Work In Alabama.' He called attention to the fact the State Sunday School Association is based on the principle of co-operation, without organic union, that its conventions discuss methods of Sunday School work without touching on doctrinal or denominational differences, and that it works solely by suggestion and not by authority. In this way it is able to assist many and hinders none.

In as much as ninety per cent of all Sunday School problems are common to all denominations alike, it is good business economy to share the expense of an organization which deals with these between denominations. In this way each denomination gets the benefit of all Sunday School wisdom, of not only its own but other denominations, yet pays only a share of the expense.

In the afternoon Thursday the convention, by rising vote, pledged to bring Chilton county up to the gold standard by the next state convention. The officers of last year, with a few exceptions, were installed by W. D. Dillard and Dr. George Macon, Dean of Howard College. The next meeting was appointed to Mulberry, after which the convention adjourned. The State association was represented by W. D. Dillard, Home Department Superintendent, Leon C. Palmer, General Secretary, and Mrs. L. C. Palmer, office assistant.

Officers for the coming year were elected.

Guardian's Settlement Notice

The State of Alabama, Chilton County. Probate Court. August 1, 1913.

This day came S. L. Arledge, Guardian of Bonnie Jenkins and Alice Jenkins, minors, and files his account, vouchers, evidence and statement for Final Settlement of his said Guardianship.

It is ordered that the 23rd day of August, 1913, be appointed a day on which to make such settlement, at which time all persons interested can appear and contest the said settlement if they think proper.

Witness my hand, this 1st day of August, 1913.

B. B. DEASON, Judge of Probate.

GOV. COMER COMING

WILL SPEAK IN CLANTON; PROBABLY AT THORSBY.

A communication received in Clanton several days since from ex-Governor Comer stated that he would be glad to come to Clanton and make an address on Saturday, the 16th day of August. The letter was in reply to invitations sent him by several of his admirers in Chilton county. The date was left open for Governor Comer's convenience, and when he settled on Saturday he was notified by phone that the date selected was one of our "Good Roads" days and that perhaps some other date would be more suitable.

The Governor, always with an eye single to the advancement of the farming interests as well as to the upbuilding of the roads of the country, acquiesced at once in the change, stating that he did not wish in any way to interfere with the good work of building public roads and that he wanted to come at a time when the farmers could give him a patient hearing on the real issues of the day. No particular date has yet been set for his coming, but it will in all probability be some time during the week of August 25th. Ample notice will be given of the particular day on which he will make his address to the people of Chilton and it is hoped that he will be given a rousing reception—as he is sure to receive at the hands of Chilton voters.

It is suggested that he speak here in the morning and at Thorsby during the evening. If arrangements can be made satisfactory to all concerned.

However, announcement will be made later.

...ER WORKS AND SEWERAGE

...arted To Install Plant; ...on To Be Like Other Cities

...vided the citizens of Clanton ... opportunity soon to be ...ed to them, our town will ... with the other progress... of the state, and the ... at large; if they fail to ... opportunity when it is ..., we will continue to ... in the same old rats ... recognized throughout the ... one of the backward set... ... at a recent meeting of ... council a motion was ... and unanimously adopt... ...mit to the legal voters of ... a proposition to issue ... for the installation of a sys... ...water works and sewerage. ...ment is now under fair ..., and the citizens of Clan... ...be permitted to express ... themselves upon this most vital question.

The exact amount of the bond issue has not yet been determined; that is a detail which is now being worked out; certainly the issue will not be larger than is necessary to install the plant—a first class plant. The election will be called soon after the details have been settled and every voter within the corporate limits should avail himself of the opportunity to express his hearty approval of this measure.

Don't conceive the silly idea that a bond issue creates a mortgage upon your individual property, or that you will become personally liable for the bond issue and therefore hesitate or neglect to vote for the water works and sewerage.

Already Clanton has lost several valuable citizens by typhoid fever and deaths from other causes, which could have been avoided had the town been properly drained.

Already Clanton has spent more than half a million dollars in insurance premiums which could have been saved had she possessed a system of water works.

Already have citizens of Clanton been despoiled of property by fire which could have been saved had a water works system been in existence.

Already have many house wives become worn with age because of the drudgery of house work which could have been avoided had the thoughtful husbands, fathers and sons have insisted upon the establishment of a water works system which would have relieved the strain upon their dear ones.

There are ten thousand good reasons why Clanton should have a waterworks system; there is not a single reason why she should not have one.

Aside from the lives to be saved the money to be kept at home, the property to be protected and the convenience to be afforded, the water system is vital to the growth of the town.

Clanton is indeed favored in her location—the very best in the state—and she has every condition precedent to becoming a prosperous city, except the one absolutely necessary thing—WATER WORKS and SEWERAGE.

Capital will not come to Clanton for investment nor will desirable citizens settle here in any numbers if it becomes known that she does not own a system of water works and sewerage. They will seek other locations where these conveniences can be had; so as a matter of self preservation we must vote this water works system into existence.

The Press is extremely happy over the prospects; for four long years we have hammered in, season and out of season, insisting that water be given our town, our property owners; it claims no credit for the movement now on foot; but it will rejoice, with exceeding great joy, when the first water plug is stationed and when the sparkling fluid bursts through to quench thirst, to protect property, to save drudgery and to make happy.

We have been so persistent in our efforts that several times we have been rebuked by our subscribers; have been asked desisting them other sensational harping on a dead question. We thought otherwise and continued the game, even when it seemed all but lost, until we have convinced our readers that we were on the right track; that we were working for the best interests of the town, and now we have the satisfaction of knowing that we have won out.

Now that the sentiment is almost unanimous, don't go about croaking and prophesying the early destruction of the town; first learn what a bond issue means, try to ascertain what a water system will mean to Clanton, then shout as loud as your lungs will permit for the issuance of bonds. Don't knock; don't grumble but put your shoulder and PUSH!

The good ladies of the town can assist materially in the success of this venture; they can teach their husbands, fathers and sons what a bond issue means, what it will mean them in health and happiness to have a water system. Let them make the voters understand that they have toiled and labored uncomplainingly for all these years that now that the opportunity is at hand for relief, they shall demand relief, and that right speedily.

There'll be a great day for Clanton when she can flash to the world the news that she has installed a system of water works and sewerage.

SOIL SURVEY MAPS

READY FOR DISTRIBUTION.

The government soil survey statistics and maps are now ready for delivery to those who desire copies thereof. The pamphlet is gotten up in neat form and accurately describes all the various soils of Chilton county, with suggestions as to the best crops to be planted in the several soils. Accompanying the statistical reports is a most comprehensive map which will prove of inestimable value to those who desire to follow the suggestions of the government experts and put into the soil those grains which will bring forth most bountifully.

A card to Congressman Blackmon, House Office Building, Washington, D. C., giving your own name and address, will bring you one of these valuable pamphlets, if you write at once before the supply is exhausted.

TEACHERS INSTITUTE

PROF. E. E. SMITH OF BIRMINGHAM, MISS MAUDE KIMBALL OF MOBILE, CONDUCTORS.

The Chilton County Teachers Institute convened Monday at two o'clock at the court house in Clanton; the morning hours were devoted to the enrollment of teachers and the actual work of the Institute was not begun till two o'clock in the afternoon of Monday. The Institute is well attended, though there are not so many present as last year.

The Institute is in direct charge of Professor E. E. Smith of Birmingham, who is ably assisted by Miss Maude Kimball of Mobile.

Monday morning Prof. N. R. Baker, State Superintendent of Rural Schools, was here and made a most interesting talk to the teachers, as did also Mr. J. Sterling Moran of New Hampshire, ...connected at Tuscaloosa in charge ...the Government Soils Survey.

The Institute is proving most ...structive to the teachers as well ...entertaining.

The following teachers have ...enrolled up to the time this list was obtained from County Superintendent J. W. Mosley:

Misses E. C. Campbell, J. M. Campbell, M. I. B...., J. Wats..., Sue Jones, ...anning, Emily Middleton, Ella E. Anderson, ...Mary Davis, Addie B. Davis, ...Mary Davis, Addie B. Davis, ...Louise Jones, Maude Lee Killingsworth, Alma T. Lofstead, Manilla Littlejohn, Mary Lodge, Mc Mae McNeill, Martha J. Mims, Bessie Nix, Julia Parrish, Bertha Smith, Lucy A. Smith, Clara Soberg, Birdie Stone, Mabel A. Swan, Beulah Vance, Carrie S. Willis; Phala Belle Roper,

Messrs. Jno. H. Anderson, W. R. Baker, Wm. T. Bean, Chas. F. Campbell, H. L. Davis, J. K. T. Daniel, T. O. Dozier, I. O. Ezekial, O. R. Foshee, W. S. Green, Jno. D. Guy, Cecil E. Harris, Grady F. Harris, S. H. Herbert, J. J. Hicks, C.D. Hughes, J. A. Hunter, P. McK. Johnson, O. H. McDowell, J. C. McKinnon, Jno. S. McNeill, Edmund Manning, E. V. Marcus, W. E. Martin, H. K. Meigs, Jno. J. Mims, Jno. Z. Mims, Thos. A. Mims, O. L. Mims, J. M. Parrish, Jr., Thos. M. Parrish, W. L. Parrish, J. G. Popwell, Lee A. Popwell, W. E. Robinson, Howard Roper, W. C. Searbrough, J. H. Scott, R. A. Smith, W. L. Speer, J. L. Thomas, J. D. Weldon, G. C. Weldon, T. E. Williams, Foster B. Williams, J. L. Yates, E. R. Yeargan, and Luther M. Yeargan, a total of ninety teachers.

COMER DELAYS COMING

WILL BE HERE LATER IN CAMPAIGN.

A letter from ex-Governor Comer, and also one from Hon. Alex Garber, manager of the Comer campaign, states that Mr. Comer regrets his inability to come to Clanton on the dates heretofore suggested, but that his physicians have ordered him to take a complete rest of some days before resuming his campaign. However, he expresses the hope that he will be able to deliver several addresses in Chilton before the close of the campaign. Mr. Comer will doubtless go to the mountains of North Carolina for a few days under the instructions of his physicians, and when he returns he will be "made all over" and ready for a most vigorous campaign.

In this connection news was brought to Clanton last Saturday by Mr. T. E. Williams, Secretary to the Jury Commission, that while in Stanton last week on business a "straw vote" was taken in a certain store at that place as to the choice of those present for Governor.

Ten voters were present, including a traveling man from Birmingham; on a count of noses it appeared that the Birmingham man was for Henderson, one Stanton man for Kolb and the other eight for Comer.

This was merely a straw vote, of course, but it shows which way the wind is blowing—and will continue to blow.

DISASTROUS WRECK

Friday morning witnessed another disastrous wreck near the little hamlet of Faleko in which two engines were ditched, a number of cars demolished and traffic suspended for almost an entire day. One engineer and a fireman were badly injured, but fortunately no one was killed. Just who was to blame for the unfortunate accident has not been determined. If in fact, there was any individual fault. It seems that Faleko has a jealous lot so far as the L. & N. railroad is concerned, perhaps unreasonably so, but every time there is a wreck there always appears to be some active system. Clanton, during the days of high water, was the scene of a wreck, this time a long freight train, and a large number of bound trains which congregated below Faleko began to pour into town, making things right lively for a time at and around the depot.

A number of passengers from Birmingham and other points going to Montgomery to attend the funeral of Maj. W. W. Screws, were detained here for several hours. They all took their delay with good grace, however, knowing that the railroad officials were doing everything possible for the immediate resumption of traffic.

DEATH OF MRS. ADAMS

Mrs. Ann M. Adams, widow of the late Samuel Adams, a pioneer of Clanton, died at Asheville, N. C., on Wednesday last, 6th inst., and was buried last Thursday, Aug. 7, at Elmwood cemetery, Birmingham.

Mrs. Adams was a former resident of Clanton, for about fifteen years, during the town's earlier days, and was well known among her neighbors for her charitable acts and spiritual life. She will be mourned by many friends in this community. Four children, Wm. M., Samuel, David B. and Miss Anna B. Adams survive their mother.

NISS LITTLEJOHN PASSES AWAY

Saturday afternoon Miss Littlejohn, the seventeen year old daughter of Mr. Floyd Littlejohn, was taken to Birmingham to undergo an operation for appendicitis, but the operation had been delayed too long for the skill of the physicians to restore her to her wanted health. Sunday afternoon she passed away, her body being brought to Clanton Monday for interment.

INDIAN IS REGISTRAR

WASHINGTON, August 2—President Wilson today withdrew the nomination of Adam E. Patterson, of Oklahoma, a negro, to be Registrar of the Treasury. Patterson declined the appointment and the President nominated instead Gabriel E. Parker, of Oklahoma, a Choctaw Indian, recommended by both Senators from Oklahoma and the Congressional delegation from that state.—Ledger.

MAD DOG KILLED

CHILD OF MR. GIP MELTON BITTEN HEAD SENT TO MONTGOMERY FOR EXAMINATION.

Elsewhere will be found a local squib anent a rabid canine which Capt. Newt Riggins attempted to kill. This same dog, supposedly, instead of taking a southward direction as was thought, circled around and went northwestwardly from Clanton. At Mr. Gip Melton's home the dog bit one of his children severely before the brute was killed.

The head of the dog was sent to Montgomery Tuesday morning for microscopic examination to determine whether or not it was infected with rabies.

COMER SURE TO SWEEP CHILTON COUNTY

J. O. Middleton, of Clanton, former member of the legislature, and a bull moose leader, stated, when asked concerning the political situation: "Of course the people are interested in the race for the governorship. It appears that former Governor Comer will sweep the county in the democratic primary."—Ledger.

BABY SHOW

On the 28th day of August in the afternoon, there will be a Baby Show at the Court House, under the auspices of the Methodist Ladies Aid Society.

All the babies in and around Clanton, are invited to take a part in this grand affair. There will be a prize for the most popular baby under two years of age, there will also be a prize for the most popular baby under five years of age.

There will be four little girls to solicit votes for these babies at ten cents for each vote, and the little girl who gets the most votes will receive a prize.

Everybody wishing to enter a baby for this show will please report to Mrs. E. A. Matthews, or Mrs. J. H. Middleton, right away.

Mr. Tom Jones brought to Clanton Tuesday the largest watermelon of the season; it was of the Mitchell variety, the seed having been obtained from the Les Broadhead melons, and weighed seventy one pounds raw.

The Quality Shop

The Place Where Your Money Gets The Answer.

¶Drug Sundries of all descriptions; everything fresh; all guaranteed. We have the largest and best selected stock of Proprietary medicines in the entire county. We selected with care, bought for cash and consequently can give you better prices than elsewhere.

VanDerveer Drug Co.

JINX SEASON FOR FOUR POPULAR PLAYERS

Ed Walsh, White Sox Spitball Artist.

The luckless pair of digits hitched on to the century numbers of the present year record a jinx season indeed for four of the finest that ever donned the great game's spangles. 1913! Baseball history will long recall the hoodoo season for the waning four.

Wagner, Walsh, Lajoie, Mullin! Names to conjure with in the last decade of baseball achievements—four gigantic figures against the background of the game's improvement—veteran performers whose prowess seemed never dimmed by fleeting time! Has 1913 dimmed it indeed?

In the case of one of the immortal four at least 1913 has written "finis" on his big league career. Clark Griffith released George Mullin to Montreal, and the hero of three Detroit world's championships passed forever from the big tent.

Mullin has for years been one of the greatest stars of the younger league. He broke into the limelight in 1901,

George Mullin of Montreal.

when he was found to be signed with both Detroit and Brooklyn. Ultimately, the young twirler decided to cast his fortune with the Tigers, and it was in the ranks of the Detroit club that he fought his way to fame.

Under Jennings, Detroit swept to three American league championships, and George Mullin was one of the mainstays of the hurling corps in every case. Mullin, Donovan, Summers, Killian, Stowe, Willett, Winters—scattered like autumn leaves. And Mullin is the last to go.

Mullin teamed with Detroit through the richest lean years and early in the present season it was seen that he, too, was doomed. Detroit seemed down on him, and Griffith refused to give them. Consequently, Mullin went to Washington, where it was reported Griff wanted him for his ability in 1912 to beat Philadelphia and Boston. But Mullin would not hold either this year, and now he has gone to the minors. Mullin's 1913 history is a replica of that of Big Barney Pelty, whom Griff took by waiver from the Browns last season.

In Big Ed Walsh the American league may lose one more of its great stars. Is Walsh weakening? So his teammates and the scribes who have watched him say. Teams that have batted against the old Sox wonder say that his famous spitter does not break as fast as of yore. And Walsh may be done. Years of the terrific strain of his fast ball and spitball delivery have worn down a once invincible wing.

Walsh has been of little assistance to the Sox this year. Considering how grandly the veteran White and young Russell from this league are going, Callahan might be pushing Mack hard were Walsh the old Ed. But he rounded to slowly during the spring training, and in his few games was batted hard. His arm then was found to be impaired and he was given a long layoff. Callahan declared the other day that Walsh was coming back better than ever, but the skeptical shake their heads.

And yet Walsh, like Mullin, had a wonderful year in 1912. And his work in the fall city series on which alone Comiskey grabbed the Chicago championship can never be forgotten.

But if Walsh has worn down, the Sox will look long and far before they find his like, "hailed as a great game's hero, crowned with a great game's crown."

The cases of Lajoie and Wagner are still too fresh in mind to merit repetition. Neither may be done. Each of these Vikings of the stick is still high in his league's batting and in enough games to warrant the certainty that their stickwork is unimpaired. As far as Lajoie is concerned, it is claimed that the great Frenchman has been so badly affected by injuries that he has been slowed down so phenomenally that he will never again be a great fielder. For several seasons Lajoie has failed to cover the ground he formerly traversed. And to those who recall how the great Clevelander took the hard chances, this merely means that he had gone back to ordinary fielding. It is doubtful if there has ever been a superior to the big Blue on his bag in his prime. Lajoie is still with Cleveland and his fellow players are credited with the belief that the recent trouble with Birmingham has been patched up.

Wagner himself will not admit that he is done for, but the Teuton's leg is not as it should be.

Kommers Hits Hard.

Fred Clarke has apparently secured a hard-hitting outfielder in his recruit Kommers. His first few days with the Pirates were sensational and he looked like a find. Some years ago Kommers was with Cap Anson's Colts in the semipro field there. He formerly lived on Halsted street, and has many friends in Chicago who are anxious to see him make good.

Tallest Battery.

Lexington is the Ohio State league claims the tallest battery pair in baseball. Catcher Hah Dawson, stands six feet five inches, and Pitcher Eli Monroe stands six feet six. The latter is only twenty years of age and still growing. Dawson always catches him, for it is said no other catcher can hold his speed.

GUN FOR PITCHING BASEBALL

Not Intended for Use in Game, But to Give Batters Opportunity for Unlimited Practice.

A baseball pitching gun invented some years ago by Prof. C. H. Hinton of Princeton university is described, with illustrations, in the Popular Mechanics magazine. This gun, resembling a cannon in appearance, and hurling a ball by means of gas shot into its breach from an ordinary repeating rifle, was not designed to take the place of a pitcher in a game, but to give batters an opportunity for unlimited practice.

This gun was successful in that it would actually throw curves and throw them accurately, but there was one defect that could not be overcome, due to the "human equation." The gun never failed to inspire fear in the batter. That the batter would know just when the ball was coming, an electric wire was run to the batters' box, and by stepping on the plate the circuit was closed and the blank cartridge in the rifle fired. The average batter would step on this plate and then jump back about four feet, letting the ball go by. Another drawback was the fact that the hot gases soon acted on the covers of the balls and made them as hard as bricks.

An almost unlimited range of speed was obtained by making the tube connecting the breech of the gun, into which the rifle was discharged, telescopic. The shorter the tube, the greater the force. Rubber-faced curving fingers, adjustable to any plane about the muzzle caused the ball to curve, "out" or "in," or "drop," different sets of fingers giving different degrees of curve.

ELECTROLIER FOR BALL PARK

Entrance to Ebbets Field to Be Illuminated by Elaborate Fixture Weighing 400 Pounds.

The entrance to Ebbets field, the home of the Brooklyn ball club, is to be illuminated by an appropriate electric light fixture which will hang from the ceiling in the center of the rotunda, says the Popular Electricity. The fixture is supported by heavy brass links from the ceiling and each light globe, of which there are six-

Baseball Electrolier.

teen, is suspended from the end of a baseball bat. The bats are of sheet brass and are constructed in all details to match the size of the bats used by the National league. The globes enclosing tungsten lamps are of opal glass decorated with seams and stitches to conform to the appearance of the standard baseball. The entire fixture weighs 400 pounds.

NOTES of the DIAMOND

Miner Brown is earning his feed for the Reds.

* * *

Charlie Stuart has been recalled by the Indianapolis club from the Springfield, Ohio, club.

* * *

Rasping sound is from a baseball magnate who has cornered a star recruit rubbing his hands.

* * *

George Maisel objected so to going to the Tri-State league that Baltimore decided to give him another chance.

* * *

They say that unless Joe Jackson gets a hit the first time up he is virtually useless with the stick all afternoon.

* * *

Umpire Bill Klem is a neat and tidy person. He pays close attention to the home plate to see it is kept clean and white.

* * *

Manager Connie Mack believes Bob Shawkey, the youngster who was purchased from Baltimore, will make good in the big show.

* * *

Five players in Ban Johnson's circuit have smashed out 100 hits or more, while but one, Jake Daubert, has reached that mark in the National.

* * *

Pittsburgh has recalled Pitcher Albert Mamaux from the Huntington team of the Ohio State league. No wonder, he pitched a one-hit game the other day.

* * *

Bobby Bescher's failure to keep up his base-stealing record this year is generally accounted for on the theory that he has slowed down.

Practically all the [illegible] Pittsburgh Post Office [illegible] while that town is [illegible] carried as a member of the Ohio State league it is in direct violation of the [illegible]

ENVOY LIND ENTERS GEN. HUERTA'S LAIR

SPECIAL REPRESENTATIVE OF U. S. HAS ARRIVED IN CAPITAL OF MEXICO.

WASHINGTON WAS UNEASY

United States to Wait for Lind's Report Before Taking Any Action Whatever.

Washington.—John Lind, personal representative of President Wilson, to investigate the Mexican situation, arrived safely in Mexico City according to advices received at the state department from Charles O'Shaughnessy of the United States embassy. Secretary Bryan remained at his desk until long after midnight to receive the news.

News of the safe arrival of Mr. Lind with his wife and party in the Mexican capital followed several hours of suspense. The complete absence of any information of the progress of the party from the time it left Vera Cruz added to the uneasiness, which was heightened by vague rumors of attacks on Mr. Lind and his family and associates.

President Wilson had retired when word of Mr. Lind's safe arrival was received, and he was not awakened. Secretary Bryan remained at his desk until 1:30 p. m. anxious awaiting some report from the embassy at Mexico City. When it finally came it proved to be merely a terse announcement of the arrival of the special envoy, coupled with the announcement that he and his party were safely quartered at the Hotel Inscartain.

With the arrival in Mexico City of John Lind, personal representative of President Wilson, administration officials declared that no further steps would be taken in carrying out the policy of the United States toward Mexico until Mr. Lind had made a careful study of the general situation there.

Mexico City.—Students and laborers estimated to number one thousand paraded the streets of the capital carrying banners as a token of their approval of President Huerta's stand against accepting mediation by the United States.

$150,000,000 TO MOVE CROPS

Treasury Department Stands Ready to Triple Original Amount.

Washington.—The $50,000,000 of federal funds about to be deposited in the national banks of the West and South to assist in moving the crops will be increased to $150,000,000, if necessary. The desire of the government to mobilize all the needed cash of the public treasury in the agricultural belts of the country to avoid the money stringency characteristic of the crop moving period, was communicated to bankers of the central West at a conference with Secretary McAdoo and Assistant Secretary John C. Kelton Williams, called by the treasury department to make arrangements for the distribution of the big sum.

While the representative financiers, fresh from the market centers of the Middle States, welcomed the prospect of the proposed deposits, the concensus of opinion, it was stated, seemed to be that $50,000,000 would be ample to meet the situation.

The dominant tone of the bankers' expressed convictions was, the treasury department has announced, that business conditions were good, but that the promised deposits would relieve the usual strain.

Death Summons Leading Democrats.

Washington.—Committees to attend the funerals of two members of the Democratic national committee were named by Homer S. Cummings, vice chairman of the committee. Clark Howell, Georgia; William D. Jelks, Alabama, and William N. Kavanaugh, Arkansas, will represent the committee at the obsequies for R. E. L. Mountcastle, committeeman from Tennessee, who died at Knoxville. Those selected to attend the funeral of Committeeman Thomas J. McCue of Colorado, who died in Denver, are Martin J. Wade, Iowa; P. L. Hall, Nebraska, and William P. Sapp, Kansas.

Isthmian Waterway Nears Completion.

Washington.—Latest reports from the canal zone announce that as the result of prospective substitution of dredges for steam shovels in the excavation of the famous Culebra cut, the canal may be ready for shipping by next December. Even earlier than that, light draft vessels are likely to be passing through the waterway, for as the greater part of the canal prism already has been cut to its final depth, small vessels probably can navigate it safely within a few days after October 10 next.

Police Quiz Suffragettes.

London.—The third attempt of suffragettes, under command of Sylvia Pankhurst to storm Premier Asquith's house in Downing street by storm failed when the militants [illegible] by police [illegible] Pankhurst [illegible] tube. ALABAMA SENATOR DIES IN WASHINGTON

SENATOR JOSEPH FORNEY JOHNSTON SUCCUMBS TO ATTACK OF PNEUMONIA.

ILLNESS WAS VERY BRIEF

Came As a Surprise to Friends and is the Occasion of Widespread Regret.

Washington. — After an illness of ... days, Senator Joseph F. Johnston of Alabama, died in his apartments in the Brighton. Death was due to pneumonia. The senator had been failing health and had not attended sessions of the senate for a week. He had been confined to his apartments most of the time, but his ailment was not diagnosed as pneumonia until ... a few days.

Birmingham, Ala.—Captain Joseph ... Johnston, for many ... was prominent in financial and political circles of Alabama. He was honored by the highest gift of the people of the state.

Born in North Carolina, Lincoln County, in 1843, he was the son of ... William and Nancy (Forney) Johnston. He was attending high school when the war broke out. He served

JOSEPH F. JOHNSTON.

... the Confederate army four years, ... in a sa private, and came out ... captain, being promoted rapidly. He ... much service, being wounded four ...

After the war he moved to Dallas ... and practiced law in Selma, ... there from 1866 to 1884. He ... to Birmingham during the latter ... and made rapid progress here. ... was president of the Alabama ... National Bank, finally acquired by the ... American Trust and Savings Bank. He ... with the bank ten years and be... prominent in financial circles.

He was first president of the Sloss ... and Steel Company, which finally ... the Sloss-Sheffield Steel and ... Company. He was Governor of ... from 1896 to 1900 and was ... United States Senator August ..., 1907, for the unexpired term of Ed... W. Pettus, deceased. His term ... in 1909 and he was re-elected. ... was a candidate for re-election at ... time of his death, his term expir... March 3, 1915.

He was for years at the head of the ... State Executive Committee and was prominent in the politics of the state.

Senator Johnston is survived by two ... General R .D. Johnston, who ... now on a trip at Fort Dover, On..., Canada, and Bartlett S. Johnston ... Baltimore, and one sister, Mrs. A. ... Calloway, who is with the widow ... Dr. William Johnston at Morgan..., N. C. Three sons also survive, ... Johnston, of Birmingham, and ... and William Johnston of ... Mrs. Johnston, the widow, ... survives.

LESS TENSION IN MONEY

Improvement in Securities — Cotton Crop Promises as a Whole Excellent.

New York. — Bradstreet's review of trade says:

While some irregularity still pervades trade crop and industrial reports of business for fall trade seems rather slow to get under headway, the underlying general latent tone, except in sections where early favorable feeding crop has failed, is still highly optimistic.

Securities markets at home and abroad show an improving tendency, the money situation reflects less tension, the country's wheat yield promises to be a bumper one; cotton crop promise as a whole is excellent; pig iron is more active at higher prices; the tariff debate though dragging still moves toward its close; the railroads are busy moving the first of the country-wide large crops and export clearances of this wheat are liberal.

There are enough spotty features in the prospectus to prevent conservative management of business affairs from being rashly abandoned under a strain.

Business failures for the week ending August 7 were 263, which compared with 221 in 1912.

Wheat, including flour, exports from the United States and Canada for the week aggregate 6,681,000 bushels against 2,740,125 bushels last year.

New York. — R. G. Dun & Co.'s weekly review of trade says:

Confidence holds sway. Optimism in the west and south has been tempered somewhat by the damage to corn, although it is the opinion prevailing that much of the loss in that cereal will be offset by the gain in wheat.

Generally considered, agricultural prospects continue promising while the purchasing power of the farming community will be enhanced by abundant harvests and remunerative prices fo rthe leading staples on the whole.

Current trade reflects the usual summer quietness, yet encouraging reports outnumber those of an opposite character.

Most statistics indicate expansion, foreign commerce being larger than a year ago, and railroad earnings for July exceeding 1912.

A slight increase in the volume of new orders is apparent in iron and steel, but consumers are buying cautiously. Preparations are being made for fall business in dry goods.

Failures this week numbered 265 in the United States against 25 last year and 31 in Canada compared with 20 a year ago now.

TWO TOWNS DESTROYED.

Earthquake Shock Hits Two Peruvian Towns.

Lima, Peru. — News reached here that an earthquake shock destroyed the Peruvian towns of Caraveli and Quicacha. Thousands of the inhabitants were rendered homeless, and extended relief measures will be necessary.

Caraveli is a city of 4,000 inhabitants in the State of Arequipa, 130 miles northwest of Port of Mollendo. Quicacha is a smaller town in the same state. The whole district is subject to frequent earthquakes and most of the houses and public edifices are built to resist shocks.

TO QUARANTINE LEPER.

Disease Contracted in Philippines While Guarding Colony.

St. Louis, Mo. — When George Hartman applied to a local hospital for treatment of a skin disease he was found to be a leper. He said he contracted the disease while acting as guard over a leper colony in the Philippines.

He said if they sent him down the river to keep company with a Chinese leper, he would kill the Chinaman and then himself.

Extravagance Caused Downfall.

Paris — Extravagant living and speculation in the silk trade were declared tot have caused the downfall of Armand Duperdessin, who was arrested on the charge of fraudulently raising millions of dollars for the extension of his aeroplane factory. M. Duperdessin's liabilities amount to $6,000,000 whereas his assets are given at $2,000,000.

To Complete Investigation.

Washington. — For the purpose of completing its investigation of the telephone situation throughout the United States the interstate commerce commission ordered telephone companies doing an interstate business to furnish the commission with a complete history of their business affairs. The returns to the circular must be made by October 1.

Packet Sinks in the Mississippi.

Vicksburg, Miss. — The packet Peters Lee struck a barge and sank at Lake Providence, La., when backing away from the landing. Although a large hole was torn in the big steamboat's hull and she sank rapidly all on board were taken off and easily reached the nearby landing in safety. Captain Stapleton, when making his report of the accident to the local agent of the Lee line, said that the boat and cargo would be lost. At that time only a small part of the vessel showed above the water.

WOMAN TOOK FRIEND'S ADVICE

And Found Health in Lydia E. Pinkham's Vegetable Compound.

Windom, Kansas.—"I had a displacement which caused bladder trouble and I was so miserable I didn't know what to do. I suffered from bearing down pains, my eyes hurt me, I was nervous, dizzy and irregular and had female weakness. I spent money on doctors but got worse all the time.

"A friend told me about the Pinkham remedies and I took Lydia E. Pinkham's Vegetable Compound and was cured. I cannot praise your remedies enough for I know I never would have been well if I had not taken it."—Miss MARY A. HORNER, Route No. 2, Box 41, Windom, Kansas.

Consider Well This Advice.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for nearly forty years proved to be a most valuable tonic and invigorator of the female organism. Women everywhere bear willing testimony to the wonderful virtue of Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Box 902, Lebanon, Tenn., Cedarcroft Sanitarium

Exact Statement.

Some one has said that the man who laughs is the man who is secure in superior information, wisdom, wit or sophistry. The naivete of the Sudani supplies plenty of food for this kind of laughter.

There is the story of a telegraph clerk in an outlying district of the White Nile who, finding the desolation upon his nerves, telegraphed to headquarters: "Cannot stay here; am in danger of life; and surrounded by lions, elephants and wolves."

The hard-hearted operator at the other end wired back: "There are no wolves in the Suran."

He received a second wire: "Referring my wire 16th, cancel wolves."—Youth's Companion.

IN MISERY WITH ECZEMA

Franklinton, La.—"About four years ago my face broke out in little red pimples. At first the eczema did not bother, but finally the pimples began itching and burning and then there came little raised places. I suffered untold misery. I scratched them until they bled and I could not sleep at night. I was ashamed of my face and I could not bear to touch it.

"I tried different remedies without result until I tried Cuticura Soap and Ointment and in six weeks they completely cured my face. That was nine months ago, and no sign has appeared since." (Signed) Mrs. Leola Stennett, Dec. 14, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Success demands sacrifice. Two men set out to achieve fame. One succeeded. The other lived.—Louis Horowitz.

If you would hit the target of success you must aim before you shoot.

HIRED MAN KNEW THE GAME

His Dexterity on First Base Surprised the Youngsters Until They Learned More of His Career.

In the American Magazine Hugh S. Fullerton writes an article entitled "The Making of a Big Leaguer." It is the story of one of the greatest ball players in the United States as told by himself to Mr. Fullerton. This player was a country boy and, of course began to play the game early. He tells the following story about an incident of his boyhood:

"Father had a hired man named Ned, a tall, quiet fellow with a pair of blue eyes that seemed always about to laugh, but seldom did. He had been with us a year. He got drunk periodically, and after each spree father hunted him up and brought him back to work. We asked him to play with us, and he laughed and said he reckoned he would try to play first base if 'paw' would let him off. I fixed it with father, and Ned played first barehanded making catches and stops that filled us with astonishment. Also he made five home runs, two into the railroad pond and three into the barn lot back of left field. Walking home that evening he told me he had played ball professionally, yet it was not until two years later that I learned he once had been a famous outfielder with a great team."

Changes Her Mind.

"I used to think Gus Simpson was a nice young man, but I just hate him now."

"Why, what has he done?"

"He treated me shamefully."

"In what way?"

"Why, the other evening at a party I said to him: 'Let's play the old game of "Questions." If I say "Yes" or "No" to your questions, I owe you a box of gloves; and if you say "Yes" or "No," you'll give me a box.'"

"Then what?"

"Well, after the party he took me home and all the way there he talked as sweetly as could be about love, and that man should not live alone and all that, and when we got to the front gate he said, 'Fannie, will you marry me?' I, of course, answered, 'Yes,' in a suppressed voice."

"And what did he do then?" inquired her listener, eagerly.

"He just chuckled and said, 'You've lost, Fannie. I take No, 9s. Then laughed with all his might—that's what he did."

No wonder she hated him!

New Name for Bungalow.

A carpenter contractor had been figuring on a small house for a prosperous European-American workman in an outlying district. "Come up to my office," he said to the prospective patron, "and we will look over some plans in a book I have." The young man came to the office and spent some time looking over the plans with the contractor, who finally inquired: "Have you thought anything about the kind of a place you wish to build? What do you think of a nice cottage?"

"I do' know," replied the young man, "but I think maybe we lika have nice bunghole."—Youngstown Telegram.

To Cure Sore and Tender Feet.

Apply the wonderful, old reliable DR. PORTER'S ANTISEPTIC HEALING OIL. 25c, 50c, $1.00.

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

"He was a stranger and they took him in;" afterward he took them in.

The Chilton County High School is within reach; will we stretch out our hands and pluck it?

These do be road working days. Where's your overalls and why aren't you out doing your part?

Think bond issue. talk bond issue, dream bond issue, vote bond issue; that's the way to get a system of water works and sewerage. Let none sleep on this proposition.

New York state has impeached its Governor, Wm. Sulzer, and the Senate has refused to seat Clayton —verily these be days of political turmoil to be sure.

Get in behind that water works and sewerage proposition. PUSH, push HARD! Talk better roads, water works, sewerage. Kill off flies, skeeters and let's live forever.

Now if Clayton sticks Alabama will have two senators the equal of any other sovereign state; let it be hoped that the senate will not wrangle over technicalities but accord Mr. Clayton a hearty welcome in this the most august law-making body of the world.

Today you ought to be working the road even if you do live in the city; are you on the job? The Governor and other State officials are doing so, are you better than they? Help our country folks, they help you when you call upon them—frequently before you call.

If the Governor has the legal right to appoint a successor to Senator Johnston it will save the state much money; if, however, he has no legal right to do so, a special election without the calling of the Legislature to authorize it and to prepare the necessary machinery for holding it, would be as money spent in trying to locate Lacy—foolishly spent.

The state has spent thousands of dollars with detectives, trying to locate Lacy, yet he is as far from being located now as on the day he absconded; it is now to spend a large amount refurnishing the Senate and House but it has no money to pay for the return of fugitives from justice who are in jail awaiting return to the scene of their crimes!

Governor O'Neal on Tuesday named Congressman Clayton of Eufaula as senator to succeed the lamented Jos. F. Johnston. A most excellent appointment; Alabama is to be congratulated upon Governor O'Neal's selection; O'Neal has shown great wisdom in his choice. Mr. Clayton is amply equipped for the dischage of the responsible duties developing upon him.

After all we fail to see where Seed scored so heavily on Comer either at Brent or at Tuscaloosa. He had the crowds with him to be sure, but that was to be expected; it was Seed's dung hill and any rooster can crow in his own back yard. It isn't the cheering and the hooting that counts, but the votes and that's the things Comer will get even if he doesn't get the cheers.

While, perhaps, we would have given the appointment to Mr. John B. Knox of Anniston because of his eminent fitness for the place and his untiring labor for Alabama democracy, and because we know John Knox personally and love him, we have no criticism to make of O'Neal's choice of Clayton except in one particular:—Clayton was chairman of the judiciary committee in the House, a most important position, and we would have hesitated somewhat to take a man of Mr. Clayton's calibre away from such a committee to fill a new appointment where he will have to "begin all over again," However, Mr. Clayton will not be long in making himself recognized in the upper branch of Congress.

It is not a desirable thing to contemplate but possibilities must sometimes be taken into consideration. No man has a lease on life that extends longer than the breath he now inhales:—In the very midst of life we are in death. Suppose then, that the senate should refuse to accord Mr. Clayton his seat under the appointment? Suppose again that Bankhead should suddenly expire? Suppose lots of contingencies, any one of which might happen; what would Alabama do without a law for the selection of a senator? Ought not Governor O'Neal to provide against the repetition of just the thing which has already happened? Mr Bankhead has no assurance of living longer than others, nor has Clayton. We hope they will live to represent Alabama for years yet to come, but they may die any moment. Alabama should provide immediately against any such possibility.

The Governor will have to call an extra sesssion of the legislature anyway to provide machinery for the election of a senator at the approaching primary; this cannot be avoided whether O'Neal desires to avoid it or not; would it not, then, be wise for him to call that exta session NOW, immediately, so that in case Clayton is not given his seat an election, or appointment may be provided for by the legislature? It will not cost more now than later and it is an expense which must be incurred. Let the governor go on with the good work; let him assemble the legislature at once and settle all controversy, all doubt, all speculation and at the same time provide what will be absolurely necessary in the near future.

One supposition:—The democratic majority in the senate is exceedingly slim; suppose another death should occur among the democratic senators from a state which has not provided election machinery? Suppose again some high trailff Czolgosz should get busy? In the event Clayton is not seated by reason of irregularity or conflict with the seventeenth amendment others who are appointed from other states could not be seated for the same reason. What then? But there are too many suppositions to be figured with, too many contengencies to contemplate. The thing to do is have the legislature meet NOW; to have all state legislatures meet which have not already arranged for ad interim appointments and elections and construct appointing and election machinery. Wh... if a Gitteau should get on the ... path just a few days before the f... nal vote on the tariff? ... whats the use—supposing?

Alabama politics were never ... such a tangle as at present; Se... tor Johnston's death has preci... tated a discussion upon ... which even our best lawyers ca... agree; and not only our lawye... but those of national prominen...

END OF SEASON SALE

J. Damsky Announces Tremendous Price Cutting Sale to Begin Saturday, Aug. 16th, 1913

One week is being spent in elaborate preparations for this long to be remembered Saving Event. A systematic reduction will be in vogue all over the house, in both Dry Goods, Notions, Etc., and Groceries. Our reputation in this County as a Bargain Giver and for Fair and Square Advertising should relieve any doubt in your minds as to the genuineness of this Sale.

Our logical way of thinking should appeal to your good judgment. Realizing as we do, that the present seasons merchandise, carried over until next season, would deteriorate in value, be less attractive and also, we would lose amount invested and use of money, etc. For this reason and only this we are throwing this entire stock on the mercy of ye buying public. In these reductions (a sample only of which we quote below) the cost price has simply been ignored. We are blind to all thoughts save one: This stock MUST be sold!! We can't afford the expense to carry it over.

Let us tell you in plain and emphatic terms that no man, woman or child can afford to miss this opportunity.

Plenty of crisp new merchandise, such as Skirts, Waists, Muslinwear, Gents' Furnishings, Clothing, Shoes, Hats, etc., will be conveniently arranged for easy choosing.

Remember we expect you to be on hand SATURDAY, AUGUST 16th, and as many days thereafter as you can during the seven days.

SALE LASTS SEVEN DAYS ONLY

We must make room for Fall Stocks which are arriving daily

PRICES ——— PRICES ——— PRICES

These prices cannot be matched in Alabama. They are only a thimble full of the hundreds of values offered.

J. DAMSKY, Maplesville, Ala.

FOSHEE TWO STORY BRICK BLDG.

Sale Opens Rain or Shine August 16th, 1913

LOCAL & PERSONAL

Miss Maggie Martin, an attractive young lady of Maplesville, has accepted a position with Dr. J. V. Smith.

Miss Lottie Louise Plant of Birmingham is the charming guest of Miss Alma Jones.

Mr. David Vines, Carrier on Route Five, broke the record last month; besides an extra heavy route which he carried out he returned with thirty-seven registered letters and post office orders for more than nine hundred dollars. That's going some for a country mail route, isn't it?

Miss Birdie I. Robinson, a most charming beauty of Auburn, who is the head of the Alabama Girls' Canto Club, was in Clanton Tuesday and made quite an interesting talk to the teachers of the Institute in the interest of that Club.

Sometimes the symptons of kidney or bladder trouble are so plain no one can mistake them. Backache, weak and lame back with soreness over the kidneys, sharp pains, rheumatism, dull headache, and disturbed sleep, are all indications of a trouble that Foley Kidney Pills will relieve quickly and permanently. Try them. Alred Drug Co.

A number of citizens interested in the building of the road from Clanton to the Dam made a tour of inspection Tuesday and report the road in prime condition. More next week about this particular road.

Miss Lena Downs, who is connected with the record department in Judge Deason's office, is now taking her vacation; during her absence Miss Grace Williams is acting as record clerk.

Mr. W. A. Gulledge of Verbena was here Monday attending Commissioners' Court.

Judge Deason returned Saturday evening from Auburn, much pleased over the lectures and demonstrations made at the agricultural college.

My Trouble began with a lame back

J. L. Hackl, 915, Eighth St., Lincoln., was recently cured of a bad case of kidney trouble that started with a lame back and says: "I am certainly thankful in getting a cure of my kidney trouble by using Foley Kidney Pills." Try them yourself. Alred Drug Co.

A letter received from Mr. Barney Roberts states that and his many bride are enjoying the sea breezes and baths at Wrightsville Beach, N. C., where they will remain for some days.

Misses Annie Ree Milner and Mary McMillan of Columbiana are handsome guests of Mr. and Mrs. John Q. Wade.

Capt. Newt Riggins discovered a mad dog hovering around his home last Monday, but before he could secure a gun to dispatch it the brute had left, going in a southerly direction towards Cooper. Citizens in that neighborhood were notified by phone.

Misses Willie B. Harris and Lula Jones, two most attractive young ladies of Plantersville, are the guests of Miss Rubye Gore.

Remarkable Cure of Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, but getting worse all the time. I was unable to do anything and my weight dropped from 145 to 126 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used one bottle of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by Alred Drug Co.

Miss Lillian Gore, who had been the charming guest of Miss Rubye Gore for the past ten days, returned to her home at Centreville last Monday.

Miss Cora Baldwin of Montgomery is in Clanton on a visit to her sister, Mrs. E. C. Popwell.

Maj. Buck Hart left Monday for a few days visit to his parents at Maplesville.

Miss Bessie Hayes has returned home from a visit to relatives in Birmingham.

When it comes to shooting 'em in fancy neckwear for the latest it'll pay you to see Higgins, the Jeweler's line of imported ties. Adv.

Good Reason for his Enthusiasm

When a man has suffered for several days with colic, diarrhoea or other form of bowel complaint and is then cured safe and well by one or two doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, as is often the case, is natural that he should be enthusiastic in his praise of the remedy, and especially is this the case of severe attacks when life is threatened. Try it when in need of such a remedy. It never fails. Sold by Alred Drug Co.

Mr. and Mrs. H. T. Pipes and children returned Wednesday morning from a most pleasant visit of two weeks to relatives in Kentucky.

Mrs. McMorries desires her patrons to know that her school will open on Thursday morning, September 11th, and hopes that her friends will communite with her with reference to pupils.

Mr. F. L. Immer of Atlanta was in Clanton Wednesday, visiting the two local news plants in the interest of the Keystone Type Foundry of Philadelphia.

How The Trouble Starts.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowelr regular and you will avoid these diseases. For sale by Alred Drug Co.

Mr. Will J. Armstrong is again back in the ministerial harness, he having accepted a call to Providence church in Precinct Sixteen where he will act as pastor, preaching every first Sunday.

Mr. Frank Palmer has purchasd a five-passenger touring car and will put it in commission between the hotel and the Coosa river dam for regular passenger service.

WANTED—Young men and women to become Telegraph Operators. Draughon's Business College, Montgomery, Ala., can qualify you in 60 to 90 days. Positions secured for students. Write Telegraphy Dpt. for full particulars.

A series of meetings will begin at the Methodist church next Wednesday night and will continue for several days at least—just so long as interest in the meetings will warrant the pastor to continue them. It is hoped that all who can will attend each of these services, both morning and evening.

Editor Frank P. Glass of the Birmingham News spent several hours in Clanton last Friday, being detained here on account of the wreck at Falakto. He was enroute to Montgomery to attend the funeral services of the late Maj. W. W. Screws of the Montgomery Advertiser.

Costly Treatment.

I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I went to a St. Lous hospital, also New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by Alred Drug Co.

Judge Saml. B. Browne of Mobile spent some time in Clanton last Friday, renewing old acquaintances. He and Col. Knox spent several hours in pleasant conversation, it being the first time they had met for many for many years. Judge Browne was Judge of the Circuit in which Baldwin county is located at the time the Baldwin county court house was stolen from Daphne and removed to Bay Minette; the Judge, however, refused to recognize the steal and undertook to hold court at Daphne as usual. In this he was unsuccessful as all the records and half the county officers were in Bay Minette.

Mr. J. H. Rasberry, a prominent citizen of Thorsby, was in Clanton Monday adjusting road matters. While here he left his name and address with instructions for the Press to come to his home regularly.

Mr. Fletcher O. Baxley of the Peoples Savings Bank is enjoying a trip to Chicago and other points of interest.

Mrs. Georgia Teel and little daughter, Miss Elnora, left last Saturday for Stewarts, on a visit to Mr. Jos. Teel, who is in business at that place.

Rev. W. A. Burns of Dade City, Florida, is expected to arrive in Clanton Saturday morning and will occupy the pulpit at the Baptist church, both morning and evening Sunday. Every member of the church is urged to be present. Visitors will be accorded a warm welcome.

Mr. and Mrs. Arthur Willis removed their dwelling place from Clanton to the old Willis homestead, just northeast of Clanton, last Tuesday, where in future they will reside; Mr. Willis, will, however, continue his connection with the business house of Judge L. H. Reynolds.

A little commotion was created on the west side last Saturday night in which it was stated that one gentleman lost thirty-eight dollars of his hard earned cash to a light-fingered gentleman. There came near being a considerable row over the affair, but cooler heads seemed to prevail and the affair was settled amicably between the parties.

EDITORIAL

(Continued from page 4)

seventeenth amendment, by a peculiar twist of circumstances, substantially does this, for it provided that senators shall be elected by the people. The contention on one side is that since Senator Johnston' death his term has expired and any one else who should take his place would be a new senator in the interpretation of the amendment, and would, therefore, have to be elected. On the other hand the contention is set up that the personality of the senator is but a small matter, the term, the office, the service being the germane point at which the amendment aims. In any event the senate is the sole judge of the qualifications of its members; they, and no one else, not even the Supreme court, has a right to say who shall sit in that august body. Nevertheless the fact remains that unless Governor O'Neal is permitted to name a senator who will be seated by the senate, Alabama is being deprived at a most momentous, a most critical, time of equal representation with other states of the Union, in the senate; her rights are being taken from her through no fault of hers and without her consent. Surely there is some way to settle this vexed question and to save Alabama from the humiliation which partizan politics will doubtless undertake to cast upon her.

Alabama has been called upon within the past week to mourn the death of four of her most prominent citizens.

The death of City Attorney Jno. V. Smith of Montgomery came as a severe shock to his numerous friends and acquaintances throughout the state; Mr. Smith was at one time President of the Railroad Commission of Alabama, besides which he held other prominent offices, being at the time of his death City Attorney of Montgomery.

Almost immediately following the announcement of his death came the news of the death of Hon. Paul LeGrand of Montgomery which occurred at his Summer home at Perdido bay of indigestion. Mr. LeGrand, aside from being one of Alabama's foremost attorneys, was one of her most substantial and able financiers.

Scarcely had the shock of the announcement of his death subsided when the State was again called upon to mourn the sudden death of Major William Wallace Screws, for fifty years the able editor of the Montgomery Advertiser, which sad event occurred at his Summer home at Coosada.

Before this great man's mortal remains were consigned to mother earth the news was flashed from the national capital that Senator Joseph F. Johnston had closed his eyes in endless sleep.

Surely Alabama has been called upon to give up four of her most beloved citizens in a few brief hours. She can ill afford to lose such men as Smith and LeGrand and Screws and Johnston.

VITAL STATISTICS FOR JULY

Births

Our birth reports for the month of July are above the average.

Our death reports are seven short.

The state health authorities insist strongly on prosecuting delinquents.

Let us hope that our doctors and midwives will continue their good work in reporting births and improve their work in reporting deaths and infectious diseases.

Yours respectfully,
V. J. Griggs,
County Health Officer.

LEGAL NOTICES

LEGAL NOTICE.

The State of Alabama,
Chilton County.

In The Chancery court of said county, Seventh District, Northern Chancey Division.

The town of Thorsby, Ala.,—VS S. O. Brant, Della Goldbin, C. H. Swan, J. L. Weal, Emil Carlson, and Emil Larson.

In this cause it is made to appear to the Register, by the certified tax list heretofore filed in my office at Clanton, Ala., by the town of Thorsby on the 20th day of May, 1913 that the following list of property in the said town of Thorsby, Ala., was assessed to the following named persons towit:—

10—C. H. Swan, Beginning at a point 50' south of the N.E. corner of S.E. 1-4 of S.W. 1-4 of S.W. 1-4 of Sec. 6, T. 23 Range 14, thence south 50', thencewest 140', thence north 50', thence east 140' to the point of beginning, for the tax year 1912.

11—To J. L. Weal, N.W. 1-4 of N. E. 1-4 of S.W. 1-4 of Sec. 1, T. 22, R. 13 for for the tax year 1912.

12—To Della Goldbin, S.W. 1-4 of N. W. 1-4 of N.W. 1-4 of Sec. 7, T. 22, R. 14 for the tax years of 1911 and 1912.

13—To Emil Carlson, Lot One (1) in block eveven (11) for the tax year 1912.

15—To Emil Larson, N.E. 1-4 of N.E. 1-4 of Sec. 6, T. 22, R. 14 for the tax year 1912.

16—To S. O. Brant, Lots number 17 and 18 in Block (2) for the tax years 1909, 1910, 1911 and 1912.

And that summons having been issued to said above named property owners as required by law, has been returned by the Sheriff of Chilton county, Alabama "not found."

It is therefore ordered by the Register that publication be made in the Preess, a newspaper published in the county of Chilton, state of Alabama, once a week for four (4) conservative weeks, requiring them, the said S. O. Brant, Della Goldbin, C. H. Swan, J. L. Weal, Emil Carlson and Emil Larson to answer or demur to the same within thirty (30) days after the 16th day of August, 1913 and failing to do so, a final decree will be made by the Chancellor of the northeastern chancery division of Alabama adjudging the above described property liable for such taxes and directing the Register in Chancery to sell said property for the payment of the taxes, charges and penalties interests and costs that are charged thereon unless the amount due and costs shall have been paid to the Register aforesaid before such date.

Done at office in Clanton, Ala., this the 18th day of July, 1913.

H. M. Simpson, Register in Chancery.
7-24-4t

Legal Notice.

Birmingham, Ala., Aug. 1, 1913

Hon. B. L. Jones,
Sheriff Chilton County, Ala.

No United States Internal Revenue License have been issued to your (Chilton) county in the month of July, 1913.

I hereby certify that I have carefully examined the record of the Collector of Internal Revenue and the above is complete and correct.

Yours very truly,
SAM. P. JONES.

Sworn to and subscribed before me this 1st day of August, 1913.
8-7-2t J. B. Mosley, Notary Public.

Mortgage Sale.

Default naving been made in the payment of a debt secured by that certain mortgage made by William McCorkle and his wife, Fannie McCorkle, to J. M. McCorkle, dated the 12th day of November, 1898, and recorded in Book 120, at page 241, of the records of conveyances for Chilton county, Alabama, and said default continuing, said J. M. McCorkle will, under and by virtue of the powers of sale in said mortgage contained, proceed to sell at public outcry to the highest bidder for cash within the legal hours of sale, in front of the court house door in Clanton, Chilton county, Alabama, on

AUGUST 23rd, 1913,

the following described real estate, situated in Chilton county, Alabama, namely:

The south half of the northeast quarter of Section 24, Township 20, north, Range 12, east, and containing eighty (80) acres, more or less.

This sale is made for the purpose of paying the debt secured by said mortgage, including the expense of this foreclosure, together with attorney's fees for collecting said debt and foreclosing said mortgage.

J. M. McCORKLE, Mortgagee.
Potts, Fuller & Logsley,
Attorneys.
7-31-4t

FOR SALE—80 acres of land, 35 acres open, 4 room dwelling and out houses. Will sell at a bargain, if sold within 60 days. Three miles southwest of Clanton.
7-17-4t

Miss Fannie Daniels of Selma, who has been the charming guest of her sister, Miss Mary Ellen Daniels, for the past week, returned to her home Sunday evening, much to the regret of her humerous friends.

Miss Eloise Prickett of Montgomery, a most charming young lady, arrived in Clanton Wednesday morning as the guest of Mrs. R. E. Luckie.

Miss Della Latham of Montevallo is the attractive guest of Mrs. E. E. Upchurch.

The County Commissioners have wisely decided to gravel the Dam road as far as completed. Teams are to be put to work immediately hauling gravel.

Handsomely engraved invitations have been received in Clanton announcing the approaching wedding of Miss Eloise Sadler of Montgomery to popular Floyd Berkley Powell, which happy event is to be celebrated in Montgomery on Tuesday, August 19th. Mr. Powell is well known in Clanton, having made a number of business and social visits here, and his friends extend congratulations.

The Stewards of the Methodist church enjoyed a most pleasant evening last Monday with Mr. and Mrs. C. Reese Mullins.

Miss Grace Rubenstein, a charming and versatile young lady of Elba, is visiting the family of her uncle, Mr. W. B. Rubenstein.

Mr. Wm. Walker of Maplesville, one of Chilton's most substantial citizens, was circulating among Clanton friends Monday.

The mail carrier on Route Five established a new record last month—perhaps a world's record—for the number of money orders and stamps sold; he having sold in stams almost twice the amount of his monthly salary. What carrier in Alabama can equal this record?

Mrs. E.M. Pinckard and children are spending some days with relative in Dothan.

Street Commissioner Jim Baker is grading the west end of Main street near the railroad.

Little Miss Cora Ware of Columbiana, who is the guest of Mr. and Mrs. Jno. Q. Wade, won the handsome bracelet given away Saturday night at the moving picture. There's nothing like persistent prayer; it is stated that little Ware sent up numberless petitions that she might be the fortunate one and her faith was duly rewarded.

Mr. O. O. Roper brought to the Press offices last Monday a turnip beet which measured thirty-seven inches from tip to tip. He said he had quite a number of these beets in his garden, but that his little boy Clarence was not strong enough to bring a "mess" of them to town, so he had decided to let them remain in the garden.

Commissioners Court was in session Monday and Tuesday, hearing road petitions and reports and transacting other business for the county. This was Commissioner Atchison's first meeting with the Board since his appointment to fill the vacancy caused by the death of Commissioner Hayes.

Miss Hattie Goodwyn, one of Montgomery's fascinating young ladies, is the house guest of her sister, Mrs. R. E. Luckie.

Mrs. Hugh Jones has as her attractive guest Mrs. Arighi of Montgomery who arrived Saturnay to spend some days in Clanton.

The Clanton boys went up to Thorsby Wednesday afternoon to cross bats with the Jemison crew; the Jemison bunch won by a score of 8 to 7.

Miss Blanche Downs, a most attractive young lady of Billingsley, is in Clanton as the guest of Miss Mary Danniels; since her arrival here she has been the recipient of much social attention. She leaves tomorrow for a visit to friends in Montgomery.

MAJOR W. W. SCREWS IS NO MORE

Veteran Journalist Succumbs to Attack of Indigestion—Had Been Editor Over Half a Century.

Montgomery.—Major William Wallace Screws, editor of The Advertiser, died suddenly August 7 at his country home at Coosada, 14 miles from here, of an attack of acute indigestion.

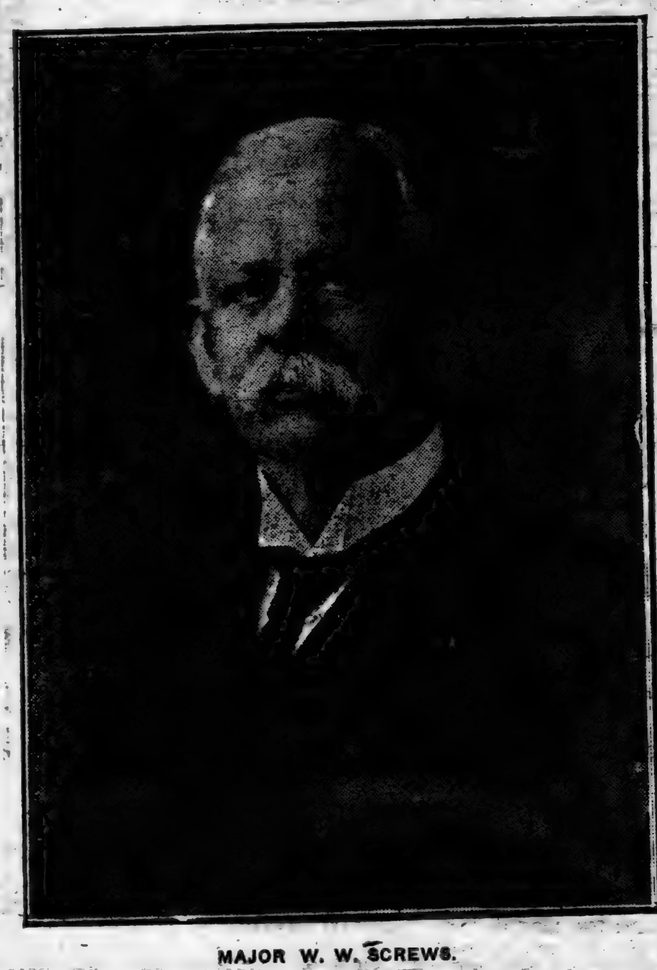
With him at the time of his death were his wife and two of his sons, Benjamin Screws and Holt Screws.

Major Screws had long been a prominent figure in Southern journalism. Born in Barbour county, February 25, 1839, he was in his 75th year at the time of his death. He was a son of Benjamin and Moning J. Screws. He was educated in private schools in Glennville, then in Barbour, but now in Russell county. Going to Montgomery as a youth he began to study law in the office of Watts, Judge & Jackson and was admitted to the bar in 1859 at the age of 20.

He practiced law until 1861 and although he was opposed to secession he went with his state at the outbreak of hostilities and served through the entire war. He went with the first troops to Pensacola and took part in the capture of the navy yard and Fort Barancas. He was later lieutenant in Company G, Fifty-ninth Alabama, and saw hard service with Bragg's army in Kentucky, at Chickamauga, Knoxville and during the last 12 months of the war was with Lee in Virginia.

Major Screws wrote letters to the Montgomery Advertiser from the army and became identified with that paper immediately after the war. Since that time Major Screws has been continuously connected with the editorial department of the paper.

At the time of his death he was president of the Advertiser company and editor in chief. The only public elective office ever held by Major Screws was secretary of state of Alabama, which position he filled from 1878 to 1882. He was one of President Cleveland's staunchest friends in the South and was appointed by him postmaster at Montgomery, which position he held from 1893 to 1897.



Major Screws was a former president of the National Educational Association, and was a member of the standing committee of the Protestant Episcopal Church, diocese of Alabama. He went as a lay delegate from the Alabama diocese to the Episcopal general convention in Boston in 1904, in Richmond in 1907 and in Cincinnati in 1910.

He was grand high priest of the grand chapter, Royal Arch Masons of Alabama.

Major Screws, April 25, 1867, was married to Miss Emily F. Holt, whose father, Judge William H. Holt, of Augusta, served for over 25 years on the bench of the Superior Court of Georgia.

Major Screws is survived by his widow and three sons.

The body of Major Screws was laid to rest in the family burying ground in Montgomery. Thousands of people gathered to pay their last respects to the beloved editor, among whom were some of the South's first citizens.

MAJOR W. W. SCREWS.

Editor of The Montgomery Advertiser, and pioneer Alabama newspaper man, who died at his country home, near Montgomery.

SMITH'S PLAN IS OPPOSED

Moss Reports on Attitude Assumed at Washington Boll Weevil Conference.

Montgomer.—"Senator Smith's proposed cottonless zone for the extermination of the boll weevil was overwhelmingly voted down by State demonstration agents and a score of Representatives and Senators from the cotton belt at Washington," said B. L. Moss, State Farm Demonstration Agent, after returning from the national capital, where he attended the semi-annual conference of State agents.

Mr. Moss was one of the several boll weevil experts from the South who attended the special conference held for discussion of Senator Smith's plan, and spoke before the conference in regard to the matter.

Mr. Moss stated that the agents and other experts showed Senator Smith where it was almost impossible to establish the zone and that it was not practicable in any way. He stated that the zone would necessarily be 200 miles wide to be effective and that if it was established this fall it would reach into South Carolina. The cost, he said, would be $108,000,000.

"Other farmers would be taxed to pay this cost, and they would never stand for it," he said.

Senator Smith's plan was to establish a zone in which no cotton would be planted for one season, in an effort to check the progress of the boll weevil. The zone would cover the territory nearly 200 miles east of the line already reached by the weevil and the farmers in that section would be paid for their losses sustained during the cotton year.

After-Dinner Compliments.

At the annual dinner of the St. Nicholas society, Ambassador Joseph H. Choate was down for the toast "The Navy," while Senator Depew was to respond to "The Army." Depew began by saying: "It's well to have a specialist; that's why Choate is here to speak about the army. We met at the wharf once, and I never saw him again until we reached Liverpool. When I asked how he felt, he said he thought he would have enjoyed the trip over if he had had any ocean air. Yes, you want to hear Choate on the navy." Choate responded: "I've heard Depew hailed as the greatest after-dinner speaker. If after-dinner speaking, as I have heard described and as I believe it to be, is the art of saying nothing at all, then Mr. Depew is the most marvelous speaker in the universe."

Gets $1,000 Reward.

Mobile.—Alvin E. Baer, engineer of the New Orleans division of the Louisville & Nashville railroad, was paid $1,000 by the United States Postoffice Department authorities. He captured Howard Edwards, a notorious train robber, on board the fast New York and New Orleans express that Baer was operating on September 4th last. Baer, after Edwards robbed the train, captured the robber single handed, heedless of warning, knocking him on the head while he was sitting in the cab.

Jelks Not a Candidate.

Birmingham.—Two interesting political reports come from Montgomery. The first is that Gov. William D. Jelks, Democratic national committeeman, will not be a candidate for Governor. Governor Jelks himself declared to a reporter that he was too busy to consider politics and that he had no intention of entering the race for Governor. It is reported that Leon McCord, associate railroad commissioner, will enter the race for Congress against John L. Burnett, present incumbent.

BUMPER COTTON CROP PROMISED

DURING LAST TWO WEEKS ALL PESSIMISM HAS TURNED TO OPTIMISM.

MANY REPORT FIRST BALE

Gins Are Being Repaired to Receive One of the State's Biggest Crops.

Montgomery. — Like a blessing assuming the guise of a promising fatality, the drouth of early spring time, necessitating replanting and late planting of the cotton crop of Alabama, will mean a big harvest for the farmers of this state, according to reports of the past week, for this younger plant promises to produce a crop that will be a bumper. From almost every county in the state comes the optimistic report that the late planted crop is healthy, well-fruited and is taking on a new growth with a vim, while the old plant is still stunted and has ceased to grow. Taken as a whole, the harvest will be a big one.

The last two weeks seem to have meant much to the farmers of this state. All pessimism has turned to optimism, and while there are a few counties suffering from drouth and hot dry winds, their number is in a small minority in comparison with the more fortunate sections. With few insects, little rust, a fairly good corn crop, plenty of good old Alabama yams and more progressive farming over the state, the farmers are now beginning to show where they deserve their equal share of that $50,000,000 fund from Washington.

Southeast Alabama leads in excellency of crops and early marketing, but over two dozen counties in the state send in reports of nothing but good conditions and promising outlooks. Excellent crops are reported in Geneva, Houston, Lauderdale, DeKalb, Elmore, Escambia, Etowah, Franklin, Coosa, Coffee, Conecuh, Covington, Barbour, Chambers, Cherokee, St. Clair, Talladega, Tallapoosa, Jefferson, Lee, Limestone, Lowndes, Macon and Mobile counties. Seasonable rains have done much in Geneva, Houston, offee, Covington, Coosa Lee, Lowndes and Randolph counties toward helping the new crop to take on new life and show more health and green.

New bales have been marketed in Houston, Dallas, Montgomery and several other counties, but in Cleburne and Morgan counties it will be the middle of September or the first of October before any marketing is done. Other counties have also reported a late crop, but the ginneries are all being repaired and put into readiness for the big crop when it comes.

Boll weevils are reported in several counties, but although they are light as a whole, several counties have suffered from their ravages and some of the crops are reported shortened by the insect. The crop of Escambia county has been damaged much by the weevil and a small damage is also seen in Conecuh. Baldwin county's crop is reported shortened by the weevil as is Clarke county, while there are a few of the insects in Covington and Wilcox, with a slight increase in the latter county.

Dry, hot winds and a dangerous drouth is being felt in several of the counties. In Clarke county the crop has deteriorated 25 per cent. because of the hot winds and no fruit has been added to the plant for the last ten days. Henry county is suffering slightly for lack of moisture, while the same trouble has caused a critical stage in the crops of Crenshaw county. In this county, it is stated, a series of seasonable rains would do a world of good to the plant and if rains do not come within the next few days the crop is liable to be badly damaged. Dallas county is reported to be off 10 to 15 per cent. in average in the last two weeks caused by the dry heat, and Lamar county is in about the same condition. Moisture is needed in Bibb and Chilton counties where the plant is somewhat withered by the hot desert-like winds.

Continued dry heat for the last two weeks is also doing damage to the crops in Madison, Morgan, Colbert and Marion counties. Spotted rains have fallen in Marengo county, but in some sections showers are needed badly and some of the farmers have not had a rain in sixty days.

Considering the dry heat, light infestation of the boll weevil and spells of drouth, the crop is still in such a good condition all over the state, taken as a whole, that these drawbacks will have little effect upon the average of the crop, the reports say.

Another Lad Paroled by O'Neal.

Montgomery. — Governor O'Neal has issue da parole to Robert Head, of Sheffield, a 15-year-old white boy, who was convicted at Decatur of stealing a ride on a freight train. It was shown that when Head was convicted and fined $10, a farmer living near Decatur paid his fine and hired the boy to work it out. After working a few weeks on the farm the lad decided he would rather be in the penitentiary and requested that he be sent there. The farmer delivered and protested the boy that had been committed.

HUGE CLOVER CULTIVATION

Letters Sent Out From State Headquarters to Thousands of Alabama Farmers.

Montgomery.—As a reminder of the clover campaign to be waged by the government demonstration men in Alabama this year, a letter dealing with the importance and culture of this product is being mailed to 15,000 farmers of this State from the headquarters of the farm demonstration work in Montgomery. Packages of 200 letters each are being mailed to each of the local county agents over the State and as late as November 1, uted among the farmers doing work under their direction. The total number of farmers now working under government demonstration in the State is approximately 15,000 and each of these will be urged to cultivate clover this year.

Clover can be planted as early as September 1 in the northern part of the State and as late as November in the southern part. The crop will be in full bloom and ready for harvest or to be plowed under by April 15, the following spring. The letter, arranged by Mr. Moss and approved by Bradford Knapp, special agent in charge at Washington, is as follows:

"Are you going to plant some burr and crimson clover this fall?

"These great winter-growing, self-improving crops are a certain success on practically every soil type in Alabama. You need them and must have them if you want to save big fertilizer bills and at the same time make your land rich and productive.

"Burr and crimson clover does not need lime to make a good growth, on the contrary, they succeed on nearly any well drained lands in the State, from heavy, waxy clays to light, sandy loams.

"No permanent pasture is complete unless it has burr clover growing in it. The clover furnishes winter grazing and then makes seed and dies in May, coming up again the following fall.

"Crimson clover is a great crop in cultivated fields and as a part of crop rotations. Sown in cotton middles in the fall, it makes a fine growth in time to be turned under for corn the next spring. When handled in this way, an acre of crimson clover has the fertilizing value of ten tons of stable manure. Can you farm without it?

"We want you to get in touch with your county demonstration agent concerning the best time to plant, where seed can be had, methods of seeding, etc.

"Clovers will succeed with you. They mean rich land, and rich land means big crops."

JOHN W. A. SANFORD DEAD

Former Attorney General Had Been in Failing Health for Several Years.

Montgomery.—Gen. John W. A. Sanford, for nearly 60 years a prominent figure in Alabama political life, died at his home, South Hull street.

General Sanford had been in failing health for several years and for many months he has lived in retirement at his residence here.

He fought throughout the civil war and distinguished himself by bravery and executive ability. He surrendered with the last of the Southerners at Appomattox.

He became Attorney General of Alabama in 1865 and served three terms though by the establishment of military rule he was temporarily forced from office soon after his first election. He declined a fourth nomination.

CASE OF SHERIFF LYNCH.

Governor Will Not Enter Impeachment Proceedings.

Montgomery.—Following an investigation of the conduct of Sheriff J. H. Lynch, of Talladega county, which covered several weeks, Governor O'Neal has decided not to enter impeachment proceedings against the sheriff. All the information the Governor has in his possession will be turned over to the solicitor of Talladega county with instructions to take such action as he may deem fit.

Citizens of East Talladega had complained to the Governor that the sheriff was using his influence to prevent the indictment of Deputy Sheriff W. S Prince, who, it was alleged, shot and killed Leslie Plant at East Talladega in April, 1912.

THIRTY TEACHERS PASS.

Twenty-three From Lowndes and Seven From Autauga.

Montgomery.—Twenty-three Lowndes county teachers and seven from Autauga county passed successfully the recent examinations conducted by the State examining board, according to an announcement of the board. In Autauga county all of the successful applicants were white, but in Lowndes county the number of negroes outnumbered the whites.

WILSON WILL ATTEND.

Bryan, Daniels and Garrett Will Be Present and Make Addresses.

Mobile.—According to private advices received here, President Wilson accepted the invitation presented by Mobile business men and the Alabama congressional delegation to visit this city during the session of the Southern Commercial Congress in October, confidentially, provided that congress shall pass the bill pending. Secretaries Bryan and Daniels, members of the cabinet, will

RESOLUTION TO IMPEACH SULZER

CHARGES "WILFUL AND CORRUPT CONDUCT IN OFFICE, AND MISDEMEANORS."

SULZER MAKES NO COMMENT

Resolution Claims Governor "Falsified Under Oath His Campaign Contribution Account."

Albany, N. Y. — The report of the Frawley legislative committee charging Governor Sulzer with having diverted campaign contributions to his own private use was adopted by the legislature, and a resolution to impeach him for "wilful and corrupt conduct in office and for high crimes and misdemeanors," was offered in the assembly by Majority Leader Levy.

The Frawley committee report and the Levy resolution charge the governor with having falsified under oath of his campaign contribution account, diverted some of the funds to his own use for the purchase of stock, traded executive approval of bills for support of his direct primary measure and with having done everything in his power to district the committee's efforts to bring proof of his alleged misconduct to light.

The adoption of the report carried with it a recommendation that Louis A. Sarecky and Frederick I. Colwell, who refused to answer certain questions propounded by the committee's counsel, be held in contempt of the legislature and punished. Srecky nd Colwell are characterized in the report as Governor Sulzer's dummies.

Never in the history of the state has her chief executive been impeachced.

After introducing his resolution to impeach, Assemblyman Levy asked that its consideration be postponed. This motion was opposed by Minority Leader Hinman, who had championed the governor's cause, and by Assemblyman Schapp, leader of the progressives. Both Hinman and Schapp had led a two-hour fight for postponement of action on the resolution to adopt the Frawley committee report.

The fight in the senate over the adoption of the report was brief, the session lasting but 45 minutes. The upper house was dark long before the question came to a vote in the crowded assembly chamber. For two hours there a throang that crowded every niche and cranny of the big chamber stood patiently and silently—save on one occasion—waiting for the vote.

The light in the library of the executive mansion was burning low and the rest of the big house was dark when the assembly voted to receive the report Governor Sulzer had waited there all evening, contrary to his usual practice of visiting the capitol when the legislature is in session and heard the news over the telephone He made no comment thereon.

NEGRO LYNCHED BY MOB

Citizens Take Negro From South Carolina Jail and Riddle Body with Bullets.

Laurens, S. C. — Richard Puckett, a young negro charged with attempting criminal assault near here, was taken from the jail here by a mob estimated to number 2,000 men, and hanged to a beam of a railway trestle near the Laurens depot. Several hundred bullets were then fired into his body, and the mob dispersed, leaving the body hanging, to be examined by a coroner's jury. Although Sheriff Owings was quoted as saying the negro confessed to him, Puckett made a denial of his guilt just before he was strung up by the mob.

Puckett was charged with having attacked a young woman who was driving in a buggy along a lonely road near here. It is said he dragged her from the buggy, but fled when she called to her two brothers, who were following her in another buggy. Laurens officers captured Puckett soon after they had begun their search, but the young woman who had been attacked failed to identify him. However, it is said bloodhounds were then used to fasten guilt on him.

The mob overpowered the sheriff and deputies, breaking down a door of the jail and one of the steel cages where Puckett was confined.

NEWS BREVITIES

Brueck, Germany — Fritz Roessler, a German aviator, and a pupil named Stephan, were killed here when an aeroplane in which they were flying fell.

Chicago. — Prayers for rain in the parched regions of the West were offered in several Chicago churches.

Duluth, Minn. — Frank Little, an officer of the Industrial Workers of the World, and leader of the dock workers here, who was kidnapped by railroad detectives, was rescued by a party of Industrial Workers and Socialists.

Cleveland, O. — This city is to be the first in the country to have a terminal station for the exclusive handling of parcel post matter. Postmaster General Burleson's order calling for the immediate establishment of such a station has been received by the local postoffice here.

THE LIFE OF A SPANISH FIGHTING BULL

AN EARLY TEST

BULL fighting is of very ancient and not strictly Spanish origin. The Moors in Spain, in their rare intervals of peace, practiced warlike pursuits, from the fear—not ungrounded, as it proved—of becoming luxurious and effeminate. In this way began bull fighting. The Moorish knight, anxious to keep himself and his horse "fit," pursued and speared the wild or semi-wild cattle of the plains. Probably the next step was the introduction of the bull into an arena, where the prowess of the knight could be witnessed and criticised by his friends and rivals. If the rider was unhorsed, he endeavored to kill the bull with his sword. One martyr tells how he did it with a scimitar; but possibly by this time the Moors had adopted the straight swords of their rivals, the Spaniards, with whom, during intervals of peace, they not infrequently held combined fiesta de toros, in which both Christian and Moslem vied in friendly rivalry at the slaying of mighty bulls. To quote Mr. Abel Chapman in "Unexplored Spain": "At this period, during the thirteenth and fourteenth centuries, the knight who, lance in hand, had been unhorsed from the saddle might draw his sword and fight the bull, his vassals being allowed to place the bull (by deft display of colored cloaks) in a position to facilitate the death stroke. Here doubtless originated the art of 'playing' the bull, and incidentally sprang the professional bull fighter." I need not quote Mr. Chapman further, as this is sufficient to show the origin of the toro," matador, and the present decadence of the sport is not difficult to follow.

As time went on, owing to opposition on the part of kings and queens and popes, the aristocracy of Spain gradually fell away from the sport, and the mounted spearman's portion of the spectacle became of less and less importance as the knights withdrew from the contests. Thus, in due course, we arrive at the ghastly farce of the present day, when the skullful rider, who was, if not disgraced, at any rate poorly thought of if his horse sustained damage in the contest, is replaced by the professional picador, whose sorry nag is never intended to escape the bull's horns. As the horseman's role in the show has shrunk, so has the footman's part increased, until we come to the highly paid matador of the present day. Though not much patronized by the aristocracy or the army, and nominally condemned by the church, yet bull fighting still remains the sport of the people, and consequently of the press. Shooting, racing and polo have taken its place among the upper classes; but La Corrida comes before everything in the popular estimation. You may go to a race meeting in Spain and see English and French thoroughbred horses, English, French and Spanish jockeys, a fashionable and crowded paddock, police and troops to keep the course—but no crowd to be kept in order!

So much for the importance of the sport of bull-fighting; now as to the animals employed in it and the method of training them. It must be borne of all be borne in mind that the Spanish fighting bull is a very different animal from the big, stolid and solid shorthorns and Herefords which we see in this country. Like the race horse, he is an artificial creature, bred by selection for generations for one purpose, namely, to fight, and I can assure the reader that, with every circumstance against him, he will fight, from "the rise of the flag" to his last convulsive effort to get on his feet again when stricken to the heart. In various parts of Spain there are many stud farms, which keenly compete with each other in producing the best fighting stock. That of Don Miura is perhaps at present the most famous. Fighting bulls are in appearance not unlike the old English longhorn breed on a smaller scale; but as they vary in appearance, they might usually be likened to Jersey bulls (with longer horns) or black Welsh bulls. They vary in color, as these comparisons suggest—white with black ears and patches, white with red spots and patches, or dark purple brown with light muzzle and ears and a light brown stripe down the backbone. (This last variety is said to be descended directly from the Aurochs.) The most common of all is jet black all over; at least, I personally have seen most of this color. The early days of calfdom are spent in luxurious carelessness on the plains, but at one year old comes the first of trial is held, I believe. This I have not personally witnessed, so I cannot give any description.

At two years old comes the second trial, and of this I will endeavor to give a short description.

I personally witnessed a tentadero (trial) through glasses, and from a safe and fairly comfortable position on top of the cabin of a yacht on the Quadalquivir. Judging by the behavior of people who were at closer quarters, the role of spectator would at times appear to call for considerable activity, and be unsuitable for a stout old gentleman on foot, or even if mounted, unless he were a good horseman and did not mind "bucketing" about. On the occasion in question I did not notice any dismounted spectators, but I am told they do attend on foot, and as there is no cover of any description, the onlooked must at times have amusement quite as exciting as those taking part in the trials.

CLOAK PLAY

The method of procedure at the tentadero is somewhat as follows: The herd is "rounded up" on the plain and the cowboys (ganaderos) then divide it, cutting out a large number of decoy cattle, which they drive some few hundred yards away. When the two herds are safely rounded up, each under the charge of silent, watchful horsemen, the sport is ready to begin. The farm is en fete (open house, in fact), and lots of friends of the owner turn up, well mounted for the occasion (though, personally, I am not an admirer of the Andalusian 'oss). The owner and his sporting friends now appear on the scene, mounted and armed with the garrocha (lance), which is twelve feet long and has a small, blunt point about a couple of inches or less in length.

When the owner gives his signal, the ganaderos let a bull escape. Off it runs to its friends in the distance, and after it gallop three horsemen—two in close pursuit and one following more leisurely. The latter is a picador, or professional spearman. The two horsemen gallop on either side of the bull, but I could not make out whether the rider on the left spears to the right and vice versa, or whether the spearing is done from one side only, and the other horseman merely rides to keep the bull going straight. It seemed to me the horsemen usually tried to spear high up and behind the flank, and from the off side of the bull, i. e., left-handed. When successful, they turned the bull over in a cloud of dust, like a shot rabbit. Not infrequently the bull "jinked," so that it was not always the first man alongside who got "first spear." The bulls, being young and active, gave good little gallops, and were as quick as cats (very different from their later appearance in the ring). I saw one horseman bowled over, but could not see how it happened, as he was between me and the bull.

Generally speaking, after the bull had been "grassed" twice he turned nasty and would gallop no more, but got up, breathing heavily, and faced his pursuers. At this point up comes the picador (called el tentador, correctly speaking). With lance in rest he awaits the charge, which usually comes promptly enough, to be received on the point of the garrocha and warded off. If the bull charges twice, he is considered good enough for the ring; but should he fail to charge and show a not unnatural desire to escape, after coming off second best, his fate is beef or agricultural work in plow or cart as a draft ox. So the sport goes on until all the animals (of both sexes) have been tried. The ladies apparently go through the trials to see if they will make fit and courageous enough mothers for future scions of the illustrious race.

For several years more the bulls graze at their ease on the plains, guarded and guided by the ever-watchful ganaderos, for they are animals of considerable value by this time, with prices ranging from forty pounds to seventy pounds apiece. The occupation of the ganadero, however, seems likely to decrease, if not vanish. Barb wire is changing the face of the earth in most places, and in Spain it is bringing about the passing of the cowboy. Strange that Spain, the originator of the cowboy, should poetically see the last of him!

I have often been asked if the bulls do not fight among themselves. They do occasionally, and I had a passing glimpse, from the train, of a gory battle, which was fought in clouds of dust beside an almost dried-up pool. There is, I am told, always a master bull among the herd, who tyrannizes over the rest; and in the "Encyclopedia of Sport" there is an account of how the herd, unable at last to stand his tyranny any longer, unite to slay him and mangle his body, curious to relate, almost as he was round his carcase until the latter is taken away.

The removal of the fighting bull from the plains to the bull ring is not without interest. If the bull ring is not far off the method is as follows: Some few days before the fight, decoy oxen, with bells round their necks, are turned out with the herd, which soon get accustomed to their presence. A little before dawn on the appointed day, by the light of the moon, the herd of decoys and bulls are hurried along by side roads and lanes into the town and on to the bull ring. For long-distance journeys the bulls travel by rail, and as the ultimate sorting out of bulls and decoys is much the same, whether it be at the bull ring near by, or at the railway station for a distant fight, a description of the method by which the animals are boxed for transit will serve a double purpose.

Imagine a country railway station of the primitive order; on the right a dusty road leading through aloe-hedges to a distant town, with market gardens in the middle distance; on the left a single railway line, stretching away in a not too straight line to infinity. Behind you is a large yard or corral, surrounded by high walls and divided down the middle, which is entered by two massive wooden gates. A few porters, idlers, half a dozen cowboys with their ponies hitched to posts, a couple of guardia civile, and probably a few tourists stand about outside. In the distance are grazing the bulls and their traitorous brethren, guarded by a single horseman. Presently there arrives on the scene a stout party—presumably the overseer.

The cowboys mount their ponies, doing a little "showing off" as they canter away to the distant herd. Rounding up the bulls and oxen, they head them for the corral. In front gallops a ganadero, with lance in rest, driving before him a decoy ox. At his heels thunder the herd. Faster and faster they come, into the post and rail lane, which narrows down to the entrance of the corral. Behind, with wild yells and waving lances, gallop the rest of the cowboys. Into the corral dashes the decoy ox; the horseman at his tail wheels at a gallop into the open stable doors on his left, coming up with a bang into the stall, as a small boy hastily slams to the door behind him. Meanwhile, the entire herd has poured into the corral and the gates are fastened behind them. The ganaderos dismount and come up on to the walls, lances in hand. The small boy pops out of the stable, cracking a whip, and the herd "gets a move on" towards the next section of the corral, of which the doors stand open. A bull looks toward the small boy, who dives for cover like a rabbit, but in a second he is out once more and again cracking his whip. The cowboys aid his efforts by leaning over the rails and prodding those cattle within reach with their lances from above. Presently the herd is all in enclosure No. 2. At the right-hand end of this is a lane leading backward in the direction from which the cattle came. Having been through the mill before, a decoy or promptly trots off down this lane to freedom. He is followed at a more leisurely pace by a bull—but not to freedom! The end door is slammed in the second animal's face. Quickly turning around, he rushes back, but the door at the other end is shut also. Round he comes again, to find the middle door likewise closed. He is now in a trap and knows it. With an angry bellow he charges the door, sending the white splinters flying. A cowboy leans over and prods him with his lance. With a savage grunt he turns round once more, to see facing him a small opening in the wall. Perhaps it leads to freedom? His hesitation vanishes as he receives several prods from above, and plunges into the darkness, to find himself in a box or division in which he cannot turn around. Inside of less time than it takes to tell, the gates are closed, and the bull, which has been driven to the next section of the corral, is ready to be driven into the next division, and so on until the last bull is driven into the last division, which is the bull ring itself.

DO YOU LOVE TURKEY?

IF NOT, WHAT REASON HAVE YOU, SAY?

(Adapted from an exchange)

A prominent politician desiring to be elected to office, told the following story to illustrate why he should be the favorite candidate in the race:

Once, said he, I told three of my constituents that I had a big fat turkey gobler which I was going to give to the one who could give me the best reason for his being a Bull Moose voter.

One said he was a Mooser 'cause Mr. Roosefelt had promised all a square deal when he got back into the White House agin.

"Very good," said the politician; "now Henry, tell us why you are a Bull Mooser." "Well, said Henry, I'm a Bull Moose cause 'we 'spects to progress somewhat and I'm a believer in progressing."

"Fine," the politician remarked; "Now Sam, what have you to say?" "Well," said Sam, "If you wants to know why I am a Bull Moose, it's because I wants that turkey gobler—that's the best reason I knows of."

Of course Sam got the turkey.

We're not saying where this took place—it may have been hereabouts or it may not have been—we leave that to you to guess. Anyway, wasn't Sam's a good reason?

Madison Enthusiastic In Improved Highways

Huntsville, Alabama. (Special) It is estimated that within the year one hundred miles of new roads of gravel or macadam will have been built in the county. At a meeting of the county commissioners Thursday they pledged $20,000, and the people will give a like amount. Those to be benefitted will also give the rights of way, and move their fences back when necessary. Old Madison has certainly gone on a boom in the matter of road building.—Ledger.

A BUSY LITTLE GOD

Nothing succeeds like success, so tis said, and ,if that be true the little God of love is a most successful individual as will be evidenced by the number of his accomplishments last week recorded on the marriage record of the Probate Judge:—Mr. Louis Loshbourg to Mrs. Serepta Wilson, Mr. J. C. Knox to Miss Jessie Rhodes, Mr. Luther Partridge to Miss Mabel Jones, Mr. E. D. Hand to Miss Nora Irene Peeples, Mr. J. Lee Yates to Miss Rosa Lambert, Mr. A. E. Dennis to Miss Mamie Gray.

Mr. Knox and Miss Rhodes were happily married at the Courthouse Wednesday afternoon by Chief clerk T. M. Pyron while on Sunday afternoon Judge S. M. Adams pronounced the words which joined the lives of Mr. Luther Partridge and Miss Mabel Jones.

Look up your old clothing and give us a chance to renew them for you. Let us rejuvenate your wardrobe.

Chandler Bldg. Popwell & Popwell Next to Press Offices

Layin' By Time

Layin' By Time is a happy time. It means more than quitting work after the farmer has put his crop in condition to mature for the harvest.

It means the end of long, hot days of labor, of restless nights of worry, of doubt of weather conditions and of seasons.

It means the consciousness of good work well done; the knowledge that the family is protected against want, and that more than the bare necessities of life has been earned.

The L. & N. takes pride in the knowledge that through its Agricultural Department it has contributed somewhat to the success of a large number of farmers. It believes that its employees—experts skilled in the various departments—have been of some assistance to the farmers in cutting down labor while increasing yield.

We want to see the country prosper; want to see the soil developed to its maximum capacity; want to see the people happy and enjoying a healthy contentment.

Let your layin' by time mean something. If you are money at the bank, let it mean that you have laid by enough to pay, or to make a substantial payment.

If you owe the supply man, let it mean that you can look him in the face, as one honest business man looks into the face of another, and get your receipt.

Our experts know a good deal about gathering paid-for-fighting crops. They are at your service. All you have to do is say the word and we will do all we can to help.

The markets of the world are waiting for your shipments to be made. In making those shipments keep in mind that the L. & N. offers unequalled freight facilities. This applies particularly to your fruit shipments, where promptness of delivery and refrigeration mean so much.

LOUISVILLE AND NASHVILLE RAILROAD CO.

DOUBLE HEADER

Out at Fairview last Saturday the Fairview boys played rings all around the Clantonites in good form—in fact they put it all over the Clanton kidlets and made them, for a while, regret that they ever saw a base ball. The first game resulted in the score of seven large ones to Clanton's get some. However, the Clantonites rallied in the second game and defeated their opponents by a score of five to four.

The batteries were: First game, Clanton, Davis and Marcus; For Fairview, Henley and Donovan. Second game, Clanton, Ramsey and Marcus; Fairview, Klinner and Mills.

During the games the ladies' Aid Society dispensed dainties from which they netted quite a neat little sum.

The same teams will play in Clanton on Saturday, August 23, and it is expected that a large crowd will greet them upon the battle field.

PRISONERS REMOVED

Orders of Inspector Oates Carries Jail Birds to Montgomery.

On account of the repair work being done on the Chilton county jail and the necessary exposure of prisoners, even in a limited way, State Jail Inspector Oates has ordered all Chilton county prisoners to be removed to Montgomery, with which order Sheriff Jones immediately complied so that now our jail house, for the first time in many moons, is completely vacant while the guests at Hotel De Hood in Montgomery have greatly increased.

New Department In the New Store

We take pleasure in announcing to our patrons and friends that in connection with our mammoth stock of Dry Goods, Groceries and Furnishings, we are now carrying a tremendous stock of

Furniture

of all kinds, character and conditions---except the bad kind. We can fill your wants for any style, any price Furniture you may desire. Beds, chiffoniers, bureaus, wardrobes, dressers, tables, chairs, safes, desks, and in fact all kinds of Furniture manufactured.

Our styles are varied, well selected and guaranteed to please both in quality and in price.

Our line of Walnut Furniture [now extremely scarce] needs to be seen to be appreciated. Quartered Oaks, Maple Cherry and Poplar abound in our stock. Upholstered and leather Furniture to please the most fastidious.

Remember our stock is perfectly new---in fact our shipments have not yet all been delivered from the depot but are arriving daily. Our prices are so low that to see means to purchase.

Let us refurnish your home, make it comfortable, cozy, delightful, at prices that will astound you.

Our display rooms are large and airy; we take pleasure in showing our Stock for we are proud of it and know that when once you view it you will call again for your wants to be supplied and will also tell your friends about our excellent selections.

Come to see us, a cordial welcome awaits you.

believe, are princi- rnment—well ordered government—which no man will undertake to controvert—which none can successfully controvert.

The State of Alabama levies its taxes and is zealous in collecting them; it demands of its hired officers an accounting dollar for dollar, penny for penny; it prorates these monies among several different funds, one of which keeps the wheels of law oiled and the scales of justice evenly balanced. Our citizens pay for these things and as before suggested, have a right to demand that these wheels and these scales be properly adjusted and fearlessly conducted.

Among the different funds collected by the State is a contingent fund upon which the governor, at his discretion, may draw for the apprehension or return of criminals of certain classes—felons. That fund now exists and has long existed. Governors have not been altogether slow to draw upon this fund when, in their opinion, it was deemed necessary. Sometimes for reasons best known to themselves, perhaps, they fail or refuse to draw upon this fund.

This is one side of a proposition which we are attempting to set forth; there is another, quite as interesting, if not more so.

Forgers are felons, under the law; he who writes the name of another and fraudulently secures money or other things of value upon it as the genuine signature of another, is a forger.

Banks and other financial insti-tutions are more subject to the dastardly attempts of the forger felon than are other business institutions and for that reason they have organized a co-operative association whose prime object is to hunt down forgers and bring them to the bar of justice. They pay out their money for this protection from the association, as well as pay out in taxes large sums of money for the protection of their banks when the forger is apprehended.

Joe Conde has proven himself to be a forger; on two, if not more occasions, he had forged the name of another and upon that fogery has secured from the Clanton Bank money belonging to another —whose name he forged.

The bank communicated with the American Bankers' Association and had all the machinery of that giant co-operative organization put to work to capture Joe Conde, that he might be punished for his evil deeds. The forger was located; the cashier of the bank, through the proper channels, communicated with the state officials and requested that Joe Conde be returned to Clanton to face a trial for his wickedness; the state authorities said they could not pay, would not pay, the expense of an officer to return Conde to the scene of his guilty practices!

Yet, the state of Alabama accepted, in good faith, the money of the Clanton Bank in taxes to do this very thing! The state puts up the plea that to return Conde at its expense would entail great expense and such cases would soon bankrupt the state. Why then did the state accept the taxes of the Clanton Bank? It cannot protect it from murder; it can give the bank no security from the vile tongue of the slanderer; its virtue it cannot guarantee or protect. What then does the Clanton Bank pay taxes for? Naturally for protection from that form of lawlessness to which it is most subjected—forgery. If banks and other financial institutions were advised in the beginning that they would receive no protection from the state when forgeries are committed they would not pay taxes without protest, for usually this is the thing from which they need the greatest protection, and stripped of this the banks are denuded of all essential protection from law violators.

Well, the Burns Detective Agency—the same employed by the state in trying to locate Lacy—has located Conde at its own expense and without any expense to the state; they have him behind prison bars awaiting his return to Clanton to pay the penalty for his misdeeds; the state will not pay for his return; the county does not feel that it has the authority to pay out the necessary amount; —the county receives no taxes, as does the state—for this particular branch of law enforcement; hence if the Clanton bank wishes Conde punished it must delve into its private purse and pay the expenses. This would appear as personal spite and not legal punishment; the state would receive the benefit of Conde's labor after conviction; if the Clanton bank thro' its officers undertook to punish Conde by thrashing him soundly for his practices he, or they, would in turn, be punished by the law for assuming to take the law in hand. It would be out its money twice, once in taxes and once for the return of the prisoner, whereas governments are established that its law abiding citizens may be guaranteed the protection of the law in just such instances.

The bank has all the necessary testimony to punish Conde for his forgery; the penalty for forgery is five years; in two cases this would be ten years; the state would secure through Conde's conviction ten years of service for the measley sum it would have to expend to return him to Clanton to face his accusers; yet, it says, in effect, that the Clanton bank shall pay the expense and give the state the benefit of Conde's labor for ten years or else Conde will go free and the Clanton bank must suffer in silence, even though it has paid for protection.

We are not undertaking to point to the present governor more than his predecessors—all have doubtless been called upon in similar cases, and doubtless all have refused just as has the present governor, to assist in the return of fugitives from justice—on the ground that it was inexpedient, or would bankrupt the state. Nevertheless, it accepts the taxes of the bank, guaranteeing protection under the law; when a call is made to have that guarantee verified the state says it is inexpedient; it would bankrupt the state!

A poor negro who steals a gaunt choat to keep the vital spark of life burning in the breasts of his loved ones, would be traced over a dozen states and returned to go to the coal mines, even though he stole that choat from a citizen who paid less than a dollar in taxes! Such things have occurred; but a FORGER—one who steals hundreds of dollars by a damnable misrepresentation? He must go free because, forsooth, it might set a precedent which would bankrupt the state! Away with such nonsense.

If the state is so near bankruptcy why then, at this time, order new settings for the senate and house of representatives? Why go about on so many military excursions reviewing troops in time of peace? Why add new wings to the capitol and have them handsomely adorned? Why pay large fees to attorneys to do that which the Attorney General is elected to do and which he is thoroughly capable of doing? Why purchase a governor's mansion and have magnificent rugs thrown about its floors? Why do a thousand other things that have been done in this, and other adminstrations, if the state cannot guarantee safety to its tax payers. It looks foolish! It is silly! Refuse to extradite a felon, buy mansions; refuse to safe-guard tax payers, employ detectives by the month; refuse to call a session of the legislature to insure Alabama's having two senators, spend the state's money reviewing troops, when the dove of peace is in its dove-cote wooing its mate.

Spend thousand, yea thousands of dollars to apprehend one criminal and refuse to spend a few dollars to accomplish the return of another equally guilty who has already been apprehended!

CONSISTENCY THOU ART A JEWEL!

MINUTES ADOPTED AND RESOLUTIONS PASSED

1913 INSTITUTE GOES ON RECORD.

To give the full minute of the Institute would be a tedious task, and would require too much of the Editor's time, so I shall give only a brief sketch of the proceedings.

The Institute opened at two o'clock p.m. Monday with an enrollment of ninety teachers. After the devotional exercises the Institute was opened with a short talk by Supt. Moore, and followed by Conductor E. E. Smith, who gave an enthusiastic address. Then Prof. N.R. Baker, State Supervisor of Rural Schools, gave a lecture on the condition of the schools of the state, in which he showed that Chilton county ranks third educationally in one respect, second in many respects, and first in none.

One of the most interesting features of the Institute was an address by Mrs. Birdie I. Robinson Tuesday on the boys' and girls' club work. She showed that the boys are raising corn at a cost of 17c per bushel, while the average farmer is raising his corn at a cost of about 70c per bushel. She inspired many of the teachers to organize a club next year. The remainer of the day was taken up in the discussion of the State Manual by Prof. E. E. Smith, and a round table discussion on the question of Irregular Attendance. It was fully discussed by the teachers, and they all agreed that the irregular pupil requires more time from the teacher than does the regular one, and that the irregular attendance is the greatest hinderance in the progress of the rural schools.

The principal features of meeting Wednesday were a number of instructive lectures given by Prof. Smith on the subjects of Health, Sanitation and Narcotics. He put special emphasis on the importance of allowing our pupils to take some physical exercise every half hour, and the teachers all realized that he was giving good advice.

In the afternoon Miss Maude Kimball gave a lecture on Primary Geography which was full of valuable suggestions to the primary teachers. She also taught a lesson in Third Grade Arithmetic in she showed how to secure neatness and accuracy.

At eight o'clock Wednesday evening the teachers enjoyed a reception at the court house, which had been arranged by a committee consisting of Prof. T. E. Williams, Prof. Cecil E. Harris, Mrs. J. H. Middleton, Mrs. T. A. Curry and Miss Mabel Louise Jopes.

The principal features of Thursday were a round table discussion on the subject of "How Can the County Superintendent Be Of Greater Efficiency to His County," and two lectures on Language given by the conductors. The teachers gave many valuable suggestions as to what they were expecting of the County Superintendent.

At eight o'clock Thursday evening the teachers had the pleasure of listening to an interesting debate on the question of Woman's Suffrage," which was ably discussed by Profs. Charles Campbell and J. A. Hunter on the affirmative, and Profs. Linsey Thomas and Manning on the negative.

On Friday we had Prof. Jones from Auburn, who gave a very enjoyable talk on the organization of the Pig Club Work. The remainder of the day was taken up passing resolutions, and an address by Supt. Moore, in which he spoke briefly of the progress during his administration. The incoming superintendent also gave a sketch of the work he expects to do for the schools during his administration.

Then came the farewell address of the beloved conductors, and we are sure every teacher has formed a love for them which shall never be forgotten.

The committee on resolutions consisted of Profs. Howard L. Foshee, John J. Hicks, Howard Roper, Miss Clara Soberg and Miss Mabel Louise Jones, who drew up the following resolutions which were passed on by the Institute:

NUMBER ONE.

Whereas, the Chilton County Teachers Institute is deeply indebted to the people of Clanton for their excellent accommodations; to Prof. N. R. Baker for his interesting address; to Mrs. Robinson for her talk on the Corn Club and Tomato Club work; to Mr. Moran and Miss Mabel Jones for their talks; to all other visitors and to those who furnished entertainment for the teachers.

Therefore, be it resolved, that our sincere thanks and hearty appreciation are hereby extended.

NUMBER TWO.

Resolved, that we extend to Prof. E. E. Smith and Miss M. E. Kimball our sincere thanks for their efficient work and the courtesy extended the teachers of this Institute. We feel that the teaching force of this county has been greatly benefitted by their able instructions and we wish them unlimited success in their work, and hope they will be with us again next year.

NUMBER THEEE.

Whereas, we feel that in the past eighteen years Chilton county has been exceedingly fortunate in securing the services of Mr. J. W. Moore as County Supt. of Education, and as a proof of this statement we wish to give the following statistics:

Children enrolled then about	2800
Children enrolled now	5240
Average attendance then about	21
Average attendance now	37
No. schools in county then	45
No schools in county now	73
No graded schools then	none
No graded schools now	45
Average length of school term then	60 days
Average length of school term now	123 days
No. schools comfortable in winter then	5
No. schools comfortable in winter now	60
No. seated with patent desks then	1
No. seated with patent desks now	27
Value of school houses and sites then	$ 5,000
Value of school houses and sites now	30,000
No. schools visited by the Co. Supt. then	none
No. schools visited by the Co. Supt. now	52

Realizing that this work couldn't have been accomplished without an able leader, therefore be it

Resolved, that we as teachers and as representatives of the citizens of Chilton county extend to Mr. Moore, our retiring Superintendent, our deepest appreciation for the efficient methods that we have ever found to be his policy in fulfilling the duties of his office for the past eighteen years that it has been intrusted to him.

Be it further resolved, that we the teachers of Chilton county extend to Mr. Bean, our incoming Superintendent, a most cordial welcome to his new field of work and pledge him our hearty support and co-operation in the work of standardizing our schools and placing Chilton county's educational system on a more efficient working basis.

NUMBER FOUR.

Resolved, that we, the teachers of Chilton county, request the County Board of Education to give us better supervision in the future by employing the County Superintendent for full time.

Be it further resolved, that we request the County Board of Education to provide for a uniform 7th grade examination in this county at the close of the next school term.

NUMBER FIVE.

Resolved, that we heartily endorse the Corn Club, the Tomato Club, and the Pig Club movements and we pledge our support in helping to carry out the same in this county.

NUMBER SIX.

Resolved, that we endorse and pledge our support to the move now being made to locate a Chilton County High School.

NUMBER SEVEN.

Resolved, that we, as teachers, wish to express ourselves as being in favor of good roads and we pledge our support to any good means that may be adopted by this county for the purpose of securing the same.

NUMBER EIGHT.

Resolved, that we request and urge our representative in Congress to do everything in his power toward having books sent by parcel post. We feel that great injustice has already been done the reading public and realize that the sooner the defect in the law is remedied the greater will be the educational value of the parcels post system.

NUMBER NINE.

Whereas, we, the teachers of Chilton county assembled, realize that local taxation is the bed rock of every wise educational system and that compulsory education is the state's surest protection against illiteracy and crime, hereby express our deliberate judgment that unless compulsory education and local taxation be secured our further progress is limited.

Therefore, be it resolved, that we, the teachers of Chilton county, shall strive to send as representative to the next session of the legislature of Alabama a man who shall earnestly seek to place an amendment to the Constitution requiring compulsory education and allowing local taxation by districts.

NUMBER TEN.

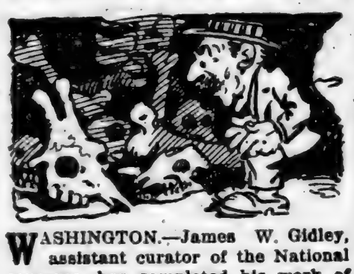
Whereas, the Corn and Tomato Clubs are doing a great work in stimulating our pupils in the practical application of science to farming and gardening, and whereas, we, the teachers of Chilton county, believe that this work is one of the most important phases of education today, therefore be it

Resolved, that we appoint a committee of ten who shall secure prizes for the work done this year and who shall arrange for the early securing of prizes for next year, and who shall give publicity to these prizes and arrange for the proper awarding of the same.

The committee for securing the prizes are Profs. T. E. Williams, J. A. Hunter, F. B. Williams, J. L. Thomas, L. M. Yeargan: J. F. Bone, Miss Lula E. Jones and Mrs. M. L. Gay.

The officers of the School Improvement Association were elected as follows: President, J. A. Hunter; Secretary-Treasurer, Miss Bonnie Jenkins; District Secretarys for Riderville, Mrs. M. L. Gay; for Clanton, Miss Julia Parrish.

The officers of the Reading Circle are as follows: President, C. E. Harris; Secretary, F. B. Williams.



W. T. Bean, Sec. of Institute.

Mrs. Bonfield and Mrs. Tabulsky and little daughter, Estell, of Birmingham are visiting Mr. and Mrs. H. Kanjutzky.

WASHINGTON CITY SIDELIGHTS

Prehistoric Bones Are Found in a Maryland Cave

WASHINGTON.—James W. Gidley, assistant curator of the National museum, has completed his work of exploring the cave at Corrigansville, Md., for the bones of prehistoric animals. The cave was opened when the big limestone cut was made for a railway extension from Cumberland to Connellsville.

Thirty-two distinct forms of prehistoric animals were found, and when the bones are cleaned up and looked into closer the number may run up to more than 40. There are in all about 17 skulls, and ten forms are represented by good skulls.

In the find one of the most important yet made is the following: The mastodon, which lived in about the midpleistocene period, estimated at 150,000 years or more ago. An extinct species of the horse, similar in some respects to the horse of the present day, but of which there was living at that time at least 14 distinct species. The tapir, now to be found no farther north than Central and South America.

An extinct peccary, a hoglike animal of more than twice the size now found in Central America. Bears, two small ones, about the size of the common black bear, but of extinct species, and one large one about the size of a grizzly bear.

The wolverine, an extinct species of an animal not now known except in northern Canada. An extinct species of a large dog like animal about the size of a gray wolf, also one or two smaller species of the same animal, now extinct. Several species of the rodent family, including woodchuck, porcupine and small field mice families. Two now extinct species of the rabbit family, one about the size of the jack rabbit, the other belonging to the group of little coney rabbits, now known only on the high peaks of the Rocky mountains and the high plateaus of Asia. Three different forms of bats now living in this vicinity, and one form of which is now living in New Mexico.

Congressman Fields Tells a Good One on Himself

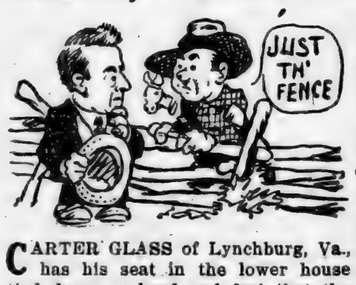
"WHEN I was making my campaign last fall," said Representative Fields of Kentucky, "I started out to cover a country in which I was but little acquainted. Believing, like Polonius, that a fine front was a valuable asset, I arrayed myself in my best. When I got off the train at the county seat, whence I was to make my start, I met the candidate for judge on my ticket, and making known to him my views, I found he agreed with me.

"Accordingly, after putting up in the best quarters at the best hotel in the town, we next morning engaged the handsomest rig the best livery stable could boast, and, with a haughty driver on the box, sallied forth to conquer.

"Night overtook us some miles from the village at which we had expected to put up, but soon after it fell we spied through the gloom an imposing looking mansion with many lights agleam.

"Ringing the bell, we announced ourselves; whereupon a hospitable gentleman came out and ushered us into a parlor whose modest furnishings seemed out of keeping with the dignity and size of the mansion.

"When, later, we went to a belated supper, we were astonished to find a spacious dining room furnished as barely as the parlor.



"It's the true yeoman spirit," explained the candidate for judge, and we got through a most meager meal as best we could.

"We were up betimes next morning, after sleeping in most primitive quarters, that did injustice to the noble mansion, and after a breakfast on a par with the supper we got in our rig and started away. Reaching the summit of a hill some half a mile away, we paused to look back at our night's resting place. Just then a horseman drew up beside us.

"'What place is that?' I queried.

"'That?' he replied. 'Why, that's the county poorhouse!'"

When Boy "Put One Over" on the Congressman

CARTER GLASS of Lynchburg, Va., has his seat in the lower house tied down so hard and fast that the folks down in his district consider it almost a sacrilege even to talk about running against him. There was once a time, however, when the votes didn't come so easy, and in those days Glass made it a practice to get out in a buggy and cover his entire district, shaking every voter by the hand and kissing all their babies.

On one of these tours Glass, driving along a lonely stretch of Virginia road, came to a huge field of scraggly corn being hoed by a boy of perhaps fifteen years. Glass drew his horse up, leaped out of the buggy, walked over and leaned against the fence. After a moment the boy, stopping hoeing, came over and also leaned on the fence on the other side.

Glass introduced himself, and got directions as to how to find the boy's father. Nevertheless, he stopped to chat a while, but the boy was silent and then some. Finally Glass turned to the crops.

"Corn rows are pretty far apart, aren't they?" he asked.

"Yep. Planted 'em that way," responded the boy, briefly.

"Looks pretty small to me for this time of year," said Glass.

"Planted small corn," said the boy, and spat contentedly.

"Maybe you were a little late in planting?" suggested Glass.

"Nope," said the boy succinctly. "We aim to have late corn."

Glass was now rather peeved. He looked at the boy sharply. The latter was "chawin'" tobacco, and gazing calmly out into space.

"H'mmm," said Glass, clearing his throat. "There isn't much between you and a fool, is there?"

The boy looked up quickly, and then spat ruminatively.

"Nope," he remarked. "Just the fence."

Declares He Will Be More Careful in the Future

FRANK D. HESTER, chief of a subdivision of the division of war claims of the pension bureau, is at his desk again. Commissioner Saltzgaber decided that the 90 days' suspension he had imposed upon Mr. Hester was too severe for such a trifling indiscretion as Mr. Hester had committed.

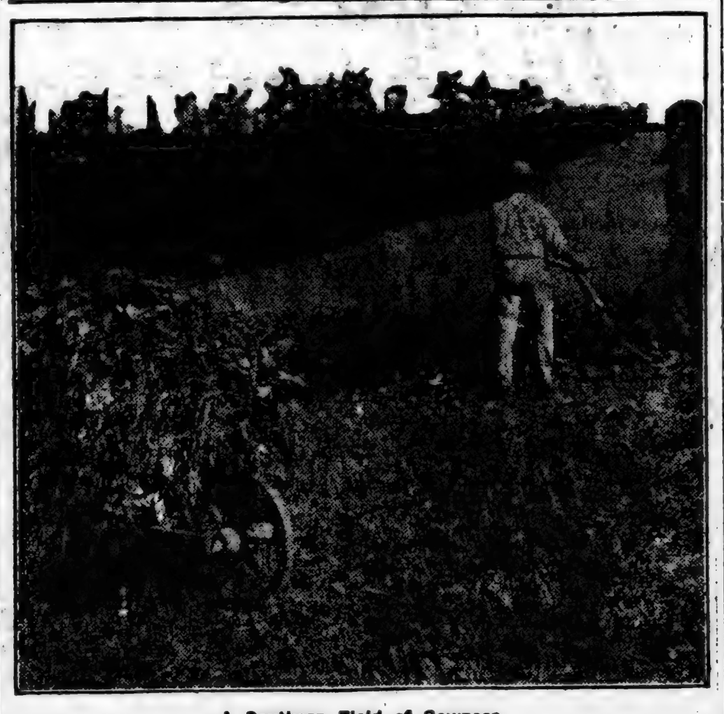
In the latter's subdivision was a pretty temporary clerk who had completed her work and was about to leave. She had been a favorite, and as she was leaving she made a round of the room and planted a smacking kiss upon the mouth of every woman clerk.

Reaching the desk of her now former chief, the smiling young woman, amid the titters of the other clerks, challenged Mr. Hester with:

"Aren't you going to kiss me good-by, too?"

Mr. Hester, with mind engrossed on an official paper, but with chivalry uppermost, rose to the occasion and gave the young woman as good an osculatory farewell as she presented.

The tale was carried to Commissioner Saltzgaber, who promptly suspended Mr. Hester for 90 days, for the story had been enlarged upon on its final recital. Investigation by the commissioner resulted in the withdrawal of the suspension order.



Mr. Hester declares he is going to be careful of his kissing in the future.

To Meet Demand for Dialect.

"Papa, how often have I told you not to say 'I seen you—'"

"Now, ye look a-here, Maggie," interrupted Uncle Charlie Seaver, laying down his knife and fork, "maybe you will make your livin' by good grammar and higher eddecation; but your ma and me, we're just obliged to take in summer boarders, and they demand the dialect if they pay our rates. So what I says goes, whether she's grammatic or not!"—Puck's Quarterly.

PAYING MORE ATTENTION TO LIVE STOCK

A Southern Field of Cowpeas.

(By C. S. MILLER.)

The southeastern states are at last coming to their own, particularly in the matter of livestock. They have to offer, in competition with the most favorable sections of the United States, an abundance of the richest stock feed at very low cost, green pastures nearly all the year round, pure water and a most favorable climate.

The corn-belt is moving southward, and the alfalfa-belt, which not many years ago was thought to be impossible below northern Kentucky, has now slipped down to the Gulf of Mexico.

The south has a tremendous meat market within its own borders. Birmingham, Ala., alone imports over $1,000,000 worth of meat every year, and it is a fact not generally known that, in spite of its long, hot summers, and mild winters consumes more meat per capita than any other section of the country.

It has taken the south a long time to wake up to the importance of feeding her own mouths from her own acres, but now that the vast commonsense of the thing is glimmering through the minds of the intelligent progressive people of that section, they are rising to the occasion in a way that challenges the admiration of the entire country.

It requires over $20,000,000 to supply only 50 southern cities with dairy products every year. Heretofore much of this wealth has come from other states, but now southern farmers are reaping the profits from their own acres.

Some enthusiastic southerners declare that they can prove by the department of agriculture that beef can be produced in the south at a cost of three cents per pound—a rate so low that other sections find it difficult to compete with it.

It is a fact, within personal knowledge of the writer, that in some sections of the south, particularly Virginia, the finest beef in this country is produced on forage alone, every pound of which is shipped to England at high prices.

It is apparent to every man who has made a study of the question that there is a wide difference in the feeding and care of stock in the south, as compared with that of the north and the west.

In many sections of the south cattle are fattened for market without shelter during any period of the year, and in some favored spots they are fed no grain whatever. The raising of blooded stock is also becoming one of the chief industries of the south.

The south is now taking more lively interest in the production of alfalfa than any other single section of the country. Alabama has an alfalfa club, an association of high-class farmers, who several years ago began the study of the value of this plant to the south, and whose efforts to develop it have resulted in widespread benefit to that section.

This club grows alfalfa for profit as well as education, and has declared dividends of from 60 to 105 per cent. Alfalfa in Mississippi yields as high as four tons per acre the season, and there are probably 25,000 acres of alfalfa in the black-belt of Mississippi and Alabama alone.

Farmers of the south are learning how to fatten hogs on alfalfa and cowpeas, making pork as fine as is ever seen in our northern markets and at less cost than it can be produced in many of the northern and western sections.

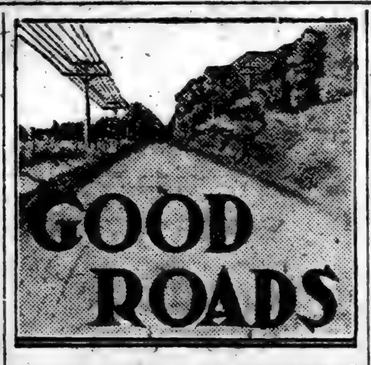
Alfalfa takes kindly to the lime lands of Virginia and the farmers of that state are going into it extensively. J. F. Jack, a progressive Virginia planter, began improving his rather poor soil several years ago with crimson clover and cowpeas, later planting it to alfalfa. He now has 400 acres of alfalfa, which average six tons per acre; and much of it furnishes good pasture during the winter months.

PROPER CULTURE OF ONIONS

Quite Valuable Crop If Best Varieties Are Planted—Worked With Hand Weeder and Cultivator.

The onion crop is a very valuable one, as there is a good market for all grown and at remunerative prices. Gardeners grow two crops off the same land each year. To do this requires deep, finely pulverized and very rich soil. The first crop is raised from sets planted early, just as soon as the frost is out of the ground. The second crop is grown from northern grown seed sown between the rows of sets. Both crops are worked with the hand cultivator and harrow. The seed is sown in 15-inch rows. For the late and winter markets the Yellow Danvers and Southport White Globe are the two standard varieties. Potato onion sets are mostly grown for the select retail trade and for family use. This variety matures early and is mostly used in the green stage, says a writer in the Baltimore American. It is a good variety for family use. Adriatic Barleta is an Italian variety of mild flavor; small, pure white with silver skin, flesh mild, but firm; best variety for pickling. Bermuda White is a large flat onion, matures early and is of a mild flavor.

The growers of onions for the wholesale markets, prefer well-drained muck land. The Southport Yellow Globe and the Round Red are the two leading varieties. The onion ground is always plowed in the fall. In the spring eight large two-horse loads of rotted manure from grain-fed cattle is spread to the acre; 600 to 800 pounds of Peruvian guano substitute is sown to the acre and well harrowed in before drilling the seed. About five pounds of new-crop northern-grown onion seed is sown to the acre. The seed is drilled in with hand drill in 14-inch rows. The Italian growers make the rows only 12 inches apart. The crop is worked with the hand weeder and cultivator.



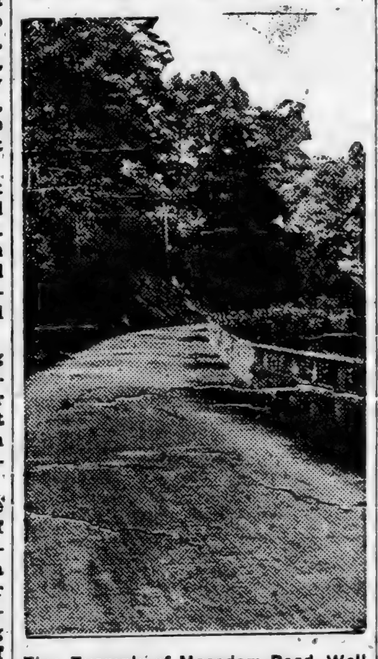
Keep the Cultivator Going During the Hot Spell.

Spotted Calla.

Spotted calla is a summer-blooming plant, and should be reset in winter. In the fall set the pot in frost-proof cellar or room, and withhold water from it until spring. Then, when danger of frost is passed, bed it out in a rather sunny place, and mulch the soil about it on the approach of hot weather with stable litter. Or, if preferred, repot it, giving it a larger pot, and rich porous soil. In either case the plant will bloom during the summer.—E. V. B.

Fowls for the Fair.

Don't wait until near fair time and expect by fattening to make weight take the place of size; the growing bird must be given food to furnish a good frame work; he must have good bone and muscle as well as fat, and the fat must not be the result of forced feeding if the bird is to be used as a breeder. Feed oats and other nitrogenous foods, and make the birds exercise to get it. Grit and bone once or twice a week, about an ounce to each bird, is a partial preventive of leg weakness.



GOOD ROADS ARE PROFITABLE

Loss to Farmers in This Country Traceable to Bad Thoroughfares Is Inconceivable.

The subject of good roads is like the poor, it is always with us. Every season the topic recurs with painful insistence. Even in this enlightened age when inventive genius is doing everything that can be done to improve the conditions of the country, there are places where the roads are so seriously neglected that one can scarcely pass over them with a medium load.

The loss to the farmers in this country that can be traced directly to bad roads, is almost inconceivable, says Kimball's Dairyman. It is not the purpose to try to compute this account here. The expense of hauling, the waste of time in going for repairs or in doing other necessary errands are all increased by poor roads. These are conditions of economical importance but there is another side to the good road question that is of equal importance and that is the social effect.

The farm that is located on a well kept, well improved highway is always nearer town than the one whose road connecting it with the market is rough or poorly kept. The time will come when people will say they are 20 minutes from town rather than two miles from town. With the changes that are being made in methods of transportation changes will also be made in roads. There is sure to be an influence on the social life of a community that can be directly traced to these methods of highway improvement.

Fine Example of Macadam Road, Well Maintained.

The home that is located on a well improved highway is always more attractive; it is worth more when put upon the real estate market and it is a more pleasant place to live because the social intercourse between the neighbors and the town which must always be a social center, is more free. There is less isolation and this is what makes life in the country really worth while. The farm home that is well improved, that is equipped as such homes may be now days, that is located on a highway which puts the town and town friends almost next door to you, leaves little to be desired.

There is still another point in connection with the good road, and that is the attractiveness of a well kept hard road bed. Who has not seen from the car window a long smooth road reaching out into the country bounded on all sides by green pastures or well kept fields passing over gentle hills and through shaded valleys leading ever onward? Such a road exerts an influence that is unmistakable, calling the automobile enthusiast and the one who loves to be out of doors beckoning him to come out and speed over the hard, smooth, floorlike highway. On such a road every turn offers new enchantment. Every change of scene offers new blendings and adjustments of color effect. Surely the well kept road is "a thing of beauty and a joy forever."

Prevent Road Trouble.

Careful use of a drag on a dirt road that is already in reasonably good condition, will almost entirely prevent trouble from ruts, mud holes or dust, and give good service at low cost.

Implement Does Much Good.

The road drag is a simple instrument, but when used at the proper time it does so much good that its results are unbelievable by those who are not acquainted with it.

Material Is Immaterial.

It does not matter if the road drag be made of a split log, a large bridge plank, or an old iron rail—either of these will do the good work.

REAL MERIT HAS MADE BOND'S LIVER PILLS a household word through the South. We have spared neither time nor money in perfecting BOND'S PILLS for the cure of Headaches, Biliousness, Constipation, Malaria, and similar ills. MERIT was our chief object. Not how "cheap" but how good we could make them.

The extraordinary success of BOND'S PILLS is due solely to their MERIT, not to loud and misleading claims of CURING EVERYTHING. Adv.

Washington's population last year increased by only 361.

To Cure Sore and Tender Feet. Apply the wonderful, old reliable DR. POSTER'S ANTISEPTIC HEALING OIL. 25c, 50c, $1.00.

Sign.

"Is this feast to be a mad revel?"

"Guess so; I can see the champagne bottles foaming at the mouth."

For SUMMER HEADACHES Hicks' CAPUDINE is the best remedy no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 25c and 50c per bottle at medicine stores. Adv.

Fashionable Sanitarium.

"The boss is worried about this sick patient."

"He seems weak."

"Yes; too weak to sign a check."

No. SIX-SIXTY-SIX This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

Improving on the Idea.

"Is that amateur musical organization moribund?"

"It's worse than that. It's as dead as a door nail."

Royal Metamorphosis.

"The King, changing into a four-horsed carriage, drove through the cattle section."

A characteristic example of royal tact.—Punch.

Handsome Is as Handsome Does.

Sanford—So you don't believe in judging a man by his clothes?

Crabshaw—No, indeed! That's the way we judge a woman, and look how we get fooled!—Judge.

Friendly Tip.

Ragman—Any old bottles today, mum?

Woman—No; but you might try Mrs. Soakem's, next door; his wife's coming back from the seashore tomorrow.

How He Would Have Them.

"How will you have your eggs cooked?" asked the waiter.

"Make any difference in the cook 'em?" inquired the cautious customer with the brimless hat and the ragged beard.

"No."

"Then cook them on the top of a slice of ham," said the customer, greatly relieved.

Climbing Up.

"Art in America is not respected," said Arthur Stringer, the poet and novelist. "What ice does a poet cut among us compared with a Rockefeller or a Carnegie?

"Poets are rated incredibly low here. As I reclined in a hammock poetizing on a farm lawn last week a tramp approached and asked the farmer's wife for pie.

"She gave him pie, and, while he ate, they conversed. I heard a snatch of their conversation.

"'You say you used to be a poet,' said the woman.

"'Yes'm,' replied the tramp. 'That's how I got my start.'"

AN OLD NURSE Persuaded Doctor to Drink Postum

An old faithful nurse and an experienced doctor, are a pretty strong combination in favor of Postum, instead of tea and coffee.

The doctor said:

"I began to drink Postum five years ago on the advice of an old nurse.

"During an unusually busy winter between coffee, tea and overwork, I became a victim of insomnia. In a month after beginning Postum, in place of tea and coffee, I could sleep anything and sleep as soundly as a baby.

"In three months I had gained twenty pounds in weight. I now use Postum altogether instead of tea and coffee; even at bedtime with a cracker or some other tasty biscuit.

"Having a little tendency to Dyspepsia, I used a small quantity of saccharine instead of sugar, to sweeten with. I may add that today tea or coffee are never present in our house and many patients, on my advice, have adopted Postum as their regular beverage.

"In conclusion I can assure anyone that, as a refreshing, nourishing, nerve-strengthening beverage, there is nothing equal to Postum."

Name given by Postum Co., Battle Creek, Mich. Write for booklet, "The Road to Wellville."

Postum comes in two forms.

Regular (must be boiled).

Instant Postum doesn't require boiling but is prepared instantly by stirring a level teaspoonful in an ordinary cup of hot water, which makes it right for most persons.

A big cup requires more and some people who like strong things put in a heaping spoonful and temper it with a large supply of cream.

Experiment until you know the exact amount that pleases your palate, then have it served that way in the future.

"There's a Reason" for Postum.

AW ESCAPES FROM ASYLUM

AW'S DASH FOR LIBERTY HAD BEEN WELL PLANNED. RUSHED AWAY.

E INMATES WERE ASLEEP

ers Didn't Know What Was Occurring Until Thaw Leaped Into Auto and It Dashed Off.

atteawan, N. Y.—Harry K. Thaw, layer of Stanford White, escaped the hospital for the criminal inhere at 7:45 o'clock in the morn- A dash for liberty through an gate, a leap into the open door a powerful automobile that stood ring outside and a flight like a for the Connecticut state line ty miles away accomplished the ape.

During past an attendant who had opened the gate to the asylum nds for the milkman to enter, w leaped into a six-cylinder autoile which stood throbbing oppothe entrance, and disappeared in whirlwind of dust in the direction the Connecticut state line. A secd automobile followed him.

In his powerful car Thaw swept ough the hamlet of Stormville, ten es away, at 60 miles an hour, headfor Connecticut.

A reward of $500 has been offered Doctor Kieb for Thaw's apprehen-

Thaw's former counsel and officials the state hospital commission exssed the opinion that Thaw would a free man once outside the state's ndaries. They thought he could t be brought back to New York by radition unless he were legally dged insane in the state to which fled.

Mrs. Mary Copley Thaw, the fugi-'s aged mother, manifested de- at his escape. Mrs. Evelyn Nesbit Thaw, playing at a New York eater, professed to be terrorized d said she feared he would attempt execute his threat to kill her. Po- and detectives guarded her.

Five confederates manned the car which Thaw escaped and a big ousine which trailed it past the rium gate.

The mix-up in Albany over the govrnorship is regarded as favorable to w's prospect of remaining long out the state, even if apprehended and radition papers are issued for his rn.

Howard H. Barnum, the gateman, om Thaw eluded in his dash for waiting automobile, was lodged in county jail at Poughkeepsie on charge of aiding and abetting w in his escape. Sheriff Hornbeck d John E. Mack of the district atney's office took Barnum in an auobile to the jail. An all-night rd degree" ordeal awaited him e, it was said.

May Indemnify Japanese.

Tokio, Japan.—It was announced that the United States has intiated readiness to favor in principle the payment of an indemnity to panese subjects who have been affected by the California alien land nership legislation. The United tes ahs also recognized the right Japan to adopt a measure similar the California bill. From intimaons given in official circles it apears unlikely that Japan will adopt ilar idea. What Japan desires is manent friendly relations with the ited States and therefore she seeks fundamental solution of the difficul- If the United States has no soution to offer, it i sstated Japan will tion to offer, it is stated Japan will a grievance.

Killed in Pistol Duel.

Both are well known ber men of Blakely. Keen shot e at Stamper and missed him exa slight wound over the left eye. had five bullets in his body. He es a wife and several children.

Offers Bill for Military Highway.

Washington.—Provision for a milihighway between Savannah and Screven, Tybee Island, was made a bill introduced by Representa- Edwards of Georgia. The measwould appropriate $300,000 for the rk. Acceptance of offers of free hts-of-way and other assistance ld be authorized, and the federal ne roads office would be required ake necessary surveys and supernd the construction. Work would begin until the Chatham county ers consent to the road.

Urged to Expel Doctor Hale.

Mexico City.—Popular interest in outcome of John Lind's visit to ico as the personal representative President Wilson was divided by efforts of a portion of the local to secure the application of Arle 33 of the Constitution to Dr. Wilon Bayard Hale, who, for some time, been investigating conditions in ico on behalf of the United States rnment. Article 33 is the clause provides for the expulsion of "per- foreigners."

HARRY K. THAW

Made sensational escape from New York state insane asylum.

GOVERNOR IS IMPEACHED

MRS. SULZER MADE EFFORT TO SAVE HER HUSBAND BY SAYING SHE WAS RESPONSIBLE.

Question Arises as to Whether Governor Must Vacate Office Pending Final Settlement.

Only Seven Other Governors Have Faced Impeachment.

New York.—In all the United States only seven other governors have faced impeachment proceedings. These men and the results that followed were:

Charles Robinson, Kansas, 1862, acquitted.

Harrison Reed, Florida, 1868, charges dropped.

William W. Holden, North Carolina, 1870, removed.

Powell Clayton, Arkansas, 1871, charges dropped.

David Butler, Nebraska, 1871, removed.

Henry C. Warmoth, Louisiana, 1872, term expired and proceedings dropped.

Albert Ames, Mississippi, 1876, resigned.

Albany, N. Y.—William Sulzer of New York state, was impeached by the assembly. This action raised a vital question, as to whether, under the constitution, the governor must vacate office pending final adjudication of the impeachment issue by the senate and the court of appeals, sitting jointly as a trial court.

Long articles of impeachment, embracing the findings of the Fawley investigating committee in substance, lay ready for presentation in the desk of Democratic Leader Levy hours before the organization trusted its impeachment resolution to a roll call. With the adoption of this resolution and the creation of a committee headed by Mr. Levy to prepare the articles a recess was taken. Mr. Levy and his associates went through the formality of retiring to reappear within an hour and sent the articles to the speaker's desk with a resolution that they asked be adopted.

A roll call showed the adoption of the articles of impeachment. A committee was appointed to acquaint the senate with the assembly's findings.

After the adoption of the articles of impeachment the assembly quickly passed a resolution appointing nine managers to conduct the impeachment proceedings on behalf of the lower house.

Articles of impeachment against Governor Sulzer, as passed by the state assembly, make a document of over 4,000 words.

They charge the governor with violating penal laws of the state, not only in connection with the filing of an improper and incorrect account of his campaign expenses and diverting campaign contributions to the purchase of stocks, but also in connection with his alleged efforts to prevent witnesses from testifying before the Frawley investigating committee. He is also charged with attempting to maniuplate the stock market by attacks on the exchange.

$20,000,000 Requested for Waterway.

Washington.—Congressional expenditure of twenty million dollars in the immediate future to complete the inland waterway between Boston, Mass., and Beauford, N. C., was recommended to the house by the war department. The plan contemplates a construction of a 12-foot canal, with later improvement to a sea level canal 25 feet wide. Former Chief Engineer Boxby, in making his report to the house, urged federal purchase of the Chesapeake and Delaware canal between Chesapeake and Delaware bays.

Herr Bebel Is Dead.

Zurich, Switz.—August Ferdinand Bebel, German Socialist leader, died here, aged 73. August Bebel probably was the best known of the modern Socialist leaders. He joined the German labor movement in 1862, and continued to struggle for the working classes until his death. He was a member of the imperial parliament almost continuously from its formation in 1871. Not long after the first session he was sentenced to two year's imprisonment for high treason and nine months for lese majeste.

Chicago

NO POSSIBILITY OF DOUBT

Why Western Bishop Was Convinced of the Ancient Lineage of His Eastern Entertainers.

A western bishop once attended a general convention in the east and was entertained by a New England family of long and honorable, if not lovable, lineage. They made no secret of a time-won superiority over any one from the new and crude west, and cited their Pilgrim ancestors constantly. The bishop was minded to bear this in Christian humility and forbearance, and did. But on his return home, he recounted his experiences to the wife; and she, good soul, spoke her mind as it is the privilege of her kind to do, even where mere man must be silent.

"I don't believe that their family is such an old one," she remarked. "Are you sure that their ancestors were Pilgrims?"

"I am certain, my dear," answered the bishop. "This may seem to be exaggeration, but at times you could positively detect the fragrance of the Mayflower."—New York Evening Post.

CRUST COVERED BOY'S HEAD

Bolton, Ga.—"My little boy's head was covered with a hard thick crust which cracked with the least pressure causing a discharge of bloody corruption which was so offensive that I could hardly hold him. He was very cross. Some called it milk crust, another running tetter and another eczema.

"After trying several patent medicines I decided to try Cuticura Soap and Ointment. After using the sample I purchased some Cuticura Soap and a box of Cuticura Ointment. After using Cuticura Soap and Ointment three days I was able to remove all the crust and in one week he was entirely cured. Cuticura Soap and Ointment also cured my baby of an ulcerated sore behind her ear and now we think we cannot keep house without them." (Signed) Mrs. Charles Poss, Nov. 5, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Breaking the Ice.

"Now, Miss Imogene," argues the young man who has been receiving the frigid stares and the monosyllabic replies of the fair young thing who chose to become offended at him at the dinner and continued to accumulate indignation at the opera, "it's perfectly useless for you to attempt to act like an iceberg. Science tells us that only one-eighth of an iceberg is visible, and you—"

Considering the fact that she was wearing an evening gown, he really might have exercised a bit more tact.—Judge.

Not Disorderly.

"So you have been to the art exhibit?"

"Yes, and I found several Whistlers there."

"You don't say! Why don't a guard put them out?"—Birmingham Age-Herald.

The Tender Skin of Children is very sensitive to heat. Use Tyree's Antiseptic Powder for all summer skin affections. It quickly affords the little sufferer relief. 25c. at druggists or sample sent free by J. S. Tyree, Chemist, Washington, D. C.—Adv.

Queer Struggle.

"There is one extremely odd thing which happens often in summer."

"What is it?"

"That there should be such a hot time over the price of ice."

DOES YOUR HEAD ACHE? Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

As Usual.

"Who scored the new musical comedy?"

"The critics, chiefly."

The diplomatic flat dweller calls the janitor the superintendent.

NOT HARD TO MAKE A GUESS

Asylum Superintendent Does Not Reveal Name of Last Relative to Visit Lunatic, but We Know It.

The lunatics tore up and down the white beach; they howled and leaped in the blue sea, quite like sane people.

"They enjoy the summer outing at our shore branch," the superintendent said. "It does 'em good, poor dubs!

"It's a funny thing about a lunatic's relatives. There are reliable statistics about the way a lunatic's relatives stand by him.

"The relative who stands by a lunatic least, who stops visiting him in the asylum first of all, is a brother. The next relative to drop off is a wife. That sounds hard, but it's true. Don't count on your wife if you are going to become a lunatic. Next, husbands drop off. A little truer than wives husbands are, but only a little. Next fathers abandon the lunatic. Next sisters.

"One relative never abandons him till she dies, or he dies, she comes regularly on visiting day, bringing underwear and ties, cakes and tobacco—provided, of course, that the lunatic's a male. If it's a female this relative is equally faithful. And even though, as sometimes happens, the poor, mad creature hates her, curses her, tries to strike her when she visits him, she still remains faithful. When her visits cease they cease for only one reason—death.

"Nor do I need to tell you which relative this one is."

Want Changeable Dresses!

At the recent International Congress of Applied Chemistry in London one of the most celebrated lecturers, Giacomo Ciamician, predicted that women of the future will not be contented with a dress which remains constantly of one color, but will demand colors that change in harmony with their surroundings.

Thus the color of the apparel may be changed without changing the dress. Passing from darkness to light the color would brighten, thus conforming automatically to the environment—the last word in fashion for the future.

This prediction will come true as soon as chemists learn to understand better what are called "phototropic colors," or colors that change with the intensity of the light upon them. In men's wear this might mean that the light-colored suit of the bright summer day would be transformed into a dark suit at night.

Impossible.

Startled he looked about him. "My legs are comfortable," he muttered. "My knees aren't cramped. I can get the kinks out of my calves and even lean back a little. My line of sight is unobstructed. Why, not only can I see everything, I can also hear everything! I can retire to the foyer without disturbing 15 people, or even one, but—I'm so comfortable sitting here that I'd rather stay just where I am. These lights—the music—the scenery—all look real, yes, they strongly suggest reality—but it's impossible. Whoever heard of a comfortable theater? I must be dreaming."

And, doggone it, that's just what he was doing.—Masses.

Quite Late.

Tardy Arrival (at the concert)—Have I missed much? What are they playing now?

One of the Elect—The Ninth Symphony.

Tardy Arrival—Goodness, am I as late as that?

Sibyl's All Right.

"Whom do you consider the most fin de siecle girl in our set?"

"Sibyl Summergirl, by all odds! She gets out of a hammock without first directing the attention of the man to some object in the distance."

Strange to Say.

"Here is a unique novel by a British author."

"What makes it unique?"

"An American girl is introduced in the story and she speaks very fair English."

FUNDS FOR FIGHTING PLAGUE

State Legislatures in 1913 Made Generous Appropriations to Check the Spread of Tuberculosis.

Out of 41 state legislatures in session during the season of 1913, laws dealing with tuberculosis were enacted in 30 states, while in 34 states consideration was given to bills dealing with the prevention of this disease. This is a summary of the legislative campaign for 1913, issued by the National Association for the Study and Prevention of Tuberculosis today.

Appropriations to the amount of over $5,000,000 have been set aside for the treatment and prevention of tuberculosis by the various state legislatures in session this year. Most of this money is for the maintenance of state sanatoria. There are at the present time 39 such institutions in 31 different states, Connecticut, Massachusetts and Pennsylvania, each having more than one sanatorium. Delaware is the only state which has made provision for a state sanatorium for tuberculosis negroes. In addition to the amounts appropriated by the various state governments, congress will be obliged to set aside nearly $1,000,000 for the maintenance of the United States public health, the army and the navy sanatoria, and the tuberculosis hospital of the District of Columbia.

They Probably Will.

"Women's skirts are to be tighter than ever the coming season."

"I don't care, let 'em rip."

St. Louis trade boosters recently visited 22 cities in one week.

Small Souls.

Upton Sinclair was talking about certain millionaire malefactors whose crimes always went unpunished.

"It's hard to understand," said Mr. Sinclair, "how these men escape retribution unless it be, indeed, that they're too small for the meshes of the net."

FAR BETTER THAN QUININE. Elixir Babek cures malaria where quinine fails, and it can be taken with impunity by old and young.

"Having suffered from Malarious Fever for several months, getting no relief from quinine and being completely broken down in health, 'Elixir Babek' effected a permanent cure."—William F. Marr.

The Kind You Have Always Bought.

THIS is the caution applied to the public announcement of Castoria that has been manufactured under the supervision of Chas. H. Fletcher for over 30 years—the genuine Castoria. We respectfully call the attention of fathers and mothers when purchasing Castoria to see that the wrapper bears his signature in black. When the wrapper is removed the same signature appears on both sides of the bottle in red. Parents who have used Castoria for their little ones in the past years need no warning against counterfeits and imitations, but our present duty is to call the attention of the younger generation to the great danger of introducing into their families spurious medicines.

It is to be regretted that there are people who are now engaged in the nefarious business of putting up and selling all sorts of substitutes, or what should more properly be termed counterfeits, for medicinal preparations not only for adults, but worse yet, for children's medicines. It therefore devolves on the mother to scrutinize closely what she gives her child. Adults can do that for themselves, but the child has to rely on the mother's watchfulness.

Genuine Castoria always bears the signature of Chas. H. Fletcher

Central College, Tuscaloosa, Ala.

A college home for young women. A home of highest ideals. A home of parental care. Personal attention of the faculty given the students. Kind but careful discipline. Social atmosphere the best. Highest Christian culture. Number of students limited. Faculty from the best colleges and universities. Fifty-five years of successful work. Students prepared for life work. Our former patrons satisfied with the institution. A degree from the Central College represents conscientious work on the part of the faculty and faithful application on the part of the student. A select school. A safe school. A school with a curriculum that meets the demands. A school with prices that are moderate considering the advantages offered. Write for new catalogue.

One Year	$1.00
Six Months	.50
Three Months	.25
Single Copy	.05

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

Our sympathies are with Harry Thaw; we hope he will not be extradited, or if he is, he will not be returned to New York state.

Why doesn't Governor O'Neal heed the voice of the people just once and call that extra session? Is he actually afraid of his own legislature?

We heard a remark upon the streets the other day which was quite amusing. The speaker said "Yes, Mr. Comer will undoubtedly be elected by a good majority, but the L. & N. railroad will see to it that he never takes his seat as governor! What next?

The High School proposition and the Water Works scheme seem to be laying dormant just now; better push hard while the spirit is on, otherwise it may die—one or both—just as have many other bright schemes for Clanton.

Press dispatches state that in the event O'Neal calls a special election to fill the vacancy caused by the death of Senator Johnston, every member of the Alabama delegation in Congress will come to Alabama to stump the State for Clayton. We do not believe this, we cannot believe it. Congressional nominations are not far off and the people will not forget those who are vigorously opposing Hobson merely to bolster up a political machine. The people have a voice these days and will use it.

BOLL WEEVIL

MAKES APPEARANCE IN CHILTON

One who has had experience with the genuine boll weevil in the western states which have been devastated by the boll weevil, brought to this office last Tuesday a vigorous looking bug which he stated was the identical kind of bug which had devoured the cotton crops of the west. This Mr. Bug was placed under a large magnifying glass and closely examined by quite a number of gentlemen, several of whom pronounced it the genuine article. Of course they have not arrived in numbers yet, but that they are in Chilton county should not be disputed. Perhaps next year they will be with us in numbers; anyway, the farmers should prepare to make cotton their surplus crop, and to raise such things as will not sustain Mr. Boll Weevil. If this is done he will not tarry in this section long and the farmers will be just so much more advanced, for they will soon learn that the road to actual success goes through a territory where cotton is made the cash crop and where corn, potatoes, hay, grains and such things are the principal stock in trade of the planter.

THIRTY-SIX YEAR OLD BABY

OLDEST BROTHER IS FORTY SEVEN

Some time since the Studebaker's, manufacturers of the famous Studebaker wagons, inaugurated a system by which they offer certain valable prizes to those who have been using their make of wagons longest; that person who proves that he has been continuously using a Studebaker for the greatest number of years receives a handsome prize; sixty eight prizes were recently awarded, the winner of the first prize having used one wagon continuously for forty seven years; the winner of the last or sixty eighth prize, had used his wagon thirty six years.

This is a long time to use one farm wagon; it proves that they are exceptionally good wagons; but, it also proves something else. In the first place but four of the sixty eight prizes were won by southern farmers; that proves that the northern farmers have better roads and consequently can make a wagon last much longer than can our farmers over rough roads such as we have to use. It also proves that care will prolong the life of a wagon many years. As a general rule our farmers drive to town and leave their wagons standing in the sun, or rain, as the case may be, return home, unhitch and leave the wagon under a sapling or out in the open, whichever proves the most convenient, and there it remains until used again. Of course, in two or three years a new wagon is needed. See?

ANOTHER IN TOILS

EMMETT VAULT CAUGHT RED HANDED.

Wednesday afternoon Deputy Sheriff Fallon arrested Emmett Vault, charged with violation of the prohibition laws. He was apprehended in the very heart of Clanton with eighty pint bottles of whiskey. Because of the present condition of the county jail and also because Vault was unable to make bond, he was carried to Montgomery Wednesday afternoon and placed in jail at that place.

The Tipton Mullins building is nearing completion and will soon be ready for occupancy.

Our friends are invited and requested to send us in all the neighborhood news; we will appreciate it and so will our readers.

Subscribers who do not receive their paper regularly and on time are requested to notify the editor of the Press, giving date and post office address.

Articles containing advertising matter of any character will not be published as news unless paid for in advance and are marked as advertising.

Notices of all-day singings and kindred subjects are invited as news articles, but they will not be published more than one time except as advertising matter at regular rates.

We wish to cater to our friends and patrons, but dislike to publish articles signed "Somebody's Sweetheart" or "Nobody's Darling" or with other kindred pet names; get something more classical.

Subscribers who are in arrears must forward subscription price in order to keep their subscriptions alive. The Post Office department requires this of us and we request it of our patrous.

Subscribers who wish their address changed MUST furnish the old address together with the new; this is absolutely necessary and unless the old address is given no attention will be paid to requests for change.

Unsigned articles invariably go to the waste basket. If you do not wish your name published we will not do so, but we must have it as a guarantee of good faith. Select a nom-de-plume and stick to it, but always give your proper name in the margin of your communication.

On and after this date all newspaper subscriptions are invariably payable strictly in advance. There will be no variations from this rule. It is the rule of all other newspapers and we have decided to adopt it and adhere to it. Please be governed accordingly.

Articles riduculing or reflecting upon others ither in a social or political way—or otherwise—will not be published except when paid for at regular rates (cash to accompany communication) and signed by the writer with proper name. Even then we reserve the right to reject such articles if in our opinion they are objectionable.

We have heretofore charged nothing for publishing obituaries, but our columns cannot be used as grave stones without we receive something for the service. Three hundred words will be published absolutely free, but all in excess of that number must be paid for at the rate of one cent per word—cash to accompany.

RESOLUTIONS OF RESPECT

From Clanton Lodge No. 304, I. O. O. F.

Whereas the great Ruler, the Creator of our being, and the only one knowing the destiny of our souls, in His great power and wisdom, has seen fit to remove from the walks of men our friend and brother in Clanton Lodge No. 304, I. O. O. F., Albert M. Cunningham, who was born in Madison county, near Huntsville, Ala., Aug. 11th, 1869, but when when a small boy moved to Chilton county, and lived here until July 15th, 1913, when the death angel came and took our brother home. He was a member of the Methodist Protestest church, and lived a Christian life until death, having been a member of Clanton Lodge No. 304, for only about three years. He leaves a devoted wife and two children and a host of friends to mourn his loss.

And whereas this Lodge feels keenly the loss of our brother, therefore be it

Resolved, that we extend to his loved ones, who suffer most keenly the sorrow of separation, our heartfelt sympathy in this great sorrow which some of us know from experience, and pray the blessings of the comforting influence of the Holy Spirit upon them and point them to Him who doeth all things well, and to whom we must humbly bow.

Be it further resolved, that a copy of these resolutions be sent to his wife and family, a copy published in the county papers, and a copy spread upon the Lodge minutes. Respectfully submitted,

J. W. P. Murphy,
J. M. Parrish,
E. B. Deason,
Committee.

FLY EXTERMINATOR

For some weeks the common house fly has made the Press offices its rendezvous, much to the annoyance of all connected with the office; work, at times, had to be suspended so annoying were the pests, and everything possible was done to rid the offices of their presence, but without avail; last week Mr. Frank Goodgame undertook the contract of exterminating the little nuisances, and right successfully did he comply with his agreement.

He uses some kind of concoction, known only to himself, with which he sprays a building, and after two or three applications Mr. House Fly flies away. Where, last week, the Press office was harboring untold millions of the pesky things it is a rare thing to see them in the office now—thanks to the administration of Mr. Goodgame's very effective remedy. If you are annoyed with house flies and do not know how to rid yourself of them, drop a line to Mr. Goodgame and have him apply his lotion.

Judge E. B. Deason went up to Thorsby Wednesday afternoon in the interest of Unity-Chilton Baptist High School, he being president of the Board of Trustees.

Quite a party of gentlemen from Montgomery and Birmingham came to Clanton Wednesday and spent the day at the Coosa river dam on a tour of inspection.

FOLEY KIDNEY PILLS
FOR RHEUMATISM & KIDNEYS AND BLADDER

Fox & Company
Real Estate Agency, Clanton, Ala.

SOUTHERN UNIVERSITY
Greensboro, Ala.
A SCHOOL OF CHARACTER

THE COLLEGE

1. The EDUCATIONAL STANDARDS meet the college requirements of the National Association of State Universities, of the Southern Association of Schools and Colleges, and of the Alabama Association of Colleges of which the institution is a member. The curriculum is high and varied, and the instruction is careful personal and thorough.

2. The IDEAL of the institution is the development of CHRISTIAN CHARACTER. It believes the studies are more impartant than athletics, and that righteousness is more important than all. And this belief determines its whole attitude and policy.

3. The COST per year is very low. Tuition, fees and board amount to only $200 for the full nine months session,—$150 for the sons of ministers and ministerial students.

THE FITTING SCHOOL.

For the benefit of students who are not yet prepered to enter college, but who desire the advantages of a high grade preparatory school, the Southern University has established and maintains its FITTING SCHOOL. This school offers a standard high school course under peculiarly attractive coditions. Students of the Fitting School enjoy the privileges of a college gymnasium, library, Y. M. C. A., and all public lectures and entertainments given by the college. At the same time, they have their own dormitory, where they live together with the principal and his family and the Matron, and so have the advantage of close association with their teachers, and constant supervision by them. The cost is the same as in the college.

FALL TERM OPENS SEPT. 10, 1913.

ANDREW SLEDD, Ph D. (Yale) D. D., L. L. D., President,
RALEIGH W. GREENE, B. S., B. D., Prin. Fitting School.

Mr. and Mrs. E. M. Pinckard and children left Monday night for Biloxi, Miss., to enjoy the fishing and bathing of that famous gulf coast resort.

The negro Baptists of Clanton had a big baptising at the creek Sunday afternoon, which was largely attended. Four candidates were baptised.

Postmaster Antoine Deloria, Gardner, Mich., speaks for the guidance of those troubled with kidney and bladder irregularities and says "From my own experience I can recommend Foley Kidney Pills. My father also was cured of kidney disease, and many neighbors were cured by Foley Kidney Pills." Alred Drug Co.

Mr. and Mrs. J. C. Jones and Miss Ruth Kate Mullins are spending some time at Talladega Springs.

How The Trouble Starts.

Constipation is the cause of many ailments and disorders that make life miserable. Take Chamberlain's Tablets, keep your bowelr regular and you will avoid these diseases. For sale by Alred Drug Co.

Mrs. Wilson Z. Hodges of Franklin, Ga., after spending several days with her mother and friends in Clanton, has gone on a visit to her brother and sister at Talladega Springs, after which she will visit in Roanoke for some time.

Mr. W. B. Rubenstein has been confined to his room for the past several days.

WANTED—Young men and women to become Telegraph Operators. Draughon's Business College, Montgomery, Ala., can qualify you in 60 to 90 days. Positions secured for students. Write Telegraphy Dpt. for full particulars.

Dr. Matthews has purchased a handsome five passenger Cadillac and is fast becoming an expert autoist.

Costly Treatment.

I was troubled with constipation and indigestion and spent hundreds of dollars for medicine and treatment," writes C. H. Hines, of Whitlow, Ark. "I we it to a St. Lous hospital, also New Orleans, but no cure was effected. On returning home I began taking Chamberlain's Tablets, and worked right along. I used them for some time and am now all right." Sold by Alred Drug Co.

Messrs. Newt Kicker, F. R. Woodyard, H. M. Simpson and Senator Curry, totally oblivious of the senatorial muddle and the gubernatorial squabble in New York, enjoyed several days fishing on the Coosa.

All the citizens are asked to be present at the Court House, Thursday evening at 7:45, for the purpose of making arrangements preparatory to inviting the State High School Commission to Clanton. Every one should consider this a part of his individual business and be on hand.

J. J. Pickens.

Mr. Thos. D. Woods of Maplesville spent last Sunday in Clanton as the guest of friends.

Dr. E. G. Hyman of Jemison was among the county visitors to Clanton this week.

JUST ONE MORE WEEK

BABY CONTEST PROGRESSING NICELY.

If you have a pretty baby, it doesn't matter whether the little dear is a boy or a girl, just so it's a baby, you should surely enter that child in the baby contest to be decided next Thursday (Aug. 28) which is being conducted by the Aid Society of the Methodist church.

The fact that this contest is conducted in all its details by ladies insures perfect fairness, hence you need entertain no fears of corruption in the counting of the ballots. Besides the probability of having your precious one declared the most popular youngster in town you will be aiding a most worthy cause. The following children have already been entered in the contest, there are yet many others to follow, make yours one of the most popular:

Little Misses Mary Goodwyn Jones, Kathryn Hayes, Sarah Luckie; Masters Jas. H. Middleton, Jr., James Wade, Charles Simpson, Emmett Matthews Wimberley, Percy I. Hopkins, Jr., J. C. Cooley, Jesse Sam Gowan, Joseph Luckie. More will be announced later. For information call on Mrs. Dr. Matthews or Mrs. Jas. H. Middleton.

NOTICE

The County Educational Board has been called to meet at Clanton next Friday, Aug. 22d, 1913, to transact any business that may come before that body.

J. W. Moore, Co. Supt. Ed.
Clanton, Ala., Aug. 18, 1913.

FOLEY KIDNEY PILLS
FOR BACKACHE KIDNEYS AND BLADDER

ANOTHER FEARFUL ACCIDENT

YOUNG CLARENCE CALLOWAY INSTANTLY KILLED.

Just as we were preparing to go to press, news comes of the sudden and accidental death of young Mr. Clarence Calloway near Cooper, just south of Clanton. It appears from the best information obtainable at this hour. that young Calloway was engaged in hauling logs for a saw mill and that he had gone alone into the woods with his team to bring in a load of logs. He was gone so long that a searching party was organized and when found he was cold in death, with a large stick of timber across his body. It appears, however, that it was not the timber which caused death, but the jumping of a cant hook which he was using, as there were a number of bruises about the head and body, his shoulder being badly broken.

The body of Mr. Calloway was brought to Clanton yesterday afternoon and conveyed to the home of his father, Mr. E. B. Colloway. The funeral services take place today at Samaria church.

NOT EATS, BUT DRINKS

MANUEL DUBOSE CAUGHT WITH THE GOODS.

If Sheriff Jones continues to corral the fiery liquid for the next few weeks as he has for the past several, the Commissioners will have to construct an annex to the jail to store away the liquid refreshments which are confiscated by law.

Tuesday night Sheriff Jones and Deputy Crow discovered Manuel DuBose driving into the dam camp with five suit cases filled with pints of whiskey—one hundred and eighty pints all told; they immediately put Mr. DuBose under arrest to answer to the court for having such a large quantity of liquor. Mr. DuBose had no difficulty in making bond and is now at liberty pending the adjudication of his case by the court.

Mr. C. L. Langston, one of Chilton's most progressive and success ful planters, was circulating among Clanton friends Tuesday.

The meetings at the Methodist church are being well attended, but there are many others in Clanton who could attend if they would and who would not be contaminated or disgraced by doing so.

DENTIST
JEMISON, - ALA.

For Neuralgia, nothing is better than
Dr. Miles' Anti-Pain Pills
Used by thousands for a generation

Those who have suffered from neuralgic pains need not be told how necessary it is to secure relief. The easiest way out of neuralgia is to use Dr. Miles' Anti-Pain Pills. They have relieved sufferers for so many years that they have become a household necessity.

"I have taken Dr. Miles' Anti-Pain Pills for five years and they are the only thing that does me any good. They have relieved neuralgia in my head in fifteen minutes. I have also taken them for rheumatism, headache, pains in the breast, toothache, earache and pains in the bowels and limbs. I have found nothing to equal them and they are all that is claimed for them."

J. W. SEDGE, Blue Springs, Mo.

At all druggists—25 doses 25 cents. Never sold in bulk.
MILES MEDICAL CO., Elkhart, Ind.

No. 666

This is a prescription prepared especial for MALARIA or CHILLS & FEVER Five or six doses will break any case, as if taken then as a tonic the Fever will n return. It acts on the liver better than Calomel and does not gripe or sicken. 2

ANOTHER WRECK

NO ONE HURT, BUT SEVERAL CARS DESTROYED.

Another disastrous wreck occurred out near the river dam in which a num of cars were almost totally destroyed, but, strange to say, no one sustained any injuries.

The following marriage licenses have been issued this week:

Mr. D. H. Bates to Miss Era Kincaid,

Mr. W. T. Morris to Miss Luedlia Smith.

The latter couple were married Saturday afternoon at the court house by Judge E. B. Deason, who spoke the impressive words which made happy two young hearts.

Miss Lillian Irene Jones, who has been visiting her mother and friends in Clanton, returned last Friday to Birmingham, where she will resume her duties at the South Highlands Infirmary.

Which td a daughnut,
is a cousin
The latter we bake
Fresh each day
And sell at 15 cents
The dozen

The holes in the center of the doughnuts we bake
Are smaller than in many others,
Thus more for the price
if ours you take,
And you'll find no better crullers.

Clanton Cafe and Bakery

Mr. G. P. Aldridge brought to this office on last Tuesday a genuing specimen of the destructive boll weevil which he found in a cotton field near Clanton.

Dr. and Mrs. Upchurch and children are taking a two weeks vacation visiting points in the north and east.

ENVOY LIND HAS DELIVERED NOTE

PRESIDENT WILSON'S MESSAGE TO HUERTA HAS BEEN PRESENTED.

CONTENTS NOT MADE PUBLIC

Lind Admits That He Has Held Conferences With Mexican Minister Gamboa.

Mexico City.—President Wilson's message to President Huerta is now in the possession of the government, which may be expected to reject it or to return some answer shortly. Foreign Minister Gamboa, in the two conferences he has had with John Lind, came to the conclusion, with the consent of President Huerta, that the simplest way to an end was to accept the document for President Huerta and his cabinet, and study it.

It would appear now that, as the message has been in the possession of the Huerta government some time, and no action concerning it has yet been announced, the government is not disposed summarily to reject it. It is argued by those who have been watching the efforts of President Wilson to effect a settlement of Mexico's difficulties that the longer Mexico delays her answer, up to a reasonable time, the more reason there is for hope that President Huerta is disposed to give friendly consideration to the document.

The government remains silent regarding the entire matter, but Mr. Lind, with the consent of Senor Gamboa, admitted for the first time to American newspaper correspondents that he had held conferences with the Mexican minister of foreign affairs.

While neither of the principals will admit the fact, information has been obtained that the object of Mr. Lind's visit to Senor Gamboa was to deliver President Wilson's note. As an indication of the determination of Mr. Lind to so conduct himself that he cannot be criticized for talking too much in unofficial quarters, he refused to grant an interview to a group of well-known politicians, including a number of members of the chamber of deputies. The group belongs to what is known as the reform element, and were close supporters of the late President Madero. Mr. Lind told them that, until his official mission was fulfilled, he did not desire to discuss Mexican politics with other persons than officials.

REFUSES CALL FOR PRAYERS

Their Efficacy in Case of Drouth Is Doubted by the Chief Executive.

Kansas City.—Prayers for rain were asked for in Kansas and Missouri by citizens and clergymen who believe that spasmodic prayers are not sufficient to end the drought which has beset the southwest. In Kansas hundreds of persons wrote to Governor Hodges, asking him to issue a proclamation calling for a day of public prayer. The governor declined.

"I believe in the efficacy of prayer," said the governor, "but not in the case of flood or drouth."

At Springfield, Mo., Rev. J. E. McDonald, pastor of St. Paul's Methodist Episcopal church, announced public services would be held to offer prayers for rain.

The letters to Governor Hodges were from all parts of the state. Some urged the governor to ask that every resident attend church Sunday, and that every one make a prayer of his own. Others urged that the proclamation simply ask each citizen to offer a prayer at his home or at church.

Destruction by Electrical Storms.

Winnipeg, Man.—The worst electrical storm in years ,accompanied by a sixty-mile gale, swept across Manitoba fgrom Brandon to the eastern boundary. Hundreds of thousands of dollars damage was done. The harvest had just begun and damage to the grain cannot be estimated. At Milwaukee, Wis., buildings were struck by lightning when the severest electrical storm of the year swept over the eastern portion of Wisconsin. The loss will reach thousands of dollars. Oshkosh reported 27 houses struck by lightnig.

Cincinnati Loses Taft as Citizen.

Cincinanti.—That Cincinant has lost former President William H. Taft as its most prominent citizen was made known through the report of an humble collector of taxes in the ward in which Mr. Taft formerly resided. The assessor reported that he had never received a report from Mr. Taft as to his taxation. The board of review, the official taxing body, took up the matter with Mr. Taft at his summer home at Point-au-Pic, Canada, and Mr. Taft replied that he is now a citizen of New Haven, Conn.

1,200 Persons Killed in Fighting.

Canton, China.—Twelve hundred were killed in fighting in Canton. Pillage is in progress everywhere. Half of the government troops have joined the rebels and altogether they have looted the principal goldsmiths and silversmiths' stores. Local officials and army officers are powerless owing to dissensions among themselves. An attack on the foreign concessions at Shameen is believed by foreign residents to be in contemplation and the Indian native troops stationed were reinforced from Hong Kong.

THAD A. THOMPSON

The diplomatic ability of Thad A. Thompson, the newly appointed minister to Colombia, may be put to an early test in connection with the Canal Zone. He is a wealthy business man of Austin, Tex., and never before held public office.

JAPAN WON'T RECEIVE DIAZ

PRESIDENT HUERTA'S ENVOY IS BARRED BY MIKADO OF JAPAN.

The Japanese Government Refuses to Receive Felix Diaz as an Official.

Tokio, Japan.—The Japanese government intimated to the Mexican government that it would not receive Gen. Felix Diaz as special envoy to Japan to express the thanks of Mexico for Japanese participation in the Mexican centennial. It declared that it would receive General Diaz only as a private individual.

The Diaz party left Seattle for Vancouver, whence they planned to sail for Japan.

Gen. Felix Diaz was appointed special envoy to Japan on July 17 and left Mexico City two days later. He intended to proceed to Japan by way of Los Angeles and Vancouver. In Los Angeles he was met by a hostile demonstration from opponents of the present provisional government of Mexico and was kept there for several days in consequence of the receipt of lengthy dispatches from Mexico City.

It was announced on August 2 by the Japanese legation in Mexico City that the emperor of Japan would be absent from the imperial palace for several weeks.

Vancouver, B. C.—After reading the dispatch from Tokio, General Diaz said he would go to Japan anyhow, regardless of the Japanese government's attitude toward his mission.

Two Men Injured by Train.

Marietta, Ga.—Mitt Latimer and Emmett Benson were badly injured, the two horses they were driving were killed and the carriage was demolished, when struck by a southbound W. & A. train at a crossing three miles north of this city. aLtimer had an arm broken. The two were returning from a reunion of Philip's Legion, held at Kenensaw, and had driven upon the track unaware of the swiftly approaching freight train.

No Government Money for Speculation

Washington.—Banks which borrow or loan money for speculative purposes will be denied any portion of the $50,000,000 of government funds about to be deposited in national banks to assist in moving the crops, and the entire amount will go to institutions that earnestly strive to meet the currency demands of the agricultural sections. This policy of the treasury department was announced when Acting Comptroller of the Currency Kane, in connection with a call for the condition of national banks

Kansas Hottest State in U. S.

Kansas City.—Reports from the various government weather stations showed that average temperatures in Kansas were higher than on any previous year. In Missouri and Oklahoma the maximum temperature of the season was equalled. For nie successive days temperatures in Kansas have averaged higher than 100 degrees. This has been the most severe hot weather period in Kansas in 27 years and at Topeka . Extreme humidity and hot winds added to the discomfort in Kansas.

UNCLE SAM MUST RECOGNIZE HUERTA

MEXICAN GOVERNMENT DELIVERS ULTIMATUM TO UNITED STATES.

ASSUME DEFIANT ATTITUDE

Huerta Announces That He Will Tolerate No Interference From Any Source.

Mexico City.—Immediate official recognition of the Mexican government by the United States has been demanded by President Huerta, it is officially stated.

The government is not specific in the public announcement as to what course will be pursued, but it is understood that it means the severing of all relations between the two countries.

Senor Urrutia, minister of the interior, who on previous occasions has been the spokesman for the administration, was the person chosen to make the announcement.

Senor Urrutia refused to give out the text of the correspondence between Mr. Lind and the Mexican government, but confirmed the fact that an exchange of notes had taken place. Two notes from Mexico have been sent to Washington. The first was a reply to that delivered by Mr. Lind. This note included the demand for recognition of Mexico. President Huerta in his reply, is reported to have told the United States that he would tolerate no interference, even though that interference might be characterized as friendly mediation.

The second note was sent direct to Washington and demanded that a reply to the previous note oe made immediately.

This is regarded her as an ultimatum.

One official in discussing this latter note said that Mexico had reached the point where she either must bow her head in humiliation before the United States or adopt an attitude of defiance. The first contingency, he added, was regarded as impossible.

Washington — Administration officials were puzzled when they received the announcement through press dispatches that Provisional President Huerta had delivered an ultimatum demanding recognition of his government in Mexico by the United States.

Secretary Bryan said he had received merely cablegrams announcing the rejection by the Huerta government of the American suggestions for a peaceful settlement. In the absence of official confirmation Secretary Bryan said no announcement would be made by this government.

VESSEL SINKS; 30 PERISH

Pacific Coast Steamer Strikes Uncharted Rock and Sinks in Three Minutes.

Juneau, Alaska. — Twenty-five or more passengers and seven members of the crew of the Pacific Coast Steamship company's steamer State of California perished in Cambier bay, 90 miles south of Juneau, when the vessel struck an uncharted rock and sank in three minutes, with many passengers imprisoned in their staterooms.

The steamship Jefferson, of the Alaska steamship line, southbound, heard the wireless call of the sinking vessel and turned back to rescue the survivors who had taken to small boats and life rafts. Ten of the passengres had suffered so severely from exposure that it was necessary to take them to a hospital in Juneau for treatment.

The State of California, an iron steamship of 2,276 gross tons, was built at Philadelphia in 1879, and carried a crew of 75 men. The ship was valued at $400,000.

GLYNN IS LAWFUL GOVERNOR

Attorney General Hands Down Official Opinion on Governorship Controversy.

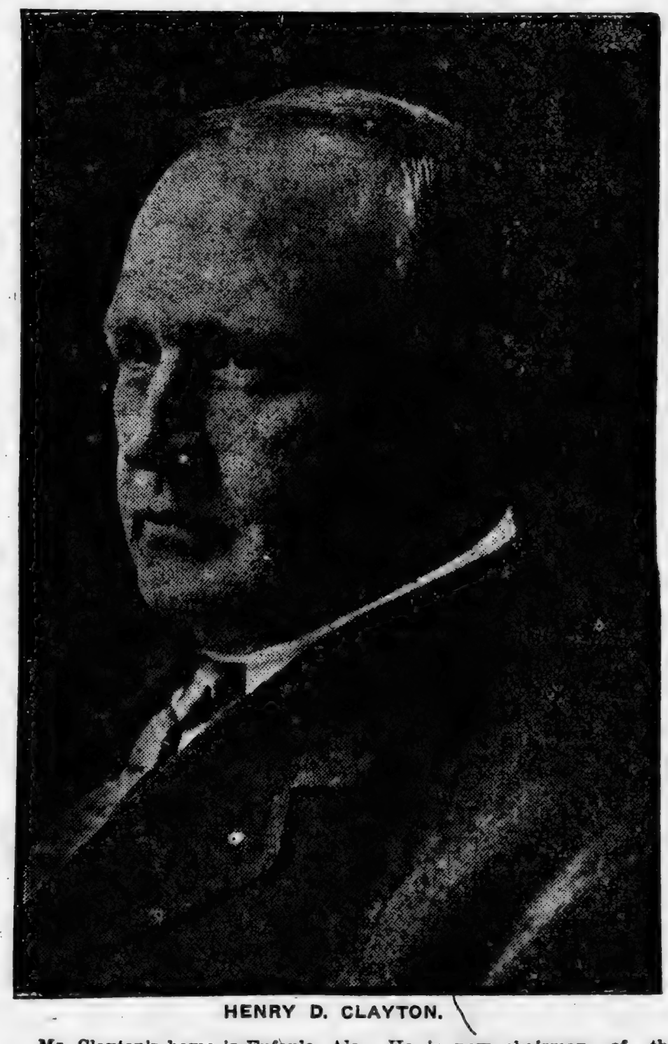
Albany, N. Y.—Lieutenant Governor Martin H. Glynn is the lawful chief executive of New York state pending the outcome of impeachment proceedings against Governor Sulzer, according to an official opinion handed down by Attorney General Carmody to Secretary of State Michael May. Mr. Carmody holds that the assembly was within its rights in instituting impeachment proceedings at an extraordinary session.

Boy Kidnaped Years Ago is Found.

Watertown, N. Y.—Word reached here that Frederick Brosseau, aged 24, who was kidnaped by gypsies nearly 17 years ago, has been restored to his parents, Mr. and Mrs. John Brosseau, of Sissonville, N. Y. They had long mourned him as dead. On October 14, 1896, when but 7 years old, young Brosseau left home to meet his father at the edge of the village. That was the last seen of the boy in Sissonville. He was recognized from his pictures in the papers.

CHANGE FOR WORSE IN COTTON OUTLOOK

Montgomery — Considerable change for the worst seems to have come over the crop conditions of Alabama during the past week, and according to reports from the different counties, the dry heat and parching winds are doing much toward deteriorating the crops. In fact, some of the reports declare a critical stage has been reached in a number of counties, and unless early seasonable rains bring relief, the erstwhile excellent crops will bear only a small harvest. The optimism so plainly in evidence a week ago has disappeared from many of the districts and the farmers are suffering a natural discouragement.



The conditions in about a dozen counties are reported as critical at present, while few reports of much progress is reported from the others which are not suffering to such a great extent. In Chambers and Chilton counties much depends on the weather within the next few days, and in Coffee county the crop is also in doubt pending a change. Hot dry winds in Conecuh county are causing the bolls to drop off, and the plant is said to be shedding badly. The crop is also critical in Dale county, and excessive heat and parching winds are doing a big damage to Dallas, Lowndes, Talladega and Shelby. A normal crop, however, is expected to be gathered in Dallas, while 70 per cent. is expected to result in Lowndes. Corn in many of the counties is suffering intensely and especially is it reported in Talladega county.

Despite the drouth and heat of many sections, some of the counties have not been affected in this manner up to the present and still report the excellent crop which was general over the state a week or two ago. The condition in Lauderdale is reported good. In Chilton it is good, but a little shedding is worrying the farmers, while Lamar, Limestone, Lawrence, Macon, Mobile, all report a good crop and a large gathering expected.

New bales were reported during the week in the counties of Bullock, Coffee, Conecuh, Dale, Dallas and Lowndes. Bullock's first new bale was sold at auction by the mayor of the town and brought 16 1-4 cents. Marketing has already begun in Coffee county, and about 25 bales of the year's crop have been received at Enterprise. A large number of them are being received in Dale county and many are expected within the next few days by a number of other counties.

The late cotton is reported thriving well under the circumstances except in Coffee county, where it is said that 25 to 30 per cent. of the crop will be made up of the early cotton. The new crop is reported bad and to be almost a failure compared with the other crop. Coffee also expects a few boll weevils before very long, and is preparing for the insect when it arrives. Attention of the farmer is fastly turning to pastures, beans, cattle and potatoes and other truck and the same report comes from Crenshaw county.

APPOINTED TO THE SENATE

HENRY D. CLAYTON.

Mr. Clayton's home is Eufaula, Ala. He is now chairman of the house judiciary committee. He was born in Barbour county in 1857. He served one term in the Alabama legislature, where he was chairman of the judiciary committee. Mr. Clayton was United States district attorney from 1893 to 1896 and was presidential elector in 1888 and 1892. He was elected to the Fifty-fifth Congress from the Third Alabama District and is now serving his eighth consecutive term in the House of Representatives.

ALLEGED PARTICIAANTS IN HOLDUP IN TOILS OF LAW

Birmingham. — Henry Enis, alleged to have been one of the bandits who secured $92,000 by blowing a Southern express safe on the New Orleans & New York express in a hold-up at Okohula, eight miles south of Hattiesburg, on the night of May 14, 1912, was captured at the home of his father-in-law, Henry Whitley, on the Wolf's Creek road, seven miles west of Carbon Hill, in Fayette county, by a party of Birmingham detectives. There was no resistance made to the officers. Simultaneously Barney S. Lewis, alleged to tbe the ringleader of the band of bandits for the Mississippi train robberies of a year ago, was arrested at Tangipohoa, La., by Special Agent T. K. Trigg of the Birmingham office of the Louisville & Nashville railroad and Sheriff Ballard of Tangipahoa, La.

HOLD TEACHERS' INSTITUTES

South Alabama Counties Have Educational Meets.

Montgomery. — Teachers' institutes for white teachers are being held in the following counties during the week of August 18:

Barbour, at Clio; Butler, at Greenville; Coffee, at Enterprise; Conecuh, at Evergreen; Covington, at Opp; Crenshaw, at Luverne; Dale, at Ozark; Escambia, at Brewton; Geneva, at Samson; Henry, at Abbeville; Houston, at Dothan; Pike at Troy.

Shot in Court Room.

Montgomery. — Intense excitement was caused in the city court room when Robert Sears, constable, and former deputy sheriff, shot down Will Smith, negro, a moment after a jury had acquitted the latter of a charge of shooting at Sears last December while the constable was trying to make an arrest. A single shot broke the negro's arm and another penetrated his shoulder and cheek. He will probably survive. The negro's assailant was placed in jail.

PERRY COUNTY GAINS.

Valuation of the Property Has Increased $62,573.

Marion, — The total valuation of Perry county properties as shown by the books of Assessor E. E. Howell, are for real estate, $2,676,720; personal property, $1,744,210; total, $4,420,930, a gain over 1912 of $62,573. The school tax is $13,262, and the county receives from the state about $29,500. The special road tax amounts to $11,052; the soldiers tax $4,421; the assessors' fees $975.50.

Doubts Whether Sollie Can Run.

Montgomery. — Although Circuit Judge Mike Sollie, of Ozark, has announced that he is a candidate for congress from the Third district, the moment Congressman Henry D. Clayton resigns, there are grave doubts whether Judge Sollie can run. The weight of opinion is against his running on the ground that the state constitution prohibits a judge from running for any other than a judicial office during the term for which he was elected.

IS REGULAR BASEBALL CONTRACT VALID?

Artie Hofman and Jim Sheckard, Former Chicago Cub Outfielders.

The regular professional baseball contract—the link which welds together the great chain of organized baseball—is to be tested in the courts at Chicago.

Arthur F. ("Artie") Hofman, former outfielder and utility man of the Chicago National League Baseball team, has filed suit against the club for $3,000 which he claims is due him as back pay through failure of the club management to notify him of the termination of his contract.

Hofman's suit is an attack on the validity of the regular baseball contract in that he charges a system of practical peonage, by which the player is handled as a chattel. Through this system, according to Hofman's suit, baseball players may be "blacklisted" and kept from earning a living at their profession unless in perfect accord with the club owners.

The system, Hofman alleges, holds its strength through the ironclad agreement existing between each and every club owner in the National, American and other league operating under the "national agreement."

Hofman was traded to Pittsburgh by the Chicago team, but played with the Pirates but a short time. This season he was released to Nashville of the Southern league.

Jimmy Sheckard, another old-time Cub favorite, was released early this season to St. Louis and from there he went to Cincinnati to join Joe Tinker, "Miner" Brown and Johnny Kling, all of whom helped materially to make the Cubs famous.

A rumor anent the getting rid of Jimmy Sheckard is that Huggins feared the former Cub outfielder was after his job as manager of the St. St. Louis Cardinals. Accordingly the St. Louis leader let Sheckard go to the Reds for the waiver price.

RIVIERA TO SEE BALL GAMES

Large Crowds Expected to Witness Pastime in Many Countries—Naples Especially Elated.

"All signs point to a great baseball season on the Riviera next February," said Dick Bunnell of Chicago, director of the projected New York-Chicago world's baseball tour, while in Paris the other day. Mr. Bunnell has been in Europe several weeks making the necessary arrangements.

"I expect the biggest crowds in the Philippines, Japan and Australia, where the game is thoroughly understood," said Mr. Bunnell, "but Naples is also enthusiastic at the prospect of seeing the great American pastime. The chamber of commerce of that city has offered to build a special grandstand, and invitations to dinner and other festivities are forthcoming from many other cities in southern Europe.

"It was originally planned to play in all the leading capitals of Europe, but this will not be practicable because it is too cold. You cannot get crowds to sit outdoors in February in London, Berlin and Paris, or even Munich and Vienna, and the schedule cannot be lengthened because it would make the players late for their spring training tours. Thus the trip probably will end on the sunny Riviera, where the presence every winter of thousands of wealthy and idle people, including many Americans, promises a fine opportunity for successful games. The players can then visit the rest of Europe privately."

NOTES of the DIAMOND

Pitcher George McQuillan, the new Pirate, is a fine tenor singer.

* * *

Ray Fisher has had a contrary season. He keeps losing and losing, but has been pitching uniformly good ball.

* * *

Hugh Jennings, manager of the Detroit team, says there is nothing but the Giants in the National league race.

* * *

Hy Jasper, who has just been purchased by the Chicago club from the Dubuque club, of the I. I. I. league, is a spit-baller.

* * *

Manager Stovall is the only member of the Browns who is able to stay up among the .300 hitters in the American league.

* * *

One of the biggest disappointments Frank Chance has had to face as manager of the Yankees this season has been Russell Ford's inability to return to his old-time form.

* * *

Third Baseman Wallace Smith, sold by the St. Louis Cardinals to Atlanta last spring, is to come back to the big show. The Boston Braves will take him at the close of the Southern league season.

* * *

Numerically right fielders top the list of lead-off men in the batting order. There are five of them just now—Moeller, Daniels, Murphy, Moran and Hooper.

* * *

Oakland of the Coast league has purchased its second outfield candidate from the Three-I league, Ted Kaylor of Danville being the man. A couple of weeks ago it bought Clement from Davenport.

TEDDY CATHERS MAKES GOOD

Former Scranton Pitcher Is Playing Particularly Well for the Cardinals in the Outfield.

Ball players contemplating joining the St. Louis Cardinals should get all possible practice in the outfield, no matter what other positions in the game they may consider as the jobs they are best fitted for. You may be a pitcher, third baseman, first sacker, or what not, but if you become a Card the chances are you will be made into an outfielder, says the Sporting News. Lee Magee was a first baseman; Evans also thought that his natural position; Oakes began life in baseball as a pitcher; Whitted made his mark as a third sacker; Teddy Cathers was a pitcher. Now all are fly chasers. Cathers has filled the role particularly well, so well, in fact, that he never is called upon to pitch, no matter how badly the Cardinal staff may be going. His possibilities as a hitter were soon recognized and when not in the outfield he must always hold himself in

Teddy Cathers.

readiness to do a pinch hitting job. While his batting average does not rank with that of the Zimmermans and the McDonalds, it is a fact that he seldom fails to deliver in a pinch. As a fielder he is also some class. As a pitcher there is no means of knowing what he can do, but judging from his faculty of making good at everything he tackles it may be reckoned he can twirl some, too, if he gets a chance.

Happiest Ball Players.

Bobby Byrne thinks the Pirates are the happiest lot of ball players in captivity. "I never saw a bunch of athletes so full of harmony and eagerness to win as the Pirates," quoth Bobby, who is some optimist. A winning streak has a like effect on almost any club, even a chess team. The enthusiasm of a chess team is so pronounced that it may almost be heard.

Educating Thorpe.

McGraw has no intention of letting out Jim Thorpe. He is doing to the Indian the same as he did to Shafer, Merkle, Fletcher and others—giving him a baseball education by letting him watch the game.

MANY STARS FROM SOUTHERN

Cutting Quite a Figure in American Association Ranks Just Now—List of the Eligibles.

Former Southern leaguers are cutting quite a figure in the American association just now, particularly among the talent quited as sufficiently above part to take a turn in the big show when the season is over and done—or maybe before.

In the list of eligible may be found Jim Vaughn, the Kansas City fork hander, who got his first real tryout with the Memphis Turtles some years ago; Sid Smith, the ex-Atlanta backstop, who also has served time twice in the American league; Bronkie, the former Nashville infielder, now a star with Toledo, and Al Beumiller, whose name was spelled "Beau" in the Southern circuit when he created a mild furore in 1909 by refusing to report to Charley Babb of Memphis.

Following is a list of the eligibles in the Chivington circuit, revised as nearly to date as such things can be:

Pitchers—Davis, Columbus; Loudermilk, Louisville; Vaugn, Kansas City; Walker, St. Paul; Slapnicka and Braun, Milwaukee.

Catchers—Clemmons, Louisville; Smith, Columbus, and Krueger, Toledo.

First basemen—Miller, Columbus, and Weinberg, Louisville.

Second basemen—Benson, Columbus.

Third basemen—Bronkie, Toledo, and Niehoff, Louisville.

Shortstops—Scott, St. Paul; Gerber, Columbus; Beumiller, Louisville.

Outfielders—Walker, Kansas City; Shelton, Columbus; Rehg and Riggert, St. Paul; Stansbury, Louisville.

MOST DARING BASE RUNNERS

George Moriarity and Jimmy Callahan Given Credit for Being Tricky on Base Lines.

Asked recently whom he thought were the best base runners in the American league, catcher Ed Sweeney

George Moriarity.

of the New Yorks replied: "For speed the best are Cobb, Milan and Collins, but if you asked me to name the most daring base runners, I would say George Moriarty and Jimmy Callahan. I consider Moriarty the trickiest base runner in the country."

ASSUMED NAMES IN FEDERAL

Practice Is Growing Less as New League Establishes Itself on Substantial Basis.

With the feeling gaining ground among ball players that the Federal league has been established on a substantial basis, the number of men performing in the organization under assumed names is each day growing less. At the outset it was not unusual for a ball tosser to ally himself with the new company under some cognomen not his own, being fearful lest the league might "blow" before the season was over and leave him in some sort of a state resembling embarrassment. This condition is now almost a thing of the past. One of the last players to come into the league with an adopted "handle" is Ted Warring, former well-known Terre Haute catcher, who is pastiming with Jack O'Connor and his St. Louis club here this week as a right fielder under the name of O'Neil. Ted attracted attention to himself during the fracas with Umpire Conklin in a recent game, and almost gave himself away. He is known as an aggressive ball player and a capable performer behind the bat.

Lauds Lavan.

George Stovall says Maranville of the Boston Nationals may be a marvel, phenom or anything one wishes to call him, but he will match Lavan, the diminutive shortstop he signed from the University of Michigan, with the National league wonder any old day. That valuable jewels are done up in small packages seems to be the correct dope in the case of both Maranville and Lavan.

Johnson's Jinx.

Walter Johnson, the star hurler of the American league, says that he seems to lose his effectiveness against Cleveland. "I don't understand it, but I don't seem able to pitch my game against the Naps any more," said Johnson.

Cleveland Buys Battery.

Hovlik and Young, battery mates for Charleston, have been sold to Cleveland. Young reports at once and Hovlik at the end of the season.

Why Scratch?

"Hunt's Cure" is guaranteed to stop and permanently cure that terrible itching. It is compounded for that purpose and your money will be promptly refunded WITHOUT QUESTION if Hunt's Cure fails to cure Itch, Eczema, Tetter, Ring Worm or any other Skin Disease. 50c at your druggist's, or by mail direct if he hasn't it. "Since you need iron in your blood, why not order some railroad frogs?"

RUB-MY-TISM

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

Too Well.

"Why was that actress unsuccessful in the swooning scene?"

"Because, strange to say, she made quite a faint effort."

Practical Virtues.

"How did that ne'er-do-well manage to live?"

"In hope that if he inspired enough faith he might live on charity."

Poor Excuse.

"Why did you drop off the water wagon?"

"It was so crowded I couldn't get a seat," explained the other man, lamely.

Up Against It.

"That woodpecker may be persistent, but I think he's beaten this time."

"What's he trying to do?"

"Drill a hole into an iron trolley pole."

Availability in Prospect.

"I fear I am not worthy of you."

"Never mind about that. Between mother and myself I imagine we can effect the necessary improvements.—Chicago News.

He Thinks It Helps.

"What is an optimist?"

"A man who thinks that if he puts 'Urgent' on a letter it will be delivered sooner than it would be otherwise."—Stray Stories.

Getting Close to Nature.

"This is an interesting moving picture of frog culture."

"Yes, and if it were a talking moving picture, we might even hear the frog's croak."

Pa Explains.

"Pa, what does 'c-o-n-v-e-r-s-a-z-i-o-n-e mean?"

"That is merely an Italian word for a little chin music, son. Now, run along and play."

Post Toasties for Lunch

Appetizing and wholesome these hot Summer days.

No cooking — no hot kitchen.

Ready to eat direct from the package — fresh, crisp and dainty.

Serve with cream and sugar — and sometimes fresh berries or fruit.

Post Toasties are thin bits of Indian Corn, toasted to a golden brown.

Acceptable at any meal—

Post Toasties

Sold by Grocers everywhere.

DISTRESSING ACCIDENT

MR. ZED ROBINSON SUSTAINS INJURIES WHICH CAUSE DEATH.

Saturday afternoon about three o'clock Mr. Zed Robinson, who was a stationary engineer out at the Dam, was caught in one of the great cement belts used for mixing cement, rock and sand to be used in the construction of the Coosa river dam. and was so badly injured that on Monday morning, about three o'clock, he breathed his last. Mr. Robinson's leg was so badly mangled that amputation was found necessary, both bones being broken and the flesh badly lacerated. He was doubtless injured internally as well. The suffering man was brought to Hopkins' infirmary Saturday night and an operation was performed about midnight, removing the leg just below the knee, in the hope of saving his life. Mr. Robinson lingered in great agony till three o'clock Monday morning, when he closed his eyes in death.

Besides a grief stricken widow, Mr. Robinson leaves two small children and numerous relatives and friends to mourn his untimely death. He was badly injured at the dam just two months previous to the fatal accident; on the former occasion having two ribs broken.

The funeral services occurred Tuesday morning at Providence church, attended by a large concourse of sorrowing friends, interment being had in the old family burial ground,

Mr. Robinson had just a short time previously secured a life insurance policy in one of the southern companies, upon which he had paid but two premiums and while this will not, of course, ameliorate the suffering of the bereaved widow, or take his place in the broken family circle, it stands as indisputable proof of the love and forethought of the young man who realized his responsibilities as father and husband and who met them promptly and well.

This is the second distressing and, perhaps, fatal accident which has occurred at the river dam within the past two weeks.

MOUNTAIN CREEK NEWS

The cotton gin at this place has been put in excellent shape, new saws etc. having been supplied.

Mr W. B. Sims says that he will be in shape to accommodate all customers this season.

The people of this section did good work on the road on August 14, 15 and 16; Thos. Smith, Dr, Maddox and G. W. Cobern helped on with the good work. And Charley Brown also assisted.

Depot Agent Hubbard and wife are off on a two weeks vacation.

Mrs. Jeff Falkner, wife of the late Col. Falkner, founder of the Soldiers' Home, is here on a visit to friends. Her sister, Mrs. McQueen, is also here.

Rural route agents Culver and Henderson both say that the last rain saved the crops to a considerable extent. These men ought to know as they cover twenty five miles each day.

Guardian's Settlement Notice

The State of Alabama, Chilton County. Probate Court. August 1, 1913.

This day came S. L. Arledge, Guardian of Bonnie Jenkins and Alice Jenkins, minors, and files his account, vouchers, evidence and statement for Final Settlement of his said Guardianship.

It is ordered that the 23rd day of August, 1913, be appointed a day on which to make such settlement, at which time all persons interested can appear and contest the said settlement if they think proper.

Witness my hand, this 1st day of August, 1913.

E. B. DEASON, Judge of Probate.

8-7-3t

The daughter of A. Mitchell, Bagdad, Ky., had a bad case of kidney trouble and they feared her health was permanently impaired. Mr. Mitchell says, "She was in terrible shape but I got her to take Foley Kidney Pills and now she is completely cured." Women are more liable to have kidney trouble than men and will find Foley Kidney Pills a safe, dependable and honest medicine. Alred Drug Co.

Chilton County Fair

OCTOBER 20th to 25th, 1913

The Chilton County Fair Association will give away more than $1500 this year in prizes. The prizes offered this year are larger than ever before. They are offered on Corn, Cotton, Sweet Potatoes, Hay, Small Grain, all kinds, Forage Plants, Peas, Beans, Fruit, Vegetables, Jellies, Pickles, Live Stock, all kinds, Poultry, Ladies' Work, Children's Work, Plants and Flowers, Dairy Products, Meats. In fact the list covers everything in the home or on the farm.

Call on or write G. O. Foshee, Clanton, Ala., for catalog, showing all the premiums.

Separate tents for colored people.

THORSBY INSTITUTE

Thorsby, Ala.

Prepares for the University of Alabama, Howard College, Birmingham College, or any College or University.

Prepares for any grade of State Teachers' Certificate.

Special Courses—Bookkeeping, Cooking, Drawing, Vocal and Instrumental Music, Public Speaking.

Special classes for those over fifteen who are deficient in early schooling. Rates low. Fall Term opens Sept. 9, 1913. For further information address,

S. H. HERBERT, Principal.

THE SEASON OPENS

FIRST BALE RECEIVED SATURDAY

Mr. C. C. Rollan, better known among his friends as "Jack" Rollan, "busted the season open" last Saturday, and incidentally established a new record by bringing in the first bale of the 1913-14 cotton season.

Last year the first bale arrived in Clanton on Wednesday, August 28th, and was sold to Mr. W. I. Mullins for eleven cents; it classed middling, weighed 455 pounds and was raised by Mr. J. W. Gibson.

Mr. Rollan's bale weighed 415 pounds, classed good middling and was also sold to Mr. W. I. Mullins. The first bale of this season is twelve days in advance of the first bale of last season and is classed higher.

The Press cannot refrain from making one little comment; it just can't help it.

Last vear Mr. Taft was in the president's chair, anxiously awaiting another nomination and election; naturally he wanted the farmer vote and was doing all he could to keep the price of cotton up so that he could cry "prosperity" under republican rule. The first bale brought eleven cents. This year under democratic administration the cotton buyers have put the political wind jammers to route by paying 12.65 for cotton, an increase of more than a cent and a half per pound.

Will somebody please explain? We don't understand it but we know there are lots of republicans and bull moosers who can explain; will they please do so?

4. CLANTON, ALA., THURSDAY AUGUST 28, 1913 NO. 21

Twenty Million Dollars

t's Not Much, But It's Some. Five Million Available Now. Largest Mortgage Ever Filed Here.

nday afternoon, shortly after rth bound train arrived in n, there was filed for record e office of the Probate Judge rgest mortgage ever put on d in this county; largest in of money involved and larg- bulk, but not quite the long- so far as the number of s to be recorded is concerned. e mortgage was given by the ama Power Company, which is constructing the dam out on river, as well as developing large properties in Alabama; signed by Jas. Mitchell as ident of the Alabama Power pany, and was in favor of the treal Trust Company, of Mon- Canada. The mortgage is July 1st, 1913, and matures 1st, 1963, and made to secure um of TWENTY MILLION LLARS—Payable in Gold Coin United States of America. e is due the State of Alabama nty thousand dollars privilege on this big mortgage and ten sand dollars to the several nties of the State in which the erty of the Power Company of this sum Chilton county receive approximately seventy cent—or about seven thousand rs; the exact proportion of the ty tax has not yet been figur- out, but Chilton will recieve sixty-five to eighty per cent e total sum. FIVE MILLION LLARS of the Twenty Million ailable at once and the sum even thousand five hundred rs has already been paid to ge Deason as privilege tax on amount; the balance, or fifteen ion, is to be paid to the Power pany whenever it needs it, or nds it, and the privilege tax be paid on the amounts receiv- s soon as the money is turned by the Trust Company—a for the payment of the nty-two thousand five hundred rs privilege tax having been with Judge Deason, guaran- ng the payment of that amount fast as the company deposits onds—notice we say bonds— the Montreal company. The rument is also signed by Rob- Archer as Vice-President of the treal Trust Company and con- the corporate seal of both tracting parties. The property rtgaged to secure the payment e bonds in July, 1963, lies in counties of Chilton, Coosa, adega, St. Clair, Shelby, Cal- n, Jefferson, Etowah, Clay, apoosa and Elmore; the privi- e tax will be divided between e counties in proportion to the unt of property involved, lay- in these counties—from sixty- to eighty per cent of which is, will be, in Chilton.

The mortgage will, of course, e to be recorded in each of the ve named counties and the re- fee will be a considerable , amounting to something over e hundred dollars.

There are two or three features ut this mortgage to which we ld like to call the attention of readers, and to which we hope will give thoughtful consider- —especially those who harp nst a bond issue.

In the first place the Alabama er Company is a giant busi- association composed of y business men. They saw as to their interest to e bonds to carry on their and they issued BONDS. No in Chilton county, perhaps, pt the attorneys interested in se, knew of the contemplat- ed move, yet this company issued bonds for TWENTY MILLION DOLLARS without a great flurry of trumpets—it was a business transaction and created no more excitement than would the buying of a plow stock or the purchase of a sack of flour by one of our farmers. If Chilton county would open her eyes and issue bonds in a businesslike way the same thing could be accomplished, and as easily.

The amount of money involved is TWENTY MILLION DOLLARS —an almost incomprehensible sum of money, issued by a company composed at best of not more than a hundred men; yet Chilton with her boasted twenty-five thousand citizens balk at issuing one hundred thousand dollars in bonds to help all her people! A sum one hundred and thirty-three and one third times as large issued by a few men, as would be required to be issued by the whole of Chilton county with its twenty five thousand inhabitants! Notice again, the bonds do not mature and are not payable till fifty years from July 1st of this year! But, the company reserves the right to retire these bonds sooner if it DESIRES to do so by paying the accumulated interest up to and inclusive of the time the bonds are retired; they reserve the right to create a SINKING FUND and out of that sinking fund retire bonds as they feel disposed. Look over your old issues of the Press and see if this is not exactly what this paper advocated more than a year ago and for which, all along, it has consistently contended. What is a "Sinking Fund," do you ask? Merely a reserve fund placed away and allowed to accumulate from day to day, year to year, out of which, when it amounts to a sufficient sum, to pay one, two, three or a dozen bonds, whether due or not and thereby stop the interest on those bonds. The Power Company will doubtless not use more than the five million dollars, now available, for a year or more and therefore it will not have to pay interest on the whole amount, but only upon such sum as it actually uses. This is another feature which the Press advocated strongly. When any one or more of the bonds are retired from the amount in the sinking fund, the interest on those bonds ceases then and forever. The Press also contended that this feature could be incorporated in a Chilton county bond issue.

One more thought: These bonds do not mature—are not payable till July, 1963—fifty years from now. The men composing the Alabama Power Company are men of mature years even now; none of them are under thirty years of age—most of them are past fifty. In fifty years more ninety-nine per cent of them will be sleeping quietly in their graves; so will the men to whom the mortgage was given and to whom the bonds are payable! Think of that, please—fifty years from now all of those interested in the transaction of today will probably be dead, yet not one of them hesitated—it was a business proposition; they will reap the present benefits and their children and their successors will reap the future benefits!

Chilton county could issue her bonds for sixty or fifty years and her present citizens would reap the benefits of good roads NOW and those children would reap the [illegible]

Press has tried to make plain time and again. Probably not a man now connected with the Power Company will pay one dollar on that big debt, and those to whom the mortgage and the bonds were given KNOW this full well; yet they loaned the money, knowing it would be the next generation who would PAY the debt and the next generation who would RECEIVE the payment!

But someone says, "We don't want to create a debt for our children to pay." BOSH, NONSENSE of the most idiotic kind!

Then, perhaps, there will be objection to the Chilton county bond issue because of the great privilege tax which will have to be paid. That's the argument set up some weeks ago by one who knew better but who opposed the bond issue and wanted to prevent it by poisoning the minds of the voters. The argument has no foundation in fact or in common sense. There is a vast difference between the government issuing bonds and a private corporation. The roads would be a part of the GOVERNMENT system, and therefore NO privilege tax would be required; this the veriest simpleton knows, even though he may argue differently. That's another argument in favor of the bond issue—if, indeed, it could be used anyway whatever, for it would SAVE the county a great sum which would have to be paid by another institution. Don't let anyone fool you into believing the county would have to pay a privilege tax, it isn't true, not one little word of it.

Wouldn't you buy a rich gold mine for your children to develop? Would you refuse to buy it merely because he or they would have to spend money to dig the precious ore out of the ground? Are not the Power people NOW giving their children and their successors something with which to pay this debt? Would not the citizens of Chilton be giving their children and the new settlers something with which to pay the debt fifty years from now? Is not a system of good roads worth infinitely more to a farmer NOW than twice the amount of farm land he now has without good roads over which to haul his products? Would it not be a far richer legacy to your children to give them a small farm with good roads about it than to give them a large farm with poor roads?

These BUSINESS men—on both sides—saw it that way; the BUSINESS men of the world over see it that way and ACT upon that principle. Why will not the men of Chilton act as others act?

MONEY SAVED IS MONEY MADE

A FEW FACTS AND FIGURES THAT SPEAK FOR THEMSELVES

Some days previous to the passing of the motion by the Town Council to submit to the voters of Clanton a proposition as to whether or not the town of Clanton should issue bonds for the installation of a system of water works and sewerage, the Press man was in communication with the Inspection & Rate Bureau of Montgomery, with a view to ascertaining just what would be required of Clanton should she decide to install water works, and how much would be saved to property owners in insurance premiums if such a system were installed. The Inspection and Rating Bureau, be it known, has the fixing of all rates in this section; its word is law, in so far as insurance rates are concerned; its rulings are final.

The information sought by the Press brought the following reply, which will doubtless be of interest to all citizens, particularly those who own property, whether it be houses, merchandise or household furniture; read it carefully and see how anxious even the insurance people are that Clanton should install a system of water works; it is not their desire to charge exhorbitant insurance rates, but it becomes necessary to do so in order to protect themselves, where no water works system exists; the risk run by the insurance companies is too great unless extra high premiums are charged. But, to the letter:

Dear Sir:—

Replying to your favor of Aug. 11th in this regard would say that in the event the town of Clanton should install standard water works such as are briefly described on pages eight and nine of Rates Rules and Forms for third class towns, the same coming up to the standard in every way, we would then be in position to furnish brick and frame mercantile ratings as per pages 86 to 100 of Rates, Rules and Forms, and dwelling ratings as per the third class schedule provided on pages 216, 217, and 218 of Rates, Rules and Forms for third class towns. By comparing these schedules with those at present applied, you will better be able to see than we could write you specifically just what reduction in the present rates could be obtained.

In the event your town actually contemplates installing this protection we would suggest that you again confer with us in order that we may have our engineering department furnish you certain specific details in reference to the installation in order that you may be in position to bring same more nearly up to the standards as prescribed, both as to the water supply and fire department, which latter, of course, will have to be maintained in the event third class ratings are accorded.

Yours very truly,
L. P. Goodwin, Mgr.

After reading this letter carefully the Press man called a certain insurance man into consultation and went over the rates, rules and forms, as suggested by the letter, with the following result:

One business house (occupying a large brick store) which now pays a premium of $2.40 per $100 of insurauce would have to pay but $1.15, or less than half, if a system of water works was installed; another merchant occupying a frame building, now paying $4.70 per hundred, would have to pay but $3 for the same insurance; a third (a brick store) paying $2.35 per hundred would be assessed but $1.20 per hundred; another whose insurance rate is $1.95 would have that rate reduced to $1.15 by water works; still another who pays $1.85 would be rated at $1.30. These are but samples in the business district of the town; in the residence section the same avearges obtain; for instance, a large frame dwelling upon which the premium now is $3 would be reduced to $1.15 per hundred, or almost two thirds; another which bears a rate now of $2.05 would be required to pay but 85 cents; one of the church buildings would have its rate reduced from $1.25 to 95 cents; a residence which now bears a premium 85 cents per hundred would be reduced to 60 cents per hundred; another from 75 cents to 65 cents; and so on through the entire residential section. Stocks of merchandise are in equal proportions; one merchant who now pays $4.45 per hundred on his stock would be required to pay but $3 and another who pays $2.40 would be reduced to $1.15, while a third paying $1.95 per hundred would get off at $1.15.

It is clearly seen from these figures that the installation of water works would save to each individual property holder at least one third of ACTUAL CASH MONEY he pays out in insurance premiums besides the convenience it would bring to his very door; it would enable him to sprinkle the streets near his place of business and thereby save him annually hundreds of dollars which is now given as a tribute to the dust and grime that sifts into his stock each day.

The merchandise that is insured would be doubly protected; fire would not be such a menace and dust could be reduced to a minimum. In the residence portion of the town the savings would be even greater; the home and its contents would be protected; the children and the wife would be protected from those diseases that are caused by dust and filth and the goodwife who does her own work would have her life prolonged by having her water convenient, thereby saving the drudgery of drawing and transporting water [illegible] each day.

The benefits to be derived in health and happiness can not be [illegible] figures not going on the happiness side, so lets figure on that side just a little.

Mr. A. merchant who is now paying $4.45 per hundred insurance on his stock carries not less than $10,000 insurance—it would be foolish to carry any at all and not carry that much—he pays annually to the insurance companies $445 in premiums on his stock; if he owns his store house—say it is worth $3,000—and it is—he also pays to the insurance companies, on a basis of $4.70 premium, the sum of $131, or a sum totol of $576 annually, all of which goes out of Clanton never to return, except in cases of fire where he is damaged, and for it he gets a slip of paper telling him that the insurance companies will pay if he is burned out, but they give him no relief from dust; worry and grime. If water works were installed he would have to pay $3 per hundred on store and merchandise, so that his insurance premiums annually would amount to $390, or a clear saving of $186 in CASH, besides the dust nuisance would be put out of the running and his clerks, instead of having to go several blocks for drinking water would have it right at their elbows—thereby saving in time enough to pay an additional clerk.

Mr. B. merchant whose premium now is $2.40 carries insurance equal to $8,000 on his stock and $5,000 on his store house; he pays out annually $312 in premiums, all of which finds its way to New York never to return; with water works the same insurance could be had for $149.50, or a clear saving of $162 in CASH insurance premiums!

These two merchants alone—ALONE, mind you—would in ten years save enough MONEY in CASH premiums, now PAID OUT, to erect a system of water works in Clanton. TWO MERCHANTS WOULD SAVE ENOUGH TO ERECT A SYSTEM FOR THE ENTIRE TOWN!! Can you think of such a proposition and hesitate?

There are forty or more merchants in Clanton; each would save on an average of 1-3 of their insurance premiums, or enough in five years to erect water works and install sewerage for the whole town!

Some more:— Figure on your home, the place where your wife and children live; where you eat, sleep and drink. One home keeper now paying $2.05 insures for not less than $2,500, or he pays in insurance premiums not less than $51.25 annually for protection from fire for his residence.

If water works were installed here he would have to pay but $20 for the same amount of insurance. A clear saving of $31.25 per annum to buy toys for the children at Christmas, to help feed the children. Just think how happy that wife would be to have water, so that she could raise flowers, have a pretty lawn to make her husband's heart glad, and the many hours of weary toil that would be saved to her in drudgery and toil!

A conservative estimate of the amount of money sent out of Clanton in insurance premiums each year will not fall short of $12,500, counting store and residence, furniture and stocks, musical instruments and paintings; this amount could be reduced one half, or $6,250 each year, by having water works; five years would more than pay for the system and ten years would install sewerage and water works and be bringing the town an actual revenue each year for school purposes, or to pave the streets. Do you believe it? If so the Press calls upon you to [illegible] water works. If you [illegible] get out your pe- [illegible]

PROGRAM

Of District Convention to be held at Pleasant Grove Baptist Church, 5 miles west of Maplesville, 5th Sunday in August, 1913.

10:00 a.m. Devotional Exercises, by Rev. P. G. Maness.
10:15 a.m. President's Address.
10:30 a.m. What the Interdenominational Sunday School Association Stands For. By State Workers.
11:00 a.m. The Necessity of Superintendents and Teachers Attending State and County Conventions. By Prof. Hunter.
11:30 a.m. Pledges for the State and County Work.
11:45 a.m. Collection for Expenses of District Work.
12:00 m. Dismiss for Dinner.
1:30 p.m. The Banner School. Speaker to be announced.
2:15 p.m. The Possibilities of Modern Sunday Schools.
2:45 p.m. The Various Sunday School Departments. Elementary, Temperance, Missionary, Home.

ROAD BUILDING

ROADS PAY FOR THEMSELVES

Department of Agriculture Collects Data Showing Land Values Increase With Improvements.

The direct effect that changing bad roads into good roads has upon land value and the general economic welfare of a community is shown in several concrete illustrations gathered by the United States department of agriculture. The department has just issued a statement on the subject, based upon a mass of information gathered by the office of public roads, which is making a special study of the economic effect of road improvement in the country. According to data gathered, where good roads replace bad ones, the values of farm lands bordering on the roads increase to such an extent that the cost of road improvement is equalized, if not exceeded. The geenral land values, as well as farm values, show marked advances, following the improvement of roads.

Among the illustrations cited by the department are the following:

In Lee county, Virginia, a farmer owned 100 acres between Ben Hur and Jonesville, which he offered to sell for $1,800. In 1908 this road was improved, and although the farmer fought the improvement, he has since refused $3,000 for his farm. Along this same road a tract of 188 acres was supposed to have been sold for $6,000. The purchaser refused the contract, however, and the owner threatened to sue him. After the road improvement, and without any improvement upon the land, the same farm was sold to the original purchaser for $9,000.

In Jackson county, Alabama, the people voted a bond issue of $250,000 for road improvement and improved 24 per cent. of the roads. The census of 1900 gives the value of all farm lands in Jackson county at $5.90 per acre. The selling value at that time was from $6 to $15 per acre. The census of 1910 places the value of all farm lands in Jackson county at $9.79 per acre, and the selling price is now $15 to $25 per acre. Actual figures of increased value following road improvement are shown.

As the roads in no way affect soil fertility or quality of the farm, advances are due essentially to the decrease in the cost of hauling produce to market or shipping points. Farms are now regarded as plants for the business of farming, and any reduction in their profits through unnecessarily heavy costs for hauling on bad roads naturally reduces their capitalization into values. With reduced costs for hauling profits are increased, with the result that the farm plant shows satisfactory earnings on a higher capital value.

The automobile, also, has begun to be an important factor in increasing rural values where good roads are introduced.

Immigration is particularly marked where road conditions are favorable; in fact, the figures of the department seem to indicate that good roads indirectly increase the demand for rural property; and the price of farm land, like that of any commodity, is ruled by the relation between demand and supply.

Auto and Good Roads.

The auto has come to stay and there is no use fighting against it or trying to penalize the owners for destroying country roads. There is no doubt that an auto will wear out a dirt road quicker than a team carrying 3,000 pounds, and while the latter are penalized in some states, all efforts to give the same medicine to the owners of autos have failed. The only remedy is to build roads that will stand the wear and tear of heavy wagons, autos and anything else and then take the penalty off everything.

Duty of People.

The making of good roads is one of the most important duties of the American people and their prompt repair and careful maintenance is essential. There is probably no subject in which the progressive farmer is more deeply interested than that of having roads connecting him with his market over which he may be able to haul greatest possible load. Good roads, like all other good things, are expensive to build and of too much value to be neglected.

Good Roads.

The making of good roads is one of the most important duties of the American people and their prompt repair and careful maintenance is essential. There is probably no subject in which the progressive farmer is more deeply interested than that of having roads connecting him with his markets over which he may be able to haul the greatest possible load. Good roads, like all other good things, are too expensive to build and of too much value to be neglected.

Time to Drag a Road.

If the traffic is very light, a good time to drag the road is immediately after a rain. However, for ordinary traffic, the best time to drag is when the mud will not stick to the drag but will slide along the edge, the drag taking a slice of earth off the high places and filling the small depressions.

WASHINGTON'S LATEST BASEBALL IDOL.

"Smiling" Joe Boehling.

Manager Clarke Griffith's latest pitcher acquisition, Joe Boehling, is the latest idol of the Washington baseball fans. He recently established a record for himself by winning eleven straight games. He is popularly known as "Joe Bowleg" and is one of the youngest pitchers in the major leagues. In 1911 he was secured from an amateur team in Richmond, Va., and after a tryout was sent to the Southern league. This year he came back and has made good. He is only twenty years old.

BIG CLUBS WANT KING COLE

Pitcher, Who Virtually Won Pennant for Chicago Cubs, Has Regained Old-Time Form.

Three years ago Leonard Cole was the most prominent pitcher in the National league. Three years ago he virtually won the pennant for the Cubs, working in 33 games and getting an average of .833, which gave him the leadership in the league.

He fell. His brilliancy faded. He was sent from Chicago to Pittsburg. Fred Clarke believed he still had the winning stuff in him.

Fred was wrong. He released him to Columbus. That was last year.

Now see what happened. McQuillan of the Columbus club was the star of the A. A. until a short time ago. He was grabbed by Pittsburg.

Up bobbed "King" Cole. He took McQuillan's place. He filled it so satisfactorily, in fact, that about a dozen major league clubs now would like to grab him.

Pitcher King Cole.

He pitched 58 innings in 17 days and allowed a trifle over an average of two runs per game in six contests. He won five of the six, one of which was a 17-inning affair.

Since his no-hit performance at Milwaukee a short time ago there has been a vast change for the better in his work.

Fans Stick to Tinker.

Joe Tinker stands ready to throw up the job of managing the Reds at any time Garry Herrmann wishes. It is said, however, that despite the poor showing of the Cincinnatis the local fans are sticking to Tinker loyally. They believe Tinker is fighting his head off to win, is making very few mistakes and is hampered by inferior support and a lack of the right winning spirit in some of the players. The home rooters recognize the fact that Manager Tinker cannot be blamed for the poor showing of the club. The Red leader is having a hard row to hoe, but he is keeping up his courage and may get there in time.

Entitled to Fame.

The fact that Walter Johnson has shut out the Athletics twice this season is sufficient reason for fame being thrust upon him even if he had not proven himself to be one of the world's greatest pitchers. It takes "some" pitcher to do that to the Mackmen.

Make Greb Their Target.

Heinz Greb, the youngster who is savorting around second for the Reds, seems to be a target for the opposing batters. In 12 games 76 balls were hit to him. He made 24 put-outs and 44 assists in the 12 contests, and but one error.

FANS TO SEE WAGNER'S MITT

Relics of Great Player of Pittsburgh Wanted for Carnegie Museum on His Retirement.

Baseball is at last recognized as something worth telling posterity about. In fact, it is going to be preserved in concrete form for the benefit of unborn eyes to gaze upon.

That is, if Honus Wagner, the high-flying Dutchman of the Pirates, will consent to his part of the deal, namely, the tendering of his palmless glove and his uniform to the Carnegie museum when he retires from the diamond.

Dr. W. J. Holland, director of the museum, announced the other day that it was the desire of the institution to secure from Honus his baseball accoutrements when he has at last retired from the game, the same to be placed among the relics of other distinguished and skillful men who have gone before.

Doctor Holland said that the achievements of all great and skillful men and the games in which they were skilled were handed down to posterity from the past ages, and there was no reason why Wagner should not be so honored.

BASEBALL NOTES

Bill Carrigan, the new leader of the Boston Red Sox, says he has the poorest pitching staff in the league.

* * *

Pitcher Martin Walsh, Ed. Walsh's brother, is twirling sensational ball for a semi-professional team in Stamford, Conn.

* * *

The Providence club has secured from Detroit Walter Pipp, the young first baseman secured by the Detroit club from Kalamazoo.

* * *

Gonzalez, the Cuban catcher whom Tinker thinks of trying out and holding for next season, is as tall as Larry McLean, but very slender.

* * *

Dave Altizer is leading off for Joe Cantillon's Minneapolis team. He isn't hitting so hard, but he's getting on the bases, and that's worth a lot.

* * *

New York fans are picking Art Shafer to do great work with the stick in the coming world's series. "Another Frank Baker," is the way they put it.

* * *

J. Franklin Baker, the home-run clouter of the Athletics, is getting his batting eye into fine order for the coming series with the Giants in the fall.

* * *

The Philadelphia club sure is strong for mascots. They now have two—a hunchback and a comically costumed negro, and the African is touted as one of the surest luck-bringers that ever came up from Alabam'.

* * *

Christy Mathewson has pitched two games this year in which he neither fanned a batter nor presented one with a base on balls. The Phillies and Reds were his opponents.

* * *

Fred Clarke is pleased with the way his pitchers have responded lately. "Hendrix," Adams, McQuillan, Robinson and Cammitz are all in perfect trim now," says the Pirate leader.

* * *

Clark Griffith, who has found the music of the anvil chorus quite to his liking, is enjoying continued prosperity at Washington, where he is given credit for making a formal candidate for the cellar position a pennant contender.

LOYAL FANS OF WASHINGTON

Never Promise Themselves Much and There Is No Reaction From This Happy Condition.

The remarkable success that Clarke Griffith has had with the Washington team this season has set all the experts to doping out the reason therefor and they are telling that it is because the "Old Gray Fox" understands pitchers and knows just when to use them and relieve them; or that it is that he knows baseball and has a faculty of imparting that knowledge; or that he has the spirit that inspires young players. And a few other reasons. However, Griff can't be presumed to have gained all these talents since the first of April; he must have had them last year—and he couldn't win at Cincinnati. Therefore, if we are permitted, it is suggested that there are two psychological elements in his success with Washington, says the Sporting News. One is that Griffith is back in the company he enjoys and the other is the difference in spirit between Washington and Cincinnati. In Redland they demand and promise themselves a pennant each spring. When the demand is not met and the promise flattens out they "grump." In Washington they take the other course. They never promise themselves much there and it is a happy condition which has no reaction. Aside from these elements Griffith also has a real ball team, which counts for something in itself.

ERROR MADE BY CLEVELAND

Bill Bernhard and Not Lajoie Should Have Been Appointed Manager of Team in 1905.

"Had William Bernhard been appointed manager of the Cleveland club in 1905 there is little doubt that they would have won the American league pennant."

The above statement was made by Charley Carr, manager of the Kansas City ball club, the other day.

"When the Cleveland club management appointed Lajoie as manager in 1905," said Mr. Carr, "it made a serious mistake to my way of thinking. Not that Lajoie was not a competent man for the position, but because it did not result in the harmony necessary on a team to make it a pennant winner. I do not want to infer that Lajoie was not able to handle the affairs or to keep the men in line, for every one had the highest regard for Larry, both as a man and a player.

"There were angles which caused some dissatisfaction and the players

Manager Charlie Carr.

were not working together as they should have done. The man who could have had perfect harmony on the team was Bill Bernhard, for every man liked him and would have worked his head off for him. It was Lajoie himself who would have liked to have seen Bill in charge, for he stuck to him like a brother. It may not be known outside, but when Lajoie signed up with the Cleveland club for a long period it was with the understanding that Bill Bernard was to be there and never receive a cent less than any other pitcher in the club. That is how strong Larry was for Bill.

"To my mind the Naps that year had one of the strongest ball teams ever got together, but it was lack of harmony that prevented them from winning the pennant."

RESERVE RULE IS ESSENTIAL

So Says John Montgomery Ward, Old-Time Ball Player—Needed to Maintain National Game.

John M. Ward, who probably knows as much about the workings of baseball as anyone, having been a player as well as a magnate, says: "The reserve rule is essential. It must be kept in effect to maintain baseball. When the brotherhood was organized the fight made by the players was against a salary limit. The contract in those days contained a clause which reserved a player without his consent. But things are different now. The modern contract includes an agreement by the player to permit his employer to exercise an option on his services for the ensuing year. If it weren't for the methods employed by organized baseball the players would not be drawing such large salaries. The national agreement and the national commission are bulwarks of the game. Should they be abolished players who are demanding [illegible] would be forced to accept $1,500 [illegible]."

[illegible] Miller Gets Job.

Dorsey Miller is now holding down third base for the Milwaukee [illegible] team.

UNCLE SAM AND THE RAILWAY

Railways Claim Carrying the Mails Is at Enormous Loss.

Athens, Ga.—Under the heading, "Be Honest Even With the Railroad," The Banner of this city makes the following editorial comment regarding the contention of the railroads that the Postoffice Department is underpaying them for handling the mails:

To carry the people's mail quickly, safely and frequently is a social obligation which the railroads freely concede. It is a service voluntarily performed for no law compels a railroad company to carry mails unless it contracts to do so. The courts hold, however, that if the railroads so contract, they must do so on terms named by the government.

Though surrounded by these anomalous conditions the railroads have without stint placed their resources at the disposal of the Nation to develop the transportation of mails to the highest possible state of efficiency. This service has been paid for at a price fixed by the government, a price from which the carriers have had no appeal. Railroad officers have felt, ever since the present method of railway mail payment was established in 1873, that this compensation was low.

This opinion is still held by experienced railroad officers throughout the country, but with even greater firmness and earnestness, on account of the increasing costs of railroad operation combined with frequent heavy reductions in railway mail pay made by the government.

The railroads maintain that at present they are underpaid by at least $15,000,000 per year. It is their belief that a fair adjustment would require that the government should pay the railroads for services they render.

SPANISH-AMERICAN WAR VETS AND CHICKAMAUGA.

Chattanooga.—As showing the interest that Spanish-American war veterans will take in the coming encampment of the Grand Army of the Republic here, a letter that Capt. J. F. Shipp, quartermaster-general of the United Confederate Veterans, has resurrected from his correspondence is pertinent. This letter was from Capt. D. H. Nolf, of Eleanor, Penn., and is dated May 23, 1898. Capt. Nolf and a party of friends had but recently visited Chattanooga, and had been entertained while here by Forrest Camp, United Confederate Veterans. Troops were being assembled at Chickamauga, when the letter was written, for the war with Spain. Pennsylvania had many troops here, and Capt. Nolf wrote to Capt. Shipp asking his good offices in behalf of the Pennsylvania boys.

After returning thanks for the manner in which his company had been entertained while in Chattanooga by Capt. Shipp and other members of Forrest Camp, Capt. Nolf says:

"I think if there ever was any ill feeling between soldiers of Tennessee and Pennsylvania that it was knocked into a three-cocked hat by all hands while in your hall on that particular November evening in 1897. The amount of handshaking and pleasant greeting by all persons was sufficient evidence that we were among old friends and that we left behind a lasting friendship that will not soon be forgotten by us."

ALABAMA LAND CONGRESS.

Birmingham.—The Bankers have supplemented an invitation from the Alabama Land Congress to the Bankers of Alabama to be represented at the meeting of that organization, which is to be held here the first week in November, with a letter which was mailed to the four hundred banks of the State. Alabama has advantages for the industrious and intelligent farmer unexcelled by any other state in the Union, and it is to aid in securing farmers as settlers on idle lands that the Land Congress will devote its efforts to the end that all classes among us may be benefited through the development of Alabama's agricultural resources.

CANDIDATES FOR COMMANDER-IN-CHIEF.

Chattanooga, Tenn.—Every indication points to a battle royal at the Chattanooga encampment of the Grand Army of the Republic for Commander-in-Chief. Five states have so far made entries, and each entry is a popular man. The states already in the contest for the prize are: Indiana, Michigan, Nebraska, New Jersey and South Dakota.

CANOE SINKS; THREE DROWN

Two Youths and Girl Are Drowned in Lake Near Battle Creek, Michigan.

Battle Creek, Mich. — Two youths and one young woman were drowned when a canoe from which they were watching a balloon ascension at Lake Goguac capsized. The victims are Lota Mitchell, 17 years old, Ann Arbor; R. C. Warner, Coldwater, and Frank J. Plunkett, Detroit. Miss Virginia Raab of Battle Creek was rescued. While a search was being conducted for the bodies one of the aeronauts, a woman, landed in the lake, but succeeded in reaching shore safely.

Serious Shooting in Kentucky.

Maysville, Ky. — Millard Mastin at Mount Olivet shot and killed William Dayton, alleged to have been one of the leaders of a mob which was trying to hang him after he had been acquitted of a serious charge. The mob broke into Mastin's home and had knocked down the door of his bedroom when Mastin opened fire with a shotgun. The charge struck Dayton in the breast and killed him instantly. Mastin was brought here for safekeeping.

MORPHINE

Opium, Whiskey and Drug Habits treated at home or at Sanitarium. Book on subject Free. DR. B. M. WOOLLEY, 1W VICTOR SANITARIUM, ATLANTA, GEORGIA

Do bad fish that bite on Sunday deserve to get the hook?

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.Adv

Believe in the better side of men. It is optimism that really saves people.—Ian Maclaren.

RUB-MY-TISM

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

When It Is Dangerous.

Little Willie—Say, will a Welsh rabbit bite?

Little Babby—No, not unless you eat it.—Philadelphia Record.

Conjugated.

Inquisitive Friend—Don't you find that your wife is very subject to moods?

Enpeck—No; she has only mood, the imperative, and I'm the one that's subject to that!—Judge.

Real Influence.

"Let me write the songs of a nation," said the ready-made philosopher, "and I care not who makes the laws."

"I won't go quite so far as that," replied Senator Sorghum; "but let me write the amendments and I care not who draws up the bills."

Disconcerting.

Model—It's a horrid shame! You know as well as I do that my figure isn't so sinfully distorted as that!

Impressionist—Ah, my child, when will you understand that it is your soul that I paint, and not your figure? —Bystander (London).

Then What Did Papa Do?

When one dish was passed, mamma said she just loved to eat of it, but that the food would not agree with her. Paxton said he liked bananas, but he didn't eat them.

Then Jean, the five-year-old, said: "I love watermelon, but I can't eat it."

"Why can't you eat watermelon?" said papa.

"Because you don't buy me any," she said.

Like a Pleasant Thought

of an old friend—

Post Toasties

with cream.

Sweet, crisp bits of white Indian corn, toasted to an appetizing, golden brown.

A delightful food for breakfast, lunch or supper — always ready to serve instantly from the package.

"The Memory Lingers"

For a pleasing variation sprinkle some Grape-Nuts over a saucer of Post Toasties, then add cream. The combined flavour is something to remember.

Postum Cereal Company, Limited Battle Creek, Michigan

HUERTA IS NOW FACING A CRISIS

UNITED STATES WILL CONTINUE TO INSIST ON HUERTA'S RESIGNATION.

DOCUMENT NOT MADE PUBLIC

President Studying the Mexican Situation—Lind Makes His Report.

Washington.—The Huerta administration in Mexico may reconsider its rejection of the American proposals to restore peace in Mexico and arrange a new basis for negotiation with the United States. Strong intimations to this effect reached official Washington along with the information that the financial condition of the Huerta administration was such that a crisis was imminent.

Should the Huerta government decide to enter into a new basis of discussion, withdrawing its contention as expressed in the Huerta note replying to the proposals communicated by Mr. Lind, President Wilson in all probability will not read his message to both houses of congress, as he intended.

Failure to send any word to the leaders was interpreted in official circles as meaning that the United States had practically given the Huerta government time to make up its mind finally as to what it would do.

It is positively reiterated that the United States will continue to insist upon the resignation of Provisional President Huerta, or an announcement of his intention to do so, as well as his elimination from the presidential race in the subsequent election.

President Wilson spent some time studying the notes exchanged by Mr. Lind and Huerta and preparing his message. White house officials announced that no copies of the document would be distributed in advance to the press, as has been the custom for years, as it was desirable to keep the document abreast of developments to the last minute. The message may be modified by dispatches received, and there also is the possibility that the president may find it expedient to postpone delivery of the document.

Reports from Mr. Lind declare that his relations with the Huerta officials are more cordial than before and that the Huerta officials manifest a willingness to find some new ground for a settlement.

TRY TO DYNAMITE GAYNOR

Enough of Explosive to Wreck New York City Hall Found.

New York.—A deadly charge of dynamite, three whole 10-inch sticks and two halves with a fuse and detonator, was discovered near Mayor Gaynor's office window in the city hall. The bureau of combustibles found that the explosive was 40 per cent. dynamite, the regulation blasting proportion, and the amount found would, if exploded, have wrecked the city hall.

The mayor was in his office when the dynamite was discovered by a citizen passing through City Hall park. Mr. Gaynor evinced little interest when told of the explosive's proximity and remained apparently undisturbed at his desk, while police officers hurriedly drew a cordon about the dynamite to keep back an excited crowd.

Mr. Gaynor frequently receives threatening letters, but he would make no statement regarding the possible connection between any previous threat by mail and the dynamite. It is just three years ago this month that he was shot in the neck by a so-called crank and so badly wounded that for several days it was feared he would die.

The dynamite found lay on a basement door in a concrete moat or areaway within 60 feet of the mayor's window.

Begs for Life; Husband Kills Her.

Tampa, Fla.—While on her knees pleading pitifully for her life, Mrs. Ethel Denson of Key West was shot to death on the street here by her husband, Benny Denson. Two negroes were eye-witnesses to the tragedy, but were afraid to interfere. Denson, who followed his wife from Key West here several weeks ago, discovered her working in a restaurant.

Speer Preparing to Fight Charges.

Washington.—Federal Judge Emory Speer of Georgia, charged with official misconduct in papers filed with the house committee on judiciary, will attend any hearings that the committee may have to take evidence in the case. He telegraphed to Representative Hughes of Georgia, asking that he arrange for his appearance at the proper time. Mr. Hughes immediately conferred with Chairman Clayton of the committee, and later notified Judge Speer that he would be permitted to be present with counsel.

Cole Younger Joins Church.

Lees Summit, Mo.—Cole Younger, the former bandit, became a member of the Christian church at a revival meeting here. When the evangelist, after finishing his sermon invited persons in the audience to join the church, Younger was one of the first to go forward to the altar rail. At the conclusion of the service the evangelist said that those in the audience who cared to do so might remain and shake hands with Younger. One thousand persons came forward and shook hands with him.

DR. A. MELVIN

Dr. Melvin, chief of the bureau of animal industry of the department of agriculture, has gone to the Argentine republic to investigate slaughter house conditions there because so much beef is now imported from that country. He will also visit Brazil, Uruguay and Paraguay.

OVER 100 PERSONS KILLED

CAR LOADED WITH DYNAMITE EXPLODES IN THE MEXICAN CAPITAL.

Thirty Bodies Taken From the Ruins and Many More Bodies Are in Debris.

Mexico City.—An explosion on a gondola loaded with dynamite on the tracks of a street car company in a thickly settled portion of Tacubaya, a suburb of the capital, killed or injure, more than one hundred persons, chiefly women and children. Thirty bodies already have been taken from the ruins of the houses. Scores of wounded are lying in the streets.

The disaster was said to have been caused by a collision between a car loaded with iron pipe and a dynamite car. For a radium of 500 feet from the explosion scene not a house was left intact. Most of the dwellings were of adobe construction, and those nearest where the car stood were converted into heaps of clay and dust, under which, it is feared, scores of victims will be found.

Most of the victims were of the laboring class, and perished in the collapse of the houses.

Many fine residences in Tacubaya and in the conencting town of San Pedro were partially wrecked.

SENATORS PRESSING O'NEAL

Urged to Call Legislature to Settle the Senatorial Squabble.

Washington. — Senator Bankhead, after conferring with the other members of the senate, has concurred in the demand on the governor of Alabama to call the legislature together and not endanger the tariff bill by the absence of one Alabama senator.

As the Democratic majority in the senate is only one, owing to the defection of the Louisiana senators, and as a senator is very ill and likely not to be present, it seems that the situation imperatively demands some action to fill the vacancy caused by the death of Senator Johnston.

"It appears to me," said Senator Bankhead, "after a rigid and thorough investigation of the subject, that the only thing the governor can do to meet the situation and fill the vacancy in time to meet the demands here and guarantee the passage of the tariff bill is to call the legislature together.

"The legislature is organized and could in one day pass a resolution authorizing the governor to make a temporary appointment."

Government Will Soon Finish Lock.

Rome, Ga.—The government lock, about eight miles from Rome on the Coosa river, will be finished about September 20, and boats will then pass through. The work on the lock and dam was started in 1910, and $271,000 has been expended on its construction. T. J. Kelly, who has been in active charge of the work, will leave as soon as it is completed for Wilmington, Del., where he will have charge of other government work. It is stated that the lock and dam will raise the level of the river three feet.

50,000 to Pull Missouri Out of Mud.

Kansas City, Mo.—Fifty thousand business men and farmers of western Missouri, it was estimated, furnished their picks and shovels and prepared to shoulder them to take part in Missouri's two good road days, the slogan for which is: "Pull Missouri out of the mud." Hundreds of Missouri mothers and daughters and wives and sweethearts prepared luncheon for the "boys." In many counties the women have organizations of their own, and will serve dinners to the workers.

Write to Smith

When your shoes wear out what do you do — kick and go barefooted? No, you get new ones.

If your land's played out, growling about it won't help. Look around and see where you can do better. Maybe you're just in a rut and don't know it.

Some of the best land in this universe is along the lines of the

Union Pacific

STANDARD ROAD OF THE WEST

Idaho, Washington, Oregon, California, Colorado, Utah and Nevada. A good deal has been settled and there's a good deal to be settled yet.

If you will write to R. A. Smith, Colonization Agent, Union Pacific, Omaha, Nebraska, and tell him what you want, whether you want one acre, five, ten or a thousand acres, he will tell you what the soil will produce—what it won't produce—where the best apple country is—where the best truck farming country is, etc. and the price.

The interest this great system has in this country is to settle it with people who will be a credit to the country and to see that those people have a full and complete knowledge of conditions before they go out. That's why it appointed Smith.

After you have found out all you want to know, go out there and see it. The Union Pacific has made

Reduced Fares for Colonists

effective September 25th to October 10th.

For the fare from your home town and for specific information, write to Smith.

Lo, the Poor American!

Hagop Barasyjian of Fitchburg and Menad Estabobrakamasian of Lowell went fishing yesterday in Lake Chargoggagoggmanchaugagoggchaubunagungamaug, near Worcester, with their cousin, Haijjeman Saralaneroparanian, whom they are visiting for the weekend, but you would never have learned it from us if we hadn't been able to paste it.—Boston Globe.

Hard Game.

Redd—Don't they have any extra men in the polo team?

Greene—Oh, yes; a few in the hospital.

DOES YOUR HEAD ACHE? Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 50c. and $1.00 at medicine stores. Adv.

It is easier to make friends than it is to hold them.

The bitter things we learn against will never return to trouble us.

MUCH LEGISLATION OF VALUE

Anti-Tuberculosis Workers Have Reason to Be Satisfied With Laws Passed in 1913.

Out of 41 state legislatures in session during the season of 1913, laws dealing with tuberculosis were enacted in 30 states, while in 34 states consideration was given to bills dealing with the prevention of this disease. This is a summary of the legislative campaign for 1913, issued by the National Association for the Study and Prevention of Tuberculosis. Appropriations to the amount of over $5,000,000 have been set aside for the treatment and prevention of tuberculosis by the various legislatures in session this year. In addition to these, congress will be obliged to set aside nearly $1,000,000 for the maintenance of the United States public health, the army and navy sanatoria, and the tuberculosis hospital of the District of Columbia.

Among the notable advances in the legislative enactments of this year are the tuberculosis registration law of Colorado; laws providing for subsidies to local hospitals in Minnesota and Wisconsin, an act providing for the establishment of county hospitals in Indiana, and the establishment of state bureaus for the prevention of tuberculosis in Ohio and California. A complete analysis of the tuberculosis legislation considered and enacted in 1913, is being prepared by the national association.

Egged Off.

De Wolf Hopper, at a luncheon in New York, said of a bad actor:

"He's had hints enough to quit the stage, dear knows. He's had more hints than Phatt.

"Phatt, after a brief experience on the road as 'Hamlet,' returned to his job in Canal street.

"'How did you come to leave the stage?' I asked him one night.

"'I had hints that I wasn't suited to it,' he replied.

"Thinking he meant the critics, I said:

"'Aha, the little birds told you, eh?'

"'Well,' said he, 'they'd have become birds, I suppose, if they'd been allowed to hatch.'"

Identified Himself.

The whizzing motor car struck a stump, and one of the occupants of the back seat, a lady possessed of considerable embonpoint, executed a neat but not gaudy parabola in the atmosphere and alighted by the roadside like a polypus falling from a shot tower.

"I don't believe I have broken any bones," she stated, in reply to the inquiry of the omnipresent bystander; "but there is a lump on this bank that—"

"Lump—nuthin'!" snarled a smothered voice. "I'm the constable that's goin' to arrest you gosh-durney joyriders, if I live!"—Judge.

Plant That Catches Its Food.

The common bladderwort, an aquatic plant not only defends itself against insects and animals, but catches worms and fish for its food. As it floats underneath the surface of the water its leafy branches spread out in all directions. Its leaves are covered with little oval bladders filled with air, and at one end of each bladder is a cavity which leads into the mouth below. Inside the bladder is a small trap door which opens when pressure is put on it. A small worm or a small fish can enter this door, but they can never come out.

Anecdotal.

Menelaus was king of ancient Laconia, and being such, he deemed it only his duty to be as laconic as possible, so, in a manner of speaking, to set the pace for the people.

Now, his wife was none other than the beautiful Helen, and, of course, the day came at last when she wanted a new hat. Could she have it?

"No," replied Menelaus.

"Just because 'no' is a letter shorter than 'yes!'" protested Helen, and burst into tears, and at the first chance ran away with Paris.—Puck.

Some Comfort.

"Represent to your afflicted friend, the young widow, that there is no misfortune without some comfort."

"Of course; black is extremely becoming to her fair complexion."

In the Bungalo.

"How do you like our ketchenette?"

"Rather small, isn't it?"

"Oh, no; it's plenty large enough. We take our meals out."

Gets Clogged.

"Has your friend Scribleta an easy flowing style?"

"Not so much as formerly. He's using a fountain pen now."

Drawback.

"You deserve a great deal of credit young man."

"Maybe I do, but I always have to pay cash."

Quite So.

"I think children's nurses are extortionate in their prices."

"Well, isn't it naturally a hold-up business?"

Plenty of men can give a girl a home like she has been accustomed to; but most girls are looking for something better than that.

Lamb and Sheep.

"Oh, dear! Something else to remind me that my boy is growing up."

"What now?"

"The sheepish way he looks when I call him my little lamb!"—Lippincott's.

Thoroughly Enjoyable.

"How was the picnic?"

"A great success. More people came near getting drowned than on any other similar occasion I ever heard of."—Birmingham Age-Herald.

Expert Opinion.

"What do you have to say to all this gossip about Miss Maude's heavy intellectual eyebrows?"

"I don't believe they are as black as they are painted."

Hang the Expense.

"Is your new beau good to you, Mame?"

"Good to me? I should say he is. He picks out the ten-cent movies to take me to."

It's Illuminating.

"Did you see where in some city they have put luminous paint on the park benches to prevent spooning?"

"Luminous paint? That's a bright idea."

Weird Work.

"What's this; volcano in action?"

"No."

"Town on fire?"

"No, no; still life. Piece of huckleberry pie, painted by a cubist."

Natural.

"Just look at the fissures in the ceiling and walls of this house."

"Well, what of them? Didn't you tell me it was put up by a crack builder?"

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

Exactly.

"That was a very warm argument."

"No wonder, with so much hot air in it."

To Prevent Blood Poisoning apply at once the wonderful, old reliable DR. PORTER'S ANTISEPTIC HEALING OIL, a surgical dressing that relieves pain and heals at the same time. 25c, 50c, $1.00.

True happiness consists not in the multitude of friends, but in the worth and choice.—Doctor Johnston.

Nothing is humbler than ambition when it is about to climb.—Anonymous.

MOTHER SO POORLY

Could Hardly Care for Children — Finds Health in Lydia E. Pinkham's Vegetable Compound.

Bovina Center, N.Y.—"For six years I have not had as good health as I have now. I was very young when my first baby was born and my health was very bad after that. I was not regular and I had pains in my back and was so poorly that I could hardly take care of my two children. I doctored with several doctors but got no better. They told me there was no help without an operation. I have used Lydia E. Pinkham's Vegetable Compound and it has helped me wonderfully. I do most of my own work now and take care of my children. I recommend your remedies to all suffering women."—Mrs. WILLARD A. GRAHAM, Care of ELSWORTH TUTTLE, Bovina Center, N.Y.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and today holds the record of being the most successful remedy we know for woman's ills. If you need such a medicine why don't you try it?

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

Mr. Leo Frank got his alright, alright. Pity is that more do not get it in the same way.

Governor Comer continues to get the votes as well as the "cussin." It's a little strange to us that they are all double-teaming on one candidate, whom they say has no chance.

If all that $2500 paid as privilege tax by the Power Company went into the treasury of this county instead of being divided among eleven counties, wouldn't it be nice to use that money to gravel the road leading out to the Power Company's plant?

The Power Company expects to be ready by the first of the coming year, so says President Mitchell, to dispense juice to the several cities, towns and villages which desire it. Wonder if Clanton wants it? If so isn't it about time to get busy? If she doesn't want it, why not?

Governor Sulzer does not seem to be greatly worried over the New York situation. The fight between the governor and Tammany will wax warm as the weather waxes cooler. At first it looked like Sulzer would be counted out in the first round, but he "came back" gracefully and now seems to have things going his way. However, he is up against the hardest proposition of his life —Tammany is some tighter and has the reserve forces with which Sulzer will have to contend.

HIGH SCHOOL AGAIN

COMMITTEES AT WORK IN EARNEST. OPPORTUNITY OPEN TO ANY CHILTON COUNTY COMMUNITY.

Last Thursday a number of citizens met at the court house for the purpose of preparing for an invitation to the State High School Commission to visit Chilton in October. The Commission has not as yet located the High School for Chilton county so that every community in the county has an equal chance to secure it provided those communities wishing it located in their midst will bestir themselves. At the meeting Thursday night Prof. Pickens expressed the belief that the school would be located, the building erected and the teachers selected ready for work by the opening of the 1914-15 session and that if Clanton did not bestir herself he was ready to assist any good community which would show a willingness to comply with the State's requirements.

Being a county institution, and under the control of the county authorities, the Commissioners acted very properly in agreeing to contribute toward its maintainence. They did not offer assistance to Clanton, as some seem to think, for the school has not been located at Clanton, but to any community which will comply with the necessary conditions. The county has already lost more than $13,000 of her tax money by a failure to meet the conditions required for the location of a High School and any man with ordinary intelligence knows that this is not a good business policy; she will continue to lose $3,000 annually unless the county authorities lead out in the matter of assistance to save. To insure against this continued loss, and to assure Chilton county a High School we would like to suggest that Maplesville, Jemison, Verbena, Thorsby and all other strong county settlements get in the race and make the best use of their talents in trying to locate the school; it is anybody's race and all have a perfect right to contend.

In the Thursday night meeting some very liberal offers were made by land owners in and around Clanton and by citizens within the town; one gentleman offered a tract of five acres within the corporate limits for the location of the school; a tract of ten acres was offered just outside the limits of the town.

Messrs. Tipton Mullins, J. L. Pickens and Judge E. B. Downs were appointed a central committee to appoint subordinate committees in each community locality claiming a suitable site, to see what funds they could secure from their respective sites. The committee on the Gowan site is as follows: Messrs. J. B. Downs, E. M. Pinckard and J. E. Gowan; on the south side site: Messrs. A. C. Smith, J. H. Roberts and J. L. Dupree; on the west side site; Messrs. L. H. Reynolds, C. R. Mullins and W. H. Sartor.

Any one interested is requested to see one of the committees and discuss the matter with them.

PROGRAM

Of Fifth Sunday Meeting, to be held with Chestnut Creek church near Cooper, on the Fifth Sunday in August, 1913.

9 a.m. Devotional Exercises by the Pastor.

9:30. Why have these Fifth Sunday Meetings?

3. Problems and Open Discussion.

Let every one come with the determination to make this a great day for the Lord.

W. M. Olive, Field Worker.

NOTICE

Dear Mr. Wood—I would like to announce through your paper that school will open at 9 o'clock Wednesday, the 3rd. The parents of those in the lower grades are especially asked to start them at the first of the session, as their grade, to a great extent, depends upon an equal beginning with the class.

J. J. Pickens, Principal.

During September each pupil buying a school satchel or strap from us will be presented free of charge with a nice School Ruler. Don't forget, Alred Drug Co's, where you will find the best School Tablets, Straps, Lunch Baskets, Satchels, Pencils, Inks.

Mr. W. Y. Keel of Billingsley was a visitor to Clanton Tuesday.

Real Estate

¶156 acre farm, 85 acres in cultivation, one 4 room house, two tenant houses; 1-2 mile from church and school; in good community, public road all round farm; has two good wells and a spring; sandy loam soil with clay foundation; four miles from a town.

¶Price $3,500, with 5 year terms. We also have many other bargains to offer.

Fox & Company
Real Estate Agency, Clanton, Ala.

SOUTHERN UNIVERSITY

Greensboro, Ala.

A SCHOOL OF CHARACTER

THE COLLEGE

1. The EDUCATIONAL STANDARDS meet the college requirements of the National Association of State Universities, of the Southern Association of Schools and Colleges, and of the Alabama Association of Colleges of which the institution is a member. The curriculum is high and varied, and the instruction is careful personal and thorough.

2. The IDEAL of the institution is the development of CHRISTIAN CHARACTER. It believes the studies are more important than athletics, and that righteousness is more important than all. And this belief determines its whole attitude and policy.

3. The COST per year is very low. Tuition, fees and board amount to only $200 for the full nine months session,—$150 for the sons of ministers and ministerial students.

THE FITTING SCHOOL

For the benefit of students who are not yet prepered to enter college, but who desire the advantages of a high grade preparatory school, the Southern University has established and maintains its FITTING SCHOOL. This school offers a standard high school course under peculiarly attractive coditions. Students of the Fitting School enjoy the privileges of a college gymnasium, library, Y. M. C. A., and all public lectures and entertainments given by the college. At the same time, they have their own dormitory, where they live together with the principal and his family and the Matron, and so have the advantage of close association with their teachers, and constant supervision by them. The cost is the same as in the college.

FALL TERM OPENS SEPT. 10, 1913.

ANDREW SLEDD, Ph D. (Yale) D. D., L. L. D., President,
RALEIGH W. GREENE, B. S., B. D., Prin. Fitting School.

"Taks] of Honey and Tar" from West and East.

Wm. Lee, Pankenta, Calif., says, "It gives universal satisfaction and I use use only Foley's Honey and Tar Compound for my children." E. C. Rhodes, Middleton, Ga., writes, "I had a racking lagrippe cough and finally got relief taking Foley's Honey and Tar Compound." Use no other in your family and refuse substitutes. Alred Drug Co.

The third quarterly conference of Clanton charge will meet next Saturday and Sunday with Lime Springs church, north-east of Clanton. The business session will be held Sunday morning and it is earnestly hoped that every member of the conference will be present. Two services will be held each day—morning and evening.

Don't forget that on September 5th and 6th the Kahn Tailoring Company will have a representative at KEMP BROTHERS. Have your measure taken for a Fall and Winter Suit.

Mr. and Mrs. Barney M. Robertr will occupy the residence of Dr. Hopkins after the latter moves to the river dam.

Dr. T. J. Marcus is now sporting a brand new Ford car and looks as pleased as a pie with a dent in it.

An expert tailor connected with the famous Kahn Tailoring Company of Indianapolis will be here Friday and Saturday, September 5th and 6th, making headquarters at Kemp Brothers. The best opportunity ever offered for securing well fitting winter suits at reasonable prices and from goods that are absolutely guaranteed. Remember Kemp Bros., Sept. 5th and 6th.

A postal mailed on the world famous battlefield of Waterloo, near Brussels, Belgium, where Napoleon met defeat at the hands of the combined armies of continental Europe, bears the information that Rev. E. W. Butler, the writer is having a most pleasant visit to the old world.

In this issue will be found the professional card of Dr. Jno. L. Kincaid, who is located at Jemison.

Mr. and Mrs. B. M. Roberts returned Sunday morning from an extended bridal trip to Wrightsville Beach, North Carolina.

G. D. (DUTCH) MIMS DEAD

Last Sunday night at his home in the eastern part of the county Mr. G. D. Mims, better known as "Dutch" Mims, died very suddenly. It seems that Mr. Mims had been over to the dam on the Coosa river the day previous where he had engaged in a controversy with some gentleman, after which he went to his home complaining somewhat of his throat. Sunday night he retired earlier than usual, still complaining of his throat. After the family had retired for the night Mr. Mims arose, so his wife states, to get a drink of water; scarcely had he arisen from the bed when he toppled over dead; there was no struggle whatever; seemingly no pain. Mr. Mims gasped three or four times, after which life was extinct.

The funeral services took place Tuesday at the old family burial ground, attended by a large number of friends and acquaintances.

MARRIAGE LICENSES

EIGHT SOULS MADE HAPPY; EIGHT HEARTS BEATING TO THE DULCET TONES OF FOUR

June, the happy month of lovely brides, has come and gone, yet, the habit of being married and giving in marriage has not worn thread-bare, as will be attested by the following, taken from the marriage records in the office of the Probate Judge:—

Mr. Henry Houston to Miss Flora Etta Dyer; Mr. I. D. Huett to Miss Hattie Headley; Mr. Geo. Owens to Miss Annie Lake Cox; Mr. J. B. Davis to Mrs. Jane Beadlecomb.

Mr. J. B. Gray, postmaster at Mountain Creek, was here Saturday, having coming up to catch the fast train to Montgomery, whither he went to visit his mother, who is being treated in one of the infirmaries at that place.

Indications

There is now every indication that the coming year will be one of reasonable plenty and prosperity.

It follows on the heels of a year full of doubt and misgiving. Even the most optimistic, if he be thoughtful, cannot but admit that conditions have required careful management and much economy.

An occasional year of "hard times," of poor season, short crops, depressed business, and the like, is a good thing.

It makes a man thoughtful of his resources, careful of his opportunities, and thankful for his possessions.

Now that plenty and prosperity is upon us—for the seasons have been advantageous and the crops give promise of bounty—let us remember last year; the hard work, the short crop and the tight money.

Let us make the most of what we now have and of what the year will bring forth.

To do this the farmer and the business man should be sure that he realizes the maximum price for his products, sure that he pays no more than is just and reasonable for what he consumes.

Transportation enters largely into the fabric of business. The L. & N. supplies the best to be had in freight and passenger facilities. Not only does the L. & N. supply transportation, but it will cheerfully, gladly, co-operate with the shipper, be he merchant, manufacturer, or farmer, to get the shortest route and the lowest rate. It will and does do all in its power to promote prosperity throughout its territory.

If you want information concerning transporting any given article from any given point in Alabama to any given point on the civilized globe, that information will be supplied by competent experts.

If you contemplate taking a trip from any point in Alabama to any point on the civilized globe, full information concerning rates, accommodations, time, etc. will be supplied.

Let the L. & N. contribute to your pleasure, convenience and prosperity.

PARCHED FIELDS, BOLLS SHEDDING

BOLL WEEVILS ARE RUINING THE CROP—LACK OF RAIN CAUSED DETERIORATION.

FAILURE AND NEAR FAILURE

Some Counties in Northern Section of State Are Sending In Excellent Reports.

Montgomery. — Parched fields, bolls shedding, scattered infection of boll weevils, and a continued drouth of several weeks makes the outlook for the cotton crop of Alabama anything but a good one. In less than a month after the farmers expected a bumper crop, lack of seasonable showers has caused a deterioration of crops in this state, until now the report of a near failure seems to come from almost every quarter. In fact, it seems as if the "jinx," that little god of hard luck, is reigning over the state at the present. Owing to the lateness of the season it is practically impossible for the farmer to come back in his effort to cope with the unexpected. The inevitable drouth will make this another "bad year" to be long remembered by many of the people who devote their life work to the cultivation of the South's leading product.

While some of the different counties send in optimistic reports of conditions, they are far outnumbered by those which have suffered the loss of a big percentage. In Chilton county it is reported that only a half crop will be made, and in Coosa County the crop has been damaged 40 per cent. The conditions are more precarious in Dale than in a number of years, the crop being 30 to 35 per cent. off, while it is reported almost a complete failure in Crenshaw. A deterioration of 20 to 25 per cent. is reported in Colbert; Coffee's crop is failing rapidly, and drouth is also doing damage in Chambers, Talladega, Wilcox, Dallas, Marion, Elmore, Crenshaw and other counties.

Seasoning showers have fell in several of the counties of the state during the past week and the benefit resulting has been wonderful. The conditions are improved 100 per cent. in Houston county during the past week and the breaking of the drouth in Jackson county is reported to have been worth thousands of dollars to the farmers there. Conditions are reported 100 per cent. in Lauderdale county, but a little shedding is being feared now. Coosa, DeKalb, Madison, Baldwin, Cherokee and a few other counties have received rains within the last week or two, and some of them have been a great benefit to the suffering crops.

Although much of the cotton is reported opening before maturing, a great deal of it is opening naturally, and much of the staple is beginning to be seen on the market. Dallas county has already received 700 bales; Enterprise, in Dale county, 321 bales, and several hundred are reported sold in Houston during the past week. A number of bales have also been received in Geneva and Macon counties, while Etowah and Escambia are just selling their first bale. The first bale in Etowah county was sold at Gadsden last week for 19 1-2 cents.

Much corn is being raised in Coosa, Etowah, Escambia, Lamar, Cherokee and Coffee counties. Coosa reports much more corn this year than during any previous year as does Etowah and Escambia. Other diversification is seen in the way of hay, peas, watermelons and truck.

Boll weevils are badly infesting Escambia, Baldwin and Sumter counties. The insect is said to be a strong rival with the hot dry weather in Escambia county and in Baldwin will reduce the output from 1,800 to 400 bales. Farmers of Sumter county are optimistic in their fight against the weevil, however, for they report they have been preparing for the invasion for two years.

FEDERAL JURY REBUKED

Sheppard Severely Reprimands Jury in Case of Searcy.

Montgomery. — "Such a verdict is a travesty on justice and tends to make the courts of the land a farce," said Federal Judge William Sheppard, to a jury which reported a mistrial in the case of Butler Searcy, planter of Coffee county, after deliberating for two days. The reprimand was strong and bore an intimation of a violation of the jurors' oaths.

EIGHT ILL FROM EATING CREAM

Eufaula People Poisoned by Refreshment Served at Entertainment.

Eufaula. — Eight persons are critically ill at Abbeville, south of Eufaula, as the result of eating poisoned ice cream. All the doctors in town are working with them in order that death may not follow a social affair that was held in connection with the Henry county teachers' Institute. It is thought that the metal of the freezer affected the cream.

$250,000 SPENT ON ROADS.

Total Number of Improved Roads in State 5641.61 Miles.

Montgomery. — Nearly one quarter of a million dollars was spent on roads and bridges in Alabama under the supervision of the state highway department during the fiscal year which ended March 1, 1913, according to figures compiled by State Highway Engineer W. S. Keller, and incorporated in the second annual report of the highway department.

The exact amount expended under the supervision of the department was $236,302.62, of which amount $217,971.90 was spent on roads and $18,330.72 was spent on bridges.

The total amount of money appropriated and paid by the state for roads and bridges during the year was $120,000.

Engineer Keller's report shows that 56 counties of the state applied for aid on roads and bridges during the year 1912, and that 46 counties used state aid during that year. The number of applications for state aid for 1913 to March 1, was 81.

The total number of miles of road constructed under the supervision of the highway department for the fiscal year ending March 1 was 97.56, while the number of miles contracted for and unfinished was 49.72.

The total amount of money spent on roads in 1912, including state and county, was $1,353,750. The amount available for roads this year is $1,534,424; for bridges this year, $333,176.

According to Engineer Keller, the total number of miles of road in Alabama is 49,689; the total number miles improved in Alabama is 4,641.81, making the percentage of improved road in Alabama 9.35 per cent.

In reference to these statistics Mr. Keller says:

"The above statistics were secured from probate judges and county treasurers So few of the counties keep a separate account for construction of new roads and for maintenance, it is impossible to separate the two. No accurate account is kept as to the mileage of roads constructed; however, the reports this year are very near accurate, as we have been strict in classifying the different type roads."

BOARD ACTS ON 481 CASES

Between 1,200 and 1,300 Applications for Pensions Considered.

Montgomery. — Members of the state pension board in session for a week or more here, considered between 1,200 and 1,300 applications for pensions, and favorable action was taken on about 481 cases, all the other applicants having been rejected.

Regarding the plan of the governer to purge the pension rolls, the board held a conference with the chief executive which resulted in the appointment of Gen. Fred S. Ferguson as a committee of one to sit at the capitol daily to hear, investigate and take testimony in all cases of pensioners now on the rolls charged with ineligibility for any reason. The work will require from six months to a year.

General Ferguson will report his findings of law and fact in each case to a meeting of the board to be held hereafter on the call of the governor.

The pensioners against whom charges have been filed or hereafter may be filed will be duly notified to appear before General Ferguson and make their defense. If they fail to do so within twenty days, General Ferguson will report the default to the board for final action.

Indications are that many months will elapse before the work of purging the pension rolls has been completed, as it is considered both a tedious as well as a laborious undertaking—also one calling for exceeding care and discrimination.

ARNOLD IS PROBATE JUDGE

O'Neal Appoints Successor to the Late Judge Cooper at Anniston.

Montgomery. — For the second time during the present administration, J. J. Arnold of Anniston, has been appointed probate judge of Calhoun county. Mr. Arnold's latest appointment to that position was made by Governor O'Neal. He succeeds Judge W. H. Cooper, who died about two weeks ago. Mr. Arnold was first appointed probate judge of Calhoun to succeed Judge Crook, who resigned on account of ill health. The appointment was made early in 1911, just after the close of the legislature, in which Mr. Arnold served as one of the administration leaders.

Teachers' Manuals Soon.

Montgomery. — H. J. Willingham has announced that the new teachers' manuals to be used in the public schools of the state will be ready for distribution within a few days. This manual was compiled by Mr. Willingham, assisted by a special committee. In the introduction, Mr. Willingham says in part:

"The state department of education commends to the teachers in the elementary schools of Alabama this manual as a guide for their daily work.

"In order that this manual may be of the highest value to the teachers of the state, the contributors were requested to discuss each subject with the closest possible application to the adopted text books and with a directness and simplicity of instruction that cannot fail to appeal with interest and helpfulness to every teacher whether experienced or inexperienced. Every teacher in every school room in the state ought to have a carefully planned program for each day's work and that program ought to be followed.

FIRST DEPOSITS COME TO SOUTH

ALL THE DEPOSITS IN ALL THE STATES WILL BE MADE IN TWO INSTALLMENTS.

M'ADOO MAKES STATEMENT

Federal Cash to Move Crops to Be Given Banks in August and September.

Washington.—First deposits of the government's $50,000,000 fund to aid crop movements will be made in the Southern states in August and September. All deposits in all states will be made in two equal allotments. In a statement Secretary McAdoo has outlined the treasury department's requirements for security.

"Deposits will be made," says the statement, "only in national banks located in such of the principal cities of the several states as the secretary may designate. Such banks must have an outstanding circulation at the time of deposit equal to at least 40 per cent. of the amount authorized by law. It is understood that such deposits are made to prevent or mitigate the financial tension incident to the movement of crops, and that the funds received by the banks will be used in good faith for this purpose. The banks receiving deposits will be expected to extend to the banks in smaller towns such accommodations as may be consistent with sound and conservative principles of banking, and that in all cases the rate of interest charged such banks will be moderate and reasonable.

"As security for such deposits the banks must deposit with the treasurer of the United States bonds of the United States government, of any issue, equal in amount to at least 10 per cent. of the amount of the deposit. The remaining 90 per cent. must be secured—first, by high class state, municipal or other bonds which have been approved by the secretary, and which will be accepted as security at 75 per cent. of their market value; second, by prime commercial or business paper approved by the secretary, which will be accepted at 65 per cent. of its face value. All such paper must bear the endorsement of the bank offering it.

"Commercial paper may consist of first class business paper executed by individuals, firms or corporations of good standing. No commercial or business paper will be approved by the secretary until it has been unanimously approved and recommended by a committee appointed for that purpose, to consist of six members, five of whom shall be selected by and be members of the Clearing House Association of the city in which the bank applying for the deposit is located. The sixth will bed esignated by the secretary. In cities where there is a subtreasury of the United States, the assistant treasurer also shall be ex-officio a member in addition to the other six.

SAYS WILSON LACKS SUPPORT

Some Tart Intimations by the Mexican General In His Reply.

Washington.—Intimations are contained in provisional President Huerta's reply to the American note presented by John Lind that President Wilson is not backed up by congress or the American people in his stand against recognition of the Huerta government.

Referring to the attacks on the Washington administration by members of congress and pointing to the official recommendations of Ambassador Henry Lane Wilson advising recognition, Huerta declares he is entitled to be recognized. He holds that the Democratic party's power is temporary, and argues that the recognition of his government is a partisan question in the United States. He intimates that he reaches his conclusion on private advices from Washington.

This information was obtained from those who know the contents of the Huerta note so far as it has been deciphered. The complete note is not yet at hand, but the principal argument has been placed before administration officials.

Hotel Destroyed by Flames.

Union City, Ga.—The twenty-five guests of the Reid hotel at this place narrowly escaped from death when fire was discovered in the building. Within a few minutes after the fire call was sounded the hotel was a mass of flames, and nothing but a few personal effects were saved. Valiant work on the part of the volunteer fire department saved the office building of the Farmers' Union, a two-story $10,000 brick structure, next to the hotel. The Reid hotel was a frame structure, valued at $4,500.

Motocycle Racers in Crash.

Milwaukee, Wis.—Five motorcycle racers crashed together here during a five-mile race at the motordrome, and as a result Fred Bowen of New York City is in the hospital with a broken shoulder and serious internal injuries and four other riders are suffering from severe cuts, bruises and minor internal injuries. The most seriously injured, also in hospitals, are James Cox, Dallas, Texas; Olen Stokes, Los Angeles; Bert Brueggman, Denver, and Lawrence Fleckenstein, also of Denver.

NELSON O'SHAUNESSY

Nelson O'Shaunessy, first secretary of the American embassy in Mexico, is in charge there during the absence of Ambassador Wilson.

MANY DROWNED AT SEA

32 LIVES ARE LOST WHEN VESSEL SINKS IN THE OCEAN.

Steamer State of California Strikes Rock Off Alaskan Coast—Passengers Drowned in Vessel.

Juneau, Alaska.—Twenty-five or more passengers and seven members of the crew of the Pacific Coast Steamship company's steamer, the State of California, perished in Cambier bay, 90 miles south of Juneau, when the vessel struck an uncharted rock and sank in three minutes, with many passengers imprisoned in their state rooms.

The steamship left Seattle for Skagway and way points. The purser lost all of his records and it is not possible to give a complete list of the

A great hole was torn in the bottom of the State of California. The vessel and cargo, mail and express are a total loss.

The steamship Jefferson of the Alaska steamship line, southbound, heard the wireless call of the sinking vessel and turned back to rescue the survivors

The wrecked vessel was commanded by Capt. Thomas H. Cann, Jr., who had command of the steamship Valencio on her last trip from Seattle to San Francisco and who was transferred to another steamer when the Valencia reached that port, thus barely missing being on that ship when she went ashore at Cape Beals, B. C., January 22, 1906, with a loss of 17 lives.

Murdered Family and Killed Self.

New York.—Leaving for the coroner a letter in which he apparently sought through quotations from philosophers and poets to justify the taking of life, Henry W. Lake, chef of a restaurant, murdered his wife and four children and shot himself, dying in a hospital. Lake and his dead family were discovered lying in their Brooklyn home several days after the crime was committed. "I am tired of living," Lake wrote to the coroner. "My wife is slowly dying and our four children are small, delicate and sure to get trampled on in the struggle of life. It is best for them to return to unconscious dust with their parents (see Schopenhauer's 'Essay on the Sufferings of the World')."

Postoffice Buildings for Georgia.

Washington.—Representative Adamson introduced bills to appropriate $60,000 each for postoffice buildings at Greenville, Buena Vista and Talbotton, Ga. Representative Howard introduced a bill to appropriate $100,000 for a government building at Decatur, Ga.

Members of Mob Shot.

Spartanburg, S. C.—Three men were wounded here when a mob stormed the county jail in an effort to lynch Will Fair, a negro prisoner charged with assault. The wounded men are Frank Eppley, J. C. Owensby and John Turner. Sheriff White and one deputy repeatedly repulsed the mob, which attempted to break down the jail doors with a battering ram. The officers fired on the mob, wounding the three men who were later sent to a hospital. Their injuries are not regarded as dangerous.

Lined Up Five and Fired on Them.

Everett, Wash.—Erwin Tungren, a stationary engineer at Index, lined up five persons against the wall of the Gray hotel and after robbing them, fired a fusilade from two pistols, killing Miss Dorothy Dunbar, proprietor of the hotel, and wounding two others. Tungren escaped. He had refused to leave the hotel when Miss Dunbar asked him to go. Instead he drew two pistols and ordered her to stand against the wall. Four men in an adjoining room were also shot and killed up with her.

...ty of people living today who well remember the popular excitement caused by this international marriage. It was estimated that the wedding presents represented a value of more than $100,000.

Certainly no marriage ever started out with a fairer outlook. But unfortunately the prospect was not realized. Sartoris, who was an idler, like many Englishmen of his class, did not make a satisfactory husband, and Mrs. Sartoris was eventually compelled to divorce him. Her son, named Algernon after his father, recently married a French girl, Cecile Mouffiard, and is now residing in France. Two daughters are married.

A little over a year ago—Mr. Sartoris having meanwhile died—Mrs. Sartoris took a second husband, Frank Hatch Jones, being married to him on July 4, 1912, at Cobourg, Canada.

On the evening of Jan. 31, 1842, Elizabeth Tyler, third daughter of President Tyler, then a girl of eighteen, was married in the blue room of the White House to William Waller, a member of congress from Williamsbrug, Va.

It is not possible in all instances to trace the subsequent history of the White House brides, some of whom, indeed, such as those of the Jackson administration, were persons of no prominence apart from the fact that they were married in the White House.

Soon after this marriage Mrs. Tyler died, and within a short time the widowed president took to himself a second wife, whose name was Julia Gardiner. She was a New York girl.

Returning from abroad with her father, Miss Gardiner visited Washington and met President Tyler.

Soon afterward President Tyler became engaged to Miss Gardiner, and they were married in New York, the bridal party returning immediately to the White House, where the wedding reception was held.

Mr. Tyler was fifty-six and his bride only twenty. John Quincy Adams, then in congress and a bitter enemy of the president, spoke of the marriage as a "union of January and May."

Young Mrs. Tyler did the honors of the White House for eight months, until the close of the administration. Then she and her husband went to their Virginia home, where they lived seventeen years. When Mr. Tyler died his widow took her children to her mother's home at Carleton Hill, Staten Island, and there spent the rest of her life.

When Van Buren was president Dolly Madison was still the leader of Washington society, and it was she who introduced to him the beautiful Angelica Singleton, daughter of a distinguished South Carolina family. Miss Singleton became a frequent guest at the White House, and the president's son, Major Abram Van Buren, fell in love with her. He married her in November, 1833, at her home in South Carolina, but the wedding reception was held at the White House, where young Mrs. Van Buren immediately took charge of affairs as mistress of the establishment, the president being a widower.

Andrew Jackson was remarkably devoid of relatives. Perhaps it was on this account and because he was fond of young people that he made so much of his wife's relations. Two of the latter were married in the White House at his request during his administration. A third young woman who enjoyed the same distinction was Delia Lewis of Nashville, the daughter of an intimate friend of the president.

The second marriage at the White House during the Jackson regime was that of Mary Easten, another Tennessee girl, who was a niece of Mrs. Jackson. In this instance the bridegroom was Lucien B. Polk, likewise of Tennessee. The pair went to live at Columbia, Tenn., where they spent the rest of their lives very happily.

Elizabeth Martin was a relative of Mrs. Jackson's. She was married in the White House to a young clerk, Lewis Randolph, a son of Martha Jefferson Randolph, who was the eldest daughter of Thomas Jefferson.

This takes us back as far as the administration of John Quincy Adams, who had three sons. The handsomest of the three brothers was John Adams, a graduate of Harvard, notoriously hot tempered and inheriting the arrogance of his grandfather, after whom he was named.

At that time a young man named Hellen, from Philadelphia, was employed in the White House in a secretarial capacity. He had a very pretty sister named Mary, and John Adams fell in love with her, finally obtaining the consent of his parents to their marriage, notwithstanding some opposition to start with.

The ceremony was performed in the circular room, and there was dancing afterward, the president and his wife taking part in the Virginia reel.

It has been said of the Monroes that they made fewer friends in Washington than any presidential family before or since. They were very exclusive and so formal that Mr. Monroe once refused to see a near relative who called at the White House because the visitor was not attired in the small clothes appropriate to full dress. Mrs. Hay, the eldest daughter, would not visit the wives of the diplomats because they did not call first upon her. Thus it came about that when the youngest daughter, Maria Hester Monroe, married her cousin, Samuel Laurence Gouverneur, then secretary to the president, nobody was at the wedding except members of the families of the bride and bridegroom. It took place in the circular room at noon on March 9, 1820, and the clergyman, the Rev. Dr. Hawley of St. John's church, wore knee breeches with silver buckles on his low shoes.

The couple spent their summers at Oak Hill, Loudon county, Va. They lived in New York in winter. Ex-President Monroe died in the New York house while on a visit to his daughter. They had three children, two of them boys.

Maria Monroe Gouverneur died at Oak Hill at the age of forty-nine and was buried there.

Anna Todd of Philadelphia was married at the White House in 1812 to John G. Jackson, a member of congress from Virginia and a granduncle of Stonewall Jackson.

History is unfortunately silent in regard to subsequent events in the life of Anna Todd, but it is known that she went to Virginia with her husband and lived there the rest of her life.

Dolly Madison had two sisters. One of them, Anna, became the wife of Congressman Cutts of Maine. The other and younger sister, Lucy, was married at fifteen years of age to George Steptoe Washington, a nephew of the Father of His Country. He died and she went to live with the Madisons.

All of which merely leads up to the fact that on the evening of March 11, 1811, Lucy, the widow aforementioned, was married at the White House to a Kentucky widower named Todd, who was an associate justice of the Supreme court. This was the first White House wedding and was celebrated with all the eclat possible in those comparatively simple days.

It will be noticed that only four of the twelve White House brides have been daughters of Presidents. The first of these was Maria Monroe, the second Elizabeth Tyler, the third Nellie Grant and the fourth Alice Roosevelt. Jessie Woodrow Wilson will be the fifth.

HARD TO REALIZE.

"We quickly accept conditions as they are. It's hard to realize that a bald-headed man ever had hair."

"That's true."

"Yet some of them not only had hair, but long, crinkly curls."

A DILEMMA.

"I suppose Mrs. Smith is much distressed about her husband's death."

"I don't know about that. He was so mean and crunky that in one way, it is a relief. But then black is so horribly unbecoming to her."

THE BOSS SPEAKS.

"Young man," said the boss, "I like to see you arrive in the morning feeling fresh."

"Yes, sir."

"But let it end there. You have a habit of keeping your freshness up all day."

NOTHING SERIOUS.

"Was I ill when you saw me last night?" "I wouldn't like to say that."

"Come, sir! What was I doing?"

"Well, you were challenging a lamppost to race."

Hearth-Hunger.

"Beyond the need for bread, a woman's needs are two; deeper than all cravings save the mother's passion, firm-rooted in our endless past, is the hearth-hunger. The trees that sweep my chimney have their roots at the world's core! The flowers in my dooryard have grown there for a thousand years! What milenniums have done, shall decades undo? We are not so shallow, so plastic as that! We will go into the mills, the shops, the offices, if we must, but we know we are off the track of life. Neither our desire nor our power is there."—Cornelia A. P. Comer, in Atlantic.

ECZEMA DISFIGURED FACE

Hampton Springs, Fla.—"I had had eczema on my face and hands for about three years. My face was badly disfigured. The eczema broke out in pimples and itched so very badly I would scratch it all the time. It was the most irritating disease I ever had. It started on my face and hands and it spread all over my body. I had great large sores all over me, caused from the eczema. It bothered me day and night so that I could not rest at all.

"I used three remedies for skin disease and they didn't give relief at all. I was almost terrified until a friend recommended Cuticura Soap and Ointment to me. They helped me from the time I started to use them. I only used two cakes of Cuticura Soap and two boxes of Cuticura Ointment and was cured." (Signed) Mrs. E. C. Parker, Dec. 7, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

New Woman.

SOME 'TATERS

ARKIE MAHAN DISPROVES OLD THEORY.

Mr. Arkie Mahan, now living at Chunchula, Mobile county, has been in Clanton for the past several days visiting his parents and brothers.

Mr. Mahan brought along with him a few samples of the sweet potatoes he is raising this year on his Mobile county farm. He says that he had several other things to bring along in his Saratoga and consequently had room but for two or three potatoes; those brought to the Press offices were magnificent specimems, the smallest weighing two and a quarter pounds. Mr. Mahan says he has about four acres of potatoes and will harvest at least two hundred and fifty bushels to the acre. Some of his neighbors have potatoes of the same variety which weigh as much as much as seven pounds and are harvesting four hundred bushels to the acre.

Who said "There ain't no taters?"

DEATH OF AN INFANT

LITTLE GUY HIGGINS PASSES AWAY.

Friday about noon the spirit of sweet little Guy Higgins was called to become a jewel in crown of Him who said "Suffer little children to come unto me and forbid them not." Bright, vivacious, the very light of a father's eye and the joy of a mother's heart, he was cut down almost without notice. In the morning he was seemingly well, at noon he was cold in the grasp of death. Little Guy makes the fifth child that Mr. and Mrs. Higgins have lost in recent years; surely they have been called upon to drain the cup of sorrow to the bitter dregs! It is hard indeed to give up one loved one, but when the death angel calls with such relentlessness and bears away treasure after treasure from the home it requires a heart of faith in Him who doeth all things well to understand and to know that He chasteneth those whom He loveth. What joy it must be to mother and father to know that they have five precious jewels safe beyond the rolling tide; sitting at the feet of their Saviour chanting His praises forever; waiting and watching at the beautiful gates for the coming of those whom in life they loved so dearly; sitting by the Great White Throne drinking in the tender love of Him who took little children up in His arms and blessed them; walking by the glassy sea and beholding reflected there the glory of Him spake as never man spake.

The mortal remains of the precious little child were gently layed to rest Saturday at noon in Clanton cemetery, Rev. L. H. S. Chappelle officiating.

At the time of the death of the child Mr. Burt. Higgins, the oldest brother, was away from home and though every means was utilized to secure his presence here he was unable to make the trip, having been disappointed in Montgomery in making connections for Clanton. Mr. Fuller, the devoted grand father: was also away at the time; both having arrived after the funeral services.

SCHOOL NOTICE

The Unity-Chilton Baptist High School, Thorsby, Alabama, will open on September 3rd, 1913. Three large rooms have been added to the Baptist church and are now ready for use.

We have a good faculty and the prospects are very bright for a splendid opening of the School. Now let every Baptist rally to this work—your work. If you cannot be a "booster" do not be a "knocker." Respectfully.

E. B. Deason,
President Board of Trustees.

FOLEY KIDNEY PILLS

HIGHWAY TOURISTS

Saturday afternoon Mr. and Mrs. Ferguson and children, connected with the National Highway, accompanied by Mr. Walter Harper, of the Birmingham News, arrived in Clanton on their way to Montgomery, the first "lap" in the great path-finding tour through the Southern states to San Francisco. The party left Birmingham early in the morning but lost the way just after leaving the city and were detained several hours. They arrived in Clanton just previous to the big rain which fell in the afternoon and decidedto remain here during the night, fearing the rain had interferred somewhat with the roads between here and Montgomery. Mr. Ferguson and Mr. Harper talk entertainingly of the great work being accomplished in the making of a great national highway; they were especially enthusiastic about the work being done in north Chilton, where a number of farmers are pulling up fine corn and cotton to make way for the building of the great road which is to pass through that section of the county.

Dr. Matthews, Judge Reynolds and others arranged a sumptuous dinner for the delectation of the tourists and had otherwise prepared for their entertainment, but the unsettled condition of the weather interferred somewhat with the arrangements.

BAKER SCHOOL HOUSE

Concert at Baker School House, three miles west of Clanton, will be given Saturday night, August 30th, beginning at 7:30 The proceeds are to be given for the benefit of the school. In soliciting the liberal patronage of the people, we assure you that every possible effort will be put forth by the good people of the community to make it a most pleasant and enjoyable occasion for all present by providing music and refreshments.

Money Saved Is Money Made

(Continued From Page One)

Again, there is enough paid out annually in physician's bills, medicine bills, etc. to purchase a system of water works and sewerage in ten years. Do you believe that? If so why do you hesitate? If you don't believe it figure again. To be sure, we would have medicine bills to pay and coffins to buy even if we had water works and sewerage, but we would save enough in ten years to buy the water and sewerage system. This does not take into consideration the lives that would thereby be saved; we do not figure on these, for under the present system, it seems, we care nothing for health or life.

Increase of citizenship? No, we can't expect much increase to help us bear the burden as things now stand; men of means, men of business affairs will seek other places to locate where they can have these conveniences, these health promoters, the life savers.

Would the insurance man grumble? They would, rather, applaud for where now but a few insure because of the prohibitive rates, they would all insure if the premiums were reduced within reason and so the insurance agent would reap as rich a harvest as now.

There are so many things to be said that we hesitate to draw out this article longer; think a little along these lines and when the Council submits the proposition, let there not be a single negative vote.

Manuel DuBose, V. P. L.; continued to October term.

Percy Fields, A. W. W.; pleads guilty; fined $10 and costs.

Joshua McDaniels, A. and B.; waived to Grand Jury.

INSPECTOR'S REPORT.

The following extracts taken from a letter written to Judge Deason by State Prison Inspector, Dr. W. H. Oates, tells something of the conditions existing at the county jail, recently remodeled and improved:

"The recent improvements and remodeling of the jail of Chilton county were noted with a great deal of interest, and complied with the law in all particulars, save the following: The closed wire screens deprive the prisoners of sunlight and air and should be removed. To prevent easy access to the jail a fence should be placed around it. The two solid steel doors, guarding the entrance to the two male apartments, should be placed by doors of open construction in that the present doors are a menace to the life of the Sheriff.

I want to thank your court for their co-operation with this department in complying with the law relative to jails and further compliment you on the excellent jail you have gotten for such a small expenditure."

(Editor's note: The solid steel doors referred to above, were selected at the suggestion of Dr. Oates, but since their purchase he has decided they sh uld be replaced by "open work" doors so that the jailor might see the prisoners before opening the door, and thereby secure safety.

STATE EXAMINER CONCLUDES.

State Examiner of Public Accounts, Mr. Chas. L. Towne, who had been in Clanton for the past several days looking over the books of the several county officials, concluded his labors last Saturday and returned to headquarters at Montgomery. His report will be submitted to the Governor in a short time; till then nothing definite can be ascertained as to whether or not any irregularities were discovered in the accounts of county officials.

FRIENDLESS, HOMELESS SUPPERLESS

Perhaps the good people of Clanton—the charitably inclined—do not know it, but there has been roving the streets of Clanton for the past eight or ten days and nights, a man who was badly hurt out at the dam, who is now unable to work; it seems that while in the discharge of his duty some days ago, he had the misfortune to lose his footing and fell forty or fifty feet, landing on his head; this fall has mentally incapacitated the man for work; he is a foreigner and his broken English is hard to understand. For some days he has been sleeping on cross tie piles around the town, and eating whatever and whenever he could secure food. It's no body's business to see that he doesn't starve and yet it is everybody's business.

The man is sick, he needs attention, he needs something to eat and a place to sleep. He was hurt in the discharge of duty out at the dam; he has wandered into Clanton. Whether it is the DUTY of the Dam people or the Clanton people to care for him is not the question just now; the proposition is the man needs attention and he needs attention NOW; he is somebody's boy; that mother, perhaps, thinks her boy safe and secure; her heart would bleed with anguish if she knew the facts. She doubtless, would give her last crumb to help another's starving sick, friendless boy; yes, she would bathe his fevered brow with her tears of sympathy and sorrow; is there not one in Clanton who will do likewise?

NEW POST OFFICE SUGGESTED

An effort is being made to have a new post office established out at Coosa river, at or near the dam. The amount of mail matter going from the Clanton post office to that point by mail carrier has become so large as to burdensome as well as a handicap to the carrier. Each day he is required to carry several sacks of mail and quite a number of packages; besides this he returns to the office in the afternoons with a large number of packages and letters.

The establishment of a post office at or near the river dam would be a great convenience to the workmen in that section and would enable the postmaster to establish a rural route from that point which would serve a number of patrons who are not now being served. A petition was prepared last week upon which signatures are being asked, praying for the locating of a postoffice in that community.

Mr. J. B. Gray, who has, with his family, recently moved out to Lock 12, is circulating the petition and is asking to be appointed as postmaster.

A GRATEFUL WIDOW

Mr. C. Reese Mullins, Agent Volunteer State Life Insurance Co.,
Clanton, Alabama.

Dear Sir and Friend:

I beg to acknowledge receipt of check for $1,000 in full payment of insurance policy No. 20500 in your company on the life of my late husband Oscar Zeddie Robinson. I thank you and your company for the prompt settlement of this claim after receiving the proof of death properly executed. I will take pleasure in recommending the Volunteer State Life Insurance Company to my friends and the friends of my husband as worthy of all confidence, and more particularly as it is a Southern company, operated in the interest of the South. My husband took out this policy with you only a little more than a year ago, and had paid only two premiums, a total of $64.30.

I think he displayed wise judgment in taking out insurance. His death came as a shock to us all, which is another proof that we should all prepare for the future by carrying ample life insurance in a good company like the Volunteer State Life which you represent This $1,000 will pay off the mortgage on my little home and leave me a nice little bank account which will enable me to raise my two small children; but, without this I would be left helpless.

Again thanking you for your promptness in settling my claim, and wishing you and the Volunteer Life Insurance Company the success you so well deserve, I am,

Yours most gratefully,
Addie G. Robinson.

LIGHTNING STRIKES COOPER

A telephone message received here this morning by C. Reese Mullins, agent from Dr. R. J. Eiland, stated that lightning struck his barn early this morning, causing considerable damage to same and killing one of his horses.

Mr. Mullins had the Doctor's barn and horses insured and left immediately for Cooper to adjust the loss. It seems to be a great pleasure to Mr. Mullins to look after his insurance business, and especially his losses. See him and insure your lives and property.

Body Disinterred

Search For Marks of Violence.

To settle a controversy as to the manner in which G. D. (Dutch) Mims came to his death, last Saturday a party of physicians and county officials disinterred the body last Tuesday for examination. It was persistently reported on the streets that Mr. Mims had been shot in the back and that he had died from the effects of the wound The disinterrment was under the supervision of Drs. Marcus and Sam E. Johnson; upon examination of the body these two gentlemen found nothing to indicate foul play. There were no marks of violence whatever; so the controversy is, it seems, finally settled, and the conclusion is that Mr. Mims came to his death from natural causes.

MAYOR MATTHEWS PROVES A MODERN MATADOR OF PARTS

"Takes Bull by Horns" and Builds Sidewalks and Paves Streets For Town of Clanton Without Any Legal Authority.

Mayor E. A Matthew of Clanton is a modern matador. In his official capacity he often takes the "bull by the horns" and does things just in advance of popular clamor.

For instance, a few years ago he decided Clanton should have cement sidewalks. He felt the pulse of the people and found most of them were opposed to the improvement. They did not know just why, but it was an innovation that looked bigger than it really was. Matthew knew the people wanted sidewalks though they did not recognize the want.

Going about the matter diplomatically and firmly, he managed to make his council and people believe that under the laws and ordinances of the city he had the right to build sidewalks. He built the walks. The people stood by and gaped.

When they were finished on the principal street and avenues the people gave their heads a degree higher tilt and showed they were proud of them. It was not long until they were demanding more. Then it was the Mayor let it be known he had no authority for building the first. He was speedily given the authority to build sidewalks.

Now Mayor Matthews is certain that Clanton should have at least one paved street. He is going to pave the main street through the town with vitrified blocks. There is no opposition to this scheme. The people have got it into their heads that Mayor Matthews knows what is best for them and they are trusting to his good judgment.

And while he has his hand in he is looking to still further improvements for this progressive little city which marks the half-way ground between Birmingham and Montgomery. He wants a system of waterworks and sewerage. He has been in Birmingham several times recently, discussing with various interests plans for floating bonds for these public improvements. Plans are progressing satisfactorily. Before the present year ends Mayor Matthews hopes to have both issues authorized and work begun.—Birmingham News.

Prof. E. R. Kay, for years a member of the faculty of the State University, was here Saturday investigating the proposition to install waterworks and sewerage system for Clanton.

MINOR HAPPENINGS IN ALABAMA CITIES, TOWNS AND VILLAGES.

35 PASSENGERS ESCAPE

Steamer James A. Carney Strikes Obstruction Off Fairhope in Mobile Bay.

The bay steamer, James A. Carney, operated between Mobile and points on the eastern shore of Mobile bay, struck a sunken obstruction when off Fairhope and after a run at full speed for the shore was able to beach herself in seven feet of water. Thirty-five passengers on board were taken off in launches hurriedly dispatched. These came from Fairhope when distress signals of the James A Carney were first heard and the vessel was seen heading for shallow water. The bottom of the vessel was pierced by one end of the "deadhead" and the side forward stove in.

It was stated that Woodrow Wilson will include Marion institute in his Alabama visit of October, should he go to Mobile. While he was president of Princeton university he made annual visits to Marion to deliver addresses at Marion Institute.

BLOODY RIOTING BY IRISH STRIKERS

HOSPITALS SO CROWDED, MANY OF INJURED SENT TO THEIR HOMES.

400 PERSONS ARE HURT

In Many Sections of the City Pitched Battles Occurred—Thirty Constables Injured.

Dublin, Ireland.—Fierce rioting in connection with the tramway strike was renewed. Hundreds of persons were injured. All the hospitals are so crowded that many serious cases had to be sent to their homes for treatment.

The strike committee, in the interest of peace, had rescinded the call for a mass meeting in O'Connell street, and had substituted a parade from Beresford place to Croydon park, at Fairview, a suburb on the north side of the city. The authorities meanwhile had prohibited the mass meeting.

Croydon park belongs to the Transport Workers' union, and a meeting was held there without disorder. But on the return march attempts of the police by baton charges to disperse the constantly growing crowds led to rioting.

The mob was further incensed by the arrest of one of the strike leaders, James Larkin, against whom a warrant had been out for 24 hours. Larkin was on the balcony of a hotel in Sackville street. He was wearing a disguise for the purpose of eluding arrest, but an enthusiastic admirer raised the cry, "Three cheers for Larkin!" The police immediately pounced upon him and violent scenes ensued.

The rioting became general in various parts of the city. The police charged repeatedly with their sticks, and this led to pitched battles. Stones, brickbats and bottles were hurled by the infuriated rioters, and the streets were soon covered with prostrate forms. More than fifty arrests were made.

The lord mayor announced his intention of demanding a public inquiry into the conduct of the police during the strike riots, and will send law officers of the corporation to attend the inquests over the two men who have died from their injuries.

PACAFIC WATERS IN CANAL

Last Remainig Barrier Blown Out by Charge of Dynamite.

Panama.—The last remaining barrier at the Pacific end of the Panama canal was blown out by dynamite. It was an intensely interesting spectacle. At exactly 9:30 o'clock an electric switch was turned on and the 1,500 spectators, including the Shriners visiting here from the United States and officers of the British cruiser New Zealand, were rewarded by a wonderful sight. Hundreds of tons of mud and stone were thrown high in the air and the thunderous roar of the explosions re-echoed in the nearby hills.

About twenty long tons, equivalent to 44,800 pounds, of 45 per cent. dynamite constituted the blast, which was one of the largest ever set off in the canal.

The charge, which was planted in 541 holes at an average depth of 36 feet, tore a big gap in the barrier, but not to a sufficient depth to permit water to flow through, as the sea level channel was at low tide.

Equally interesting as the explosion was the actual breaking of the barrier at the time, the tide creeping steadily up until it was level with the top of the gap. A workman seized a shovel and made a small trench through which a rill of water trickled. Gradually it widened, until an hour later a raging torrent, with a 35-foot fall, poured through an opening 400 feet wide into that part of the canal between Gamboa Dike and the Miraflores locks, which previously had been excavated by steam shovels.

This cut, which is 5,000 feet long, 500 feet wide, and 41 feet deep below mean sea level, was entirely filled by the time the waters of the Pacific laved for the first time the solid masonry of the Miraflores locks.

Put Five Bullets in Chief of Police.

Lens, S.C.—J. B. Harter, chief of police at Allendale, S. C., was shot to death at Lens. A. L. Walker is confined in the Hampton county jail, charged with the killing. While the tragedy occurred on the platform of the railway station there were no witnesses, and as Walker refused to make a statement, nothing is known as to how or why Harter was killed. An inquest will be held at which time an effort will be made to solve the mystery. The dead man was well known in this section.

Huerta Displays Strength.

Mexico City.—A wave of patriotism appears to be sweeping over Mexico, and from many states and from all classes, it is announced, assurances of allegiance and offers of service are being received daily by President Huerta and his minister of war. The plans are being made for a large display of military strength on September 16, Independence day. It is proposed to hold a great parade in the capital in which 30,000 men are expected to march.

SENOR DON ANGEL ALGARA

Senor Algara, the popular young first secretary and charge d'affaires of the Mexican embassy in Washington, is a busy man these days.

CONGRESS SUPPORTS WILSON

PRESIDENT'S MESSAGE ON MEXICO ENDORSED BY THE LEADERS.

No Member of the Huerta Government Will Make Statement About the Message of Mr. Wilson.

Washington.—Congressional leaders declare that President Wilson's vigorous assertion of a definite policy toward Mexico would have the effect of staying in congress for a time at least, open criticism of the administration. Those who discussed the message agreed in the general statement that it presented a frank and full statement as to the recent negotiations with the Huerta government, and, at the same time, definitely outlined the American policy for the future.

Republicans joined with Democrats in the endorsement of the president's utterances.

"The president's message is an admirable document," said Senator Bacon, chairman of the senate foreign relations committee. "It sets forth the facts without reservation, and puts us right before the world. Moreover, I believe it will have a calming effect on our own people, and a soothing influence upon public expression in the United States. The magnificent ovation given the president showed that he has behind him both branches of congress, without regard to party division."

Mexico City.—Without comment Frederico Gamboa, the minister of foreign affairs, presented to the standing committee of the Mexican congress all the facts in the controversy between Mexico and the United States.

The congressmen comprising the commtitee received the facts without comment other than that indulged in as individuals after adjournment. Unless there are new developments it is improbable that discussion, even of a private character, will continue long.

MISS JESSIE WILSON HURT

President's Daughter Is Thrown From Horse—Found by Roadside.

Plainfield, N. H.—Miss Jessie Wilson, daughter of President Wilson, while riding near here, was thrown from her horse and lay unconscious for more than half an hour on the roadside.

She was found there by Dr. Charles W. Worthen of White River Junction, who applied remedies and restored her to consciousness. Later Miss Wilson was taken to a house nearby and the Cornish home of President Wilson was notified by telephone. Her injuries are not believed to be serious.

Miss Wilson's fiancee, Francis B. Sayre, with whom she had started for a ride, had gone ahead of her and knew nothing of the accident until the riderless horse dashed past him. The scene of the accident was on the New Hampshire side of the Connecticut river, just opposite the Vermont town of North Hartland.

Girls Clear $233 on Tomatoes.

Raleigh, N. C.—How two Mecklenburg county girls cleared $233 on one-fifth of an acre by raising and selling tomatoes was told by Miss Margaret Brown, aged 15 years, to 1,500 farmers and more than 300 housewives here in annual convention. Miss Brown said she donned overalls and tended her crop. Mrs. Julius Heath of New York City, organizer of the Housewives League of America, urged the women to trade direct with the producer rather than give the middleman his profit.

U. S. to Sell Seal and Fur Skins.

Washington.—To test the American fur market the government will sell seal and other fur skins valued at about $100,000 at St. Louis this fall. The skins are the season's kill on the Pribilof Islands and are now on the way from San Francisco. They are to be stored and prepared and then sold at auction. Under the terms of the Fur Seal Treaty the skins belong to the United States government. The money realized from the sale will be divided between the United States and Great Britain.

VISCOUNT HALDANE ON VISIT TO U. S.

FIRST LORD HIGH CHANCELLOR TO LEAVE GREAT BRITAIN SINCE WOLSEY.

DISCUSSES MANY SUBJECTS

Situation in Mexico Is Only Subject Tabooed by Distinguished Guest.

New York.—Viscount Haldane, the first lord high chancellor of Great Britain to leave his country since Cardinal Wolsey went to France four hundred years ago, arrived here on the steamship Lusitania for a flying visit in this country and Canada. The lord high chancellor, whose position in England corresponds to that of chief justice of the supreme court of the United States, is here as a guest of the American Bar Association, before which he will deliver an address at its annual meeting in Montreal. He was entertained at a dinner given in behalf of the association by C. A. Severance of St. Paul. His itinerary includes visits to West Point and Albany.

Previously warned that he might expect to be interviewed by American newspaper men on his arrival in New York, the chancellor smilingly greeted a delegation of them who boarded the Lusitania at quarantine and submitted to another interview when he reached the hotel where he is making his headquarters in this city.

Lord Haldane freely discussed many questions of the day, declared that he was in favor of woman suffrage, prophesied that a millennium of peace was far off, said the relations between Germany and England were never more cordial, praised the intellectual growth of the United States and predicted that home rule for Ireland would soon be an accomplished fact. With a merry twinkle in his blue eyes the lord high chancellor joked with his interviewers between sreious remarks and conceded that the American custom of interviewing distinguished visitors was "delightfully progressive."

WANT WARSHIPS AS SCHOOLS

Medical Inspection of Public Educational Institutions Recommended.

Buffalo, N. Y.—The fourth international congress on school hygiene has adopted resolutions recommending a thorough medical inspection in all public schools and the use of discarded battleships as open air schools.

The congress states it is convinced that the open air school is one of the most powerful agents in the prevention and cure of tuberculosis in childhood. The resolution says:

"That the fourth international congress on school hygiene petitions the United States government to place at the disposal of the various states of the Union as many of the discarded battleships and cruisers as possible to be anchored according to their size in rivers or at the seashore and to be utilized by the respective communities for open air schools for children or hospital sanatoria for adults.

"That the congress expresses its appreciation to the Italian government for the example it has given by consecrating three of its discarded men of war to the combat of tuberculosis."

Methods of correcting defects of vision in school children and preventing malnutrition were the principal subjects discussed by the congress. At the closing public meeting G. Stanley Hall, president of Clark university, Worcester, Mass., spoke on the hygiene of appetite.

3 Shot, 6 Hurt, in Family Row.

Redbank, N. J.—Mrs. Frank Storck retains possession of her husband's home in the fashionable residential section of Redbank, after a fight made to dispossess her in which three persons were shot, four injured by blows, an eighth broke his ankle and Mrs. Storck herself was thrown through a window and rendered unconscious when she fell on her head on the sidewalk. Storck, a piano dealer, divorced his wife last month. She has since frustrated his efforts to force her to leave his residence here. He organized a raiding party.

Refused to Eat Editorials, Is Shot.

Sulphur, Okla.—J. I. Schenck, editor of the Sulphur Democrat, was shot and killed here, and John Lindsay, former treasurer of Murray county, is charged with the killing, was hurried from the Sulphur jail to the more secure prison at the nearby town of Norman, when mob violence was threatened. Lindsay, it is alleged, opened fire on Schenck with a shot gun when the editor refused to "eat" a copy of his paper which contained adverse editorial comment concerning Lindsay.

Crowd and Wife Meet Death in Fire.

New York City.—Thousands of curious that had been gathered in many lands and stacked high in the apartments of Hipolito Uriate, for fifty years a Spanish consul, fed a fire kindled in lighting a cigar, and blocked the trap of the aged diplomatist and his wife to safety. Uriarte was found dead kneeling across a window sill, his wife, Marie Louise, unstuck a window leading to an air shaft, for their opening as a fire escape and then plunged true stories to her death. Mr. Uriarte was 83 years old.

WILSON'S MESSAGE ON THE MEXICAN SITUATION.

Washington, Aug. 27.—President Wilson in person addressed congress today on the Mexican situation as follows:

"Gentlemen of the congress:

"It is clearly my duty to lay before you, very fully and without reservation, the facts concerning our present relations with the republic of Mexico. The deplorable posture of affairs in Mexico, I need not describe, but I deem it my duty to speak very frankly of what this government has done and shall seek to do in fulfillment of its obligation to Mexico herself, as a friend and neighbor, and to American citizens whose lives and vital interests are daily affected by the distressing conditions which now obtain beyond our southern border.

"Those conditions touch us very nearly. Not merely because they lie at our very doors. That, of course, makes us more vividly and more constantly conscious of them, and every instinct of neighborly interest and sympathy is aroused and quickened by them; but there is only one element in the determination of our duty. We are glad to call ourselves the friends of Mexico, and we shall, I hope, have many an occasion in happier times as well as in these days of trouble and confusion, to show that our friendship is genuine and disinterested, capable of sacrifice and every generous manifestation.

"The peace, prosperity and contentment of Mexico means more, much more, to us than merely an enlarged field for our commerce and enterprise. They mean an enlargement of the field of self-government and the realization of the hopes and rights of a nation with whose best aspirations, so long suppressed and disappointed, we deeply sympathize. We shall yet prove to the Mexican people that we know how to serve them without first thinking how we shall serve ourselves.

"But we are not the only friends of Mexico. The whole world desires her peace and progress; and the whole world is interested as never before. Mexico lies at last where all the world looks on. Central America is about to be touched by the great routes of the world's trade and intercourse running free from ocean to ocean at the isthmus. The future has much in store for Mexico, as for all the states of Central America. But the best gifts can come to her only if she be ready and free to receive them and to enjoy them honorably.

"America—in particular—America north and south and upon both continents—waits upon the development of Mexico and that development can be sound and lasting only if it be the product of a genuine freedom, a just and ordered government founded upon law. Only so can it be peaceful or fruitful of the benefits of peace. Mexico has a great and enviable future before her, if only she choose and attain the paths of honest constitutional government.

"The present circumstances of the republic, I deeply regret to say, do not seem to promise even the foundations of such a peace. We have waited many months, months full of peril and anxiety, for the condition there to improve and they have not improved. They have grown worse rather. The territory in some sort controlled by the provisional authorities at Mexico has grown smaller, not larger; the prospect of the pacification of the country, even by arms, has seemed to grow more and more remote; and its pacification by the authorities at the capital is evidently impossible by any other means than force.

"Difficulties more and more entangle those who claim to constitute the legitimate government of the republic. They have not made good their claim in fact. Their successes in the field have proved only temporary. War and disorder, devastation and confusion seem to threaten to become the settled fortune of the distracted country.

"As friends we could wait no longer for a solution which every week seemed further away. It was our duty at least to volunteer our good offices—to offer to assist, if we might, in effecting some arrangement which would bring relief and peace and set up a universally acknowledged political authority there.

"Accordingly I took the liberty of sending the Hon. John Lind, formerly governor of Minnesota, as my personal spokesman and representative to the City of Mexico, with the following instructions:

"Press very earnestly upon the attention of those who are now exercising authority or wielding influence in Mexico, the following considerations and advice:

"'The government of the United States does not feel at liberty any longer to stand inactively by, while it becomes daily more and more evident that no real progress is being made toward the establishment of a government at the City of Mexico which the country will obey and respect.

"'The government of the United States does not stand in the same case with the other great governments of the world in respect to what is happening or what is likely to happen in Mexico. We offer our good offices not only because of our genuine desire to play the part of a friend, but also because we are expected by the powers of the world to act as Mexico's nearest friend.

"'We wish to act in these circumstances in the spirit of the most earnest and disinterested friendship. It is our purpose in whatever we do or propose in this perplexing and distressing situation not only to pay the most scrupulously regard to the sovereignty and independence of Mexico—that we take as a matter of course to which we are bound by every obligation of right and honor—but also to give every possible evidence that we act in the interest of Mexico alone, and not in the interest of any person or body of persons who may have personal or property claims in Mexico which they may feel that they have the right to press.

"'We are seeking to counsel Mexico for her own good and in the interest of her own peace, and not for any other purpose whatever. The government of the United States would deem itself discredited if it had any selfish or ulterior purpose in transactions where the peace, happiness and prosperity of a whole people are involved. It is acting as its friendship for Mexico, not as any selfish interest, dictates.

"'The present situation in Mexico is incompatible with the fulfillment of international obligations on the part of Mexico, with the civilized development of Mexico herself, and with the maintenance of tolerable political and economic conditions in Central America. It is upon no common occasion, therefore, that the United States offers her counsel and assistance. All America cries out for a settlement.

"'A satisfactory settlement seems to us to be conditioned on—

"'(A)—An immediate cessation of fighting throughout Mexico, a definite armistice solemnly entered into and scrupulously observed.

"'(B)—Security given for an early and free election in which all will agree to take part.

"'(C)—The consent of General Huerta to bind himself not to be a candidate for election as president of the republic at this election, and,

"'(D)—The agreement of all parties to abide by the results of the election and co-operate in the most loyal way in organizing and supporting the new administration.'

"Mr. Lind executed his delicate and difficult mission with singular tact, firmness and good judgment, and made clear to the authorities at the City of Mexico not only the purpose of his visit but also the spirit in which it had been undertaken. But the proposals he submitted were rejected, in a note the full text of which I take the liberty of laying before you.

"I am led to believe that they were rejected partly because the authorities at Mexico City had been grossly misinformed and misled upon two points. They did not realize the spirit of the American people in this matter, their earnest friendliness and yet sober determination that some just solution be found for the Mexican difficulties; and they did not believe that the present administration spoke, through Mr. Lind, for the people of the United States. The effect of this unfortunate misunderstanding on their part is to leave them singularly isolated and without friends who can effectually aid them.

"So long as the misunderstanding continues we can only await the time of their awakening to a realization of the actual facts. We cannot thrust our good offices upon them. The situation must be given a little more time to work itself out in the new circumstances; and I believe that only a little while will be necessary.

"For the circumstances are new. The rejection of our friendship makes them new and will inevitably bring its own alterations in the whole aspect of affairs. The actual situation of the authorities at Mexico City will presently be revealed.

"Meanwhile, what is it our duty to do? Clearly, everything that we do must be rooted in patience and done with calm and disinterested deliberation. Impatience on our part would be childish, and would be fraught with every risk of wrong and folly. We can afford to exercise the self-restraint of a really great nation which realizes its own strength and scorns to misuse it. It was our duty to offer our active assistance. It is now our duty to show what true neutrality will do to enable the people of Mexico to set their affairs in order again and wait for a further opportunity to offer our friendly counsels. The door is not closed against the resumption, either upon the initiative of Mexico or upon our own, of the effort to bring order out of the confusion by friendly co-operative action, should fortunate occasion offer.

"While we wait, the contest of the rival forces will undoubtedly for a little while be sharper than ever just because it will be plain that an end must be made of the existing situation, and that very promptly; and with the increased activity of the contending factions will come, it is to be feared, increased danger to the non-combatants in Mexico as well as to those actually in the field of battle.

"The position of outsiders is always particularly trying and full of hazard where there is civil strife and a whole country is upset. We should earnestly urge all Americans to leave Mexico at once and should assist them to get away in every way possible—not because we would mean to slacken in the least our efforts to safeguard their lives and their interests, but because it is impossible that they should take no unnecessary risks when it is physically possible for them to leave the country.

"We should let every one who assumes the air of authority in every part of Mexico know in the most unequivocal way that we shall vigilantly watch the fortunes of those Americans who cannot get away and shall hold those responsible for their sufferings and losses to a definite reckoning. That can be and will be made plain beyond the possibility of a misunderstanding.

"For the rest I deem it my duty to exercise the authority conferred upon me by the law of March 4, 1913, to see to it that neither side to the struggle now going on in Mexico receive any assistance from this side of the border. I shall follow the best practice of nations in the matter of neutrality by forbidding the exportation of arms of any kind from the United States to any part of the Republic of Mexico—a policy suggested by several interesting precedents and certainly dictated by many manifest considerations of practical expediency. We cannot in the circumstances be the partisans of either party to the contest that now distracts Mexico, or constitute ourselves the virtual umpire between them.

"I am happy to say that several of the great governments of the world have given this government their generous moral support in urging upon the provisional authorities at the City of Mexico the acceptance of our proffered good offices in the spirit in which they were made.

"We have not acted in this matter under the ordinary principles of international obligation. All the world expects us in such circumstances to act as Mexico's nearest friend and intimate adviser. This is our immemorial relation towards her.

"There is nowhere any serious question that we have the moral right in the case or that we are acting in the interest of a fair settlement and of good government, not for the promotion of some selfish interest of our own.

"If further motive were necessary than our own good will towards a sister republic and our own deep concern to see peace and order prevail in Central America, this consent of mankind to what we are attempting, this attitude of the great nations of the world towards what we may attempt in dealing with this distressed people at our doors, should make us feel the more solemnly bound to go to the utmost length of patience and forbearance in this painful and anxious business.

"The steady pressure of moral force will before many days break the barriers of pride and prejudice down and we shall triumph as Mexico's friends more than we could triumph as her enemies—and how much more handsomely, with how much higher and finer satisfaction of conscience and of honor!"

"'The government of the United States will be glad to play any part in this statement or in its carrying out which it can play honorably and consistently with international right. It pledges itself to recognize and in every way possible and proper, to assist the administration chosen and set up in Mexico in the way and on the conditions suggested.

"'Taking all the existing conditions into consideration, the government of the United States can conceive of no reasons sufficient to justify those who are attempting to shape the policy or exercise the authority of Mexico in declining the offices of friendship thus offered. Can Mexico give the civilized world a satisfactory reason for rejecting our good offices? If Mexico can suggest any better way in which to show our friendship, serve the people of Mexico and meet our international obligations, we are more than willing to consider the suggestion.'"

15,000 New York Painters Strike.

New York.—Residents of Fifth avenue and other fashionable sections who went away for the summer leaving their homes in the hands of decorators may find upon their return that the work has been completely tied up by the strike of the International Painters and Paperhangers' union, which began all over the city. It is the largest strike of painters New York ever had. According to Max Gaft, manager of the union, 15,000 workers went out and 5,000 more are expected to quit.

Fly No Cause of Infantile Paralysis.

Sacramento, Cal.—A stable or "biting" fly, which has been suspected by scientists of being a factor in infantile paralysis, was exonerated in a report to the state board of health by Dr. W. A. Sawyer, director of the state hygienic laboratory. Dr. Sawyer's report is the result of a series of seven experiments in which he and Prof. Hassal, of the University of California, were unable to transmit infantile paralysis to sick or well monkeys through the agency of the suspected insect.

Blease Recognizes Sulzer as Governor.

Columbia, S. C.—In a letter Governor Blease recognized William Sulzer as governor of New York and urged Lieutenant Governor Glynn for his conduct in attempting to assume the duties of the office. Governor Blease states that as the man left the ruling of perception through impeachment was not contingent. "Trust in God and the white people and you will succeed, W. A. Sulzer," is the South Carolina governor's advice to the [illegible]

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

Some one, discussing the proposed bond issue for the installation of water and sewerage, asked "Where are the sewers to be empted in case a system is installed?" He further stated that there was no running stream within easy access of Clanton into which such sewers could be empted and that if this difficulty could be solved for him he would be heartily in favor of the bond issue. That matter is, of course, in the hands of the Town Council, and tney will work tne problem without difficulty: but, it may not be presumptuous on the part of the Press to suggest that with a little work "Pole Bridge creek" can easily be ditched so as to afford an everlasting stream to carry off all accumulations. Competent engineers have discussed this matter and have decided that it could be done at little cost and with comparative ease. However, this is but one solution. Other cities and towns, not half so fortunately situated as is Clanton, have solved this same proposition without difficulty. Atlanta, Birmingham, Montgomery and other cities have their incinerators which effectually consume all garbage, offal and other sewer accumulations. Such an incinerator could easily be established for Clanton. If that were the only difficulty it would be easy of (solution. Don't let that little proposition deter you from voting for bonds. It's easy. What next?

NAISH-DUFFEE

The residents of Verbena were thrown into more or less state of excitement last Monday morning by the announcement of the marriage of Mr. George Naish, a popular relief agent of the Louisville and Nashville Railroad Co. to Miss Irma Duffee, the handsome and talented daughter of Mr. and Mrs. Noah Duffee.

Cupid is always on the alert and faithful to the end, for Monday morning as the father of the young lady walked out to his buggy, leaving for his day's work, Cupid busied himself and in a few short minutes another buggy came dashing up driven by Mr. Naish and hastily carrying his bride to be to the waiting room of the L. & N. depot, where the words were said that made them man and wife.

It was well known that the two were very much attached to each other, but owing to the fact that her school days were not over, was the cause of the objections of her parents; hence none were prepared for the announcement of the consummation of their dream of happiness.

Immediately after the ceremony Mr. and Mrs. Naish left for an extended trip in Georgia, and on their return will be at home to their friends at Helena, Ala.

RESOLUTIONS OF RESPECT ON DEATH OF O. Z. ROBINSON

Friends, how feeble are words to carry consolation to hearts bereaved of a beloved husband and father! A tender clinging vine interwoven in sweet memories from the hour the angel first gave him to your home; a gentle spirit of light that flitted in and out like a gleam of sunshine. No one can fill his place in the vacant chair; no one will take his place in your hearts, and you would not have the place filled even if you could. It will be a sacred thought in the years to come that he shed radience in the home as long as he dio; it will be a blessed recollection that he grew up to love and be loved by those who will ever so tenderly cherish his sweet and pure memory.

And whereas, we feel that Providence Local No. 215 will feel keenly its loss. Therefore be it

Resolved, that we try with all of our efforts to imitate him both fraternally and religiously.

Be it further resolved, that we lend a helping hand and a praying heart to his bereaved wife and other loved ones; console them with the thought that their loss is heaven's gain.

Be it further resolved, that a copy of this be sent to each of our county papers for publication and also to the Alabama Farmer and one to his bereaved wife.

W. W. Robinson,
G. C. Powell,
R. M. Robinson,
Committee.

SERVICES AT DAM

Sunday night Presiding Elder Cornell and Rev. L. H. S. Chappelle, who had been holding quarterly conference at Lime Springs, went over to the dam on Coosa river and held divine services for those assembled there.

The school house being erected for the children was not quite completed, but willing hands soon had the building ready for occupancy and services were held in that building. Those living at the dam seemed to be greatly pleased at the thoughtfulness of the two ministers and requested a regular appointment which was granted. Arrangements are now being made to hold services at Lock Twelve regularly.

NOT SHOT

IN PRIME CONDITION.

Rumors afloat that Deputy Sheriff Fallon had been shot at, or near Ocampo, while trying to take a satchel said to contain whiskey from some one near that place are entirely groundless and false. Deputy Fallon is still on his job, attending strictly to duty; he has not been to Ocampo in some time and is curious to know how the rumor started. When he goes after a satchel of whiskey he generally gets it, and he doesn't get shot in the attempt, either.

FAIR WARNING

All property owners within the corporate limits of Clanton are hereby officially notified that lots, yards and vacant premises must be cleaned of all weeds, rubbish, and trash immediately and without further notice. On the failure of property owners to comply with these instructions the Town of Clanton will proceed to remove such weeds, rubbish and trash and assess the cost of same against the property so cleaned. This is fair and final notice. The word "immediately" herein used is to mean NOW, AT ONCE.

Leander Hayes, Marshal.

FLY EXTERMINATOR

For some weeks the common house fly has made the Press offices its rendezvous, much to the annoyance of all connected with the office; work, at times, had to be suspended so annoying were the pests, and everything possible was done to rid the offices of their presence, but without avail; last week Mr. Frank Goodgame undertook the contract of exterminating the little nuisances, and right successfully did he comply with his agreement.

He uses some kind of concoction, known only to himself, with which he sprays a building, and after two or three applications Mr. House Fly flies away. Where, last week, the Press office was harboring untold millions of the pesky things it is a rare thing to see them in the office now—thanks to the administration of Mr. Goodgame's very effective remedy. If you are annoyed with house flies and do not know how to rid yourself of them, drop a line to Mr. Goodgame and have him apply his lotion.

SCHOOL OPENING

On Wednesday morning the streets of Clanton were full of merry boys and girls on their way to the school. The opening exercises were attended by a large crowd of patrons and friends of the school. The devotional part was conducted by Bro. Chappelle after which several talks were made by the school officials and other citizens. Despite the school opening in mid-week, the enrollment was in excess of any previous year.

Mr. Pickens commended the Mayor, the Council, and School Board for their co-operation and assistance and made it plain that it was up to teachers, patrons and pupils to make out this the best school yet had at this place. He said that it took those three factors to make a good school; but, that in his opinion, the patron was the most responsible of all for the weal or woe of the school.

Sheriff's Sale

The State of Alabama, Chilton County.
Circuit Court. Fall Term, 1913.

By virtue of an execution issued out of the said Court of said County, Alabama, and to me directed, whereby I, as Sheriff of said County, was commanded to make the sum of Eighty-eight and 40-100 Dollars, principal and interest, and the sum of Six and 55-100 Dollars, costs, the amount of a certain judgment and costs therein obtained at the said term of said Court of said County, Alabama, in favor of Mrs. A. B. Claughton, white, against W. I. Huff, out of the goods, chattels, lands and tenements of W. I. Huff, I, as Sheriff of said County, have levied on the following described property, viz.:

One Horse, as the property of W. I. Huff.

Therefore, according to said command, I shall expose for sale at public auction, all the right, title and interest of the above named W. I. Huff, in and to the above described property, on the

13th DAY OF SEPTEMBER, 1913,

during the legal hours of sale, at Maplesville, Alabama.

This 3rd day of September, 1913.

9-4-1t B. L. JONES, Sheriff.

Legal Notice.

Birmingham, Ala., Sept. 1, 1913

Hon. B. L. Jones,
Sheriff Chilton County, Ala.

No United States Internal Revenue License have been issued to your (Chilton) county in the month of Sept., 1913.

I hereby certify that I have carefully examined the record of the Collector of Internal Revenue and the above is complete and correct.

Yours very truly,
SAM. P. JONES.

Sworn to and subscribed before me this 1st day of Sept., 1913.

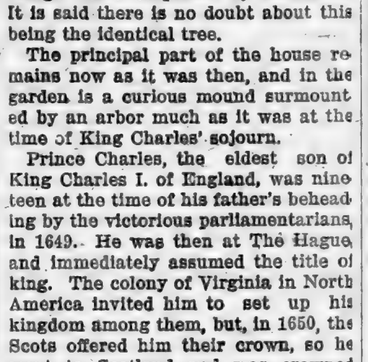
Messrs. Popwell & Popwell have removed their pressing parlors from the Chandler building, next to the Press offices, to the Kicker building, just across the street.

REFUGE OF A KING

Famous Hiding Place of Charles II. of England.

Celebrated Boscobel House and Oak Tree Where the Merry Monarch, Retired, After the Battle of Worcester, to Be Sold.

London. — The famous Boscobel house, with its estate of 700 acres, where King Charles II. of England hid after the battle of Worcester and where there still grows the historic oak tree in which he concealed himself, is to be sold at auction.



Situated on the borders of Shropshire and Staffordshire, the house was built about the year 1540 in the center of Brewood forest, and had been used for many years before King Charles' time as a hiding place for Roman Catholic priests and political refugees.

But its principal interest is wrapped in the time when it sheltered King Charles in September, 1651, after the battle of Worcester. Here he lay hid for several days, and in the paddock adjoining, protected by iron palisading, is the oak tree in which he took refuge when surprised by horsemen. It is said there is no doubt about this being the identical tree.

The principal part of the house remains now as it was then, and in the garden is a curious mound surmounted by an arbor much as it was at the time of King Charles' sojourn.

Prince Charles, the eldest son of King Charles I. of England, was nineteen at the time of his father's beheading by the victorious parliamentarians, in 1649. He was then at The Hague and immediately assumed the title of king. The colony of Virginia in North America invited him to set up his kingdom among them, but, in 1650, the Scots offered him their crown, so he went to Scotland and was crowned at Scone in the beginning of 1651. After the defeat of the Scots at Dunbar he put himself at the head of their army of 10,000 men and dashed into England. But it was then that Cromwell put forth his supreme military genius and, with his Ironsides, crushed the royal troops at Worcester.

Charles knew that for the present all was lost. He showed courage and address in covering the flight of his beaten soldiers and afterwards turned his steps to Boscobel house, where he was assured of a secure retreat from the pursuing Roundheads. At White Ladies the king had his long hair cut, his hands and face smeared with soot; and for his royal dress he substituted the green and greasy suit of a countryman and a leathern doublet. He next endeavored to reach Wales, but on account of the vigilance of the Puritans was obliged to return to Boscobel wood. With Major Carlis, who

Boscobel House and Royal Oak.

had led the forlorn hope at Worcester, he ascended a thick pollard oak, from which they watched at intervals during the day the Roundheads in search of them, passing by unaware of their near presence. In the evening they descended, and made their way to the manor house, where the king remained hidden two days.

After many dangers Charles escaped to France, where he maintained a royal court, such as it was. He had little money, except what was provided by his devoted followers and his adherents in Great Britain and Ireland. He was content to wait. Time would fight for him mroe surely than infantry and horse.

The old cavaliers who accompanied their master in exile were like Napoleon's veterans in Elba. With their tall, powerful forms, they stalked about the courtyards, longing grimly for the time when they could once more smell the pungent powder of the red field of war. But the change was coming. The English people were tiring of Puritanism and praying in secret for their king. So it came about that one morning in May, 1660, the king came into his own, landing at Dover and being escorted to London by frenzied, adoring crowds of his people. The Merry Monarch was at home again and, although that early popularity was at times strained, he never wholly lost the good will of his people.

Could Not Balk Constable.

Farrell, Pa.—When Constable George Bird called at the home of "Big Annie" Long—weighting about 550 pounds—with a warrant charging disorderly conduct, he found her wearing only a broad smile. She declared her clothes were hidden. Bird seized several lace curtains, wrapped them around her form, and assisted by a brother officer bundled her into a dray and carried her off to jail.

Lee's Farewell Brings $435.

Philadelphia.—The original copy of Gen. Robert E. Lee's farewell to his army after his surrender to Grant at Appomattox, was sold for $435 at a sale here.

The Town Council has passed an ordinance prohibiting the erection of any frame building within the fire limits of the town, and has also instructed the removal of all such buildings erected since the passage of the ordinance.

Mr. W. W. Fox left Wednesday afternoon for Atlanta, where he goes to stay several days on business.

Be sure to see the Kahn Tailoring Company's man at Kemp Bro. on September 5th and 6th for the new Winter suit. The best ever.

Mesdames J. C. Jones and Ross Mullins went down to Montgomery Wednesday morning on a shopping tour.

Rev. C. A. Cornell of Prattville came up Saturday morning and went immediately to Lime Springs where he presided over the third quarterly conference of Clanton charge. Quite a good congregation greeted the Presiding Elder both Saturday and Sunday. He returned to his home Monday afternoon.

The many friends of Mr. and Mrs. Guy Higgins will regret deeply to learn that their infant child is suffering from a complication of troubles. The little tot has not been well for some days and a specialist was called Sunday to treat the child.

The healing demulcent qualities of Foley's Honey and Tar Compound are not duplicated in any other medicine for coughs and colds. Any substitute offered you is an inferior article. Refuse to accept it for you can not produce the healing and soothing effect of Foley's Honey and Tar Compound. Insist upon the genuine, which contains no opiates. Alred Drug Co.

Both Clanton banks were closed Monday observing Labor Day; with this exception one would scarcely have noticed the difference on the streets of the town.

Mrs. Gamma Anderson returned Tuesday from an extended visit to her brothers in Florida.

Can't afford to have Kidney Trouble

No man with a family to support can afford to have kidney trouble, nor need he fear it with such a remedy at hand as Foley Kidney Pills. An honest medicine, safe and reliable, costing little but doing much good. Foley Kidney Pills eliminate backache and rheumatism, tone up the system and restore normal action of kidneys and bladder. Alred Drug Co.

Mr. John W. Silas left Monday for Milledgeville, Ga., to enter college.

Messrs. G. C. and Grady Harris left Sunday for Cullman, where they went to be present at the Odd Fellows celebration on Monday.

Dr. J. H. Nabors has returned to Clanton and his handsume countenance can be seen at Alred's Drug Store, where he will be glad to greet his old friends.

Children, we have the best line of School Tablets and Spelling Blanks you ever saw, cheap, too. See them at Alred's.

Handsome Harry Kanjutzky left Saturday night for New York, to purchase his winter stock of clothing and dry goods.

Miss Minnie Muse, who spent two weeks in St. Louis, purchasing her millinery stock, has returned home and is prepairing for the Fall and Winter trade.

Mr. and Mrs. Jno. VanDerveer and little son left Tuesday morning for a visit of some duration to the parents of the latter at Kansas City, Mo.

Foley Kidney Pills cure obstinate cases of kidney and bladder trouble, rheumatism and lumbago, because they remove the cause. You can not take this honest curative medicine into your system without getting the right results. Try them. Alred Drug Co.

Mr. H. B. Oliver of Verbena was among the prominent visitors to Clanton last Monday.

Miss Agnes Averytt of Columbiana is being delightfully entertained by Mr. and Mrs. Jno. Q. Wade

Rev. A. C. Swindall of East Lake spent Sunday in Clanton as the guest of Mr. and Mrs. M. L. White.

An expert tailor, connected with the Kahn Tailoring Company of Indianapolis, will be here Friday and Saturday, September 5th and 6th, making headquarters at Kemp Brothers. The best opportunity ever offered for securing well fitting winter suits at reasonable prices, and from goods that are absolutely guaranteed. Remember, Kemp Brothers, September 5th and 6th.

FOR RENT—Three nice rooms for light housekeeping. Apply at this office.

Mr. Heath Jones, who has been suffering with typhoid fever for some days and was taken to Montgomery for treatment, is rapidly improving and will soon be able to return home.

Get rid of the torments of rheumatism

That you can do by ridding yourself of the cause. Weak and inactive kidneys allow uric acid poisons to remain in the blood and rheumatic pains swollen and aching joints follow. Take Foley Kidney Pills to ease you of the pain and torment. They will positively and permanently build up the kidneys, restore their normal action and keep the uric acid crystals out of the blood and body. Try them. Alred Drug Co.

FOR SALE.—Nice Hamilton piano in first-class condition. Cheap for cash if taken at once. For information call on G. C. Headley.

Facing a Serious Proposition

The man or woman who has kidney trouble is facing a serious proposition, where grave complications readily follow neglect. Foley Kidney Pills are an honest curative medicine that once taken into your system mean restored kidney and bladder action, and a return of health and strength. Alred Drug Co.

WOULD YOU GIVE FIVE CENTS FOR A TWO DOLLAR BILL? Two ounces of turnip seed contain ninety-three thousand four hundred seeds: they will bring forth that many turnips. You can get two ounces of RUTA-BAGA, WHITE GLOBE, FLAT DUTCH or COW-HORN SEED for FIVE CENTS AT VANDERVEER'S DRUG STORE. Buy today and sell for the early market. There's money in it. Remember, just two and a half cents per ounce. At VANDERVEER'S DRUG STORE.

Mother of Eighteen Children

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablet's Tablets are for sale by Alred Drug Co.

Oh my! JUST LOOK, LADIES! isn't this great? Almost too good to be true. Every lady making as much as a FIFTY CENT Cash purchase at the VANDERVEER DRUG COMPANY on Fridays, till further notice, will be presented with a nice twenty-five cent box of FACE POWDER or TALCUM POWDER as she may elect. On Fridays spend Fifty Cents with us and get half of it back! How fair, how convenient!

FOR SALE CHEAP.—Fourteen oxen, two dray chains, grabs and cant hooks; all ready for work. If you wish to buy, it will pay you to see me.
9-4-4t A. W. Powell.
Clanton, R. F. D.

Mrs. Jennie McMorries left Tuesday for a short stay in the mountains and at Prattville, after which she will return to Clanton to open her school.

Bring me your COTTON SEED if you want the highest price. See me at Wiley Littlejohn's store.
R. W. TAYLOR.

Mr. G. C. Headley went down to Montgomery Tuesday morning on a business trip.

Diarrhoea Quickly Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by Alred Drug Co.

Prof. S. H. Herbert of Thorsby, President of Thorsby Institute, was in Clanton Tuesday mingling with friends and attending to business at the same time.

Despondency

is often caused by indigesten and constipation, and quickly disappears when Chamberlain's Tablets are taken. For sale by Alred Drug Co.

Miss McDavid, the accomplished stenographer for Mullins, Smith & Gerald, returned Monday from a vacation of a month.

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. We are willing to personally guarantee this and to return your money without argument if your complexion is not fully restored to its natural beauty. WILSON'S FRECKLE CREAM is fine, fragrant and absolutely harmless. Will not make hair grow, but will positively remove TAN, PIMPLES and FRECKLES. Come in today and try it. The jars are large and regular size. Sent by mail if desired. Price, Mammoth jars $1.00. WILSON'S FRECKLE SKIN SOAP 25c. For sale by
Alred Drug Company

Will pay you for your trouble and pay more for your COTTON SEED. Seed house at B. E. Jones & Bro. Warehouse.

Guard Your Children Against Bowel Trouble

Many children at an early age become constipated, and frequently serious consequences result. Not being able to realize his own condition, a child's bowels should be constantly watched, and a gentle laxative given when necessary. Dr. Miles' Laxative Tablets are especially well adapted to women and children. The Sisters of Christian Charity, 531 Charles St., Luzerne, Pa., who attend many cases of sickness say of them:

"Some time ago we began using Dr. Miles' Laxative Tablets and find that we like them very much. Their action is certain, and we are grateful for having been made acquainted with them. We have had good results in every case and the Sisters are very much pleased."

The form and flavor of any medicine is very important, no matter who is to take it. The taste and appearance are especially important when children are concerned. All parents know how hard it is to give the average child "medicine," even though the taste is partially disguised. In using Dr. Miles' Laxative Tablets, however, this difficulty is overcome. The shape of the tablets, their appearance and candy-like taste at once appeal to any child, with the result that they are taken without objection.

The rich chocolate flavor and absence of bitter taste make Dr. Miles' Laxative Tablets the ideal remedy for children.

If the first box fails to benefit, the price is returned. Ask your druggist or send 50 cents (coin) in letter (stamps accepted) and a box will be sent you by mail. Dr. Miles Medical Co., Elkhart, Ind.

Adenoids are a Menace to Children

Adenoids result from a succession of of colds in babies and young children. They spoil the mental and physical life of a child. The condition that causes them may easily be avoided by careful parents. Quickly and thoroughly cure all colds and throat irritations by the use of Foley's Honey and Tar Compound, and adenoids will not develop. Alred Drug Co.

Caught a Bad Cold

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah E. Duncan, of Tipton, Iowa. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely." For sale by Alred Drug Co.

Real Estate

¶156 acre farm, 85 acres in cultivation, one 4 room house, two tenant houses; 1-2 mile from church and school; in good community, public road all round farm; has two good wells and a spring; sandy loam soil with clay foundation; four miles from a town.

¶Price $3,500, with 5 year terms. We also have many other bargains to offer.

SOUTHERN UNIVERSITY
Greensboro, Ala.
A SCHOOL OF CHARACTER

THE COLLEGE

1. The EDUCATIONAL STANDARDS meet the college requirements of the National Association of State Universities, of the Southern Association of Schools and Colleges, and of the Alabama Association of Colleges of which the institution is a member. The curriculum is high and varied, and the instruction is careful personal and thorough.

2. The IDEAL of the institution is the development of CHRISTIAN CHARACTER. It believes the studies are more impartant than athletics, and that righteousness is more important than all. And this belief determines its whole attitude and policy.

3. The COST per year is very low. Tuition, fees and board amount to only $200 for the full nine months session,—$150 for the sons of minisfers and ministerial students.

THE FITTING SCHOOL.

For the benefit of students who are not yet prepered to enter college, but who desire the advantages of a high grade preparatory school, the Southern University has established and maintains its FITTING SCHOOL. This school offers a standard high school course under peculiarly attractive coditions. Students of the Fitting School enjoy the privileges of a college gymnasium, library, Y. M. C. A., and all public lectures and entertainments given by the college. At the same time, they have their own dormitory, where they live together with the principal and his family and the Matron, and so have the advantage of close association with their teachers, and constant supervision by them. The cost is the same as in the college.

FALL TERM OPENS SEPT. 10, 1913.

ANDREW SLEDD, Ph D. (Yale) D. D., L. L. D., President,
RALEIGH W. GREENE, B. S., B. D., Prin. Fitting School.

HER EXPERIENCE QUITE EXPENSIVE

Gives Out Some Interesting Facts Regarding Her Troubles, and How She Avoided Further Expense.

Pineview, Va.—Mrs. Cora Brooks, of this town, writes as follows: "I suffered for about three years with womanly trouble, and was getting worse and worse all the time.

I had two good doctors and I was sent to two good hospitals to be operated on, but no operating was done.

All this cost me lots of money, and I was no better off than before I started.

Finally I began to take Cardui, the woman's tonic. After taking six bottles, the pains are all gone, and I feel like a new woman entirely. I am now able to do all the housework for myself, husband and five children, with ease. Before taking Cardui, I was in bed seven weeks at a time, not able to do anything at all.

I cannot praise Cardui enough for what it has done for me."

There are thousands of women who have been benefited by taking Cardui, the woman's tonic, and there are thousands who are suffering from some form of womanly trouble—suffering for the lack of Cardui.

Are you of this number? If so, don't delay, but begin taking Cardui to-day. What it has done for so many others, it should surely do for you. At your drug store.

N. B.—*Write to:* Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for *Special Instructions* on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

Compensation.

"I hear that young author sends you some very clever stuff."

"Yes," replied the editor, "but we always give him as good as he sends."

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

Offers No Resistance Now.

"Corkins is a booze fighter, isn't he?"

"Not now; he surrendered long ago."

DOES YOUR HEAD ACHE?

Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Its State.

"I should call it aboriginal."

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle. Adv.

The man who first ate a lobster had nerve, but he who first manipulated a dish of chop-house hash was a hero.

FEEL ALL USED UP?

Does your back ache constantly? Do you have sharp twinges when stooping or lifting? Do you feel all used up—as if you could just go no further?

Kidney weakness brings great discomfort. What with backache, headache, dizziness and urinary disturbances it is no wonder one feels all used up.

Doan's Kidney Pills have cured thousands of just such cases. It's the best recommended special kidney remedy.

A Vermont Case

James M. Tracy, 8 Pleasant St., Middlebury, Vt., says: "I had kidney trouble for twenty years. Inflammation of the bladder nearly drove me frantic. The pains across my back were terrible. I was so helpless I could hardly walk. After doctors failed, Doan's Kidney Pills completely restored me to good health."

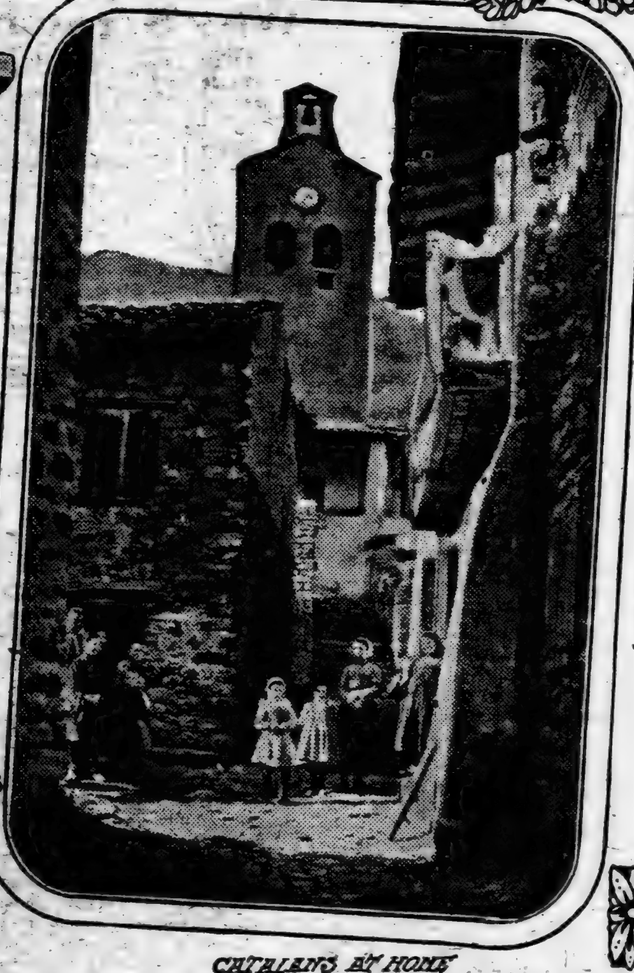
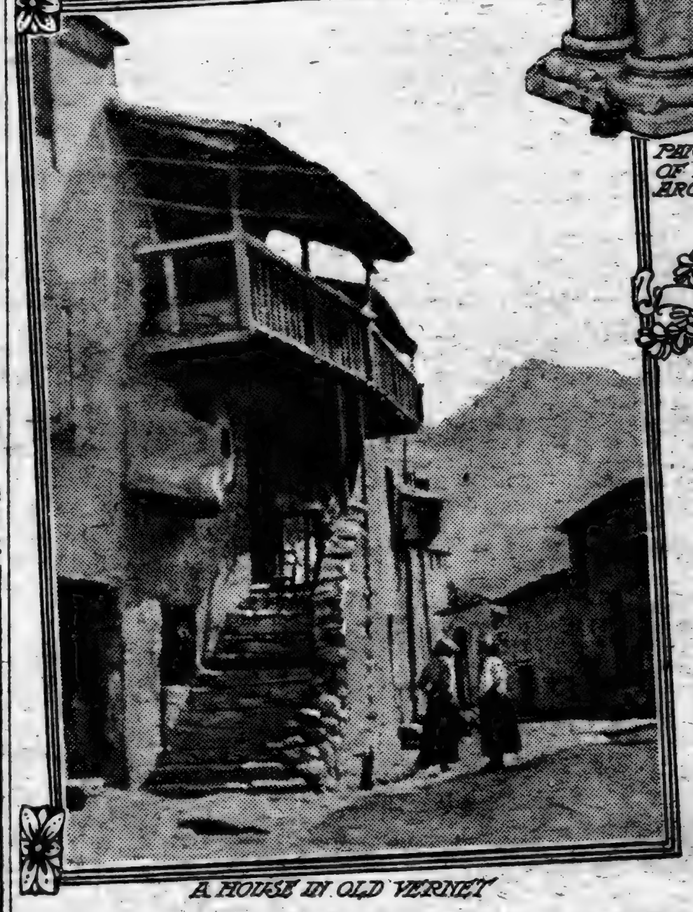
A PYRENEAN PROVINCE

By FREDERICK PICKAIRING



TWO sentiments, says the "little history of the province, which a wise educational committee has provided for the children's use in old French Catalonia, two sentiments are native to the heart of every good Catalan—love of his country and the love of liberty. An ardent independence, as the same authority explains, and a distinguishing capacity for pursuing serenely their self-appointed way have always marked this hardy people. Hence it is that to this day the Catalan retains his racial characteristics, cherishes his old traditions and—Catalan to Catalan—speaks in the ancient tongue.

Again and again his country has changed hands. The seaboard plains and the lofty highlands upon the eastern Spanish frontier known to the mediaeval world as Catalonia, have shared the usual fate of border territories. Peoples from the north and peoples from the south—Romans, Visigoths, Moors, Franks, counts of Roussillon, kings of Arragon and of Majorca, rulers of France, rulers of Spain—in turn have conquered or possessed the land. But the Catalan has never ceased to feel himself a Catalan or lost his mastering sense of race.



The name Catalonia is usually taken to imply merely the Spanish province, and to mention the Catalans is to call up disturbing visions of industrial strikes, evoking memories of anarchist activity and desperate Barcelona riots. The picture, it may, par parenthese, be said, is perhaps hardly fair to the men whose energy has created the largest, most flourishing seaport of Spain, who, all said and done are certainly the most progressive, most intelligent, most resourceful of King Alfonso's subjects. In any case, the Catalans on the French side of the border are unknown to newspaper fame, nor does the traveling public know very much as yet of the beautiful and varied land which they are so proud to inhabit.

CHURCH AND CHATEAU OLD VERNET VILLAGE

CATALANS AT HOME

A HOUSE IN OLD VERNET

PART OF THE ARCADE

It is the Frenchman's boast that samples of the world's best scenery and the range of all its desirable climates are found within the boundaries of his native country. In these respects French Catalonia—which (with a portion of old Languedoc) is defined upon the modern map as the department Pyrenees Orientales—may be described as France in miniature. Mont Canigou, admittedly one of the most majestic, most impressive of the Pyrenean peaks, is 9,500 feet high; Puig Mal, a less conspicuous neighbor, stands a trifle higher; and, clustered close, are other splendid heights. The scenery among these giants is of the kind we usually term "Alpine," but from the snow-slopes of the Canigou you may look down upon the sun-burnt shores of Spain and the blue, gleaming floor of the far-stretched Mediterranean. Or, deserting the heights, and starting, say, from Mont Louis, loftiest of the fortified towns of France, and a new center for winter sports, you descend the winding valley of the Tet, and in an hour or so you find yourself among the olive orchards. Soon magnolias, the pointed aloe, even palms, are seen among the vineyards and in the roadside gardens, while if it be springtime, mimosas flaunt their feathery plumes, and near and far under the sunny sky stretch fields of pink peach blossom.

"To this favored land," said "Dagonet," writing in the Referee, "Nature has been more than kind; she has been effusive." But a sun-filled, sparkling air and the striking contrasts of the natural scene are not the only charms of Catalonia. For the historian, the antiquarian or the archaeologist the country abounds in interest. Its successive conquerors failed appreciably to mold the temper or to change the habits of its people; inevitably they left behind them concrete vestiges of occupation. Local tradition makes much of los Arabes and the curious tall towers upon the mountain spurs, of which the Tour de Bon, near Vernet-les-Bains, is a conspicuous example, are popularly ascribed to the vigilance of the Saracen rulers. Obviously, however, these—which indeed are of far later construction, and like many other so-called Moorish remains, date from the Aragon dominion, or—more probably—from the tenancy of the Majorcan kings. It was the Kings of Majorca who made Perpignan, now the chief town of the department, a royal capital. The architecture of Perpignan illustrates an interesting feature of most Catalan churches—shows marked trace of Spanish influence.

A little below Perpignan is the small town of Elne with the ruins of an abbaye and some beautiful, richly-ornamented cloisters. The Visigoths made Elne the seat of an important bishopric. In Roman times the little town, which then stood actually upon the coast, was known as Helena, so called in compliment to the mother of the "good" Emperor Constantine. Collioure, tiny but extremely picturesque, also owes its name to the Romans. Port Vendres, another fishing port, still nearer the frontier, was built upon the site of a temple dedicated to the goddess Venus, and was originally "Portus Veneris."

The Romans were 500 years in Catalonia, and besides the building of numerous roads, they naturally found time to exploit some of the many mineral springs. The insignificant townlet, Prades, still possesses the remains of baths which were constructed by the Romans; local chroniclers assert that they also discovered the healing waters at Vernet-les-Bains. Vernet, which stands among the foothills of Mont Canigou, is a veritable "beauty spot" of the Pyrenees. For centuries it has been frequented by Frenchmen and Spaniards; latterly it has leaped into favor with the English as a winter spa. The old village of Vernet, which faces the luxurious grounds of the modern etablissement, is a typical Catalan village, and, owing to its situation, is strangely picturesque. The red roofs of the crumbling houses cover both man and beast, and the narrow, twisting streets follow the outline of the hillock in the manner usual with southern mountain hamlets, but they are crowned by a mediaeval church and chateau, and framed by distant blue and purple heights. Near at hand Mont Canigou erects his snowy head. For the Catalans Mont Canigou is the "delectable mountain," an object of admiring wonder, almost a legendary god.

Another spa, made fashionable by the Romans, is Amelie-les-Bains, a trim, Spanish-looking town close on the frontier, whose warm climate attracts the French consumptive. Not far from Amelie is the pass across which Hannibal led his legions on the historic march to Italy. The Romans had previously sent ambassadors to beg the Catalans not to allow the Carthaginian mercenaries to traverse their territory, but to turn them back. Hannibal, however, contrived to flatter the owners of the soil; Catalans and Carthaginians made friends, and the soldiers were allowed free passage. The Col de Perthuis—Hannibal's route—and another Catalonian col are the only two passes across the Pyrenees which are practicable throughout the year; they offered a convenient means of egress or retreat to Moorish and Spanish invaders. Had there been no good passage through the great chain the history of the Catalans must have been less chequered and the Catalonian seaboard might not have formed a fairway for the restless warrior peoples of mediaeval Europe.

SHIPS WHICH WILL NOT SINK

Once more we hear talk of an unsinkable ship, remarks the New York Commercial. An English inventor claims to have solved the problem, but his experiments have been confined to a small model only four feet in length and nine inches wide, so the problem of applying his system to a vessel 500 or 1,000 feet in length is by no means solved.

Few people outside of practical shipbuilders and navigators understand the difference between a large vessel and a small one in point of structural strength. The strongest vessel that floats in the water is a common rowboat. One can take an ordinary rowboat and carry it by the ends or it can rest on cleats under each end without breaking in the middle, but the strongest man-of-war or ocean liner that floats today would break in two if subjected to a similar strain. The larger a vessel the weaker it becomes in this respect, and for this reason many apparently good ideas which work out well in model form have failed utterly when applied to large vessels.

It is doubtful if any real progress in building ships has been made since the days of the Great Eastern, so far as the use of water-tight compartments and bulkheads is concerned. The designer of the Great Eastern divided that vessel into ten water-tight compartments and his improvement of this plan has not been generally adopted. It would add greatly to the safety of ocean travel if every steamship were required by law to be divided into a number of water-tight compartments, each of sufficient capacity to keep the vessel afloat if any two of them were filled with water. The Great Eastern was 680 feet long and 83 feet wide, and her ten water-tight compartments were each 68 feet long. Her bottom was double, and the space between the two bottoms was divided into water-tight cells. Her engines were placed in water-tight compartments, and her coal bunkers were also water-tight. Her rudder was divided into two parts, each of which was provided with a separate rudder post. Her steering gear was also divided, so that if one set of chains should be carried away the other would still be available. Her decks were water-tight, and her hatches were provided with water-tight coamings. Her boilers were placed in water-tight compartments, and her funnels were provided with water-tight trunks. Her cabins were built on the water-tight principle, and her saloon was provided with water-tight doors. Her bunkers were also water-tight, and her coal was shot into them through water-tight doors. Her ventilators were provided with water-tight covers, and her skylights were also water-tight. Her rudder was divided into two parts, each of which was provided with a separate rudder post. Her steering gear was also divided, so that if one set of chains should be carried away the other would still be available. Her decks were water-tight, and her hatches were provided with water-tight coamings. Her boilers were placed in water-tight compartments, and her funnels were provided with water-tight trunks. Her cabins were built on the water-tight principle, and her saloon was provided with water-tight doors. Her bunkers were also water-tight, and her coal was shot into them through water-tight doors. Her ventilators were provided with water-tight covers, and her skylights were also water-tight.

Modern steamships are safe enough when at sea, so far as the storms and lashing of the waves are concerned. The dangers that threaten them are collisions with other vessels, with derelicts or with icebergs, and, of course, running ashore or on a rock in a dense fog. Take two vessels of equal size crossing each other's paths, let one strike the other amidships and the vessel struck would be cut in two if the other were going at full speed. The tremendous force of the blow is almost beyond calculation. In the case of a vessel the size of the new Imperator, it would probably be equal to a striking force of 8,000,000 foot tons. No cellular belt or any other conceivable construction would save a ship under such conditions. The thing to do is to avoid all such risks as far as possible. The Titanic was lost because its captain had too much confidence in its unsinkable water construction.

THEN TROUBLE BEGAN.

"Perhaps those who are unlucky in love are said to be [illegible] remarked Mrs. Gaswell.

"I don't see that," contended Mr. Gaswell. "I'll bet I could break the bank at Monte Carlo."

Libby's Soups

Soup making is an art. Why trouble with soup recipes when the best chefs in the country are at your service? A few cans of Libby's Soup on your pantry shelf assures you of the correct flavor, ready in a few minutes. There are Tomato, Vegetable, Chicken, Oxtail, Consomme, Mock Turtle and other kinds.

Your grocer has them.

The Way of It.

"Miss May made a hit with Jack the first glance she gave him."

"I see—a sort of glancing blow."

"A Man, My Son."

The fellow who acquires the physical strength to handle a big plow and to manage a mule; who learns to love an honest furrow; who gets the moral courage to kill grass, in spite of the shade trees that invite him, and who can be patient, realizing that he is becoming, day by day, a real man, has a thousand things more to thank God for than the fellow who hasn't the physical strength to carry a walking cane unless one end of it is in his mouth; who hasn't learned to draw a line without a straight edge to go by; who hasn't the moral courage to get out of bed before 10 a. m., and who is impatient because he thinks the "governor" is too hard on him.—Atlanta Constitution.

Eliminating Mr. and Mrs.

A correspondent of the London Daily Citizen suggests that the unnecessary and unpleasing prefix "Mr." should be eliminated from the superscription of letters. The deprivation of this prefix was one of the penalties enforced in our American colonies during the seventeenth century. The records of Massachusetts show that in 1680 Josias Plaistowe was condemned "for stealing four baskets of corn from the Indians, to return them eight baskets again, to be fined £10, and hereafter to be called Josias, not Mr., as he used to be." The Massachusetts penal code also provided for docking women of the prefix of Mrs., but there is no record of this clause having been enforced.

LIGHT BREAKS IN

Thoughtful Farmer Learns About Coffee.

Many people exist in a more or less hazy condition and it often takes years before they realize that tea and coffee are often the cause of the clouded ness, and that there is a simple way to let the light break in.

A worthy farmer had such an experience and tells about it, in a letter. He says:

"For about forty years, I have had indigestion and stomach trouble in various forms. During the last 20 years I would not more than get over one spell of bilious colic until another would be upon me.

"The best doctors I could get and all the medicines I could buy, only gave me temporary relief.

"Change of climate was tried with out results. I could not sleep nights, had rheumatism and my heart would palpitate at times so that it seemed it would jump out of my body.

"I came to the conclusion that there was no relief for me and that I was about wound up, when I saw a Postum advertisement. I had always been a coffee drinker, and got an idea from the ad. that maybe coffee was the cause of my trouble.

"I began to use Postum instead of coffee and in less than three weeks I felt like a new man. The rheumatism left me, and I have never had a spell of bilious colic since.

"My appetite is good, my digestion never was better and I can do more work than before for 40 years.

"I haven't tasted coffee since I began with Postum. My wife makes it according to directions and I relish it as well as I ever did coffee, and I am certainly a slave to coffee."

Name given by Postum Co., Battle Creek, Mich. Write for copy of the little book, "The Road to Wellville."

Postum comes in two forms:

Regular Postum—must be well boiled.

Instant Postum is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with the addition of cream and sugar, makes a delicious beverage instantly.

"There's a reason" for Postum.

NATIONAL CAPITAL AFFAIRS

Twenty-one New Animals for the Washington Zoo

WASHINGTON.—Twenty-one new animals have just arrived at the National Zoological park in Washington from Gieza, Egypt, where they were purchased by W. H. Blackburne, from Captain Stanley Flower, director of the Government Zoological Gardens.

The shipment includes three Arabian camels, two elephants of the species that occurs in the Sudan region, two Hamadryas baboons, two cheetahs, three lemurs, three Circassian goats and three Arabian, one Korin gazelle and one dorcas gazelles. Nearly all the representatives of species not before included in the Washington zoo, and the cheetahs will be the only animals of this sort in the park.

There is at present only one elephant, a male from India, and as he is some forty or fifty years old, the two new members of this family, which are practically babies, will be valuable accessions. One of the elephants is about four years old and stands five feet six inches, while the other, the female, is six months younger and is only about four and one-half feet in height. It is estimated that they weigh about 700 and 900 pounds respectively, and yet the male even will look like a pygmy beside the sole representative in the park, which weighs in the neighborhood of 11,000 pounds. African elephants are usually priced by dealers at from $3,500 to $5,000 each, but these cost considerably less, having been bought from the government at Gieza.

Arrangements for the housing of the new arrivals has been under way for some time at the Zoological Park.

Mr. Blackbourne, head keeper of for some time at the Zoological park, made a special trip abroad for the purchase of these animals, say all his charges are in good health, having proved good sailors en voyage.

From Boston the animals were shipped, all of them boxed in strong crates, except the camels, which were forwarded loose, in stock cars, to Washington.

The new additions will bring the total number of animals or individuals in the park to about 1,500, a slight increase over the number at this time last year, although the total number varies annually through the death list of the inmates.

Seven Dogs and a Crow Special Pets of Firemen

WHEN the fire bell sounds and the engines and trucks go dashing down the street, nearly always there will be seen, running and barking before the steeds, a playful and intelligent dog.

There are 11 such mascots in the local fire department, and they are not about as proud as can be; for in a day or two Tax Collector Rogers will come to them, without cost, bright, new, glittering tags. These dogs are the most intelligent and best trained canines in the city. They are faithful to their masters, and, needless to say, the firemen love them.

There are Tom, and Rags, and Bell, and Nell, and Jack, and Teddy, and Babbies, and Nig, and Billikin, and Bill, and Minnie. Among the most interesting of these is Jack, a black-and-white bulldog, belonging to Engine Company No. 7, in R street Northwest, between Ninth and Tenth streets. And Jack has a companion—a black one, and a very strange one, too—a crow, named Jerry.

Now, some persons would naturally conclude that there was not much peace in a place where a crow and a bulldog were put together—that is, not until after some feathers had come out and some crow had disappeared—but such is not the case at No. 7. Jack and Jerry are the best of friends, and play with each other day after day without ever getting into a scrap.

Jerry was presented to the firemen about a month ago by a friend, and is now possibly three months old. The crow's wings were clipped at first, but now it is unnecessary, for Jerry loves his home, and has no intention of leaving unexpectedly. The bird does just about as it pleases; flies around the neighborhood, struts proudly up the street, makes visits to the neighbors, and plays with pigeons, cats, and dogs.

But alas! with all its precociousness, the bird is a kleptomaniac. The other day one of the firemen took off his collar and necktie and laid them on the window sill. Jerry came along, grabbed the gaudy tie, and soared skyward. The fireman has been looking for the neckwear ever since. Nearly every day the crow goes on plundering expeditions in the neighborhood, seizing any edibles he can lay claw to.

Takes His Vacation in Rocker on Capitol Hill

A GREEN ribbon of grass edges each side of a double car track up Capitol hill way. There are big, leafy trees that make shady spots for children to play under, and always—nearly always—there is a breeze.

Every morning a man comes with a splint rocker and a pipe and props himself under a tree. He gets there about the time the birds are awake and stays until a small boy comes and takes him away. That means breakfast.

As soon as that is done with the man is back under a tree with a morning paper. And there, in the comfy coolness of crash trousers and a china silk shirt with no collar and a leather thong belt to keep himself together, he smokes and reads and talks with whoever happens along, until the small boy who bosses him shows up at lunch time and pilots the way to home across the street. All afternoon, until dinner, the man reads magazines and smokes and dozes, and moves his chair to a fresh shade-spot whenever the sun gets around to him, and, once in awhile, takes looks at the grass and white clover and dropped oak leaves through a magnifying lens.

In the evening he comes back to the trees with a coat over his shirt and a collar and tie. And a cigar. Later on, his wife and the small boy come over for a visit and the neighbors drift out with chairs and camp stools, while odds and ends of children play all around. After they have laughed and chattered the clock around to bedtime, the wife and small son and the neighbors and the babies drift back to where they came from, but the man stays on and on—until he has the night to himself. The sky full of stars and the bits of cool breezes, and the silence, and the darkness—streaked now and then with whizzing cars.

What about it? Oh, nothing, only—

The man is taking his two-week vacation with pay. Before this, he has always gone to Atlantic City and come home broke, and so dead tired from overstrenuous efforts to enjoy himself that he couldn't get in working trim for a month. This year he figured that what he most wanted was a rest. You can't get rest at a seashore resort.

This Limestone Lion Has a 24-Hour Steady Job

IT is surprising how many animals you may discover if you hunt them among the cornices and balustrades of Washington houses.

A limestone lion snarls at you from the front of 1832 I street. It is a big three-story and basement house. The porch entrance and the first story are of limestone and the higher stories of red brick, with limestone courses. On the east side of the front a bay window starts from the top of the basement and extends up two stories. The bench of this bay window rests on the lion's back. Perhaps that is why he appears so fierce, for the window is an overload for a lion, more renowned as a beast of heraldry than as a beast of burden. That bay window would be more than a load for a mule, though brick masons and stone cutters too often show a disposition to make a mule haul enough brick and stone in one load to build such a bay window. The lion rests his front paws on the stone side of the entrance staircase.

The writer has seen that overloaded lion many times and always extends his sympathy to him. He seems always to say that it is bad enough for a self-respecting lion to be cooped up in a zoo as an exhibit for mortals to gape on, but to have steady job lifting stone bay window and without even a chance that some mouse may gnaw him loose, is a thing that

CHOSE LESSER OF TWO EVILS

Theatrical Manager, Cornered, Yielded Passes When Threatened With a Distressing Affliction.

A poet with a precious scrap-book of his own writings under his arm wandered by a theater, when suddenly the idea struck him that he would like to see a play that night, so entering the place he asked for the press agent. That gentleman was out, but the manager was in. He was ushered in, and the deus ex machina inquired his business. "I would like two seats for tonight," faltered the man of verse. "An' who might you be?" asked the manager. The poet mentioned his name. "Um, yes," smiled the other, "I've heard of you, but why should I give you seats?" The bard murmured something about courtesy to the press, and added that probably identification might be necessary, so, as he had a scrap-book of his published poems, he would be glad if— But the manager cut him short, and calling out to his secretary to make out a couple of passes for that night, said: "My dear sir, I'd rather give you the whole house than read your poems!"

DEEP CRACKS ON JOINTS

P. O. Box 378, El Paso, Texas.—"My trouble began December, 1911. It commenced on me by causing a scurf-like skin and my toe joints, finger joints and lips commenced to crack and split open. My finger cracks would bleed all day long; the cracks were very deep and my thumb seemed to be cracked to the bone. My hands were so bad that I had to sleep with gloves on. The cracks in my lips would bleed often during the day and I used to put adhesive plaster across them to try to keep them closed. My toes would bleed, and I would find blood in my socks when the day's work was done. The skin around the cracks was red and inflamed. I wore shoes one size too large on account of my feet being so sore. I used to become frantic with pain at times. My hands and feet used to smart.

"I suffered agony for four months. I went to town and got some Cuticura Soap and Ointment. From the time I commenced with the Cuticura Soap and Ointment until completely cured was just nineteen days." (Signed) Jack Harrison, Nov. 19, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Revolt Suppressed.

She was giving orders at express rate, for they were married; and he, as a rule the most meek and submissive of men, was like the proverbial worm, beginning to turn.

"Do you think," he inquired, "that you rule the whole of the universe?"

"No," she snapped; "but I rule the first letter of it."

Important to Mothers

Examine carefully every bottle of CASTORIA, a safe and sure remedy for infants and children, and see that it

Children Cry for Fletcher's Castoria

Proper Dignity.

"Is your cook going to get on with?"

"Oh, yes, indeed. She is most kind and considerate, but she makes us keep our place."

Next as a Sheep's Back.

An extraordinary story of a starling's nest on a sheep's back comes from Bideford, England, and is told by the Pall Mall Gazette. During sheep shearing operations on Gournwood farm one of the shearers cut into a fleshy substance, and examination showed that he had cut in half a young starling, which was in a nest that had been built in the sheep's wool, and which contained two other fledglings still alive. The nest was composed of moss and twigs. For some weeks previous to the shearing the sheep, with the others, had the run of three fields near the farm.

ELIXIR BABEK A GOOD TONIC And Drives Malaria out of the System.

"Your 'Babek' acts like magic; I have given it to numerous people in my parish who were suffering with chills, malaria and fever. I recommend it to those who are sufferers and in need of a good tonic."—Rev. S. Szymanowski, St. Stephen's Church, Perth Amboy, N. J. Elixir Babek 50 cents, all druggists or by Parcels Post prepaid from Kloczewski & Co., Washington, D. C.

Good Logic.

Little Gertrude, of five summers, had been living with her grandparents for some time. One morning she asked permission to go and spend the day at the home of a friend, when grandma refused to let her go that day, consoling her by saying that she could go tomorrow. The next morning found Gertude up bright and early, happy in the expectation of the promised visit. Shortly after breakfast she reminded grandma of her promise, when she was again told that she would be obliged to postpone her visit until tomorrow. Looking up quickly, her black eyes flashing with disappointment, she said:

"Well, grandma, I thought today was tomorrow; you said it was yesterday."—Mack's National Monthly.

Would Make It Right.

He was an ardent lover, an Irish lover and a practical penniless lover. It was St. Patrick's eve and in his hand he bore a pot of real Irish shamrock.

"They were raised on the oul sod," he said, as he presented the pot to Biddy, "raised on the ould sod of Ireland."

"Sure, now, Murphy," cried his lady in delight, "how really sweet of ye. How perfect they are and how fresh. Sure, I do believe that there's a little dew on 'em yet."

Murphy flushed slightly. "Begorra, I know there is," reluctantly confessed Murphy, "but praise heaven it'll be paid tomorrow."

Her Brother's Voice.

Little Faith was possessed of a most friendly disposition, but had not yet reached the age where she could understand the silence that may wrap itself around a wordless intimacy. In fact, she demanded speech, frequent and loving.

One night her brother was studying most assiduously his arithmetic lesson, and after calling to him several times without receiving an answer, she appealed to her father.

"George is busy," said father.

"I know," replied Faith, "but he might at least have said, 'Shut up.'"

Woman's Place.

Woman's place may be the home, but, judging from recent statistics, she seems to have deliberately ignored that fact, for there are 339,077 stenographers, 327,635 teachers and professors, 481,159 in various trades, 770,055 engaged in agricultural pursuits, 7,355 physicians and surgeons, 7,395 clergy "men," 2,193 journalists, 1,037 designers, draughtsmen and architects, 1,010 lawyers and 429,497 women in various professions.—Baltimore Sun.

PUT A KINK IN HIS PLANS

Awful Contingency Youth Had Not Foreseen in His Laying Out of the Future.

Eleven-year-old Tommy has quite decided opinions as to the duties of fathers to their little boys. The other day he was describing to his mother the sort of father he intends to be when he grows up.

"I'm going to be the best father to my boys. I'm going to play marbles with them and baseball and everything they want me to and I'll give them dimes 'most every day and tell them they can buy all the ice cream they want, and I'll get them each a pony, and well, my boys'll have lots of fun."

Tommy's mother with a twinkle in her eye said: "But, Tommy, what if you shouldn't have any little boys, what if your children are all girls!"

Such a possibility never entered Tommy's head. The suggestion was appalling. A look of blank dismay passed over the child's face.

"Gee! that would be the dickens!" he ejaculated.

WOMAN IN TERRIBLE STATE

Finds Help in Lydia E. Pinkham's Vegetable Compound.

Bellevue, Ohio.—"I was in a terrible state before I took Lydia E. Pinkham's Vegetable Compound. My back ached until I thought it would break, I had pains all over me, nervous feelings and periodic troubles. I was very weak and run down and was losing hope of ever being well and strong. After taking Lydia E. Pinkham's Vegetable Compound I improved rapidly and today am a well woman. I cannot tell you how happy I feel and I cannot say too much for your Compound. Would not be without it in the house if it cost three times the amount."—Mrs. CHAS. CHAPMAN, R. F. D. No. 7, Bellevue, Ohio.

Because your case is a difficult one, doctors having done you no good, do not continue to suffer without giving Lydia E. Pinkham's Vegetable Compound a trial. It surely has remedied many cases of female ills, such as inflammation, ulceration, displacements, tumors, irregularities, periodic pains, backache, and it may be exactly what you need.

The Pinkham record is a proud and peerless one. It is a record of constant victory over the obstinate ills of woman—ills that deal out despair. It is an established fact that Lydia E. Pinkham's Vegetable Compound has restored health to thousands of such suffering women. Why don't you try it if you need such a medicine?

THE WISE WILL OBEY INSTRUCTIONS

THE FOOLISH WILL NEGLECT AND LOSE THEREBY.

Birmingham, Ala., July 25, 1913
To Merchants, Farmers & Ginners:

The maritime associations have adopted rules effective the coming season, and state that they will be absolutely and strictly enforced.

In self protection, the railroads are forced to adopt the same rules and exceptions will be made on bills of lading where cotton is:

1st. More or less wet.
2nd. More or less stained.
3rd. More or less soiled.

You are urged to properly care for your cotton so that the bales will remain in good condition.

All ocean freight engagements will be based upon a standard bale gin-box 27x54 inches, and any bale larger than this will be penalized one dollar ($1.00) per bale by the steamers. Further, any bale that cannot be compressed to a density of 22 1-2 pounds per cubic foot, ship side, even if 27x54 inches in size, will be penalized 50 cents per bale.

These rules by the ocean carriers are caused by the great difficulty in properly stowing, in steamers, bales of unusual and large sizes, and the consequent loss of room. Every one can readily understand the saving involved in stowing cotton in a ship, railroad car or warehouse where the bales are of the same dimensions. We urge therefore, that all gin-boxes be changed, before the new season opens, to the standard size of 27x54 inches. Texas now has a state law making this standard.

Because of the new maritime rules, it will be necessary to penalize bales above standard size $1.00 per bale. Bales under 400 pounds cannot be compressed to the required density, and bales weighing between 300 and 400 lbs. will be penalized 50 cents per bale. Bales under 300 lbs. are unmerchantable. as heretofore. We recommend that teach farmer make each bale weigh as near 500 lbs. as possible.

In view of these rules made by the maritime associations, it will be to the interest of each farmer to see that his bale is packed in gin-box of 27x54 inches, and is properly cared for before shipment

The steamship lines have also made rules in regard to the condition in which cotton shall be delivered them, and in order to comply with same, it is necessary that cotton be covered at the gin with good strong bagging, free from sample holes, and that the ends be well sewed up.

A little thought will show that the above rules are for the benefit of all concerned, and especially the producer, as the cheaper and less wasteful handling which will be permitted by observing these rules means a higher price paid the farmer for his cotton.

We desire that you understand that these rules and penalties were not made by the cotton buyers, but by the maritime associations, steamship companies and the railroads, and every cotton merchant must abide by them.

The co-operation of all, therefore, is urged in effecting these reforms.

Howell Cotton Co., of Birmingham,
Inman, Akers & Inman,
Burt-Nabers Cotton Co.
John S. Turner & Co.
Mathis & Muchmore,
Bashinsky & Co.,
Warrant Warehouse Co.
Birmingham Compress Co.

The above is a circular letter sent out by cotton factors of Birmingham. Doubtless similar letters are being sent by factors of other cotton centers. The Press publishes the letter so that our farmers may be informed in advance and may profit by the letter. Heretofore the farmer has had to shoulder the burden of wet cotton, small bales, stained cotton and the like while the merchant or cotton factor profited by it.

If, this year, the farmers will follow closely the instructions set out in the above circular letter he will be the gainer; if not he will be the loser. The Press takes pleasure in bringing this information to the attention of the farmers of Chilton.

Chilton County Fair

OCTOBER 20th to 25th, 1913

The Chilton County Fair Association will give away more than $1500 this year in prizes. The prizes offered this year are larger than ever before. They are offered on Corn, Cotton, Sweet Potatoes, Hay, Small Grain, all kinds, Forage Plants, Peas, Beans, Fruit, Vegetables, Jellies, Pickles, Live Stock, all kinds, Poultry, Ladies' Work, Children's Work, Plants and Flowers, Dairy Products, Meats. ALFALFA

Alfalfa is rich in feeding value.

TO PROMOTE ALFALFA.

Burlington to Run Combination Trains Through Southern Iowa and Northern Missouri—600 Alfalfa Lectures to Be Given in Two Weeks' Campaign—700 Automobiles to Be Used in the Work.

The Chicago, Burlington and Quincy railroad will run an alfalfa combination railway and automobile train for a two weeks' campaign, making about 60 stops in southern Iowa and northern Missouri, beginning July 28, 1913, from Des Moines.

The plan, as worked out by the Burlington in co-operation with the Agricultural Extension Department of the International Harvester Company of New Jersey and the agricultural colleges, is far in advance of any agricultural extension work ever carried on.

Will Stop at Sixty Points.

Local committees at each of the 60 points on the railroad will arrange for five to ten automobiles to carry the speakers in all directions into the country to farm homes, school houses and inland towns within a radius of from four to ten miles, where alfalfa lectures will be given.

During the campaign over 600 alfalfa lectures will be delivered by the party to as many audiences, and from 500 to 700 automobiles will be brought into the service of this great educational movement.

These campaigns are conducted on a strictly co-operative basis.

The people will provide:

1st. A guarantee of at least five to ten automobiles at each railroad stop to carry the speakers to the points in the country where meetings are to be held.

2nd. Halls suitable for the central meeting in towns where train stops.

3rd. Any community desiring a campaign must send in a request to the railroad, agricultural college cooperating, or to the Agricultural Extension Department, signed by a representative number of farmers and business men.

The railroad will provide:

Sleeping cars and dining service for the alfalfa campaign party, and baggage and exhibit cars, literature, etc.

The Agricultural Extension Dept. will provide:

1st. Speakers.

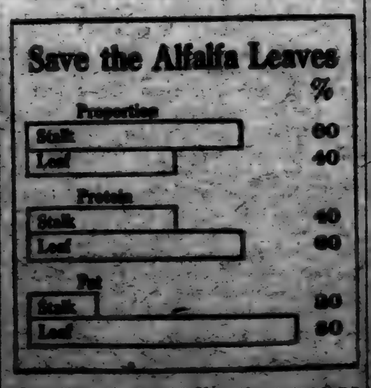
2nd. Assistance in organizing and advertising campaign.

3rd. Educational charts and other equipment for lecture purposes, bulletins, literature, etc.

4th. Follow-up men, when possible, to assist the farmers in getting a start with alfalfa.

Hearty co-operation on the part of the people is absolutely necessary to make these campaigns successful.

SAVE THE ALFALFA LEAVES.



Sixty Per Cent. of the Feeding Value of Alfalfa in the Leaves—Hay Should be Cut at Right Time and Cured so as to Preserve the Leaves.

Of the entire alfalfa plant, according to Kansas bulletin 155, the stalk comprises 60 per cent. and the leaf 40 per cent., whereas the quantity of the protein in the stalk is only 40 per cent., while the protein in the leaf is 60 per cent. Moreover only 20 per cent. of the fat is to be found in the stalk, while 80 per cent. is in the leaf. It is, therefore, very important that alfalfa be harvested at the proper time, and carefully handled so that all the leaves will be saved.

When possible to do so it is best to cut alfalfa late in the afternoon or evening. Dew or rain on the freshly cut alfalfa will not injure it. Where a tedder is used, it should be started in the morning as soon as most of the dew is off and before there is any danger of knocking off the leaves. It is often advisable to go over it more than once.

Alfalfa hay is harvested and cured in much the same way as clover, except that it should be cut as soon as the young sprouts or shoots start to grow at the base of the plant.

When alfalfa is left too long without cutting, the leaves fall off and the stems become woody, and the yield of the next crop is greatly reduced.

It's Between Seasons

But that makes no especial difference---in fact it's all the more reason for purchashing now while we are selling cheap. -:- -:-

AN APPEAL TO THE PEOPLE

BASED UPON SWORN TESTIMONY IN COURT SHOWING HOW THE L. & N. R. R. CONTROLLED THE STATE AND DEBAUCHED THE VOTERS—THIS FOREIGN CORPORATION IS SEEKING TO REGAIN CONTROL OF ALABAMA.

WHICH WAS WRESTED FROM IT IN SPITE OF ITS CORRUPT AND UNSCRUPULOUS METHODS AS SHOWN BY AN EXPENDITURE OF $142,285.25 IN ONE CAMPAIGN AGAINST MR. COMER.

He Calls Upon the National Government to Investigate the L. & N. Railroad's Pernicious Political Activities in Alabama.

(BY B. B. COMER.)

To the People of Alabama, to the Federal Congress, to the Attorney General and to the Interstate Commerce Commission:

I respectfully call your attention to the facts submitted in this address, and earnestly appeal to the State and National governments to redress the wrongs herein set forth. Nothing can be more subversive of independent government than the corporate political activities herein described and proof of the existence of which is herein established. I ask the co-operation of every citizen and every arm of the State and National governments in our efforts to compel the L. & N. Railroad and its allied forces to withdraw their baneful influence from the politics of Alabama.

Exposure in Court.

It is true that the court exposure of the political activities of the L. & N. Railroad to which reference is repeatedly made, is of several years standing. This exposure came because of a libel suit, not yet finished, but the verity of which the State Supreme Court has fully sustained in three decisions. While today there is no new libel suit, yet any X-ray system which could be brought, and should be brought, to bear on its present conduct, would show, either in process or in actual fact, the same conditions, viz.: The Louisville and Nashville Railroad Company's attempting control of the government of Alabama and its effort to regain complete domination of the State and the people.

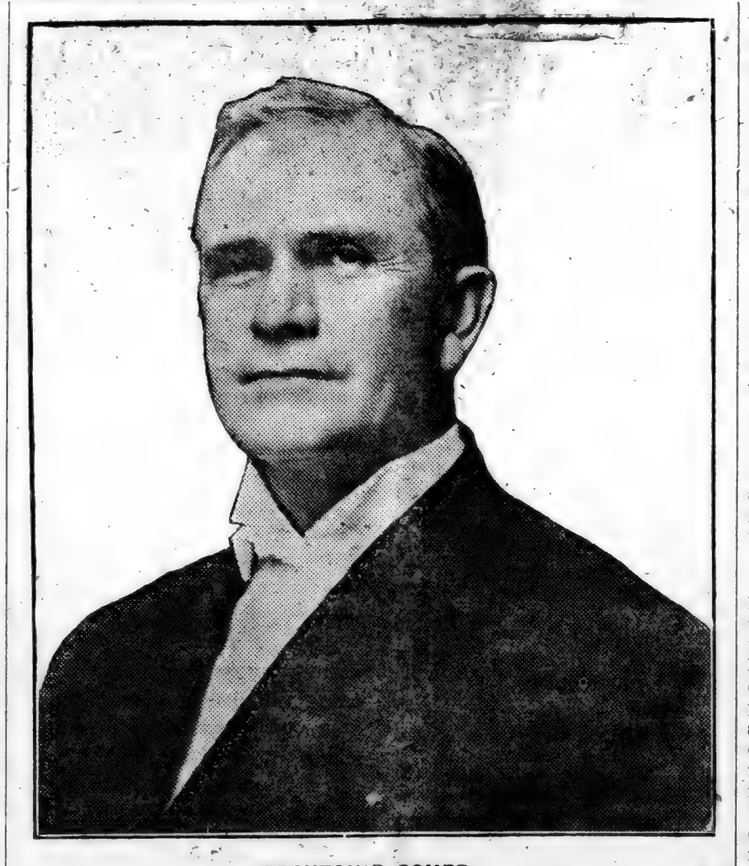
A Political Manager.

At all times the L. & N. Railroad has maintained in Montgomery, the seat of the State Government, a skilled political manager, not for his legal services, but as a political lawyer, who was charged with unsleeping care, to "nip in the bud" every independence of thought or action.

How It Was Done.

Its potentiality to control was accomplished by financing leading papers, by specious advertising, by retaining many important citizens in varied employment, by the use of free passes distributed where they would contribute most to the environment of the beneficiary, thus creating a powerful lobby State-wide in its extent, easy of assembly, even on telegraphic notice—all at the expense of the people.

Foreign Made Rates.



With the above conditions as a predicate, the Alabama freight rates and freight rate conditions were made by a foreign traffic manager, unchallenged by any agency that represented or acted in the interest of the people.

Local Interests Hog-Tied.

Since the beginning of State or nation building, it has been recognized that true political economy demands that those agencies which contribute to local and individual prosperity shall have first place. Every policy of the Louisville & Nashville Road has been adverse to local up-building, even to the extent of hog-tieing cities and communities and industries.

Rivers and Ports.

The freight rate conditions at every railroad crossing of the Tennessee, of the Tombigbee, of the Warrior, and of the Alabama, compared with any railroad river crossing in the world and

BRAXTON B. COMER

the freight rate conditions of Mobile compared with any freight conditions of any port in any civilized country evidence a condition which should, by the National Government, through its Interstate Commerce Commission, be declared intolerable and speedily relieved.

No Scruple in Its Methods.

The Louisville & Nashville Railroad great in its construction and management, impatient of control, unhesitating in its purpose to dominate, regardless of the people's rights, has written in the journals of three States its bullying methods of coercion, bribery, even assassination. Watterson, through the Courier Journal, charged this relentless corporation with murdering Governor Goebel, shooting him from the window of the Kentucky capitol, just as much so as Madero and his Vice-President were shot down in the streets of Mexico. The monument on Pine street in Nashville, marking the spot where Carmack died (the courts said murdered) is traceable to its fearful influence.

In the recent impeachment of Judge Archbold, a member of the Interstate Commerce Court, one of the prominent articles against him showed the ugly interference and vicious environment of its power, growing out of the freight case from New Orleans to Alabama, in which the liason of the Judge and the Louisville & Nashville Company's employes, attorney and witness, was shown.

An Oligarchy in Alabama.

In Alabama, this railroad has resolved itself into an oligarchy, has tried to control the Courts, and in some instances has done so. The most dangerous thing to human rights is the control of citizens and officers in the discharge of their duties by any interest. These things are accomplished, not for the purpose of maintaining business in its integrity, nor in the competitive reach for greater business, but to secure an unfair advantage and to enjoy the consequent privilege of an unfair and unreasonable charge, which charge the people pay.

Privilege Versus The People.

A forceful example of this conflict is shown in the revolution, with its shocking disclosures, now going on at the National capital. Under the leadership of President Wilson, the people for the first time in many years, are beginning to reap the fruits of victory, and this American country is on the eve of breaking loose from the grasping, taxing power of the greatest and most ruthless corporations the world has ever seen. Mr. Wilson, in his inaugural address declared: "The great government we loved has too often been made use of for private and selfish purposes, and those who used it had forgotten the people."

Mr. Underwood's View.

Mr. Underwood says: "The time has passed when the laws of this country will be written for special interests; when men can come and ask for legislation to convert dollars from the pockets of the masses into their own that they may grow rich."

The Campaign of 1904.

No better evidence of the pernicious activity and the debauching influence of the railroads and allied corporations need be sought, or can be found, than was shown by the conduct of the Louisville & Nashville Railroad in my election for president of the Railroad Commission in 1904. This evidence is beyond controversy. It came from the reluctant lips of this railroad company itself in answers, coerced by order of the Court, to interrogatories propounded to it in a libel suit brought by me in the City Court of Birmingham against this corporation and some of its highest officials and some of the leading newspapers in the State, all of which is now on record in that Court. My interrogatories were answered on behalf of the Louisville & Nashville Railroad Company, under oath, by George E. Evans, its then General Manager, and one of its Vice-Presidents.

Expenditures of One Campaign.

This testimony shows that the Louisville & Nashville spent in that campaign to defeat me the sum of $142,285.25. It further shows that all of the railroads in the State at that same time contributed to a further campaign fund. It was a corrupt, sordid effort to defeat me for President of the Railroad Commission, and to elect its candidate on the issue forced by me in the interest of the people, viz: That Alabama should have equitable car service rules, prompt settlement of claims for damaged or lost freight decently maintained depots and passenger accommodations, and the same rate of freight on 110 commodities of common production, consumption and use, which the roads had maintained in our neighboring State of Georgia for many years, and which rates had proven constructive and remunerative both to the shipper and to the carrier The Railroads because of their long control of every State activity, had maintained in Alabama the highest freight rate and the lowest tax rate, as compared with any State which had escaped their withering control. Recognizing that, if the people had an independent Railroad Commission service, an exposure of their methods would be sure, they did not hesitate at any proposition, any means or methods, which would defeat this breakaway from their control.

Details of the Conspiracy.

It appears from said testimony of the Louisville & Nashville Railroad that Walker D. Hines, 1st Vice President, with Headquarters at Louisville Kentucky, organized this road into a political machine from the Alabama Tennessee line to Mobile, including all subsidiary branch lines. The said Hines was the Chief in Command, stationed in Louisville Kentucky, its Division Superintendents and other officers in Alabama were his Lieutenants, with its various agents, engineers and the most efficient and intelligent of its employees as field workers. The first order issued by the said Hines was addressed to the General Manager, George E. Evans, directing him to create a strong anti-Comer sentiment in Alabama; then, after the selection of its candidate, followed orders from the said Hines to vote for John V. Smith. The said George E. Evans, General Manager, then issued directions to B. M. Starke and all Division Superintendents to distribute among their men a circular letter in which a bitter attack was made upon me. It is further shown by the said testimony that circular letters signed by the said Walker D. Hines, 1st Vice President, and the said George E. Evans, General Manager, and others, were freely distributed over Alabama through the organized forces of this Railroad, attacking and harshly criticising me.

Hines on the Ground.

When the campaign became warm, the said Walker D. Hines removed his headquarters from Kentucky and stationed himself in Alabama and conducted the fight in person, issuing orders and commands in person and by word of mouth, direct to the "Alabama Officials" of said Road

A Far Flung Battle Line.

This testimony further shows that all of the officers of the Louisville & Nashville Railroad Company, all of its important agents, its attorneys and its doctors, except one in Gadsden, Alabama, were placed by it on the firing-line, and were released from the discharge of their duties to the public and to the Railroad in order that they might go into this political campaign in Alabama.

To Debauch the Voters.

Never in the history of any country did a public servant, as this Railroad Company was, undertake, with more unscrupulous methods and with more effrontery, to over-awe and debauch the people and to show its mastery over the State. It hesitated at nothing. Through one man, as shown by his own testimony in Court, it distributed $5,000.00 in Jefferson County alone within forty-eight (48) hours, just before the election, to debauch the electors.

The Perjured Frame Up.

This Railroad, through three of its high officials, B. M. Starke, Superintendent at Birmingham, E. A. DeFuniak, General Freight Agent at Birmingham, and Jones G. Moore, President of the Birmingham Southern Railroad, procured from one of its employees, a section master in the Birmingham district, a false affidavit that he was my first cousin, that he, as section master, had done some repair work on the private track of the Avondale Mill of which I was President; that he was my first cousin and that because of this relationship, I had approached him while at work on the track and told him that when the work was finished to come to the office and get the money; that he had replied that he was working for the L. & N. Railroad Company and that the money belonged to them; that I had told him that that was alright, he could take it; that his reply was that the money belonged to the Railroad and he could not take it, and that I told him if he did not take that money and all such money, he would die a poor man.

This was published in the leading evening papers of Saturday and in the morning papers on Sunday, the day before the election on Monday, and sent broadcast throughout the State under the headlining of "How the Radical Candidate Had Attempted to Make His First Cousin Take Money Which Belonged to the L. & N. Railroad and Thus Do the Railroad Company."

Not a Word of Truth.

In the trial for libel the Court and jury held the affidavit false and libelous. The testimony showed that the man was not related to me, that I did not know him nor he know me; that the whole transaction was a frame-up to absolutely destroy any opposition which might come in their way. They were determined to elect their man, no matter how much money or what influences were necessary to debauch, bribe and control the electorate.

Debauch and Control.

Before the people, I challenged then, as I do now, their right to debauch and control the state of Alabama from their office at Louisville, Kentucky, challenged their right to arrange at their will, not only the intrastate business of Alabama, but also the interstate freight rates of Alabama and make their own rules governing their every business with the shippers and the people of the State.

In all these contests, the freight rate comparison was made with Georgia, North Carolina and Virginia and showed great discrimination against Alabama.

The People Footed the Bill.

You, the people of Alabama, will take notice that this vast sum spent by the Louisville & Nashville Railroad Company to corruptly influence the voters of this State, was wrung from you as taxes or charges by making you pay passenger and freight rates sufficient to pay not only operating expenses and interest on bonded indebtedness and dividends on stock, but an additional sum to run political campaigns in Alabama.

The methods above mentioned have continued. The insidious lobby is still at work. One hundred thousand dollars has recently been used through the press exactly like that used by the Sugar, Wool, Tobacco and other trusts, whose pernicious activities are now being developed at Washington through Congressional investigation, and against which President Wilson recently made such a strong attack regarding the "insidious lobby" carried on by these agencies in the National Halls of Legislation.

Senatorial Investigation.

Senator Luke Lea, from Tennessee, has introduced a resolution in the Senate of the United States, asking for an investigation of the Louisville & Nashville Railroad Company in Tennessee. We will request an amendment to this resolution so as to include an investigation of this railroad in the conduct of its affairs in Alabama. We will insist upon a Federal investigation either through this source under the direction of Congress, or through the Interstate Commerce Commission, or Attorney General, so that the people of Alabama may be informed by what authority this interstate railroad system and

(Continued on Page Eight)

HIGHWAY ROBBERY

EAST CHILTON GROWING BAD INDEED.

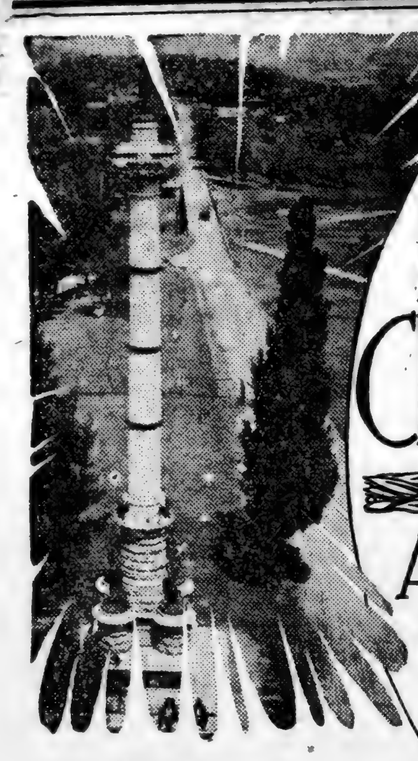
A number of assaults, robberies and murders have been reported in the past few weeks from that section known as east Chilton. Fortunately none of these violations of the law seem to have been committed by citizens of Chilton—that is, regular citizens. Last Monday night a robbery was reported as haying taken place just eleven miles east of town, about nine o'clock. It appears that a Mr. L. M, Moore, who conducts a restaurant at or near the dam, had closed his place of business and with the receipts of the day in his pocket was returning to Mr. Thos. McKee's home, where he boards. When on a secluded part of the road two or more men approached him from the rear and while one pinioned his arms by his side another reached into his pockets and relieved him of all the cash he had on his person. Mr. Moore is not positive whether the attacking party was composed of white men or negroes, they having approached very quietly from the rear and held him firmly till his cash was taken, after which they made off into the darkness; however, he supposes they were negroes. Whoever they were they relieved him of something over fifty dollars in cash. Telephone communication was immediately had with Sheriff Jones, who wired the Sheriff of Montgomery county for dogs with which to trail the robbers, but for some reason they failed to come to Clanton on the ten twenty train. However, they did reach Clanton at an early hour Tuesday morning and were immediately put on the trail. The dogs took the scent immediately and run well for about a mile when the tracks doubled back into the public road and the scent was lost. Had they been sooner, when the scent was fresh and the road untraveled, perhaps the robbers would now be reposing behind Chilton county's new jail bars.

MISS MARGARET WATSON

TO ORGANIZE MUSIC CLASS

That Clanton will not suffer a dearth of excellent music teachers this year is attested by the recent arrival of several accomplished musicians; the latest to come is Miss Margaret Watson, of Furman, who is so favorably known to the music lovers of Clanton.

Miss Watson had charge of the music department of Clanton Academy year before last and gave general satisfaction; she was tendered the place last year, but, because of some misunderstanding, did not accept the appointment.



Miss Watson, aside from her musical ability, is a most charming young lady who numbers her friends by the number of her acquaintances, and the Press feels confident that her numerous friends will rejoice to learn that she is to be with us again this year.

She will begin the organization of her classes immediately and will be glad to have those who have children desiring instruction to consult with her.

Miss Watson will be located this year with Mrs. Jas. H. Middleton.

Miss Mary Dunn of Garland, who has been visiting Mrs. S. J. Watts, left Monday morning, accompanied by Mrs. Watts, for Montevallo, where she goes to enter school.

Little James Mullins was carried to Montgomery last Sunday to be operated upon for appendicitis; he is reported as progressing excellently.

CREST ROAD ON MISSIONARY RIDGE

The BATTLE of CHICKAMAUGA

AN UNPARALLELED SLAUGHTER OF AMERICANS

BY

J. G. RICE

THE OLD SNODGRASS HOUSE

KELLY FIELD SHOWING ILLINOIS MONUMENTS

FATE seems to have decreed that, in 1863, two great battles were to be fought on the American continent, one in the east and the other in the southeast.

Whether or not Fate decreed thus, chance, accident and necessity, three elements that are present in all great military operations, combined to produce the conflicts of Gettysburg and Chickamauga.

It is a part of the military history of the United States that neither Meade nor Lee intended that the battle that was to decide the issues between the opposing forces of the Union and the Confederacy in the east would be fought at Gettysburg; but chance and accident, otherwise Fate, decreed that it should be decided there, and Gettysburg is a glorious heritage in which all Americans are common heirs.

Seventy-five days after the flames of Gettysburg, two great armies of Americans threw themselves against each other like thunderbolts of death on the banks of Chickamauga creek, in the northwest corner of the state of Georgia, ten miles south of the city of Chattanooga, Tenn., and, the battlefield of Chickamauga is a mournful but glorious testimonial to American valor for all time to come.

Like the conflict of Gettysburg, the slaughter of Chickamauga was due largely, if not wholly, to chance and accident. Neither General Rosecrans nor General Bragg, commanding the Union and Confederate forces, respectively, understood or expected that a battle would be fought on that wooded plain.

After the Tullahoma campaign of the Union army in middle Tennessee, which ended July 4, 1863, General Bragg moved the army of Tennessee to Chattanooga. General Rosecrans, about the first of August, began moving the army of the Cumberland to the western slopes of the Cumberland mountains with the intention of throwing his forces across the Lookout range into the Chattanooga territory.

General Rosecrans had established headquarters at Winchester, Tenn., for the purpose of directing these military operations against Chattanooga. His left corps, under Crittenden, was at McMinnville, about fifty miles north of Winchester, but the same distance from the western base of the Cumberlands. The center of his line was at Decherd, under Gen. George H. Thomas, who was destined to glorify his name at Snodgrass Hill. McCook, commanding the 20th corps, was at Winchester with Rosecrans. Minty's cavalry was to the left of Crittenden. E. M. McCook's division of Mitchell's cavalry corps was on the right of the 20th corps. General Sheridan's division early in the month of August was advanced to Bridgeport and Stevenson, Ala., on the Tennessee river.

Thomas and McCook were sent through the mountains many miles south of Chattanooga, striking the valley about forty miles south of that city. Crittenden was dispatched to the vicinity of Chattanooga, the purpose being to engage the attention of Bragg until Thomas and McCook could cross the mountains and place their corps between Chattanooga and the Confederate base of supplies to the south.

General Bragg, however, was not to be caught in such a trap. On the night of September 7 and morning of September 8 he quietly evacuated Chattanooga, marching south to intercept Thomas and McCook, as they came down from the mountains into the valley south of Chickamauga. The Confederate plan of campaign is clearly revealed in this movement. General Bragg saw an opportunity to engage the Union corps in detail and destroy them. Longstreet was coming over from Ringgold, Ga., with heavy reinforcements, having just reached that point from Gettysburg. It was the golden opportunity for the Confederates, but slipped through Bragg's hands by failure on the part of corps commanders to carry out his orders.

General Crittenden discovered that Bragg had evacuated Chattanooga on the morning of September 9, and immediately occupied the city. Through the most unreliable information, General Rosecrans believed that Bragg was in full retreat on Rome, Ga. Acting upon this information he ordered pursuit through the Pigeon mountains. Crittenden's corps, with the exception of a garrison force, was sent after Bragg. They found him at Lee & Gordon's mill, on Chickamauga creek, preparing for battle, with the forces of Thomas and McCook.

There was now no lingering doubt that a great battle was to be fought on the banks of the Chickamauga on the morrow. On September 18, which was Friday, General Braxton Bragg, realizing that his plan to engage his antagonists in detail had miscarried, ordered a movement of his army down the Chickamauga to effect crossings at a number of bridges and fords. Late on the evening of the 18th a sharp engagement occurred at Alexander's bridge.

The battlefield of Chickamauga was a densely wooded plain with an occasional elevation from which the thunderbolts of war could be hurled from heavy artillery.

The visitor today to the field of Chickamauga is wheeled along the Lafayette road, an old highway, now well improved by the government, that did service before the war for the country folk of north Georgia. This road was the "dead line" in the battle of Chickamauga. If its dust, its rocks and its trees could be animated and endowed with the power of speech, the story they could tell would turn into sickly romance the best pages of heroic history. The struggle for possession of this now historic highway was no less heroic and deadly than the numerous assaults and repulses at Snodgrass Hill. The flame of battle swept the forest on each side of the road with a fury that no pen can describe.

Practically all of the first day of the battle of Chickamauga was a contest for the possession of Lafayette road. The sun went down and darkness enveloped the field, leaving the mighty hosts still contending for the highway. The Confederates had been driving west all day in an effort to break the Union lines and Lafayette road became the "bloody lane" of Chickamauga.

The blood of the two armies still flowed when night threw its shadows over the field. Neither had been victorious. No more indescribably oppressive spectacle can well be imagined than night brought to the two armies. They were so close together than the groans of the wounded and dying of both armies could be plainly heard. The field was strewn with the unburied dead.

By the close of the first day's fighting the Confederates had become the aggressors. Their purpose was plainly apparent, to break across Lafayette road and pierce the Union lines, cutting the army in two sections, hopelessly dividing it, and annihilating each section in detail.

Not until church bells in Chattanooga were calling the people to divine worship did the roar of battle again resound throughout the plain. But it came with a more deadly roar than any which had swept through the forest on Saturday. The Union forces were steadily driven back from Lafayette road, but doggedly held their position in Dyer and Kelley fields against every assault, inflicting heavy damage on the Confederate columns. Through a jumbling of field orders, the Kelley field line of the Union forces was weakened, and Longstreet drove three divisions against the weakened point. It was the opportunity that had been the hope of the Confederates all day. Rosecrans, Crittenden and McCook were caught in the break, separated from Thomas' wing and retired to Chattanooga.

It is not surprising that the break in the lines and departure of Rosecrans for Chattanooga disheartened the Union forces and inspirted the Confederates. However, the Confederates had a great commander to contend with in the person of Gen. George H. Thomas, now the "Rock of Chickamauga." As the roar of battle swept through Kelley field, it seemed that the Union forces were doomed. Snodgrass Hill rises some three hundred feet high immediately west of Kelley field. Its eastern side is precipitous and in some places rough.

General Thomas rallied his men on Snodgrass Hill, and here occurred the heaviest fighting of the entire engagement.

The best regiments of the southern armies were sent against Thomas at Snodgrass Hill, to be shot to pieces on the very breastworks of the enemy. Some of the Confederate regiments lost as high as 70 per cent. of their men in their attempts to dislodge Thomas, while the Union regiments suffered almost as heavily. The shouts of the living, mingled with the groans of the dying and wails of the wounded, made Snodgrass Hill a veritable inferno of death.

Not long ago I stood on horseshoe summit, the crater of Snodgrass Hill. As far as the eye could reach along the crest of the ridge I saw handsome monuments of marble and bronze, tributes of a grateful people to the valor of their sons. But these memorials, emblazoned with the deeds of the living and the dead, carved into them by the chisel of an artist, did not impress me so profoundly as what I saw through the gray mists of fifty years. I allowed my mind to go back, and I saw as heroic a display of human courage as the world ever witnessed. The roar of battle swept through Kelley field. Then there came one of those mysterious and unexpected lulls in the storm, but it was merely gathering force for the climax of a hurricane that had raged in the forest along Chickamauga creek for two days. It was soon to break again, and its lightnings were next to flash around horseshoe summit, where I was standing. I saw the advancing Confederate legions sweeping all before them across the open plain in my front. Longstreet had driven his brigades through the Union lines and swept the right wing of Rosecrans' army from the field in wild disorder. Wheeling his forces he started for Thomas in command of the left wing. If Thomas could be routed, a victory for Confederate arms was assured that would shake the nation to its foundations. Next I beheld the brave General Brannan rallying the remnants of a half dozen brigades on Snodgrass Hill. General Thomas was marshalling his shattered forces for a resistance that placed his name high in the esteem of the nation.

Before I could grasp the meaning of the whirl and the rush of the regiments, Snodgrass Hill had been converted into a citadel of defense from which the thunderbolts of iron could be hurled against the advancing foe. I looked again and I saw Longstreet's Confederates scaling the side of the hill with majestic tread. Then I saw a sheet of flame burst from the Union lines on the crest of the hill, full in the faces of the advancing Confederates. No troops could stand in that storm of lead. They halted, dazed and deadened by the awful carnage. Their lines gave way, only to be re-formed at the foot of the ridge for another charge. I saw the flags of Mississippi, Alabama and Georgia, South Carolina and Virginia, and the lone star of Texas flashing defiance at the foe on the summit of the hill. Another charge into the face of a deadly volley and another retreat to the foot of the ridge! Will they never desist in their mad attempt to scale the ridge? Now, I saw some of the Confederate standards on the crest of the hill, and men in hand-to-hand combat. They piled the dead in the trenches and fought over their bodies. But, again I saw Gordon, Granger and Steedman come to the relief of the Union defenders with fresh troops, and the Confederates were hurled, maimed and shattered, from the vantage point they had gained by superhuman effort and undaunted courage. The side of the ridge was strewn with the dead and wounded. Bursting shells had ignited the dry leaves of the forest and bodies were scorched and blackened by flame and smoke. At last, as the sun was sinking behind Lookout Mountain, throwing dark and spectral shadows across the plain upon which one of the greatest tragedies of modern or ancient warfare had just been enacted, General Thomas withdrew his forces under orders from Snodgrass Hill, leaving the bloody field of Chickamauga in possession of the battered but shouting Confederate legions after two days of fighting that has never been excelled in the history of wars. The Confederates were the victors at Chickamauga, but Rosecrans and Thomas got their army to Chattanooga in safety, a fact that has seemed to make honors even.

What followed the carnage at Snodgrass Hill is history. General Bragg hesitated, he faltered, he lost. Every commander of a division under him on that fateful field expected to hear every minute an order to follow Thomas and clinch the victory; but the order never came. Thomas reached Chattanooga in safety and soon after succeeded Rosecrans in command. The long siege of Chattanooga followed, with which readers of war history are familiar.

Chickamauga was the bloodiest two-days battle of history. The forces were about equal in numbers. Much controversy has from time to time arisen over Chickamauga statistics, but from the best obtainable information the total strength of each army was a little to the rise of 50,000 men, making the number actually engaged something more than 100,000. The casualties were about as follows:

Confederate: Killed, 2,193; wounded, 13,613 missing, 1,060; aggregate, 16,971.

Union: Killed, 1,656; wounded, 9,749; missing 4,774; aggregate, 16,179.

These deadly figures show that the aggregate slaughter at Chickamauga was 33,150, including dead, wounded and missing in both armies.

NO CAUSE FOR WORRY

Senator Warren Need Not Be Taken Seriously.

National Ruin He Predicts as Result of Proposed New Tariff Law Is Merely Figment of Wyoming Statesman's Imagination.

Gentle reader, do not worry.

The fact that Senator Warren of Wyoming sees ruin for the country in the woolen schedule of the Underwood tariff bill is not so alarming as it seems.

Senator Warren owns several million sheep. He has been called "the greatest shepherd since Abraham." The Aldrich tariff duty of 11 cents per pound on wool gives a very tidy boost to the senator's income—at the expense of every consumer of wool in the United States. But so long as he can pasture his sheep on the public domain in Wyoming and Colorado and the price of mutton keeps going higher it is not likely that free wool will ruin even Senator Warren, and surely no wage earner who wants a warm winter coat is likely to complain.

Truth is that Senator Warren has the habit of seeing national ruin whenever he thinks he needs it in his business. He sees it now in free wool. He would see bigger and blacker ruin if the government quit maintaining useless army posts in Wyoming for Senator Warren's political benefit, and probably he would think the end of the world had arrived if congress cut off his supply of jack rabbit postoffices.

If Senator Warren is unable to earn his living without government support, it would be cheaper to pension him outright than to let him levy taxes on American consumers. Meantime, his yammer about "national ruin" is not alarming, nor even interesting. It is merely impertinent.—Chicago Journal.

Contrast to Be Noted.

Two southern newspapers furnish an instructive contrast in breadth of view and soundness of political convictions.

The New Orleans Picayune is nominally a Democratic paper. It supported the candidacy of President Wilson. Yet the moment it became clear that President Wilson meant to keep his own and the party's pledge of revision of the tariff, the Picayune turned against him. It is now denouncing him as a "radical, heavily tainted with socialism," and protesting or rather raving against any appreciable reduction of the tariff on sugar and lumber.

The Florida Times-Union is also a Democratic paper, of the conservative type. It supported Wilson, though without enthusiasm. But the moment President Wilson began his work of securing a revision of the tariff, the Times-Union put its entire influence back of him. When a clique of orange growers in Florida denounced the proposed reduction of duty on citrus fruits, the Times-Union, in the name of the state, repudiated their action, and assured the president that Florida was seeking no graft and needed no subsidies.

Nothing in "Labor" Cry.

Sugar and wool, the two citadels of Aldrichism, cannot make a "labor" plea. High-priced land, rather than high-priced labor, has checked the development of wool growing in this country; and the sugar industry pays very low wages. The constant cry of beet sugar growers of the west has been for plenty of cheap "gang" labor; and only constant watchfuness has prevented child exploitation in western beet fields quite as bad as that recently uncovered in canning factories.

A fraud driven into the open is more than half beaten. Aldrichism has lost its "labor" mask.

To His Own Self, He's True.

Governor Foss of Massachusetts was elected to his present position as a Democrat, now declares himself a Republican, and expects to head the state ticket of that party at the next election.

It is an error, however, to speak of Governor Foss as having changed his politics. He never had any politics, save a single-minded affection for himself and a firm faith that the chief duty of the American people is to make him wealthy and famous. He has not deserted these cardinal principles. He is merely trying to get into the chicken roost from the Republican side.

Trust Properly Indicted.

The government never has sought to punish legitimate business operating within the area of honorable competition. But there is a question when a corporation, through combination, acquires control of 85 per cent. of the output of one particular line. And this is what the government avers the harvester trust has done.

Matter for Men Who Know.

We plead for deference to the opinion of those who have a right to have an opinion. England has for years had no money question. All parties agree that the country ought to have the best system obtainable, and all follow the guidance of men who have given their lives to a study of the subject. We ought to try to get into the same state of mind. The question of a proper ordering of our finances is not a Democratic or a Republican question—it is purely a scientific question.

SUFFERED AWFUL PAINS

For Sixteen Years. Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Moretown, Vermont.—"I was troubled with pains and irregularities for sixteen years, was thin, weak and nervous. When I would lie down I would seem as if I was going right down out of sight into some dark hole and the window curtains had faces that would peek out at me, and when I was out of doors it would seem as if something was going to happen. My blood was poor, my circulation was so bad I would be like a dead person at times. I had female weakness badly, my abdomen was sore and had awful pains.

"I took Lydia E. Pinkham's Vegetable Compound and used the Sanative Wash and they certainly did wonders for me. My troubles disappeared and I am able to work hard every day."—Mrs. W. F. SAWYER, River View Farm, Moretown, Vermont.

Another Case.

Gifford, Iowa.—"I was troubled with female weakness, and with displacement. I had very severe and supressed headache, also pain in back and was very thin and tired all the time. I commenced taking Lydia E. Pinkham's Vegetable Compound and I am cured of these troubles. I cannot praise your medicine too highly."—Mrs. IVA M. SLAGLE, Gifford, Iowa.

You can't convince the mother of a first baby that all men are born equal.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

It takes a woman to believe things that are unbelievable.

For SUMMER HEADACHES
Hicks' CAPUDINE is the best remedy no matter what causes them—whether from the heat, sitting in draughts, or a bilious condition, etc. Try it. 10c, 25c and 50c per bottle at medicine stores. Adv.

Love doesn't make the world go round as often as it makes the mare go broke.

No. SIX-SIXTY-SIX
This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

Wail From French Jurymen.

In France, as well as in England, jurymen have their grievances. The latest can easily be remedied. The French minister of justice has received an address signed by citizens figuring on the Paris jury lists, protesting against the bare appearance of the courts where they have to sit. They point out that if—tired of waiting at the judges, counsel, witnesses and other parties to a suit—they turn their eyes upon the walls, nothing but an inartistic paper meets their gaze. In order to relieve this deadly monotony they beg that a print of Vollon's famous picture, "Justice in the Guise of Crime," may be hung in each court.

Haste Unnecessary.

"Hurry up that order!" said a traveler in a railroad eating house down south. "I'm afraid I'll miss my train."

"Yas, sah, boss!" the waiter answered as he hurried off.

After what seemed an almost interminable wait to the traveler, he returned with the food. As he sat down he asked:

"Is you de gentlemans what told he'd miss de train?"

"Yes," was the reply.

"Well, you needn't be feared of dat sah, no mo'."

"Good! Is it late?" the traveler inquired.

"No, sah, it's done gone!" was the waiter's affable and reassuring response.

THE DOCTOR'S GIFT
Food Worth Its Weight in Gold

We usually expect the doctor to give us on some kind of penance and follow us bitter medicines.

A Penn. doctor brought a new something entirely different and the results are truly interesting.

"Two years ago," writes the patient, "I was a frequent victim of indigestion and biliousness, being allowed to eat very few things. One of our family doctor brought me a sample package, saying he had found a new thing for me to eat.

"He said it was a food called Grape-Nuts and even as its golden color might suggest it was worth its weight in gold. I was sick and tired, and one thing after another to no avail, so consented to try this new food.

"Well! It surpassed my fondest anticipation and ever since then I have blessed the food doctor and the inventor of Grape-Nuts.

"I noticed improvement at once and in a month's time my former attack of indigestion had disappeared. In three months I felt like a new man, my mind was much clearer and steadier, my body took on the vitality of health and this condition has continued.

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Look in "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

GREAT WATERWAY NEAR COMPLETION

K ON PANAMA CANAL IS NOW ON THE FINAL STAGE.

WORK AHEAD OF SCHEDULE

Excavation Has Been Completed. Dredges to Do Rest—Waterway Ready for Shipping Soon.

Panama.—The dry excavation of canal has been completed, the steam shovel working in the Culebra cut having removed the last rock. The wet excavation of the canal will be completed by dredging.

Washington.—Completion of dry excavation on the Panama canal just ten months ahead of schedule time advanced the work on the great waterway almost to the final stage. Much digging and cleaning out remains to be done in the Culebra cut and along the route, but this will be accomplished by the mouth dredges floating on the surface of the canal.

An army of men will be busy during the next four weeks removing steam shovels and other equipment and material including 36 miles of railroad track from the 9-mile channels in the Culebra cut between Gamboa dike and the San Miguel locks. This is preparatory to turning water into the channel from Gatun lake, on the Atlantic side, on October 5, five days in advance of the date set for dynamiting the Gamboa dike. The water will be introduced through four 26-inch pipes extending underneath the dike, and, although the five day period hardly will suffice to fill the channel to one-level, the canal level, enough would be let in to act as a cushion against any explosion when the dike is destroyed.

While the cut is being cleared of machinery and equipment, drilling and blasting will be going on at the bottom of the channel, loosening up rock and earth for the dredges that soon will be clawing away through water.

By August 1, 998,000 cubic yards remained to be taken out of the "theoretical canal prism," and since that time the steam shovels have reduced the amount to approximately 650,000 cubic yards, which is left for the dredges. Six of the shovels will be continued, however, in removing material from the east and west banks of the Culebra to lessen the danger from slides.

MEXICAN OFFICER IS KILLED

Killing of Acosta Causes Great Excitement Among Huerta Troops.

El Paso, Texas.—Lieut. F. Acosta, an officer in General Salazar's federal command at Juarez, crossed the Stanton street international bridge and was killed by United States Customs Inspector T. F. Jonah and Immigration Inspector Thomas N. Heifron, after he had opened fire on them with a pistol.

He was shot through the mouth and fell, and his horse, from which he had dismounted, was shot through the side. The American officers were uninjured. Before crossing the bridge the Mexican had remarked that he was "going to kill a gringo."

Heifron was standing at the American end of the bridge when Acosta first opened fire at him. He fired back, using an automatic pistol. Jonah hastened to his assistance, and began firing at the Mexican. The Mexican officer was within 30 feet of the American before he was killed.

Two troops of the Thirteenth cavalry were ordered to the bridge following the shooting, in order to repel the 1,000 Mexicans who had gathered on the Mexican side of the bridge.

Gen. Hugh L. Scott, commander of the United States troops, was notified of the shooting, and he ordered all troops to be prepared for movement to El Paso from Fort Bliss

Western Men Given Foreign Posts.

Washington.—President Wilson sent to the senate the following nominations: To be ambassador to Spain, Joseph E. Willard of Virginia; to be minister to Honduras, John Ewing of Louisiana.

Japanese Clamor for War.

Tokio.—The assasisnation of Mortimer Abe, director of the political bureau of the Japanese foreign office, has inflamed the masses, and a dramatic chapter in the history of the new Japan was written. Fifteen thousand persons gathered in mass meeting in Hibiya park, calling for military action against China. A majority of these marched to the foreign office and clamored for admission. They demanded the dispatch of troops to China to take such measuers as were necessary to obtain satisfaction.

Eight Convicts Perish in Dark Cell.

Richmond ,Texas.—Eight negro convicts, confined in the "dark" cell of camp No. 3 on the state farm at Harlem near here, were smothered to death and four others are seriously ill from the effects of breathing poisoned air, but will recover. The dark cell on the farm has been a source of discipline since whipping was abolished, and the negroes were confined there for infraction of the rules. The cell is of wood construction, about 100 feet long, 7 feet wide and 7 feet high.

CALLIE HOKE SMITH

Miss Callie Hoke Smith, the younger daughter of Senator Hoke Smith of Georgia, will be a debutante in Washington society next season.

PELLAGRA STILL A PUZZLE

LITTLE KNOWN OF THE DISEASE AFTER TWO YEARS OF RESEARCH.

Southern Physicians Hold Conference to Discuss Causes of the Disease.

Spartanburg, S. C.—After two years of research by a corps of twenty scientists, the Thompson-McFadden Pellagra commission still is ignorant of the cause of the disease. This was announced by Dr. Ward J. McNeal of the New York Post-Graduate hospital, a member of the commission, at a conference here of Southern physicians.

Nearly two hundred physicians, students of the disease, were here for the conference. They came from nearly every Southern state.

Doctor McNeal summarized the commission's findings thus:

"First, the supposition that the indigestion of good or spoiled maize is the essential cause of pellagara is not supported by our study.

"Second, pellagra is in all probability a specific infectious disease communicable by means at present unknown.

"Third, we have discovered no evidence incriminating Buffalo gnats in the causation of pellagra. If it is distributed by a blood-sucking insect, the stable fly would appear to be the most probable carrier.

"Fourth, we are inclined to regard intimate association in the household and the contamination of food with the excretions of pellagrins as possible modes of distribution of the disease.

"If you remove a pellagrin in the early stages of the disease from the endemic locality of the disease, put him in better surroundings and give him plenty of good, nourishing food, regardless of treatment he will get well and stay well. In view of the high mortality of pellagra and the pessimistic feeling in regard to it this should be a comforting thought to us. It should also be comforting that pellagra is not directly transmissible from one person to another."

Build 300 Miles of Roads in 2 Days.

Little Rock Ark.—Although definite figures were not available reports from all parts of the state indicate that at least three hundred miles of highway were improved during Arkansas' two good roads days, fixed by Governor Hays' proclamation. "The success of the movement exceeded my most sanguine expectation," said the governor. "Next year I shall again designate good roads days." Governor Major of Missouri, who aided the Arkansas workers the first day, was forced to abandon his shovel and return to executive duties in his own state. He hired five men to take his place.

Taft Heads Bar Association.

Montreal, Quebec. — Ex-President William H. Taft was elected president of the American Bar Association at the close of the annual session defeating Gen. P. W. Meldrim of Savannah, Ga., by one vote on the second ballot. It had been generally understood that General Meldrim would be chosen as president, but the nomination of former President Taft complicated matters. On the first ballot, which was by states, Taft and Meldrim tied. On the second ballot one vote changed to Mr. Taft and Meldrim was defeated.

Governors Lead the Road Workers.

Little Rock, Ark.—Business was forgotten in Arkansas while the people worked the roads. It was two "good roads" days proclaimed by Gov. G. W. Mays and it was a success. Everywhere citizens wielded the shovel and pick and the banker put in as long hours and worked just as hard as the hired laborers. As a result, hundreds of miles of state's highways are in better shape than ever before. Governor Majors of Missouri put in a good day's work. So did Governor Hays.

Backache Warns You

Backache is one of Nature's warnings of kidney weakness. Kidney disease kills thousands every year.

Don't neglect a bad back. If your back is lame—if it hurts to stoop or lift—if there is irregularity of the secretions—suspect your kidneys. If you suffer headaches, dizziness and are tired, nervous and worn-out, you have further proof.

Use Doan's Kidney Pills, a fine remedy for bad backs and weak kidneys.

A Maine Case

Mrs. J. H. Bennett, 59 Fountain St., Gardiner, Me., says: "I was in bed four months with kidney trouble. My back felt as though it was broken. My body bloated and I could hardly see. Five doctors failed to help me. When I had given up hope, I began taking Doan's Kidney Pills. I was cured and now I weigh much more and am strong and healthy."

ALL WANT TO NAME THE BABY

Advice Heaped in Profusion on Keepers of Big City's Zoological Gardens.

"The arrival of a baby animal or bird of any kind from a hippopotamus to a canary at either of the city zoos gives people all over town a chance to spread themselves in the matter of names," said a New York park keeper.

"Everybody wants the honor of naming the baby. Letters come from all parts of the city, and from the surrounding country suggesting names that the writers think appropriate. Patriotism runs high among our correspondents. If they had their way half the animals in the park would be called 'Abe' Lincoln, and a large part of the other half 'Teddy' Roosevelt. Regardless of the sex of the youngster, these two presidential appellations are urged upon us.

"Classical and Scriptural names also have their advocates. Hercules and Plato in particular are proposed.

"Of all the ladies of antiquity Niobe seems to have first call. Once in a while a writer of a sentimental turn of mind suggests a more modern romantic name. Out of consideration for the animal fancy names are taboo to start with. To call a beast of the jungle Violet or Queenie is enough to shame the most docile of infants into a reversion to type."

ECZEMA ON HEAD AND FACE

Reedy, W. Va.—"My baby boy when three weeks old took the eczema on the head and face. It broke out in pimples and first they looked like blisters and a yellow water would run from them. His head was perfectly raw and his hair was all gone. Everybody said he would never have any more hair. As the sores spread his hair came out. The breaking out itched so badly that we had to keep gloves on his hands to keep him from scratching his head and face. It caused disfigurement. He couldn't rest at night it burned and itched so badly.

"He was treated for eight months and he got worse all the time. So I decided to try Cuticura Soap and Ointment. In two months he was completely cured after using the Cuticura Soap and two boxes of Cuticura Ointment." (Signed) G. A. Dye, Jan. 7, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Hard Luck, Indeed!

"How's your son, the lawyer, who went to Texas, getting on?"

"Badly, poor fellow. He's in jail."

"How's that?"

"He was retained by a horse thief to defend him, and he made such a good plea that the judge held him as accessory."—Lippincott's.

Worms expelled promptly from the human system with Dr. Peery's Vermifuge "Dead Shot." Adv.

A man never gets over his spanking days. About the time his mother quits his wife starts in.

It's easy for a sympathetic woman to make any man believe he loves her.

BLIND SPELLS FOR A LONG TIME

Mrs. Largen Tells of Her Experience and How She Finally Came Out All Right.

Elkwood, Ala.—Mrs. Mattie Largen, of this town, writes the following letter for publication: "My health was very bad for a long time, on account of womanly trouble. I suffered a great deal, at different times, with headache, and pains in the bottom of my stomach, and had blind spells.

All of this made me so weak, I could hardly sit up. I tried treatment after treatment, but they did me no good.

Just as soon as I commenced taking Cardui, the woman's tonic, my health got better, and now I can do all my housework.

I will never be without Cardui in the house, and will recommend it to every lady that I can, for it has done me so much good, and I know it will do the same for others, if they will give it a trial."

The reason Cardui has attained such wonderful success in the treatment of diseases peculiar to women, is that it acts specifically on the womanly organs. It contains purely vegetable ingredients, of real medicinal merit, and in a safe, gentle way, helps build the womanly constitution back to health and strength.

Cardui is being successfully used by thousands of women every day. You won't regret giving it a trial.

KEY WAS UNDER DOOR MAT

Important Information for Which Conductor of Indianapolis Car Held the Passengers.

The South East street car was hurrying on its way toward the end of the line. Near the ten hundred block the single line branches out into a switch. The cars slow up and the passengers, generally known personally by the conductor, often have time to exchange pleasantries as the cars pass. A German woman was on the car coming downtown the other day. As the car slid on the switch and started to pass the other she got up excitedly and waved toward the car headed for the end of the line.

"Oh, Charlie! Oh, Charlie!" she shouted at a youth on the other car, evidently her son, on his way home. Charlie did not catch the signal at first, and the cars gathered speed.

"Charlie! Charlie!" came the voice, this time more insistent. Then Charlie looked around and saw the other car going off the switch, with the woman still waving excitedly.

The motorman was aroused by this time and, thinking that the summons was urgent, stopped the car and Charlie jumped off and made a beeline for mother.

She met him at the door. "I just wanted to say that the key is under the mat at the back door!" she yelled. And Charlie jumped off, waved at his conductor and caught his car amid the cheers of the other passengers.—Indianapolis News.

Women wear short sleeves to prove that they have funny bones.

Banana Eaters.

Americans used to be called a nation of pie eaters. Today a more appropriate term would be a nation of banana eaters. The United States takes more than two-thirds of the bananas shipped to the handlers in the world.

Part of this pre-eminence in banana consumption is due to geography; the source of supply on the Caribbean is almost at our doors. Part is due to accident; a Boston skipper introduced the American public to this tropical fruit while it was still unknown in Europe. Whatever reason one may choose to give, the United States is the world's chief banana market, and though the use of this fruit is increasing abroad, the American boy remains the Jamaica grower's best friend.

DEATH OF MRS. RUFFIN

Mrs. Emma Ruffin, wife of our highly respected and well-liked fellow-townsman, Mr. Mc D. Ruffin, died on Friday morning after an illness of several months, and was buried at Clanton cemetery on Saturday.

Mrs. Ruffin was well beloved, and her death was the cause of much sadness and regret.

Mr. Ruffin has lost both father and mother within the last two years; and now, after this sadest of all bereavements, the hearts of his many friends go out to him in the deepest sympathy.

MESDAMES WHITE AND LUCKIE ENTERTAIN

One of the most beautiful and enjoyable social functions of the season was the "42" Club, entertained by Mesdames M. L. White and R. E. Luckie on last Wednesday afternoon at the pretty home of Mr. and Mrs. White on Second avenue. Three apartments were thrown open and were artistically decorated with palms and cut flowers. Mrs. White, who is a woman of rare personal charm, received her guests in a becoming costume of lace over green messaline, and Mrs. Luckie was never more handsome than in her hand embroidered gown of blue crepe.

A delicious salad and ice course was served during the afternoon.

Those who enjoyed the hopitality of Mesdames White and Luckie included Mesdames E. M. Pinckard, Garner, of Dothan, P. I. Hopkins, E. Hopkins, H. F. Chandler, Allen, of Pell City, Newt Askins, S. E. Johnson, Ross Mullins, B. M. Roberts, Tipton Mullins, L. H. Reynolds, J. E. Gowan, C. W. Cox, W. A. Kemp, T. C. McSwain, Carrie Mullins, Hugh Jones, W. M. Adams, Martin Nix, J. W. Stanfield; Misses Chappelle, Mabel Thomas, Bettie Mullins and Agnes Averyt, of Birmingham.

WILLIAMS-SMITH

The following invitation was sent out last week and will, no doubt, be of interest to the friends of Mr. Williams in the county:

Mr. and Mrs. Floyd Waldo Hendrickson invite you to be present at the marriage of their sister, Miss Laurie Martha Smith, to Rev. James Toy Williams, on Tuesday morning, September sixteenth, at ten o'clock, Scottsboro, near Milledgeville, Georgia.

At home after November seventh Baptist Mission, Canton, China

After spending some time in Atlanta and Birmingham, Mr. Williams, with his bride, will come to Clanton to spend a few days with his mother, Mrs. Lelia Williams, before sailing for China.

MOUNTAIN CREEK NEWS

BAPTIST CHURCH WORK

Rev. O. O. Grear baptised the following persons:

Clarence Wilson, J. E. Garrett, Francis Wilson, Miss D. Wilson, Mrs. Francis Wilson, Nelson Abernathy, Miss Frances Mae Ray, Mrs. Thos. Smith and Mrs. Ross.

Those additions to the membership of the Baptist church at this place, all of whom are adults, are a portion of the good results of the revival recently held here. Rev. J. A. Smith led the revival service, and, assisted as he was by Rev. O. O. Grear, with Rev. O. R. Crumpton on two occasions, made the meeting one long to be remembered.

The Marbury church people helped, as good Christians do, to spread the Gospel and assist their brethren who were laboring to save souls.

Mr. D. H. Marbury made frequent talks at the meetings and Miss Ernestine Holtermann, of Marbury, was the organist on all occasions.

G. A. Cobern, Postmaster Gray, Minister Abernathy, Samuel Andress, Rural Route Agents Culver and Henderson, Charles. Brown; all of these and others worked earnestly all during the week to save souls and to further the Master's worship.

A BIG BIRD KILLER

Mr. W. F. Hudson, residing near Mountain Creek, killed a large eagle on last Wednesday near his home. Mr. Hudson brought the bird to town and exhibited it to the public. Chilton county leads in many things these days.

GRAND OPENING IN NEW LYRIC

A PERFORMANCE PLEASING TO ALL, EDUCATIONAL TO MANY.

The NEW LYRIC theatre on Main street, just east of "The Fashion," in the Mullins building, will open next Saturday afternoon at two o'clock with a first-class performance.

A handsome present will be given away nightly hereafter for which all should strive.

The new theatre is equipped with every modern convenience, including opera chairs, and will prove a most pleasant place to spend the evenings.

Come out and see us; we will try to send you home well pleased.

Remember the location: On Main street, just east of "The Fashion." Bear in mind the opening date: Saturday afternoon next at two o'clock. Come win the first prize.

THE NEW LYRIC THEATRE
"The show that put the move in moving pictures."

BIRTHDAY PARTY

DR. MATTHEWS CELEBRATES WITH FRIENDS.

Last Thursday was Dr. Matthews' birthday—we are not going to state which one, but anyway he doesn't draw a pension—and it was celebrated in most becoming style surrounded by a large number of his friends.

At the hour appointed quite a number of the host's friends assembled at the elegant Matthews home to spend the evening in pleasant conversation and in feasting. The hours of inspiring music and delectable conversation passed all too quickly, for the Doctor is an ideal compendium of good stories and always entertains with an ease and grace that is admirable in the extreme. The home was tastefully and artistically decorated for the occasion, the sweet aroma of flowers adding greatly to the pleasure of the evening. But, they say, the way to a man's heart is through the appetite and while, perhaps, the ladies present enjoyed most the excellent music, beautiful flowers and the pleasant conversation, the men demonstrated beyond the peradventure of a doubt that they were doubly pleased with the abundance of good things which the Doctor and his excellent wife had prepared for their delectation.

The dinner was a six-course affair, served as but few hostesses can serve, and the merry quips and continuous flow of wit was evidence that the host and his company did not in any manner feel the heavy hand of time pressing upon their brows.

The invited guests were: Mr. and Mrs. E. M. Pinckard, Dr. and Mrs. J. P. Hayes, Mr. and Mrs. W. H. Sartor, Mr. and Mrs. J. P. VanDerveer, Mr. and Mrs. J. A. Hester, Mr. and Mrs. J. W. Stanfield, Mr. and Mrs. M. L. White, Dr. and Mrs. V. J. Gragg, Mr. and Mrs. W. D. Spigener, Rev. and Mrs. Chappelle.

AN EXPLANATION, NOT AN APOLOGY

The Press regrets the small amount of county news in its columns this week; that, however, has been unavoidable. For weeks and months we have thought and dreamed of installing power in the printing department and at last these hopes and dreams have been realized. We have been in the hands of Messrs. J. W. Carwile, "Punch" Welch, Emmett Davis and little Tommy Teel nearly all the week; they have worked faithfully and well to get our engine installed, but had to relinquish work in order for us to get out this issue. Wheelbarrows of concrete haye been hauled into the office for two days laying foundations; the office is awry from front to rear and work in the printing department has been practically impossible. Next week we hope to have everything in good running order and give our patrons a paper the equal of any weekly in the state.

RUMORS GALORE BUT NONE ARE TRUE

REPORTED ATTEMPT UPON DR. HOPKINS' LIFE.

Reports have been flying thick and fast recently about an attempt being made upon the life of Dr. P. I. Hopkins out at the river dam but none of them seem to have foundation.

Some days since a foreigner was hurt at the dam; he came to Clanton and reported that he had been poisoned; for days he layed around town refusing to eat, stating that he was afraid of being poisoned again. Efforts were made to relieve the stricken man; offers of food and shelter were made him but he persistently refused everything.

Finally he returned to the dam, and walking into Dr. Hopkins' office with drawn pistol stated that he was going to kill him. The man was argued with till Dr. Hopkins had secured the advantage, whereupon his weapon was taken from him. It was ascertained that the man was deranged and that he was attempting to right a fancied wrong, where in reality no wrong had been done him. He was sent to the insane hospital for treatment.

CARD OF THANKS

We wish to thank our many friends for the sympathy and kindness extended us during the illness and death of Mrs. McD Ruffin, a devoted wife and affectionate sister. It has instilled into our hearts a love for the people of Clanton which we will not soon forget.

May God's richest blessings abide with you all, is our constant prayer.

McD. Ruffin,
B. H. Guinn,
H. I. Guinn,
W. H. Guinn,
Mrs. Annie Crowder,
Mrs. Nolan Stanley,
Mrs. A. C. Felton,
Miss Willie Guinn.

NOTICE

Notice is hereby given that application will be made to the Governor of Alabama for the remittance of the forfeiture against the sureties on the appearance bond of Buck Davis. Said forfeiture having been made final by a judgment of the Circuit Court of Chilton county, Alabama, on the 20th day of May, 1912.

This Sept. 10, 1913.

9-11-2t

MISS SARA WILSON

NEW MUSIC TEACHER ARRIVES.

One of the most beautiful and accomplished young ladies of whom Clanton can boast is Miss Sara Wilson of Clarksville, Tenn., the new music teacher, who arrived here Monday afternoon. Miss Wilson is a most accomplished musician; besides this she possesses that rare ability, possessed by few, to impart information and knowledge to her students. Many learned men keep their information to themselves, being unable to transmit it to others however anxious they may be to learn or however receptive their minds; it is indeed a rare accomplishment to be able to impart knowledge without appearing to force, and this accomplishment Miss Wilson possesses to an eminent degree.

She and Miss Watson will be associated in the music department of the academy, and we predict that under their able administration Clanton's musical talent will receive instructions which will place them on a plane equal, if not far superior, to that of many of our large cities.

Miss Wilson is with Mrs. Tipton Mullins, where she will be glad to have prospective pupils consult with her.

Clanton Cotton Movement and Prices

Under this head will be given the latest obtainable prices for cotton prevailing in Clanton, and also the general cotton movement of cotton here. We sincerely request all warehousemen to co-operate with us in making and keeping this report absolutely correct.

	Thursday
Good middling	12 7-8
Strict middling	12 3-4
Middling	12 5-8
Low middling	12 1-2

Old stock 16 bales; wagon and gin receipts 519; total to date 535.

The Chilton Fertilizer Company is ginning cotton at TWENTY-FIVE CENTS PER HUNDRED!! Save fifty cents on each bale by carrying your cotton to them.

Heart Disease Almost Fatal to Young Girl

"My daughter, when thirteen years old, was stricken with heart trouble. She was so bad we had to place her bed near a window so she could get her breath. One doctor said, 'Poor child, she is likely to fall dead any time.' A friend told me Dr. Miles' Heart Remedy had cured her father, so I tried it, and she began to improve. She took a great many bottles, but she is spared to me today, a fat, rosy cheeked girl. No one can imagine the confidence I have in Dr. Miles' Heart Remedy." A. R. CANON, Worth, Mo.

The unbounded confidence Mr. Canon has in Dr. Miles' Heart Remedy is shared by thousands of others who know its value from experience. Many heart disorders yield to treatment, if the treatment is right. If you are bothered with short breath, fainting spells, swelling of feet or ankles, pains about the heart and shoulder blades, palpitation, weak and hungry spells, you should begin using Dr. Miles' Heart Remedy at once. Profit by the experience of others while you may.

Dr. Miles' Heart Remedy is sold and guaranteed by all druggists.

MILES MEDICAL CO., Elkhart, Ind.

Legal Notice.

Birmingham, Ala., Sept. 1, 1913

Hon. B. L. Jones,
Sheriff Chilton County, Ala.

No United States Internal Revenue License have been issued to your (Chilton) county in the month of Sept., 1913.

I hereby certify that I have carefully examined the record of the Collector of Internal Revenue and the above is complete and correct.

Yours very truly,
SAM. P. JONES.

Sworn to and subscribed before me this 1st day of Sept., 1913.

9-4-2t J. B. Mosley, Notary Public.

Singing Convention

The Chilton County singing convention will meet in special session at Liberty Hill church, 4 miles west of Clanton, on the Third Sunday, September 21, 1913.

R. A. Smith, Secretary.
J. W. Lowery, Chm. Ex. Com.

WILLIAMS-CHAMBERS

A large number of relatives and friends had the pleasure of meeting Mr. Grady Williams and handsome bride at his father's on September sixth. A bountiful dinner was spread and everybody seemed to enjoy themselves. About six o'clock a still larger crowd gathered and ice cream and cake were served. After a late hour the jolly crowd left for their respe homes, wishing the happy much success.

LOCAL & PERSONAL

Mr. M. P. Wigington of Ensley is the guest of his neice, Mrs. C. W. Cox.

Miss Mabel Louise Jones left Monday for Lineville, where she will be engaged in teaching in the public schools of that place for the ensuing session.

Edison's Fountain Pens write so easy they almost talk. The very very best at Alred's Drug Store. See them; buy them.

Mr. Clint Jones has gone to Lineville, where he will enter school.

Diarrhoea Quickly Cured.

I was taken with diarrhoea and Mr. Marks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by Alred Drug Co.

Mr. Monroe Hayes leaves this week to re-enter the Alabama Medical College at Mobile.

WANTED—Young men and women to become Telegraph Operators. Draughon's Business College, Montgomery, Ala., can qualify you in 60 to 90 days. Positions secured for students. Write Telegraphy Dpt. for full particulars.

Miss Cora Baldwin returned to her home in Montgomery Saturday last, after a pleasant visit to her sister, Mrs. E. C. Popwell.

Now's the time for Rye, Barley and Turnip Seed planting; we have the best on the market without doubt. Alred Drug Co.

Mr. and Mrs. G. H. Denson of Boyles, spent Sunday here as the guests of the latter's parents, Mr. and Mrs. E. Hopkins.

Adenoids are a Menace to Children

Adenoids result from a succession of colds in babies and young children. They spoil the mental and physical life of a child. The condition that causes them may easily be avoided by careful parents. Quickly and thoroughly cure all colds and throat irritations by the use of Foley's Honey and Tar Compound, and adenoids will not develop. Alred Drug Co.

Mr. F. A. Gulledge of Verbena was in the city for a short while Monday afternoon.

Think of your friends up North; take one of our Kodaks and picture a pretty cotton field for them. Fine work, excellent rememberence, great pleasure. Alred Drug Co.

Mr. R. C. Middleton of Birmingham was a visitor to Clanton the early part of the week.

Despondency

often caused by indigesten and constipation, and quickly disappears when Chamberlain's Tablets are taken. For sale by Alred Drug Co.

Mr. Mack Wyatt, editor of the Union-Banner, left Saturday last for Cullman, to be present at the opening exercises of Cullman County High School.

Caught a Bad Cold

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah A. Duncan, of Tipton, Iowa. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and after one bottle stopped his cough and cured his cold completely." For sale by Alred Drug Co.

Mr. and Mrs. J. H. Middleton went up to Birmingham Monday night, returning Tuesday.

Nice School Ruler given with each purchase of School Tablets at Alred's during September. Buy one, or both.

Misses Mary Curry, Ruby Gore, and Rilla Smith left Tuesday morning for Montevallo, to enter the Alabama Girls Technical Institute.

Foley Kidney Pills cure obstinate cases of kidney and bladder trouble, rheumatism and lumbago, because they remove the cause. You can not take an honest curative medicine into your system without getting the right results. Alred Drug Co.

Prof. Howard Roper left Tuesday morning for Tuscaloosa to enter the State University, where, after completing his academic course, he will take up the study of law.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER and five or six doses will break any case, and even then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c.

Mr. H. C. Roberts of Mountain Creek was in Clanton Sunday, on a visit to his son, Mr. J. H. Roberts. Mr. Roberts is a frequent visitor to Clanton and says he is always delighted with his visits here. He returned home Monday afternoon.

The healing demulcent qualities of Foley's Honey and Tar Compound are not duplicated in any other medicine for coughs and colds. Any substitute offered you is an inferior article. Refuse to accept it for you can not produce the healing and soothing effect of Foley's Honey and Tar Compound. Insist upon the genuine, which contains no opiates. Alred Drug Co.

Mr. J. P. Gore went up to Montevallo Tuesday morning, returning in the afternoon.

Can't afford to have Kidney Trouble

No man with a family to support can afford to have kidney trouble, nor need he fear it with such a remedy at hand as Foley Kidney Pills. An honest medicine, safe and reliable, costing little but doing much good. Foley Kidney Pills eliminate backache and rheumatism, tone up the system and restore normal action of kidneys and bladder. Alred Drug Co.

Mrs. Jennie Davis and daughter, Miss Kate, leave today for an extended visit to relatives in South Alabama.

Children, we have the best line of School Tablets and Spelling Blanks you ever saw, cheap, too. See them at Alred's.

Mrs. C. I. Ellison of Chattanooga, Tenn., was called to Clanton last week on account of the illness of her brother, Mr. W. B. McDowell.

Get rid of the torments of rheumatism

That you can do by ridding yourself of the cause. Weak and inactive kidneys allow uric acid poisons to remain in the blood and rheumatic pains swollen and aching joints follow. Take Foley Kidney Pills to ease you of the pain and torment. They will positively and permanently build up the kidneys, restore their normal action and keep the uric acid crystals out of th e blood and body. Try them. Alred Drug Co.

Mr. Guy Roberts has been confined to his room for the past few days with a severe cold. He is reported as much improved, however.

FOR SALE.—Nice Hamilton piano in first-class condition. Cheap for cash if taken at once. For information call on G. C. Headley.

Mr. W. B. McDowell is very sick at the home of his brother, Mr. C. C. McDowell.

Maplesville Millinery Company's Fall Opening Friday and Saturday, Sept. 19 and 20. A souvenir given with each purchase. Opposite Post Office.

Mr. S B. Kent, traveling salesman for Geo. Manegold, Montgomery, Ala., was in Clanton Saturday, and sold to MacArthur Bros. $150.00 worth of cakes and crackers (Sunshine line) manufactured by Loose-Wiles Biscuit Co., St. Louis.

Facing a Serious Proposition

The man or woman who has kidney trouble is facing a serious proposition, where grave complications readily follow neglect. Foley Kidney Pills are an honest curative medicine that once taken into your system mean restored kidney and bladder action, and a return of health and strength. Alred Drug Co.

Mr. W. L. McDowell of Chattanooga, is in Clanton again shaking hand with old time friends. He is looking good.

WOULD YOU GIVE FIVE CENTS FOR A TWO DOLLAR BILL?. Two ounces of turnip seed contain ninety-three thousand four hundred seeds: they will bring forth that many turnips. You can get two ounces of RUTA-BAGA, WHITE GLOBE, FLAT DUTCH or COW-HORN SEED for FIVE CENTS AT VANDERVEER'S DRUG STORE. Buy today and sell for the early market. There's money in it. Remember, just two and a half cents per ounce. At VANDERVEER'S DRUG STORE.

Dr. Arthur Johnson is receiving the congratulations of his numerous friends upon the arrival at his home of a bouncing baby boy. One observing the extra pleasing look upon his smiling countenance would readily surmise that something extremely pleasing had come into his life.

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. We are willing to personally guarantee this and to return your money without argument if your complexion is not fully restored to its natural beauty. WILSON'S FRECKLE CREAM is fine, fragrant and absolutely harmless. Will not make hair grow but will positively remove TAN, PIMPLES and FRECKLES. Come in today and try it. The jars are large and results absolutely certain. Sent by mail if desired. Price 50c. Mammoth jars $1.00. WILSON'S FAIR SKIN SOAP 25c. For sale by

Alred Drug Company.

Master Samuel Upchurch has been suffering more or less for the past several days with nasal diphtheria. Every precaution is being taken to prevent the spread of the disease, which is quite unlikely as persons seldom, if ever, contract it from patients suffering with nasal diphtheria.

Mother of Eighteen Children

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablet's Tablets are for sale by Alred Drug Co.

When Will the Confederate Soldier Be Forgotten?

"When the lion eats grass like an ox,
And the galinipper swallows the whale
When the terrapins knit woollen socks
And the hare is outrun by the snail.

When serpents walk upright like men,
And doodle bugs travel like frogs,
When grasshoppers feed on the hen
And feathers are found on the hogs.

When thomas cats swim in the air
And elephants roost upon trees,
When insects in summer are rare
And snuff never makes people sneeze.

When fish creep over dry land
And mules on bicycles ride,
When foxes lay eggs in the sand
And women in dress take no pride;

When Dutchmen no longer drink beer,
And girls get to preaching on time,
When billy goats but from the rear
And treason is no longer a crime.

When the humming bird brays like an ass
And limberger smells like cologne,
When plow shares are made of glass
And the hearts of Alabamians are stone.

When ideas grow in gold-bugs heads
And wool on the hydraulic ram,
When the Confederate soldier will be dead
And the country won't be worth a d—m—

I cut this from a paper several years ago, and several have asked me for a copy, thinking you would publish it is why I hand it to you.

Respectfully,
W. F. Claughton.

Oh my! JUST LOOK, LADIES! isn't this great? Almost too good to be true. Every lady making as much as a FIFTY CENT Cash purchase at the VANDERVEER DRUG COMPANY on Fridays, till further notice, will be presented with a nice twenty-five cent box of FACE POWDER or TALCUM POWDER as she may elect. On Fridays spend Fifty Cents with us and get half of it back! How fair, how profitable, how convenient!

If excitement brings on a headache, stop it with Dr. Miles' Anti-Pain Pills.

FOR SALE CHEAP.—Fourteen oxen, two dray chains, grabs and cant hooks; all ready for work. If you wish to buy, it will pay you to see me.

FOLEY KIDNEY P... KIDNEYS AND B...

Thomasville Manager to Wed in October.

Thomasville, Ga., Sept. 6.—At the banquet given last night to the members of the Thomasville team, a telegram was received from Manager Martin Dudley at Valdosta announcing his engagement to Miss Mary Bondurant, of that city. Miss Bondurant belongs to one of Valdosta's most prominent families, being the daughter of Mr. and Mrs. Charles Bondurant, and since her debut has been a popular member of society.

Mr. Dudley is a native of Alabama but makes his home in Greenwood, Miss., where he is in the cotton business He is a young man of culture and high character and made many friends during his stay here. The marriage will take place October 10.—Atlanta Constitution.

Mr. Martin Dudley, the fortunate young groom-to-be, is a brother of our efficient postmaster, Mr. F. O. Dudley, and is known to most all of the old time residents of Clanton, who will be glad to hear of the young man's good fortune.

If your liver is out of sorts set it right with Dr. Miles' Laxative Tablets.

Bring me your COTTON SEED if you want the highest price. See me at Wiley Littlejohn's store.

R. W. TAYLOR.

Will pay you for your trouble and pay more for your COTTON SEED. Seed house at B. E. Jones & Bro. Warehouse.

R. W. TAYLOR.

CUPID ON THE ALERT

The following marriage licenses have been issued this week:

Mr. J. H. Rogers to Miss Lillie Durbin,

CLANTON - ALABAMA

COUNTY HEALTH OFFICER'S REPORT

To the Honorable Probate Judge and Commissioners of Chilton County:

Gentlemen:—I beg to submit my report for the month of August. As required by law, I inspected the county jail and found it to be undergoing repairs. I have no recommendations to make.

I visited the poor house and found same to be in good condition, otherwise than in need of screening, which I recommend should be done immediately.

All the doctors in the county, who are in active practice, have reported births and deaths except the following: Dr. W. E. Kay, Maplesville, Ala., and Dr. John L. Kincaid, Jemison, Ala.

The vital statistics are as follows:

Births: White, 53; Colored 7; Total 60.

Deaths: White, 15; Colored, 3; Total 18.

The following cases of infectious diseases were reported, and have been properly looked after: Six cases of typhoid and two cases of diphtheria.

Respectfully,
V. J. GRAGG, M. D.,
County Health Officer.

VERY LOW RAILROAD RATES

SMALL INCREASE IN TOP COTTON CROP

CORN, SUGAR CANE, POTATOES AND OTHER PRODUCTS BENEFITED BY LATE RAINS.

CROP BEING MARKETED FAST

Exceptionally High Price and Good Truck Market Seem to Be Hope of Farmer.

Montgomery. — Coming nearly a month late as they did, the showers that fell on Alabama soil during the past week served to remind the farmers of what might have been. Other than this the rains did little more than add a small increase in the top crop, and bring more visions of a bumper crop of the early summer which vanished during a continued drouth.

The rains were just too late, and even when they did come they were so hard in some of the places that picking was halted and many of the parched plants beaten down. True, the bottom lands were benefited to some extent, and the plant given necessary moisture for a long staple, but reports from the different sections have lost little of their pessimism by this little change. The farmers only hope seems to be for higher price for the short production.

Corn, sugar cane, potatoes and other such products were benefited by the rains, and some of he counties are expecting a large crop of these. These "hog and hominy" products, while a great help to the farmers, are not considered beneficial to a large extent for the farmers fail to diversify sufficiently regardless of suggestions of experts.

Late rains that have been of some benefit to the crops have been reported in DeKalb, Etowah, Baldwin, Barbour, Houston, Lowndes, Cleburne, Coffee, Coosa, Pike, Russell, Montgomery, Sumter and Hale counties. Excellent conditions are reported in Hale, Cleburne and Houson counties and Cleburne County's crop is already practically assured.

These good reports, however, are little in comparison with those coming from counties less fortunate. In the majority of them the drouth still prevails and bolls and leaves are shedding and the staple is short for lack of moisture, while in others the recent rains have been of such a nature as to damage the crop instead of benefit it.

The drouth has not been broken in Cherokee, DeKalb, Franklin, Bibb, Colbert, Lauderdale, Madison and Crenshaw counties. Lauderdale's crop is reported as seventy per cent off while in Bibb the correspondent says, "the drouth has finished burning the crop." Damaging rains coming too late for good and too hard for the parched cotton have fallen during the week in Dallas, Autauga, Tallapoosa and Wilcox counties.

The crop that is already made is being picked, ginned and marketed rapidly over the State. The staple is being rapidly placed upon the market in Geneva, Autauga, Chambers, Heflin, Macon, Lowndes, Colbert, Barbour and DeKalb counties and other sections. From all appearances the crop that has already been made will soon be placed upon the market and off the farmers' hands.

An exceptionally high price, a good truck market and plenty of "hog and hominy" for the winter seems to be the brightest, and possibly the only hope of the farmers of this State who depend upon their farm for a living.

Officials of Y. M. C. A. Meet.

Montgomery.—Employed officials of the Young Men's Christian Association of Alabama met in their first annual conference in Montgomery September 10 and will continue in session for three days. While there were only a small number of delegates present the meeting was one of much importance to the state. The public meeting of the conference on September 10 was held in connection with the prayer service at the First Presbyterian church.

Teachers' Institutes.

Montgomery.—Teachers' Institutes are being held during the week of September 8 as follows: Jefferson, Birmingham, Talladega, and Franklin, Russellville. The Jefferson county negro institute will be held at Birmingham. At the institute in Birmingham there will be almost 1,000 teachers present. Both the white and negro institutes are divided into two parts—city and rural. Local workers have charge of the Jefferson county program.

Bankers to Fight Weevil.

Montgomery.—To wage a determined, organized fight against the boll weevil and to assist the farmers during the stringent period that is expected to exist when the insect begins ravages in earnest in Alabama, was the keynote of the meeting of the three principal committees of the Alabama Bankers' Association held in Montgomery. The executive council, agricultural committee and legislative committee met in joint session to further agricultural interests of the state.

PURGING PENSION ROLLS.

Special Master Ferguson Lopping Off Ineligibles.

Montgomery. — Gen. Fred S. Ferguson, special master for the state pension board, issued citations to 44 pensioners of Barbour, requiring them to appear before him and show cause why their names should not be dropped from the pension rolls of the state. Thirty-two Confederate pensioners from Autauga county and 18 from Baldwin were also cited to appear before General Ferguson. These pensioners will be given 20 days' notice.

Barbour is the third county that has been reached by General Ferguson in the special investigation of the pension rolls which he is conducting. The special master was appointed by the state board of pension examiners several weeks ago.

The pensioners cited to appear before General Ferguson have had numerous charges brought against them, ranging from desertion from the Confederate army to owning more than $2,000 worth of property.

All pensioners charged with ineligibility are given 20 days' notice in which to appear and make their defense. According to the ruling of the pension board, they may either appear in person or by counsel.

It is expected that General Ferguson will be engaged in investigating the pension rolls of the state for several months, as the task is both arduous and tedious.

General Ferguson receives reports on the various counties from Examiner of Public Accounts H. Y. Brooke, who has been in Washington since May 1, making an examination of the Confederate pension records in the Congressional library. Up to the present time Mr. Brooke has submitted reports to General Ferguson on 12 counties of the state, and he has 55 more counties to investigate.

According to Mr. Brooke, the record of some of the pensions on the state rolls is appalling. He has collected direct proof to the effect that many of the pensioners not only deserted from the Confederate army, but that they also enlisted with the Federal side. Other pensioners, he found, never served in the army. Mr. Brooke has 18,000 names to investigate, and he declares he will be occupied in this state for several months.

In an interview in reference to his work at Washington, among other things, Mr. Brooke said:

"I have completed the examination of practically 14 counties. I have reported on the following 12: Autauga, Baldwin, Barbour, Bibb, Blount, Bullock, Butler, Calhoun, Walker, Washington, Wilcox and Winston. I have about completed in addition, Chambers and Cherokee. In all I have found practically the same number of those who deserted, who did not go to war, or who for other dishonorable reasons are not entitled to pensions from the state government. The remainder of the work will require practically a year. I dispose of a county a week.

"Based on the results up to the present time, I am confident that when all the returns are in, 4000 names will be lopped from the Alabama rolls, and that the expenditure of the state will be decreased about $220,000 per annum."

J. LEE LONG RESIGNS.

Leaves Service of Tax Commission to Reside in Birmingham.

Montgomery.—Confirming the rumor that has been current in official circles for several weeks, J. Lee Long resigned as chairman of the state tax commission September 10. Mr. Long will enter the real estate business in Birmingham.

Governor O'Neal heard of Mr. Long's resignation shortly after he received news that Judge C. C. Nesmith of the Birmingham city court would resign his judicial position October 1, and he immediately announced that he would receive no applications for either of these positions until after the formal resignations had been placed in his hands.

The governor also announced that he would receive no delegations in behalf of any applicant for either office unless notice of such a visit is furnished him one day in advance. He indicated very clearly that he does not wish to be worried by office hunters; that he will give every applicant proper consideration, and that no delegation need visit him without first notifying him of their purpose.

Circuit Court Convenes.

Montgomery. — Judge John B. Fuller, clerk of the circuit court is engaged in making up the venire for the September term of the circuit court, which will begin here September 15. The first week of the term will be occupied with non-jury cases, which Judge W. W. Pearson, presiding and the following two weeks will be for disposition of jury cases. A number of damage suits, many of them large ones against different corporations will be called during the term.

Alabama Farmers to Land Congress

Birmingham. — The farmers of Alabama will be asked to participate in the proceedings of the Alabama Land Congress, which meets in this city the first week in November next. As the subjects that will be discussed before the land congress are all pertinent to the work of the farmers, or relate directly or indirectly to agricultural matters, it has been determined by the management of the land congress, with the aid of the Birmingham Chamber of Commerce, to bring as many farmers to this meeting as possible.

HOT SPRINGS, ARK., SWEPT BY FLAMES

THIRTY BLOCKS BURNED TO ASHES BY FIERCE CONFLAGRATION.

MILLIONS OF DOLLARS LOST

Famous Hotels, City Water and Supply Plants All Destroyed—The Flames Burn Themselves Out.

Hot Springs, Ark.—Fire, which started in a negro's cabin at the foot of West Mountain, the southern extremity of Hot Springs, reduced to a smouldering mass of wreckage an area more than a mile in length and from seven to ten blocks wide in the eastern section of the city. An accurate statement of the monetary loss is not possible, but is roughly estimated at ten million dollars.

Governor Hayes arrived in Hot Springs and will order a military patrol of the burning district. United States troops are also expected from Little Rock to add to the guard on the military reservation.

In the path of the flames were manufacturing establishments, hotels, a number of the more pretentious residences and public buildings. All were destroyed. It is estimated that two thousand persons are homeless.

But few of those whose homes were burned saved any of their belongings, and guests of the hotels gave little heed to their valuables and luggage in their efforts to escape with their lives.

A police patrol of 250 men were sworn in to patrol the fire swept district. All the homeless have been cared for temporarily and plans have been started to systematize the work of succor. Many offers of assistance in fire-fighting aparatus, financial aid, food and clothing have been received, but it is believed that outiside aid will not be needed.

Business was pratically suspended except that necessary to provide for the immediate wants of those who suffered the loss of their homes. The lack of light and power prevented the operation of the street car system, the publication of newspapers and other industries depending on motive power from the city's plant.

General Manager Dillon of the public utilities commission states that a temporary light and power service will be established within thirty days and in three months the utilities will be working to their capacity again. The natural gas supply was not interfered with.

The fire originated in a negro dwelling on Church street, near Malvern avenue, just east of the Army and Navy hospital, and spread quickly to the south and east. A number of small dwellings, dry as tinder, as a result of an extended drouth, were easy prey for the flames, which within a few minutes were beyond control of the local fire department.

U. S. IS WAITING ON INCLAN

Disposition to Receive Envoy Favorably—May Want to Float Loan.

Washington.—Developments in the Mexican situation probably will await the arrival in Washington of Manuel De Zamacona y Incian, personal envoy of the Huerta government, to continue with the Washington administration the negotiations begun by John Lind, personal representative of President Wilson in Mexico.

Administration officials have not decided whether they would receive Senor De Zamacona unless he brought positive assurances of Huerta's elimination from the presidential election in Mexico and was ready to act upon the other points in the American proposals for the establishment of peace.

Senor De Zamacona's chief connection with the Mexican government in the past has been in financial matters and his mission is said to contemplate not only the furtherance of the negotiations looking toward peace, but the floating of a loan that would be encouraged by the American government. He has managed Mexico's financial affairs in Europe heretofore and during his stay here as ambassador to the United States in 1911 became widely known and popular with diplomatic corps.

Bandits Make Rich Haul.

Columbia, S. C.—Three men, each armed with two revolvers, held up two employees of the J. G. White Construction company and a deputy sheriff at Parr Shoals, twenty miles from here, and took from them $16,000 in currency which had been intended to meet the pay roll of the company, which is building a huge power dam there. Seven hundred employees of the company, together with the sheriffs and deputies of four counties with bloodhounds, are hunting for the robbers.

Banker Wanted for Big Defalcation.

Washington.—Defalcation of $130,000 in the State National Bank of Fort Worth, Texas, was reported to Thomas P. Kane, acting comptroller of the currency by National Bank Examiner Van Zandt. The shortage will not affect the solvency of the bank. The bank examiner reported that the whereabouts of Vice President M. L. Woode was unknown. Comptroller Kane ordered that the facts be reported to the United States attorney at Fort Worth. The bank's surplus and profits amounted to $232,000.

FRANKLIN BROCKSON

Franklin Brockson, the new Democratic congressman from Delaware, is the only representative of his state in the lower house of congress. The population of the state is only about 200,000.

26 PERSONS ARE KILLED

WHITE MOUNTAIN EXPRESS, GOING 40 MILES AN HOUR, STRIKES TRAIN.

Many Prominent Persons Are Among Victims Who Were Returning From Maine.

New Haven, Conn.—Twenty-six persons were killed and nearly fifty injured, some of whom may die, in a rear-end collision shortly before seven o'clock in the morning on the New York, New Haven and Hartford railroad, six miles north of here.

The first section of the White Mountain Express bound for New York, speeding along at probably forty miles an hour, in a thick fog, rushed by a danger signal, it is said, and crashed into the rear of the second section of the Bar Harbor express, standing 100 feet beyond the block signal.

The White Mountain engine cleaved through the two rear Pullman cars, both of wood, splitting them in two and tossing their wreckage and three score of mangled human beings, some alive, some dead, on either side of the track.

The third car, also of wood and occupied by forty boys on their way from a summer camp at Monmouth, Maine, was lifted into the air and fell on its side crumpled up and crushing two of the boys to death and injuring others.

DENOUNCE CROP DEPOSITS

Alleged That Treasury Plan Will Benefit Speculators, Not Producers.

Salina, Kan.—The plan of the treasury department for placing money in various banks to aid in moving crops was criticised severely at the national convention of the Farmers' Union and the conevntion adopted a report of the legislative committee which declared "it could not see a single benefit in the crop aid plan."

The report declared the result of the plan would be that money would not be loaned to the farmer to enable him to market his crop gradually to meet demands of trade, but "would put more money into the hands of speculators to buy crops from farmers forced to sell because they could not get money."

The administration currency bill also was criticised on the ground that it would force farmers to sell at harvest time and that speculation would follow.

A resolution urging a national marketing bureau was adopted.

Speakers at the convention said the amount of money the treasury department is to place in the various banks over the coutnry to aid in the moving of crops should be increased to $200,000,000 under conditions requiring the central banks to loan the money to their correspondent banks in the rural sections at 4 per cent. interest and rural banks to charge their customers 6 per cent. for loans.

Confidence Men Rob Wealthy Men.

Terre Haute, Ind.—With the arrest here of George Reed, John Collins and Hugh McGinnis of Indianapolis, on complaint of Cary Shaw, president of the Second National bank, of Houston, Texas, the police declare they have ended the operations of a gang that in the last year has swindled wealthy men out of nearly a quarter of a million dollars. The work of the gang, the officials say, closely resembled that of the Mabray swindle syndicate, and included fake prize fights. Mr. Shaw lost $7,500.

Brothers Fight and Go Insane.

Knoxville, Tenn.—Matthew and Luke Duncan, brothers of Frost Bottom, in Anderson county, Tennessee, preachers of the Baptist persuasion, fought and went insane over an argument about the Bible. This occurred after they had fought, both took to the woods. Matthew was captured and taken to Oliver Springs. He fought savagely when taken, knocking several men down before being overpowered. During the night at Oliver Springs he was lashed to a post for safe-keeping. His brother Luke is still at large.

Dr. W. B. Caldwell's
SYRUP PEPSIN
AND
Herb Laxative Compound

The Great Digestive Preparation, the Most Pleasant and Effective Remedy Known, Acting Gently, yet Promptly, on the

Stomach, Liver and Bowels

Cleansing the System, Aiding Digestion, Permanently Relieving Dyspepsia and Habitual Constipation; Dispelling Headaches, Biliousness and Sour Stomach, and Preventing Many Ills Caused From Bad Digestion, Torpid Liver and Sluggish Bowels.

WASHINGTON CITY SIDELIGHTS

Statistics Show Passing of Horse a Motor Myth

WASHINGTON.—Here is something that will surprise you.

In spite of the tremendous growth of mechanically propelled vehicles, the "horseless age" which has so often been heralded as just about to arrive is not in the offing, apparently it is not even "en route;" today there are more horses in the United States than there have been since the time when the mind of the census man runneth not to the contrary.

And not only this, but horses today have a far greater value than they had a dozen or more years ago, when the first workable "horseless carriage" raised its crude nose over the horizon and threatened to sweep all horsedom into the discard.

Furthermore, those poor relations of the horse—the mules, the asses, and the burros—have also increased in number and in value.

In short, all our old-fashioned four-footed means of traction can kick their heels for joy and neigh or bray, each after his own fashion. Though horseless carriages, horseless wagons, horseless plows, horseless reapers, horseless whatnots are in our industrial midst in surprising numbers, still our old, time-honored friends—the horse, the mule, the ass, and the burro—loom larger than they ever have before in our national life.

Let us consider these facts which have been extracted from a recent number of the Crop Reporter, that publication of much esoteric interest, issued "by authority of the secretary of agriculture:" On January 1, 1913, the total number of horses on farms and ranges in the United States was 20,567,000, valued at $110.77 per head, with an aggregate value of $2,278,222,000. Compared with January 1, 1912, horses had increased 58,000; mules increased 24,000; milch cows decreased 202,000; other cattle decreased 1,230,000; sheep decreased 880,000; swine decreased 4,232,000.

Without pausing here to discuss what bearing this decrease during the year 1912, in the numbers of cattle, sheep, and swine, may have on the future of these useful quadrupeds, we will just say that so far as is indicated by those impartial records—the United States census reports—neither the horse, the mule, the ass, nor the burro has ever suffered any such setback.

Washington Furnishes Prize Summer Fish Story

FISH stories may go and fish stories may come, but the piscatorial yarn related by Capt. Charles H. Thompson, a sea-beaten mariner of Miami, Fla., makes all others appear like a busher league alongside of Ty Cobb. The fish was right in the midst of Washington for more than five months while a Washingtonian, J. S. Warmouth, mounted it.

As Captain Thompson, in company with W. I. Brooks and a Norwegian sailor, were cruising off the coast of Miami, Fla., on June 1, 1912, there came into sight a huge monster, the like of which man never before had laid eyes upon. A mighty struggle for supremacy ensued and man was declared the victor.

Five harpoons and 151 bullets were required to subdue the monster, and it took five days to kill it. Before it was under control it smashed a boat into thousands of pieces and knocked the rudder and propeller off a 31-ton yacht. The crew was towed around the ocean for 39 hours by the monster at a speed of about 45 miles an hour. When it was finally brought into shore more than 5,000 people were on the steamship ways at Miami. City officials, judges, ministers, the chief of police, bankers, and the greater part of the population of Miami will vouch for the story, according to the captain.

Attempts to classify it have been made in the Smithsonian institution, but so far all have proved futile. It weighs 30,000 pounds, is 45 feet long, 23 feet 9 inches in circumference, 8 feet 3 inches in diameter; has a mouth 38 inches wide and 43 inches deep, and a tongue 40 inches long. It has several thousand teeth. An animal weighing 1,500 pounds was taken from its stomach. Its liver tipped the beam at 1,700 pounds.

The monster had all the characteristics of both fish and animal, contrary to all laws of natural history. Its tail measures 10 feet from tip to tip. A pectoral fin is 8 feet long and 3 feet wide, and a dorsal fin 3 feet long and 2 feet 9 inches wide. Its hide is 3 inches thick and has no scales, resembling that of an elephant's coat.

Washington City's Only Democratic Newspaper

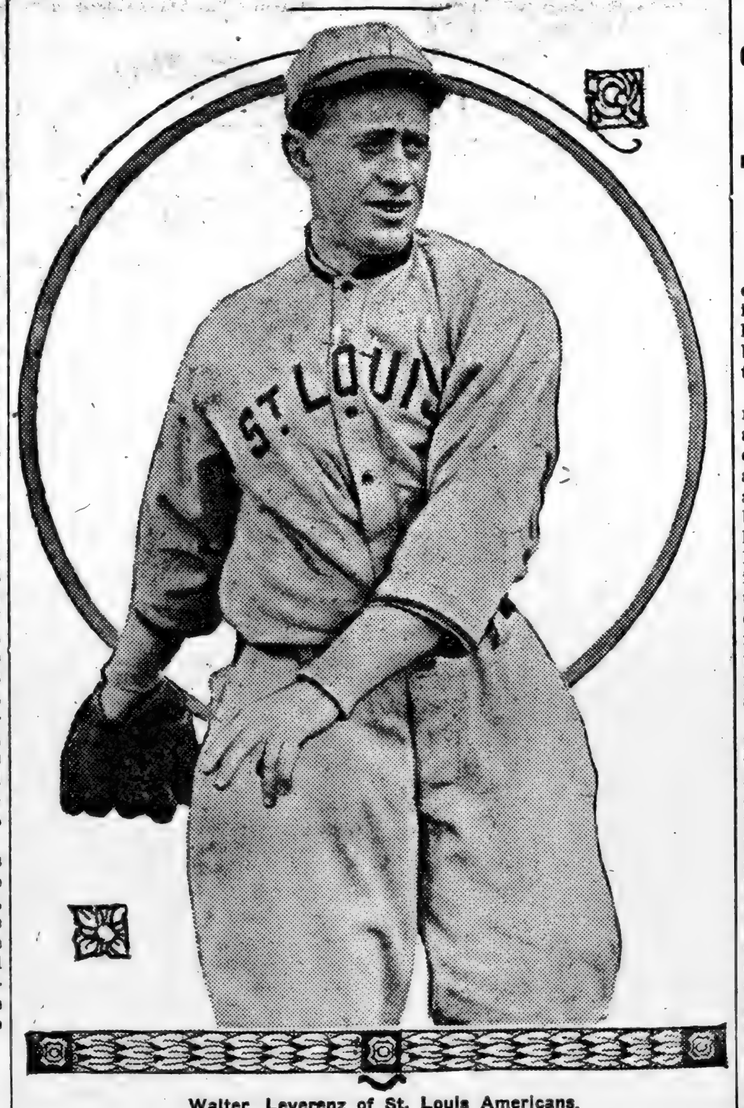
WITH the Democratic party in full control the only Democratic newspaper in Washington consists of a single sheet pasted three times a day on the walls and windows of cigar stores, cafes, hotel lobbies and other places where men congregate.

Although the Bulletin is little known outside of Washington except among newspaper men, it is a unique and successful newspaper. Established in 1904, it has grown in news gathering efficiency and prosperity until its publishers now assert that its 600 copies are read by not fewer than 75,000 persons. While most newspaper publishers seek to interest women, because women read advertisements as well as news, these publishers address themselves almost exclusively to the interests of men.

Mr. Dwyer, the editor, dreamed of the Bulletin 20 years ago when he saw his copy blue pencilled by the press associations. He yearned for an untrammelled medium for the expression of his views without the intervention of copy readers or editors. The result was the Bulletin, a single sheet newspaper, 22x25 inches in size, printed three times a day—at noon, at three o'clock in the afternoon, and at seven o'clock in the evening. Bicycle messengers distribute it to the subscribers.

You can see it in almost any public place. The page is filled with about 800 words of news. This is "fringed" with a prosperous array of advertisements, mostly of amusements, liquors, cigars, men's wear and resorts. The evening edition carries a story of the local baseball game and the major league results. The noon and afternoon editions carry no baseball news except the standing of the American league clubs.

Secretary of State Bryan Is an Early Riser



SECRETARY OF STATE BRYAN is an early riser. Moreover, he not only rises early, but he goes out early. He mounts his saddle horse many mornings at six o'clock, and even earlier, and hies himself out to the cool lanes and shady bypaths of Rock Creek, Soldiers' home and environs for a brisk canter in the delicious coolness of the day before the sun takes off the dew and gets in its scorching work. Punctuality being one of his virtues, the secretary is always back for breakfast.

On his way home, whether alone or in company with some boon companion, the secretary's fancy often turns lightly to radish—white radishes, not the little red variety, but the large, crisp white ones. Sometimes he stops at one of the nearby markets to get a supply of those favorites of his. More often he pulls his horse up beside a passing huckster wagon; indeed, he seldom passes one of these vegetable carts without hailing the truck-vender with the query: "Any white radishes this morning?"

If there happen to be radishes on that particular wagon, the premier of the nation loses no time in argument, but speedily effects a purchase.

Recently one of the political sages of the capital city happened along while Mr. Bryan was investing in this little appetizer, and he has since been busy evolving a theory as to the part the humble little vegetable has played in the career of the great commoner. While he is not ready to give his solution to the public, he says that a fondness for radishes may not be an indication of political success and preferment.

BROWN'S SENSATIONAL SOUTHPAW TWIRLER

Walter Leverenz of St. Louis Americans.

His name is reminiscent af the French; he looks like an Irishman and his father and mother, natives of Germany, emigrated to America and settled in Chicago when that place was almost a village.

He's Walter Leverenz, the southpaw, and one of the classy bunch of young twirlers who will make of the St. Louis Americans a great team in a few years.

Leverenz joined the Browns at Waco last spring, coming from Los Angeles of the Pacific Coast league.

It was up in Chicago that he learned to play ball—on the lots—and he's strong for the lots as a training place for ballplayers.

"You've got to get out and hustle; you pick up what you can; you mix with every kind of players, good, bad, and worse, and that's where you get the experience also," declares Walter. "Of course, there are good players who come from the colleges, but they are not self-taught like the lot boys. The college boy has some one to teach him to play ball, some one to look after him, some one to show him how and when to play. And then he plays against the same sort of men taught by others. It's different on the lots. There it's a question of the survival of the fittest, and that's a rule that goes and goes hard. The lot player doesn't get any coddling. Those that survive usually know how to play ball.

"I've been playing ball as far back as I can remember. When I was a kid at school I helped my father in his blacksmith shop in Chicago, and you can bet I put in some hard licks of work there. It gave me lots of strength, too, and I don't regret my work there. I learned the blacksmith trade, but I found time to play ball. Who doesn't if he really wants to play?"

Walter organized the first regular lot team he played on and he was the manager, captain, pitcher, and lead-off batter, which was some job.

Leverenz broke into organized baseball up in Hartford, Conn., and in 1909 helped the Hartford team win the only pennant the town had ever landed.

YOUNG STAR OF THE GIANTS

Outfielder George Burns, Graduate of Utica Team, Is Making Good in the Big League.

No young player in the major leagues has attracted more attention this season by the good showing he has made than George Burns, the young outfielder of the New York Giants. The New York critics have been loud in their praises of this sterling young player and he has become a big favorite with the crowds that attend the games at the Polo grounds. Burns won out for a regular

George Burns.

berth in the outfield of the Giants against Josh Devore, an acknowledged high-class outfield artist and good batsman, who has filled the roll of left fielder on the team for several seasons and who played in the world's series last year. This was a big feather in the cap of young Burns and he has demonstrated since that McGraw made no mistake when he assigned him to the left field post.

Burns hails from the New York State league, an organization that has given to the big leagues some of its best players. He is twenty-two years of age and was born in Utica. His family removed to St. Johnsville, N. Y., when George was a youngster, and there he makes his home now, following the trade of a cigarmaker in the off season. He comes naturally by his ball playing ability, as his father before him was a clever baseball artist. George broke into the game as an amateur when sixteen years old.

NOTES of the DIAMOND

Frank Chance calls George Dauss, the young Detroit hurler, "the league's best prospect."

* * *

Carl Cushion, whose arm has been useless to the Senators all season, may be developed into an outfielder.

* * *

The Cincinnati Reds are after Pitcher Casey Hageman and Second Baseman Hank Butcher of the Denver club.

* * *

Manager Huggins is looking for a clean-up hitter. Hug says he is without a player who can send in the needed runs.

* * *

Clark Griffith says he has the best defensive infield in the American league in Gandil, Morgan, McBride and Foster.

* * *

Baker, Barry, Collins and McInnis, Connie Mack's peerless quartet, are batting for a combined average of .310. Are they worth $100,000.

* * *

"Doc" Crandall, who is regarded as one of the best pitchers in the business to stop a batting rally, has lost his ability to go the full route successfully.

* * *

A well known statistician has uncovered the fact that the last triple play in the National league was performed back in 1878 by Paul Hines of the Providence team.

* * *

The Becker-Luderus-Cravath combination is the greatest home-run trio ever gathered on one team. Only on rare occasions does one of them fail to conect with a homer.

* * *

Poor fielding by the outfield is said to be one of the chief weaknesses of the Boston Braves. The other gardeners, however, form a large part of the team's batting strength.

* * *

Pitcher Adams of Pittsburgh has been troubled on hot days this year, feeling dizziness after pitching a few innings on extremely torrid days, so that he has to quit the box to avoid sunstroke.

* * *

Heine Groh is having lots of chances at second base for the Reds and accepting a very large proportion of them in first-class style. In Cincinnati he is regarded as the coming second baseman.

MAKE BASEBALL STARS

Of Utmost Importance to Know Your Side Partner.

Important Business Requisite Has Come to Be Material Factor in Baseball—Lends Polish to Team Work of Club.

"Know your man." Business men consider that an important requisite in the handling of their employes. It has come to be a prominent factor in baseball—one that lends polish to the team work of a club.

Individually players on teams in the major league ranks may be regarded as experts in fielding the ball, but often these experts are made by the assistance of some one player. Again, a man is unable to show his true value because the player alongside of whom he is stationed is not a finished artist. But if a man knows his side partner, is thoroughly acquainted with his traits and peculiarities in fielding, he can do himself justice although his mate it not a clever fielder. Knowing the man with whom they work has made many players look like stars, although they were not.

When Joe Tinker and Johnny Evers played together on the Chicago Cub team they were regarded as the greatest pair of infielders ever paired at second base. This reputation has not been taken from them since they have been separated, but they commanded more attention when together. It was because they knew each other and were thoroughly familiar with each other's actions. They played together one year without speaking to each other on or off the ball field. Yet in that season they pulled off some of the greatest baseball feats seen in the National league, only because each knew what to expect from the other when he received the ball. They were not aware of how important it was to be familiar with each move of the player alongsile of them until they were parted. They more than know it now.

"Know your man, I have heard applied in business, but it is just as important in baseball," said Manager Evers of the Cubs. "One who is not on the field may not think so, but I know more than ever since Tinker went away. There is no question that he made me a great second baseman, and I did the same for him. It was just because we knew each other thoroughly. There was not a ball hit around second bag that we did not know which one would take it. It was seldom we became confused.

"I could run over to second base, close my eyes and take a toss from Tinker because I knew just where he was going to throw it. When he went after certain ground balls I knew exactly what he was going to do, and when I went after them he knew what to expect. When there was a runner on first we had our signals arranged so that we knew just what to do."

BLACKBURNE TO 'COME BACK'

Former White Sox Shortstop Has Made Good in Milwaukee and Comiskey May Recall Him.

In mentioning baseball "beauties" of other years, it is in order to recall that Russell Blackburne, for whom President Comiskey of the White Sox

"Lena" Blackburne.

paid a fabulous sum and who was rated a prize lemon, is making good with the Milwaukee team. Blackburne, like Marquard, threatens to come back and pay dividends on the original big investment made in him when he broke into the big set. He is said to be the biggest individual cog on the Brewer team. Blackburne is said to be playing as good ball as that which made him so much sought when he was the star of the Providence team under Hugh Duffy. President Comiskey has strings on Blackburne, and may decide to try him again.

Japs Ardent Fans.

Count Okuma, a veteran statesman; Baron Sakatani, mayor of Tokio, and others equally prominent, are rabid baseball fans. Baseball is an old game in Japan, despite the fact that many here don't think so. It was played as early as 1885, being introduced by Yankees in the government employ at that time.

Pitching Marvel.

Crow Skin, a seventeen-year-old Indian lad in the Standing Rock reservation, is a pitching phenom. In a recent game against a South Dakota town he struck out 25 batters.

AN APPEAL TO THE PEOPLE

(Continued From Page One)

its officers are permitted to take these large sums of money, acquired by freight and passenger taxes on the people, and use the same, not for the betterment of its roads, or for the payment of interest on its bonded indebtedness and dividends to its stockholders, but for the purpose of debauching and bribing the people in elections.

River Improvement Made Useless.

The selfish and arbitrary conduct of the Louisville & Nashville Railroad and other common carriers in refusing to allow our rivers and harbors to participate as carriers of freight, has rendered worthless the millions of dollars obtained from the National Government by our members of Congress and which has been expended in Alabama for the purpose of making the channels in these waterways navigable.

The Tennessee River, carrying more water than the Cumberland and Ohio rivers combined, and running through all of our Northern counties, crossed or touched in many places by the railroads, improved at a cost to the Federal government of eight million dollars, is denied every right of carrier co-operation and service.

The Tombigbee and Warrior Rivers, with navigation made possible by many millions of government money, the Alabama, the Mobile, even Mobile Harbor itself, all are hog-tied as to carrier service, by a combination of railroad interests, unbelievable in its open, bullying, destructive methods.

Shall These Millions Be Wasted?

If these arteries of water traffic are to be continued to be "bottled up" then their vast amounts of money expended on them is a pure waste and had better have been placed on the public highways. A thousand times better would it have been for our Representatives in Congress to have secured a like appropriation for post roads, for on these at least, there would have been no railroad embargo, no exposure showing how competitive boats have been stifled and competitive barges prohibited.

Call for a Remedy.

No people have so tamely submitted to such suppression of the usufruct of such unmeasured natural advantages improved at great cost and we call upon our Representatives in Congress to render us further aid in an effort to secure the permanent release of our rivers and harbors from this railroad embargo. And we call upon the people of Alabama to show in this campaign their emphatic refusal to permit the Government of Alabama to revert to the control of its old-time master, the L. & N. Railroad Company, a corporation of Kentucky, and its satellites in the realm of special privilege.

Extracts From Sworn Testimony.

Below will be found some of the letters attached to the said testimony of the Louisville & Nashville Railroad Company in said libel case:

The reproduction of all that the Court records show in said case concerning the pernicious activities of the Louisville & Nashville Railroad company in said election, would make this article too long. Sufficient copies of letters attached to said testimony are here given, to convince the impartial mind of the way this foreign corporation, by unfair and corrupt methods, endeavored to control an Alabama election.

Vice-President Hines' Letter.

The following letter from the said Walker D. Hines, First Vice-President, the Chief in control of the organized fight against B. B. Comer, indicates the coercion of the Louisville & Nashville Railroad Company's employes in Alabama to defeat Mr. Comer, by an ill-concealed cowardly threat to reduce their wage if he was elected, and was written before the Louisville & Nashville Railroad Company had selected a candidate:

"February 22, 1904.

"G. E. Evans, General Manager:

"Dear Sir—Mr. B. B. Comer of Birmingham, is a candidate for President of the Alabama Railroad Commission. His platform is the radical and arbitrary reduction of rates, extensive modification of car service rules and other changes in the regulation of the railroads which will very materially impair our revenues. It is important that our employes in Alabama should understand that it is not only of great importance to the Company to defeat Mr. Comer, but that their interests are also involved, because such heavy reductions as Mr. Comer avows he will make may force a reduction in wages.

"I suggest you arrange as promptly as practicable to have this matter brought up in a proper manner to the attention of our employes in Alabama, so as to insure a full appreciation on their part of the importance of working in every way against Mr. Comer.

"As it has not yet been decided who is the strongest opponent of Mr. Comer, we cannot yet say whom our friends should support, but it seems important meanwhile to develop a strong anti-Comer sentiment.

"I suggest the particularly intelligent and loyal employes who are in a position to obtain information of value in the campaign be requested to watch the matter closely and report to Mr Geo. W. Jones, assistant to District Attorney at Montgomery, any information which they think would be of value as to the attitude of influential persons of their community, the general sentiment, etc. Work of this character would be essentially valuable on the part of the loyal station agents of good judgment, as they are peculiarly in a position to know what is going on in their communities.

"Yours truly,

"WALKER D. HINES,

"First Vice-President."

Chilton County Fair

OCTOBER 20th to 25th, 1913

The Chilton County Fair Association will give away more than $1500 this year in prizes. The prizes offered this year are larger than ever before. They are offered on Corn, Cotton, Sweet Potatoes, Hay, Small Grain, all kinds, Forage Plants, Peas, Beans, Fruit, Vegetables, Jellies, Pickles, Live Stock, all kinds, Poultry, Ladies' Work, Children's Work, Plants and Flowers, Dairy Products, Meats. In fact the list covers everything in the home or on the farm.

Call on or write G. O. Foshee, Clanton, Ala., for catalog, showing all the premiums.

Separate tents for colored people.

Do You Know What

Had You Thought What It Means to Look Neat?

We take your old clothes, remove all ink and grease spots, repair torn places, renew "wholly" pockets, press them neatly and return them to you at an insignificant cost, but at a tremendous saving to you.

We make OLD Clothes look NEW. Ladies Skirts and Waists a specialty

Look up your old clothing and give us a chadoe to renew them for you. Let us rejuvenate your wardrobe.

Kicker Bldg. **Popwell & Popwell** Next to Barber Shop

Simply Human

We get a tinge of rheumatism, a headache, a crick in the neck, a bad cold, and all of those human ills; occasionally, just like other folks.

We are not boasting of it, but simply make mention of it here, because we are sometimes regarded only as a monster of steel rails, wood cross ties, roaring engines and swiftly moving coaches.

We have hopes and ambitions, dreams and disappointments, plans and determination, just like you and your neighbor a mile or two down the road.

Among our plans is one to see the territory traversed by the L. & N. developed practically into what it is naturally—the most productive anywhere in the world.

To do this we must have the help of the people, and to get the help of the people we must help the people.

We have organized a corps of the best experts known to agriculture and science. They are men of wide information, practical experience and demonstrated ability. They are retained by the L. & N. to help the people who have ambition and determination. Their services are free—It is an investment we are making; an investment in future increase in productivity—We know you can raise more on the same acreage you are now working. If you raise more, we haul more—we both prosper. It's a fair proposition, and we ask you to join in.

After you have raised more on the same acreage, you will want your crops gathered and marketed. We can be of assistance to you in both lines of work. Our experts know a lot about economy in harvesting, and our road supplies the finest equipment and fastest service for transporting your crops from the field to the markets of the world.

The L. & N. is going to keep on working constructively. It does not believe the people are bad, nor does it believe the country is going to have any serious setback. Let us all work together for the common good.

LOUISVILLE AND NASHVILLE RAILROAD CO.

An Appeal To The People

(Contihued From First Column, This Page

Letter from Gen. Mgr. Evans.

"February 23rd, 1904.

"Mr. T. E. Brooks, Superintendent, Nashville, Tenn.:

"Dear Sir—Referring to my personal letter of the 22nd, relative to the campaign for Presidency of the Alabama Railroad Commission, I have to suggest to you that at your early convenience you confer with the officers of the different departments under your charge and have an understanding with them as to the action necessary to place the question before the employes, agents, operators and other employes along the line of road will have to be interviewed by the proper officer and time enough taken to explain the arbitrary position Mr. Comer has taken and the importance to both the employes and the company of the interests involved. As the date of the election is some time off, I again advise that the subject be handled carefully as far as it may be practicable.

"Yours truly,

"G. E. EVANS,

"General Manager."

Superintendent Knox of Anniston.

"April 1, 1904.

"Mr. G. E. Evans, General Manager, Louisville, Ky.:

"Dear Sir—Your letter of March 30th, in regard to the election of Railroad Commissioner of Alabama. I have already been advised by Col. Falkner's office that Mr. Smith was the man to support, and we are bringing about every effort to have a strong vote polled for him in every county that the road runs through.

"It is true that a large number of our white employes are not registered, and it is also true that an additional number have not qualified by paying poll tax, therefore they will be barred from voting. I have not found a single man in our employ who is going to vote against us, unless it be our company surgeon at Gadsden, and I believe that although he is a personal friend of Mr. Comer's will vote against him at the proper time.

"Yours truly,

"W. E. KNOX,

"Superintendent."

Orders from Gen. Mgr. Evans.

"February 24, 1904.

"Mr. B. M. Starke, Superintendent:

"Dear Sir—The First Vice-President will send you a number of copies of a printed circular, addressed to the people of Alabama, relative to the Railroad Commission race. Copies will be sent direct from this office to agents, attorneys and surgeons. Please have copies distributed to all other employes of the Company on your Division in Alabama. If you need additional copies let me know how many.

"Yours truly,

"G. E. EVANS,

"General Manager."

General Manager Evans Orders a Line-Up For Smith.

"March 30th, 1904.

"Dear Sir—Please refer to my letters of February 22nd and 23rd relative to the coming election for President of the Alabama Railroad Commission. I stated in the first letter that we were not able at this time to advise who the friends of the railroad company should be asked to support in the race. I now have to advise that you make every effort to bring about strong support for Mr. John V. Smith. Those of you who have not done so, should at once communicate this information to our employes and request them to vote for Mr. Smith and in all proper methods secure votes from their friends for him. It is the intention to send you a list of the employes who are registered and have a vote. I understand that there are a large number of white employes who are not registered. It is therefore all the more important that you make special arrangements by which those men who have votes will be able to cast them. Special attention should be given to this. Please acknowledge receipt.

"G. E. EVANS.

"General Manager."

Selection of Field Workers.

"March 22, 1904.

"B. M. Starke, Superintendent L. & N. R. R. Co., Birmingham, Alabama:

"Have you some one you can suggest work in Birmingham and vicinity until election day against Comer. He should of course have influence among employes as well as voters of other classes. Understand Pounds is at work. It is thought an additional man would help. Think it would be well to have some other class of employe than as engineer.

"G. E. EVANS."

Employes Put to Work.

"Birmingham, Ala., March 23, 1904.

"G. E. Evans, Louisville:

"Your wire last night. After conference with Grubb it is thought Conductor Beasley and Brooks and also James working together and representing the three divisions in doing so would bring about good results. Pound and Carlisle are working together as engineers. B. M. STARKE."

Then Evans wires release orders as follows:

"March 23, 1904.

"B. M. Starke, Superintendent L. & N. R. R., Birmingham, Ala.

"Telegram of 23rd received. All right. Relieve the parties so they can start in to work on the matter, say, beginning next Monday.

"G. E. EVANS."

Evans wires general orders as follows to six division superintendents:

"Brooks, Starke, Knox, McKinney, Marshall, Saltmarsh. (Division superintendents.) I assume you have made all necessary arrangements to enable employes, especially trainmen and others whose duties would take them away from their voting places, to vote on the eleventh. EVANS."

Mr. Frank Chappelle, after a most pleasant vacation at home, left Monday to resume his studies at Southern University.

CLANTON PRESS

PUBLISHED IN THE INTEREST OF CHILTON COUNTY AND HER PEOPLE

VOL 1. CLANTON, ALA., THURSDAY SEPTEMBER 18, 1913 NO. 24

WARNING TO CHILTON COUNTY FARMERS

W. H. Conway Sounds Note of Warning. Wise Farmers Will Heed. Others Will Suffer.

The following letter sent to the Press by Mr. W. H. Conway, County Demonstration Agent, is given to our readers in the hope that they will follow the suggestions of Mr. Conway and prepare for the difficulties which, it seems, will confront them if they fail. The letter is as follows:

"As the North and West, because of the continued drouth, has failed to raise a large supply of corn and hay, I recommend that each farmer prepare well and sow about two acres in oats to each horse. Corn is now more than one dollar per bushel, wholesale. If the farmer has enough corn for his own use so much the better; it will enable him to assist the unfortunate one who is short and thereby keep the money in the South.

It is my opinion that corn will sell for more than $1.50 per bushel before another crop is made, so oats would tide the man over who would otherwise have to buy high priced corn, and it will also help the man with a supply of corn by permitting him to sell a part of his supply.

I also recommend that each farmer sow some clover for hay and pasturage; it is now time to sow.

I have made arrangements with Alred Drug Co. (Clanton) and W. E. Thomas (Jemison) to keep the seed for sale. Burr clover, if sown in burr, needs no inoculation, but inoculative dirt may be had at the following places: J. N. Dennis' farm, three miles south of Clanton; P. T. Hinkle's, two miles west of Clanton; W. H. Conway's, one mile north of Clanton, and at W. H. Conway's, five miles east of Jemison; I think we can supply every one who wishes inoculative dirt.

These are only a few of the conditions confronting us and with the great opportunities afforded us it is "UP TO US" to decide what we shall do.

W. H. Conway,
Local U. S. Demonstration Agt.

OLD SOLDIERS' HOME

A MUSICAL FEAST

The veterans at the old soldiers' home, Mountain Creek, had a musical and literary treat, served to them by Miss Ernestine Holtermann, violinist, Mrs. Jeff Falkner, pianist, and Misses Lucy Simpson and McCord, recitationists.

All of these ladies acquitted themselves splendidly and much to the enjoyment of the old men.

More than a passing mention should be made of Miss Holtermann for she is an accomplished violinist, possessing that degree of excellency known only to artists of her class. Miss Holtermann renders difficult selections with that ease and exactness which convinces lovers of music of her proficiency.

W. P. T.

MARX HANDLES ISSUE

Treasurer J. D. Searcy, of Cullman county, was in Birmingham Thursday and, through Marx & Company, closed a deal for the sale of $160:000 of a $200,000 bond issue recently voted in Cullman county for road construction. The sum of $160,000 will be used at once to build new highways. The remaining $40,000 worth of bonds will be placed on the market later, and will be used to extend the road system.—News.

REV. FRANCIS M. WOODS

BELOVED PASTOR, FAITHFUL FRIEND PASSES PEACEFULLY AWAY.

Saturday morning last at his home in Maplesville, Rev. F. M. Woods, the much beloved pastor of several Baptist churches in that section, and faithful friend of all his acquaintances, quietly closed his eyes in endless earthly sleep to awake on the other side of the rolling tide in the presence of Him whom he had served so faithfully while upon earth.

Mr. Woods was born in Darlington, S. C., on March 3rd, 1846, and would soon have been sixty-seven years of age; thirty-seven of these years he gladly and untiringly gave to the service of his Master in the Baptist ministry. He was one of the best known and most highly esteemed ministers in central Alabama. Assisted by Rev. L. M. Bradley of Birmingham, he had just two days previous to his death, closed a most successful revival service, during which a number of persons had confessed Christ and resolved to lead a better life.

Mr. Woods was an indefatigable worker in the cause of the church and the reclamation of the world from sin; he was on intimate terms with his Saviour and always consulted Him before undertaking any great enterprise.

As a Confederate soldier he was gallant, true and brave; he saw service on the tented field, surrendering only when the gallant Lee caused the flag of the Lost Cause to be forever furled.

As a minister he had occupied some of the most prominent pulpits in the Southern Baptist church; wherever he went he was respected, loved and admired.

On December 21st, 1874, at Montevallo, he was happily married to Miss Sophia Galloway; to this sweetly mated pair were born six children, all of whom, with the bereaved widow, survive him.

The children are: Mrs. J. J. Lucas and Mrs. W. W. Perry of Blocton, Mrs. W. C. Johnson of Montevallo, Mrs. E. R. Piper of Ensley, Miss Mayme and Mr. Thos. D. Woods of Maplesville. Surviving him, also, is a sister, Mrs. Mattie Glass of Brierfield.

The funeral services occurred Sunday afternoon at Montevallo, attended by a large concourse of friends and admirers who went from all sections to do honor to a good man who had fallen on sleep while actively engaged in the work he loved so well.

The funeral services were conducted by Rev. S. M. Adams of Clanton, an old and intimate friend of the family.

CULLMAN BONDS ARE SOLD TO FIES AT PAR

Work Will Be Begun On Three Roads Throughout The County Monday.

Cullman, Ala.—(Special)—Cullman county road bonds were sold to Eugene Fies of Birmingham at par, and the trade was signed and sealed today. There are three roads that will be begun Monday, and E. M. Wheeler of Birmingham, who has the contract to build the roads, has landed the mules at Hanceville and Cullman for the work.

The state highway engineer, Mr. Keller, has approved of the plans, prices and specifications. The roads will cost an average of $4000 per mile.

The amount of the bonds sold was $160,000, which will mean at least 40 miles of pike roads in addition to those now in use. Another issue of bonds will be made later when the county can legally do so, for the remainder of the issue voted, viz: $200,000.—News.

ENJOYABLE ENTERTAINMENT

REV. L. H. S. CHAPPELLE MINE HOST.

Monday evening, at the Methodist parsonage, in keeping with a custom adopted in the early part of the year, the official board of the Clanton church, together with one or two invited friends, had a most enjoyable occasion.

Though the weather without was somewhat cheerless all within was mirth, merriment and business. After transacting the business of the hour those assembled indulged in the relation of experiences and in anecdotes that provoked the risabilities to "get busy" and stay busy, but the best of it all was the sumptuous feast prepared by Mrs. and Miss Chappelle for the delectation of the guests. A delightful six course dinner was served, each course surpassing its predecessor in elegance and tastefulness, though the initial one was sufficient to have tempted the palate of an epicure. Mrs. Chappelle and her beautiful daughter are gifted housekeepers and well did they demonstrate their knowledge of the art of this occasion. But one little thing happened to mar the conviviality of the evening; a certain young married man, whose name we withhold, was caught in the act of eating his salad with a coffee spoon; after having ambled gently into the salad with the aforesaid spoon, he recognized his mistake but saw no sure way of retreat; his embarrassment was not noticeable, however, till coffee was served, when he was left with a dainty little salad fork near his plate—and no spoon near. A friend, noticing the discomfiture of the young Lochinvar, offered assistance but the young gentleman stoically declined aid, saying he'd pull through even if he had to use a pie knife, or a fish fork, or a gravy ladle.

The monthly meetings have proved of great benefit to the official members of the church; aside from their social feature they enable officers to accomplish much work during the year which heretofore has been delayed till the latter part of the conference year.

Mr. W. W. Fox returned Sunday from a business trip to Atlanta.

ALABAMA STATE FAIR FEATURES WOMAN'S WORK

Besides the $2500 in money to be awarded as premiums in the exhibit of Woman's Work at the Alabama State Fair, October 9 to 18, the merchants of Birmingham are giving many valuable special prizes.

To the woman winning the greatest number of first prizes in the entire Woman's Department the Singer Sewing Machine company will give a machine valued at $60; to the one winning the second greatest number of blue ribbons Loveman, Joseph and Loeb will give a handsome tailored suit and to the one winning third place Feder and Berk will give a handsome shirt waist.

This section of the fair is devoted entirely to the uplift of home; encouraging and teaching industry and is confined to exhibits by Alabama women exclusively. The catalog this year offers many individual prizes in money and merchandise and will be sent upon request forwarded to Mrs. J. B. Reid, manager of the Woman's Department.

The Alabama State Fair association will give $5 to every creditable bazaar that is ready by 12 o'clock noon, Wednesday, October 8, and a number of prizes are given by merchants as specials for the church bazaars. A total of $500 in prizes for Jefferson county booths is offered by the Birmingham Chamber of Commerce, divided into eighteen prizes ranging from $100 to $25.

No feature of the annual fair is of more interest and importance or attracts greater attention than does the Woman's Department, which for the past fifteen years has been conducted by Mrs. J. B. Reid. There will be found exhibited each year the best handiwork of Alabama women in amateur and professional art, needle work and embroideries; culinary exhibits for household use, canned fruits and vegetables as well as home grown plants and flowers—in fact, specimens of everything to which the good house wife may turn her hand to ornament the home or to decrease the cost of living, and living well.

Then, there is the baby show. The "Best Baby Contest," fostered by the Birmingham News, will be conducted in the Womans Department, October 14, at 10 o'clock in the morning, with the co-operation of the usual number of bachelor maids and men and the Commercial State bank. The judges may wear disguise and will be protected from the irate parents of the losers, if such there be.

Splendid Free Attractions.

Before the immense grand stand which comfortably seats 3,000 persons a stage has been built and there will be an almost continual string of free attractions from early morn to late at night. There will be nothing to obscure the view of the visitor and the one admission permits a view of all that is going to happen at the fair—with the exception of the Pleasure Plaza side shows.

There will be the concerts and maneuvers of the First Cavalry band, said to be the greatest attraction of its kind ever offered in the south.

At night the pyrotechnic spectacle, "Pioneer Days," will be given in the infield, in full view from the grand stand and other parts of the grounds. There will be a battle between settlers and Indians and about 300 persons are engaged in making the scene realistic in the extreme. The Indians burn the settlers' homes and the whole show ends with a grand display of fireworks.

The Five Ferris Wheel Girls, Fink's Comedy Mules, the Yamato Troupe of marvelous wire walkers, and a dozen other features will make the free show the best ever offered by the fair at Birmingham.

Then there will be the horse races, showing some of the finest trotters and pacers in the country in action. Many of the horses are from the Grand Circuit. The track is in excellent condition and it is confidently expected that new records will be made for southern tracks this year in more than one class.

One thing is certain—there will not be a dull moment for the fair visitor from the time of the opening on October 9 to the hour of closing on the night of October 18.

Gaucho—Trotting Ostrich—at Alabama State Fair.

FISH & GAME WARDEN TENDERS RESIGNATION

Mr. J. W. E. Gulledge, Fish and Game Warden For Chilton County, Resigns; Mr. J. P. Morrow Seeks Place.

Some days since, Mr. J. W. E. Gulledge, who has been the official fish and game warden for Chilton county, tendered his resignation to State Warden, Wallace, to take effect immediately. This action on the part of Mr. Gulledge was because of personal reasons and the state warden immediately accepted the resignation, in accordance with the request of Mr. Gulledge.

For a number of years Mr. Gulledge has looked after the interest of the birds and fish in this county and has been a terror to the violators of the law. These helpless little denizens of the air and stream will miss the painstaking care of a faithful friend.

Mr. J. P. Morrow is circulating a petition asking that he be appointed to the vacancy. Mr. Morrow will doubtless make an efficient warden; so far he has no active opposition

ALLGOOD GETS ACTIVE

HE IS CERTAIN OF ELECTION AS STATE AUDITOR.

Miles C. Allgood, of Oneonta, who is in Birmingham attending the merchants' convention, has resigned his position as farm demonstrator of Blount county and will at once inaugurate an active campaign for the office of state auditor.

At the last election he was a candidate for state auditor and came within a few hundred votes of being successful in his race. This time Mr. Allgood feels confident of his election.

"During the past few weeks I have visited several sections of the state and have heard from friends in every county in Alabama," said Mr. Allgood, "and they all assure me that my election is certain in the coming campaign."—Birmingham Ledger.

Mr. Allgood has the people of Blount county solidly behind him in this fight and they expect to see him win. He is a worthy young man, well qualified and fully competent to fill the office he seeks. For nine years he served his county as Tax Assessor and made a record of which any man should be proud. He was never known to betray a trust. Blount has never had a State official and would not ask it this time if she did not have a candidate to present who is worthy of any position within the gift of the people. The people of Alabama will make no mistake in electing Mr. Allgood to this position.—Southern Democrat.

ROADS THE BEST INVESTMENT

A Seattle Judge Complimented British Columbia On Spending Sixteen Million Dollars.

"History does not tell of a better investment than you 400,000 people of British Columbia have made by spending $16,000,000 in three years on the roads of your province," said Judge J. T. Ronald, of Seattle, in a recent address to the Progress club.

Judge Ronald quoted figures to prove his contention that good roads were essential to a country's prosperity, and he quoted more figures to show that bad roads caused a tremendous annual loss.

"If I had all the money lost in the United States each year for ten years, because of bad roads," said the judge, "I could pay off the interest on the national debt, build a Panama canal, build three magnificent roads east and west across the continent, do much other good work and still have $100,000,000 left."

Someone laughed in doubt, but the judge followed up his statement with figures and easily demonstrated his argument.

The average cost a ton of hauling farm produce an average distance of nine miles to a market or to a railway depot over poor roads in the United States is $2.07. This is computed from figures over a period of ten years. That figures out at 23 cents a ton a mile.

On good roads over the same distance the cost is 8 cents a tons mile. The loss on bad roads, says the judge, is $1.59 a ton for every ton hauled in the last ten years over the bad roads.—Ledger.

INCORPORATED

Pine Tree Lumber Co. A Corporation Large Capital, Extended Business.

While the papers have not yet been filed, and are therefore not public documents, the necessary legal steps have been taken to incorporate the Pine Tree Lumber Co. of Clanton with a paid up capital of $25,000. This company has not been in existence very long but has made an enviable reputation in the lumber world, and the volume of business being transacted by the members of the firm necessitated the change to meet the demands of the business.

Articles of incorporation will be filed some time next week, when the company, heretofore a personal business firm, will become a corporation under the laws of Alabama

NOTICE TO RURAL DELIVERY PATRONS

The attention of postmasters at rural delivery offices and of rural carriers is again directed to the fact that carriers are not required to collect loose coins from rural mail boxes.

Patrons should enclose coins in an envelope, wrap them securely in paper, or deposit them in coin-hold receptacle, so they can be easily and quickly taken from boxes, and carriers will be required to lift such coins, and when accompanied by mail for dispatch, attach the requisite stamps.

Carriers who lift coins not so inclosed, wrapped or deposited will do so purely as a matter of accommodation and not by any direction of requirement of the Department.—U. S. Official Postal Guide.

Mr. W. E. Mauck of Birmingham delighted his old friends with a visit here Sunday last. He was accompanied home by Mrs. Mauck, who has been spending some time with her mother, Mrs. W. W. Jones.

Mr. Thos. J. Scott of Montgomery and elsewhere was in Clanton during the early part of the week.

Mr. Hance Alred returned last Saturday from an extended business visit throughout the Northwest.

1St

First in Everything

First in Quality
First in Results
First in Purity
First in Economy

and for these reasons Calumet Baking Powder is first in the hearts of the millions of housewives who use it and know it.

RECEIVED HIGHEST AWARDS
World's Pure Food Exposition, Chicago, Illinois.
Paris Exposition, France, March, 1912.

You don't save money when you buy cheap or big-can baking powder. Don't be misled. Buy Calumet. It's more economical—more wholesome—gives best results. Calumet is far superior to sour milk and soda.

NOT WORKING FOR ART'S SAKE

Violinist Certainly Had No Mistaken Idea as to His Ear for the Melody.

The Blue Forest orchestra had just finished an ear-piercing melody on the front lawn of "Berry Inn."

One of the guests approached the violinist and somberly inquired:

"Did you play by note?"

"Niver a note do I play, sir," replied Mr. Hennessey, mopping his fevered brow with a handkerchief of sanguinary hue.

"Ah, by ear, then?" said the summer boarder, with a smile of gracious interest.

"Niver an ear helps me," responded the other, returning his handkerchief to his capacious pocket.

"Indeed! May I ask how you—what you do play by, then?" persisted the inquirer.

"By main strin'th, be gorry!" said Mr. Hennessey, with a weary air, as he plunged his ancient instrument into its green bag; "an' it's mighty dry wurrk an' that's no mistake."

Japanese Courtesy.

A country where courtesy is a business, and business but a gentle avocation, reflects its peculiarity in the most trifling details of conduct. Such a country is Japan and such a detail recently came into notice when a city electric bureau of Tokyo asked the patrons on its street car lines how they preferred to be addressed when it was necessary to urge them to "move up." Out of the 2,719 suggestions sent in the Independent selects and translates six, as follows:

"Those not getting off, to the middle, please!"

"The middle is more comfortable!"

"I'm sorry, but all move on by one strap!"

"There's a pretty girl about the middle of the car!"

"A pickpocket has just come on board!"

The municipal authorities frowned somewhat upon the last three suggestions, but the conductors will be taught to use some of the other forms.

Is it possible that the Japanese hope to enjoy an efficient traction service on such terms? Apparently they hope to, and we pass along the Japanese idea as a helpful hint to the gentlemen who jerk a gong on the hear of our own street cars.

Already Converted.

"No man can serve two masters," observed the good parson, who was visiting the penitentiary.

"I know it," replied Convict 1313. I'm here for bigamy."

Lightly Clad.

"Don't you think she dresses in good taste?"

"Perhaps so, but not in good measure."

Literal.

"What is the most sunshiny system to live by you ever heard of?"

"I guess it is the solar system."

Another Area.

"The prima donna fell down in the opening to that aria."

"Lawdy days! So did our cook."

PUBLIC HIGHWAYS

WHO SHALL DRAG THE ROADS?

Somewhere Between Two Extremities of Opinion Lies Ultimate Solution of Vexed Problem.

There is a serious difference of opinion among authorities as to whether or not the responsibility for dragging roads rests solely upon the farmer's shoulders. Here, for instance, is one of the three members of the recently appointed state highway commission of Iowa declaring: "Take the road work out of the farmers' hands. It is not fair to the farmer to make him work on the roads. Now, I am a farmer myself. I pay my road taxes in money. There is no reason why a farmer should get out and work on the roads any more than should a banker. Then, too, road making is becoming too much of a business to let anybody and everybody practice it. One man should have supervision of the road work." And here, on the other hand, is one of the leading newspapers of the same state, a long and ardent champion of good roads, declaring:

"Guthrie county men dragged a highway across the country in an hour and a half the other day. The dragging bee had been arranged for and was pulled off on schedule. It reminds of a story told by Jim Fisk, one of the early magnates and millionaires. He was the son of a shrewd old New England farmer. One day the old man told Jim that if he would clean the stables well he would pay him a gold dollar for the service. Jim, with the golden reward in sight, tugged and strained and finished the stable on time. His father gave him the dollar. Then he said: 'James, if you can clean the stables one day for a dollar, you can clean them every day as a duty.' And thereafter James cleaned out the stables.

"If Guthrie county, and other counties, can drag the principal highways of the county in an hour and a half with a hurrah and to show what can be done, they can drag the principal roads after a rain as a duty. An arrangement so successful as this should suggest a permanent system. The gratification with which those road draggers turned to survey their completed work ought to teach them that

Beautiful Country Road in Southern Illinois.

a good road is a joy forever. If it is worth making as an object lesson, it is worth maintaining for everyday use."

Somewhere between the two extremities of opinion (turning the work over to experts and making the farmer do it all by himself) lies the ultimate and the satisfactory solution of the vexatious problem, says the Iowa Homestead. There is no denying that road making has become as much of a science and a profession as farming itself, or teaching school, or running a bank or piloting a locomotive. Why, then, should the farmer be expected to be the sole and only road maker and repairer, any more than the school teacher or the rural mail carrier? Yet, on the other hand, the farmer has the first-hand, direct information of what roads need most to be made or repaired. He travels them most frequently; he should assist in bringing them to that state of permanency which will minimize his own troubles en route between farm and town.

In the last analysis, successful road making depends upon harmonious cooperation between individuals and county, state and national authorities. We may not have reached the stage when state aid to the extent of many millions of dollars is advisable, but we certainly have reached the stage when the burden should be taken from the unsupported shoulders of the farmer, where it has rested all too long. The farmer is perfectly willing to do his share; he simply objects to a hoggish policy which makes his share all the work and none of the credit or reward.

Good Lawn Mixture.

Forty pounds of blue grass, three pounds of white clover and three pounds of solid red top make a good lawn mixture. The white clover and red top grow quickly and are gradually crowded out by the blue grass, which makes a much better lawn. Be sure that the lawn is finely raked and the soil is in the very finest condition of tilth before sowing the seed.

FORMER ATHLETIC STAR AS PEACEMAKER

Harry Davis, Veteran Star First Baseman.

It pays to have a successful peacemaker on a ball club. Many baseball followers throughout the country probably are wondering why the Athletics, with practically the same players of last year, are making a near runaway race in the American league this season. Of course, the Mackmen have won most of their games by good hard hitting but there is one great leader, who sits on the bench and helps Connie Mack direct his team. It is the appearance of this veteran that has brought peace to the family of a great ball club. Harry Davis, who failed to give Cleveland a winner last year, is back in Athletic harness, and the White Elephants again are showing the form they displayed in 1911.

Numerous reports were sent out from the Quaker City last summer, while the Mack team was taking its daily lickings at the hands of the Boston Red Sox and other clubs in the American league, that the former world's champions were fairly well disorganized as far as friendship was concerned. The taste of defeat was a bitter medicine, and the players on Mack's pay roll were peevish and not working together like the machine that rolled over the New York Giants in the fall of 1911. The reason for the poor showing of a team doped to run away with a third pennant, was that Harry Davis, peacemaker, was not there to settle the disputes of the players. This fellow Davis knows how to keep his team mates working together and his return to Philadelphia has had something to do with the great showing made by the conquerors of the Cubs and the Giants.

Eddie Plank and the reliable Indian, Chief Bender, are the only winning heavers on Mack's staff this season. The young pitchers occasionally get in and win a game, but it has been the work of the veterans that has kept the Athletics out in front so far this year.

PINCH HITTER QUITE USEFUL

All Baseball Clubs Now Have Their Relief Batters for Deadly Work—Job Is Not Easy.

The pinch hitter in major league baseball has become an institution, due in a great measure to the success attained by McCormick of the New York Giants, who, for three seasons, has added game after game to the Giants' roster by his ability to drive in runs when they are needed. Now McCormick is dothroned, and the two Philadelphia teams, the Phillies and Athletics, owe their high place to the ability of their pinch hitters.

Danny Murphy of the Athletics is doing the relief batting for the American league leaders with deadly effect, while Doc Miller is serving the same end for the Phillies. It takes a peculiar ability to fill such a role, and both these players possess it.

Peculiarly enough, not all high average hitters are good pinch hitters, and, conversely, few good pinch hitters are high average hitters when played regularly. Celebrated pinch hitters who have received much prominence in the past solely through their ability to step up to the plate in a tight place and relieve the hitter with a safe hit, and yet who were valueless as regulars when played regularly were Dode Criss of the Saint Louis Browns of 1908 and Harry McCormick of the Giants.

"Doc" Miller of Philadelphia.

In 1908 Criss was used entirely as a pinch hitter and he batted for an average of .341, winning game after game. The following year he was tried as a regular and proved a gloomy failure. Last year McCormick had his best season as a pinch hitter. During the season he came to bat 39 times for other hitters nad batted out hits thirteen times, for an average of .333. In addition, he drove in a number of runs on flies and outs to the infield. He also figured in the world's series.

This year the two Philadelphia teams began experimenting with pinch hitters with the result that they developed a pair that promise to eclipse anything in this line ever produced. Both are batting over .360, a remarkable figure for such work. Murphy has played a number of games as a regular and his average as a pinch hitter has been better than his work while playing regularly.

The majority of major league managers are not endeavoring to work out pinch hitters, realizing their value in these days of few hits and small scores. Danny Murphy may get a chance to show his ability in the coming world's series.

NOTES of the DIAMOND

Catcher McKee is showing some good work with the Tigers, both behind the plate and at bat.

* * *

Pitcher Cottrell, the young heaver sent to Baltimore by Connie Mack, is pitching winning ball.

* * *

Osborn of Louisville, with a batting average of .327, is said to be sought by three big league clubs.

* * *

Cincinnati has purchased Second Baseman John Rawlins of the Victoria Northwestern league club.

* * *

With Newt Randall out of the Milwaukee lineup probably for the rest of the season with a bad knee, Orville Woodruff gets a chance to be a regular again.

SLIDE TO FIRST BASE

Umpires Call Out Player Who Hits Dirt at Initial Sack.

Arbiters Claim It Is Done to Make the Play Look Close in Hopes of Gaining Decision—Runner Loses Time in Sliding.

More sliding to first base probably would be seen in the National league if it were not for the fact that the umpires invariably call out the man who hits the dirt. They do not think it is necessary for a base runner to slide into first base, because he loses time in so doing. They also add that players do it in order to make the play close at the initial cushion in hopes of gaining the decision.

Not long ago an umpire in the American association called out a runner for sliding into first base, when he apparently was safe by five feet. That same official declared after rendering that verdict that he would call out any man who slid into first base, whether he was out or safe. He also said he would not permit any ball player to show him up that way. Most indicator handlers look at the play in the same light and say they will wave out a runner nine times out of ten when he jumps into the first base.

Sliding into first base is rather a thrilling play and in an exciting game is a feature that excites the fans. Players would like to do it, but say it would be suicide to try it, as the decions of the umpire would be against the runner. Many instances come up in a ball game where a player believes he can beat a throw by sliding into the base, but he is afraid to try it knowing the official will call him out, and attempts to beat the ball by running.

"When you start to slide you are out," said one of the league's best players. "The umpire, in my opinion, makes up his mind that you are out as soon as you leave your feet, for he believes that by sliding you are trying to make the play close and hard for him. If you watch you will find that most of the decisions are given in favor of the basemen when a man slides. Time and again you will see men called out at second base, when apparently the ball did not reach there until the man slid into the bag. It is because the umpires know the play is going to be close and they do not favor the runner. Therefore, why attempt to slide into first base, when you know that the chances of being announced safe are against you?"

"Sliding is one of the features of baseball," said another player. "I do not think there is a part of the game better than when a man by a clever hook or fade-away, manages to escape a baseman. Often a man will score a run by his ability to elude the catcher and seldom does he receive the credit that is due him. Often you will see a man steal second by getting around the shortstop or second baseman's touch and later score on a single. Yet that man who stode is not commended for his excellent work Knowing how to slide into a base makes up a championship ball team. Take all the championship teams of modern years and you will find they had smart base runners and sliders.

"What makes the Giants so strong? Their ability to run bases and slide. That is one of the first things McGraw teaches his players, and, if you ever have noticed, each one is well versed in hook sliding."

TOO MUCH MOIST DELIVERY

Manager Chance Said to Be Dickering for Trade for Big Spit-Ball Pitcher McConnell.

Manager Frank Chance of the New York Highlanders has intimated that George McConnell, one of the regulars of the Highlanders last year and this,

George McConnell.

is on the market for a trade, and several clubs are said to be dickering for the six-foot, four-inch borman. McConnell is a good pitcher, relying on a moist delivery, but Chance, believing he has too many spitball pitchers on his club, has decided to part with one, and McConnell is the man he has selected.

Faith in Bob Groom.

Manager Griffith believes Bob Groom is one of the best pinch hurlers in the game.

Rheumatism Is Torture

Many pains that pass as rheumatism are due to weak kidneys—to the failure of the kidneys to drive off uric acid thoroughly.

When you suffer achy, bad joints, backache too, dizziness and some urinary disturbances, get Doan's Kidney Pills, the remedy that is recommended by over 150,000 people in many different lands.

Doan's Kidney Pills help weak kidneys to drive out the uric acid which is the cause of backache, rheumatism and lumbago.

Here's proof.

A GEORGIA CASE

O. A. Asbury Sparta, Ga., [illegible] was so stiff and lame that I could not get around without help. There was a soreness just above my right kidney, which [illegible] when I bent over. WASN'T WORTH THE LIVING

Mrs. Bowling's Conception of Life at One Time—Thinks Differently Now.

Loveland, Ky.—"When I first wrote you, I was feeling so miserable, that life wasn't worth living." So writes, in a recent letter, Mrs. Anna Bowling, of this place.

"I was in bad shape, my left side hurt so, at times, I could hardly bear on it and I could not lie on that side at night, at all. I also had another serious symptom of woman's trouble. I finally decided to give Cardui, the woman's tonic, a trial, so I purchased a bottle, and by the time I had taken it I felt better in every way, so I got another bottle, and it straightened me out entirely.

I feel as well now as I ever did in my life, and I can be safe in saying that Cardui is the best medicine on earth for women. I had little faith in it before I commenced taking it, but now I would not exchange it for all the other medicines."

Are you one of those poor women sufferers, who feel that life is hardly worth the living? Have you that everlastingly tired, nervous, worn-out, headachy feeling? If so, get a bottle of Cardui and begin taking it today. No doubt it is the very medicine you need.

N. B.—*Write to:* Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for *Special Instructions* on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

Norway is to have one of the world's greatest hydroelectric plants, developing 216,000 horsepower.

DOES YOUR HEAD ACHE?
Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Its Use.

"After all, dust is a great publicity promoter."

"How so?"

"Doesn't it keep the streets and public highways in the eye of the people?"

Things in Keeping.

"Can you build me a piano and leave the bark on the wood?"

"I guess so," opined the piano salesman.

"I want it for my hunting lodge. We rough it up there, you know."—Judge.

Well, Why Not?

Mrs. Exe—I understand your daughter, Jessie, has changed her name to "Jessica."

Mrs. Wye—Yes.

Mrs. Exe—Well, I wish she hadn't. She's put the crazy notion into my girl Bessie's head to call herself "Bessica."—Boston Transcript.

Efficiency.

The modern method of accomplishing two things at once in the performance of a man's household duties was recently illustrated by a North Cambridge young man. This young man was industriously mowing the large lawn in front of his house by pushing a mower in front of him with the same industry he was giving his baby a ride by dragging the baby carriage behind him with the other hand.—Boston Journal.

GROWING STRONGER
Apparently, with Advancing Age.

"At the age of 50 years I collapsed from excessive coffee drinking," writes a man in Mo. "For four years I shambled about with the aid of crutches or cane, most of the time unable to dress myself without help.

"My feet were greatly swollen, my right arm was shrunken and twisted inward, the fingers of my right hand were clenched and could not be extended except with great effort and pain. Nothing seemed to give me more than temporary relief.

"Now, during all this time and for about 30 years previously, I drank daily an average of 6 cups of strong coffee—rarely missing a meal.

"My wife at last took my case into her own hands and bought some Postum. She made it according to directions and I liked it fully as well as the best high-grade coffee.

"Improvement set in at once. In about 6 months I began to work a little, and in less than a year I was very much better, improving rapidly from day to day. I am now in far better health than most men of my years and apparently growing stronger with advancing age.

"I am busy every day at some kind of work and am able to keep up with the procession without a cane. The arm and hand that were once almost useless, now keep far ahead in rapidity of movement and beauty of penmanship."

Name given by Postum Co., Battle Creek, Mich. Write for copy of the little book, "The Road to Wellville."

Postum comes in two forms:
Regular Postum—must be well boiled.
Instant Postum is a soluble powder. A teaspoonful dissolves quickly in a cup of hot water and, with the addition of cream and sugar, makes a delicious beverage instantly.

"There's a reason" for Postum.

SURVIVORS OF BLUE ASSEMBLE IN DIXIE

SECOND INVASION OF SOUTH VASTLY DIFFERENT FROM 50 YEARS AGO.

CHATTANOOGA IS CROWDED

"Yanks" Are Entertained in "Johnny Reb" Homes — Excellent Program.

Chattanooga, Tenn. — Held for the first time in real Southern territory and in close proximity to some of the most famous battle fields of the Civil war, the Forty-seventh annual national encampment of the Grand Army of the Republic, was officially opened with a reception at the Hotel Patten. At the reception, the veterans who wore the blue were welcomed to Dixie by the citizens of Chattanooga.

The second invasion of the "Sunny South" evinced a far different spirit than that which actuated the northerners a half century ago. This time their mission is one of peace and friendship. The old animosities are forgotten, and on the reception committee, which welcomed the parts of the country, were many men of prominence in the Confederate army.

Not only is this the red letter encampment of the G. A. R., because it is the first meeting south of the Mason and Dixon line, but the present year also marks the semi-centennial of the battle of Chickamauga, Lookout Mountain and Missionary Ridge, all within a short distance of this city. In fact, the exact anniversary of the battle of Chickamauga falls on the last two days of the encampment, September 19 and 20. Adam Foust, president of the Chickamauga Survivors' Association, has issued a call for all survivors of the battle, whether they fought under the Stars and Stripes or the Stars and Bars, to assemble on the battlefield on Sept. 20, when appropriate exercises commemorative of the battle will be held. This time "Johnny Reb" will meet "Yank" with a handclasp and a smile, rather than with the loaded musket and bayonet as in '63.

Because of the limited hotel accommodations, the homes of private citizens have been thrown open. Most of the arriving visitors had secured their accommodations several weeks ago and they are being conducted to their places of residence for the week with the utmost despatch. The same plan of caring for the vast crowds as was used during the reunion of the United Confederate Veterans last May is being pursued in administering to the wants of their one-time enemies. Many prominent Confederate veterans have served on the various committees and the success of the encampment, which is already assured, is due in no small measure to the work of these veterans, who have thrown themselves into the task of entertaining the men who once faced them on the battlefield. The encampment will, in a way, be a reunion for the veterans of both the North and South.

SHIPWRECKS SHOW DECREASE

Hurricane Warnings Issued by United States Weather Bureau Given Credit.

Washington. — Hurricane warnings issued by the United States weather bureau have resulted in marked decreases in shipwrecks in recent years, despite the increase in shipping, according to the department of agriculture, which called attention of mariners to the fact that the season was now at its height.

The bureau's latest efforts to provide ample warning of the approach of tropical storms have been through wireless reports of wind, weather and other conditions from vessels plying in the gulf and Carribean waters and from the bureau's land stations in the West Indies.

"During the last 35 years," the statement says, "about 88 per cent. of the storms have occurred during August, September and October, September showing a slightly greater number than any of the others."

TELEGRAPHIC TIPS

Goldfield, Nev. — Two women were drowned and many thousands of dollars damage done by a cloudburst and electrical storm sweeping through the center of this town.

Vienna. — Count Maurice De Liental, a Frenchman, met death while climbing a mountain in the Semmering district.

Oakland, Cal.—"Women have the right, now that they have the franchise, to smoke a cigarette or cigar, and walk down the street smoking it. They may go into a saloon and buy a drink over the bar. They can demand the same service in any public store as can a man." This is the decision of City Attorney Woolner.

Oregon City, Ore.—Finding that her ninth marriage was a failure, Mrs. Ellen Deering Grangrow secured a divorce from Grand N. Grangrow, and voluntarily granted him $2,000 alimony.

DR. R. A. ARMISTEAD'S FAMOUS AGUE TONIC SHOULD BE IN EVERY HOME.

Spottsville, Ky., Sept. 9th, 1898.
ARMISTEAD'S TONIC is THE ONLY TONIC. The life of our five-year-old boy Newton was saved by Armistead's Ague Tonic after all other remedies had failed and two physicians had given him up. He had been having violent spasms for two days and nights and we were unable to break the malarial fever until we began administering this Tonic. You can always find Dr. R. A. Armistead's Ague Tonic in our medicine chest.
(Signed) M. F. HOWE,
Agt., L. H. & St. L. Ry.

What Dr. R. A. Armistead's Ague Tonic has done for others, it will do for you. It has been on the market continuously for over forty years and is recognized as the greatest Chill and Malaria remedy ever known. 50c and $1.00 bottles. Pleasant to take—perfectly harmless. INSIST UPON GETTING IT FROM YOUR DRUGGIST.—Adv.

PECULIAR LIVE STOCK FARM

Canadian Has Pleasant Possibilities in His Proposed Raising of Black Foxes.

Probably few, if any, men in this province have started a black fox farm at less cost than Robert Rowley, proprietor of the Laurentide preserves at Lake Edward, says a Quebec correspondent of the Montreal Gazette. While up at Roberval Mr. Rowley heard that a man there had four young pups, part red and part black. It is said that nobody wanted to buy the animals, though the price was about $10 or so a head. Mr. Rowley gave the man his price. The next morning Mr. Pridman, manager of the black fox ranch of Lieutenant Governor Wood of New Brunswick, who had been scouring the country for young stock, saw the foxes and immediately went into the hotel and in front of every one present offered Mr. Rowley several thousand dollars, but was refused. When the villagers realized the offer some of them almost collapsed on the spot and the place has been fox crazy ever since.

Mr. Rowley is also purchasing a pure black dog fox at a very small sum and will cross it with the litter which he got so cheaply. He expects to have a litter of pure black foxes next spring.

What Can Be Done About This?

"Here's an item," observed Rivers, who was looking over the newspapers, "to the effect that the king of Sweden raises prize dogs on his farm."

"I suppose he uses them," suggested Brooks, "to drive his Stockholm."

After which the rattle of the typewriters broke out afresh with great violence.—Stray Stories.

THE BEST TREATMENT FOR ITCHING SCALPS, DANDRUFF AND FALLING HAIR

To allay itching and irritation of the scalp, prevent dry, thin and falling hair, remove crusts, scales and dandruff, and promote the growth and beauty of the hair, the following special treatment is most effective, agreeable and economical. On retiring, comb the hair out straight all around, then begin at the side and make a parting, gently rubbing Cuticura Ointment into the parting with a bit of soft flannel held over the end of the finger. Anoint additional partings about half an inch apart until the whole scalp has been treated, the purpose being to get the Cuticura Ointment on the scalp skin rather than on the hair. It is well to place a light covering over the hair to protect the pillow from possible stain. The next morning, shampoo with Cuticura Soap and hot water. Shampoos alone may be used as often as agreeable, but once or twice a month is generally sufficient for this special treatment for women's hair.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

In the Stone Age.

"Here are sign words, professor, on the walls of this cave."

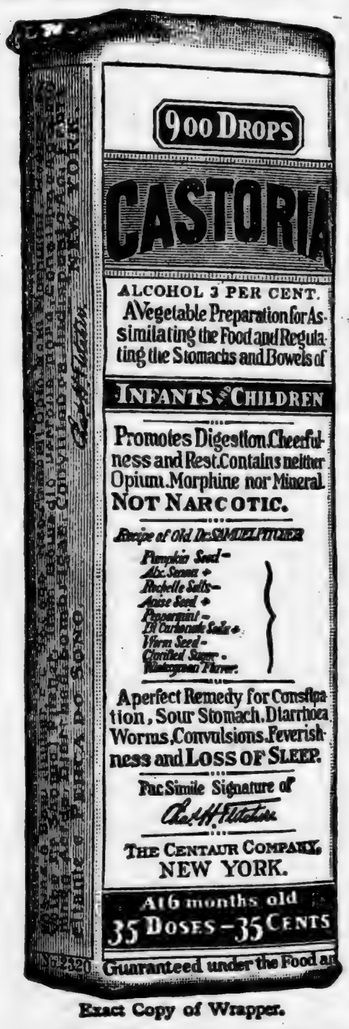
"So I see."

"They tell, no doubt, a tale of great historical value."

"Not exactly. This is just the lease of the cave. Says the tenant must pay forty clamshells per month in advance and isn't allowed to keep dinosaurs, pterodactyls or sabre-toothed tigers."

ACHY FEELINGS, PAIN IN LIMBS and all Malarious indications removed by Elixir Babek, that well known remedy for all such diseases.
"I have taken up the three bottles of your 'Elixir Babek,' and have not felt so well and entirely free from pain in limbs for five years."—Mrs. E. Higgins, Jacksonville, Fla.
Elixir Babek 50 cents, all druggists or by Parcels Post prepaid from Kloczewski & Co., Washington, D. C.

A Fact.



"My dear, those high-heeled shoes were a blunder on your part."

"I guess I did put my foot in it."

A lot of dead ones in every town are holding out on the undertaker.

Physicians Recommend Castoria

CASTORIA has met with pronounced favor on the part of physicians, pharmaceutical societies and medical authorities. It is used by physicians with results most gratifying. The extended use of Castoria is unquestionably the result of three facts: *First*—The indisputable evidence that it is harmless: *Second*—That it not only allays stomach pains and quiets the nerves, but assimilates the food: *Third*—It is an agreeable and perfect substitute for Castor Oil. It is absolutely safe. It does not contain any Opium, Morphine, or other narcotic and does not stupefy. It is unlike Soothing Syrups, Bateman's Drops, Godfrey's Cordial, etc. This is a good deal for a Medical Journal to say. Our duty, however, is to expose danger and record the means of advancing health. The day for poisoning innocent children through greed or ignorance ought to end. To our knowledge, Castoria is a remedy which produces composure and health, by regulating the system—not by stupefying it—and our readers are entitled to the information.—*Hall's Journal of Health.*

Exact Copy of Wrapper.

Letters from Prominent Physicians addressed to Chas. H. Fletcher.

Dr. B. Halstead Scott, of Chicago, Ills., says: "I have prescribed your Castoria often for infants during my practice, and find it very satisfactory."

Dr. William Belmont, of Cleveland, Ohio, says: "Your Castoria stands first in its class. In my thirty years of practice I can say I never have found anything that so filled the place."

Dr. J. H. Taft, of Brooklyn, N. Y., says: "I have used your Castoria and found it an excellent remedy in my household and private practice for many years. The formula is excellent."

Dr. R. J. Hamlen, of Detroit, Mich., says: "I prescribe your Castoria extensively, as I have never found anything to equal it for children's troubles. I am aware that there are imitations in the field, but I always see that my patients get Fletcher's."

Dr. Wm. J McCrann, of Omaha, Neb., says: "As the father of thirteen children I certainly know something about your great medicine, and aside from my own family experience I have in my years of practice found Castoria a popular and efficient remedy in almost every home."

Dr. J. R. Clausen, of Philadelphia, Pa., says: "The name that your Castoria has made for itself in the tens of thousands of homes blessed by the presence of children, scarcely needs to be supplemented by the endorsement of the medical profession, but I, for one, most heartily endorse it and believe it an excellent remedy."

Dr. R. M. Ward, of Kansas City, Mo., says: "Physicians generally do not prescribe proprietary preparations, but in the case of Castoria my experience, like that of many other physicians, has taught me to make an exception. I prescribe your Castoria in my practice because I have found it to be a thoroughly reliable remedy for children's complaints. Any physician who has raised a family, as I have, will join me in heartiest recommendation of Castoria."

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

Politicians are now predicting an extra early primary. Why? 'Cause.

Thaw and the baseball magnets now occupy the center of the stage, with the former having a shade the better of it.

Cullman county is fast becoming one of Alabama's model counties; she is issuing bonds for road building. Hers are progressive farmers.

Birmingham voted another bond issue Monday. This time for the purpose of building an auditorium in which to entertain strangers; yet Chilton county cannot vote a little bond issue for her own benefit!!

The impeachment proceedings against Governor Sulzer of New York begin today; take it from us, he will be impeached. That has been fixed by Mr. Murphy and Mr. Murphy's orders will be obeyed whether Sulzer is guilty or not.

Better begin to look out for candidates for the legislature and senate; it would be the heighth of folly to elect Comer and give him an anti-Comer legislature to deal with. In making your selections be sure your candidate for the senate and house is in line with your candidate for Governor.

Candidates have already begun to crop out for the various offices to be filled in the coming primary. We refer now to county offices strictly. Mr. Roy Sawyer is letting his friends know that he proposes to be a candidate for Commissioner from his district and Deputy Sheriff Fallon states that he will become an active candidate for Sheriff. There may be others, but so far we have heard of no others.

DISTRICT SUNDAY SCHOOL CONVENTION

The first district Sunday School Convention will meet at two o'clock Sunday afternoon, September 28th, 1913, with Oak Hill Sunday school, two miles northeast of Jemison. The following program will be observed:

2:00 p.m. Devotional exercises by C. L. Glasscock.

2:30. What the Sunday school is to the church, Rev. A. R. Aldridge.

3:00. Roll call and reports of Sunday schools in District.

3:20. Why parents should attend Sunday school, Rev. J. F. Winkler.

4:00. Election of district officers for ensuing year.

All Sunday schools in the district are requested to send delegates.

W. E. Thomas, President.
(Miss) Addie Horsley, Sec'y.

EASILY SATISFIED

A FUTURE SHIPBUIDER CELEBRATES.

Last Wednesday was the sixth anniversary of the birth of little Joseph Hester, the namesake and future hope of his father. The little fellow was down town during the morning with his mother on a shopping tour and while they were in one of the stores the fond mother asked Joseph what he wanted for a birthday present? The little fellow's eyes beamed with anticipated joy and in a voice that was both commanding and persuasive, he said: "A nickel's worth of nails."

The coveted nickel was given him and immediately he hiked out to get the nails. In a few moments he was seen happily engaged in driving his nickel's worth of nails into the ground.

A simple, childish wish, wasn't it? But that wish is indicative of greater or larger things; it shows the bent of the young child's mind to say the least, and some day perhaps, we may hear of Jos. A. Hester being at the head of some great ship-building concern, or even better and greater things.

CHILD FEARFULLY BURNED

Tuesday afternoon the little four year old child of Mr. Lacy White, residing on the west side of Clanton, happened to an accident that will probably cost him his life. The little tot wandered into the kitchen unnoticed and pulled over a stove upon which was sitting a boiler of hot water. The water splashed over the little fellow, causing intense agony. Unfortunately the stove was sitting upon but three legs, otherwise the accident might not have occurred.

At the time we put this in print the little fellow is still alive, but grave fears are entertained for his recovery.

GILLELAND-MARCUS

A pretty wedding took place Wednesday night, September the tenth, at the home of Mr. and Mrs. Marion Marcus. when their daughter, Miss Minnie Merle Marcus, and Mr. George Ferman Gilleland, of Macón, Ga., were married.

Rev. L. H. S. Chappelle, of the Clanton Methodist church, was the officiating clergyman.

The many guests were received by Miss Phala Belle Roper, who wore pink charmeuse and lace.

The punch bowl was presided over by little Misses Jones and Shelland in pink and white silk.

Miss Knowlton Marcus, charmingly gowned in white crepe meteor, directed the guests to the bride's book to register, which was kept by Miss Mae Jones.

The many presents of rare value were displayed in the dining room.

Miss Sallie Taylor, of Macon, Ga., played the wedding march; Mrs. J. H. Middleton accompanied by Miss Margaret Watson, sang, "The Hour That Gave Me You" and "Because."

The bride, a beautiful brunette, wore a going-a-way suit of Copenhagen blue, with hat, shoes and gloves to match, and carried a bouquet of bride's roses and lilies of the vallay. The house was beautifully decorated with Southern similax and pink and white chrysanthemums. The wedding took place in the parlor before an arch of vines and under a wedding bell, suspended from the arch.

The ceremony over, the bride and groom left on the ten twenty train for Colorado Springs, San Francisco and other points. They will make their home in Macon, Ga., where the groom holds a responsible position in the Central of Georgia office. The out-of-town guests were: Mrs. Alice Shirah, Mrs. Ida Taylor, Misses Sallie and Lizzie Mae Taylor, Miss Lillian Gilleland, Messrs. Frank Gilleland and Roy Shirah, all of Macon, and Messrs. Blount and Brooks Young, and Mrs. W. E. Mauk, of Birmingham.

IN MEMORY

On September sixth the Death Angel visited the home of Mr. and Mrs. J. M. Gray and took away their little daughter Eula Belle, the jewel of the home. Eula Belle was two and one half years of age, and greatly loved by all who knew her. She was sick only a few days, she was taken away so suddenly that it seemed almost impossible to give her up.

Weep not dear parents for your loss is heaven's gain; it seems hard to give her up but God knoweth best; "Thy will, not ours, be done." He giveth and he taketh away.

The remains were laid to rest in Bethany cemetery, Rev. J. L. Neeley officiating; his scripture was, "Suffer little children to come unto me and forbid them not"

Little Eula Belle is gone but not forgotten.

Thou hast gone to yonder city,
Gone, eternal joys to share,
But, sometime at heaven's portals,
Look for us, we'll meet thee there.

J. M. Williams.

UP TO THE HUMANE SOCIETY

Capture of Two Wild Lambs Likely to Cause Humane Law Enforcement.

Washington.—A question of a state's right to enforce humane laws, in which the United States government is in conflict, is now presented to the Humane society of Montana.

Two wild lambs, the first ever taken into captivity, recently were captured on Triple Divide mountain, Glacier National park. The Columbia garden zoo at Butte had secured permission from the government for two Glacier park rangers to go forth into the mountains and get two wild lambs for exhibition purposes.

The expedition was successfully carried out and the two rangers brought two lambs to Glacier park station, slung across their backs after the fashion of a squaw carrying her papoose. The poor little lambs were bleating piteously and after being sent to the zoo at Butte one of them died.

Now, somewhere up above the clouds in the Rocky mountains of Gla

Only Wild Lamb in Captivity.

cier National park, there are two mother sheep worrying as to the whereabouts of their lost lambs.

In Montana even wild animals are protected to the extent that man must not rob a mother animal of her young.

The remaining mountain lamb now is in the Butte zoo bleating in a manner that would indicate it wants its mother.

Now the question arises, has the United States government the right to give to Superintendent Galen of Glacier National park preserve the right to send two rangers into the mountains to rob two mother mountain sheep of their young and then send the crying lambs into the state of Montana to be kept bleating their hearts out in a zoo? Secretary of the Interior Department Lane will be asked to intervene and send the little lamb back to its mother in the Triple Divide country.

Woman Finally Recovers From Nervous Breakdown

Impoverished nerves destroy many people before their time. Often before a sufferer realizes what the trouble is, he is on the verge of a complete nervous breakdown. It is of the utmost importance to keep your nervous system in good condition, as the nerves are the source of all bodily power. Mrs. Anna Kounz, 211 Mechanic St., Pueblo, Colo., says:

"For many years I suffered from nervous prostration; I was unable to do any house work and doctors failed to help me. Remedies I tried from druggists did not do me a particle of good. A neighbor told my husband about

Dr. Miles' Nervine

and he procured a bottle. After the first few doses I showed a marked improvement, and after taking two bottles I was entirely cured. I have been perfectly well ever since and cannot praise Dr. Miles' Nervine too highly.

"If you are troubled with dizziness, loss of appetite, poor digestion, weakness, inability to sleep, if you are in a general run down condition and unable to bear your part of the daily grind of life, you need something to tone up the nerves. You may not realize what is the matter with you, but that is no reason why you should not take Dr. Miles' Nervine."

Dr. Miles' Nervine

Sold by druggists, first bottle benefits, or money back. Write Dr. Miles Medical Co., Elkhart, Ind.

Mortgage Sale.

Under and by virtue of the power of sale contained in the mortgage executed by A. O. Lane and his wife, Minnie Lane, and W. E. Horne, to the South and North Alabama Railroad Company, a corporation, on the 30th day of May, 1903, which said mortgage was recorded in the office of the Judge of Probate of Chilton county, Alabama, in the record of mortgages in Vol. 67, beginning on page 60, default having been made in the payment of the debt secured by said mortgage, the said South and North Alabama Railroad Company will proceed to sell in front of the Court House door in Clanton, Alabama, at public outcry, to the highest bidder for cash, within the legal hours of sale on Monday, the 20th day of October, 1913, the following described real estate situated in the county of Chilton and State of Alabama:

The northeast quarter of Section twenty-three (23) in Township twenty-two (22) north, Range fifteen (15) east of the St. Stephens meridian. Said sale will be made for the purpose of collecting the said indebtedness secured by said mortgage with interest thereon, and for the purpose of collecting the taxes paid upon said lands by said Railroad Company in the year 1905, and each subsequent year to the time of sale.

Mother of Eighteen Children

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablet's Tablets are for sale by Alred Drug Co.

Capt. J. M. Simpson, Commandant of the Soldiers Home at Mountain Creek, spent Tuesday in Clanton on business.

Diarrhoea Quickl Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by Alred Drug Co.

Mr. Royal Roper came in Monday morning to spend a few days with his parents, Mr. and Mrs. O. O. Roper.

WANTED—Young men and women to become Telegraph Operators. Draughon's Business College, Montgomery, Ala., can qualify you in 60 to 90 days. Positions secured for students. Write Telegraphy Dpt. for full particulars.

Mr. M. A. Messer is having a beautiful residence erected in West Clanton for the occupancy of himself and family.

Adenoids are a Menace to Children

Adenoids result from a succession of of colds in babies and young children. They spoil the mental and physical life of a child. The condition that causes them may easily be avoided by careful parents. Quickly and thoroughly cure all colds and throat irritations by the use of Foley's Honey and Tar Compound, and adenoids will not develop. Alred Drug Co.

Mr. John VanDerveer, who had been on a visit to Kansas City, returned Monday to resume his duties with the VanDerveer Drug Company.

Mr. Jos. P. VanDerveer, who went to Memphis and Louisville on a trip for the Pine Tree Lumber Company, reports having had a most successful and pleasant visit.

Despondency

is often caused by indigesten and constipation, and quickly disappears when Chamberlain's Tablets are taken. For sale by Alred Drug Co.

Mr. Guy H. Roberts left Friday night for Spring Hill, Tenn., where he will resume his studies during the present scholastic year.

Crimson Clover Seed---the kind recommended by Demonstrator Conway. Alred Drug Company.

Hon. Frank N. Julian, a member of the Alabama Railroad Commission, spent several hours in Clanton Monday, having come down to catch a fast train to Montgomery.

BURR CLOVER, the seed to save your corn. Ask us about these seed and the food value of their products; Alred Drug Company.

Mr. H. T. Pipes went over to Montevallo Sunday to attend the funeral services over the body of the late Rev. F. M. Woods.

Caught a Bad Cold

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah E. Duncan, of Tipton, Iowa. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely." For sale by Alred Drug Co.

Mrs. Jackson Devaughan of New Castle continues quite ill at the home of her parents, Mr. and Mrs. Bryant McKee.

Dr. Grady Broadhead leaves within a few days for Birmingham where he will resume his studies in the Alabama Medical College.

FOR SALE.---Home raised Texas Red Rust Proof Oats and Alabama Volunteer Rust Proof Oats. Purple Straw Wheat. All these seed can be bought of us cheaper than elsewhere.

J. N. Davis and G. O. Smith,

Mr. R. L. Woolley, a prominent resident of Montevallo, was here Tuesday circulating among friends.

Foley Kidney Pills cure obstinate cases of kidney and bladder trouble, rheumatism and lumbago, because they remove the cause. You can not take this honest curative medicine into your system without getting the right results. Try them. Alred Drug Co.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, as it taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c.

Two of the large supports to the overhead bridge in the north side of town fell down Tuesday night, necessitating the closing of the bridge to traffic Wednesday.

The healing demulcent qualities of Foley's Honey and Tar Compound are not duplicated in any other medicine for coughs and colds. Any substitute offered you is an inferior article. Refuse to accept it for you can not produce the healing and soothing effec of Foley's Honey and Tar Compound. Insist upon the genuine, which contains no opiates. Alred Drug Co.

Dr. Matthews and Mr. W. H. Sartor are erecting a modern street sprinkler in front of their respective residences.

Now is the time for clover planting; Alred's is the place to purchase your fresh seed.

Mrs. J. R. Mullins and little daughter went to Birmingham Wednesday morning on a shopping tour, returning in the afternoon.

Can't afford to have Kidney Trouble

No man with a family to support can afford to have kidney trouble, nor need he fear it with such a remedy at hand as Foley Kidney Pills. An honest medicine, safe and reliable, costing little but doing much good. Foley Kidney Pills eliminate backache and rheumatism, tone up the system and restore normal action of kidneys and bladder. Alred Drug Co.

NOTICE:—Mrs. R. H. Croswell will resume her music classes in Clanton on Wednesday, October 1st, at the home recently occupied by Dr. P. I. Hopkins. Pupils will please take notice and be ready to begin promptly.
1t.

A short crop of corn in the West makes it imperative that the Southern farmer should plant clover to assist in "filling out." Alred Drug Co. has the seed.

Mr. Victor J. Heard, one of Clanton's prominent young attorneys, left Monday afternoon for Ocean Springs, Miss., where he is to be wedded to Miss Kyle. They will soon return to Clanton, where in future tney will reside.

The colored moving picture show is now in full blast and is attracting large crowds of the colored population.

Get rid of the torments of rheumatism

That you can do by ridding yourself of the cause. Weak and inactive kidneys allow uric acid poisons to remain in the blood and rheumatic pains swollen and aching joints follow. Take Foley Kidney Pills to ease you of the pain and torment. They will positively and permanently build up the kidneys, restore their normal action and keep the uric acid crystals out of th e blood and body. Try them. Alred Drug Co.

FOR SALE---Two perfectly new bed room suites and one dining room suite [oak]; for sale cheap if taken at once. Can be seen at the old Dr. Latham place.
1t [Mrs.] R. F. Kellum.

The new Lyric theatre, under the management of Mr. Harrell, is now in new quarters and feels somewhat chesty over its fine appearance as well as the excellence of the pictures they are showing.

FOR SALE.—Nice Hamilton piano in first-class condition. Cheap for cash if taken at once. For information call on G. C. Headley.

Hon. J. Leon Clay, mayor of Selma, was in Clanton Wednesday on business at the court house.

Maplesville Millinery Company's Fall Opening Friday and Saturday, Sept. 19 and 20. A souvenir given with each purchase. Opposite Post Office.

This has been an extremely dull week in the marriage market. Not a single applicant for a license which binds two lives, and makes two hearts throb as one. Get busy, boys!!

Facing a Serious Proposition

The man or woman who has kidney trouble is facing a serious proposition, where grave complications readily follow neglect. Foley Kidney Pills are an honest curative medicine that once taken into your system mean restored kidney and bladder action, and a return of health and strength. Alred Drug Co.

Old stock 16 bales; wagon and gin receipts 1392; total to date 1408.

Reports from Washington with reference to cotton ginned in Chilton county of the crop of 1913, shows that there were 212 bales ginned prior to September 1st, 1913, as compared with seven bales of the previous year ginned prior to September 1st, 1912.

Legal Notice.

The State of Alabama, Chilton County.
In Chancery at Clanton, Ala., Seventh District, Northeastern Chancery Division.
Zack Abney, et als, vs. Sam Abney, et als.

In this cause it is made to appear to the Register, by the affidavit of Zack Abney that the Defendants, W. B. Abney, John H. Abney and Jennie Clearman reside in Lampasas county, in the State of Texas, and Jennie Mitchell and Frank Trammell reside in Panolla county, in the State of Mississippi, and Sallie Henderson resides in St. Louis county, in the State of Missouri, and further, that in the belief of said affiant, the Defendants are over the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Press, a newspaper published in Clanton, Ala.. once a week for four consecutive weeks, requiring them, the said W. B. Abney, John H. Abney, Jennie Clearman, Jennie Mitchell, Frank Trammell and Sallie Henderson, to answer or demur to the same within thirty days after the 15th day of October, 1913, and failing so to do, a decree pro confesso will be taken against them in said cause.

Done at office, in Clanton, Ala., this 15th day of September, 1913.

Chancery Court. Seventh District, Northeastern Division. No. 9. Fall Term, 1913.
Town of Thorsby, Complainant, vs. Thorsby Winery, Defendant.

By virtue of a decree in said cause rendered at the above term of the Chancery Court for said District and Division, I will proceed to sell to satisfy said decree to the highest and best bidder for cash at public aution, in front of the Court House in Clanton, Alabama, within the legal hours of sale on Monday, the 20th day of October, 1913, the following described property, to-wit:

Lots numbered 13, 14 and 15 in Block No. 6. in the Town of Thorsby, Chilton County, Alabama. Said sale will be had for the purpose of paying the taxes assessed on said lots by the said Town of Thorsby for the year 1912, together with all charges, penalties, interest and costs as provided for under said degree.

This September 15, 1913.
H. M. SIMPSON,
9-18-4t Register in Chancery.

Mr. J. L. Bishop, a prominent attorney of Selma, came up from Selma Wednesday to make an examination of some of Chilton county's records.

NOTICE

Notice is hereby given that application will be made to the Governor of Alabama for the remittance of the forfeiture against the sureties on the appearance bond of Buck Davis. Said forfeiture having been made final by a judgment of the Circuit Court of Chilton county, Alabama, on the 20th day of May, 1912.

This Sept. 10, 1913.

Clanton, R. F. D.

Deputy Sheriff Fallon made a raid on the DuBose pool room at the dam Tuesday night and bagged four white and two negro men gambling. Mr. Fallon reports that the most complete gambling room he ever saw is installed there and that it is about the hardest to reach too.

Notice of Guardian Sale.

Under and by virtue of an order and decree of the Probate Court of Chilton County, Alabama, rendered on the 13th day of September, 1913, I, W. T. Callen, as guardian for William Callen, a minor, will, proceed to sell at public auction, to the highest bidder for cash, in front of the Court House of Chilton County, in Clanton, Alabama, on Monday, the 13th day of October, 1913, a one eighteenth undivided interest in and to the following described lands, situated in Chilton County, Alabama, towit:

That tract of land bounded as follows, to-wit: Beginning at the southwest corner of the Pritchett lot, which Pritchett lot is now known as the Bryant McKee lot, and is situated in the north half of the southwest quarter of Section One (1), in Township twenty-one (21), of Range fourteen (14) East, and running thence south six degrees and 45 minutes west 11 chains and 90 links to a post, thence east 20 chains and 17 links to the right-of-way of the Louisville & Nashville Railroad, thence north 23 degrees and 30 minutes west along said right-of-way to the southeast corner of said Pritchett lot now known as the Bryant McKee lot, thence west along the south line of said Pritchett or McKee lot 13 chains and 5 links to the place of beginning, said described tract containing 20.06 acres, more or less.

Said sale to be made for the purpose of re-investment for the above named ward.

W. T. CALLEN,
Guardian for William Callen.

Don't Wait for the Wood to Show Before You Paint!

Postponing painting is like putting off payment of taxes. You are only piling up expense. The wise man paints often, so that there is always a protecting film of paint between his house and the elements. The more durable the paint, the less often this must be done.

The most durable paint in the world is

Collier White Lead
(Dutch Boy Painter Trade Mark)
and Pure Linseed Oil

when mixed to suit the conditions of the wood. All good painters do it this way. Make sure that yours does it, too, and that he uses Dutch Boy white lead and linseed oil.

Drop in at our store and get our "*Painting Points*," containing valuable suggestions on selecting color schemes for inside and outside your home.

PLANTERS ARE BUSY MARKETING COTTON

BOLLS MATURING RAPIDLY, BUT STAPLE IS SHORT AND SCANT.

HUM OF GIN IS HEARD

Crop Is Short, But Prevailing High Prices Tend to Lessen Disappointment of Growers.

Montgomery. — Gins are humming, busy pickers are crowding the fields of snowy white, warehouses and buyers are busily hustling in their ink-stained linen dusters in Alabama. The harvest is being fathered, but Alabama is not moving a bumper cotton crop as a casual observer would judge from the flurry in business. Instead, a very short one is being pushed to the front while high prices prevail.

In addition to high prices, a short crop and the fact that it opened before maturing good, are also assigned as reasons for the move that is now on with the farmers and others who look to the white staple for their living. But the reports say it will not last long, for a drouth that existed during the critical stage of the cotton season meant a big deterioration.

Showers have continued in a number of different counties in the state during the past week, but in the majority of them they were too late to be of any benefit. Dallas, Lowndes, Perry, Macon and Clark counties report some help from the rains, but the majority of them are still suffering from the parching drouth.

Coffee, DeKalb, Tuscaloosa, Lauderdale, Wilcox, Colbert and Crenshaw counties are still suffering from dry, hot winds and the crop is badly damaged. Late rains received in Clarke, Calhoun and Montgomery counties have been almost as injurious as the original drouth and served only to scald the already suffering plants.

The bolls all over the state are maturing rapidly in the warm weather, but the staple is short and scant on account of lack of moisture in the plants.

New bales are coming into the different towns rapidly and the farmers are receiving a good price for the staple.

MOORING SUCCEEDS LONG.

Annistonian Appointed By O'Neal as Chairman of the State Tax Commission.

Montgomery. — John S. Mooring of Anniston was appointed chairman of the state tax commission as the successor of J. Lee Long, resigned, by Governor O'Neal. Mr. Mooring was named after a short consultation with the executive and it is understood he did not apply for the position.

Mr. Mooring has been interested in tax adjustment work several years and has for several months been special agent of the tax commission. He is regarded as one of the best authorities on taxes in the state. J. Lee Long submitted his resignation last week to take effect upon the appointment of a successor and will become actively interested in the Alabama Colony Company of Birmingham, a business he and Charles H. Scott of Montgomery organized early in the year.

RATE CASE TO HIGHER COURT

Governor Practically Decides to Appeal Statutory L. & N. Case.

Montgomery. — Governor O'Neal has practically decided to carry the original statutory freight and passenger rate case of Louisville & Nashville and other railroads to the United States supreme court.

This case was decided in April, 1912, by Federal Judge Thomas G. Jones when he issued an order restraining the enforcement of the rates. The governor says that as the case now stands the state has lost its fight but that he is confident that the state will win before the United States supreme court.

Before the governor finally decides to appeal the case he will confer with H. C. Selheimer of Birmingham, special counsel for the state in the rate cases. The governor conferred with Samuel D. Weakley, special counsel, and the latter advised that the case be taken before the United States supreme court. The governor believes that Mr. Selheimer will also advise this course of action.

If the supreme court decides in favor of the state it will settle all the old litigation and will clear up the situation to a great extent.

Capitol Meeting Is Postponed.

Montgomery. — Dr. Thomas M. Owen, secretary of the capitol commission, announced that the meeting of the commission set for September 19 has been postponed until September 26. This action was taken at the request of furniture dealers who desire to submit bids on the re-furnishing of the senate chamber and the house of representative hall. About $5,000 will be expended by the commission in the renovation of the two halls used by the state legislature.

SEEKS IMPEACHMENT OF HASTY

Proceedings Brought Before Supreme Court Against Marengo Probate Judge.

Montgomery. — Impeachment proceedings against Probate Judge A. L. Hasty of Marengo county, have been filed before the supreme court by Attorney General Robert C. Brickell.

The proceedings were brought at the direction of Governor O'Neal. Judge Hasty is charged with incompetency, willful neglect of duty and corruption in office. Acting Chief Justice J. J. Mayfield has set October 28 as the date for the hearing.

Charges against the Marengo probate judge were originally made in the report of Examiner of Public Accounts J. T. Gorman, who filed them with Governor O'Neal. The governor has conducted an investigation of the case and has decided to institute the proceedings at once. Citizens of Marengo county have employed Rushton, Williams and Crenshaw to assist the attorney general in the case.

In the bill, it is specified that Judge Hasty failed to keep a docket and to enter up judgments in several cases he tried; that he continuously failed to issue executions against defendants in criminal cases in which confessions of judgment were entered and that he failed to turn over promptly to the treasurer funds collected.

Friends of Judge Hasty declare that he has been guilty of nothing except carelessness and that the proceedings brought against him are the result of the work of some of his political enemies in his county. He will be summoned to appear here October 28 and he will retain counsel to represent him.

$87,387 TECHNICAL SHORTAGE.

Conecuh County Discrepancy Will Be Adjusted, Says Examiner.

Montgomery.—M. B. Salter, treasurer of Conecuh county, is technically short $87,387 in his accounts, according to a report filed with Governor O'Neal by J. T. Gorman, examiner of public accounts. This is one of the largest technical discrepancies ever reported by an Alabama examiner and was caused by the paying of warrants illegally out of the proceeds of a bond issue.

The discrepancy is one that can easily be adjusted, however, and no reflection is cast on the official by it.

According to the attorney general the payment of the money by the treasurer was not in compliance with the law and it will be necessary for the commissioners court of Conecuh to meet and ratify the payment of the sum before it can be termed a legal payment.

Accounts of other officials of Conecuh county are in good shape according to the examiners. There were a few technical errors in the books of some of the officials, but all the apparent shortages were paid when the matter was called to the attention of the officials by the examiner.

It was discovered that the state and county owe W. S. Oliver, tax collector, $1,090 and $1,227, respectively. The overpayment of funds to the state and county occurred as a result of errors in the books of the tax assessor. Mr. Oliver has made good the discrepancies which were charged against him several months ago, which aggregated about $11,000. As a result of the errors in the tax assessor's books this amount was reduced to $9,000, much of which was technical.

RURAL SCHOOL TERMS OCT. 1.

Indications Are for Most Successful Year Among Them.

Montgomery.—Terms in the rural schools of the state will begin October 1 and from reports received at the department of education this will be a most successful year for these institutions. During the progress of the teachers' institutes this summer much valuable work was done by the teachers and in nearly every case they have shown themselves to be more efficient as a result of the meetings. A new teachers' manual will be used this year and this will also bring about improvement.

Some of the smaller schools will open prior to October 1 but the greater number will not be in full operation until after that date. It is also indicated that the attendance at the schools this winter will be unusually large.

LEE CLAYTON GETS JOB.

Successor to Assistant District Attorney Selected by McReynolds.

Montgomery.—Lee J. Clayton of Eufaula, brother of Congressman Clayton, has been selected by Attorney General McReynolds as the successor to Assistant District Attorney Fred Vance of the Middle district of Alabama, according to dispatches reaching here. The assistant district attorney has been made aware of his removal.

TO CONSIDER TROY CASE.

Railroad Commission Holds Special Session September 19.

Montgomery.—Members of the Alabama railroad commission will hold a special meeting September 19 to consider the application of citizens of Troy for a union station. At present each railroad entering the town maintains its own station, and citizens want the railroad commission to arrange for the construction of a station to be used jointly by the transportation companies.

HOW MONEY WAS SPENT BY SULZER

GOVERNOR SULZER'S BROKER TELLS HOW HE LOST BIG SUMS.

WALL STREET TRANSACTIONS

Notwithstanding Statement of Mrs. Sulzer, Fuller Says He Had No Dealings With Her.

New York. — Governor Sulzer's transactions in Wall street from June 27, 1910, till they ceased—at least so far as one firm of brokers was concerned—on July 14 last were described under oath by Melville D. Fuller, who said he was Sulzer's broker, in a hearing held by the nine impeachment managers appointed by the assembly.

Mr. Fuller, who refused to testify before the Frawley investigating committee concerning certain matters, answered all questions. He testified that Sulzer had paid him $16,000 in person within a month and a day after the last election and that he (Fuller) had had no dealings with Mrs. Sulzer.

According to Fullers' testimony, Sulzer, while a congressman, opened an account with his firm, Harris & Fuller, June 27, 1910. In September he testified Sulzer bororwed $23,000 from the firm, giving as collateral 400 shares of "Big Four" railroad stock and in November of the same year Sulzer added some American Smelter stock to his collateral held by the brokers.

"Big Four declined from 80 to 57 within a year," Mr. Fuller continued, "but Mr. Sulzer bought some more of the stock and added Southern Pacific to his holdings."

On November 13, 1912, a few days after he was elected governor, Mr. Fuller continued, Sulzer walked into the office of Harris & Fuller with ten $1,000 bills in his hand. These he paid on his account, his indebtedness, owing to other transactions, having increased to $50,912. On December 6 Mr. Fuller said the governor-elect paid in person $6,000 more in cash on his account.

Lieutenant Commander Josephthal of Governor Sulzer's staff visited the office of Harris & Fuller July 16 last, Mr. Fuller added, and closed the account by paying the balance, $26,739.

TORPEDO BOAT EXPLODES

Two Killed, Three Wounded, on U. S. S. Craven When Boiler Bursts.

Savannah, Ga.—A boiler explosion on the United States torpedo boat Craven, off Tybee, resulted in the death of Chief Water Tender McCaffray and Water Tender Milton and serious injuries to Chief Machinist's Mate Swinn, Water Tender Laughton and Oliver Gabbitt. The Craven was steaming in under a good head of steam when the accident happened. Ensign W. D. Lamont was on the bridge when he saw steam shoot up through the hatches and heard the cries of the men in the fire room, who were being scalded by the boiling water. The hatches were at once closed and the pumps were set to work pumping the water out.

When the hatches were opened Water Tender D. B. Smith went down at the risk of his life and brought out the body of McCaffray. He was badly scalded and lived but a short time. Milton was dead when brought out.

Soon after the explosion the engines of the Craven ceased working and she drifted helplessly until the pilot boat Estill and the tug Cynthia No. 2, both of Savananh, went to her assistance. McCacray died before the Craven reached Tybee.

Break Threatened in Government Dam

Rome, Ga.—The government lock and dam at Mayo's bar, in the Coosa river, now nearing completion, is threatened by a sudden rise of the river. The high water is endangering the dam, which is not yet completed, and the government engineers fear that the pressure of the waters will cause the dam to burst and sweep away the expensive construction which has, during the last two years, cost Uncle Sam $237,000.

Bubonic Plague in California.

Sacramento, Cal.—A death from bubonic plague occurred at Martines, Cal., according to reports received by the state board of health from Dr. J. D. Long of the United States marine hospital service in San Francisco. At the same time a message was received by the board from its secretary, Dr. W. F. Snow, now in Washington, D. C., stating that the federal government had decided to appropriate $40,000 additional to fight the disease. The body of the Martines victim was examined by Doctor Curry.

Postal Clerks Aided in Theft.

London, England.—That postal employees connived at the theft of the $625,000 pearl necklace which mysteriously disappeared July 16 between Paris and London, was established by evidence presented at a hearing. But whether the employees belong to the French or English postoffice the authorities decline to divulge. Five men were arrested on suspicion September 2. Three of them, Lockett, Silberman and Gattworth, were captured at the British museum tube station.

JEROME TRAVERS

Who for the fourth time has won the national amateur golf championship at the tournament at Garden City, N. J.

MAYOR GAYNOR DIES AT SEA

SEEKING HEALTH, THE END COMES ON AN OCEAN LINER.

Fatal Illness Result of Assassin's Bullet Fired Over Three Years Ago.

New York.—The following radiogram was received at Crookhaven from the steamship Baltic:

"To Robert Adamson, Secretary to Mayor Gaynor, City Hall, New York City: Father died Wednesday at one o'clock. Death due to heart failure. Notify mother. R. W. GAYNOR."

R. W. Gaynor is Rufus Gaynor, son of Mayor Gaynor, who accompanied his father abroad.

Mayor Gaynor and his son sailed for Liverpool from this city on board the White Star Liner Baltic on Thursday, September 4.

At that time Mayor Gaynor was so weak that he could hardly walk up the gangplank of the ship. Once on board, he sank down upon a couch and could not speak. He attributed his trouble to a recurrence of a throat ailment induced by the bullet of an assassin at Hoboken three years ago.

Mayor Gaynor planned to sail for home immediately upon his arrival at Liverpool, thinking that the voyage would restore him sufficiently to take part in the fall campaign.

Mayor Gaynor, who, immediately previous to his departure, was nominated for re-election upon an Independent ticket, had planned to make a strenuous campaign this fall.

His death will have considerable effect upon the political situation in this city.

At the White Star Line office, it was said that the Baltic should be between 300 and 400 miles off the coast of Ireland.

Crookhaven is on the coast of Ireland. There is an important wireless station there. From Crookhaven the death message was relayed to New York.

Federal Veterans Meet in Reunion.

Chattanooga, Tenn.—Bent upon their first peaceful invasion of the South, thousands of Union veterans arrived here to attend the forty-seventh annual encampment of the Grand Army of the Republic and allied organizations. In honor of the occasion, Chattanooga is in gala attire. Citizens' committees throng the railroad stations, welcoming the veterans. Survivors of the Union army which caused the Confederacy to totter in the decisive battle of Chickamauga fought here fifty years ago are greeted with the same cordiality shown the United Confederate Veterans, whose annual reunion was held in Chattanooga last May.

Say Botha Forced to Sign.

Johannesburg. — Sensation stories are current regarding the conference between the government officials and mine leaders which resulted in a settlement of the gold mine strike on the Rand on July 5 last. Some of the labor leaders assert that Gen. Louis Botha, ex-premier of the Union of South Africa, and General Smuts, the minister of the interior, mines and defense, were compelled at the point of a revolver to sign the agreement. General Smuts has issued a denial of this.

Envoy Arrives in Washington.

Washington.—Senor Manuel Da Zamacona, former Mexican ambassador to the United States, who is supposed to be charged with the task of reopening the negotiations between the United States and the Huerta administration for a peaceful solution of the troubles in Mexico, arrived, with Senor Algara, charge d'affaires of the American embassy. Senro Da Zamacona did not reveal the character of his mission. He maintained that he had come to the United States on "private business."

Farmer Killed by Nephew.

Maultrie, Ga.—William Clark, a prominent farmer and landowner, living in this county, was shot to death by his nephew, Fulton Crosby. Trouble has been narrowly averted for some time between the two, it is said, owing to a dispute concerning a land line which separated the plantations of the two parties. This ill feeling culminated in the killing of Clark, who had gone to the home of Crosby accompanied by his two sons to talk their disputs the matter.

MUST QUIT SELLING CALVES

Expert Sounds Warning Against the Selling of Female and Immature Stock.

Atlanta, Ga.—If the southeast is to become the great cattle growing section that it should in view of its natural advantages and the present and growing demand for cattle with commensurate prices, farmers must quit selling their female and immature stock, declares Dr. C. M. Morgan, dairy agent of the Southern railway, who sounds a warning against a continuation of the wholesale deportation of cattle from the south.

"Farmers should keep their heifers and build up the quality of their stock by the use of pure bred bulls of dairy or beef type as desired," says Dr. Morgan. "This is the only way to increase the number or the quality of cattle in the southeast. The scarcity of cattle is world-wide and it will never be possible to secure enough pure bred cattle to develop the industry in the southeast.

"Farmers who sell calves are simply giving the dealer a good part of the profit they should have themselves. If calves were fattened on the farm, using cotton seed meal as a concentrate, a higher price per pound would be received and the farmer would not only profit by this and the additional weight but would have in the manure 85 per cent of the fertilizing value of the cotton seed meal.

"With the good grazing furnished by Bermuda grass and burr clover and the abundance of forage crops that yield bountifully in the southeast, this section should be the great source of the country's beef and dairy products supply. The dairly division of the Southern railway will send a man to help build a dipping vat or silo and to co-operate with persons in the dairy business or desiring to enter it. The United States Department of Agriculture has offered to co-operate with farmers who have eradicated ticks and will send an expert to aid farmers in choosing desirable bulls of either dairy or beef type."

Southern Commercial Congress.

Washington, D. C.—President Wilson and a large number of senators, representatives and delegates to the Fifth Annual Convention of the Southern Commercial Congress at Mobile, Ala., October 27-29, will travel from Washington to Mobile in a train de luxe, to be known as the "President's Special." Railway officials are now arranging for this train, which will be the finest that ever traveled in the south.

The greatest gathering ever held by women of the south will occur at the meeting of the Southern Commercial Congress, when the Woman's Auxiliary of the Southern Commercial Congress will hold its convention.

Mrs. Woodrow Wilson, wife of President Wilson, is the honorary president-general of the Woman's Auxiliary, and Mrs. Thomas M. Owen, wife of Dr. Thomas M. Owen of Montgomery, Ala., director of the Alabama state department of archives and history, is president-general. Mrs. Martin of Montgomery, Ala., is secretary of the Auxiliary.

Many Will Attend Roads Meeting.

Birmingham.—Every mail is bringing in acceptances of prominent good roads advocates and distinguished speakers and officials accepting invitations to attend the Seventeenth Annual Session of the Alabama Good Roads Association, which meets in Mobile on November 20, 21 and 22. Congressman John L. Burnett was the first congressman from Alabama to positively accept. Hon. Fred L. Blackmon, congressman from the Fourth Alabama district, who is chairman of the sub-committee on post roads in Congress, has written the secretary assuring him that he will be in attendance and pledging himself to do all in his power to advance the cause of good roads.

Curing Headache by the Knife.

A Dr. Henning of London reports an operation worthy to be called by his name, since in its therapeutic application it has been conceived and carried out by himself alone. Upon a brother physician forty-eight years old, who was a chronic sufferer from gastro-enteritis and severe headaches the latter coming on twice a week and lasting from a day to three days, Henning performed a unique operation, suggested, doubtless, by the fact that the patient himself noted that by grasping the back of his neck with the right hand and making pressure his pain would be relieved for a time.

Twice were large strips of superfluous skin removed from the neck with great betterment, though the patient has sick headache occasionally when he does not watch his digestion and lets himself become constipated. The beneficial effect from the operation is attributed by Henning to the tightening of the skin and the removal of four pieces, thus supporting the circulation just as an elastic stocking gives support to the varicose veins of the leg.

Not Their Fault.

First Bloodhound (with Uncle Tom's Cabin troupe)—Ever see such miserable houses? We'll be stranded sure.

Second Bloodhound—Shouldn't wonder. Well, what can we do with such wretched support?—Puck.

Taken Out Too Soon.

Mrs. Newlywed—These hen's eggs seem very small this morning.

Farmer—Can't help it, lady.

Mrs. Newlywed—Well, let my next ones stay in the nests a little longer.—Judge.

FOOD PRICES ARE ON THE INCREASE

THE HIGH COST OF LIVING CONTINUES TO MOUNT HIGHER AND HIGHER.

SOME COMPARISIONS MADE

Three Per Cent. Higher Than Year Ago and Fifteen Per Cent. Higher Than 2 Years Ago.

Washington.—The cost of living on June 15 was approximately higher than the average between 1890 and 1900, more than three per cent. higher than it was a year ago and nearly fifteen per cent. higher than it was two years ago.

Investigations of retail prices in 40 cities conducted by experts of the bureau of labor show prices practically at the same level as last November, when the high records of the last quarter century were reached.

Fourteen articles of food were investigated, and compared with the average prices between 1890 and 1900. Every one except sugar showed a marked advance; bacon, which led in the soaring, went up 128.5 per cent.

Other articles which showed remarkable advances were:

Pork chops 111 per cent.; round steak 102.5; smoked ham 84; hens 76.8; sirloin steak 75.2; rib roasts 75; lard 66:5; corn meal 57.3; potatoes 44.4 1-8; butter 41.3; eggs 40.8; milk 38.4; and flour 28.6. During the same period sugar showed a decline of 8 per cent.

During the last year prices of eleven and fifteen articles investigated went up.

Bacon advanced 16.2 per cent.; smoked ham 14.1; pork chops 13.4; hens 11.8; eggs 11.7; round steak 10.1; sirloin steak 9.8; lard 7.2; rib roast 6.8; butter 5.8, and milk 4.1.

The other four declined as follows: Potatoes 31.9; sugar 15.2; wheat flour 7.7, and corn meal 3.9.

Prices were investigated in Atlanta, Baltimore, Birmingham, Boston, Buffalo, Charleston, S. C.; Chicago, Cincinnati, Cleveland, Dallas, Denver, Detroit, Fall River, Mass.; Indianapolis, Jacksonville, Fla.; Kansas City, Mo.; Little Rock, Ark.; Los Angeles, Louisville, Manchester, N. Y.; Memphis, Tenn.; Milwaukee, Minneapolis, Newark, N. J.; New Haven, Conn.; New Orleans, New York, Omaha, Philadelphia, Pittsburg, Portland, Ore.; Providence, R. I.; Richmond, Va.; St. Louis, St. Paul, Minn.; Salt Lake City, San Francisco, Scranton, Pa., Seattle and Washington, D. C.

SULLIVAN KILLED BY TRAIN

Sullivan's Body Found in Morgue. Fled From Brother's Home.

New York.—"Big Tim" Sullivan, the former powerful East Side politician, who has been ailing mentally for a year and who disappeared ten days ago from the home of his brother, Patrick H. Sullivan, was killed by a train on the New York, New Haven and Hartford railroad.

Identification of the body was brought about by a policeman who knew Sullivan. He happened to pass through the Twenty-sixth street morgue when he saw a face that looked familiar. He did not at once recognize the dead man, but later he decided that it was Sullivan.

The Bowery is in mourning, and its residents formed in little groups to discuss the passing of their leader, Congressman "Big Tim" Sullivan, and to lament the manner of it, while on all sides are heard expressions of regret for the unfortunate circumstances which almost sent his body to a pauper's grave after having laid two weeks unidentified subsequent to his death beneath the wheels of a freight locomotive.

Mrs. Godbee Found Guilty.

Millen.—With the doomed woman sitting stolidly in her chair in the Jenkins county court house, staring blankly and unbelievingly at the 12 jurors who had just pronounced her guilty; Judge F. A. Saffold, chief of counsel for Mrs. Edna Godbee, sentenced to imprisonment for life for the killing of Mrs. Florence Godbee, the bridge of her divorced husband.

Death Descends From the Clouds.

Goldfield, Nev.—Several lives were lost and much property destroyed by a cloudburst at Goldfield. Goldfield is located in a basin with the Malahal range to the south and two deep gulches striking the east and west sections of the town. Within an hour these gulches were roaring rivers, and all houses in their path were swept away. The dead are Mrs. L. E. Carmo and child, a laundress, two unidentified persons whose bodies were seen going down the gulches, but were not recovered.

Americans Held by Rebels.

Mexico City.—One hundred Americans, including a number of women and children, refugees from Torreon, are reported to have fallen into the hands of rebels while proceeding overland to Saltillo. The authorities at Saltillo decline to take the responsibility of sending a force to their rescue, fearing, they say, that the rebels might commit atrocities on the refugees which otherwise might be avoided. The report comes from an official source at Saltillo. The American embassy has been advised.

FRANCIS BURTON HARRISON

Francis Burton Harrison, the millionaire congressman from New York, has been selected by President Wilson as governor general of the Philippines.

SENATE PASSES TARIFF BILL

VAIN STRUGGLE MADE BY THE REPUBLICANS TO FORCE THE AMENDMENTS.

Democrats Presented Solid Front and Only Allowed Such Amendments as Were Suitable.

Washington.—The Democratic tariff revision bill passed the senate amid a burst of applause that swept down from crowded galleries and found its echo on the crowded floor of the senate.

Its passage was attended with surprises in the final moments of the voting, when Senator LaFollette, Republican, cast his vote with the Democrats, and was joined a few moments later by Senator Poindexter, Progressive.

The Democrats had counted throughout the long tariff fight upon losing the votes of Senators Ransdell and Thornton of Louisiana, Democrats, who voted against the bill because it would put sugar on the free list.

Until the names of Senators LaFollette and Poindexter were actually called, however, no one knew definitely the stand they would take, and their votes were greeted with enthusiastic applause.

The vote was 44 to 37 in favor of the bill after all amendments had been defeated.

President Wilson expressed great gratification over the end of the long struggle in the senate. Senator Simmons, chairman of the finance committee, who had piloted the bill through the finance committee, the Democratic caucus and the senate, predicted that its passage would certainly bring immediate stimulus to the commercial life of the country.

NEGROES SHOT BY A MOB

Two Blacks Shot Up a Store When Raised Bills Were Refused.

Cairo, Ill.—One negro was killed and another is believed to have been fatally wounded by a posse of citizens near Tamms, Ill., following the negroes' attempt to force a merchant of Tamms to accept a bill which had been raised from one to five dollars.

When the clerk refused to accept the bill in payment for a small purchase the negroes drew revolvers and began firing as they backed out of the store. The clerk was not injured. Citizens formed a posse and with deputy sheriffs started in pursuit.

A running fire was exchanged, but the negroes escaped. Bloodhounds from Anna, Ill., tracked them to a field south of Tamms. Here the lifeless body of one of the negroes was found. The other negro escaped, but is thought to have been wounded.

Airship and Crew Drop Into Ocean.

Berlin, Germany.—Germany's ambition to maintain a squadron of airships as an adjunct to the navy met a rude check in the destruction of the L-1 in a hurricane in the North sea. The loss of life is variously estimated at from thirteen to sixteen, among the dead being Captain Metzing, commander of the marine airship division; Captain Hanne, commander of the L-1, and Baron Von Maltzahn. The airship was engaged in reconnoissance work in conenction with the torpedo boat maneuvers.

Lives Saved by All-Steel Train.

New Madison.—An all-steel train probably saved a score of lives when the Pennsylvania flyer, New York to St. Louis, was ditched by a raised rail near Wylie's Station, four miles west of New Madison, Ohio. Thirty-five persons were injured, three, it is believed, fatally. Running at a terrific speed to make up lost time, the fast train struck the defective rail about fifty feet from the approach to a small steel bridge. The engine hit one side of the bridge, tore it from its foundation and fell with it.

Women Avoid Operations

When a woman suffering from some form of feminine disorder is told that an operation is necessary, it of course frightens her.

The very thought of the hospital operating table and the surgeon's knife strikes terror to her heart, and no wonder. It is quite true that some of these troubles may reach a stage where an operation is the only resource, but thousands of women have avoided the necessity of an operation by taking Lydia E. Pinkham's Vegetable Compound. This fact is attested by the grateful letters they write to us after their health has been restored.

These Two Women Prove Our Claim.

Cary, Maine.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine." —Mrs. HAYWARD SOWERS, Cary, Me.

Charlotte, N. C.—"I was in bad health for two years, with pains in both sides and was very nervous. If I even lifted a chair it would cause a hemorrhage. I had a growth which the doctor said was a tumor and I never would get well unless I had an operation. A friend advised me to take Lydia E. Pinkham's Vegetable Compound, and I gladly say that I am now enjoying fine health and am the mother of a nice baby girl. You can use this letter to help other suffering women."—Mrs. ROSA SIMS, 16 Wyona St., Charlotte, N. C.

Now answer this question if you can. Why should a woman submit to a surgical operation without first giving Lydia E. Pinkham's Vegetable Compound a trial? You know that it has saved many others—why should it fail in your case?

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

HIS WIFE'S "LITTLE" PARTY

Brother Smudge Tells of Proceedings That Followed Reunion of Former Spouses and Their Children.

"What was dem puhseedin's up at yo'-all's residence last night, sah?" inquired Brother Yockey. "Noise and gwines-on twell it sounded like a camp-meetin', mighty nigh, and—"

"'Twusn't nuth'n' special, sah; dess a little reception da muh wife got up," replied Brother Smudge. "She 'vited her fust husband, and de second gen'leman she was divo'ced fum, and would-uh 'vited her third husband, on'y he is in de penitenchy at de present, and deir wives; and muh fust, third and fou'th he'pmeets—de second lady I was mar'd to is done dead—and also deir husbands. And dey brung deir chil'en, and dar was right smaht of a 'semblage, sah. Uh-well, purt' soon dey got to rakin' up old times all 'round, and turrectly de fightin' begun. Dey busted up consid'able o' de furniture to make clubs to beat each udder wid, and part o' de floor broke down and some of 'em fell th'oo de hole and went on fightin' under de house, and somehow or nudder de edifice got afiah, and I reggin' 'twould-uh burnt plumb up if de constable hadn't uh-come wid a gang o' white men and 'rested everybody but me."

"And you calls dat nuth'n' special, sah?"

"Nope! 'Twus on'y what mought uh-been expected wid dat sawtuh folks herded togedder in one house."

"H'm, mebby! But how-come dat yo' wasn't 'rested, too?"

"I wasn't dar, sah. I didn't 'cept de lady's invitation."

WILL WOMAN BE SUPREME?

Prophets Declare That Men Are Destroying themselves by Many Bad Habits.

It is becoming fashionable to wail about the physical shortcomings of modern men, and to predict that in the near future women will surpass their brothers in bodily strength. Sometimes this prophecy is based on evolution. More often the prophets declare that men are destroying themselves by bad habits, and that women, who lead more cleanly lives, will inherit the strength of the earth.

Such predictions are nonsense, of course. But they have this much of foundation, that the habits of men and boys are less conducive to health and strength than those of women and girls. Smoking during the period of growth is bad for persons of either sex; but in this country, at least, few girls in their teens have anything to do with tobacco. Liquor drinking at the same period tends to stunt growth, and more boys drink than girls.

The practical result of these prophecies of woe will be to spread good physical habits, without relation to sex. In spite of their long residence side by side, men and women still have something to learn from each other.

Women began their learning first. They have opened windows, claimed their share of fresh air, and taken part in athletics. If men are now moved to turn to curb their desire for stimulants and narcotics, at least until the period of growth is finished, the race will be gainer.

Avoiding the Issue.

Gloom in the law office of Platt & Jones was thick enough to cut. Clients were unknown, and neither of the partners had any ready money. Nevertheless, at the close of day, Jones, who was young and audacious, approached the senior member of the firm, who was working out an imaginary case.

"I say," he began, nervily, "lend me five for a week, old man."

The other shook his head, without looking up. "I might do it for a weak old woman," he said, "but not for a weak old man."—Youth's Companion.

Knew His Business.

Dick and Jimmy were visiting their grandmother, who spoils them, as all grandmothers will. One night they were saying their prayers, and little Jimmy vociferated his petitions to the heavenly throne in a voice that could be heard a mile away. He was telling the divine Providence what he wanted for Christmas, and this enthusiasm in the cause got on his brother's nerves. "What are you praying for Christmas presents so loud for?" interrupted Dick. "Th' Lord ain't deaf." "No," whispered Jimmy, "but grandma is."

Greek Rulers.

Greece has not treated her rulers well since she threw off the yoke of the sultan ninety years ago. At the outset she tried a president, Capodistria, who was soon assassinated; then Otho of Vavaria was chosen king, but after a stormy time was forced to abdicate. After that the crown went begging for a while. The duke of Edinburgh and the earl of Derby both refused it, and it was common talk that "Mr. Gladstone could have had it by the lifting of an eyelid."

Has His Supplies.

"My husband is very thoughtful."

"Never brings unexpected guests home to dinner?"

"Yes; sometimes he does that, but he always brings along a pound of bologna sausage and a can or two of soup."

Naturally So.

"I have found out the people next door are living a double life."

"Twins, eh?"

"Yes; they've got twins."

Chilton County Fair

OCTOBER 20th to 25th, 1913

The Chilton County Fair Association will give away more than $1500 this year in prizes. The prizes offered this year are larger than ever before. They are offered on Corn, Cotton, Sweet Potatoes, Hay, Small Grain, all kinds, Forage Plants, Peas, Beans, Fruit, Vegetables, Jellies, Pickles, Live Stock, all kinds, Poultry, Ladies' Work, Children's Work, Plants and Flowers, Dairy Products, Meats. In fact the list covers everything in the home or on the farm.

Call on or write G. O. Foshee, Clanton, Ala., for catalog, showing all the premiums.

Separate tents for colored people.

The L. & N. and the People

We have from time to time called on the people to co-operate with us in our constructive policy of developing the soil of the state along practical lines.

Many of the people have availed themselves of the services afforded by our experts. Such excellent results have followed that we are planning to enlarge the scope of the work. We want to know the individual needs of the people, so that we can meet and supply them.

The L. & N. is determined that its service in all departments shall meet the requirements of the people. Not only that, but the L. & N. plans for the future, seeking to anticipate the requirements of the people, so that it can be on hand first with the best service.

We have interested capital in the development of the territory; we have purchased and contracted for double tracks, track extension and rolling stock; we have built up a corps of loyal employees to serve the traveling and shipping public; we maintain a standard of transportation unexcelled by any railroad anywhere.

It would seem, as a selfish proposition, that we would be content now to go ahead and rake in the profits resulting from this work. That would be the hand-to-mouth way of operating a railroad. If we did that, the roadbed and equipment would depreciate, the territory would remain undeveloped, business would stagnate, and in a few years we would be without traffic.

The people have demonstrated willingness to take advantage of the work of development in which we are engaged. We hope to continue that work, and from time to time to extend it and enlarge the scope.

The L. & N. is a permanent property. It will be operated for years to come, to afford transportation facilities to future generations. This being true, it must be maintained upon the same high plane of excellence which has characterized its management in the past.

If this is done the people will prosper and the L. & N. will have freight and passenger traffic. We are, therefore, determined to co-operate with the people, and believe that the people will continue to co-operate with us.

We ask the people to think about these things, so that they will get a correct understanding of the larger functions of a railroad.

LOUISVILLE AND NASHVILLE RAILROAD COMPANY

HAD DONE NOTHING MUCH

Woman Testifies at Trial That She Had a "Little" Work to Do Following Man's Arrest.

"You say, madam," said the lawyer to the woman on the witness stand, "that it was ten o'clock at night when you first heard the trouble in the street in front of your house, and your family were all in bed. Did you do anything after going to the window and watching the policeman arrest the man?"

"No—at least nothing to speak of. I just set some bread to rise and mended a hole in one of my children's stockings, and put some clothes I wanted to wash the next day to soak, and chopped up some potatoes and meat to make hash for breakfast, and put a button on my husband's trousers, and set the table for breakfast so as to save time in the morning, and laid the fire so I wouldn't have anything to do but light it in the morning. Then I sort o' tidied up my kitchen and seeded some raisins for a cake I wanted to bake the next morning, and emptied the water under the ice-chest, and went down cellar to see that the furnace was all right for the night. I brought some apples up from the cellar and pealed them so as to have them ready for something I wanted to make the next morning. Then I wound the clock and read the paper a few minutes, and did three or four little things a woman is apt to have to do before she goes to bed when she has a family to look after, but nothing to speak of, after all."

SEEKS KEY TO POPULARITY

Man Much Sought After by Book Agents and Solicitors Wonders Why Elite Scorn Him.

"I don't know what's the matter with me?" grumbled the Old Codger. "By people of worth and substance—busy, clean, representative folks whose good opinions I really feel I ought to possess—I am regarded as more or less of a kicker, back-puller, grouch and mossback; and by some few, I believe, as an object of suspicion. But, on the other hand, I never fail to make a favorable impression on, and an immediate hit with, every blamed bore, agent, solicitor, bum politician and other nuisance that happens into my vicinity. Auger-eyed gentlemen with schemes, oily ones with encyclopedias, somber ones with town lots in the middle of Dismal Swamp, apocryphal friends of my boyhood, up-getters of funds for the preservation of historic huts and the amelioration of far-flung heathen, and deadbeats and lame ducks of all kinds, come miles and fairly fall over each other to get to me. What in fire is the matter with me, anyhow?"

Records in Writing.

"Michael Fairless," according to her biographer, wrote her masterpiece, "The Road Mender," in nine days. A remarkable feat, but by no means a record, for did not Johnson write "Rasselas"—a book of about similar length to "The Road Mender"—in the evenings of a single week, and Dumas undertook, for a bet, to write a first volume of the "Chevalier de la Maison Rouge," to consist of 50,000 words, in 76 hours, and won with six hours to spare! Among modern writers Sir Arthur Wing Pinero turned out his play, "Two Hundred a Year" in a single afternoon. On the other hand, it took Gray years and years to write his elegy. So you cannot set the record of time and achievement.—London Chronicle.

Last Works of Great Composers.

It is curious how the great composers of opera have turned their attention to religion at the end of their careers. The last work of Wagner, "Parsifal," though a "music drama," is a work of decidedly religious import. Mozart's last, and perhaps greatest work was a "Requiem." Verdi also completed his career as a composer by writing a "Requiem" of marvelous beauty. Even the frivolous Rossini turned his attention to religious matters, and his last work was the "Stabat Mater."

Lazy.

"He was very lazy, Mr. Perkins," said old Mrs. Jones. "I must say my first husband was a very lazy man."

"How lazy was he?" I asked.

"Well, he was so lazy, Eli, Mr. Jones was so lazy, that he wouldn't shovel a path to the front gate."

"How did he get the path broken out?" I asked.

"Oh, he used to lay on the lounge and pinch the baby's ear with the nippers until the neighbors came rushing in to tread down the snow."—Ell Perkins.

From a Teacher's Collection.

Ray came tardy to school one morning, but her eyes were shining and her cheeks glowed as she rushed to the teacher to explain. "The stork brought a baby brother to our home last night, and of course mother's better now that she has a little boy, 'cause she always wanted one. The doctor went out in the alley and met the stork and he gived it to him. Now we have two babies; one's a year old and the other's—I don't know how old the other is, but I'll ask."

A Self Entertainer.

"Grace is such a restful friend."

"Restful!" Why, she chatters all the time."

"That's just it; I never have to think what to say when I'm with her."

It's Between Seasons

But that makes no especial difference; it's all the more reason for buying now while we are selling cheap.

CLANTON PRESS

PUBLISHED IN THE INTEREST OF CHILTON COUNTY AND HER PEOPLE

VOL 4. CLANTON, ALA., THURSDAY SEPTEMBER 25, 1913 NO. 25

JUDGE REYNOLDS AND HIS PROPHECIES

Judge L. H. Reynolds, of Chilton county, was a visitor to Montgomery Wednesdav on a business errand. Judge Reynolds was Probate Judge of Chilton county for eight years but in 1910 a democrat beat him out of the office. He is one of the most prominent Republicans in the State, but followed the Roosevelt movement last year.

"I'm a Bull Mooser,' he said to a reporter, "and as a Bull Mooser I am greated interested in the hard things which Democrats are saying about each other. Now, I don't propose to dispute with a Democrat about his opinion of another Democrat. Maybe, both of them are right! How do I know? Comer is strong in Chilton county in my opinion and he would carry the county if the election was held."

The same reporter, in 1909, had written two interviews with Judge Reynolds in 1909, predicting that Chilton county would go for the prohibition amendment by between 600 and 800 votes, the Judge being a stannch amender and one of the Republican leaders who were allies of Governor Comer in that ill starred fight. The reporter remembered that Chilton county did not go the way the Judge predicted—not at all that way. The majority against the amendment was just about the size that Judge Reynolds predicted it would be for the amendment. —Advertiser.

CARD OF THANKS

Editor Press: — Permit us, through your paper, to extend our grateful thanks to our many friends throughout Chilton county and most especially those of Maplesville, for their kind ministrations and tender expressions of sympathy in our recent great bereavement. May God's richest blessings abide with them all.

Gratefully,
Mrs. F. M. Woods and Children.
Maplesville, Ala., Sept. 22, 1913.

ALABAMA GOOD ROADS MEETING

Verbena, Ala., Sept. 22, 1913

Editor Press:—I send herewith a letter from Col. John Craft, of Mobile, extending a hearty invitation to all who can, to go from Chilton county to the Alabama Good Roads meeting in Mobile on Nov. 21st to 23rd. I, as an officer of the Association and citizen of the county of Chilton, also extend to all, or so many of the citizens of both sexes, as can, to attend and thus show your enthusiasm in and for the cause of good roads.

It is now, and will ever be a live issue both, social and political, as well as economic and financial conditions of the whole country, and why not the people of Chilton take their respective places therein? F. A. Gulledge.

Mobile, Ala., Sept. 20, 1913

Hon. F. A. Gulledge,
Verbena, Ala.

My Dear Mr. Gulledge:—The 47th annual meeting of the Alabama Good Roads Association will be held in Mobile, Nov. 20th, 21st and 22nd, and I want you to come to Mobile and bring a big delegation.

We are going to have a number of Governors and Congressmen present, and one of the principal subjects will be national aid. Among those who will address the meeting will be Hon. Dorsey W. Shackelford, Chairman of the Committee on National Aid. This committee is composed of twenty-one congressmen. Mr. Shackelford is a very able man and is very much interested; he is also a practical man.

I want you to come to Mobile and take and take an interest in this big meeting. I want you to come to Mobile anyhow.

I think of you often and regard you as one of my friends, that is why I am writing you as I want your co-operation in this great work we are engaged in in.

Yours very truly,
John Craft,
President.

FAMILY REUNION

TWO BRIDES; REV. JAMES TOY WILLIAMS AND WIFE LEAVE FOR CHINA.

On Friday morning, September 19, the chiidren of Mrs. Lelia Williams began to assemble at her home, two miles west of Clanton, from various parts of the county. James Toy, from Jacksonville, Fla. where he is assistant pastor of the First Baptist church; Jerome, of Athens, Ala., where is pastor of the Baptist church; Harvey, from Maplesville, where he has a posiion in Union State bank as cashier, and Greely, of Thorsby, where he is a pupil in Unity-Chilton Baptist High school. The others were near home.

Perhaps the main feature of the day was the coming of two brides. James Toy was, on September 16, married to Miss Laurie M. Smith, of Milledgeville, Ga. Ernest was, on the afternoon of the 18, married to Miss Margarette L. Wood, of Verbena. The two couples spent the night at the Exchange Hotel in Montgomery and arrived home at 10:26 on the morning of the 19th. J. Toy and wife will sail from Seattle, Washington, on October 7th for Canton, China, where they will spend their lives as missionaries. Ernest and his wife will make their home with his mother, Ernest looking after the farm and spending part of the time in the store.

So, by eleven o'clock, eight sons, two daughters, five daughters-in law, and seven grand children had assembled at mother's side to spend a few hours. Mr. and Mrs. Wood, father and mother of one bride, Wallace, a brother, and Pearl, a sister, were also present. Of course the "fatted calf" had been slain and everything that a mother's hand could prepare had been prepared for a great dinner. The wedding feast—the reunion banquet, at home was thoroughly enjoyed by all.

The afternoon was pleasantly spent around the home, which had been happily arranged for the occasion. In the evening James Toy read from God's Word 19th Psalm and Jerome led the prayer. There were five vacant chairs—one for each, a father, a brother, a sister and two grand children. We were sad to mention these, but, rejoice to know His blessings are upon us. Soon the family sang "Abide With Me" and parted, to meet again, we know not where or when.

CARD OF THANKS

Editor Press:—Allow us, through the columns of your worthy paper to extend our heartfelt thanks to the good people of Clanton who so kindly assisted us during the illness and death of our darling babe. Also Drs. Johnson & Johnson and Marcus. May the choicest blessings of heaven rest upon you all.

Lacy and Ila White.

STATE FAIR BEATS PREVIOUS RECORDS FOR PREMIUMS

The premiums awarded for agricultural exhibits by the Alabama State Fair at Birmingham this year are much larger than on any previous year and are far in excess of those offered by most of the other fairs. Acting Secretary Fowlkes of the fair association has compiled figures showing the difference.

For instance, The Alabama State Fair pays $1860 in premiums for the best county exhibits, while the Mississippi Fair pays $925; North Dakota $110 and Oklahoma $1235. The individual premiums given by the Alabama State Fair amount to $500 while Mississippi offers $225, Georgia $350, North Dakota $114 and Oklahoma $75. Premiums in other departments hold to about the same proportion in favor of the Alabama fair.

Girls' Canning Clubs.

Great interest is being shown in the work of the Girls' Canning Clubs and the premiums in this department will be very liberal for the coming fair. The county prize for the best exhibit will be $20 for the first, $15, second and $10, third. The best local club exhibit will be awarded $15, the second $12 and the third $6.

There are six prizes for best individual exhibits, to include vegetables canned, bottled or jarred products, ranging from $16 for the first and $11 for the second to $1 for the sixth. The best individual exhibit of the tomato only will be given $10, second $6, third $5, fourth $2 and fifth $1.

Besides the premiums each member of a Girls' Canning Club making an exhibit and visiting the Alabama State Fair will be presented with a pin emblematic of the club. Members of the Boys Corn Clubs making exhibits and visiting the fair will likewise be presented with pins bearing the emblem of their organization.

Boys' Corn Clubs.

There are fourteen prizes of $10 each offered for Boys' Corn Club exhibits. This contest is open to members of Alabama Corn Clubs only and the prizes will be awarded to the fourteen boys having the best exhibit of ten ears, selected from the boys in each county represented, having the best exhibit from their respective counties.

The State Fair association will pay $100 in cash to the authorized representative of each county exhibit that is properly installed and completed ready for exhibit twenty-four hours before the fair opens, provided the exhibit is deemed creditable, regardless of whether it is awarded a regular premium or not. This is a more liberal offer than was made heretofore, as at previous fairs it was required that the exhibits be ready forty-eight hours before the opening of the fair.

A bonus of $50 will also be paid for each creditable, collective individual exhibit installed and ready for exhibition twenty-four hours before the fair opens, which is at 9 o'clock on Thursday, October 2.

Immense Poultry Show.

There were more than 3,000 birds exhibited at the Alabama State Fair of 1912 and Dr. Hal F. Halstead, superintendent of the poultry department, expressed the opinion that this number will be greatly exceeded at the coming fair.

For the convenience of exhibitors "Egnatt's Patent" coops have been installed in the new poultry building, which was already nearly perfect. Special arrangements have also been made to take care of 1000 ducks if that many should be offered for exhibit.

Three judges of national reputation will judge the poultry exhibit and these will be assisted by a special judge to look after the ducks. There will also be a special Bantam show. Here enough pink and blue chickens will be exhibited and instructions for their breeding will be given by the man who originated the strain.

It has been arranged that the judges remain at the fair long enough after the birds are judged to give the owners an opportunity to find out the specific reasons why their birds won or failed to win. There will be special lectures by the judges which should prove of exceptional interest and value to all children [illegible]

WHAT BAD ROADS DO

The following clipping taken from the "Southern Good Roads," a monthly magazine devoted to road improvement, is very suggestive and shows very plainly how bad roads affect not only the farmer, but all classes alike:

One of the things that bad roads do to folks Governor Dunne, of Illinois, recently enumerated the following:

"The loss to farmers, because of inaccessible primary markets and the abnormal expense of transportation due to bad roads, must be considered as a contributing cause of the high cost of living. In some Illinois counties highways are impassable to ordinary loads for a third part of the year. Bad roads not only hinder crop production and marketing but they keep the rural consumer away from the merchant for weeks at a time. They keep pupils from the schools and voters from political gatherings and from participation in elections. They impair the efficiency of of churches, and social, fraternal and other organizations which depend largely on public gatherings for the efficacy of their work."

FARMERS' INSTITUTE

Dr. C. A. Cary and other Institute workers of Auburn, Ala., will be at Mt. Pleasant School house, near Lomax, on Saturday, September 27th, inst.

A special invitation is extended to all farmers and others interested in better farm conditions and practices to come and bring their families and well filled baskets.

Special stress will be given to better pastures, better live stock, the growing of more feed as well as to the growing of the winter and early spring cover crops such as the clovers, vetches, etc.

The entire day will be given to Institute work.

CANDIDATE FOR GOVERNOR

Captain Ruben F. Kolb, candidate for the democratic nomination for Governor of Alabama, requests us to announce that he will be in Clanton on Monday, the first day of December. to address the people of Chilton county on the issues of the day, and, particularly upon those issues for which he is contending in his campaign. He will probably make other addresses in the county before the conclusion of the campaign.

Captain Colb's address in Clanton will be made at the court house; the first week of the criminal docket of Circuit court will be taken up on that day, and, as the docket will probably be heavy, a number of people throughout the county will be in attendance; others are especially invited to come hear the "genial Reuben" of other days—as genial now as ever

PAY POLL TAX AND BE PREPARED

Editor Press:

A few words to the people and oblige.

Gentlemen:

Next year is campaign year and every man's son should pay his poll tax and be in shape to vote for the man of your choice; the man whose duty it is to rule and govern this great state of ours. Another reason why you should pay your poll tax is that other elections will be ordered, such as stock law or bonds. But, there is still another more important reason why you should pay your poll tax, and that is, the poll tax you pay comes back into your own [illegible] your children; as you can. Don't pay your poll tax and [illegible] his tax is paying your children's tuition. Do you want someone else to pay your just debts? If so don't pay your poll tax. Do you want to be cast aside with the negro? If so, don't pay your poll tax. Don't you want a voice in the selection of the officers that rule and govern your county, state and nation? If you don't, then don't pay your poll tax.

Well, it was dry some weeks ago and some of our weather prophets said it would rain; now that it has rained, some say it looks as if it would rain always. Oh, while I am on the subject of prophets, I would like to know what has gone with our political prophets who said that if Wilson was elected, cotton would go to six cents and that the country would be flooded with tramps. If anyone sees them you can tell them that cotton is worth more than twice six cents, and there is no excuse for tramps, as wages are higher now than I ever heard of; men in this section of the country are getting any where from $1.75 to $4.00 for ten hours work; so, I repeat that I can't see any reason why there should be any tramps.

Wonder what the next excuse will be?

Respectfully, same old
MOSES.

WILLIAMS-WOOD

On the afternoon of September 18, at the Court house in Clanton, Mr. T. E. Williams, of Clanton, and Miss Margarette L. Wood, of Verbena, were happily united in matrimony, Judge E. B. Deason performing the ceremony.

Immediately after the ceremony Mr and Mrs. Williams left on No. 3 for Montgomery, where they met the former's brother, Rev. J. Toy Williams, and his bride, they having been married on the evening of the 16th, at Milledgeville, Georgia. Both couples returned to Clanton Friday morning to be present at the family "reunion," which was held at the Williams home, 2 miles west of Clanton.

The bride is a charming young lady, who numbers her admirers by the score, while the groom is one of Chilton's sterling young men, and is well thought of by a large circle of friends throughout the county. They will make their home near Clanton; the best wishes of all go with them for a long and prosperous life together.

THE STATE HIGHWAY

THE FOLLY OF CHEAP WORK.

(From Pacific Municipalities.)

It has been proved over and over again that "cheap" things are no good, and highways are no exception to this rule. We all know that the first cost of a "good" thing often seems high, but bitter experience has proved that nevertheless the "good" thing pays in the end every time.

Therefore in view of the report of the League's engineers, we believe it would be a calamity to go on building the state highways under "questionable" or "doubtful" specifications, merely because the initial expense is low.

The leading engineers all over the world are agreed that the "first cost" in road building is the consideration of least importance, as they have found that the first-cost of a "cheap" road is but a trifle compared with the great "after-cost" for maintenance and repairs. And when the cost is estimated on a period of ten years or more (as it should be), it is found that the "cheap" road is not only the "dearest," but it has never given satisfactory service since the day it was constructed. On the contrary, it has been proved by mathematics that the highest class of pavement requires the LOWEST expenditure for maintenance and repairs.

Our state highways should be so "permanent" and durable in character that the high quality of the work will be remembered long after the price is forgotten. Let us build roads not merely for present show, but something that will stand the test of time. Unless we build something of a permanent character as the act calls for, our decendants will be paying for roads which were worn out and obliterated long before they were born.

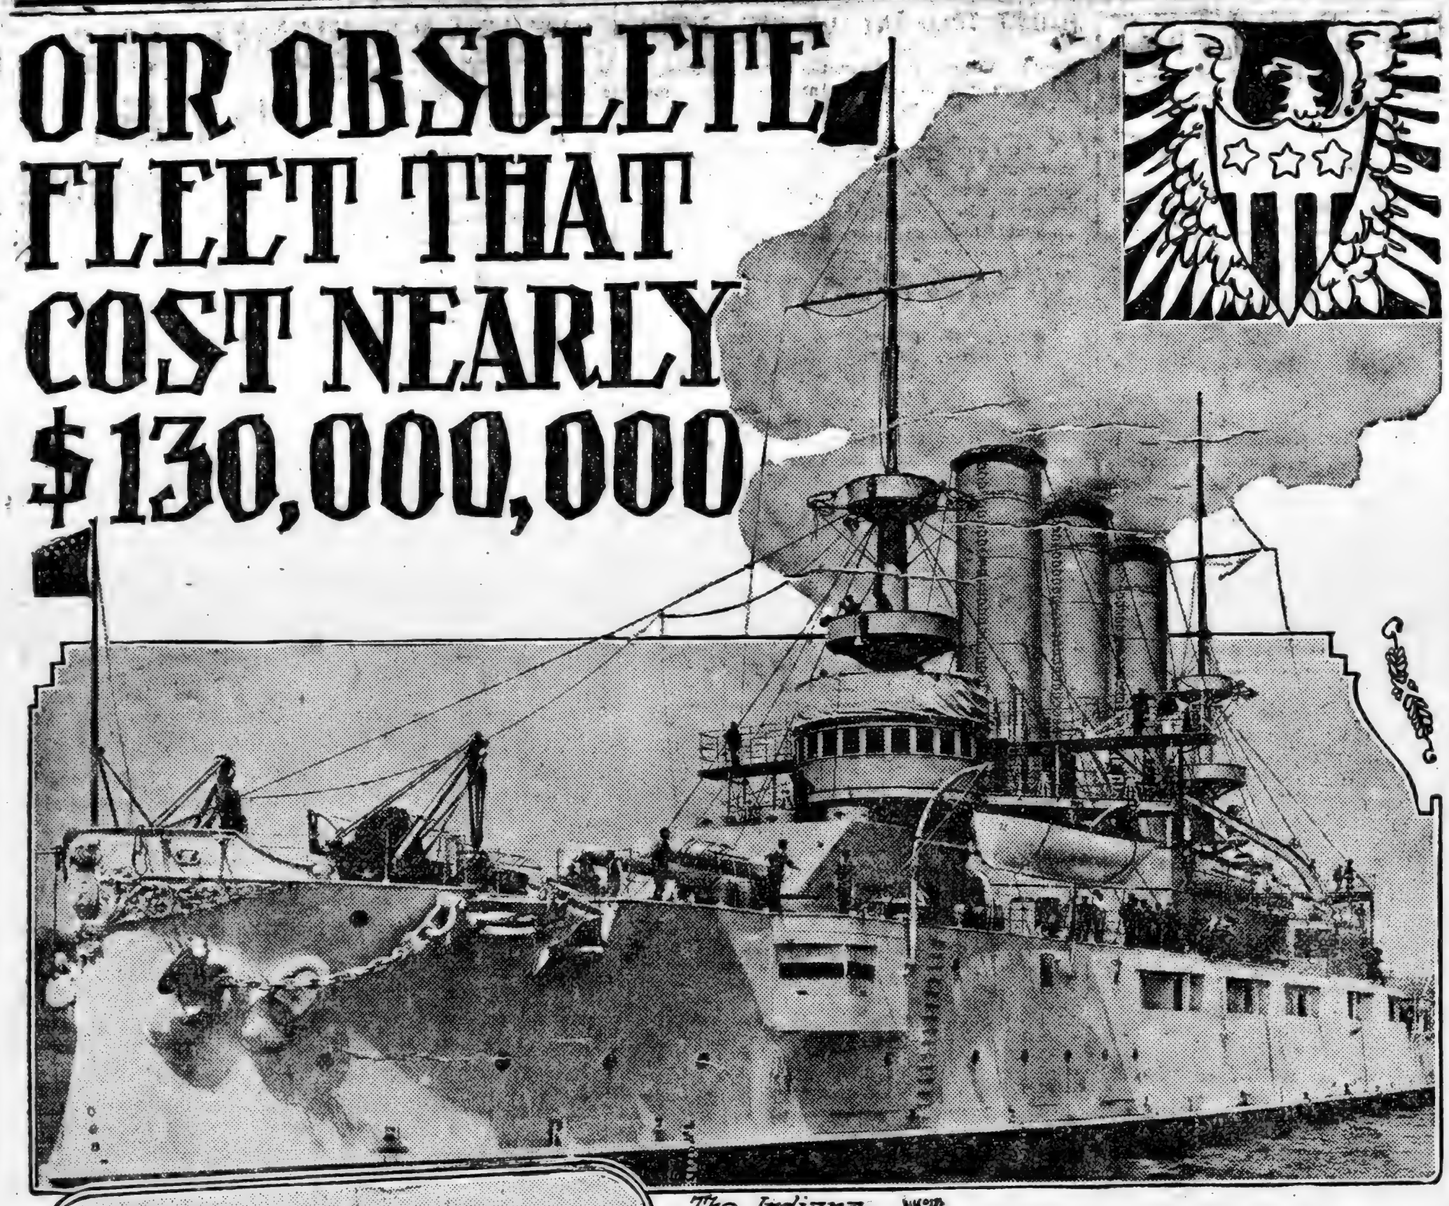
FAIR NOTICE

All persons indebted to me for professional services are requested to call at the Upchurch Drug Co. and make settlement. Dr. Upchurch is authorized to receipt all accounts. Early settlements will be appreciated.

Respectfully,
9-25-2t (Dr.) P. I. HOPKINS.

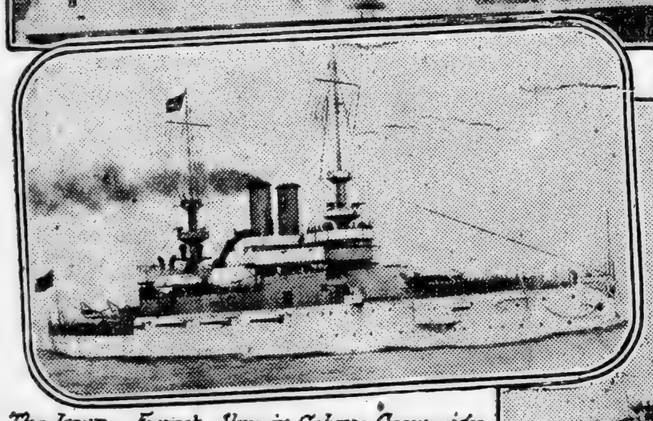
Chilton County Fair

OCTOBER 20th to 25th, 1913



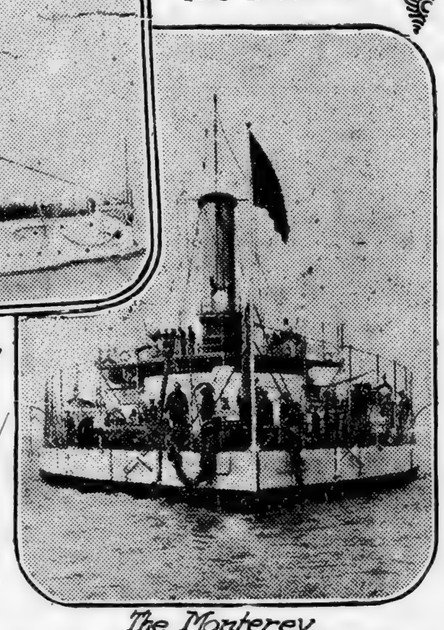
The Chilton County Fair Association will give away more than $1500 this year in prizes. The prizes offered this year are larger than ever before. They are offered on Corn, Cotton, Sweet Potatoes, Hay, Small Grain, all kinds, Forage Plants, Peas, Beans, Fruit, Vegetables, Jellies, Pickles, Live Stock, all kinds, Poultry, Ladies' Work, Children's Work, Plants and Flowers, Dairy Products, Meats. In fact the list covers everything in the home or on the farm.

Call on or write G. O. Foshee, Clanton, Ala., for catalog, showing all the premiums.



Separate tents for colored people.

Chilton County Fair Association



OUR OBSOLETE FLEET THAT COST NEARLY $130,000,000

The Indiana

The Iowa—Evans's Ship in Cuban Campaign

The Monterey

FIFTEEN years ago George Dewey stood on the bridge of the famous Olympia and won the battle of Manila bay, William T. Sampson from the bridge of the armored cruiser New York directed the operations before Santiago, and the pennant of Winfield Scott Schley fluttered from the masthead of the beautiful three-funneled armored cruiser Brooklyn. The world acclaimed the commanders of the squadrons of which these vessels were the flagships, while all America joined in one grand hurrah for a navy that was admittedly one of the best on the seven seas.

The American navy is still among the best, but the ships that were fought by Dewey and by Sampson and by Schley are no longer figured in the line-up that makes the great fleet under command of Rear Admiral Badger one of the most powerful fighting organizations the world has ever seen.

Every one of the famous ships of 1898 is today officially admitted to be obsolete, and all of them put together would not be as powerful as is the giant superdreadnaught Wyoming, or the Arkansas, or the Florida, or the Utah, any one of which would be a match for all the ships that fought under Dewey and Sampson combined, if such a test should be made.

Just a year ago the then secretary of the navy, George von L. Meyer, publicly called attention to the fact that the American navy had more than its full quota of battleships whose day in the first line had passed and the places of which would have to be taken by more modern ships of the Wyoming and Florida classes if the United States was to retain its position as the world's second naval power. The other day the observation of the ex-naval secretary was recalled by a naval officer in New York, who took pencil and pad and, going back fifteen and twenty and twenty-five years, figured out just what the obsolete ships now adorning the naval lists originally cost the United States government.

It was so ridiculously easy, the computation of that total value of famous ships that are ready to die a naval death of old age. The result was astounding, and when at last the navy man wiped his brow and announced the result of that little mathematical feat of his he had proved that the value of those ships, some of them still less than a dozen years old, reached the stupendous total of more than $100,000,000, or, to be exact, $129,932,814.

Of this $130,000,000 fleet that was, it is interesting, and in a way sad, to note that it includes the Saratoga, the name given Sampson's old flagship New York when her name was taken so that it could be given to the mighty superdreadnaught New York, now nearing completion in the navy yard in Brooklyn; Schley's flagship, the Brooklyn; the Olympia, from the bridge of which Dewey uttered his famous order to Captain Gridley, "You may fire when ready, Gridley;" the Iowa, that was "Bob" Evans' ship in 1898; the Indiana, and the Massachusetts, sister ships, which won fame and glory before Santiago, and the Oregon, which won the plaudits of an admiring world by her great run around the Horn, and which in her old age will probably be given the honor of being the first American war vessel to pass through the Panama canal in April of next year.

Then, of course, there was the old Texas, the ship that was commanded by the beloved Captain Philip, the vessel from the deck of which he offered his prayer of thanksgiving to God when Sampson's battle was ended and the Spanish ships had met their doom—the same ship from which Philip ordered his men not to cheer when the Vizcaya, the Cristobal Colon, the Maria Theresa, the flower of Cervera's squadron, were burning and sinking down into the grave to which the deadly shots of Sampson's gunners had consigned them. But the old Texas, which, like the New York, was renamed so that the name of the Lone Star state might adorn that of the new New York's sister, has long since met her fate.

Ripped, riddled and torn by the shells of the newer and more modern ships, to prove the marksmanship of whose men the Texas was destroyed, the hulk of that old ship—a sister of the Maine that went down in Havana harbor, and which going down hastened the conflict with Spain—still half floats in Chesapeake bay, just enough of her left to provide another marksmanship test for some mighty dreadnaught of the fleet under Admiral Badger.

As went the old Texas, so will go some of the other ships of the fleet that is obsolete. Already the Indiana is mentioned as the next martyr ship for the Atlantic fleet, and after her the Massachusetts, and then the Iowa, and perhaps within a year or two the Kearsarge and the Kentucky, the Alabama, the Illinois, and the Wisconsin, all of them beyond all question or doubt now of the obsolete type of fighting craft.

But let's call the roll of the obsolete fleet, and the flagships shall lead off just as they did at Manila and at Santiago:

1. The cruiser Olympia, flagship of Dewey at Manila.
2. The armored cruiser Saratoga, flagship of Sampson at Santiago.
3. The armored cruiser Brooklyn, flagship of Schley at Santiago.
4. The battleship Oregon, Clark's immortal around-the-Horn ship.
5. The battleship Iowa, "Fighting Bob" Evans' last command as a captain.
6. The battleship Texas, already gone, "Jack" Philip's old ship.
7. The battleship Massachusetts, another famous Santiago memory.
8. The battleship Indiana, sister ship of the Oregon and Massachusetts, and, like them, one of Santiago's famous contenders.
9. The battleship Kearsarge, first of superimposed turret ships.
10. The battleship Kentucky, sister ship of the Kearsarge.
11. The battleship Illinois, one of the around-the-world voyage ships.
12. The battleship Alabama, also of the fleet that went around the world under Evans and Thomas and Sperry.
13. The battleship Wisconsin, with the Alabama and Illinois the only battleships of the navy whose twin funnels are arranged in parallel fashion, one to the port and the other to the starboard.
14. The battleship Maine, built in memory of the martyr ship of 1898, and yet a ship that is already obsolete and has been missing from the Atlantic fleet for several years.
15. The battleship Missouri, another around-the-world voyager.
16. The battleship Ohio, still in the Atlantic fleet, but slated to leave in the near future never to return.
17. The commerce destroyer Columbia, so long missing in the news of the navy that a generation has grown up that knows her not, and she was of the flying squadron of 1898.
18. The commerce destroyer Minneapolis, a speed record breaking cruiser of the late nineties, a sister of the Columbia and, like her, of the flying squadron of 1898.
19. The monitor Amphitrite.
20. The monitor Miantonomah.
21. The monitor Monadnock.
22. The monitor Cheyenne, formerly the Wyoming.
23. The monitor Ozark, formerly the Arkansas.
24. The monitor Tonopah, formerly the Nevada.
25. The monitor Tallahassee, formerly the Florida.
26. The minotor Puritan.
27. The monitor Terror.
28. The monitor Monterey.
29. The protected cruiser St. Louis.
30. The protected cruiser Charleston.
31. The protected cruiser Milwaukee.
32. The protected cruiser Newark.
33. The protected cruiser Chicago.
34. The protected cruiser Cincinnati.
35. The protected cruiser Raleigh, Coghlan's ship at Manila.
36. Twenty-eight torpedo boats.

Twenty years ago this fleet of sixty-three ships would have been a match for any naval organization then afloat, with the exception of the fleet of Great Britain. Today all the vessels in it could not last half an hour in a battle with the five dreadnaughts that constitute the great first division of the United States Atlantic fleet.

And this mighty fleet of "naval has-beens" cost the United States government more than $129,000,000 and the oldest among them, not including the old monitors, is not yet twenty-five years old. The battleships in it to build and equip cost the government $64,435,225, and the cruisers, monitors and torpedo craft raise the total to the $129,000,000.

What will become of these ships? Some are now in reserve and there they will stay until their end is decided upon. Will that end be the target range or the auction block and the junk pile, or will they be permitted to rust away in navy yards nominally as units in reserve fleets but in reality as useless reminders of a navy that in its day was great but which, owing to marvelous progress in naval construction, has reached quickly but surely that state of obsoleteness from which there can be no "come-back."

The Oregon and the Olympia will probably be retained for generations to come as glorious reminders to Americans of future years of the navy that won immortality in the brief conflict that wiped Spain off the map of the western world and which added to American territory an island empire in the far east and won for this country for the first time a full, free recognition by all the nations of the world of the right to be numbered among those powers whose mission and influence is "world wide."

In the line-up of the "has been" fleet it will be noted that there is included the entire fourth division of the great fleet that circumnavigated the globe in 1907 and 1908. This division was made up of the Alabama, the flagship of Sperry when he began the voyage as a division commander; the Kentucky, the Kearsarge and the Illinois. In that fleet three of the vessels of the third division are now also listed among the obsolete fighters, the ships in question being the Ohio, the Missouri and the Maine, all sister ships and in their day held up to the world as embodying all that was best in the construction and equipment of modern men-of-war of the battleship class.

The Atlantic fleet when it sailed out of Hampton Roads in December, 1907, was made up of sixteen first-class battleships, and a look at the make-up of the organization shows that in a period of less than six years seven, or lacking one of exactly half of those famous ships, have been relegated into the reserve, the first stepping stone that leads to junk pile and oblivion.

LESS FOLIAGE

"This is a great age."

"What has certain you now?"

"The fact that so many doctors are successful without whiskers. It wasn't so thirty years ago."

MAN ENTITLED ONLY TO WHAT HE EARNS

MORE INTELLIGENT DISTRIBUTION OF WEALTH WILL INSURE MORE PROSPERITY.

SO ASSERTS A. J. OREM

Also Attacks Sale of Watered Stocks. Wright Makes Plea for Correction of the Election Laws.

Atlanta, Ga.—The Southern Christian Citizenship Congress, under the auspices of the Civic League of America, opened at the auditorium to the accompaniment of near sensationalism revealed in the address of A. J. Orem of Boston, who, in his treatise, styled "From Theocracy to Theocracy," all but put outright Socialism into the book of good citizenship.

Owing to his presence at the capitol, where he sat late in the matter of the McNaughton pardon arguments, Gov. John M. Slaton was unable to preside at the gathering in Taft hall.

Seaborn Wright of Rome, Ga., closed the evening session with an impassioned appeal for a correction of the election laws.

In introducing Mr. Orem as the principal speaker of the evening, William D. Upshaw declared that he had given the principal orator carte blanche in the matter of subject and text. Mr. Orem lived up to his rights. In part, he said:

"Greater problems confront the present generation than have confronted any previous generation in the history of the world. Present day questions are broader and more world-wide than former ones. Their consideration must be of broader scope. I believe that modern intelligence is being directed, however, to their successful solution.

"All forms of government have been tried with more or less success. If government administration is in the interest of a few, disregarding the rights of the many, government will be bad, no matter what the form. Modern civilization is tending towards democracy. Nations are more and more being educated to recognize the rights of the individuals. Economic problems and social problems will never be solved until governments are administered with due regard to human rights. Human rights should be more sacred than property rights.

"A more intelligent distribution of wealth will insure more prosperity and happiness. To this end each man should have what he earns and no more. He is not entitled to any portion of what other men produce except that obtained through honest barter or other equitable means."

MADERO SLAYING NOT CRIME

Such Is Decision of Mexican Military Court After Investigation.

Mexico City.—The deaths of the late President Francisco I. Madero and Vice President Jose Maria Pino Suarez were not brought about by a punishable crime, according to a decision pronounced by the military court here.

The investigation lasted six months. It was started by the military commandant of the federal district immediately on the conclusion of the ten-days' battle in the streets of Mexico last February, which resulted in Provisional President Huerta coming into power.

Among the witnesses was Major Francisco Cardenas, who commanded the escort which conveyed President Madero and Vice President Pino Suarez from the national palace to the penitentiary. Two subordinate officers of rural guards and residents in the vicinity of the jail also were examined.

Father and Baby Killed.

Clayton, Ga.—Emanuel Nichols, aged 35, a farmer living ten miles northwest of here in Rabun county, and his two-year-old baby girl, are dead, while his son and daughter, Conrad and Myrtle Nichols, have been bound over to the grand jury for voluntary manslaughter, as a result of a general shooting melee in the farmer's home. It is said the farmer's wife killed her own baby as she sought to kill her husband.

Recall of Diaz Not Encouraging.

Washington.—News that Gen. Felix Diaz, nephew of Porfirio Diaz, had been recalled to Mexico to become the candidate of the Huerta faction in the coming presidential election aroused much interest here in official circles. The general feeling was that the return of Diaz meant a compliance with President Wilson's principal demand, that General Huerta should not be a candidate. So far as arguing an era of peace, however, the outlook was described as discouraging.

Southern Labor Congress Closes.

Nashville, Tenn.—The second annual convention of the Southern Labor Congress closed here. President Jerome Jones of Atlanta and Secretary-Treasurer W. P. Puckett of Atlanta were re-elected. Albert H. Johnson of Memphis was elected vice president and Robert E. Gann of Anniston, Ala., second vice president. Birmingham was chosen as the next meeting place. The congress voted to allow negro laboring organizations to affiliate with the Southern Labor Congress.

ALMOST BEYOND HUMAN ENDURANCE

Were the Agonies Which Miss Lane Underwent. She Lives to Tell the Story, However.

Palmer, Okla.—In a letter from this place, Miss Forrest E. Lane says: "As I have been benefited by the use of Cardui, the woman's tonic, I want to write this letter for publication, as it may be the means of helping other sufferers.

For three years I suffered so, at times, with my back and sharp down pains, I would think I could not possibly endure the pain. I gradually got worse and would look with dread for these times to roll around.

Finally I decided to try Cardui, the woman's tonic, and I soon heard so much of its help to other women, and how glad I am that I did, for I can truthfully say that I have been greatly benefited by taking only two bottles; in fact, it has entirely relieved me.

I can truly sympathize with any sufferer from those awful pains due to womanly trouble, for I have certainly had the experience.

As a medicine for women who suffer from the numerous ailments peculiar to their sex, or are weak, tired, nervous, Cardui has a record of over fifty years' success.

It has benefited thousands of women in this time, and will do the same for you.

Give Cardui a trial.

N. B.—*Write to:* Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., *Special Instructions* on your case, and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

The less a man attends church the later he shows up in a saloon.

He who has no money to ride with the devil should be so virtuous as to keep away from his shop.

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

Poverty of Idea.

Madeline—Why, Mrs. Benaway, are you back?

Mrs. Benaway—Yes, dear; are you?—Judge.

Their Two Industries.

Vacational (at seaport town)—What do you do here in summer?

Native—Loaf and fish.

V.—And in the winter?

N.—We cut out the fishin'.

An Echo.

Susie (age six)—And when we grow up we'll be married, won't we, Bobbie?

Bobby (sadly)—No, Susie, I can't marry into your family. Your papa has weak eyes and your auntie has spasms.

After the Premiere.

"You're a gay kind of a friend!" said Whimpler to Wigglesworth. "Laughing like a hyena all through the first act of my tragedy!"

"Tragedy? Tragedy?" echoed Wigglesworth. "Why, Whimper, old man, I really was trying to help you! I thought all along the darned thing was a very amusing farce!"—Judge.

What Interested Him.

Eight-year-old Donald was unusually restless in church, so his mother was doubly gratified one Sunday morning to see him sitting with clasped hands and bowed head throughout a lengthy prayer. When, later, she expressed appreciation of his attentive manner, the boy's face softened with a pleasant memory.

"That fly," he chuckled, "walked in and out of my hands exactly 2,700 times!"

HAPPY OLD AGE

Most Likely to Follow Proper Eating.

As old age advances we require less food to replace waste, and food that will not overtax the digestive organs, while supplying true nourishment.

Such an ideal food is found in Grape-Nuts, made of whole wheat and barley by long baking and action of diastase in the barley which changes the starch into a most digestible sugar.

The phosphates also, placed up under the outer-coat of the wheat, are included in Grape-Nuts, but are lacking in white flour because the outer coat of the wheat darkens the flour and is left out by the miller. These natural phosphates are necessary to the well-balanced building of muscle, brain and nerve cells.

"I have used Grape-Nuts," writes an Iowa man, "for 8 years and feel as good and am stronger than I was ten years ago.

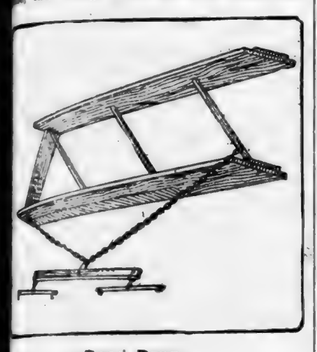
"Among my customers I meet a man every day who is well along in years and attributes his good health to Grape-Nuts and Postum which he has used for the last 5 years. He mixes Grape-Nuts with Postum and says they go fine together.

"For many years before I began to eat Grape-Nuts, I could not say that I enjoyed life or knew what it was to be able to say 'I am well.' I suffered greatly with constipation, but now my habits are as regular as ever in my life.

"Whenever I make extra effort I depend on Grape-Nuts food and it just fills the bill. I can think and write a great deal easier."

"There's a Reason." Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.



HIGHWAY IMPROVEMENT

ROAD IN RURAL COMMUNITIES

Recurring Problem of Upkeep Can, in Large Measure, Be Solved by Use of Road Drag.

(By R. H. FLINT, University Farm, St. Paul, Minn.)

Because of its cheapness the earth road is, and for many years to come will continue to be, the most common type of road in use in rural communities. The ever recurring problem of upkeep on such roads can, in a large measure, be solved by the use of the so-called split-log drag, which can be constructed as shown in the accompanying picture by any one who has suitable material at hand. A log is not necessary, or perhaps not desirable, for its construction. Choose four pieces of plank of some strong wood, such as elm or red fir, two inches thick and eight feet long. Two of these should be ten or twelve inches in width, but the other two may be narrower as shown in the picture, since they are simply bolted to the ends of the wider planks for reinforcement. If planks three and a half or four inches thick can conveniently be obtained, a single thickness of plank should be used, instead of building up as shown in the cut. In any case, the drag can be put together

Road Drag.

with round poles wedged into auger holes as shown, or the crosspieces may be set in with mortise and tenon joints and kept tight by long bolts passing through the front and back planks.

A piece of iron about three and one-half feet long, three or four inches wide and one-fourth of an inch thick should be used for a blade. By means of bolts with flat, counter-sunk heads, this blade should be attached to the front plank in such a manner that its edge will project a half-inch below the plank at the ditch end, while the end of the iron toward the middle of the road should be flush with the edge of the plank. If the edge of the plank stands plumb it will work well to wedge out the bottom of the drag with a wedge-shaped piece of wood to give the iron a set similar to that of a plane bit.

A platform of inch boards cleated together, with cracks an inch wide between the boards to prevent dirt from collecting on top, is placed on the cross pieces of the drag to furnish a platform for the driver. This platform should rest upon the crosspieces between the planks without being fastened to the drag. It is not shown in the illustration.

Any chain having the strength of a trace chain may be used to draw the drag and should be attached as shown in the picture, but the proper position for attaching the doubletrees must be determined by experiment and will vary with the kind of work done. The chain should be about nine feet long for a drag of the size shown in the cut and should have the eye of the clevis put in about three feet from the end. The chain attaches by means of an eyebolt, as shown in the picture, to the ditch or blade end of the drag. The other end of the chain should finish with a grabhook for use in adjusting the length of the hitch after the chain is passed around the cross-piece at the road end of the drag.

Commonly the drag should follow the team at an angle of about forty-five degrees with their line of travel, to cause the dirt to move steadily and evenly along the faces of the planks from the ditch toward the center of the road. In every case the angle at which the drag will travel can be governed by the position of the hitch, which is changed within reasonable limits by lengthening or shortening the chain, and by the position of the driver on the drag. A very little experience will enable anyone to adjust these things satisfactorily.

To Clean Plumage.

The plumage of a white fowl can be cleaned of stain by washing with clean white or transparent soap that is free from much alkali. Make a strong lather and use your hand feather-downward, from the head to the tail.

Abuse of Roads.

Using the roadside for a "public dump" and filling the side ditches with such material doesn't help appearances any, nor does it help to solve the drainage problem in the maintenance of roads.

Takes Out Wrinkles.

If you are riding in a swiftly moving vehicle, like an automobile, you can easily tell whether the road has been dragged or not. Dragging takes out the "wrinkles."

OPTIMISM SPREADS AS TRADE BROADENS

Outlook for Week Relatively Cheerful Trade Report—Drought Relieved.

New York—Bradstreet's review of trade says:

As trade broadens optimism spreads and the outlook for the week is a relatively cheerful trade report. Most advices indicate activity in jobbing lines or a tendency that direction. Actual wants following a prolonged policy of staving stocks is the foremost factor in broadening demand.

Coupled with this are a number of other activities, making characteristics. Thus the marketing of crops at good prices, copious rains in southwestern drouth afflicted sections, stimulants afforded by fall festivals and a somewhat enlarged turnover in retail circles.

Thus the uplift has not been uniform in these branches of trade and industry; in fact, there are quite a few laggards, and it is significant that many of the returns indicate that trade, especially in dry goods, is well ahead of last year.

Business failures for the week were 259 against 279 in 1912.

Wheat, including flour, exports from the United States and Canada for the week aggregate 4,145,992 bushels, against 3,801,477 last year.

New York.—R. G. Dun & Co.'s weekly review of business says:

There is slightly more disposition to extend operations further into the future as business advances, most advices indicating a larger volume of trade than one year ago, while some industrial centers report more machinery active with a reduction in the number of unemployed.

Labor troubles exert a leading influence in a few sections. Disturbances of a serious nature, however, are absent now. Lower temperatures have had a stimulating effect on distribution of merchandise at retail, and the fall season appears to be opening up fairly well.

Less conservatism is manifest in the wool market. Buyers of leather are operating more freely. Both retail and jobbing trade in footwear is moderately active now.

Pig iron reflects increased strength with heavy sales of southern iron a feature. The strong statistical position of copper has been reflected in a continued rise in prices.

Failures this week numbered 282, against 291 last year, and 20 in Canada, compared with 24.

TELEGRAPHIC TIPS

Washington.—Invitations are now being prepared at the state department for transmittal to the naval powers of the world to ensure the gathering of a great international fleet at Hampton Roads to celebrate the opening of the Panama Canal.

Washington. — Senator Wesley L. Jones, of Washington, in the senate, demanded action at once on the proposed constitutional amendment to give the vote to women. The amendment was reported favorably to the senate in June.

New York.—Meetings of the New York, New Haven & Hartford Railroad directors and those of subsidiary lines were held at which the reorganization caused by the recent resignation of President Charles S. Mellen, and the election of Howard Elliott resulted in further changes.

New York.—Editors and publishers of 241 papers, representing 75 different trades, industries and professions and a capital investment of $35,000,000 met here at the eighth annual convention of the Federattion of Trade Press Association.

Washington. — Pleas that a widowed mother and dependent wife and child needed the support of Arthur J. Stenzel, convicted of embezzlement of $5,400 of the funds of the Galveston City National Bank, induced President Wilson to commute the prisoner's five-year sentence to one year.

New York. — One hundred and forty-seven cases of typhoid fever reported since the first of September on the lower East Side were traced to infected milk.

Leavenworth, Kans. — George Anderson, one of the labor men found guilty at Indianapolis of conspiracy to transport explosives illegally, was released on $30,000 bond.

Bristol, Va.-Tenn.—Several hundred Confederate veterans from southwest Virginia and East Tennessee gathered here for their eighteenth annual reunion.

Pittsburgh. — Two Italians were shot and killed in different sections of Braddock, a suburb, as the result of a feud among factions of foreigners.

Wilkesbarre, Pa. — A million and a half gallons of water from a collapsed reservoir rushed down one of the side streets of Pittston, near here, causing a small panic among the residents.

Panama.—J. Frank Houston, of Kentucky, a former canal employe who was sentenced to ten years imprisonment in the zone penitentiary for killing Harry Stern at Gatun on February 3, last, has been denied a new trial.

Uric Acid Is Slow Poison

Excess uric acid left in the blood by weak kidneys, causes more diseases than any other poison.

Among its effects are backache, headache, dizziness, irritability, nervousness, drowsiness, "blues," rheumatic attacks and urinary disorders. Later effects are dropsy, gravel or heart disease.

If you would avoid uric acid troubles, keep your kidneys healthy. To stimulate and strengthen weak kidneys, use Doan's Kidney Pills—the best recommended special kidney remedy.

A Mississippi Case

Mrs. A. S. Payne, 801 S. Third Ave., Columbus, Miss., says: "I had terrible pains in my back and hips. My bladder was badly inflamed. I often cried out in pain. Doctors didn't help me and I was all run down. Doan's Kidney Pills brought relief from the first and three boxes cured me. I have felt like a different person since."

Like a Balloon.

Apropos of the divorce evil, Dr. Herbert M. Shisholm, the Reno statistician, said with a sigh:

"An exhaustive study of divorce statistics forces me to the belief that the average woman's heart is like a toy balloon—lighter than air, and most restless men tied to somebody."

ECZEMA ITCHED AND BURNED

Falmouth, Ky.—"Two years ago I was troubled with skin and scalp troubles. I would have pimples that would break out and form sores on my face and head, with terrible itching. The eczema on my face and head itched and burned and when I scratched it, it made sores and I was very disfigured for the time being. My head became so sore I could not touch it with a comb; it became a mass of sores. My hair fell out gradually.

"I was afflicted about a year before I used Cuticura Soap and Ointment and after using them three weeks I was getting better and in less than three months, after using eight cakes of Cuticura Soap and five boxes of Cuticura Ointment, I was completely cured of eczema." (Signed) Frank Vastine, Dec. 12, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

The third wife of a shoemaker in Kansas, who has been divorced twice, has just inherited $50,000. He will now be good and stick to his last.

You Can Stop a Carbuncle or Boil After it begins to form, by using DR. PORTER'S ANTISEPTIC HEALING OIL. 25c, 50c, $1.00.

"Eternal punishment" may be the price of being too poor to buy a divorce.

HADN'T TOLD ANY UNTRUTH

Colored Witness Simply Stated a Fact, Though It Was Not the Information Desired.

In St. Louis a stout colored woman, apparently about forty years old, was called as a witness in an assault case before a police judge. She said: "I am eighty-four and I live down near the river, and this is what I saw when the fight took place."

She then gave her account of the assault.

On cross-examination the attorney for the defense asked her when and where she was born, and she replied:

"Right here in St. Louis, in July, '72."

"Then," cried the lawyer in a triumphant tone, "what do you mean by saying that you are eighty-four?"

"Oh," replied the old darky, "that ain't my age; that is my bust measurement."

Had His Goat, Evidently.

A Springfield man, replying to his wife's petition for divorce, says: "Defendant states that the plaintiff is much better qualified than the defendant to carry her part in nagging contests; that she commands a better and more extensive vocabulary than the defendant, and simply overwhelmed him with her complaints and reproaches, and she was so master of her feelings that she could readily pass from storm to sunshine, from abuse to tears, from harsh language to tenderness, and from nagging plaintiff could upon the appearance of a third person so readily become all smiles and suavity that her sudden and complete changes of moods completely bewildered defendant."—Kansas City Star.

After a Pleasant Evening.

Mr. Sydney Buxton told an amusing story for the purpose of illustrating a point at a recent dinner. A certain convivial soul, who had been invited to dine with a friend, whose house was at the end of a dark and muddy lane, was advised to bring a big lantern. After a very jovial evening the convivial one left and struggled home through the mud, firmly gripping his heavy burden by the handle. Next morning he received this message from his host: "Herewith your lantern; please return parrot and cage."

Had a Chance Now.

While he was playing on a certain Scottish course, a politician remarked to his caddie: "By the way, the last time I was here I played with Tom McGregor. He's grand player!" "Aye," said the caddie, "but ye could beat McGregor noo." The politician, knowing what a fine player McGregor had shown himself, was immensely pleased at what he deemed the caddie's compliment to his own improved play. "Do you think so?" he exclaimed. "Aye," came the slow reply, "McGregor's deid!"

Speak Louder.

An old farmer in Ayrshire had a habit of feigning deafness when he wanted to avoid answering an awkward question. One day a neighbor said to him:

"I'd like to borrow your cart this morning; mine is having a spring mended."

"You'll have to speak louder," the old farmer answered. "I don't hear very well—and I don't like to lend my cart, anyhow."—Glasgow Spy.

Pithy Postscript.

A striking illustration of the saying that the pith of a lady's letter is in the postscript occurred in the case of a young lady who, having gone out to India, and writing home to her friends, concluded with the following words: "P. S.—You will see by my signature that I am married."

Contradictory Pleasure.

"What do you think his wife considered his giving her a square deal?"

"What?"

"Taking her on a round of amusements."

CHILLS AND FEVER AND AGUE Are Promptly Cured by Elixir Babek. "I recommend 'Elixir Babek' to all sufferers of Malaria and Chills. Have suffered for several years, have tried everything, but failed, until I came across your wonderful medicine. Can truly say it has cured me."—George Inscoe, Company G, 4th Batallion. Elixir Babek 50 cents, all druggists or by Parcels Post prepaid from Kloczewski & Co., Washington, D. C.

BISHOP'S POINT WELL MADE

Rebuke to Which It Is Hard to See How the Curate Could Make an Answer.

Bishop Oliphant of Llandaff had a well-to-do young man as curate who had rather sporting instincts. He kept his own horses and always drove tandem. The bishop disapproved, and decided to administer a rebuke on a favorable opportunity. Both the bishop and the curate, each driving in his own way, met near the historic Cow and Snuffers. The bishop, of course, was driving two abreast, and the curate tandem, as usual.

"I really must protest," said the bishop, "at your driving about in such a manner."

"Well, my lord," said the curate, "you are driving two horses, and so am I. What is the difference?"

After a few moments' reflection Bishop Oliphant replied:

"If, when you are at prayers at the cathedral, the congregation placed their hands in the same position as you have placed your horses what would become of the dignity and solemnity of the service?"—London Mail.

Marked Similarity.

"If 12 persons were to agree to dine together every day, but never sit in exactly the same order around the table," didactically stated the professor, "it would take them 13,000,000 years, at the rate of one dinner a day, and they would have eaten more than 474,000,000 dinners, before they could get through all the possible arragements in which they could place themselves.

"Yep," snarled Uncle Pepys. "That would be nearly as many ways as a a small boy rearranges himself during a long sermon."—Judge.

CHILTON MAN ESCAPES

MAKES GET-AWAY FROM INSANE HOSPITAL.

Judge E. B. Deason received a letter Wednesday from Dr. T. E. Phillips, Assistant Physician in charge at the Alabama Hospital for the Insane at Tuscaloosa, stating that one Richard Mims had made his escape from the hospital sometime last Sunday night, and advising that his relatives in this county be notified. Mims had been an inmate of the hospital nearly four years, having been committed from this county in December, 1909.

FATAL ACCIDENT AT THE DAM

BRAKEMAN MEETS AWFUL DEATH

Another victim has been added to the list of fatalities that have occurred at Lock 12 since the construction of the gigantic power plant about a year ago. Thursday last Mr. J. H. Jordan, who was employed as a brakeman, was caught between the cars while trying to make a coupling and crushed to death. His body was terribly mangled, the left arm being severed at the shoulder and the right hand cut off; a lung was also crushed out.

As soon as the terrible accident happened, medical aid was immediately summoned, but the unfortunate man lived only twenty minutes.

The remains were brought to Clanton Thursday night and embalmed by the Johns Undertaking Co., of Birmingham, and shipped to Manchester, Tenn., Friday morning for interment.

The deceased was about 35 years of age and is survived by a widow and four small children, who have the sympathies of the community in their great sorrow.

Mr. Roland Taylor invites his friends to call at L. H. Reynolds and see him when in town. He insures all who so liberally patronized him in the past a hearty welcome and courteous treatment.

Mr. M. A. Killgore was in town Wednesday enroute to Montgomery on a business trip.

Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health. Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. E. Ayers, 6 Sabin St., Montpelier, Vt., says:

"I was afflicted with constipation and biliousness for years, and at times became so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are sufferers from habitual constipation and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "keep your bowels clean," and it's good advice.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory, your money is returned.

MILES MEDICAL CO., Elkhart, Ind.

BIRMINGHAM TO MONTGOMERY HIGHWAY

KELLER WILL SOON CALL MEETING TO DISCUSS PROJECT.

Of the proposed Birmingham-to-Montgomery Highway the Birmingham News of Wednesday had the following to say:

"So much interest has been aroused in the building of good roads between Birmingham and Montgomery since the passing of the News-Advertiser All-Southern Transcontinental Highway Tour that a conference will be held at Clanton within a few weeks. The object of the meeting is to devise ways and means for the perfecting of a first-class highway connecting these two cities.

"State Highway Engineer W. S. Keller is taking a lead in the movement and will issue a call in a few days. Clanton has been selected as the place of meeting for the reason that it is the central point on the proposed route and for the additional reason that Chilton county is just now very active in the improvement of roads.

"Considerable work is now being done on the highway all the way from Birmingham to Montgomery. Jefferson county has a large force of county convicts at work between Shades Mountain and the Cahaba River at Acton. Shelby county has just completed four miles of State-aid road from Calera north and are now building four additional miles near Pelham.

"The people of Chilton county are anxious to have the road completed in time for transcontinental travel next summer."

TROTTING AND PACING RACES FEATURE OF BIRMINGHAM FAIR

The horse is coming into his own again; not so much as a beast of burden, but as a thing of beauty and a joy forever. The management of the Alabama State Fair at Birmingham appreciates this fact and the trotting and pacing races at the fair which begins October 9th and continues through the 18th will be worth coming a long distance to see.

For a time the automobile and motorcycle races seemed about to drive the horse from the track as entertainers of fair crowds; then came the aeroplane which while it was new and extra hazardous created a morbid interest that was well nigh irresistible. The spectator did not wish to see the the driver of the speed machine or the bird man come to grief, but—well if he had to fall they did not care to miss the spectacle.

More than 150 pacers and trotters, chiefly from Tennessee, Georgia and Alabama, have been entered in the three big stake races and the numerous open purse events. The entries for the latter do not close until September 30.

For the "Ensley," 2:20 trot, purse $1,000, seven of the twenty horses entered are owned in Alabama and most of these were bred in this state. Many of the stake horses are now on the Grand Circuit, though several of them are training at the fair grounds and will remain there until the fair closes.

There are three Alabama horses entered in the "Bessemer," 2:20 pace, purse $1,000 and the same number in the "Mokoline," 2:14 trot, purse $1,000. The W. D. & H. R. McCurdy stock farm of Lowndesboro, Ala., is well represented and this firm will show a number of the finest trotters and pacers ever bred in Alabama. W. C. Gallagher and H. M. Smith of Selma, S. V. Woodfin of Marion, Jack Pickford of Courtland, Short [illegible] of Union Grove, Dr. A. Gibson of Birmingham and Lee Moody of Bessemer are among the Alabama owners entering horses in the stake races, the entries for which closed July 15.

The reputation for paying purses promptly which has been earned by the Alabama State Fair and Exhibit association makes this fair a favorite with owners of fast horses. The growing interest in fancy stock shown by Birmingham business men who can afford such luxuries as the "sport of kings" affords is also an encouragement to breeders to show their best at the state fair.

Band Will Be Mounted.

As a further compliment to the horse, even the band will be mounted at the fair this year and will furnish not only music but a thrilling spectacle as well. Berliner's First Cavalry Band is said to be one of the finest bodies of horsemen in the United States, with uniform mounts and every man dressed in regular cavalry service uniform.

Director Berliner was formerly bandmaster in the United States cavalry and each feature of his organization conforms closely to regulation army service and discipline. The band will be encamped on the grounds with officers' tents, men's tents and horses tents; sentries will be posted and on duty by day and night and the calls, from Reveille to Taps will be sounded as in the regular cavalry service.

The race track at the State Fair is in better condition than it has ever been, which means that it is the best and fastest mile track in the south. It is confidently expected that several new records for southern bred horses on a southern track will be made at the coming fair.

Altogether, the Alabama State Fair this year will place the blooded horse back on the pedestal where he belongs; for every normal man loves the horse and verily this noble friend of man is coming into his own again.

Mortgage Sale.

Under and by virtue of the power of sale contained in the mortgage executed by A. O. Lane and his wife, Minnie Lane, and W. E. Horne, to the South and North Alabama Railroad Company, a corporation, on the 30th day of May, 1903, which said mortgage was recorded in the office of the Judge of Probate of Chilton county, Alabama, in the record of mortgages in Vol. 67, beginning on page 60, default having been made in the payment of the debt secured by said mortgage, the said South and North Alabama Railroad Company will proceed to sell in front of the Court House door in Clanton, Alabama, at public outcry, to the highest bidder for cash, within the legal hours of sale on Monday, the 20th day of October, 1913, the following described real estate situated in the county of Chilton and State of Alabama:

The northeast quarter of Section twenty-three (23) in Township twenty-two (22) north, Range fifteen (15) east of the St. Stephens meridian. Said sale will be made for the purpose of collecting the said indebtedness secured said mortgage with interest and for the purpose of collecting taxes paid upon said lands by the road Company in the year [illegible] each subsequent year to the date of sale.

FOR SALE.—Nice Hamilton piano in first-class condition. Cheap for cash if taken at once. For information call on G. C. Headley.

Mother of Eighteen Children

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boone Mill, Va. "I suffered for five years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken three bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to, and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boone Mill or vicinity and they will vouch for what I say." Chamberlain's Tablet's Tablets are for sale by Alred Drug Co.

The officials of the Sheriff's and police department were kept busy last Sunday making arrests. Mayor's court tomorrow will have a crowded docket.

Diarrhoea Quickl Cured.

"I was taken with diarrhoea and Mr. Parks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by Alred Drug Co.

WANTED—Young men and women to become Telegraph Operators. Draughon's Business College, Montgomery, Ala., can qualify you in 60 to 90 days. Positions secured for students. Write Telegraphy Dpt. for full particulars.

Foley Kidney Pills cure obstinate cases of kidney and bladder trouble, rheumatism and lumbago, because they remove the cause. You can not take an honest curative medicine into your system without getting the right results. Try them. Alred Drug Co.

No. 666

This is a prescription prepared especially for MALARIA or CHILLS & FEVER. Five or six doses will break any case, and if taken then as a tonic the Fever will not return. It acts on the liver better than Calomel and does not gripe or sicken. 25c

Solicitor F. Loyd Tate was in Clanton last Monday filing several suits against certain county officials, and some ex-officials, for moneys said by the State Examiner to have been wrongly paid.

Get rid of the torments of rheumatism

That you can do by ridding yourself of the cause. Weak and inactive kidneys allow uric acid poisons to remain in the blood and rheumatic pains swollen and aching joints follow. Take Foley Kidney Pills to ease you of the pain and torment. They will positively and permanently build up the kidneys, restore their normal action and keep the uric acid crystals out of th e blood and body. Try them. Alred Drug Co.

Mr. Rubenstein, of the Lyric Theatre, has kindly donated fifty per cent of all receipts taken in on Wednesdays for the month of October, to the fund now being raised for the County High School This is quite a liberal donation on the part of Mr. Rubenstein and should attract a large audiance to his picture show each evening, particularly on Wednesdays.

Adenoids are a Menace to Children

Adenoids result from a succession of of colds in babies and young children. They spoil the mental and physical life of a child. The condition that causes them may easily be avoided by careful parents. Quickly and thoroughly cure all colds and throat irritations by the use of Foley's Honey and Tar Compound, and adenoids will not develop. Alred Drug Co.

Mr. and Mrs. Robert H. Croswell Jr., and daughters, Miss Mary Louise and Miss Aylette, will leave October 1st for Clanton to spend the Winter. Miss Croswell is a lovely girl and was one of the most popular debutantes of two Winters ago. In addition to personal beauty she possesses a sweet soprano voice. She will be much missed at the various social functions, though her friends hope she will make frequent visits here.

Mrs. Croswell also has a great many friends and is a talented musician.—Montgomery Advertiser.

Facing a Serious Proposition

The man or woman who has kidney trouble is facing a serious proposition, where grave complications readily follow neglect. Foley Kidney Pills are an honest curative medicine that once taken into your system mean restored kidney and bladder action, and a return of health and strength. Alred Drug Co.

RAINS HINDER COTTON PICKING

FARMERS NOT ABLE TO HARVTST CROPS—STAPLE IS BEING DEGRADED.

COTTON ROTTING ON STALK

Markets Are Crowded by Farmers Taking Advantage of Present Good Prices.

Montgomery.—Rains, which if they had fallen a month and a half ago would have made a bumper crop for Alabama, are now reported falling over the state, and in addition to retarding the growth of late cotton, are beating down the plants, degrading the staple and preventing the harvesting of the crops.

From nearly all over the State comes the report that the farmers are not able to get out their cotton on account of the heavy rains. The staple is being beaten from the bolls to the ground and the grade is being lowered considerable in almost every instance. In Autauga, Barbour, Cleburne, Crenshaw, Macon, Perry, Russell and Talladega counties the planters are greatly hindered by the heavy showers, and their hands are forced to remain idle and watch the staple almost rot on the stalk.

In Barbour and Chilton and several other counties the farmers had managed to get a fairly good crop of late cotton, but this is being greatly damaged by the rains. The stalks are bending down under the weight of the fruit now, and the rains have about completed breaking down the plant in many places.

Good crops are reported in Calhoun, Etowah and Pike counties where the rains have been seasonable, and have benefited the late cotton to some extent. While the plant is not as good as it should be at the time of year it will go a long way toward helping the farmer gather a larger crop.

The gins are all busy over the state and the crop this year is being gathered faster than in many years before. This is brought on by the high prices that prevail, and the fact that a short crop is being pushed to the front while the selling is good.

All the markets are reported crowded, and the buyers busy with the large inflow of bales. The farmers are optimistic over the high price, and it is serving to overcome the short crop that was made. Many of them are getting out of debt, diversifying their crop making their farms more modern and the year will not be such a bad one after all.

GOVERNOR SEEKS INFORMATION.

Asks About Extradition Treaty Between U. S. and Honduras.

Montgomery.—Governor O'Neal has written to Federal officials at Washington to obtain information concerning the extradition laws existing between this country and Spanish Honduras. It is thought in official circles that the Governor has good cause to believe that Theo Lacy, defaulting Chief Clerk of the State Convict Department, is a fugitive in that country.

For several weeks persistent rumors have been afloat that Lacy is in Honduras and it is believed that the Governor has been given some definite information which leads to the theory that Lacy is hiding there. The reports have come from many different sources and some of them are considered reliable.

Julian Announces Candidacy.

Montgomery.—Declaring that all public service corporations in Alabama should be placed under the supervision of the State Railroad Commission and favoring the passage of a law which will prohibit all officers of a county, municipality or circuit, whose business it is to prosecute suits against carriers, from representing railroads or accepting free passes from railroads, Frank N. Julian, Associate Railroad Commissioner, issued a statement in which he announced that he will be a candidate for re-election.

Institutes Come to End.

Montgomery.—With the holding of institutes for teachers in Mobile, Montgomery, Macon and Russell counties this week, the institute season in Alabama comes to a close. Meetings began July 28 and an institute for every county in the state has been held. Mobile county's institute will be at Mobile, Montgomery's at Montgomery, Macon's at Tuskegee and Russell's at Seale. An institute for colored teachers will be held at Mobile also.

Seymour Wants to Succeed Kolb.

Montgomery.—W. H. Seymour of Montgomery, president of the Alabama division of the Southern Cotton Association from 1905 to 1908 and one of the best authorities on agriculture in the state, is a candidate for commissioner of agriculture of Alabama. For several weeks it has been known that Mr. Seymour was considering making the race and he authorized the use of his name as a candidate after consultation with friends.

ENDORSES LAND CONGRESS.

Governor Urges Attendance at Second Annual Meeting at Birmingham in November.

Montgomery.—Governor O'Neal issued a proclamation in which he endorses the work done by the Alabama State Land Congress and urges that there be a large attendance at the second annual meeting of the Congress which will be held at Birmingham, November 4 to 7. The Governor has named all the mayors of the towns and cities of the State as delegates to the Congress and also the editors and publishers of the newspapers of the State.

Following is the proclamation:

"Whereas, the second annual meeting of the Alabama Land Congress will be held in Birmingham, Ala., on the 4th, 5th, 6th and 7th of November, 1913, and as the announced objects of that organization are—'To advance the agricultural resources of Alabama, and to unite the newspapers, commercial organizations, banks, land owners, farmers, railroads, State and national departments of agriculture and the agricultural schools of the State for the upbuilding of Alabama'—they are worthy the approval and support of all our public-spirited citizens.

"Now, therefore, I, Emmet O'Neal, Governor of Alabama, do hereby issue this proclamation giving my approval of the objects of said Land Congress and am pleased to commend them to the citizens of the State.

"To further aid and encounter said organization in its work to advance the material interests of Alabama, I do hereby nominate, constitute and appoint the mayor of every incorporated town and city and the chairman of each board of commissioners in cities governed by a commission, together with the editor or publisher of evry newspaper in the State, a delegate to said Land Congress and urge that they attend the same.

"I would also urgently request all those who have been named as delegates by the probate judges of the respective counties of the State to attend this Congress, and thus present to the outside world an object lesson of appreciation by our own people of what they possess in their lands. In fertility of soil and salurbrity of climate Alabama may be justly termed 'the farmers' Paradise, and as we show appreciation of this priceless inheritance we may hope thereby to attract the better classes elsewhere to come and share it with us."

GOVERNOR THREATENS SUIT.

State May Recover Thousands of Dollars Held Back Without Right.

Montgomery.—Many thousands of dollars paid to the Probate Judges of the State in commissions may be recovered by the State because of the delinquency of these judges in making prompt settlements with the Treasurer.

The law requires that these judges shall settle on the first of each month and after an examination Governor O'Neal has discovered that many of them have failed to make the returns at the proper time. Yet they have collected their commissions as usual.

Charles E. McCall, Chief Examiner of Public Accounts, has been instructed by Governor O'Neal to make an investigation of all the collections which have been made during the last few years. If enough evidence is discovered against the judges, proceedings to recover the sums in question will be instituted against the officials.

Probate judges receive a commission of 2 1-2 per cent on all licenses and charters and 5 per cent on all mortgages recorded.

O'NEAL TO NEGOTIATE LOAN.

Will Endeavor to Secure $100,000 for State.

Montgomery.—Governor O'Neal is negotiating with banking houses relative to the placing of a loan of $100,000 for the State. The fiscal year for Alabama ends September 30 and there will be much money needed when it closes.

Governor O'Neal has heretofore been able to obtain all the money the State needs at a reasonable rate of interest. The last money borrowed by the State was obtained for 1 per cent. less than the interest that was desired by Southern bankers. Governor O'Neal believes that he can save the State quite a sum by obtaining the money needed at present from New York.

To Fight Lazy Worm.

Montgomery.—Campaigns for the eradication of the hookworm will be held in Mobile county about October 1, according to an announcement by Dr. W. W. Dinsmore, head of the hookworm department of Alabama. The campaign will be continued until after Christmas. The officials of Mobile county are co-operating in the movement and have appropriated $150 to aid in defraying the expenses of the campaign. Dr. C. A. Grote and Dr. E. V. Caldwell will do the work for the hookworm commission.

Sues Secretary of State.

Montgomery.—In a suit filed in the City Court against Cyrus Brown, as Secretary of State and Insurance Commissioner, the Pittsburg Life Insurance Company asks $347.67 of the official as return of an insurance penalty imposed upon the plaintiff company. It is averred that the company had duly paid its license of $431.15 and a further penalty for late payment of $347.67. The plaintiff alleges this was paid because the Commissioner had taken steps to debar the company from doing business in the State.

GOVERNOR SULZER MUST STAND TRIAL

MOTION OF COUNSEL TO DISMISS IMPEACHMENT PROCEEDINGS OVERRULED.

VOTE IN SECRET SESSION

Senator Gottfield H. Wende of Buffalo Casts Only Vote For Sulzer

Albany, N. Y.—William Sulzer must go to trial. This was decided by the high court of impeachment, when, by a vote of 51 to 1, its members overruled the motion of the governor's counsel to dismiss the proceeding on the ground that he was unconstitutionally impeached by the assembly because that body was in extra session when the impeachment was brought.

Senator Gottfried H. Wende of Buffalo, democrat, an ardent supporter of the governor, cast the solitary nay, while seven members of the court were absent.

The governor's defeat was the second that has marked the battle waged by his attorneys to annihilate as far as possible the impeachment proceedings. Last week the court thwarted their attempt to prevent four senators from sitting as members. Their remaining ammunition consists of arguments to prove that certain of the offenses charges against the governor are not impeachable.

The vote was taken in secret session after an afternoon devoted to speeches by the opposing attorneys.

Judge Cullen's opinion, in substance, was that the provision of the constitution which limited the acts of the legislature in extra session to such subjects as were recommended to it by the governor should be given a reasonable construction. If upheld the contention of the prosecution that the provision referred to the legislature as a whole and not to the assembly as an independent body.

"So construed," said Judge Cullen, these subjects all relate to what the egislature as a body can do and not o the power vested in one branch of he legislature."

REFUSE RESTRAINING ORDER

Justice Lamar of United States Supreme Court, Decides Against L. & N.

Washington. — Justice Lamar of the supreme court refused to issue the a restraining order to prevent the enforcement of the 2 1-2 cent passenger fare order issued by the Alabama railroad commission. Attorneys for the Louisville & Nashville railroad sought to have the order held up until the supreme court has passed on its validity, which may be a year or two hence.

The order has been in force since August 12, the judges of the district court in Alabama declining to issue a restraining order pending an appeal from the decision that the commission's order was valid.

Justice Lamar concluded that under the new equity rules promulgated by the court about a year year ago it was intended that the judges of the lower federal court should exercise the discretion of granting or refusing restraining orders pending appeal to the supreme court.

This decision is regarded as likely to be a precedent of importance in future litigation, greatly increasing the responsibility of the inferior federal judges. Attorneys for the railroad will not give up the fight to stop the enforcement of the order pending the appeal. It is understood they will at once apply to the judges constituting the federal district court in Alabama for a reconsideration of their decision. This would be done on the theory that the judges declined to issue the order some weeks ago because of doubt as to their authority.

Three Killed; Forty Hurt.

New York. — Three persons were killed and forty injured in a head-on crash of two Long Island Railroad eectric trains at College Point, Long Island. Most of the injured were mill employes on their way to work and touched parts of metals which connected with the heavily charged cable. The runs required 40 miles an hour schedule and the cars met on a sharp curve, the crash being inevitable. The steel cars buckled, but did not telescope. This fact doubtless saved a number of persons.

Favors Big Armor Plate Plant.

Washington. — Establishment of a great naval armor plant owned and operated by the government is favored by President Wilson, Secretary Daniels told callers with evident elation. The secretary has been advocating this proposition ever since he came into office. He said he had been encouraged by promises of congressional support and that he would have a conference on the subject soon with Admiral Dewey, president of the general board of the navy.

NATIONAL CAPITAL AFFAIRS

Public Golf Links at the National Capital

HINGTON.—President Wilson's commissioners for the Dis- Columbia are planning to pro- the national capital with public links, and golfers already are ing that when the new links are ed the chief executive will be playing on them.

present he gives the two so- fashionable golf clubs the go- motors over the hills of Vir- where the common folks main- the Washington Golf club.

membership of the club is ly mainly of government clerks her persons who have to look to make both ends meet finan- The democracy of the play- seemed to appeal to the pres-

golfers agree that golf is played her one or two purposes—exer- pleasure. If you play a good you play for pleasure. If your is bad, you play for exercise— get plenty of it.

the President is not so bad as they make them, by quite a long way, but he still is in the exercise class.

He plays golf for the good it does him and because he never expects to make his living teaching golf to beginners.

He goes out to the club with two automobiles. He is in the front one with Dr. Cary Grayson, while the second carries a secret service man or two.

The president usually reaches the club about 3:30.

He plays the first nine holes very leisurely, without the least sign of having to hurry back to the White House. Then he usually cuts off to the seventeenth, playing that hole and the eighteenth. Then, without going into the club house, he gets into the automobile and rides back to the White House.

With the president, golfing serves as no silk-stocking amusement. He never plays golf with the nabobs of the town. His almost exclusive golfing companion is Dr. Grayson.

Indeed, President Wilson has not devoted himself in the least to making friends in the wealthy.

Indeed, if the president were in pursuit of society, he would not play golf at the Washington Golf club. Society is not found there—not the kind that is spelled with capitals. SOCIETY abides at the Chevy Chase club.

ted Senator to Look Up a Prospective Wife

other day Senator Knute Nel- was startled by the receipt letter which contained the fol- clipping from a publication Cupid's Column. His surprise he read the clipping, which follows:

Washington, D. C.—I am a widow, twenty-five years of age. ildren; 5-6, 130 pounds, blonde ay eyes, very good form, good tion, French Methodist; have a income; like both city and life. Would like to corre- with some young man matri- inclined. See my photo."

he right of this touching mis- a picture, also clipped from paper, of a remarkably pretty earing a low collar and an picture hat.

senator, who is over seventy age and married, at once be- suspect that some widow had on him. But taking another the envelope he found the g letter and a photograph of man. The letter read:

mailing your picture and scription," said the note, "to of Washington, D. C. I hope ll get it and write to me at I am a young bachelor, and her owns a farm in Minnesota,

with a ditch running through it, and I am sure that we will be happy here. I am 5 feet 8 inches——" and much more to that effect. On the back of this was written:

"Dear Senator: This young woman lives in your city. Please look her up for me, as I want to marry her. I put her photograph outside the envelope, but the postoffice authorities returned it to me. If you will look her up and tell her to write me I will be much obliged to you and will remember your kind favor."

All the senator said when he dropped the envelope and its contents into the wastebasket was:

"He wants me to open a matrimonial agency for his special benefit. Now, I'll do any number of things for the people, but I'll be blamed if I will do that."

Tell McAdoo How to Run U. S. Treasury

people who know how to run United States government than the men who made it are , and they always have their ation on tap. The other day a who is tired of government ence, wrote to Secretary Mc- as follows:

Secty McAdloo.

Why do it for you to perse- little stocks of Steel and New and Telefun. Only a little I and now all gone so that I ke any will to give to my oun. yer says it is alright becus will do it, but he gets my and my husband is a striker. k says it is was Mr. Taft &

Mr. Wickersham, and my Savings Department says it is Wilson & Mr. McAdloo. Respectfully Yours, —— ——."

Another letter which Secretary McAdoo received is even funnier than the foregoing.

"U. S. Gov—t" writes from Fresno, Cal. The letter is dated June 2 and is as follows:

"Mr. McAdee: In regard to all government money Loan none out unless you can get 8 per cent. Have all Departments Deposit every week in National Treasury money collect that week. Keep everything in first-class shape equipped Treasury Department with a Burglar alarm system if necessary and have for protection four Arm Guards at night. Swear them in to be loyal to the Government, which is 48 States and Island Possessions. Yours truly,

"Signed in full: U. S. GOV—T."

Under the signature appears the following: "Approved at 5:30 P. M."

The left-hand margin has been utilized for the following postscript: "Loan it on the same terms as bankers do. Good Bye."

"'Where?' said the congressman.

"'Why, a clerk in that division was drowned this afternoon.'

"The congressman looked at him sadly. 'I regret to inform you,' he said, 'that you are too late; the place has been filled.'

"'How can that be?' shouted Allen. 'The man has just been drowned!'

"'Yes, I know,' answered the congressman, 'but the place was obtained by a Massachusetts man who saw the clerk go in swimming. He made a correct guess that the clerk could not swim and made his application by telephone ten minutes before the clerk's body was brought to shore.'

THOUSANDS VIEW BODY OF GAYNOR

BODY OF MAYOR GAYNOR LIES IN STATE IN NEW YORK CITY.

GREAT TRIBUTE PAID HIM

Despite Rain 75,000 Persons Pass the Bier in the City Hall.

New York.—In a double line that never seemed to diminish as the day wore on, thousands of persons filed through the flower-filled rotunda of the city hall and past the body of William J. Gaynor lying in state.

Unmindful of a heavy downpour of rain and threatening skies, the people came in a continuous stream silently to find places in the long, slow moving procession that extended for half a mile along Lower Broadway and through City Hall park to the city hall. It was New York's spontaneous tribute to its dead mayor.

In the long line were street cleaners in their white uniforms, policemen, firemen and men high in the official life of the city and state, but for the most part the procession was made up from the great so-called middle class.

About a fifth of the crowd was made up of women and children and many of the leaders carried small wreaths or bouquets of flowers which they placed near the coffin.

Fully one hundred thousand persons viewed the body before the doors closed, it is believed.

"It is a remarkable tribute," Mayor Kline said, as he viewed the great silent crowd. "No king, no emperor ever had a tribute paid to him like this great outpourng of citizens. It is tribute from the hearts of the people."

Three policemen and three firemen in reliefs of a half hour stood rigidly at attention during the night beside the coffin, which was draped in the stars and stripes and the mayor's flag, while beneath could be seen the colors of the union jack placed there at the request of the Gaynor family in recognition of the courtesy extended by the city of Liverpool upon the arrival of the mayor's body in that city after his death at sea. Crossed branches of palms of victory were the only floral decorations on the cover of the coffin.

ASSASSIN OF MADERO KILLED

Colonel Cardenas Killed to Keep Him From Revealing Orders.

Washington. — Lieutenant Colonel Francisco Cardenas, alleged by the Constitutionalists of Mexico to have been the assassin of Francisco I. Madero, former president of Mexico, has himself been assassinated, according to a dispatch received at the headquarters of the Constitutionalists here.

The advices state that Cardenas was killed at Michoalan, where he had been sent by Provisional President Huerta to take command of federal troops. He was assassinated, it was said, for fear he might reveal the orders he received on the night of February 22 when Madero was killed and when Cardenas was in command of the soldiers conveying Madero from the national palace to prison in Mexico City.

Negro Is Lynched for Double Killing.

Franklin, Texas.—Will Davis, negro, was lynched here after he had shot and killed Tom Hodges, aged 29, and Tom Rsuhing, 27, and badly wounded Will Maxwell, on the Rushing farm, ten miles north of Franklin. Hodges was killed first, following a dispute, and Rushing and Maxwell were shot when they attempted to arrest Davis. The negro was captured by a posse and hanged to a tree.

4 Girls Killed Preparing for Wedding.

Budapest.—Four girls who were to become brides were killed by lightning near the village of Nagy-Varad. The girls were picking flowers to decorate the church for the weddings. They were overtaken by a storm and took refuge in a grotto, which lightning struck. The bodies were found in the wreckage.

Great Cavalry Review for President.

Washington.—President Wilson will be given an opportunity during the first week of October to review the largest aggregation of mounted troops of the regular army that has assembled in Washington since the grand review in the late sixties of the seasoned veterans led by Generals Grant and Sheridan. This aggregation, composed the Tenth, Eleventh and Fifteenth regiments of cavalry, has been encamped at Winchester, Va., since the middle of July and will break camp October 1.

Robbed of Cash and Jewels.

Rome, Ga.—John L. Seay was robbed of $360 in cash and valuable jewelry while the family were at dinner. The thief, evidently familiar with the premises, entered the house and broke open a trunk Seay kept his surplus cash in. The loss was quickly discovered and officers found all of the jewelry and all but $90 of the money hidden nearby. Evidently the thief had been interrupted in his work and had been unable to make a clean get away. Seay took the money recovered and deposited it in a bank.

NEW YORK PRIEST AND WOMAN HE SLEW

Hans B. Schmidt, assistant priest in St. Joseph's church, New York, confessed to the horrible slaying of Miss Ann Aumueller. Schmidt, in his story to the police, told of how he murdered his victim while she slept, dismembered the body, packed the pieces in bundles and dropped them from the Fort Lee ferry boat. Last February Schmidt obtained a license, performed his own marriage ceremony and set up housekeeping in the Bronx, where he murdered the woman September 2.

U. S. FLEET WILL STAY

WILSON ADMINISTRATION WILL NOT TAKE DICTATION FROM PRESIDENT HUERTA.

Vessels Will Be Kept in Mexican Waters Just as Long as It Is Necessary.

Washington.—So far as the Washington administration is concerned, it became known that no move is contemplated in the Mexican situation at present. The elections of October 26 are awaited here with keen interest, and the next step in the policy of the United States is likely to make its appearance thereafter.

Administration officials read long excerpts of General Huerta's message to the Mexican congress published in Washington, but no formal comment was made. It is understood that the administration does not attach much importance to the document, though there are passage in it which did not pass without careful notice.

The references to the expiration of the period during which American warships were authorized to remain in Mexican waters caused some discussion. Inasmuch as the ships are permitted to remain another month, or until after the general elections are held, no statement of policy in this connection is likely to be made until that time. Informally officials let it be known that the vessels would be kept in Mexican waters indefinitely if the United States deemed it necessary for the protection of its nationals.

ROLL OF CRIME FOR PRIEST

Was Not Only a Murderer, But Counterfeiter and Thief.

New York.—That Hans Schmidt, the Jekyle-Hyde priest, whose double life was exposed when he was arrested and confessd the murder of Anna Aumuller after killing the girl and dismembering her body in a Bradhurst avenue flat, hired another apartment in which he presumably planned to conceal himself, was developed from police discoveries.

In ransacking Schmidt's rooms detectives found evidence that Schmidt had stolen $400 from the Easter collection at St. Joseph's church and that he had robbed a visiting priest who spent a night at St. Joseph's rectory.

Girl Killed; Body Thrown in River.

Newark, N. J.—The body of Alice Hopper, 16 years old, who had been missing from her home in Kearny, N. J., was found in the Passaic river at Harrison, her skirts weighted with stones. William Tolen, chief of police of Kearny, and the girl's relatives declared that she had been murdered and her body cast into the river. The stones, weighing 13 or 14 pounds, had been placed in the lap of her outer skirt and her skirt drawn up to form a basket, and the hem was knotted at the rear of the waist.

Guarded by Sheriff, Conducts Revival.

Mexico, Mo.—Guarded by a sheriff who sat in the front row of the large church gathering, Rev. Roy Hudson, evangelist and former pugilist, held a farewell revival here. He had been arrested during the day on a charge of wife abandonment at the request of the authorities at Terre Haute, Ind. The presence of the sheriff did not in the least dampen the ardor of the evangelist. Hudson waived extradition and will return to Indiana with the officials, now on the way from Terre Haute.

HUERTA'S MESSAGE PACIFIC

VERBAL BOMBS WERE LACKING WHEN PRESIDENT ADDRESSED MEXICAN CONGRESS.

Huerta Admits Relations Are Strained, But Says He Expects an Adjustment.

Mexico City.—Provisional President Victoriana Huerta delivered his semi-annual message at the opening of the second session of the Twenty-seventh Mexican congress. In it he promised to spare no efforts to bring about the unrestricted election of the president and vice president of the Mexican republic next month, declaring that it would constitute the greatest triumph of his career to turn over the office to his successor with the country at peace as he hoped to do.

General Huerta said the strained diplomatic relations between Mexico and the United States had caused the Mexican nation to suffer unmerited affliction, and had retarded the pacification of the country. Nevertheless he hoped for an early solution of the differences between the two nations and to see Mexico and the United States once more united in bonds of friendship.

The message was disappointing to many who had expected that Provisional President Huerta would deal at some length with recent diplomatic exchanges. This subject, however, he said, "being so delicate and the permanent commission of congress being already informed," he passed with a bare mention.

VICTORY FOR THAW IN COURT

U. S. Judge Aldrich Indefinitely Suspends Habeas Corpus Hearing.

Littleton, N. H.—Counsel for Harry Kendall Thaw laid the foundation for plans to carry his case to the Supreme court of the United States—if such a step is found necessary.

When the governor of New Hampshire passes on the matter of the extradition of Thaw to New York, at the hearing to be held at Concord, the findings, if adverse to Thaw, will be reviewed by the United States district court, and, should a decision against him then be rendered, successive appeals will be taken until the case reached the highest court in the land.

Immigrants Wanted for the South.

Washington.—A delegation representative of Louisiana and particularly New Orleans business men, headed by Senator Ransdell of Louisiana and M. K. Trezevant, general manager of the New Orleans chamber of commerce, conferred with Acting Secretary Post of the department of labor, with a view to diverting part of the tide of immigration through the port of New Orleans. It was pointed out that the South needed immigrants, and that the facilities for handling them in New Orleans were superior.

France Ravaged by Thunderstorms.

Paris, France.—Thunderstorms of exceptional violence have swept over France, doing great damage. At Marseilles the streets were transformed into torrents; hundreds of cellars were flooded and quantities of merchandise on the quays were ruined or washed into the sea. All traffic in the city was suspended for a time. A boat containing a fishing party of six was capsized in the harbor and five persons were drowned; at St. Agrieve, in the department of Ardeche, houses were struck by lightning.

Foley Kidney Pills Succeed because they are a good honest medicine that cannot help but heal kidney and bladder ailments and urinary irregularities, if they are once taken into the system. Try them now for positive and permanent help.

An Endearing Act.

Wife (pleading)—I'm afraid, Jack, you do not love me any more—anyway, not as well as you used to.

Husband—Why?

Wife—Because you always let me get up to light the fire now.

Husband—Nonsense, my love! Your getting up to light the fire makes me love you all the more.

Quiet English Parish.

The tiny parish of Clannaborough, North Devon, England, a little village, has a population of only 42, so that baptisms, marriages and burials are not very frequent. The other week the first marriage ceremony for 15 years took place, but even then the couple were not parishioners, the bride coming from St. Austell, the bridegroom, whose home is at Exmouth, being the rector's brother-in-law.

IN MEMORIAM

On the morning of Sept. 18th, 1913, the death angel visited the home of Mr. Lacy White of Clanton, Ala., and claimed for its victim the sweet gentle spirit of his darling little Boone.

The funeral was conducted by Rev. Lenbrick, after which the remains were laid to rest in Antioch cemetery. Little Boone was fatally burned on Monday before by the collapse of a stove while playing on the floor.

Little Boone seemed to be the joy and light of the home, but when God gathers jewels he takes the most precious ones. Great as was little Boone's influence while living, it has a sweet and sacred influence that his brief life is over and the solemn dust unto dust and ashes unto ashes. He was the sweet unfolded bud of innocence.

We extend our sympathy to the bereaved parents and bid them look up, for weeping endureth for a night but joy cometh in the morning. Think not of little Boone as dead, but safe in the tender Snepherd's bosom, for He said "Suffer the little children to come unto me, for of such is the kingdom of heaven."

The flower budded, hope was strong,
But hope could not his life prolong;
For O, alas, how soon we are made
To see it blossom but to fade.

Mrs. A. C. Leonard.

Calera, Ala.

$250,000 WORTH OF BONDS PURCHASED

Steiner Brothers announce that they have just purchased $100,000 of Blount county 5 per cent road bonds, running 30 years, and $150,000 of New Decatur paving bonds, bearing 6 per cent, running from one to ten years.

Leo. K. Steiner said yesterday that the bond market in this part of the country was very good, and that such bonds as those referred to are in demand by local investors.—Montgomery Advertiser.

SINGING AT MOUNT PISGAH

There will be a singing at Mount Pisgah church, 3 miles south of Clanton, on the afternoon of the Fourth Sunday in this month. Every one is requested to be there with his song book.

Committee.

Register's Sale.

The State of Alabama, Chilton County.
Chancery Court. Seventh District Northeastern Division. No. 8. Fall Term, 1913.
Town of Thorsby, Complainant, vs. Emil Feast, Defendant.

By virtue of a decree in said cause rendered at the above term of the Chancery Court for said District and Division, I will proceed to sell to satisfy said decree to the highest and best bidder for cash at public auction, in front of the Court House door in Clanton, Alabama, within the legal hours of sale on Monday, the 20th day of October, 1913, the following described property, to-wit:

Lots numbered 1 and 2 in Block 22, in the Town of Thorsby, Chilton county, Alabama. Said sale will be had for the purpose of paying the taxes assessed on said lots by the said Town of Thorsby for year 1912, together with all charges, penalties, interest and costs provided for under said decree.

This Sept. 15, 1913.

H. M. SIMPSON,
9-18-4t Register in Chancery.

FOR SALE.

Eighty-acre farm, well situated, two miles from rock quarry, five miles from Coosa river dam and eight miles from Clanton. Has a nice four-room house, a three-room tenant house and all necessary outhouses, including barn, stables and tool house. Good well of never failing water and a fine orchard. Thirty acres cleared for farming, balance in timber land.

Title good, price reasonable and terms to purchaser. Address

Notice of Guardian Sale.

Under and by virtue of an order and decree of the Probate Court of Chilton County, Alabama, rendered on the 13th day of September, 1913, I, W. T. Callen, as guardian for William Callen, a minor, will, proceed to sell at public auction, to the highest bidder for cash, in front of the Court House of Chilton County, in Clanton, Alabama, on Monday, the 13th day of October, 1913, a one eighteenth undivided interest in and to the following described lands, situated in Chilton County, Alabama, towit:

That tract of land bounded as follows, to-wit: Beginning at the southwest corner of the Pritchett lot, which Pritchett lot is now known as the Bryant McKee lot, and is situated in the north half of the southwest quarter of Section One (1), in Township twenty-one (21), of Range fourteen (14) East, and running thence south six degrees and 45 minutes west 11 chains and 90 links to a post, thence east 20 chains and 17 links to the right-of-way of the Louisville & Nashville Railroad, thence north 23 degrees and 30 minutes west along said right-of-way to the southeast corner of said Pritchett lot now known as the Bryant McKee lot, thence west along the south line of said Pritchett or McKee lot 13 chains and 5 links to the place of beginning, said described tract containing 20.06 acres, more or less.

Said sale to be made for the purpose of re-investment for the above named ward.

W. T. CALLEN,
Guardian for William Callen.
9-18-3t.

Legal Notice.

The State of Alabama, Chilton County.
In Chancery at Clanton, Ala., Seventh District, Northeastern Chancery Division.

Zack Abney, et als, vs. Sam Abney, et als.

In this cause it is made to appear to the Register, by the affidavit of Zack Abney that the Defendants, W. B. Abney, John H. Abney and Jennie Clearman reside in Lampasas county, in the State of Texas, and Jennie Mitchell and Frank Trammell reside in Panolia county, in the State of Mississippi, and Sallie Henderson resides in St. Louis county, in the State of Missouri, and further, that in the belief of said affiant, the Defendants are over the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring them, the said W. B. Abney, John H. Abney, Jennie Clearman, Jennie Mitchell, Frank Trammell and Sallie Henderson, to answer or demur to the same within thirty days after the 15th day of October, 1913, and failing so to do, a decree pro confesso will be taken against them in said cause.

Done at office, in Clanton, Ala., this 15th day of September, 1913.

9-18-4t H. M. SIMPSON, Register.

...OUNTRY HIGHWAYS

...UIRE HIGHEST TYPE OF ROAD CONSTRUCTION.

...ort of Advisory Committee to ...overnor of New York, Outlin- ...g the Severity of Modern ...ountry Highway Traffic as ...ollows:

...any, N. Y., Knickerbocker Press, April 3' 1913.

...our advisory good roads com- ...on appointed on February 21, ...3, to serve without expense to ...state, for the purpose of mak- ...recommendations in regard to ...hway matters, now begs leave ...submit its report.

...England, France and the rest of ...rope, on their type of roads, are ...ting with the same difficulties ... we are experiencing here. ...combination of the sharp met- ...alk, the narrow iron tyre and ...automobile is difficult satisfac- ...ly to accommodate. The old ...e of traffic compressed the ...ds, while motor traffic, taking ...traction from the road, fears ... disintegrates it, which, togeth- ...with the vastly increased traf- ... and tonnage, immediately ...ght on an improved highway, ...oduces an absolutely new fea- ...in the engineering problems ...onstruction and maintenance. ... the Empire state, we also ... traction engines, long and severe winters, very low temperature, destructive frosts, heavy snows, great thaws, and now perhaps most puzzling of all, the heavy automobile truck. This automobile truck is experiencing a remarkable development and will in all probability be in the commonest use on improved, roads, throughout the state within a few years. It will probably have an important part in the commercial expansion of the state and the commissioner should take this situation into consideration in contemplated construction, improvement and maintenance. We find the great nations, the greatest road builders and road engineers, are encountering the same difficult problems in finding a road that will meet and withstand these new and trying conditions.

PROBLEMS CHANCING

The various highway organizations heretofore established in New York, it is fair to say, have been confronted with these growing and changing problems, which have been increased during the last two years by the action of the legislature in responding to the demands of the people for immediate improvement of large stretches of highways which would seem to have been beyond what could be properly handled with the contractors' plants, supply of labor and materials available.

We urge in the consideration of the matter at the present time that you bring to the attention of the citizens of the state the great difficulties in the problems, for it seems to us that the faults that have existed in our efforts in highway construction are due in part to the change and increase in vehicular traffic, as well as in part to mistakes in construction made at various times since the establishment of the department.

A CHANGE THAT SUITS ALL

MANAGEMENT OF LYRIC THEATRE SEEKS GOOD WILL OF ALL.

Heretofore the management of the Lyric Theatre announced that he would donate fifty per cent of the receipts of the show each Wednesday night during the month of October to the fund now being raised for the High School.

This was done to show his interest in the town and in the establishment of proper educational facilities in the town, and, in order that he might, of course, increase the patronage of his place by his public spiritedness.

However, the selection of the night was somewhat unfortunate, in that it fell upon the same night on which the Methodists of Clanton hold their mid-week prayermeeting; in order to correct this mistake, Mr. Rubenstein has announced that the receipts on Tuesday nights, instead of Wednesday nights, will be divided between the management of the show and the public school fund. This was a generous movement on the part of Mr. Rubenstein and stamps him as one who does not wish to stand in the way, or attempt to change the old methods so long established. Mr. Rubenstein deserves the hearty thanks of all prayermeeting goers, anh will doubtless receive it.

Partition Sale.

At the Felix Hopkins residence, on Saturday, November 15, 1913, during the legal hours of sale, we shall proceed to sell to the highest bidder for cash the nw 1-4 of nw 1-4 of Section 18, Township 20, Range 11, Chilton county, Alabama, containing 40 acres, more or less. The above tract is a part of the lands of Felix Hopkins, deceased, and is sold to effect an equal division among his heirs.

W. J. STOUDENMIRE

10-2-4t

How Good Roads Pay For Themselves

IN LEE County, Virginia, a farmer owned 100 acres between Ben Hur and Jonesville, which he offered to sell for $1800. In 1908 this road was improved, and although the farmer fought the improvement, he has since refused $5,000 for his farm. Along this same road a tract of 188 acres was to have been sold for $6,000. The purchaser refused the contract, however, and the owner threatened to sue him. After the road improvement, and without any improvement upon the land, the same farm was sold to the original purchaser for $9,000.

In Jackson County, Alabama, the people voted a bond issue of $250,000 for road improvement, and improved 24 per cent of the roads. The 1900 census gives the value of all farm lands in Jackson county at $4.90 per acre. The selling value at that time was from $6 to $15 per acre. The census of 1910 places the value of all farm lands in Jackson county at $9.79 per acre, and the selling price is now from $15 to $25 per acre. Actual figures of increased value following road improvement are shown.

As the roads in no way effect soil fertility or quality of the farm, advances are due essentially to the decrease in the cost of hauling produce to market or shipping point. Farms are now regarded as plants for the business of farming, and any reduction in their profits, through unnecessarily heavy costs for hauling on bad roads, naturally reduces their capitalization into values. With reduced costs for hauling, profits are increased, with the result that the farm plant shows satisfactory earnings, on a higher capital value.—U. S. Department of Agriculture.

A FAMILY RECORD

IS THERE ANOTHER IN THE STATE?

Judge S. B. Arledge, of Stumps Hills, was in the Press offices Tuesday morning paying a most appreciated visit, and, incidentally, renewing his subscription to the Press. During the conversation which ensued, he stated that he was nearly sixty-seven years of age and had never taken a dose of medecine. He stated that he came from a healthy stock, and that while he indulged in chewing tobacco, he had never smoked; he drank occasionally—whenever he desired it—and had enjoyed all the sports of the young men of his day. Jduge Sam Arledge says that his mother is still hale and hearty at the age of ninety-seven enjoys her morning "toddy" and old clay pipe. "The only way," says he, "to get an Arledge out of the way is to put him out; they just refuse to die from natural causes.

ARE YOU GOING TO THE FAIR?

Go to your local and State Fairs was the advice we gave in the Progressive Farmer for a week or so ago in prose. Now the Kansas Farmer preaches the same good doctrine in verse. Here's the way it puts it:

"Are you going to the fair? All the live ones will be there. Does us good to take a day from the steady grind away, seeing what the neighbors raise, learning new and better ways. Educate—that's half the charm of this life upon the farm.

"We're not going just for fun, or to see the horses run. We'll not stand around and knock, but we'll take our finest stock, and our products we will show. What's the use of being slow? Life is great. At every turn there is something new to learn.

"Help to make that fair a go. Tell the folks just how you grow, pumpkins big as all get out, stuff that makes natives shout, how you farm the modern way, making crop rotation pay. Come across and do your share. Are you going to the fair?"—The Progressive Farmer.

WHO CAN BEAT THIS?

YOU HAVE LAST GO, SHOOT!

Mr. W. E. Maddox reports to the Press that he has a pumpkin vine in his garden near Clanton on which there are thirty-one well developed and average sized pumpkins just waiting for the frost to take a little nip, after which he proposes to house them for Winter use. In addition to the thirty-one well developed pumpkins, he states that there are five others which will attain a full measure of growth provided the frost consents to remain away for just a few more weeks.

MR. CHAPPELLE GETS GOOD POSITION

Tomorrow two old employes of The Journal, Miss Bonnie Burnham and K. A. Chappelle, will go to Mobile, to become associated with Mobile's new afternoon paper, the Post, which will begin business Oct. 1.

Mr. Chappelle has been with The Journal for two years as a member of the paper's advertising department. He had no newspaper experience when he came to the Journal, but with the keen initiative and ready ability which are dominant parts of his make-up he soon developed an aptitude for newspaper work that has placed him today in the front ranks of the advertising men in the South. If the new Mobile paper had had the entire gulf coast to select from, it could not have made a better choice than in choosing the clean-cut and likeable young man who Pensacola presents to that paper now.—Pensacola Journal.

Mr. Chappelle, who has fallen in to so good a berth, is the son of Rev. and Mrs. L. H. S. Chappelle of Clanton. He visited Clanton during the past Summer and made quite a number of friends during his stay here who will be glad to hear of his success.

FOURTH CLASS POST-MASTER EXAMINATION

SATURDAY, OCTOBER 18, 1913.

The United Civil Service Commission announces that on the

make certification to fill a contemplated vacancy in the position of fourth class postmaster of Verbena, Ala., and other vacancies as they may occur at that office, unless it shall be decided in the interests of the service to fill the vacancy by re-instatement. The compensation of the postmaster at this office was $564.00 for the last fiscal year.

Age limit, 21 years and over on the date of the examination, with the exception that in a State where women are declared by statute to be of full age for all purposes at 18 years, women 18 years of age on the date of the examination will be admitted.

Applicants must reside within the territory supplied by the post office for which the examination is announced. The examination is open to all citizens of the United States who can comply with the requirements.

Application forms and full information concerning the requirements of the examination can be secured from the postmaster at Verbena or from the U. S. Civil Service Commission, Washington, D. C.

Applications should be properly executed and filed with the Commission at Washington at least 7 days before the date of the examination, otherwise it may be impracticable to examine the applicants.

U. S. Civil Service Commission.

NOTICE

The Unity Baptist Association will meet with the Clanton Baptist church October 7th, at 10 a.m.

W. J. Ruddick, Clerk.

WHAT IT COSTS TO LIVE ON BAD ROADS

Two farmers living in separate counties, but at an equal distance from the cotton markets, learned by telephone that cotton had advanced in price $1 per bale. The farmer living on a bad road responded by hauling one bale, which, was all he could get over the unimproved road, while the other farmer was able to haul four bales, owing to favorable road conditions. The rise in price gained a profit of $4 to one man, and $1 to his neighbor.

It is shown in the statement that it is common for the farmer to find that he cannot haul his produce to market when prices are highest, because the roads are impassable. When the roads become passable, the time for market has largely passed, and produce is compelled to move in masses, which frequently gluts the market and breaks the prices.

A farmer in Sullivan county, Tenn., a few miles from Bristol, had 100 bushels of irish potatoes which he intended to market during the winter of 1907-8. Owing to bad roads, he was unable to haul them at all, and they rotted in the cellar. Nevertheless, the the price of potatoes at Bristol went up as high as $1.40 per bushel in the meantime.

A Bristol merchant stated that during the winter, as many as ten car-loads of farm produce, including wheat, potatoes and other supplies, were daily shipped in to feed not only Bristol, but the adjacent territory.—U. S. Dept. of Agriculture.

Our Policies

One of the livest topics of conversation and discussion in the state for a number of years has been the service, policies and plans of the L. & N. We have attempted to inform the people of our interest in extensions and improvements, and of our activities along industrial and agricultural lines.

It is practically impossible to reach all of the people with all of the information. We have made use of the newspapers of the state to conduct an advertising campaign, telling of our plans and seeking the co-operation of the general public. Unfortunately, not all of our advertisements have been read by all of the people. Fortunately, a sufficient number of farmers, manufacturers and merchants have read of our endeavors to keep us busy.

But we have by no means let up in our work of development and improvement. Every day gangs of men go out over the L. & N. system grading for extension of main line or spur track; they are making preparations for roadbed, while workmen in other departments are making preparations for rolling stock and other equipment.

Our industrial and agricultural experts are co-operating in an effort to locate industries along the lines of the L. & N. and to improve and promote agricultural yield.

We are determined that L. & N. equipment shall be such as will supply L. & N. service, which has become traditional for its excellence. Different people have different ideas of how to carry on work of this character, but the hundreds of merchants, farmers and manufacturers to whom we have rendered service will testify to the satisfactory results produced.

We want to work with and for the people of the state for the profitable development of the state. Our property is located within the borders of the state, subject to the needs of the people of the state. We believe the people will recognize the superiority of our service and accord us their patronage in the shape of passenger travel and freight shipments.

Ask any L. & N. agent concerning routes and rates. He will cheerfully render any assistance in his power.

WORLD CIRCLING TOUR

Series Probably Be Inaugurated in Chicago in October.

Special Train to Coast to Be Decorated With Flags of All Nations to Be Visited—Japan First Foreign Country.

The world circling series between the Chicago White Sox and the New York Giants will be inaugurated with a contest at Cincinnati on October 18. After the game the tourists will board their train, which will be decorated with the flags of all the nations to be visited. A band of music will accompany the party as far as the Pacific coast to enliven the trip and furnish entertainment before the games to be played on the way west.

An entire month will be spent in reaching Vancouver, from which place the party is booked to sail on November 10. On the way to the coast the teams will play games in the middle south and southwest, and will enter California by way of Los Angeles. Games are to be played in that city and in San Francisco, Sacramento, Portland, Tacoma, Seattle and Vancouver before boarding the steamer for Japan.

The first stopping place after quitting the United States will be Japan, where the native sons already have acquired a great liking for and considerable knowledge of the American pastime. The tourists will continue their trip to China, then to the Philippine islands, where they will be on United States soil again.

From Manila the athletes will travel to Australia, with games booked for the leading cities of that great sporting country. More long-distance traveling will be in order after quitting Australia. India, possibly Calcutta, will draw a game, and then Cairo, Egypt, where a battle will be waged at the foot of the sphinx. If this doesn't bring the sphinx back to life and make him talk, his case may be considered hopeless. Italian cities, Rome, Venice, Genoa and Florence, will next be visited. France, Germany and Austria will be visited before the Americans leave the continent for the British Isles.

It is hardly likely that any games will be played in John Bull's back yard. The weather at that time of the year is too inclement for pastiming. The big cities will be visited, however, with a grand finale at Dublin before departing by steamer from Queenstown. The teams will then hustle back to America to go into their respective training camps.

The players who will be selected to make up the two teams will be picked as much for their personalities as for their baseball skill. It is realized that the great American game will be on trial in all of the countries visited, and it is the aim of the promoters to insure sportsmanlike conduct both on and off the field throughout the trip. Men who will realize and attempt to uphold the dignity of their nation's game will be chosen, in so far as possible.

The National commission will select an umpire to accompany the team and officiate as the representative of baseball's "supreme court" during all the games. This will avoid the risk of giving the sport a black eye in foreign lands through disputes or controversies that would be almost certain to grow out of inexperienced umpiring.

MAX CAREY MAKES A RECORD

Fast Pittsburgh Outfielder Scores Four Runs in Recent Game Without Being "At Bat."

When Max Carey scored four runs without making a hit in a recent game against the Phillies, a record was claimed for him. The claim is well

Max Carey.

founded, as far as the majors are concerned, but back in 1895 Billy Hulen, then with Minneapolis, drove six bases on balls and scored as many times.

No Chance for Trade.

There is absolutely no chance of Tinker getting York Harmon from the Cardinals for Jack Hatcher and Walter Singer. Hatcher says Tinker will not listen to the trade even if he wanted to put it over.

LEFT-HANDED STAR SHOWS GREAT FORM

Rube Marquard of Giants.

The return to form of Rube Marquard has been highly pleasing to the baseball fans of the metropolis. Rube has done fine work for the Giants this season and has made himself solid once more with the followers of the Giants. Last season he hung up a record of 19 consecutive games won in the early part of the year. After that he struck a big slump and lost almost as many games as he had won in the earlier part of the campaign. During the world's series Rube did effective work in the box. Much speculation was indulged in this year as to whether or not he would be of much assistance to the Giants in their pennant fight. At the start of this season Rube did not show anything wonderful, but as the season wore on he has gradually struck his stride and has been a big factor in keeping the Giants at the top in the National league race.

AS THE PITCHER WINDS UP.

From Second Base—Put 'er right over, big as a barn—he can't hit it.

From Right Field—Make 'im hit it, ol' man; make 'im hit it.

From the Shortstop—'Nother strike out, ol' sport. This is a punkin.

From the Side Lines—Make 'em put it over. Wait fer a good one. Make 'im cut the plate.

From the Catcher (signaling for a straight ball)—Now one o' them curly ones under the chin. T'row it right at his bill.

From the Left Field—Ho! Ho! Here's an easy one! Toss it to 'im.

From the Bench—Soak 'er down this way, ol' dub, an' watch me eat it.

From Third Base—Cut the pan, ol' sport; cut the pan—they can't touch it in a t'ousand years.

From the Bleachers—Right on the nose, Chimmie; right on the nose. A nice, clean single, bo; a nice, clean single.

"Han' 'im one of them fade-aways."

"Move the fielders back about a mile."

"A home run, Chimmie; a home run."

"Send 'er down to shortstop—he can't never stop it."

"Wait fer a base on balls, ol' man—the pitcher's wild."

"Knock the cover off'n it."

"Kill it! Kill it!"

"Here's five dollars, me boy, for a home run."

"Make 'em be good, ol' scout; make 'em be good."

Then from the umpire, as the pitcher is about ready: "Hey, hold on a minute. Say, there, somebody dust off the plate a little."

And then it all begins again.—Puck.

NOTES of the DIAMOND

Harry Clark has signed a two-year contract to continue as manager of the Milwaukee Brewers.

* * *

Connie Mack believes Danny Murphy, his veteran player, will quit the game at the end of the season.

* * *

Players of the Washington team have been made a proposition to visit Cuba this fall and are considering it.

* * *

Manager Tinker of the Reds started in life as a carpenter for his father, who was a contracting carpenter in Kansas City.

* * *

Connie Mack has failed to find one college player he wanted—Sam Walton, the Harvard pitcher, who declined an offer to play with the Athletics.

* * *

The reserve list of baseball players is spurring a pantograph team in New York and he avers that it does best single of the dance floors. [illegible] to Wid [illegible]

WID CONROY GOES TO ELMIRA

Former Washington American League Star to Manage Team Previously Led by Lew Ritter.

William (Wid) E. Conroy, formerly of the Washington American league team and for two seasons with Rochester in the International league, was

Wid Conroy.

released to Elmira, subject to International league waivers. It is understood here that Conroy will manage the team next year, vice Lew Ritter.

Mathewson Is Greatest.

A number of ball players anxious to discover the reason for the remarkable effectiveness of Mathewson, Plank, Sallee, Miner, Brown, Chief Bender and other veteran pitchers this season studied the records the other day and their research brought to light the fact that Mathewson was the greatest all-round twirler of all times. The specialties and strength of each big league twirler were examined and the ranking was found to be the following:

Most speed—Walter Johnson.

Best curve—Amos Rusie.

Hardest to hit—George Edward Waddell.

Greatest all-round pitcher—Christopher Mathewson.

Disapproves of Change.

Walter Johnson is not strong for the change in systems. Walter thinks that Ban Johnson should keep the record of games won and lost and not how many earned runs were made off the pitcher.

DIZZY, HEADACHY, SICK, "CASCARETS"

Gently cleanse your liver and sluggish bowels while you sleep.

Get a 10-cent box.

Sick headache, biliousness, dizziness, coated tongue, foul taste and foul breath—always trace them to torpid liver; delayed, fermenting food in the bowels or sour, gassy stomach.

Poisonous matter clogged in the intestines, instead of being cast out of the system is re-absorbed into the blood. When this poison reaches the delicate brain tissue it causes congestion and that dull, throbbing, sickening headache.

Cascarets immediately cleanse the stomach, remove the sour, undigested food and foul gases, take the excess bile from the liver and carry out all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will surely straighten you out by morning. They work while you sleep—a 10-cent box from your druggist means your head clear, stomach sweet and your liver and bowels regular for months. Adv.

Big Sleep.

A middle-aged couple were preparing to leave for a week-end with a daughter in the city, and their last instructions to their grown-up son, who was a heavy sleeper, were to be sure and wind his alarm clock, so that he would be in time for his work the next morning.

Monday noon they got back to the house and were surprised to find the blinds closed exactly as they had been left the Friday previous on their departure. As they let themselves into the house they heard their son's voice coming sleepily from his bedroom:

"What's the matter? Did you miss your train?"

RINGWORM SPREAD ON HAND

R. F. D. No. 2, Box 67, Ellijay, Ga.—"My son's ringworm began on the back of his hand. A fiery red spot came about as large as a dime and it would itch so badly he would scratch it till it bled. It began to spread till it went all over his hand. He would just scream every time I went to wash it. The nail came off on the middle finger.

"I used ——— and it got worse all the time. The trouble lasted two or three months. Then I sent and got some Cuticura Soap and Ointment and began to use them. I would wash his hand with the Cuticura Soap and dry it good and apply the Cuticura Ointment. Relief was found in two or three days and the ringworm was cured in two weeks after using Cuticura Soap and Ointment." (Signed) Josie Parks, Jan. 4, 1913.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

ITS WORK WELL DONE

Democratic Party Deserves the Country's Confidence.

Proper Revision of the Tariff Accomplished Without Untoward Disturbance of Business Marks an Era in Statesmanship.

For 20 years the people have been trying to get the tariff revised, not by its friends, but by their friends. Men of all parties have felt that the protective idea had been very greatly overworked. Before the birth of the Progressive party, progressive Republicans had been that something would have to be done in the way of reducing duties, declares the Indianapolis News. The arguments for a tariff commission, when they were honest, as they have not always been, were prompted by this feeling. One of the greatest tariff speeches ever made, at least in our time, was that of Senator Dolliver, in opposition to the Payne-Aldrich bill.

Yet in spite of the pressure for lower duties, nothing whatever was done. When the Republicans were swept into power in 1896, they interpreted the verdict of the election as in favor of a higher tariff. So they at once passed the Dingley bill, with greatly higher duties, and turned their back on the real issue, which was that of the gold against the silver standard. And the Dingley tariff lasted for 12 years. In the campaign of 1908 the Republicans were unable to resist the popular demand, and they promised to revise the tariff, and, of course, revision meant revision downward. For no one ventured even to suggest that the Dingley duties were not high enough.

But they failed to keep their pledge. Instead of revising the tariff downward, they gave us the Payne-Aldrich law, which in many particulars, was worse than the Dingley law—at least it was not revision downward. Here began the split in the Republican ranks. Amid all the talk about initiative, referendum, recall, recall of judicial decisions, and fluid constitutions, people forgot that the break in the Republican ranks was over the tariff. But such is the fact. The revolt was against extreme protection.

In the campaign last year the tariff question was again at the front. It was the most popular issue that the Democrats had. They elected a Democratic president, a Democratic senate and a Democratic house. Instead of turning away, as the Republicans did, from the paramount issue of the campaign, they at once set about the work of revising the tariff—and this time downward. And now the work is practically done. The long battle has been won.

We do not believe that there has been a tariff, certainly not since the war, made under such favorable and clean conditions as this one. The lobby was driven out of Washington by the president, and congress has been free to serve the people without being deviled by the representatives of special interests. No on claims that the bill is perfect. But the standard of comparison is, not perfection, but Republican tariffs. We have certainly improved on them, and come measurably near meeting the wishes of the people. The bill is a good bill. The president and congress have done their work well.

President's Position Right.

The president stands pat on congress doing what it was called together for, and what the Democratic platform promised, if it takes all of both summer and fall months in which to accomplish the task. The president is right about it. Let the will of the people prevail. Let the representatives of the people keep the promises of the party which elected them to office. Public office is a public trust and those who abuse a public trust are "embezzlers of power." Members of congress are paid for every month of the year, whether they work or not. If the public interests require that they work the full 12 months of the year, they should not complain—that is what they hired themselves to do. Talk may be cheaper to those public servants who indulge it than work, but it is not cheaper to those who pay the bills than work—if it be the right kind of work.

Congress Must Act.

A few years ago a little clique of Wall street magnates were able to bring hard times on the nation whenever they pleased. They learned the full extent of their power in the crash of 1907—and the country learned a little of the evils of this irresponsible control. As a result of this lesson, the Vreeland law was passed, authorizing the issue of emergency currency, and providing other safeguards against panic.

The Vreeland law expires by limitation June 30, 1914. Unless congress acts in the meantime, the money lords will then get back the power they wielded in 1907.

Leadership by Right.

The complaint of President Wilson's "dictating" is bosh, and everyone knows it. The president's ascendency is the leadership of a strong, fearless, clear-headed man, who means to do his duty, and insists that his colleagues shall do theirs. He steps out ahead, and public opinion forces legislators in other departments of government to close ranks and follow. If the president took the wrong road it would be perversion—but, so far he has not taken the wrong road.

CHILDLESS WOMEN

These women once childless, now happy and physically well with healthy children will tell how Lydia E. Pinkham's Vegetable Compound made all this possible. Here are the names and correct addresses—write them if you want to, and learn for yourself. They are only a few out of many thousands.

"Our first baby is strong and healthy and we attribute this result to the timely use of your Compound."—Mrs. Fred Yonaker, Kent, Oregon.

"I owe my life and my baby's good health to your Compound."—Mrs. W. O. Spencer, R. F. D., No. 2, Troy, Alabama.

"I have three children and took your Compound each time."—Mrs. John Howard, Wilmington, Vermont.

"I have a lovely baby boy and you can tell every one that he is a 'Pinkham' baby."—Mrs. Louis Fischer, 22 Munroe St., Carlstadt, N. J.

"We are at last blessed with a sweet little baby girl."—Mrs. G. A. Laperouse, Montegut, La.

"I have one of the finest baby girls you ever saw."—Mrs. C. E. Goodwin, 1012 S. 6th St., Wilmington, N. C.

"My husband is the happiest man alive today."—Mrs. Clara Darbaker, 307 Marilla St., Buffalo, N. Y.

"Now I have a nice baby girl, the joy of our home."—Mrs. Dosylva Cote, No. 117 So. Gate St., Worcester, Mass.

"I have a fine strong baby daughter now."—Mrs. A. A. Giles, Dewittville, N. Y., Route 44.

"I have a big, fat, healthy boy."—Mrs. A. A. Balenger, R. F. D. No. 1, Baltimore, Ohio.

HENPECK HAS LITTLE JOKE

For Once He Turned the Tables on His Wife, and Surely Had a Right to Laugh.

Henpeck was in a state of delight all the evening; it was so evident that at last we asked whether some one had left him a fortune.

"No, but it is the joke of the age. I have been laughing all day. This morning when I went into the dining room at breakfast time there was no meal visible. I went into my wife's room and there she was still asleep. So unlike Bertha, you know. I called her: 'Say, Bertha, it's eight o'clock; I want my breakfast.' Not a movement. I shouted; shook the bed; brought in the frying pan and beat the reveille upon it. All to no purpose. What was I to do? Time was passing and I didn't feel inclined to go to work hungry. Get my own breakfast? Not on your life. What am I married for? Then a bright thought struck me. I took off my shoes, crept as quietly as I could along the passage; a board creaked; in a moment Bertha was awake.

"'James, where have you been?'

"And you should have seen her when she realized the truth. Ha! ha!"

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is mussy and troublesome. Nowadays, by asking at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. Adv.

Made Him Tired.

Robert is small, but rapidly leaving behind the baby age that tolerates sentiment. Not long since he overheard a young married couple of his acquaintance billing and cooing, not, be it noted for the first time. The grown folk present smiled, but Robert's face remained solemn. Only, as he bent over the childish task that apparently absorbed him, he was heard to murmur, acornfully:

"Goodness! Loving again!"

Their Use.

"That orchestra uses racks for its music."

"Yes; the audience is on one of them."

A man laughs at scars when a woman throws things at him.

Hay is the chief agricultural crop of Switzerland.

Real Excitement.

"Yes," said the meek-looking man. "I've no doubt you've had some great hunting experiences in your travels abroad."

"I have, indeed."

"Buffalo hunting—"

"Yes."

"And bear hunting—"

"Of course."

"Well, you just come around and let my wife take you house hunting and bargain hunting with her. Then you'll begin to know what real excitement is."

Improving Constantinople.

Constantinople's scheme for a metropolitan electric line is well under way. It includes the formation of what is known as the Ottoman Metropolitan company, capitalized at $5,000,000 for the purpose of building and operating the line. Work is to be finished as far as Pancaldi in four and a half years from October 1, 1912, according to the terms of the contract, and the rest will follow within a ten-year period. A new bridge over the Golden Horn will be part of the work.

HEADACHE AND BILIOUS ATTACKS Caused by Malaria removed by the use of Elixir Babek cure for such ailments. "Myself and whole household had suffered very much for some time with Malarial Fever. 'Elixir Babek' has cured us perfectly, so that we enjoy at present the best of health."—Jacob Eberly, Fairfax Court House, Va. Elixir Babek 50 cents, all druggists or by Parcels Post prepaid from Kloczewski & Co., Washington, D. C.

Thinks Cancer Is Contagious.

Authorities contend that cancer is not contagious, but Doctor Odier, head of the cancer institution at Geneva, Switzerland, says he has discovered in one of the principal streets of that city at least a dozen houses in which the disease has recurred, a fact he can only account for on the theory that it is contagious. He urges that every house in which there has been a cancer patient be disinfected.

RUB-MY-TISM Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

Light on an Old Subject.

Dentist—Now, open wide your mouth and I won't hurt you a bit.

The Patient, after the extraction—Doctor, I know what Ananias did for a living now.

Easily Spotted.

"Is this dress apt to be easily spotted?" she inquired.

"At least four blocks off, I should judge," answered the gentlemanly clerk.

DOES YOUR HEAD ACHE? Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Literal Ones.

"You don't really quarrel with your wife, I am sure. What you have are only sham disputes."

"Yes, but she persists in putting them all over the pillows."

Nothing equals Dean's Mentholated Cough Drops for Bronchial weakness, sore chests, and throat troubles—5c at all Druggists.

If a man is obliging he is apt to be popular because he can be imposed upon.

It is a waste of time to whitewash a character that could not be saved by thick enamel.

Ready for Him.

A conductor stumbled twice over the foot of a small boy. Looking back at the mother, the conductor said:

"Some people seem to have very awkward children."

"Yes," said the mother; "I was just thinking your mother had one."

Inquiring to Know.

"You're a smart man, and I want you to answer me a question," said the boob.

"Shoot it," responded the wise guy.

"Is an inquisitive man a questionable character?" asked the boob.

Which Proves It.

"They say that unions raise the price of labor."

"Quite right! Two of my clerks got married last week and struck me for more salary."

Naturally Limited.

"He won't go far even when he's pushed."

"That's because he's such a pinhead."

One Kind.

"I love the noises of the woods."

"Then I suppose you like the bark of the dogwood?"

Backache Is a Warning

Thousands suffer kidney ills unawares—not knowing that the backache, headaches, and dull, nervous, dizzy, all tired condition are often due to kidney weakness alone.

Anybody who suffers constantly from backache should suspect the kidneys. Some irregularity of the secretions may give just the needed proof.

Doan's Kidney Pills have been curing backache and sick kidneys for over fifty years.

"Every Picture Tells a Story"

A South Carolina Case

Mrs. Mary West, Spartanburg, S. C., says: "I was so run down with my back I couldn't get about. My appetite became poor and I felt all worn out and discouraged. Doan's Kidney Pills put me in good shape and I now feel better than before in years."

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

With Underwood, Hobson, Knox and Clayton all in the race, we place a kopec on Hobson.

The art of train robbery seems to have been perfected. Jesse James and Rube Burrows were novices in the art as compared with those who have been pulling off the stunt in these diggins' recently.

Last week was a quiet one in political circles. We heard of none of the candidates jumping on Comer. What's the matter, boys? Have you found it unprofitable or have you just abandoned the field?

Governor O'Neal seems to believe in the suppression of the truth; at least it looks that way. He has debarred several newspaper men from the executive offices because they secured news with reference to the condition of the treasury and dared to publish the facts. What's a newspaper for anyway?

We hope our farmer subscribers who are in arrears, while selling their thirteen cents cotton, will not forget us; we have no cotton for sale and are largely dependent upon subscriptions. No better time to get on the credit side of a newspaper than when cotton is bringing such good prices.

The Tennessee legislature in its closing hours, by a slick piece of trickery, enacted a law substituting the electric chair for the hangman's noose, but no matter how the act was passed, it was praiseworthy. Now let Alabama follow suit and abandon this relic of barbarism.

What Say They Now?

Last Fall, just previous to the national election we had the spectacle of republican and bull moose orators in Chilton county going about "orating" and writing in the local paper about the great calamity which was about to befall the farmers in case Wilson was elected President.

These republican orators and prophetic news writers be wailed, with much lamentation, the future of the down-trodden farmer in case a democratic Congress was elected and the National Senate fell into the hands of the democrats. All three of these things have come to pass since these prophets of ill times ahead made their predictions and since "Plow Boy," "Sly Old Fox" and others under various nom-de-plumes made their newspaper debut warning the farmers to refrain from voting the democratic ticket. All of our readers will remember the predictions of dire calamity that was to follow in the train of a democratic administration; trousers without seats and filled with numerous patches, cotton selling at starvation prices (Cleveland prices, as they called it), soup houses established in the cities to feed the starving public, homes and farms plastered with mortgages which the owners could never hope to pay off till republicanism again come into power; these and similar things were the bug-a-boos held before the gaze of those who were foolish enough to look or were poured into the ears of those who would listen.

What is the actual, the precise result? Ask the farmer's wife, the farmer's daughter; they will tell you that "Pa is getting more for his cotton today than for many seasons before; that ma has a new dress, that "my beau," Charlie, is coming to see me regularly now in a new buggy drawn by a high stepping horse;" the mortgage is paid off, there's meat in the smoke house, sugar in the gourd, syrup in the barrel, corn in the crib. They'll tell you that farmers were never so prosperous as now and that the times are even growing better as the administration pursues its course.

You can't hear one of these prophets of evil undertaking to talk to the farmers now and explaining how it all came about; they are compelled, if honest, to contribute it all, or most of it, to the administration of Wilson. Of course, as we have always contended, the law of supply and demand has had much to do with it. Taft never kept the price of cotton down, nor did Wilson raise the price; neither had anything to do with it, so to speak, any more than did Cleveland have to do with the price of cotton in '84. That panic was brought on before Cleveland ever was nominated for the presidency; it burst in its fury just as he assumed the reins of office and he had to shoulder the responsibility.

Wilson came at a time when the country was ready for the swelling tide; he must get the credit for it just as Cleveland received the blame. Republicans cannot stuff the one down the throats of people without holding the other up as an antidote, if they be honest.

But, we undertook to impress these truths upon our people last year, and for several years past; they would not believe them, desiring rather to follow the blind predictions of those who through deceit wanted to control the voters and thereby ride into office.

Where are the so-called "soup houses?" Where are the patched trousers, the shirtless boys? Let the old prophets answer these questions if you please.

There have been less failures in this county than for some years before too; had you thought of that? Those houses which were periodically going into bankruptcy are now upon firm foundations; every merchant is looking forward to a brisk holiday trade.

But, what's the use? There are none so blind as those who will not see; none so stupid as those who determine not to be convinced by solid facts.

Soup houses, patched breeches, mortgages, shirtless boys!! Who predicted these things? Republicans and bull moosers. What say they now?

Clanton Cotton Movement and Prices

Chronic Dyspepsia.

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia: "I have been a chronic dyspeptic for years, and of all the medicine I have taken, Chamberlain's Tablets have done me more good than anything else," says W. G. Mattison, No. 7 Sherman St., Hornellsville, N. Y. For sale by Alred Drug Co.

Mr. Geo. W. Jones, for of Police of Bessemer, is ing deputy sheriff out a ann the boys are standin with more regard for th of the law than forme know that Geo. W. mea he says when he tells th must "behave."

A Striking Feature for Our Readers

Diversification on Southern Farms

By G. H. ALFORD

It is with great satisfaction that we announce the early publication of the first of a series of twelve articles on this very important subject in which every reader is intensely interested.

¶ The fact that the series is written by G. H. Alford is sufficient guarantee to every southern reader of its value. Mr. Alford has devoted a lifetime to the study of agricultural conditions in the South, and his advice and counsel are always appreciated by the southern people.

¶ We urge every reader not to miss the first of our series, starting with this issue.

The suit heretofore pending between the Vizard Investment Company of Mobile, as defendant, and Mr. Jas. Roberts as plaintiff, has been settled to the entire satisfaction of all concerned.

FOR RENT QUICK.---Nicely located four-room house with all conveniences. Apply to T. S. Pyron.

A Marvelous Escape.

"My little boy had a marvelous escape," writes P. F. Bastiaans of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger." Sold by Alred Drug Co.

Rev. A. A. Swanlund, pastor of Concordia Lutheran church at Thorsby, was in Clanton Monday, circulating among friends and making new acquaintances; while here he called at the Press offices and made a most pleasant and appreciated visit.

The Jury Commission was busy last week filling the jury box for the coming term of the Circuit Court.

Avoid Sedative Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia or other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world-wide reputation for its cures. It contains no morphine or other sedative. For sale by Alred Drug Co.

FAIR NOTICE-

All persons indebted to me for professional services are requested to call at the Upchurch Drug Co. and make settlement. Dr. Upchurch is authorized to receipt all accounts. Early settlements will be appreciated.

Respectfully,
9-25-2t (Dr.) P. I. HOPKINS.

CLANTON ALABAMA

Notice of Guardian Sale.

Under and by virtue of an order and decree of the Probate Court of Chilton County, Alabama, rendered on the 13th day of September, 1913, I, W. T. Callen, as guardian for William Callen, a minor, will, proceed to sell at public auction, to the highest bidder for cash, in front of the Court House of Chilton County, in Clanton, Alabama, on Monday, the 13th day of October, 1913, a one eighteenth undivided interest in and to the following described lands, situated in Chilton County, Alabama, towit:

That tract of land bounded as follows, to-wit: Beginning at the southwest corner of the Pritchett lot, which Pritchett lot is now known as the Bryant McKee lot, and is situated in the north half of the southwest quarter of Section One (1), in Township twenty-one (21), of Range fourteen (14) East, and running thence south six degrees and 45 minutes west 11 chains and 90 links to a post, thence east 20 chains and 17 links to the right-of-way of the Louisville & Nashville Railroad, thence north 23 degrees and 30 minutes west along said right-of-way to the southeast corner of said Pritchett lot now known as the Bryant McKee lot, thence west along the south line of said Pritchett or McKee lot 13 chains and 5 links to the place of beginning, said described tract containing 20.06 acres, more or less.

Said sale to be made for the purpose of re-investment for the above named ward.

W. T. CALLEN,
Guardian for William Callen.
9-18-3t.

Legal Notice.

The State of Alabama, Chilton County.
In Chancery at Clanton, Ala., Seventh District, Northeastern Chancery Division.
Zack Abney, et als, vs. Sam Abney, et als.

In this cause it is made to appear to the Register, by the affidavit of Zack Abney that the Defendants, W. B. Abney, John H. Abney and Jennie Clearman reside in Lampasas county, in the State of Texas, and Jennie Mitchell and Frank Trammell reside in Panolla county, in the State of Mississippi, and Sallie Henderson resides in St. Louis county, in the State of Missouri, and further, that in the belief of said affiant, the Defendants are over the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring them, the said W. B. Abney, John H. Abney, Jennie Clearman, Jennie Mitchell, Frank Trammell and Sallie Henderson, to answer or demur to the same within thirty days after the 15th day of October, 1913, and failing so to do, a decree pro confesso will be taken against them in said cause.

Done at office, in Clanton, Ala., this 15th day of September, 1913.

Mortgage Sale.

Under and by virtue of the power of sale contained in a mortgage executed by T. R. Robterds and his wife, Sarah Robterds, to J. S. Johnson on the 17th day of November, 1892, to secure an indebtedness to said Johnson by said Robterds and wife, in the sum of $240.58-100, which said mortgage was recorded in Vol. 31, on page 57 of the Book of Mortgages in the office of the Judge of Probate of Chilton county, Alabama, on the 6th day of April, 1893, which said mortgage and debt has been duly assigned to Roberta A. Mullins, the undersigned; default having been made in the payment of said debt, I, said Roberta A. Mullins, will proceed to sell the lands conveyed by said mortgage, to-wit:

The east half of the northeast quarter of Section twenty-six (26), Township twenty (20), Range Twelve (12) situated in Chilton county, Alabama, to the highest bidder for cash, at the hour of 12 o'clock noon on

MONDAY, OCTOBER 20th, 1913,

in front of the Court House Door in Clanton, Chilton county, Alabama, said sale to be made for the purpose of satisfying said debt together with interest thereon and to pay the expenses of this sale, including a reasonable attorney's fee.

This the 25th day of September, 1913.

Do You Know What

Had You Thought What It Means to Look Neat?

We take your old clothes, remove all ink and grease spots, repair torn places, renew "wholly" pockets, press them neatly and return them to you at an insignificant cost, but at a tremendous saving to you.

We make OLD Clothes look NEW. Ladies Skirts and Waists a specialty.

Look up your old clothing and give us a chance to renew them for you. Let us rejuvenate your wardrobe.

Yours for Business, **Powell & Powell** Next to Bank Store

Coal! Coal! Coal!

If you want the best burning Fancy Lump Coal, order it from M. L. White or R. E. Luckie. Only handle one grade, the BEST quality, and burns up clean. Buy your supply before Xmas, as we can't get coal shipped promptly after Xmas. Will deliver Tuesdays and Fridays of each week. TERMS STRICTLY CASH.

Pity the Unpainted House!

Would you go out in the pouring rain wearing your best clothes if you had no protection such as an umbrella or raincoat? Not if you could help it, you say.

Yet some people expose expensive material to the elements without adequate protection. The building material in your house is expensive and should be protected. Otherwise it will be ruined as surely as the fine clothes you wouldn't wish to wear out in the rain.

Dampness causes decay in wood-work. If you keep out the dampness you keep away decay. Paint made with

Collier White Lead
(Dutch Boy Painter Trade Mark.)
and Pure Linseed Oil

will keep away dampness and prevent decay.

We sell it. Come in and have a talk with us about painting.

S. S. WORKERS PLAN BIG YEAR'S WORK

IN CARRYING OUT IDEAS OVER THOUSAND VOLUNTEERS WILL BE CALLED ON.

STATE W. C. T. U. CONVENTION

Four-Day Session Held at Government Street Presbyterian Church. Mobile.

Montgomery. — For the convention year of 1913-14, the Alabama Sunday School Association is planning an advance movement along each of seven distinct lines of work. This will be known as "the State-wide Forward Movement," and will include in its scope every county of the state. The work will be carried on through the County and District Sunday School Association, 440 in number, which are auxiliary to the State Association. It will seek to reach and hep the Sunday schools of all denominations in every part of the state.

In carrying out these plans, over a thousand volunteer workers will be called upon to help. In the next few days Leon C. Palmer, general secretary of the State Association, will send out a letter to all county and district workers, outlining the plans in detail.

Mobile. — A large number of officers and delegates attended the four-day session of the State Convention of the Alabama Woman's Christian Temperance Union, which began Sept. 29, at the Government Street Presbyterian Church with Mrs. Annie K. Weisel of Birmingham, presiding.

A lengthy and interesting program was carried out. Many speeches were made by those prominent in W. C. T. U. work. Much interest was manifested throughout the four-day session by the delegates in attendance upon the convention.

INCOME TAX IN ALABAMA.

State Has Only 8,000 People Who Will Be Affected by Law.

Washington. — Alabama has 8,000 people who enjoy incomes ranging from $3,000 up to $25,000 a year, according to the report of the internal revenue collector. The treasury department is busy gathering data from various collectors of internal revenue as to the probable number of people subject to the income taxing feature of the Underwood tariff bill.

Alabama, however, has only 100, according to this estimate, who will have to pay on incomes from $25,000 to $50,000, and 10 with yearly incomes up to $100,000. They have found none in the state who collect more than $100,000 per annum.

No estimate has been received on Mississippi, though the collector is the same for both states. No return in Georgia so far, but Tennessee has the same number of Alabama.

DISTRIBUTE PENSION WARRANTS

$315,000 Divided Between 17,000 Pensioners October 1.

Montgomery. — Pension warrants aggregating $315,000 sent out from the auditor's office to the various probate judges of the state were distributed October 1. The warrants were distributed among 17,000 pensioners, divided in three classes.

Although charges have been made against a number, none of their names will be dropped from the pension rolls this quarter, according to Fred S. Ferguson, special master, who is making an investigation of the pension rolls.

During the past few weeks General Ferguson has been engaged in making an investigtion of the pension rolls, and has cited several hundred pensioners to appear before him and show cause why their names should not be dropped from the rolls. All of the pensioners on the rolls will receive their money next quarter, though indications are that a large number will be dropped from the rolls before January 1.

WALKER ELECTED MAJOR.

Alexander City Officer Chosen Over Birmingham Man.

Montgomery. — Capt. N. S. Walker, of Alexander City, was elected major of the Fourth Infantry, Alabama National Guard, in the election recently held in that regiment, according to returns filed in the office of Adjutant General J. B. Scully. Captain Walker won out over Capt. J. D. Carlisle of Birmingham, by a vote of 18 to 9. Only commissioned officers in the Fourth regiment were allowed to vote.

KELLEY PLANT DESTROYED

Flames Originating in Drying Kiln Entails $12,000 Loss in Lamar.

Eldridge. — Fire which started in the drying kilns of the Kelley Mill company's plant, five miles west of here, completely destroyed the plant and about a half million feet of lumber with a loss of between $10,000 and $12,000. There was no insurance. The entire plant and stock was destroyed. The plant was owned by F. M. Kelley and so

GREER TO INVESTIGATE CHARGE

Reports of Cruelty at Huxford-Orvin Convict Camp to Be Probed.

Montgomery. — Because of complaints concerning the treatment of convicts at the Huxford-Orvin convict camp at Atmore, an investigation of conditions at that camp is being made by Len F. Greer, associate convict inspector.

Complaints against the treatment of the convicts have been made in the columns of Mobile newspapers and recently D. H. Edington, recorder of Mobile, refused to send any more Mobile city prisoners to the Huxford-Orvin camp because of the treatment accorded them.

Mr. Greer has no direct authority to supervise the convict camp because all the convicts worked are from Mobile and Escambia counties, but if he finds that conditions warrant he can make a report to Dr. W. H. Oates, state prison inspector, and bring about an investigation.

During a former investigation, Mr. Greer discovered that Mr. Orvin, senior member of the firm, was acting as warden at the camp. He immediately removed him and instructed the company to employ a warden who had no connection with the company.

EXECUTIVE COMMITTEE TO MEET

Chairman Tyler Goodwyn Makes Announcement.

Montgomery.—Members of the democratic state executive committee will meet during the latter part of December to select the time for holding the primaries next year, according to R. Tyler Goodwyn, chairman. Mr. Goodwyn declared that he had no idea as to the wishes of the members regarding the adoption of the majority plan for the nomination of candidates.

Many of the members of the committee are said to favor the adoption of the majority plan, while others think the majority plan should prevail. Opposition to the majority plan is based chiefly on the extra expense attached. In case this expense could be reduced, it is practically certain that there will be two primaries he' next year.

MORE GUNS OFFERED.

War Department Would Send Antiques to Alabama University.

Montgomery.—Thirty antique guns, representing a large variety of firearms in use in this country from settlements times down to a later date, will shortly be added to the already valuable collection of guns and firearms on exhibition in the state department of archives and history.

Dr. Thomas M. Owen, director of the department, has received a letter from the United States war department informing him that he may either secure these guns from the government as a loan or purchase them at nominal prices.

The director announced that he hoped to be able to purchase the firearms within the near future, and said the collection would be a fine acquisition to the antique guns which the department now possesses. Dr. Owen hopes to secure the guns the latter part of this year or the first of next year.

MONEY APPORTIONED FOR FAIRS.

Birmingham Gets $4000—Whether Fund Available Is Speculative.

Montgomery.— Apportionment of the state's annual appropriation of $20,000 for agricultural fairs in Alabama was announced by the department of agriculture for this year. Whether the money will be made available, owing to the depleted treasury, is speculative.

According to the distribution Montgomery and Jefferson counties get $4000 each; Selma gets $2000; Tuscaloosa gets $700. In the $600 class are Cullman, Troy, Alexander City and Demopolis. The $500 class includes Jasper, Union Springs and Limestone county. Those getting $400 are Center, Albertville, Clanton, Montevallo, Tuskegee and Tuscumbia. Fort Payne and Bay Minette each get $300 and Thomasville $200.

Reward Is Offered.

Montgomery.—Announcement was made at the governor's office that a reward of $100 was offered for the arrest and conviction of the person who assaulted Mrs. Exer Hamilton at Montevallo.

County Officer Named.

Montgomery.—J. C. Livingston of Greensboro has been appointed a member of the board of county commissioners of Hale county. The appointment was announced from the governor's office.

Bird Day Set Aside.

Montgomery.—October 8 has been set aside as bird day at the Southern Conservation Congress at Knoxville, Tenn. John H. Wallace, Jr., and others were invited to attend from Alabama.

Autauga Proud of Splendid Highways.

Montgomery.—Probate Judge Faucett of Autauga county, in Montgomery on business, says that with the completion of the road from the Dallas county line to Mulberry, in Autauga county, the highway connecting Montgomery with Selma will be one of the best in the state. Judge Faucett declared that work on the Mulberry road would begin within the near future, when the contract will be let for a graveled highway connecting Mulberry with Dallas county line.

LOUISIANA IN GRIP OF SERIOUS FLOODS

RAILROADS SUSPEND PASSAGE. LAKE CHARLES SUFFERS. RICE CROP DAMAGED.

GOOD ROADS FOR FARMERS

Secretary Houston Approves Efforts of American Good Roads Congress.

Lake Charles, La.—Floods in south west Louisiana reached serious proportions. Lake Charles is in darkness as the electric power plant was closed because of high water, no street cars are running, many houses in the lower sections of the city are flooded, forcing inhabitants into second stories and it is still raining. The Southern Pacific railroad has annulled all trains bound for New Orleans and three branch railroad lines running into this city suspended operations. The Calcasieu river was reported higher than ever before.

Various estimates of damage to the rice crop have been made. Conservative calculations are that unless the rain ceases within a day not more than half a crop will be gathered.

Detroit, Mich. — Secretary Houston of the United States department of agriculture in an address before the American Road Congress here expressed his approval of the efforts of the organization and explained the interest of the federal government with reference to road building. He urged good roads for the farmer in preference to great transcontinental highways for automobilists and at the same time he said he did not underestimate the valuable service rendered by automobilists in the propaganda for road building.

PEACE TREATY IS SIGNED

Turks Uncompromising in Attitude Toward Greeks, According to Dispatches

Constantinople, Turkey.—The treaty of peace between Turkey and Bulgaria was signed by the plenipotentiaries here.

Constantinople. — Menacing language of the newspapers representing the Turkish military element, which now practically occupies the government saddle confirms the uncompromising attitude adopted by Turkey in demands upon Greece.

One paper says:

"Greece is bound to yield on the question of th eislands in the Aegean sea before the united Bulgarian and Turkish units."

London. — A Constantinople dispatch said that Essad Pasha has telegraphed the Sultan that he intends to form an autonomous Albania under the suzerainty of Turkey.

The grand vizier congratulated the delegates on the completion of their work of peace. General Savoff, the Bulgarian delegate, replying, said that the treaty marked the resumption of relations of concord and friendship between Turkey and Bulgaria.

ROOSEVELT TO HUNT BIG GAME

Colonel Planning to Spend Three Months in Wilds of South America

New York. — Fro more than three months, from about the middle of December to the end of March, Theodore Roosevelt will sojourn in the wilds of South America for a hunting trip.

Arrangements for the colonel's trip were partly described. The colonel will sail from New York October 4 and will spend two months visiting Brazil, Argentine, Chili and Paraguay cities. In these countries he will be the government's guest and he will deliver several set speeches. Late in December a steamer will leave him and his party of naturalists at Cuyaba, Brazil, the head of navigation on the Paraguay river and at that point the hardships of the journey will commence.

Companions of the colonel from this point will be Anthony Fial of New York, the Arctic explorer, and George K. Cherrie of Indiana and Leo O. Miller of Newfate, Vt., naturalists connected with the American Museum of Natural History.

Serves Term to Study Conditions.

Auburn, N. Y. — Thomas Mott Osborne, chairman of the state commission on prison reform, wearing a convict's uniform, began a short term in Auburn prison. He will study the effect of the present prison system on the mental and physical condition of a man. Assigned to the "idle gang," he will live the life of a convict in every detail. The arrival of Mr. Osborne inside the prison was without incident. The convicts apparently are honoring his request that they consider him on top of them.

TEN MEN ARRESTED AS TRAIN BANDITS

ALL DENY CONNECTION WITH HOLD-UP AT BIBBVILLE, ALABAMA.

STORY OF THE ROBBERY

Posses Abandon Chase and Leave the Case to the Railroad Authorities.

Montgomery, Ala.—Specials from Tuscaloosa, Ala., say that the deputies from Birmingham and Montgomery and armed farmers of Tuscaloosa county have abandoned the search for the three men who held up and robbed the express car of the Alabama Great Southern train at Bibbville, Ala., and that the case is now entirely in the hands of the railroad special officers. Five men have been arrested at Eutaw, Ala., below Tuscaloosa, none of whom is over thirty years old, and five others have been landed in the Tuscaloosa county jail by Special Agent Hall. All of these men deny connection with the hold-up.

Mail Clerk Leander Poole gave out the following statement:

"The robbery was committeed by three masked men, only one of whom appeared to me to be at all experienced. The other two were young and nervous. One of them did considerable promiscuous shooting and cursing in the mail car. Bullets passing through the mail car narrowly missed four men. I am confident the robbers doing the shooting were drunk. While crouched under the counter I had the presence of mind to save a few registered letters.

"The last charge of dynamite that blew the express safe was very heavy. It jarred us, 100 yards away. They had modern appliances equipped with lights that threw rays so they could see us, but we could not see them. As they were marching us back to the passenger coaches I fell into a cattle guard and sprained my ankle. One robber warned us of the cattle guard just as I fell.

"The fireman stated the robbers got off with mail sacks full of booty. My impression is they left the car before we reached Vance, letting the engine run wild to throw the posses off the track. I believe I can identify the robber who did the shooting and cursing. I got a good look at him. The smaller robber, who guarded the rear end of the express car seemed experienced. The express messnger had no chance to defend himself."

According to statements of the train crew, Engineer Daniels and his firemen were covered with revolvers when the train stopped on the block danger signal at Bibbville. The fireman was forced to uncouple the express, mail and baggage cars, and they were run down the track some distance from the passenger coaches. There the mail clerks and express messenger were driven from the cars and the safes blown open with nitroglycerine.

PROGRESSIVES WILL RUN.

Chairman Says Party Will Not Join Republicans.

New York.—Fifteen members of the Progressive national committee met here and decided at the next congressional election to place a Progressive candidate in every district in the United States. Representative William Hinebaugh, Illinois, chairman of the party's congressional committee, declared the Progressives had no intention of joining the Republicans.

"There can be no so-called Progressive Republicans in the Progressive party," he said. "A man either is a Republican or he is a Progresive."

A joint campaign committee representing the Progressive national committee and the Progressive congressional committee was organized. It consists of Col. Theodore Roosevelt, former Senator Beveridge of Indiana, Walter F. Brown, George W. Perkins, Medill McCormick, Representative Hinebaugh and Miss Frances Keller. It will meet at an early date in this city to mature plans for the party's fight to nominate and elect straight-out Progressive candidates for congress in the campaign of next year.

2,000,000 Lady Bugs Visiting Chicago

Chicago.—About two billion lady bugs are flying around Chicago owing to the carelessness of an employe of the International Refrigeration Exposition at the stock yards amphitheater. The frozen insects were packed in an icebound case with a glass top. When an attendant filled the refrigerator he forgot to close it and soon the bugs were revived by the warm air and flew away. The lady bugs were shipped from California, where they are used to fight the fruit scale.

Will Attempt to Pass Immigration Bill

Washington.—An attempt will be made before the adjournment of the special session of congress to pass an immigration bill with a literary test as its leading feature, such as was vetoed by former President Taft. At a meeting of the house committee on immigration the old Burnett-Dillingham bill, which met Mr. Taft's disapproval, was ordered reported to the house. Democrats back of the measure will get to work immediately to have this legislation indorsed by the caucus, an action which is necessary

FREDERICK COLLIN

Justice Frederick Collin is one of the judges of the court of appeals sitting with the senate as a high court of impeachment for the trial of Governor Sulzer of New York.

HUERTA BOWS TO UNCLE SAM

FOREIGN MINISTER OF MEXICO IS NOMINATED FOR THE PRESIDENCY.

Futility of Opposing U. S. Dawns On Him—Believes Gamboa Will Satisfy Washington.

Mexico City.—Frederico Gamboa, minister of foreign affairs, was nominated for the presidency by the Catholic party convention. Gen. Eugenie Rascon was nominated for the vice presidency. Both candidates are regarded as men of high standing. Senor Gamboa accepted the candidacy.

Frederico Gamboa was a disciple of Ignacio Mariscal, at one time minister to the United States. He was subsecretary of foreign affairs under Mariscal. Later he became minister of the Netherlands, and has recognized ability as a diplomat. He is a writer of some note, and is about fifty years of age.

Gen. Eugenie Rascon was minister of war under Provisional President de la Barra. He served as military commander of the federal district for a short time, and later as governor of Yucatan. He is 65 years of age and has a long military record.

The efforts of the Catholic party, it is said, have been directed at the selection of men who would be acceptable to the United States. The choice fell upon Senor Gamboa, for the reason that he has not been prominently identified with any political party, while it is believed that he will have the confidence of Liberals as well as Catholics, and upon General Rascon, who is regarded as a desirable running mate for similar reasons. He was a friend of Porfirio Diaz, and was Madero's choice for war minister in de la Barra's cabinet.

Alcohol Congress for U. S.

Milan, Italy.—The president of the fourteenth international congress on alcoholism, Dr. Angelo Filippetti, announced at the session that the permanent committee had decided to propose that the congress in 1915 should be held in the United States. This requires the ratification of the whole congress prior to adjournment. Several interesting papers were read, including one by William Johnson of Westerville, Ohio, dealing with the fight against alcoholism in the United States. The delegates also discussed the liquor traffic

Hermit Is Robbed and Shot.

Waycross, Ga.—After lying in the bushes near the ruins of his home, which had been destroyed by a negro who first robbed the place and then shot him, James Bennett, known as "The Hermit" in the Manor section of Ware county, was found in a serious condition. According to a story, a negro strange to him entered his home and when discovered fired twice at Mr. Bennett, only one shot taking effect. The negro then finished his search of the house, presumably trying to find a sum of money

Gaynor Disinherited Married Daughter

New York.—The will of William J. Gaynor, late mayor of New York, as filed, leaves to the widow his Brooklyn residence and 500 shares of Royal Baking Powder company stock. The remainder, with the exception of minor bequests of the estate, is divided, two-sevenths to each of two sons and one-seventh to each of three unmarried daughters. The two married daughters, Mrs. Harry Vingut and Mrs. William Seward Webb, Jr., receive $1,000.

EIGHT PERSONS ARE KILLED IN RACE RIOT

TWO DRUG-CRAZED MULATTO BOYS STARTED REIGN OF MURDER AT HARRISTON, MISS.

TWO NEGROES ARE LYNCHED

Troops Were Rushed to the Scene and Arirved Just in Time to Prevent a Pitched Battle.

Harirston, Miss.—Two drug-crazed mulatto boys, brothers, began a reign of murder here that ended only after three white men, four negro men and a negro woman had been killed, Twenty wounded and the two boys lynched. A serious clash between the races was prevented by the arrival on a special train of a company of National Guardsmen from Natchez.

The trouble started at 2 a. m. and continued until ten o'clock, when Walter Jones, the older of the two boys, who started the firing, was lynched just after the soldiers arrived. His brother Will had been shot by citizens earlier in the day. Soon after people who had baricaded themselves in their home began to cautiously emerge from their hiding places, and by noon the town was quiet. No more trouble is feared.

The shooting was started by Walter Jones, aged 20, in the negro quarter, where a negro woman and Thead Grayson were shot and killed. Walter then went to the home of his mother and aroused his brother, who was only 18 years of age.

Together they proceeded through the main street of the little town, firing at every one in sight. Citizens aroused from their slumber by the shots peered out of the windows and then hastened to cover, believing, they said, that riots of more serious proportions had broken out.

The two boys, soon after leaving their home, went to the home of former Constable Frank Keinstly and when he replied to their call to come out he was shot through the head by Walter Jones. Death was instantaneous. Keinstly's son, William, grabbed for a gun when he saw his father fall, but before he could fire he received a bullet in one of his hands.

The Yazoo and Mississippi Valley depot is near the Keinstly home and the two negroes walked in that direction. A train had arrived from Natchez just a few moments before and Conductor E. B. Appleby was standing at the station talking to Flagman W. C. Bond, Without warning the two negroes fired on them and both fell. Then they directed their fire at Claude Freeman, who was waiting for a train to take him to his home at Fayette, Miss. He was instantly killed. The negroes then fired into the train, terrorizing man yfo the passengers. A sleeping car from Natchez is left every night at Harriston until the through train from Memphis to New Orleans arrives. After the train which had come from Natchez left, this car stood alone on the tracks and was a target for the fire of the two negroes. While many windows were broken, no one was hurt in the car.

CHINA MAKES AN APOLOGY

Regret Expressed for Killing of Several Japanese and Insult to Flag.

Nanking, China.—Gen. Chang Hsun, the commander of the troops at Nanking, accompanied by a body guard of fifty cavalrymen, went to the Japanese consulate and apologized according to the Japanese demands in connection with the killing of several Japanese and an insult offered to the Japanese flag. The consul expressed his satisfaction at the action of the Chinese commander.

Eight hundred of Gen. Chang Hsun's troops with the republican flag at their head marched to the Japanese consulate and presented arms while the commander saluted the consul. The Japanese troops meantime stood at attention.

Peking.—The Japanese legation emphatically denied that an ultimatum had been sent by the Japanese government to China. The legation stated that the Chinese authorities at Hankow and Shantung had fully complied with the Japanese demands.

Rebels Defeated by Huerta Forces.

Piedras Negras, Mexico.—Reports from Sabinas and Barroteran indicate that the Constitutionalist army has met defeat and is in full retreat toward the border with 1,600 Federals hanging on its flanks. Americans, who were ordered to leave the disturbed district, arrived from the front and asserted that the great mining properties at Monor, Agujita, Rosita and possibly Esparanza, as well as the town of Barroteran, have been destroyed to prevent their captures by the invading Federals.

Explorer Going to Antarctic.

Portland, Maine.—An Austrian antarctic expedition for work from Weddell sea south in the antarctic is being prepared by a committee headed by Prof. Eugene Oberhummer of Vienna, president of the Imperial Austrian Geographical society. This information was received by Rear Admiral Peary in a letter from Professor Oberhummer. Dr. K. Kobelin who was a member of a recent German expedition to the antarctic and has had experience in Greenland, is to be the leader.

GEN. BENJAMIN F. TRACY

General Tracy is one of the leading counsel for Governor Sulzer in the impeachment trial at Albany. Despite his eighty-three years, General Tracy displays all the mental vigor which earned for him his high rank in the legal profession. General Tracy was secretary of the navy in the cabinet of President Benjamin Harrison.

MURDERER KILLS MERCHANTS

POLICE OF COUNTRY NOTIFIED TO BE ON WATCH FOR JOSEPH ELLIS.

After Stripping Corpses of Valuables, Murderer Vanishes—Latest Crime in Indianapolis, Indiana.

Indianapolis, Ind.—Convinced that the young man who brutally murdered Joseph Schlansky, a clothing merchant, in a hotel here, is the same person who has committed similar crimes in several Eastern and Middle Western cities, the local police department asked officers in every large city east of the Mississippi river to watch for the slayer. They believe the murderer is Joseph Ellis.

After murdering the merchant, the man discarded a collar spotted with blood, walked to a nearby store, where he purchased another and then, returning to the lobby of the hotel wherein his victim lay dead, remained for an hour or more. Late in the afternoon the slayer returned to his room, and then, going to the union depot, secured his suitcase from the checkroom and is believed to have caught an eastbound train.

In each town where the man operated his scheme was the same. He would register at a hotel under an assumed name, call on either one of the smaller clothing merchants or a second-hand dealer and, explaining to them that he had some samples he must get out of his possession at once, asked the dealer to go to his room.

Once in the man's room the procedure nearly always was the same. The victim either was struck down or was forced at the point of a revolver to submit to being bound and gagged. Then his valuables were stolen, and the robber, leaving the merchant to be discovered by hotel employees, departed.

Will Serve in Pen to Study Convicts

Auburn, N. Y.—Thomas Mott Osborne, chairman of the New York state prison reform commission, appointed investigate and suggest prison legislation, will begin a self-imposed term in Auburn prison. The primary purpose is to determine the sociological effect of prison confinement upon man. Mr. Osborne in outlining his purpose to the convicts said: "I have the feeling that after I have really lived among you, marched in your lines, shared your food, gone to the same stone cells at night and in the morning looked at God's sunlight through these same iron bars, that then and not until then can I feel the knowledge which will break down the barriers between my soul and the souls of my brothers."

Across Mediterranean Aviator Flies.

Bizerta, Tunis.—Roland G. Garros, the French aviator, flew 558 miles across the Mediterranean from St. Raphael, France, to this city, the most northern seaport of Tunis. His time was 7 hours and 53 minutes. He started here at 1:45 p. m. The flight is the longest over-sea journey ever made in an aeroplane. The aviator refused to accept the advice offered him that he should affix floaters to his aeroplane as a precaution in case he should be forced to descend on the water.

Father Slain by 16-Year-Old Son.

Greenville, Ala.—Hazick Gibson, 16 years old, was arrested near Fort Deposit, this county, and brought to jail here, charged with the murder of his father. The boy claims his father was cruel to him and cowardly beat him. The boy says he crept into his father's bedroom and crushed the sleeping man's skull with three blows of a little double-bitted axe. He then left the body and went to his brother's home, some distance away, telling him what he had done and asking him to get away.

TRADE TENDENCIES IN GENERAL ONWARD

Distributive Trade Holds Center of Stage — Money a Little Easier.

New York. — Bradstreet's review of trade says:

Distributive trade has held the center of the stage this week and in this line dry goods, clothing and wearing apparel generally have been most active, both at wholesale and retail. Trade tendencies in general, however, are onward, though there are enough expression to prevent uniformity, business affairs show further improvement.

This manifestation may very properly be correlated to the fact that stocks everywhere are light, that rains in the southwest have superinduced a better feeling there, that colder weather over a wide area in the forecast of the week furnished a reminder that heavy goods were needed, besides affording a stimulus to retail trade, and that the crop movement has enlarged with farm produce prices especially remuneartive, this latter feature reflected in somewhat improved conditions.

Most reports indicate that trade is better than it was at this time last year. Moreover, money appears to be a little easier.

Business failures for the week were 287, which compares with 259 last year.

Wheat, including flour, exports from the United States and Canada for the week aggregate 5,980,265 bushels, against 5,850,902 last year.

New York.—Dun's review of trade says:

Sustained progress along conservative lines is the keynote of advices from the leading mercantile centers. Improvement is not wholly uniform and some sections and branches of trade reflect better conditions than others. In the aggregate, however, the volume of current transactions continues large, and then hesitancy is still shown in entering upon future commitments, the feeling of caution is less manifest than heretofore.

Unseasonably low temperatures in some parts of the country have led to further claims of crop damage, but distribution of merchandise at retail has been benefited and the wholesale movement is gradually expanding. Well maintained activity is apparent in all departments of the dry goods markets.

Failures this week numbered 264 in the United States, against 261 last year, and 58 in Canada, compared with 24 a year ago.

BANKS RECEIVING CROP FUND.

South Has Nearly All Its Quota. $24,159,000 Given Out.

Washington. — Secretary McAdoo has deposited $24,159,000 in national banks of the government's $50,000,000 crop moving fund so far. The South has received nearly all its quota.

Deposits now are being made in the central west. The deposits so far by states are: Alabama $1,170,000, Arkansas $600,000, District of Columbia $407,000, Illinois $3,400,000, Indiana $275,000, Kentucky, $1,020,000, Louisiana $3,075,000, Maryland $2,700,000, Minnesota $400,000, Mississippi $150,000, Missouri $1,750,000, New Mexico $50,000, North Carolina $1,250,000, Oregon $600,000, Pennsylvania $75,000, South Carolina $1,400,000, Tennessee $2,045,000, Texas $600,000, Utah $125,000, Virginia $850,000.

Composer Dies.

London. — The death of Harry Gabriel Pelissier, the well-known composer and entertainer and founder of the Follies Troupe, occurred here. He was born in London in 1874.

Quadruplets Born.

Centralia, Ill. — Four boys were born to Mr. and Mrs. Pearl Yates, who live near here. Physicians believe all will live.

German Aviator Killed.

Johannesthal. — Lieutenant Schulz, a German military aviator, was killed here. His monoplane capsized at a height of 150 feet.

NEWS BREVITIES

Washington — Transcontinental railroads filed a brief in the supreme court outlining grounds upon which they seek to have declared invalid the interstate commerce commission's order reducing the rate on lemons from California to eastern destinations.

New York. — After an investigation of the case of Congressman Timothy D. Sullivan, whose body, after his recent tragic death, narrowly escaped burial in potter's field, Deputy Police Commissioner Dougherty announced that he had found no evidence of violence of suicide.

Chicago. — The death rate in Chicago from what are known as "water germ" diseases has decreased 54.9 per cent since the opening of the drainage canal, Prof. H. G. Adams of the University of Michigan testified in the government's injunction suit against the sanitary district.

Waco, Tex.—The Farmers' National Congress, which was in session here for several days, adjourned after selecting Fort Worth, Texas, the meeting place for holding the next convention.

FALLING HAIR MEANS DANDRUFF IS ACTIVE

Save Your Hair! Get a 25 Cent Bottle of Danderine Right Now—Also Stops Itching Scalp.

Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scurf.

There is nothing so destructive to the hair as dandruff. It robs the hair of its luster, its strength and its very life; eventually producing a feverishness and itching of the scalp, which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast. A little Danderine tonight—now—any time—will surely save your hair.

Get a 25 cent bottle of Knowlton's Danderine from any store, and after the first application your hair will take on that life, luster and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness, but what will please you most will be after just a few weeks' use, when you will actually see a lot of fine, downy hair—new hair—growing all over the scalp. Adv.

Luckily for Him.

The amateur adventurer had just returned from stirring scenes in Mexico, where he had fought under the banners of the revolutionists. He had come home wounded and was telling his friends about it.

"It was my first engagement, you know. The bullet struck me just under the heart."

"And you lived? How remarkable!"

"Oh, no; not at all! You see, my heart was in my mouth at the time."

INDIGESTION, GAS OR BAD STOMACH

Time it! Pape's Diapepsin ends all Stomach misery in five minutes.

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Dyspeptic, jot this down: Pape's Diapepsin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

You feel different as soon as "Pape's Diapepsin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food.

Go now, make the best investment you ever made, by getting a large fifty-cent case of Pape's Diapepsin from any store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or bad stomach. Adv.

Interested.

Husband (at the police station)—They say you have caught the fellow who robbed our house night before last.

Sergeant—Yes. Do you want to see him?

Husband—Sure! I'd like to talk to him. I want to know how he got in without waking my wife. I've been trying to do that for the last twenty years.—Judge.

DIDN'T KNOW WHAT TO DO

Pitiful State in Which Mrs. May Found Herself, and How She Escaped.

Opp, Ala.—In a letter from this town, Mrs. Carrie May writes as follows: "About two months after I married, I began to have very bad weak spells, and terrible headaches. I felt miserable all the time, and soon got to where I couldn't hardly stay up. After the third month I got down completely.

I was young, had never been sick before, and I just didn't know what to do. I thought I would die.

My husband, at last, got me a bottle of Cardui, the woman's tonic, and it helped me so, he got another bottle. When I had taken the second bottle I was well.

I wish that every woman, suffering from womanly trouble, would give Cardui a trial. It is the best medicine on earth for womanly weakness."

Are you weak, tired, worn-out? Do you suffer from any of the pains peculiar to weak women? If so, take Cardui.

As a remedy for women's ills, Cardui has been most successful. It is purely vegetable, composed of ingredients which have been found to build up the vitality and strengthen the womanly constitution, as well as prevent or relieve those terrible pains from which weak women suffer.

Cardui is worth trying. Judging from the experience of a million other women who have been benefited by this remedy, it should surely do you good.

If you prefer to write Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions, and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

CHILTON COUNTY FAIR

CLANTON, ALA., Oct. 20 to 25

Prizes offered on everything in the home or on the farm, including

Boys' Corn Club, Girls' Tomato Club, Boys' Pig Club, Swine, Cattle, Sheep, Poultry, and All Kinds of Woman's Work, Including Art, Needle Work and Children's Work of All Kinds

All exhibits, except milk cows, will be required to be on the grounds all during the Fair. Milk cows will only be required to be there on Friday, October 24th. On this day they will be judged and can be returned home that night. This is done for the convenience of the owners. While we would be glad to have them all the time, it is not required to compete for a prize with the milk cows. All other animal exhibits of whatever description will be required to be there all the time.

We have secured TWO FINE FREE ACTS to be on the ground each day, therefore you may rest assured that there will be something interesting each day and each hour.

The judges for each deprtment will be announced in the next week or so.

BRING SOMETHING TO THE FAIR AND LET US MAKE IT THE BEST FAIR IN THE STATE

All prizes will be paid at the Fair grounds on the last day of the Fair, in time for all exhibits to be carried home that night.

Chilton County Fair Association

AFTER SCHOOL

The desks for Mr. Pickens' room have arrived; all are rejoicing over the fact. Better lessons are expected now.

NOTICE—I am now prepared to give lessons in Fancy Work of all kinds; geometry a specialty—Hoke Pipes

Mr. Reuben Popwell and Wilmer Stanfield will give FREE attractions on boxing. We are expecting to hear of them challenging the light-weight champion.

Mr. Dorcas Maddox and Wesley Adams decided they would try their luck at "snipe hunting" As nightfall approached, they were busy preparing for the occasion. They went down to a large ditch in a very dense thicket. Wesley suggested that Dorcas should get down into the ditch and hold the bag, while he, (Wesley), went up the ditch and run the 'snipes' into the bag. Wesley went up the ditch some two hundred yards, when he heard Dorcas making a noise as if someone had shot him; returning immediately, Wesley found that "Dock" had succeeded in landing one. Two happy boys then turned their footsteps homeward. Upon reaching home they examined the 'snipe' bag and to their utter amazement, it was a poor little screech owl.

If you want to know anything about ancient history, question Oscar Jones; he will explain it to you as he explains it to Miss Wilson every day.

Mr. Jean Wyatt, while taking a trip out to Yellowstone National Park, reports that he and a friend took a bear hunt. Jean claimed that he knew all about bear hunting, as he had taken a trip to America with Ex-President Roosevelt. They sallied forth into the woods. They had gone about a mile when Jean heard a peculiar noise; it was only his friend who, having discovered that he was lost, yelling for help. Jean did not care to help him, and when he reached camp his knees were nearly on fire. "Friction," "C?"

Miss Annie Gragg entertained a few of her girl classmates at a birthday party Saturday afternoon.

Mr. Pickens holds court regularly, and has discovered that he has many brilliant lawyers, but very few preachers in school. However, if nothing happens, he hopes to make one of "little Eddie Teel."

Mr. Hoke Pipes says he can change positions without motion. No wonder his father calls him "sun."

Last week a certain little boy in Mr. Pickens' room received a note that read like this: "Stop smiling at me, I don't care anything about you; save your smiles for some one that does." Guess who it was? Guess the effects?

PROF. BEAN TAKES OFFICE

SUCCEEDS PROF. J. W. MOORE AS SUPERINTENDENT OF EDUCATION.

Wednesday morning Prof. Willie T. Bean assumed the office and duties of Prof. J. W. Moore, succeeding him as Superintendent of Education of Chilton county. Prof. Moore has been Superintendent of Education of the county for nineteen years, serving thirteen consecutive years during his last administration. There was an interim of two years, during which Prof. Judson Strock was Superintendent. Prof. Moore has made a most enviable record and has set a pace for activity and attention to duty which Prof. Bean will have difficulty in overcoming.

We wish the new superintendent all kinds of success in the administration of the affairs of his office.

The Quality Shop

The Place Where Your Money Gets The Answer.

¶Drug Sundries of all descriptions; everything fresh; all guaranteed. We have the largest and best selected stock of Proprietary medicines in the entire county. We selected with care, bought for cash and consequently can give you better prices than elsewhere.

DIRECTORS' MEETING

Pursuant to a call of the President, C. F. Jones, the Board of Directors of the Clanton Press Co. held a meeting at eight o'clock, on Friday, October 3. Directors present were: Messrs. C. F. Jones, J. D. Wilson, E. M. Pinckard and Guy Higgins. At the meeting it was decided to change the management of the paper, and Mr. C. M. Davis was appointed acting editor in place of Mr. F. M. Wood, pending further action of the board.

A complaint addressed to the board by Miss Minnie Muse was received and considered.

Mr. Davis assumed charge of the affairs of the paper Saturday morning.

OUT-DOOR MUSIC RECITAL

Something different in the way of musical entertainment will be given by the members of the faculty and students in the music department of Thorsby Institute, conducted by Miss Erva O. Finch, Music Director.

Weather permitting, an out-door music recital will be given in front of Bates Hall, at 7:30, p.m., Friday, October 10.

The Ladies' Guild will be on hand to gather up small change, in return for ice cream, cake &c. If the weather is cool the entertainment will be given in the hall.

S. E. Norton.

PROMINENT ODD FELLOWS AT CLANTON

Grand Master Fred J. Cramton, of the Independent Order of Odd Fellows, arrived in Clanton Saturday last shortly after the noon hour in his 5-passenger Chalmers. Mr. Cramton was accompanied by Mrs. Cramton and Congressman J. C. Cramton and wife of Michigan. After having had lunch at the Palmer Hotel, the party motored to Lock 12 to inspect the construction of the dam at that place. At eight o'clock, at the court house, the meeting was called to order by Mr. J. W. P. Murphy. Notwithstanding the moving picture show held an attraction for many, a goodly number was present to greet these distinguished visitors.

Mr. Murphy in a few appropriate words introduced Hon. L. C. Cramton as the speaker of the evening. Mr. Cramton, who is a fluent and forceful speaker, delivered a most interesting address, which was well received by an appreciative audience. He told of the progress made by the Order since the first lodge was organized in Baltimore in 1819 to the present time. Following the address of Mr. Cramton, the Grand Master exhibited a number of stereopticon views of various Odd Fellows and Orphans Homes located throughout the Union.

Mr. Cramton stated that his tour through North Alabama had been very pleasant and profitable one in that at nearly every place visited they were greeted by large and enthusiastic audiences.

While in Clanton the party was entertained by the local lodge of the fraternity.

ROCKY MOUNT AND OAK GROVE ITEMS

Our Sunday School at Oak grove is moving along nicely. We are very thankful for such beautiful weather and for such a good price for our cotton too; many, many fingers are nimble in this section this week pulling the fleecy locks from their resting place.

Stock law is a very interesting subject up this way now: we have quite a number of anti-stock law folks, but they had just as well crawl in a hole for we are going to have it.

Prof. Lee Popwell, of Clanton, will teach our winter school for us at Rocky Mount. We hope to have a fine school; every body study school, talk school, and let's have the best school we ever had.

Miss Toinette Wooddy, of La-Fayette, our assistant teacher last year, will open her school at Providence Monday, October 13. We wish her a successful term there.

Miss Wooddy is spending this week with her brother and sister, Mr. and Mrs. F. B. Williams.

We are all glad to have her in our community and regret that we couldn't keep her with us all the year.

Mr. C. L. Glasscock has sold out, and very likely will move to Sand Mountain.

Mr. Henry Cofer has bought a farm near Jemison from Mr. Sam Reynolds.

Uncle "Ki" Glasscock has re-purchased his gin and grist mill that he sold some time ago to Mr. Emmett Marlar. There will be no further gin service there this season.

Mr. C. M. Northcutt has moved his family back home from the Rock Quarry.

Quite a number of our folks are going to take Mr. Conway's advice and sow a few acres of oats.

Well, last, but not least, let me ask just one question. Listen! everyboby! HAVE YOU PAID YOUR POLL TAX? If you have not, don't you know you should? It all goes into YOUR school fund. That's one reason you should pay it. You can't vote if you don't pay them. That's another reason you should pay them. We are not citizens unless we DO pay it; therefnre, wake up and see to it that your poll tax is paid up to.

Citizen.

FRIGHTFUL RUNAWAY

Last Thursday while Mr. and Mrs. W. B. Rubenstein were returning in their buggy from dinner, when near the residence of Judge Reynolds, an approaching rackety wagon caused the horse to shy to one side of the street, striking a telephone post with great force and breaking the buggy top. A broken iron rod struck Mrs. Rubenstein just over the right eye, cutting a deep gash. The force of the impact was so great Mr. Rubenstein was pitched forward against the post, receiving severe bruises about the head and face, and though painfully injured, was able to be about his business the next day, but Mrs. Rubenstein, due to the nervous shock received, was confined to her room for several days.

A HUNTING PARTY

On Thursday afternoon Messrs. Hugh Foshee, Felix Woodyard, "Dick" Jones and Senator Curry went down to the plantation of Mr. Thad McSwain, near Cooper, for a day's hunting. The report comes back that they had a great time and bagged a good supply of game and probably would have bagged more but, somehow, they lost their axe in the woods.

They Make You Feel Good.

The pleasant purgative effect produced by Chamberlain's Tablets and the healthy condition of body and mind which they create make one feel joyful. For sale by Alvord Drug Co.

COUNTY COURT

MANY CASES DISPOSED OF.

The October term of County Court was in session Monday last, with Judge E. B. Deason presiding. The docket was so large that it was necessary to hold a night session, court adjourning just before midnight. Following are the cases disposed of:

George Hepner, grand larceny; preliminary trial set for next Monday.

Robert Latham, abusive language; waived to Grand Jury; bond fixed at $150.

Robert Latham, public drunkenness; waived to Grand Jury, bond fixed at $150.

Robert Latham, assault with weapon; waived to Grand Jury, bond fixed at $150.

W. E. Thomas, gaming on Sunday; fined $10 and costs.

W, A. Wair, gaming; fined $10 and costs.

John McDowell, gaming; fined $10 and costs.

Fred Cole, abusive language; defendant pleads guilty, fined $10 and costs.

John McDaniel, abusive language; waived to Grand Jury, bond fixed at $150.

H. McDaniel, carrying concealed weapons; waived to Grand Jury, bond fixed at $200.

John McDaniel, carrying concealed weapons; bond fixed at $200.

Dora Bentley, assault with weapon; defendant pleads guilty, fined $5 and costs.

West McCall, abusive language; continued to next term of court.

C. C. Crow, assault with weapon; continued to next term of court.

V. C. Messer, assault and battery; demands jury trial.

Tom Ray, disturbing Sunday school committee; nol prossed.

Tom Ray, public drunkenness; nol prossed.

Bruce Scott, public drunkenness; defendant pleads guilty; fined $5 and costs.

Bruce Scott, disturbing Sunday school committee; defendant pleads guilty, fined $20 and costs.

Mamie Harris, violating prohibition law; defendant pleads guilty, fine $50 and costs.

Tom Ray, maliciously injuring horse; defendant pleads guilty; fine $25 and costs.

Bruce Scott, maliciously injuring horse; defendant pleads not guilty, fined $25 and costs.

Fred Cole, petit larceny; nol prossed.

John Cotton, failure to work public road; waived to Grand Jury, bond fixed at $150.

Edgar Collins, failure to work public roads; defendant pleads not guilty, fined $3.00 and costs; appeal, bond fixed at $150.

Henrietta Moore, assault with weapon; defendant pleads guilty; fined $10 and costs.

Henry Burney, carrying concealed weapons; defendant pleads guilty, fined $50 and costs.

T. H. Gaithner, grand larceny; defendant pleads guilty, fined $10 and costs.

Henry Cox, grand larceny; continued to next term.

W. L. Ledbetter, false pretense; defendant pleads guilty, fined $10 and costs.

Sam Langsford, larceny; continued to Oct. 13.

Willie Subie, assault with weapon; defendant pleads guilty, fine $10 and costs.

Chronic Dyspepsia.

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia. "I have been a chronic dyspeptic for years, and of the medicine I have taken, Chamberlain's Tablets have done me more good than anything else," says [illegible]. For sale by Alvord Drug Co.

PANAMA CALIFORNIA EXPOSITION

Washington, Oct. 4—(Special to the Press). Time was when it was said of this country that we had no monuments, as it long had been deemed a reproach to us that we had no ruins. What of the monument left by mound builders and aztecs, and by cliff dwellers and other people for whom we have not even a name? The whole land is sprinked with ruins and monuments which are a perpetual puzzle and joy to the antiquarian. But the era of monument building is with us now. Every city and every state, not to say the Nation, through Acts of Congress, are engaged in rearing monuments to the great and good of bygone days. Gettysburg, that valhalla of the dead, is richer in stone-wrought mementoes of the brave than Westminster Abbey, while from Plymouth Rock to San Diego memorials are being reared to perpetuate the fame of men who wrought with brain and hand that posterity might be the better and the happier.

And speaking of San Diego, where a magic city is rising on the heights above that beautiful land locked bay to commemorate the joining of the waters of two oceans at Panama, Spain joined hands with the people of this Nation a few days ago in dedicating sites for monuments to three men who served under banners as dissimilar as day and night, but who wrought better than they knew for the establishment of civilization in the New World. To the fame of Father Junipero Serra, founder of the California Missions, a cross built of tiles from the first building he erected in the State of California was dedicated. To the memory of Cabrillo and Balboy soldiers, adventurers and explorers, were dedicated sites whereon will be erected statues commemorative of their part in bringing civilization to this continent. The disciple of peace and the sons of Mars were honored at the same time and by the same throngs of people, and their memorials will look out over the waters of the Pacific which they loved and whose destinies in the progress of the race they dimly apprehended.

It was fitting that it should be an international episode, and the President of the United States recognized the importance of the occasion by sending his personal representative to the ceremonies, Hon. Robert L. Henry, Congressman from Texas, who enjoyed the festivities of the carnival which marked the event.

The city of San Diego is rising nobly to the responsibilities which the completion of the Panama Canal and the creation of the Exposition in its honor have brought it. In the past, slumbering beside its splendid harbor, the city seemed steeped in a spirit of doice far niente. The perfumed breezes caressed it and the lauguid currents of the Pacific laved its feet. The outside world might bustle, but San Diego was indifferent. Its awakening was sudden. Commerce, immigration and enterprise drove away the lotus eaters. The city began to fill up with strangers who recognized that as the first port of call after passing through the canal, San Diego must become an entrepot of great importance. The Exposition was planned and the marvelous feat was accomplished of raising, by popular subscription, a million dollars to finance it; then the city voted millions more, the State voted more still, and soon there began to rise in the great park—hitherto but a vast potentiary as a city pleasure ground—the walls of a city which was to house a temporary affair, an exposition, but the buil dings of which are to remain as long as steel and concrete shall last, in the service of the public.

Mrs. A. A. Pool and little daughter have returned to their home at Anniston, after a pleasant visit to her father and mother, Prof. and Mrs. J. W. Moore.

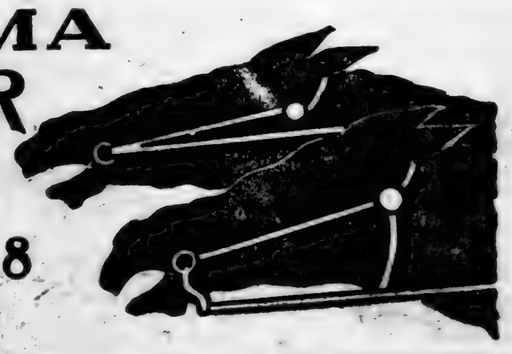
ILLICIT DISTILLERY DESTROYED

Monday night last, Sheriff Jones, who is ever on the alert to catch those who violate the law, received a "tip" that a "wild-cat" distillery had been discovered up on Yellow Leaf creek near the rock quarry. Deputies Ed Smitherman and Frank Fallon immediately left for the scene, confident that by the following morning some new names would be added to the hotel register of "86." Reaching there shortly after midnight, they secured the aid of a friend who assured them he knew the exact location of the plant, and the party journeyed down the mountain side, and after proceeding a short distance the still was located. The spot was a most ideal one for its purpose. A hole had been dug out in the side of the bluff in which a gasoline tank used to manufacture the "bug juice" had been deposited; this was carefully covered over with underbrush, almost entirely concealing it from view, and but for the fact that the officers had been apprised that the still was there its discovery would have been almost impossible.

After a careful investigation of the premises a quantity of elderberries and wild grapes and a broken part of the copper worm was found; lying nearby was a huge maul, supposed to have been used in crushing the berries and other ingredients necessary for putting up a first-class article of "bust-head."

After destroying the still, a barrel containing about 80 gallons of beer was also found and destroyed.

Deputies Smitherman and Fallon state that the plant was in a neglected condition and that from all appearances there had been nothing "cooking" for some time.



The deputies, after remaining at the place all night, could secure no clue as to the owner of the still, and returned to Clanton Tuesday morning.

FRUIT LAXATIVE FOR SICK CHILD

"California Syrup of Figs" can't harm tender stomach, liver and bowels.

Every mother realizes after giving her children "California Syrup of Figs" that this is their ideal laxative, because they love its pleasant taste and it thoroughly cleanses the tender little stomach, liver and bowels without griping.

When cross, irritable, feverish or breath is bad, stomach sour, look at the tongue, mother! If coated, give a teaspoonful of this harmless "fruit laxative," and in a few hours all the foul, constipated waste, sour bile and undigested food passes out of the bowels, and you have a well, playful child again. When its little system is full of cold, throat sore, has stomach-ache, diarrhoea, indigestion, colic—remember, a good "inside cleaning" should always be the first treatment given.

Millions of mothers keep "California Syrup of Figs" handy; they know a teaspoonful today saves a sick child tomorrow. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has directions for babies, children of all ages and grown-ups printed on the bottle. Adv.

HAS NEW IDEA IN SURGERY

New Yorker Confident of Ability to Graft Limbs of Dead on Bodies of Living.

Dr. A. L. Soresi, a New York surgeon, who astounded the world at the recent medical congress in London by stating that he would soon be able to graft the limbs of the dead upon the bodies of the living, will resume his experiments at his New York laboratories.

"So far I have only taken the limbs of dogs and grafted them on other dogs," said he. "The work is so new that I have to make the instruments to use, and that takes time and patience.

"The dogs on which I have experimented are today just as sound as though they had been born with the limbs grafted on them. When working upon the dogs I take one that has just died and immediately graft his limb to that of a living animal. But with human subjects that question of time is the most serious."

MRS. RIVERS DISCLOSES SECRET

Matter Didn't Prove Experiment After All, and She Now Makes It Public.

Mineral Springs, Ark.—In a letter from this place, Mrs. J. M. Rivers says: "If it had not been for Cardui, the woman's tonic, no doubt I would have been in my grave.

I was sick all of the time for 10 years, and took medicines constantly. I suffered terribly. At last, I decided I would just try Cardui on my own hook, and kept it a secret. It was certainly a God-send to me. Since taking it, I have no pain whatever, feeling good, and can wrestle with my 16-year-old son. In fact, I don't feel over 16 myself. Am as happy as a lark. When I began taking Cardui I only weighed 101 lbs. Now I weigh 117½ lbs., and am going to continue taking Cardui until I weigh 135.

I just can't say enough for Cardui, and I believe if all women who suffer from womanly troubles would take it, there would be more happy homes."

Using Cardui is no experiment. It has stood the most severe of all tests—the test of time. Cardui has been in use for over half a century, and in this time has benefited more than a million women. It is composed of purely vegetable ingredients, which have been found to build up the vitality, tone up the nerves, and strengthen the womanly constitution.

That it has helped others is the best of proof that it will help you. Try Cardui.

N. B.—*Write to:* Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for *Special Instructions* on your case and 64-page book, "Home Treatment for Women," sent in plain wrapper. Adv.

Sadder Still.

Discussing a recent political scandal, in which an official was accused of dishonesty, Richard Harding Davis, lunching with a number of theatrical stars at a fashionable roof garden in New York, said, with a sigh:

"He is a man I would have thought incapable of baseness. It is sad to think that every man has his price."

"Yes," said a comedian, "but a sadder fact still is that half the time he can't get it."

FAR BETTER THAN QUININE.
Elixir Babek cures malaria where quinine fails, and it can be taken with impunity by old and young.
"Having suffered from Malarious Fever for several months, getting no relief from quinine and being completely broken down in health, 'Elixir Babek' effected a permanent cure."—William F. Marr.
Elixir Babek, 50 cents, all druggists or Kloczowski & Co., Washington, D.C. Adv.

Proof of It.

"That pretty little singer has killing ways."

"Yes, I know; she murdered my song."

As a General Tonic
DR. R. A. ARMISTEAD'S AGUE TONIC has no equal. Whenever you feel poorly, lack energy and ambition, begin taking this tonic immediately. It will often ward off serious illness. 50c and $1.00 bottles.—Adv.

The world's largest electro-magnet is in prospect for Paris scientists.

NOME, ALASKA, IS ALMOST DESTROYED

FAMOUS GOLD CAMP PRACTICALLY WRECKED BY FEARFUL STORM AND FIRE.

TWO MILES DEVASTATED

Loss Is Eestimated at a Million and a Half Dollars—Much Suffering Will Result.

FIRE ADDS TO HORROR.

Nome, Alaska.—Fire has broken out in the storm-stricken city of Nome, and the flames have attacked the Pacific Cold Storage plant, where is stored the chief supply of meat for the winter. The fire apparatus was destroyed in the gale.

Nome, Alaska.—Nome has almost been destroyed by a storm. All the south side of Front Street is gone. The sand spit is gone. Two miles of territory next to the sea was devastated. No lives were lost.

The storm that began beating in from the Bering Sea was the worst ever known here. Men and women worked all night in the icy water to save their household effects. The electric light plant was wrecked and the telephone service cut off. The loss is estimated at a million and a half dollars.

There will be much suffering and outside help will be required. Winter is at hand and it will be impossible to get in supplies needed.

The steamships Victoria and Corwin, which were lying in the roadstead, ran to the open sea and escaped damage. All the small boats on the beach were destroyed.

Five hundred houses have been damaged and more are falling.

Nome, the famous gold camp, in the Bering Sea, the most northerly city in the world, was built on a sandy sea beach. In front of the town there was anchorage for ships, but steamers do not make a landing. Cargoes and passengers are landed at an aerial tramway station in deep water. The principal part of the town, which a dozen years ago had a population of 20,000, is on the east side of Snake River, with a finger extending to the west along a narrow sand spit.

WORK ON ANTI-TRUST PROGRAM.

Confers With Newlands on Proposed Campaign for December Session of Congress.

Washington.—A start was made by President Wilson on his anti-trust program for the December session of Congress. He had a long preliminary conference with Senator Newlands of Nevada, chairman of the interstate commerce comittee, which handles the trust legislation in the Senate.

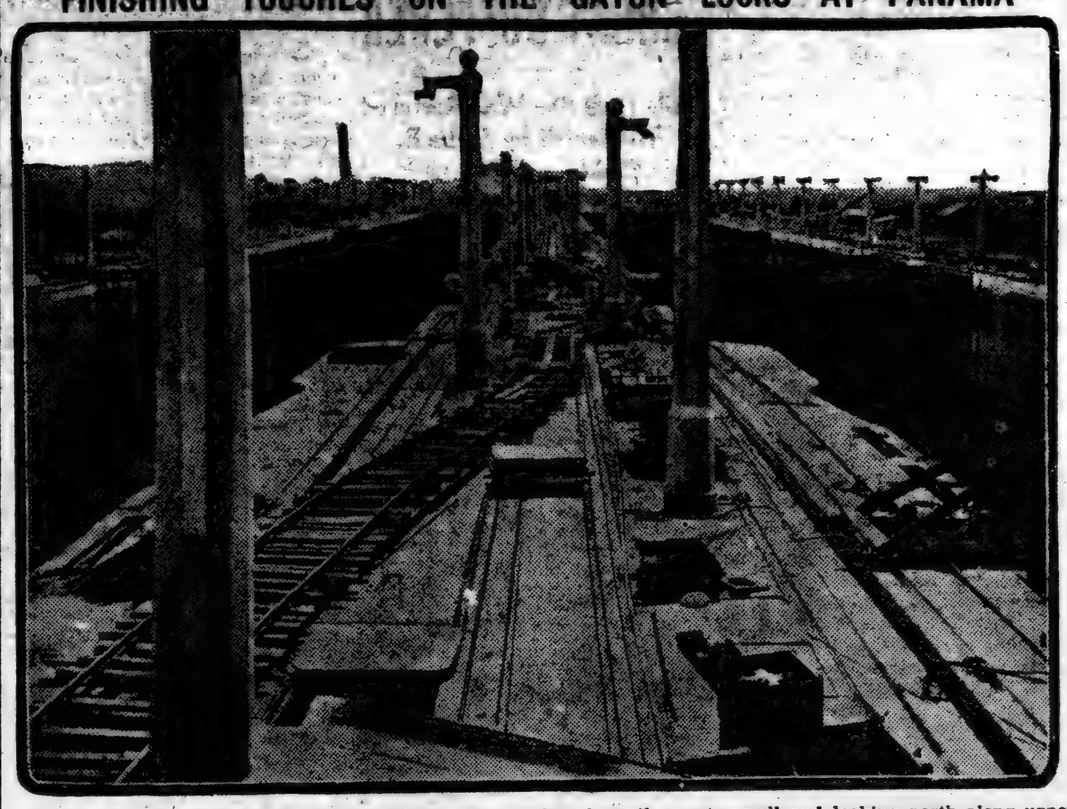
The President expects also to confer in the near future with Representative Clayton, chairman of the House judiciary committee, as well as with other members of the two congressional committees, which will be directly in charge of the legislation.

Senator Newlands said that he expected the President to transmit some recommendations to his committee early in the December session. These probably will materialize after the President consults Attorney General McReynolds and some prominent lawyers.

HUGE OIL TANK ON FIRE.

$300,000 Loss Estimated as Result of of Big Oil Fire in San Diego, California.

San Diego, Cal.—Burning at the rate of five inches an hour, the 1,000,000 gallon crude oil tank of the Standard Oil Company, which caught fire October 5, burned for three days. Tank after tank of naptha, stove oil and distillate was consumed and the loss it is stated, will be $300,000.



Retake Captured Cities.

Eagle Pass, Tex.—Both Monclova and Cuatro Cienegas, captured by the federal army under General Maas on its northward march, have been retaken by the constitutionalists, according to rebel couriers who reached the headquarters of the constitutionalists at Piedras Negras.

Unidentified Man Loses Memory.

Kansas City, Mo. — The authorities of the city hospital have announced themselves baffled in their effort to identify a patient who registered at a hotel as "Prof. Harry Lawrence, New York" on September 15, and was picked up unconscious in the street next day. The patient recovered consciousness at the hospital, but his memory of past events was gone. Papers and circulars found led to the belief that he is a professional hypnotist and that his home is in Alexandria, Texas.

FINISHING TOUCHES ON THE GATUN LOCKS AT PANAMA

This is a splendid view of the upper Gatun locks, taken from the center wall and looking north along upper Gatun locks, showing the almost completed condition of this section of the Panama canal. The water of the canal may be seen on either side in the foreground, being held back by the gates. In the left background is the Gatun lighthouse. The unsightly tracks on the center structure will soon be removed, having been placed there only temporarily during the construction of the center wall.

WORK ON PANAMA CANAL NEAR END

Waters of Gatun Lake Turned Into the Culebra Cut.

BIG DIKE IS TO BE REMOVED

This Will Mark the Practical Completion of the Big Waterway After Nine Years of Labor by an Army of Men.

Colon, Panama, Oct. 1.—The Panama canal stands today virtually complete.

The preliminary steps toward the destruction of the Gamboa dike, which until the present time, has held the waters of Gatun lake out of the Culebra cut, were taken today when the valves in four great 26-inch pipes which pierce the dike were opened and the waters of the lake began flowing into the Culebra cut. Within a few days, it is expected, enough water will have flowed into the cut to form a cushion and prevent the damage that might be done if the dike were were blown up and the waters allowed to rush into the empty cut.

The final destruction of the big dike is scheduled for October 10, when charges of dynamite placed in holes already drilled in the dike will be exploded. The explosion of these charges will not completely destroy the dike, but will weaken it and loosen the dirt so that the force of the waters from Gatuan lake will carry it away. Steam shovels will remove the remnants of the dike, leaving an open passageway from ocean to ocean.

Canal Really Complete Now.

Although the canal will not be officially declared completed for some time, and the formal opening of the waterway to the commerce of the world more than a year distant, the canal engineers look upon the destruction of the Gamboa dike as marking the real completion of the canal. The big engineering feats have all been accomplished, the excavation work practically has been completed, and the great locks have been constructed. The work that remains to be done is largely detail, and is but child's play as compared with that which has been done. More dirt is to be removed from the channel, but this will be done with suction dredges floating upon the waters of the canal. There still remain some finishing touches to be placed upon the locks, but this work will take comparatively little time and presents no engineering difficulties such as have been encountered in the past.

The fact that the canal stands practically complete more than a year before the time originally set as the date for its completion is one of the remarkable features of the work. When Count de Lesseps, the great French engineer, abandoned his efforts to build the Panama canal after eight years of labor, he had scarcely made a beginning upon the gigantic task. In nine years, the American engineers, starting almost at the same point as de Lesseps, for the latter's work was of little value to the Americans, have virtually completed the undertaking. When the work was started the world scoffed at the idea that it would be completed within the time limit set, but here are now off to the American canal engineers who have more than kept their word, despite unforeseen difficulties that have beset them at every hand.

Optimist Is Made Fixed Term.

The first vessel to pass through the canal probably will be a boat of the Isthmian canal commission, Col. George W. Goethals, chairman of the commission and chief engineer of the canal, and his principal assistants. The final voyage through the canal is scheduled for some time during this month. Within another month it is expected the waters in Gatun lake will have risen high enough to bring the waters in the entire canal up to the deep water level required for the passage of the largest ships.

It is said that as long ago as the early part of August, assurances were given Washington officials that if the emergency should arise, the entire Atlantic battleship fleet could be put through the canal into Pacific waters within 60 days from that date. The work has been hurried with that end in view, it is said, as no emergency has existed, but this assurance is an indication of the belief of the engineers that their work is now practically finished.

Culebra Cut Caused Trouble.

The excavation of the Culebra cut, into which the water has just been turned, has been one of the engineering feats connected with the building of the canal, and has caused the engineers more trouble than any other portion of the big "ditch." To Col. D. D. Gaillard, the engineer of the central division, is given the credit for carrying this portion of the work through to a successful termination.

The disastrous slides in the cut were discouraging to the engineers, nullifying in a few hours the work of many weeks, but Col. Gaillard and his assistants have kept untiringly at their work, and at last have conquered the treacherous banks of the deep cut. The engineers believe that the danger of slides will be eliminated now that the water has been turned into the cut.

A little more than a month ago the giant steam shovels finished their work in the Culebra cut. Since that time the workmen have been busy removing the shovels, the railroad tracks and other machinery used in the excavation work. There is still some dirt to be removed from the cut before the channel is finished, but this work will be done by suction dredges floating on the waters of the canal, and will not interfere with navigation of the waterway by such boats as may be allowed to pass through.

Immense Artificial Lake Created.

Gatun lake, the waters of which are now flowing into the Culebra cut, is the pivotal point about which the entire canal system revolves, and the creation of this lake, together with the construction of Gatun dam, constituted another great engineering feat in the construction of the canal. Gatun lake is an artificial body of water covering about 164 square miles of territory and was created by the building of the immense Gatun dam and the impounding of the wild waters of Chagres river. Beneath the waters of Gatun lake lies what a few months ago was the valley of the Chagres, dotted with native villages and plantations. The channel of the canal passes through this lake for a distance of 24 miles with a width varying from 500 to 1,000 feet.

At the northern end of the lake is the Gatun dam, which is in reality an artificial ridge more than a mile and a half long. Figures alone give an adequate idea of the magnitude of this dam. Nearly half a mile wide at its base, about 400 feet wide at the water surface, and 100 feet wide at the top, the dike which many engineers predicted would never withstand the rush of the Chagres' waters, is admitted now to be so strong that nothing short of an earthquake such as has never been known in the Central American region can harm it. The Gatun dam, Gatun lake and the Culebra cut, so gigantic are the proportions of each, dwarf the other engineering works of the canal that in themselves have challenged the admiration of the world.

World Given Goethals' Credit.

To Col. George Goethals, chairman of the Isthmian canal commission, chief engineer of the commission and practically the head engineer of the world who has given the canal to the commerce of the world, the Panama canal will not have given its task without the assistance of such men as Col. H. F. Hodges, Lieut. Col. David Du B. Baillard and Lieut. Col. William L. Sibert, army engineers, who have had charge of various phases of the work, but Col. Goethals is recognized as the real builder of the canal.

Under Colonel Goethals the greater part of the $375,000,000 which the canal will have cost when it is completed has been spent. It has been by far the costliest engineering project in the world. Nearly three-fifths of a billion dollars has been spent in digging a 40-mile "ditch." This means that the Panama canal has cost the United States $10,000,000 a mile.

Over $15,000,000 of the total amount spent has been used to make the canal zone habitable and sanitary. It has been suggested that this is an enormous amount of money to spend in cleaning up a place in which few people will reside permanently, but the engineers say that the sanitation of the canal zone was the chief factor in making the canal a reality. The failure of the French has been attributed to a large extent to the fact that the workmen could not survive in the fever and pest ridden country.

The building of the great locks which raise a vessel to a height of 87 feet above sea level at one end of the canal and lower it the same distance at the other end, has been in charge of two of Colonel Goethals' assistants, Colonel Hodges and Lieutenant Colonel Sibert. Colonel Hodge's work in installing the immense lock-gates that form so important a part of the operating machinery of the canal, and his ability to overcome all obstacles had led Colonel Goethals to call him a genius. The building, poising and operation of the lock gates constitute one of the delicate problems of lock canal construction, and the proper handling of this problem has been Colonel Hodge's contribution to the work of construction of the canal.

Lieutenant Colonel Sibert has had charge of the building of the great dam and locks at Gatun, in addition to other duties. He saw long, active service in the Philippines, and he is known in the army as a fighter as well as an engineer.

Realize Dream of Centuries.

Through the work of these men—all of them members of Uncle Sam's fighting body, the United States has been able to attain what has been in truth the dream of centuries. In nine years these men have carried through an undertaking that was first thought of several hundreds of years ago.

The United States government first took definite action looking toward the construction of an isthmian canal in 1834, when the senate voted for the building of a Nicaraguan canal. An expedition was sent to Nicaragua to make an investigation, and reported that the canal could be constructed for $25,000,00, hardly one-twentieth of the amount that the Panama canal will have cost when completed.

De Lesseps First to Dig.

The matter rested until after the Civil war, when negotiations for a canal commission were entered into by the United States government. Before anything had been accomplished the concession for a Panama canal had been given to Lucien Napoleon Bonaparte Wyse, a Frenchman. He organized a company, which sold out later to the financiers associated with Ferdinand de Lesseps. The company organized with de Lesseps at its head was the first one to actually begin operations on the isthmus. For eight years de Lesseps struggled manfully against the greatest odds that man ever was called upon to face. Then he was forced to give up the fight, his company collapsing as a result of dishonesty and extravagance on the part of its promoters, and de Lesseps, driven insane by the scandal, ended his days in an asylum.

Such was the history of the Isthmian canal project for some 300 or 400 years, until the day in 1904 when Uncle Sam undertook the task.

In nine years the dream of the centuries has been realized.

GIRLS! GIRLS! TRY IT, BEAUTIFY YOUR HAIR

Make It Thick, Glossy, Wavy, Luxuriant and Remove Dandruff—Real Surprise for You.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair—growing all over the scalp. If you care for pretty, soft hair and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any store and just try it. Adv.

Worms Know Her Song.

Mrs. B. A. Hitchcock of Canaan, [illegible] officer of the Litchfield County Equal Franchise league, has made the following statement in a letter to a local newspaper:

"I tamed half a dozen angle dogs of worms, and got them so that they would come up out of the earth and eat out of my hand. I fed them pumpkins and bran mash, but they thrive best on sauerkraut. It took me some time to tame them so that they knew my knock on the earth above them from the tap of an old hen's bill. I rap softly three times and whistle 'Oh, Promise Me,' and up come the angleworms. One day I discovered that the biggest, fattest angleworm was cross-eyed." — Winsted (Conn.) Dispatch to the New York World.

ENDS DYSPEPSIA, INDIGESTION, GAS

"Pape's Diapepsin" cures sick, sour stomachs in five minutes—Time It!

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars worth of satisfaction.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach doctor in the world.—Adv.

Most Any Time.

The scene is set.

A country road, trees, sky, summer homes, a lake in the distance. A steam railway line crosses the road at right angles.

Enter, up the road, an automobile well loaded and running at high speed.

Both automobile and train are racing toward the crossing.

Owner of automobile to chauffeur: "Can you make it?"

The chauffeur, speeding up: "Sure I can make it."

He doesn't.—Cleveland Plain Dealer.

MAKES HARD WORK HARDER

A bad back makes a day's work twice hard. Backache usually comes from sick kidneys, and if headaches, dizziness or urinary disorders are added, don't wait—get help before the kidney disease takes a grip—before dropsy, gravel or Bright's disease sets in. Doan's Kidney Pills have brought new life and strength to thousands of working men and women. Used and recommended the world over.

A CONNECTICUT CASE

A. A. Perkins, 83 Mechanic St., Danielson, Conn., says: "I had kidney complaint, brought on by driving. A heavy pain darted through my loins and shoulders. It was impossible for me to lift. The kidney secretions passed too frequently and I didn't rest well. Doan's Kidney Pills cured me after doctors failed. I haven't had a sign of kidney trouble since."

...R HAIR IS TURNING GRAY, USE SAGE TEA

...n't Look Old! Try Grandmother's Recipe to Darken and Beautify Gray, Faded, Lifeless Hair.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair. A well-known druggist says everybody uses Wyeth's Sage and Sulphur, because it darkens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.—Adv.

What Upset Her.

Mistress—What's the matter, Nellie? Have you taken something that doesn't agree with you?

New Maid—Yes, mum; this job.

HELP FOR STOCK RAISERS

Live Stock Exchange to Develop Industry in South.

Atlanta, Ga.—As a part of its work for the upbuilding of the live stock industry in the southeast, the live stock department of the Southern railway periodically issues a bulletin telling of stock for sale or exchange and of stock desired to be purchased. The bulletin is compiled from information furnished by stock owners and copies are mailed to over 15,000 farmers and dealers.

Through this bulletin a large number of sales have been made and many farmers have been enabled to get stock of just the type they desired. Instead of sending good sires to the slaughter house after serving their allotted time with one herd, many owners have through this bulletin been enabled to effect an exchange whereby each added years of usefulness to the lift of a good animal.

The expense of issuing the bulletin is borne by the Southern railway Co.

F. L. Word, live stock agent, Atlanta, Ga., will be glad to send copies to any farmer or to include in the bulletin information in regard to stock for sale or exchange.

SEVENTEENTH SESSION.

Alabama Goods Roads Association Meets in Mobile Next Month.

Birmingham, Ala.—Every effort possible is being put forth to make the seventeenth annual session of the Alabama Good Roads association, which meets in Mobile on November 20-21-22 the greatest in the history of the association. Invitations have been sent to the 67 probate judges in Alabama inviting them to attend and to appoint 25 delegates from their respective counties. One hundred and fifty invitations have been sent to the mayors in Alabama asking them to attend and appoint 15 delegates from their respective towns and cities to attend the convention. Invitations have been sent to 25 towns and cities that are near Mobile in the following states: Florida, Mississippi, Louisiana and Tennessee asking the mayors to attend and also appoint 15 delegates. These invitations have been sent out by the association, whom has been joined by the mayor of Mobile, as well as the Chamber of Commerce, urging that the invitations be accepted. The governors of five southern states named in this article have been requested to appoint 100 delegates to attend the convention. Every automobile club, farmers' union, good roads organization in the state are expected to send delegates. Some of the most distinguished speakers and good roads advocates in the United States have accepted invitations to address the convention.

Florida Federation of Women's Clubs.

Orlando, Fla.—The eighteenth annual convention of the Florida Federation of Women's clubs will be held here November 5-7. Among the principal speakers will be Mrs. Percy V. Pennybacker, of Austin, Tex., president of the General Federation of Women's clubs. There will be reports from the Loan Educational Fund Committee through whose efforts worthy girls are being helped to become self-supporting, besides from the other various committees, all of which are doing excellent work. Delegates will be present from all over the state. A fine program has been arranged. Mrs. William Hocker of Ocala, Fla., is state president.

TELEGRAPHIC TIPS

Tipton, Ind. — Pauline Matilda, with blue eyes and weighing eight pounds, was born in the automobile of Dr. M. V. Newcomber. The mother, Mrs. Paul Marshall, 19 years od, was on her way from Noblesville, Ind., to Montmorencie, and was taken ill on the train and got off here. Women in the station saw the young woman's condition and called in the doctor, who was hurrying her to a hospital when the baby was born.

Duluth, Minn. — Despite strikes, bad weather and two double holidays, tonnage of ore shipped from the head of the lakes this year will exceed the record-breaking mark set in 1912.

Cleveland, O. — Employes of the National Window Glass Manufacturers were granted an increase of 10 per cent. for all workers. The new scale will continue in force 32 weeks. Over 5,000 men will be benefited by the raise.

New York. — Marie Lloyd, English music hall singer, and Bernard Dillon, English jockey, who arrived on the Olympic as Mr. and Mrs. B. Dillon, were ordered deported. The woman admitted she and Dillon were not legally married, but claimed she had been living with him five years as his wife.

Boston, Mass. — Dealers here have advanced retail prices of all grades of coal 25 cents a ton. They claim the advance was necessitated by the increased cost of handling.

Washington, D. C. — President Wilson released 13-year-old Raymond Taylor from the Washington, D. C., reform school in response to a plea from the boy's mother, who wants to take him home at Fort Worth, Texas, so that attention may be given to one of his arms, broken while at school.

WOMAN A GREAT SUFFERER

Tells How She Was Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Grayville, Ill.—"I was a great sufferer of female complaints for a year and I got nothing that helped me until I began taking Lydia E. Pinkham's Vegetable Compound. I was irregular and had cramps so bad that I had to go to bed. Now I have better health than I have had for years and I cannot speak too highly of your medicine."—Mrs. JESSIE SCHAAR, 413 Main St., Grayville, Ill.

Case of Mrs. Tully.

Chicago, Ill.—"I take pleasure in writing to thank you for what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered with such awful periodic pains, and had a displacement, and received no benefit from the doctors. I was advised to take Lydia E. Pinkham's Vegetable Compound, and am now as well as ever."—Mrs. WILLIAM TULLY, 2052 Ogden Avenue, Chicago, Ill.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co, (confidential) Lynn, Mass., for advice. Your letter will be opened, read and answered by a woman, and held in strict confidence.

All to the Good.

Over a cigarette and an iced drink at the Knickerbock club in New York a certain clubman said to a friend the other day:

"Well, where did you spend the summer?"

"Bad Nauheim," was the reply. "And you?"

"Naughty Newport," he answered.

"JUST AS GOOD AS BOND'S PILLS"

Don't you believe it! No such a Liver remedy is made. But do not abuse the dealer who tells you so! He does not intend to injure you or us; he only likes to make a larger profit than Bond's Pills afford him.

Just laugh at him and insist on BOND'S LIVER PILLS, the gentle, safe and effective liver stimulant, that are honestly made from the best known ingredients and without regard to cost or trouble.

They are expressly intended to cure Biliousness, Headaches, Constipation, Indigestion, Malaria and all the ailments due to an inactive liver or bowels.

ASK YOUR NEIGHBOR!

Take just one pill at bedtime and wake up well, without any unpleasant feeling. They are guaranteed to give satisfaction.

Sold by leading druggists, 25c. Send to us for free sample.

BOND'S PHARMACY CO., LITTLE ROCK, ARK.

Their First Tiff.

"I'm sorry I ever married you!" shrieked the bride, on the occasion of their first quarrel.

"You ought to be!" retorted the groom, really angry and bitter for the first time. "You beat some nice girl out of a good husband."

HAIR CAME OUT IN BUNCHES

Route No. 3, Box 30A, Broken Arrow, Okla.—"My trouble began with an itching of the scalp of my head. My scalp at first became covered with flakes of dandruff which caused me to scratch and this caused a breaking out here and there on the scalp. It became so irritated until I could not rest at night and my hair would come out in bunches and became short and rough.

"Everything I used would cause it to grow worse and it continued that way for about three or four years. While reading the paper I saw the advertisement of Cuticura Soap and Ointment and sent for a sample. It proved so good that I decided to get some more. I used them as directed and in two weeks I saw a good effect. Now my hair is longer and looks better than I have ever known it to be. I give all the credit of my cure of scalp trouble to the Cuticura Soap and Ointment." (Signed) Mrs. Ella Sheffield, Nov. 20, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Elephant's Oddity.

Gerald—The elephant is a peculiar animal.

Geraldine—That's so; he hasn't any collection of hotel labels on his trunk.

Some men never borrow trouble; they buy it outright.

KEEP THEIR HEADS STEADY

Australian Statesman Asserts Women Prevent Conditions of Political Turbulence.

The prime minister of Australia, where the women have suffrage on equal terms with men, was interviewed while on a visit to London on the results of woman suffrage in his country. He is quoted as saying:

"Women's suffrage steadies political feeling. In democratic countries turbulence is always a danger. Well, in a time of political excitement men will let themselves loose. Women won't. They don't want hysterics. They don't want earthquakes. They are the domestic economists, and they have to calculate the needs of their households pretty closely every week. This is why economic questions are more carefully studied now and why you get steadier, more sober, more wholesome opinion on all questions connected with the home."

Possibly no stronger conclusion can be deduced from the eleven years' experience of woman suffrage in Australia than the fact that its national parliament, by unanimous vote, adopted a resolution declaring its entire success and calling upon the parliament of Great Britain to enfranchise women.—New York Evening Post.

St. Louis Lady Cured of Eczema.

5628 Vernon St., St. Louis, Mo.

I have had Eczema for four years and have tried everything possible to cure it, without success, until I tried Tetterine. Your medicine has cured me after six months' trial. Miss A. B. King.

Tetterine cures Eczema, Itching Piles, Ring Worm, Dandruff and every form of Scalp and Skin Disease. Tetterine 50c; Tetterine Soap 25c. At druggists or by mail direct from The Shuptrine Co., Savannah, Ga.

With every mail order for Tetterine we give a box of Shuptrine's 10c Liver Pills free. Adv.

Unanswerable.

Simeon Ford, New York's well-known humorist, said whimsically the other day, apropos of the death of J. Pierpont Morgan: "We learn from Mr. Morgan's life that wealth does not bring happiness. We know already that poverty doesn't bring it, either. What on earth then is a man to do?"—Argonaut.

Stomach Trouble

yields quickly to DR. R. A. ARMISTEAD'S AGUE TONIC. Not only a Chill and Malaria specific, but a splendid tonic for the stomach, reaching every spot in the entire system and making the food assimilate properly. A dose before each meal. Perfectly harmless. Pleasant to take. 50c and $1.00 bottles.—Adv.

Alexandria.

Alexandria is Egypt's principal port and commercial center. According to statistics taken in 1908, Alexandria occupies third place among Mediterranean ports. Twenty-one ocean navigation companies maintain a regular scheduled service at Alexandria.

The Old Standard Grove's Tasteless chill Tonic is Equally Valuable as a General Tonic because it Acts on the Liver, Drives Out Malaria, Enriches the Blood and Builds up the Whole System. For Grown People and Children.

You know what you are taking when you take Grove's Tasteless chill Tonic as the formula is printed on every label showing that it contains the well known tonic properties of QUININE and IRON. It is as strong as the strongest bitter tonic and is in Tasteless Form. It has no equal for Malaria, Chills and Fever, Weakness, general debility and loss of appetite. Gives life and vigor to Nursing Mothers and Pale, Sickly Children. Removes Biliousness without purging. Relieves nervous depression and low spirits. Arouses the liver to action and purifies the blood. A True Tonic and sure appetizer. A Complete Strengthener. No family should be without it. Guaranteed by your Druggist. We mean it. 50c.

WINCHESTER

20 GAUGE

HAMMERLESS REPEATING SHOTGUN

The Model 1912 Winchester is the lightest, strongest and handsomest repeating shotgun on the market. It weighs only about 5¾ pounds, yet it has great strength, because its metal parts throughout are made of nickel steel. It is a two-part Take down, without loose parts, is simple to operate and the action works with an ease and smoothness unknown in guns of other makes. See one at your dealer's or

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

An Announcement.

At a meeting of the Board of Directors of the Clanton Press Company, held on October 3, the undersigned was appointed to the position of acting editor in charge of the paper. It will be the policy of the paper to print the news of the county, and such other news as we believe our readers want and are interested in. The paper will be democratic in politics, because we believe in the principles of democracy, but its politics will be clean and no "mud-slinging" or "dirty politics" will be countenanced. We will use our best efforts to build up the to benefit its people. We will not be "knockers." Those having business at our office, or calling to see us, whether they have business or not, will receive courteous treatment, so long as the present management continues.

C. J. Davis.

Hon. Oscar W. Underwood has entered the Senatorial race. Mr. Underwood is a real statesman and all Alabama is proud of him and his work in Congress. He has just completed the greatest tariff bill the country has ever had and has shown himself to be big enough for anything in the gift of State or nation.

The Bond Issue.

We call the attention of our readers to the legal notices of the proposed bond issues of the Town of Clanton for twenty thousand dollars for storm and sanitary sewerage and fifteen thousand dollars for a waterworks system, published on the third page of the Union and Banner of October 2, 1913.

For some time past the Press has advocated the issuance of bonds by the town to provide money for the installation of a sewerage system and a waterworks system and we are glad to see a move being made that we believe will result in great good to the people of the town. It is proposed to hold an election on the 27th day of October, at the Court House, that the people may have an opportunity to express themselves as to the issuance of bonds to raise the money necessary to provide these conveniences for the people. We believe it is the plain duty of every voter, citizen and taxpayer to read the legal notices and acquaint themselves with what is proposed to be done, as they are the people who are to bear the burdens and reap the benefits of the improvement; then go to the voting place on October 27th and let your vote express your honest opinion. Do not let politics, personal differences and matters which have nothing to do with the good of the town and the business in hand influence you in voting, for this is a time when we should rise above petty things and do our full duty to ourselves and neighbors. If, after due consideration of the matter you think it is your duty to vote against it, you have a perfect right to do so, and the Press would not deny you that right if it could, but we believe the issuance of bonds is the best thing to be done under the circumstances, and that without a bond issue the town will never have sewers or waterworks, and we will cast our vote and use whatever influence we happen to have in favor of the bond issue.

A number of our citizens have provided themselves with waterworks and sanitary sewerage connections at their own expense and so far as they are individually concerned could wait a long time for the coming of a system of sewers and a waterworks system, but we believe they will vote for the bond issue almost to a man. They know the convenience and the value of these things, they are enjoying them now. They are, as a rule, the largest taxpayers. If they can vote for a bond issue surely those who do not have the conveniences can do so.

The Alabama State Land Congress will convene in the city of Birmingham on November 4, 5, 6 and 7. The purpose of this organization is "To promote the agricultural resources of Alabama, and to unite the newspapers, commercial organizations, banks, land owners, farmers, railroads, State and National Departments of Agriculture, and the Agricultural Schools of the State for the upbuilding of Alabama." It is expected that a large number of delegates will attend.

UNITY BAPTIST ASSOCIATION

The Unity Baptist Association met in its Fifty-ninth annual session with the Baptist church in Clanton, Tuesday. The Unity is composed of churches in two counties—Chilton and Autauga—and is one of the largest church organizations in this section of Alabama.

The meeting was called to order by Rev. W. J. Ruddick. The first business before the Association was the election of a Moderator to succeed Rev. F. M. Woods, deceased. Judge S. M. Adams was placed in nomination and he was unanimously elected. Rev. W. J. Ruddick was elected Clerk and Treasurer.

Over a hundred delegates were in attendance from 33 churches, representing a total membership of more than 3,000.

Among the prominent visitors attending were: Rev. Frank Willis Barnett, editor of the Alabama Baptist, Mr. S. D. Monroe, of Birmingham, and Rev. J. H. Longcrier, of Jasper.

A collection of $800 was raised for the Baptist High School at Thorsby.

Partition Sale.

At the Felix Hopkins residence, on Saturday, November 15, 1913, during the legal hours of sale, we shall proceed to sell to the highest bidder for cash the sw 1-4 of nw 1-4 of Section 18, Township 20, Range 11, Chilton county, Alabama, containing 40 acres, more or less. The above tract is a part of the lands of Felix Hopkins, deceased, and is sold to effect an equal division among his heirs.

W. J. STOUDINMIRE,
Executor.

Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health.

Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. E. Ayers, 6 Sabin St., Montpelier, Vt., says:

"I was afflicted with constipation and biliousness for years, and at times because so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are sufferers from habitual constipation and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "keep your bowels clean," and it's good advice.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory, your money is returned.

MILES MEDICAL CO., Elkhart, Ind.

PREPARATIONS MADE FOR ALABAMA'S GREATEST FAIR

"It all depends on the weather," said President Burton of the Alabama State Fair, when asked about this year's meeting at Birmingham.

"Every preparation has been made for Alabama's greatest fair and its success is fully assured if the weather holds good. We would take out weather insurance if such a thing was to be had in this country, but the best efforts of fair managers have not yet perfected any arrangement for satisfactory weather insurance, though they are still working on the problem."

John Rehberg, who for several years has managed the successful exhibits for the Cullman county farmers, says that their display of farm products this year will be quite up to the high standard they have set—if the weather permits. The same story comes from Etowah county, where the Gadsden Chamber of Commerce is making the first exhibit at the State Fair from that county, as a starter for the County Fair which they hope to hold next year.

B. B. BURTON

President and General Manager Alabama State Fair, Birmingham.

The Baldwin county exhibit will be managed this season by L. F. Rhodes, an agricultural scientist and enthusiast, known to his old classmates at Auburn as "Dusty" Rhodes. He has assembled an excellent display of the semi-tropical fruits of Baldwin as well as the staples which are making the cut-over lands of that section so valuable, and will make a strong effort for the first prize, for county exhibits.

The progress in agriculture that has been made in Morgan county will be ably demonstrated, it is said, with an exhibit of farm products which will be under the management of George L. Motz, of Huntsville, and Coosa county will likewise make an excellent display through the efforts of Lindsay F. Smith and his associates. The Montgomery county exhibits will be under the management of W. C. Naftel of Naftel, Ala. The Marion county exhibit will be under the management of G. S. Jones of Gwin, Ala. J. S. Montgomery is now preparing the Jefferson county exhibit, which will open the eyes of the local people as to what is being done in an agricultural and horticultural way in the valleys surrounding Greater Birmingham. This exhibit will not come into competition with the other counties for the rich county premiums, though there will be valuable special prizes for Jefferson county exhibitors.

Dog Show Feature.

Some of the finest dogs in the world will be shown at the State Fair October 9 to 18, and a new building has been constructed in which to make the exhibit. This will be the second dog show in Birmingham and will exceed the former effort which was also made at the fair grounds, under the auspices of the Birmingham Kennel Club.

Jack Biddle, manager of the dog show, says that entries are being made from all parts of Alabama as well as Georgia, Tennessee and other states. The bird dog classes seem to be in the lead in point of numbers, he says, with the bull dogs and collies about even for second place.

A. F. Hockwalt of Toledo, Ohio, has been selected as the judge of the dog show and he will be assisted by C. F. Eastman of Birmingham. Both men are ardent and expert dog fanciers and their appointment is giving general satisfaction among the prospective exhibitors. Mr. Hockwalt was the judge at the previous fair and has a wide reputation in that line of work.

Special arrangements have been made with the Tick Eradication Bureau of the government so that there will be no quarantine against cattle exhibited at the fair from non-infected territory. Every precaution has been taken to free the fair grounds from ticks.

Register's Sale.

The State of Alabama, Chilton County.
Chancery Court. Seventh District, Northeastern Division. No. 9. Fall Term, 1913.

FOR SALE.

Eighty-acre farm, well situated, two miles from rock quarry, five miles from Coosa river dam and eight miles from Clanton. Has a nice four-room house, a three-room tenant house and all necessary outhouses, including barn, stables and tool house. Good well of never failing water and a fine orchard. Thirty acres cleared for farming; balance in timber land.

Titles good, price reasonable to quick purchaser. Address,
Moses A. Killgore,
9-18-4t Clanton, Route 8.

Mr. E. L. Thornton, of Mountain Creek, came up Tuesday morning to attend the meeting of the Baptist Association.

Judge S. M. Adams returned Friday last from a visit of some weeks to the "Land of Flowers."

Mr. J. P. Gore and family were visitors to Montgomery Saturday last, having gone down to take in the Fair.

Avoid Sedative Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia or other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world-wide reputation for its cures. It contains no morphine or other sedative. For sale by Alred Drug Co.

Mr. Thos. D. Woods, of Maplesville, spent Sunday visiting friends here.

Mr. J. P. Fuller returned from Montgomery Saturday afternoon.

Mr. Burt Higgins, of Deatsville, was in Clanton this week.

Legal Notice.

The State of Alabama, Chilton County.
In Chancery at Clanton, Ala., Seventh District, Northeastern Chancery Division.

Zack Abney, et als, vs. Sam Abney, et als.

In this cause it is made to appear to the Register, by the affidavit of Zack Abney that the Defendants, W. B. Abney, John H. Abney and Jennie Clearman reside in Lampasas county, in the State of Texas, and Jennie Mitchell and Frank Trammell reside in Panolla county, in the State of Mississippi, and Sallie Henderson resides in St. Louis county, in the State of Missouri, and further, that in the belief of said affiant, the Defendants are over the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring them, the said W. B. Abney, John H. Abney, Jennie Clearman, Jennie Mitchell, Frank Trammell and Sallie Henderson, to answer or demur to the same within thirty days after the 15th day of October, 1913, and failing so to do, a decree pro confesso will be taken against them in said cause.

Done at office, in Clanton, Ala., this 15th day of September, 1913.
9-18-4t H. M. SIMPSON, Register.

'FIND' CAPT. KIDD'S TREASURE

Gypsy Enlightens Rancher—It Is in a Rocky Cave on Western Coast, Ho, Ho.

Oregon City, Ore.—Declaring that he has received an inspiration from a gypsy fortune teller which will lead him to discover the famous treasure of Captain Kidd, which has been sought for centuries, I. W. Rivers, a prominent Willamette rancher, will start from this city shortly for the Oregon coast.

Rivers states that several years ago while he and his wife were visiting at the Oaks they consulted a fortune teller, who told them that they would discover the treasure. She stated that it would be found in a cave in a rock, which is a prominent feature of the coast scenery near Nestucca beach.

Last year Rivers and his wife went to the beach and found the cave, which is marked by a cross and a horse shoe. Inside the cave, according to the fortune teller, they were to find the fortune at the end of a log. The log was found by Rivers, but he dug at the wrong end of it and so did not get the fortune.

This, according to the fortune teller, is just as he would do, for she said he would have to make two trips before he would get the fortune. He is now trying to get capital to finance the scheme.

PROTECT OLD BEAU'S GRAVE

Paris Jockey Club Believes That W. K. Vanderbilt Is the Mysterious Benefactor.

Paris.—The newest mystery of the Jockey club is the identity of the rich American who keeps in good condition the grave of George Brummel, known in history and during his lifetime as Beau Brummel. The grave is at Caen, in Normandy, and a goodly sum is expended upon it every year. The benefactor is at great pains to conceal his name.

It is surmised and believed by many that he is an American who is very rich and who lives in Normandy. This American owns a unique collection of Brummel's letters, drawings and other things which belonged to the Beau.

A section of the Jockey club holds that the possessor of the collection and benefactor of "Beau's" grave is W. K. Vanderbilt.

French Consul Gets Free Dog License.

Chicago.—"Far be it for me to violate an international treaty," said Mayor Harrison to A. Gaioli, secretary of the local French consulate, who applied for two free dog licenses under the treaty of February 23, '53, exempting consular officials from taxation.

Mortgage Sale.

Under and by virtue of the power of sale contained in a mortgage executed by T. R. Robterds and his wife, Sarah Robterds, to J. S. Johnson on the 17th day of November, 1892, to secure an indebtedness to said Johnson by said Robterds and wife, in the sum of $240.58-100, which said mortgage was recorded in Vol. 31, on page 57 of the Book of Mortgages in the office of the Judge of Probate of Chilton county, Alabama, on the 6th day of April, 1893, which said mortgage and debt has been duly assigned to Roberta A. Mullins, the undersigned; default having been made in the payment of said debt, I, said Roberta A. Mullins, will proceed to sell the lands conveyed by said mortgage, to-wit:

The east half of the northeast quarter of Section twenty-six (26), Township twenty (20), Range Twelve (12) situated in Chilton county, Alabama, to the highest bidder for cash, at the hour of 12 o'clock noon on

MONDAY, OCTOBER 20th, 1913,

in front of the Court House Door in Clanton, Chilton county, Alabama, said sale to be made for the purpose of satisfying said debt together with interest thereon and to pay the expenses of this sale, including a reasonable attorney's fee.

Town of Thorsby, Complainant, vs. Emil Feast, Defendant.

By virtue of a decree in said cause rendered at the above term of the Chancery Court for said District and Division, I will proceed to sell to satisfy said decree to the highest and best bidder for cash at public auction, in front of the Court House door in Clanton, Alabama, within the legal hours of sale on Monday, the 20th day of October, 1913, the following described property, to-wit:

Lots numbered 1 and 2 in Block 23, in the Town of Thorsby, Chilton county, Alabama. Said sale will be had for the purpose of paying the taxes assessed on said lots by the said Town of Thorsby for year 1912, together with all charges, penalties, interest and costs as provided for under said decree.

This Sept. 15, 1913.
H. M. SIMPSON,
9-18-4t Register in Chancery.

Mortgage Sale.

Under and by virtue of the power of sale contained in the mortgage executed by A. O. Lane and his wife, Minnie Lane, and W. E. Horne, to the South and North Alabama Railroad Company, a corporation, on the 30th day of May, 1903, which said mortgage was recorded in the office of the Judge of Probate of Chilton county, Alabama, in the record of mortgages in Vol. 67, beginning on page 60, default having been made in the payment of the debt secured by said mortgage, the said South and North Alabama Railroad Company will proceed to sell in front of the Court House door in Clanton, Alabama, at public outcry, to the highest bidder for cash, within the legal hours of sale on Monday, the 20th day of October, 1913, the following described real estate situated in the county of Chilton and State of Alabama:

The northeast quarter of Section twenty-three (23) in Township twenty-two (22) north, Range fifteen (15) east of the St. Stephens meridian. Said sale will be made for the purpose of collecting the said indebtedness secured by said mortgage with interest thereon, and for the purpose of collecting the taxes paid upon said lands by said Railroad Company in the year 1905, and each subsequent year to the time of sale.

SOUTH & NORTH ALABAMA RAILROAD CO.

Coal! Coal! Coal!

If you want the best burning Fancy Lump Coal, order it from M. L. White or R. E. Luckie. Only handle one grade, the BEST quality, and burns up clean. Buy your supply before Xmas, as we can't get coal shipped promptly after Xmas. Will deliver Tuesdays and Fridays of each week. TERMS STRICTLY CASH.

Don't Wait for the Wood to Show. Before You Paint!

Postponing painting is like putting off payment of taxes. You are only piling up expense. The wise man paints often, so that there is always a protecting film of paint between his house and the elements. The more durable the paint, the less often this must be done.

The most durable paint in the world is

Collier White Lead
(Dutch Boy Painter Trade Mark.)
and Pure Linseed Oil

when mixed to suit the conditions of the wood. All good painters do it this way. Make sure that yours does it, too, and that he uses Dutch Boy white lead and linseed oil.

Drop in at our store and get our "*Painting Points*," containing valuable suggestions on selecting color schemes for inside and outside your home.

CONVICT EARNINGS LARGEST KNOWN

RECEIPTS FOR YEAR ARE $1,157,000, ACCORDING TO REPORT FILED.

HEALTH OF CONVICTS GOOD

Outlook for Department This Year Is Particularly Bright, Says Douglass.

Montgomery.—Receipts of the state convict department or the fiscal year ending September 30 were $1,157,000, which is the largest amount ever received in one year, according to the quarterly report of Hartwell Douglass, president of the state convict board, which has been filed with Governor O'Neal. The receipts for the final quarter of the fiscal year amounted to $310,428, which was $24,000 in excess of the receipts for the previous year.

During his administration, Mr. Douglass has visited all the camps in the state except two and he has found conditions fine. He says the health of the convicts is better than ever before. The outlook for the department this year is particularly bright, accordin gto Mr. Douglass.

Following is a portion of Mr. Douglass' report:

"September 30 marks the end of the fiscal year of the convict department. The workings of the department, receipts and affairs are in a most satisfactory condition. Have personally inspected with two exceptions every camp in the state at which state convicts are worked or used, and for this reason have a perfect knowledge of the entire situation and the conditions of same. The health of the convicts is especially good and almost unprecedented, due to the efforts and constant supervision of camps by the two assistant inspectors, Dr. J. M. Austin and Mr. L. F. Greer. The revenues and results are larger than ever before known as far as the records in this office show.

"The receipts of the department for the past year were $1,157,000, and receipts of the last quarter of this year were $310,428, or about $24,000 in excess of the previous quarter. The completion of the new concrete gin house, seed house and grist mill, pump house and the installation of new electrical equipment finishes the entire work at Speigners.

"The inauguration of water power for the operation of the various plants at this point marks an era in the workings of the department, the results of which are most gratifying to the governor as well as the board from the completion of the work which was started some seven or eight years ago by the last administration. The outlook for the ensuing year, and prospects, are much brighter than in the past and unless some unforeseen accident occurs or trouble arises, the receipts for the next fiscal year will be increased over those of the past by a large amount."

PROBATE JUDGES DELINQUENT.

Alleged That Shepherd and Carter Failed to Remit With Required Promptness.

Montgomery.—Probate Judge J. W. Shepherd of Walker county owes the state $1,242 and Probate Judge Carter of Marshall county owes the state $520, which amounts they have collected as commissioners on license money and did not remit to the state auditor in the time required by law, according to reports filed with Governor O'Neal by W. R. Foster and Charles L. Townes, examiners of public accounts. Probate judges are not entitled to their commissions on these taxes unless they remit the money to the state auditor before the last day of the month in which they are collected.

Judge Shepherd is due his county $545 on the same grounds, making the total amount due the state and county $1,787. Judge Carter is due his county $251, making his total indebtedness $771.

Governor O'Neal has instructed his examiners to pay particular attention to the amount of money collected by judges in commissions when they were not entitled to colect such commissions because of their failure to comply with the law. Examiner Foster only inspected the books of the probate judge, while Examiner Townes examined the books of all the officials of Marshall county.

With the exception of the accounts of Sheriff J. L. Sparks and Solicitor Orr, the books of the Marshall officials were correctly and neatly kept. Examiner Townes found discrepancies in the accounts of Sheriff J. L. Sparks aggregating more than $2,300.

PRINCIPAL SUTTON RESIGNS.

Head of Northeast Alabama School Resigns Because of Poor Health.

Montgomery.—W. A. Sutton, principal of the Northeast Alabama Industrial Institute, has resigned, and a successor will be appointed. Mr. Sutton is one of the persons who Professor Sutton resigned, according to H. L. Williamson, state superintendent of Education.

PRESIDENT TO MOBILE.

Washington. — President Wilson has decided to attend the Southern Commercial Congress at Mobile, Ala., October 27, unless unexpected developments prevent.

Plans are being made for him to leave here the evening of October 25, returning here the 29th.

ASKED TO PAY TAXES EARLIER

O'Neal Requests Banks and Railroads to Pay as Promptly as Possible.

Montgomery. — Banks and railroads of Alabama have been requested by Governor O'Neal to pay their taxes several week earlier this year so that the money can be used by the state to meet the heavy obligations which must be met in October. Several railroad officials and bankers have called on the governor during the last three days and assured the executive that their corporations will be glad to cooperate with the state.

Governor O'Neal says that there is no obligation on the part of the state to these corporations, as he simply requested them to pay their taxes promptly so that the money could be available in case it is needed. Similar requests were made by the governor last year. The taxes of these corporations are due October 1, but are not delinquent until after January 1, 1914. Last year nearly all the railroads and all the banks but one paid the taxes early as requested.

600 PENSIONERS TO BE HEARD

Special Meeting of State Pension Board Called for November.

Montgomery. — Charges against more than 600 pensioners will be presented to the state pension board for consideration at a special meeting of that body to be held about the middle of November, according to General Fred S. Ferguson, special master for the board, who has been conducting an investigation of the state pension rolls. These 600 pensioners are from sixteen counties and after these cases are considered other counties will be taken up.

Many of the pensioners against whom charges have been filed have not answeerd to the citation of the special master and as a result their names will be dropped. The only way for these pensioners to be reinstated is for them to make application through the regular channels.

General Ferguson declares that great laxity has been shown by the county pension boards in the past in placing the names of certain pensioners on the rolls without first conducting a thorough examination. All of these matters will be taken up at the next meeting of the board.

L. & N. MAY BUY S. & N. A.

Stockholders in Annual Session Recomend This Course.

Montgomery. — The stockholders of the Louisville & Nashville railroad, in annual session in Louisville, authorized the board of directors of the railroad to begin at once negotiations for the purchase of the physical properties of the South and North Alabama line.

The South and North Alabama line is that part of what is known as the Louisville & Nashville system extending from Decatur to Montgomery, and is the most valuable feeder the big system possesses. The Louisville & Nashville railroad has controlled a great majority of the common and preferred stock of the South and North for years, and the line has been operated and officered by the Louisville & Nashville.

LAUDERDALE BOOKS O. K.

Examiner Compliments Officials on Excellent Condition of Accounts.

Montgomery. — Reports on the examinations of the books and accounts of the officials of Lauderdale county have been filed with Governor O'Neal by Capt. G. F. Sedberry, examiner of public acounts. The books of all the officials are neatly and correctly kept, according to the examiner, and only a few minor technical errors were reported. He compliments the officials on the condition of their accounts.

SHERIFFS REIMBURSED

Get Back Their Money For Feeding Prisoners.

Montgomery. — Alabama sheriffs have been mailed warrants by the state to reimburse them for expenses incurred in feeding prisoners in county jails since last March. The warrants which were sent out aggregate about $50,000, exclusive of the feed bills for September which, when they are in, will bring the total to more than $70,000.

The annual appropriation of $130,000 for the new fiscal year has become due and it is expected the money has been made available. Last year the appropriation was exhausted in March and the sheriffs had either to carry the feed bills until the end of the fiscal years or starve their prisoners.

It is estimated that this year's appropriation will be exhausted in January.

The sale of the Elmore cotton mill at Tuscumbia was not confirmed and it will be sold again.

"CASCARETS" FOR LIVER; BOWELS

No sick headache, biliousness, bad taste or constipation by morning.

Get a 10-cent box.

Are you keeping your bowels, liver, and stomach clean, pure and fresh with Cascarets, or merely forcing a passageway every few days with Salts, Cathartic Pills, Castor Oil or Purgative Waters?

Stop having a bowel wash-day. Let Cascarets thoroughly cleanse and regulate the stomach, remove the sour and fermenting food and foul gases, take the excess bile from the liver and carry out of the system all the constipated waste matter and poisons in the bowels.

A Cascaret to-night will make you feel great by morning. They work while you sleep—never gripe, sicken or cause any inconvenience, and cost only 10 cents a box from your store. Millions of men and women take a Cascaret now and then and never have Headache, Biliousness, Coated Tongue, Indigestion, Sour Stomach or Constipation. Adv.

Cause and Effect.

"Eggs are rising."

"Strange, when the hens are setting."

For Colds and Lagrippe

take DR. R. A. ARMISTEAD'S AGUE TONIC freely in large doses and you can break the worst cold imaginable. Splendid for children as it is harmless and results are astonishing. A dose every two hours during the day and a double dose before retiring at night. 50c and $1.00 bottles.—Adv.

Explanation.

"What is oral surgery?"

"I guess it is the kind which makes a man mend his speech."

RUB-MY-TISM

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

Boys Prefer the Farm.

The farm boy has a tremendous advantage in the world. Early he is trained to self-reliance, to performance of duties, to regular labor. He has a sound body. He is eminently fitted to do the greatest things done in the world. He recognizes that the farm is the best place in the world in which to live. Ten chances to one he would prefer to stay on his father's farm. If the father can learn to make the farm pay well, if he can make it progressive, with hope of fine achievement at the end of the struggle, then most boys will stay. It is when the farm is stagnant, unprogressive, dead, almost hopeless, that the young man sets his face resolutely away from the farm.—Breeder's Gazette.

Egyptains Had 12-Hour Day.

The early Egyptians divided day and night each into 12 hours, a custom adopted by the Jews or Greeks probably from the Babylonians. The days is said to have been divided into hours from 293 B. C., when L. Papirius Cursor erected a sundial in the temple of Quicinus at Rome. Before water clocks were invented in 158 B. C., time was called at Rome by public criers. In England the measurement of time was, in early days, uncertain; one expedient was by wax candles, three inches burning an hour, and six wax candles burning 24 hours—ascribed to Alfred, 886.

But Sufficient.

"What excuse did that young couple give for leaving the party so early?"

"A very bald one—their baby."

Well Met— A Good Appetite And Post Toasties

A dainty, nourishing dish for breakfast, lunch or supper—ready to serve direct from the package with cream and sugar.

"Toasties" are thin bits of choice Indian Corn—skillfully cooked and toasted to an appetizing golden brown.

W TARIFF LAW

PSIS OF THE UNDERWOOD-SIMMONS BILL.

E WOOL ON DECEMBER 1

re Expected to Yield Surplus First Year—Free List Enlarged by the Senate.

SHINGTON.—The twenty years' war reached its final stage in Con- when Chairman Underwood of Ways and Means Committee laid the House the report of the con- and announced that the differ- between the Senate and House ad been compromised.

the second low tariff measure has been passed in more than 65

average ad valorem rate of the bill is very much lower than of the Wilson-Gorman act. The rate of the latter was 39.45 per while the estimated rate of the bill ranges from 27 to 29 per The average for the present -Aldrich law is 40.12 per cent. tor Simmons said, after a report the Treasury experts, that for the full fiscal year the measure would a surplus of $18,000,000.

ing the 675 amendments made in nate, many related merely to ver- The House yielded on 427 and nate abandoned 151. Compro- were effected on 97.

general trend of the Senate dments was in the direction of re- duties. Expressed in percentage nate bill when reported reduced 27.64 below the existing law and per cent. below the House bill as it me to the Senate.

result of the conference report en a slight increase of the ad em rate of duty carried by the bill, he net result is below the average alorem rate of the House bill. Thus he first time in the history of tariff ation the Senate has gone on rec- favor of lower duties in a tariff an those adopted by the House.

most important features of the bill are those which led to the st struggle in both the Senate and Democratic caucuses. They re- to the free listing of wool and ar. Except for the strong in- e of President Wilson it is likely he Senate would have restored a e duty on both wool and sugar. wool will go on the free list De- r 1 and sugar will be free after 1, 1916.

existing duties on sugar under ayne-Aldrich law will continue un- arch 1, 1914, then the lower rates d by the new law will become ef- e and continue until May 1, 1916, which date sugar will go on the list automatically. All other rates bill will go into effect as soon as gned.

estoring to the free list alizarin, r creosote oil, anthracine and an- e oil, the Senate followed the g law, which gives to the manu- rs of certain textiles the benefits e dyes used in the industry. The had made them dutiable for e purposes. The Senate made free on the theory that the textile s had been made to pay less duty at the manufacturers should have raw material free.

cyanides were transferred to the st because they are used largely ning and are raw material for American industries. Both the and House agreed that tanning ials, such as extracts, should go the free list because the products tanneries, sole leather and other s of the coarser kind that enter the manufacture of boots and harness and saddles were all free

Democrats put cements and other g material, including lumber and upon the free list. Pig iron and anganese, billets and ingots for wheels, together with antimony re put on the free list.

omobiles will pay about 30 per which was a reduction of one- from the House rate. Cattle, and all domestic animals suitable d, and wheat, flour and eggs were the free list. This was to con- with the tariff policy of reducing t of living.

five per cent. rebate in tariff in the House bill on goods t in American ships was retained conference, with the added pro- that it would not "be so con- as to abrogate or in any man- pair or affect the provisions of ty" the United States now has. administrative features as em- in the House bill emerged from nce but little changed.

conference adopted a substitute e Senate amendment to check ent invoices. This provides that rival within the territorial limits United States of any merchan- signed for sale and remaining perty of the shipper, and the ac- of a fraudulent invoice by the ee or agent of the consignor shall ed an attempt to enter such dise whether or not actual en- made or offered.

Senate amendment requiring nts of cost on merchandise con- for, as well as on that actually d, was stricken out.

conference agreed to the Senate ent authorizing the Secretary Treasury and the Secretary of ce to require importers to fur- re detailed information on ship- for statistical purposes.

Undervaluation Penalty.

Senate receded from the amend- owing a margin of 5 per cent. uation without penalty and lim- feiture of the particular goods ished. The bill imposes an addi- duty of 1 per cent. on under- goods.

ting this, the conference the Senate amendment author- Secretary of the Treasury to the duty on less than the en- e when satisfied that the im- s in good faith at the time ntry certified the entered value n market value.

conference rejected the House authorizing the Board of Gen- eral Appraisers to exercise both judicial and inquisitorial functions in customs examinations, and struck out of the Senate amendment the provision excluding hearsay evidence. Senate amendments were agreed to prohibiting contingent fees in customs cases and striking out the provision of the House bill, limiting protests to a single article and issue.

The House provision, to authorize collectors of customs summarily to fine importers for failure to produce books and records was stricken out.

The House provision placing the burden of proof on the defendant in suits for the recovery of the value of merchandise fraudulently imported was restored after having been stricken out by the Senate.

House provision requiring shippers and importers to produce their books to authorized agents of the government adopted with an amendment authorizing the Secretary of the Treasury to impose additional duties in case of refusal, instead of the House provision authorizing him to exclude the merchandise from entry.

The Senate amendment authorizing the President to impose countervailing duties was stricken out.

Reciprocity Feature.

The President is authorized to negotiate trade treaties with foreign countries subject to approval by Congress.

By a conference substitute Section eight of the treaty with Cuba, dealing with the preferential on sugar, is specifically abrogated. With this exception, the reciprocal trade treaty with Cuba stands.

Free importation of articles from the Philippines was limited by the conference to such as contain not more than 20 per cent. of foreign material, the Senate amendment limiting free entry to such Philippine goods as are shipped under a through bill of lading being rejected.

The Senate, through its conferees, receded from its amendment prohibiting the importation of goods manufactured principally by children under fourteen years of age.

Other conference changes were as follows:

Importations of models of women's wearing apparel for use of manufacturers in their own establishments is permitted.

Foreign material for the construction of repair of naval vessels of the United States may be imported free.

Cigars may be manufactured in a bonded warehouse and withdrawn for consumption in the United States upon payment of the duty on the tobacco used in its imported condition and the internal revenue cigar tax.

Farmers and fruit growers may manufacture alcohol free of tax for denaturizing.

The Steel Trust was the combination hardest hit by the conferees. Iron ore was placed on the free list, in the hope of inviting Cuban and South American competition. The Steel Trust and its subsidiaries now hold virtually all the marketable ore in the country. The removal of duty is expected to make it possible for independents to enter the steel business with some hope of overcoming the trust's handicap.

Blow at the Beef Trust.

The Beef Trust fared in the same manner. As a result of the placing of cattle on the free list, South American nations are expected to develop a cattle raising business for the purpose of helping to feed North Americans. The entry of South American beef is expected to cut the price of meats, notwithstanding the prophecies of the beef barons that the price will continue to soar.

The Woolen Trust was sheared of the protection which has enabled it to keep foreign-made goods out of the country, while the sheep raisers of the West will have to meet the wool from Australia and other countries that will enter on a free-trade basis.

The system of maintaining high prices on eggs through the operation of a nation-wide cold storage system will be compelled to change its plan or meet the importation of eggs free of duty.

The most vital changes made by the conferees are given in the following recapitulation:

House rates on photographic, surveying, opera glasses and similar instruments were reduced. Cement, asphalt and limestone were placed on the free list.

Pig iron, scrap iron and ferromanganese, used in making high-priced steel, were free listed. Steel products rates were generally reduced. House rates on zinc were increased.

Postponement of the placing of sugar on the free list was agreed upon.

Food Animals Made Free.

All duty was removed from cattle, sheep and other food animals, wheat and its products and eggs. House duties on oats, butter, beets, peas, currants, chocolate and cocoa were cut.

The Senate receded from its duty on bananas and flaxseed.

By changing classification, rates on fancy weaves and novelty cloths of cotton were slightly reduced. Cotton yarns were increased: Cheap stockings were reduced and lace curtains were increased.

Wool rates were greatly decreased, including flannels, blankets and cheaper stockings. Duties on higher priced stockings were increased. Angora wool and its products were given a higher duty. The decreased wool schedules are not made effective until Jan. 1, 1914. Wool becomes free on Dec. 1, 1913. Silk ribbons, bands and narrow fabrics were increased 40 to 45 per cent.

Among the sundries, fur skins, gun-powder and harness were made free of duty. The following important additions to the free list were made:

Sugar machinery, school textbooks and unused moving picture films. Countervailing duties were placed on potatoes, wheat and its products.

The Chemical Schedule.

Reductions in the House rates in the chemical schedule covered perfumed and medicinal soaps, crude chicle, linseed oil and chlorate of potash, while the House rates were increased on many kinds of acids, and on some classes of paints.

The tariff on automobiles, fixed by the House at 45 per cent., and radically cut by the Senate, was finally compromised by making a new classification of automobiles valued below $2,000, for which a rate of 30 per cent. was fixed.

The 5 per cent. rebate in tariff made by the House bill on goods brought in American ships was retained with the added provision that it should not "be so construed as to abrogate or in any manner impair or affect the provisions of any treaty" the United States now has.

To Reduce Cost of Living.

As compared with the original House bill these specific reductions were made by the conferees on food and food-stuffs:

All meat animals free; wheat, taxed 10 cents a bushel in the House, free; sugar and molasses, free within a short time; oats, from 10 to 3 cents a bushel; butter, from 3 to 2½ cents a pound; beets, from 10 to 5 per cent; eggs, free instead of 2 cents a dozen; storage eggs, from 2½ to 2 cents a pound; peas, from 15 to 10 cents a bushel; seeds, from 10 to 5 cents a pound; bananas, free; chocolate and cocoa from 25 per cent. ad valorem, to 2 cents a pound.

To Save $1,000,000,000 a Year.

In preparing estimates on the bill, Mr. Underwood figured that it will save consumers approximately $1,000,000,000 annually. The free list alone should save approximately $800,000,000 annually, he estimated.

ADMINISTRATIVE FEATURES.

General Provisions Governing the Levying of the New Rates.

WASHINGTON—The administrative features of the bill are very comprehensive. In their preparation the Ways and Means Committee and the Finance Committee studied the reports of two Government commissions, and another report from the General Board of Customs Appraisers.

Under the new legal regulations all merchandise imported into the United States is held to be the property of the person to whom it is consigned or who holds the bill of lading.

Invoices shall be made out in the currency of the country where the merchandise is made or purchased, or agreed to be purchased, and shall contain a description of the merchandise. It is required that a statement shall be made in the invoice of the purchase price agreed upon, and that transactions that are actual purchases and sales shall be entered as such. Invoices shall have entered thereon a statement signed by the purchaser or owner setting forth that the invoice is correct. If it is a bill of sale the price agreed upon shall be stated. When obtained in any other manner than by purchase the wholesale price in the markets of the country of export shall be stated. This paragraph follows, in large measure, provision of Section 3 of the Payne law, except for the insertion of the words, "or when purchases are made in several places in the Consular district, where the merchandise is assembled for shipment," and makes changes with reference to agreements to purchase.

The conferees rewrote a provision in this section. It provides that when merchandise arrives in the United States and remains the property of the shipper, or consignor, the acceptance of a fraudulent or false invoice thereof by the consignee or his agent or the existence of any other facts constituting an attempted fraud shall be deemed an attempt to enter such merchandise, notwithstanding no actual entry has been made or offered.

Sub-section 4 of Section 28 of the Payne law is re-enacted. It requires all imports to be accompanied by an invoice under oath. The invoice must state the cost of the merchandise or the market value.

Whenever merchandise is imported into the United States a declaration shall be filed with the Collector of the Port.

Criminal and civil liability for making false statements in regard to an invoice are separated in the administrative sections of the new Tariff act. This is a change from the Payne law.

The new law changes the provision of the Payne law that the invoice shall be sworn to before a notary public designated by the Secretary of the Treasury. Hereafter the invoice may be sworn to before any notary public. Should the notary public be guilty of attesting a statement without the personal appearance of the importer, the Treasury Department, according to the framers of the law, could go before the State official appointing the notary and have his certificate revoked.

REDUCTIONS ON ESSENTIALS.

Sundries.

Wearing apparel for which cattle, dog or goat skins are used, from 50 to 15 per cent.

Bags, sachels, pocketbooks, etc., from 47.23 to 30 per cent.

India rubber and manufactures thereof, known as druggists' sundries, from 40 per cent. to 15 per cent.

INCOME TAX HAS VERY WIDE SCOPE

Every Person With Net Income Exceeding $3,000 a Year Is Taxable

DODGERS TO BE PUNISHED

Washington.—In a statement designed for the layman and intended to strip the income tax section of the tariff bill of its technical language, Representative Cordell Hull, who drafted the section, makes plain how the new tax will apply to the 435,000 citizens of the United States who, the Treasury Department estimates, must make returns under it.

All disputes may be carried to the Commissioner of Internal Revenue, whose decision is final.

JUST WHAT IS INCLUDED IN WORD "INCOME."

Under the terms of the bill in its final form the net income of each individual taxpayer is to include the following items:—

All gains, profits and incomes derived from salaries, wages or compensation for personal services of any kind, professions or vocations, business, trade or commerce, sales or dealings in property, real or personal, interest, rent, dividends and securities. Also the gains and profits from any transactions of lawful business and the income of property acquired by gift or bequests. Neither the return nor any part of the principal invested in life insurance to the assured not the proceeds of policies paid upon death, are included as income.

From these items of income the following deductions are allowed:—

1. Necessary expense actually incurred in carrying on any business.

2. All interest accrued and payable within the year on indebtedness.

3. All national, State, county, school and municipal taxes.

4. Losses actually sustained during the year in business, not compensated by insurance or otherwise, arising from fire, storm or shipwreck.

5. Debts actually ascertained to be worthless and charged off during the year.

6. A reasonable allowance for the exhaustion or wear and tear on property, not to exceed, in the case of mines, five per cent. of the gross value at the mine of the output for the year.

7. All income, the tax upon which has been paid at the source.

8. Amounts received as dividends upon the stock of any corporation, which is taxed upon its net income, but such dividends shall not be deducted unless included in the return as a part of the gross income.

The following items will not be allowed as deductions:—

1. All personal living or family expenses.

2. Taxes assessed against local benefits.

3. All expense of restoring property or making good exhaustion thereof, for which an allowance has been made.

4. Accounts paid for new buildings, permanent improvements made to increase the value of any property or estate.

In computing the net incomes the following exemptions are allowed:—

1. Interests upon the obligations of an estate or any political subdivision thereof.

2. Interest upon the obligations of the United States, or its possessions.

The President is exempt from the tax as are also the judges of the Supreme and inferior courts of the United States and all officers and employes of a State or any political subdivision of a State. Senators and Representatives are obliged to pay the tax.

Besides all taxable persons of lawful age, guardians trustees and executors are obliged to make return to the Internal Revenue Bureau.

These are the items on which income will be withheld at the source whether or not it amounts to $3,000.

1. Income derived from bonds, mortgages and other indebtedness of corporations and joint stock companies.

2. Incomes composed of coupons, checks, or bill of exchange for or in part payment of interest or dividends on stock or obligations of foreign corporations.

3. Interest upon bonds of foreign companies.

4. Foreign mortgages or like obligations not payable in the United States.

The incomes from dividends on the capital stock or from net earnings of a corporation which itself is subject to the tax of 1 per cent. are not to be included in the return for the normal tax—that is, on incomes up to $20,000. Incomes from such source however, are to be included in the returns for the surtaxes.

The rates provided in the law are 1 per cent. on the net incomes over $3,000, or $4,000 in the case of a married person, up to $20,000 and the following surtaxes:

From $20,000 to $50,000, 1 per cent.; from $50,000 to $75,000, 2 per cent.; from $75,000 to $100,000, 3 per cent.; from $100,000 to $250,000, 4 per cent.; from $250,000 to $500,000, 5 per cent.; over $500,000, 6 per cent.

CHILTON COUNTY FAIR

CLANTON, ALA., Oct. 20 to 25

Prizes offered on everything in the home or on the farm, including

Boys' Corn Club, Girls' Tomato Club, Boys' Pig Club, Swine, Cattle, Sheep, Poultry, and All Kinds of Woman's Work, Including Art, Needle Work and Children's Work of All Kinds

All exhibits, except milk cows, will be required to be on the grounds all during the Fair. Milk cows will only be required to be there on Friday, October 24th. On this day they will be judged and can be returned home that night. This is done for the convenience of the owners. While we would be glad to have them all the time, it is not required to compete for a prize with the milk cows. All other animal exhibits of whatever description will be required to be there all the time.

We have secured TWO FINE FREE ACTS to be on the ground each day, therefore you may rest assured that there will be something interesting each day and each hour.

The judges for each deprtment will be announced in the next week or so.

BRING SOMETHING TO THE FAIR AND LET US MAKE IT THE BEST FAIR IN THE STATE

All prizes will be paid at the Fair grounds on the last day of the Fair, in time for all exhibits to be carried home that night.

Chilton County Fair Association

"To the Bakery,
Tommy Dear,
Just as quick as you can be.
Mr. Jones and wife are here and
are going to stay for tea.
Two loaves of bread, a dozen
buns,
And a 10 cent cake.
For You and the girls, some cook-
ies too,--
Oh, any kind,
They all are good."

It's a Dozen Fresh Doughnuts to a Dime that's what she is saying to Tommy.

Fish and Oysters Every Day.

A Hot Dinner, 25c.

EUROPEAN ROAD BUILDING

(From Municipal Engineering)

From every country comes the cry, "What are we to do with our roads? The increase of the travel on them has so multiplied that roads that were strong enough and good enough a few years ago, are no longer adequate. What is to be done?—Shall we neglect the roads until the public no longer uses them except when it is imperative? If we do, the country falls into decay, tenants and workmen will not stay on the land, and the towns and cities adjacent thereto will lose prestige and population.

Again, many of the roads were so poorly constructed, and of such inferior materials, that the cost of upkeep is so great we cannot raise the money to pay the expense of adequate maintenance. Must we reconstruct them, and if so, how, and with what materials, and how can we convince the taxpayers of the necessity and utility of so doing?

Such are the questions that I have heard engineers and road authorities ask in Spain, Italy, France and England as I passed through those countries, and such are the questions that are on everyone's lips here in London at the International Roads Congress, at which there are thirty-nine countries represented by over three thousand delegates.

France has been, up to five years ago, the leading good roads country of the world, but France has passed to second place. Great Britain has passed her, and why? With the great increase of automobile traffic of various kinds, it has been found that those macadam or gravel roads over which pass considerable traffic, no matter how well built, cannot be maintained at a cost far in excess of any amount that the taxpayers will pay or the road authorities will levy, and yet these are the very roads that the public desire to use the most.

In France the local roads are practically as good as ever, but the surfaces of the heavily traveled roads are wearing out, not one or a few places, but over the whole surface. What can the patrolman do in such cases? He is not adequate for the task.

The Quality Shop

The Place Where Your Money Gets The Answer.

¶Drug Sundries of all descriptions; everything fresh; all guaranteed. We have the largest and best selected stock of Proprietary medicines in the entire county. We selected with care, bought for cash and consequently can give you better prices than elsewhere.

CLANTON PRESS

PUBLISHED IN THE INTEREST OF CHILTON COUNTY AND HER PEOPLE

VOL 4. CLANTON, ALA., THURSDAY OCTOBER 16, 1913 NO. 28

TO THE PEOPLE OF CHILTON COUNTY

At a meeting of the Board of Directors of the Clanton Press Co., Oct. 14th, 1913, Mr. C. R. Lamar was unanimously elected to edit and manage the paper. We congratulate ourselves and all the friends of the Press upon our good fortune in securing the services of Mr. Lamar, who comes to us highly endorsed by leading men of the State. We feel very certain that with his name at the mast-head of our craft she will ride the waves of a placid prosperity.

C. F. Jones,
President of Board.

Salutatory.

The new editor greets the old friends of the Press, and appeals to each one for co-operation in building up the material and financial interests of the town and county. While he is engaged in the newspaper business as a livelihood, he is influenced in his choice of employment, less by selfish considerations, than by the desire to be useful to his fellowman. Above everything else he seeks the joy of service, which has been for nearly forty years the motive which actuated him in the work of the Christian ministry. If health would permit he would still be in the pulpit, and he accepts the newspaper tripod because he regards it as a place almost as sacred, when viewed in light of opportunities which it affords, and the obligations to fidelity which it imposes. The development of our material resources has a direct and powerful influence upon our moral and spiritual life as a people, and it was in direct relation to the relief of bodily and physical suffering that our divine Master said: "Inasmuch as ye did it unto one of the least of these, my brethren, ye did unto me." Without regard to occupation, or to creed, or to political affiliation, I wish to recognize in every one whom I can serve, one of these "brethren" of Christ, entitled to my esteem and respectful consideration. I have never restricted my sympathies, or my fellowship to the confines of my own denomination, and as editor it will be my delight to strengthen the hands of every congregation and every pastor in every God-appointed undertaking. Don't try to use me or my columns for any narrow or sinister designs, but broaden your plans to embrace the general welfare and you can always count upon my hearty co-operation. What I have said to the churches and to the preachers, I also say to the schools and to the teachers. A great work is before us. Let us gird our loins for the conflict, and stand together—shoulder to shoulder, and shield to shield. Throw away all personal ambition, and personal animosities, if they exist, and join in one common effort for the common good. Help me to help you as you in your work.

I am a practical farmer as well as well as a scientific agriculturalist. Since my college days at Auburn, I have been a constant student of agricultural chemistry and soil physics. Plant life and growth have been to me a sweet charm as well as an intensely interesting problem for thought and investigation. From a child I have roamed the fields and forests, not from sordid interest, but from sheer love of nature and her fascinating processes. I possess that peculiar susceptibility by which one hears her myriad voices and feels her bounding heart throbs. I love the scent of new-mown hay above the attar of roses, and the song of the plowman above that of the primadonna. The furrowed field has for me, not only the softness, but also the very affection of a mother's breast, as she fondly clasps her offspring to her gentle heart. The lowing herds and their tinkling bells are themselves bucolic symphonies, far sweeter to my ear than the strains of the ball room, or even the anthems of praise that swell from man-made temples of worship.

I hope sooner or later to visit your farm, listen to your mocking birds, inspect your cattle and hogs, taste your water, your butter, your home-cured hams and your home canned fruits and vegetables. I can teach you something, and can learn from you still more. A wise man is one who can learn something from anybody, and a fool is one who cannot learn even from a wise man.

I am a democrat—dyed in the wool, and proud to own it. If it was necessary I could give a reason for the hope that is in me, and also a reason for the unprecedented success which has recently attended the rock-ribbed principles which I represent. These principles are grounded deep in the fundamental needs of the human heart and for that reason they are sweeping in victorious whirlwinds through all countries, bringing the rule of the masses and the downfall of the classes. Time was when I fought for those principles, but now they fight for me. I do not quarrel with a man because he belongs to another party which has not yet outgrown the errors which have come down to us from the old days of oppression. I am giving him time to grow, and in the meantime I wish to cordially co-operate with him in those matters about which he and I are perfectly agreed, and thus put the great overshadowing question of "hog and hominy" on a more substantial basis in our dear old Alabama.

UNITY-BAPTIST ASSOCIATION MEETS

CLANTON, OCTOBER SEVENTH AND EIGHTH.

The fifty-ninth annual session of the Unity-Baptist Association met with the Clanton Baptist church, October 7th and 8th.

Rev. S. M. Adams was elected Moderator, and Rev. W. J. Ruddick was present to fill the office of Clerk.

The Association is composed of thirty-three churches, including parts of Chilton and Autauga counties, and has a membership, as per last report, of 3,404 with a Sunday school attendance of 1,793.

The visitors in attendance were: Rev. F. W. Burnett, editor Alabama Baptist; Rev. Jesse A. Cook, of Montgomery, representing State Missions; Miss Laura Lee Patrick, Womans' Work; Rev. J. H. Longcrier, of Columbiana, Missions; Rev. S. D. Monroe, Sunday School Work, and Rev. R. R. Brasher, of Huntsville, in the interest of the Orphans' Home, at Evergreen.

Besides the amounts contributed to other causes, $702.50 was subscribed to the Baptist High School at Thorsby. Rev. W. M. Olive is the champion of this cause, and the work he is doing is a credit both to himself and to the people of this and Chilton County Associations.

Resolutions of respect were passed to the memory of Rev. F. M. Woods and Mr. T. U. Crumpton, two men who have been great factors in the work of the Association. The next session meets with Liberty, about 4 miles south-west of Mountain Creek.

J. S.

A HARD YEAR AHEAD

It is said that two abundant crops seldom follow in succession, though a prosperous season is usually followed by universal extravagance, which wastes, in prodigality, more than the excess above the average production. Moreover, habits of wastefulness are formed during seasons of abundance which remain to curse our lives during the coming years of average profits. Chilton county has had a good year, and, she may make it the basis of better years in all the future, or she may allow it to become a curse, instead of a blessing. It behooves us just now to inquire how we may use, so as not to abuse our surplus.

In the first place, every man should meet fully and promptly his outstanding obligations. All who have extended credit, and especially those who have made advances, are entitled to profit by our prosperity when it comes. Prosperity tests character in some ways that misfortune does not. A man who could get his consent to remain in debt after such a crop and such prices as have come to us, cannot regard himself as honest and will certainly never be so regarded by others.

In the next place, the farmer should add to his producing capacity by investing some of his surplus in improved farming implements. No one should enter upon another year without a section harrow and a disc cultivator if no more.

This is the time when we can afford some improvements or repairs on the dwelling or barn. Some new furniture would add to the comfort and convenience of the home, and it would be inexcusable folly to "blow in" what it would cost on foolishness or vice. Be as economical and saving as you would if the crop had been short, and invest your profits in substantial improvements. Shiftless and improvident people are unworthy of the sunny skies and fruitful fields with which you are blessed.

Don't forget the faithful housewife, who through the long weary months has toiled among the pots by day, and then darned and patched by night, in order that the household might be kept comfortable and decent on a small income. I wish I could speak some word that would bring to each one of them a new dress, a new hat, a new buggy, a new comfort. God bless their generous hearts and their patient, uncomplaining souls. Some of them will not be spared to us another year. Let's make one more bright oasis in the desert of their lives. To one who can read the crude record which anxious care and faithful service have inscribed upon their dear faces, every wrinkle is a beauty spot which an angel might covet, and to which God himself does honor as He says, "Give her of the fruit of her hand, and let her own works praise her in the gates."

If you have made a good corn crop save it and make it go as far as if the crop had been short. You will then experience a feeling of self respect to which the shiftless man is a stranger. Try it once. Don't throw down corn so as to surfeit your horse, ruin his digestion, and weaken his vitality. Litter the stall with leaves or pine straw and not with fodder. If you do not need it next summer, somebody else will, at a good price.

God made us to look far ahead into eternity, and we are not looking into the middle of next July. This is brutish and sinful if not disgraceful. No matter [illegible] turns your hand to [illegible] plant corn and cotton [illegible] make oats, hay, potatoes, [illegible] and plenty of

EN ROUTE TO THE ORIENT

MR. WILLIAMS WRITES FROM SEATTLE, WASH.

Seattle, Washington, Oct 5

By the courtesy of the Press, I wish to say a few words to the people of Chilton county. The papers are open to politics and kindred subjects, and it seems they should be open to local religious

I am spending my last night in America for seven years. I sail tomorrow morning for Canton, China. I am going as a missionary. So far as I know, no one has before gone out from Chilton county as a bearer of the message of Jesus to a foreign people. And as I am far away I hope to keep in touch with dear old Chilton county. If the Press desires it, I shall be glad to write occasionally to my home people from my far off home.

I hope my going on this great mission will make China seem nearer to many of our people.

There may be a few people in Chilton who do not believe in foreign missions, but it seems very real to me and I hope it will be more so to others.

I am very much in earnest about a work for which I must leave my mother and other dear ones not to see them again in seven years.

Baptists, Methodists, all Christians, will you not look more deeply into the cause of giving the knowledge of Christ to all the world.

J. T. Williams.

October. If you want to pass for a man of forethought, then put your plows to running tomorrow in the oat field—not in the oat patch. Your stock will all bless you for the grazing this winter, and for the mixed feed next summer, and without the blessing of your beast, the blessing of the preachers will be a vain performance.

C. R. LAMAR.

FAIR NOTICE

Remember the Fair will open its gates to the public on Tuesday morning, October 21st, 1913.

We urge all people to bring in their exhibits early, as we want them all in and placed by Monday night, October 20th.

There will be no charge for exhibiting things at the Fair. Live stock and poultry will be watered and fed during the Fair at the expense of the Fair Association. We will have a good man there to look after them.

The judges for the live stock and agricultural department are: Hon. J. T. Watt, of Talladega, Capt. A. T. Goodwin, of Montgomery, and Prof. Templeton, of Auburn.

The judges for the Ladies' Department are Miss Mary C. Gibson, of Verbena, Miss Sarah Conway, of LaFayette, Ala., and one other yet to secure.

Bring us your exhibits and let us have a great Fair.

We are expecting Congressman R. P. Hobson to speak at the Fair grounds on Friday, October 24th.

G. O. FOSHEE,
Secretary Chilton County Fair Association.

COUNTY HEALTH OFFICER'S REPORT

To the Honorable Probate Judge and County Commissioners, Chilton County:

Gentlemen:—I beg to submit my report for the month of September. As required by law, I inspected the county jail and poor house and found both in good condition.

All the doctors in the county, who are in active practice, have reported deaths and births.

The vital statistics are as follows: Births: White 42, Colored 8; total 50. Deaths: White 14, Colored 17.

The following cases of infectious diseases were reported, and have been properly looked after: Seven cases of typhoid fever, one case of scarlet fever, and one case of diphtheria.

Respectfully submitted,
V. J. Gragg,
County Health Officer.

LARGE SALE OF STOVES

The Gamble Hardware Company, made another unusually large sale of stoves to MacArthur Bros. Co., contractors, who are building a dam across Coosa river, twenty-four stoves being delivered yesterday.

This enterprising firm evidently has the right price and the goods, or could not secure so much business from these people in competition with Birmingham and Montgomery.

Mr. Will Burnett of routs eight was in to[illegible] Monday.

10 Days INTRODUCTORY SALE 10 Days

THE FASHION

The New Store in the Tipton Mullins Building

IN order to get acquainted with the Chilton County public we will throw the entire stock of new and up-to-date Ladies' and Men's Clothing; Ladies' and Men's Shoes, Children's and Misses' Ready-to-wear Clothing, Shoes and Hats at prices that were never heard of before.

Below you will notice a few of the following prices, all would be too numerous to mention:

SPECIAL!

6 and 7c Calico at	5c
8c Outing at	5c
10 1-2c Outing at	8c
7 and 8c Sheeting	6c
30c Double Width Serge at (These goods are in all colors)	20c
10 and 12c Bleaching at	8c

SPECIAL!

$4 to $4.50 Men's Shoes	$3.45
3.50 Men's Shoes	2.45
3.00 Ladies' Shoes	2.10
2.50 Ladies' Shoes	1.85

Ladies' Cloaks, Dresses and Rain Coats all to go at 75c on the dollar.

During this Sale we will sell a $1.25 can of the very best Parched Coffee for only 90 Cents. A BIG CAN!

Come in and hitch your dollar to the biggest load of merchandise ever pulled out of Clanton before.

Talk about saving some money. In our Millinery Department every dollar will get you TWO DOLLARS WORTH OF THE VERY BEST MILLINERY EVER SOLD IN THIS PART OF THE COUNTRY.

Call on us as we want to get acquainted and you will be convinced.

We absolutely guarantee you satisfaction or your money back.

Remember this Stock is not shelf-worn, it is only six weeks old.

THE FASHION

IS CHILD CROSS, FEVERISH, SICK

Look, Mother! If tongue is coated, give "California Syrup of Figs."

Children love this "fruit laxative," and nothing else cleanses the tender stomach, liver and bowels so nicely.

A child simply will not stop playing to empty the bowels, and the result is they become tightly clogged with waste, liver gets sluggish, stomach sours, then your little one becomes cross, half-sick, feverish, don't eat, sleep or act naturally, breath is bad, system full of cold, has sore throat, stomach-ache or diarrhoea. Listen, Mother! See if tongue is coated, then give a teaspoonful of "California Syrup of Figs," and in a few hours all the constipated waste, sour bile and undigested food passes out of the system, and you have a well child again.

Millions of mothers give "California Syrup of Figs" because it is perfectly harmless; children love it, and it never fails to act on the stomach, liver and bowels.

Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

He Obeyed.

Willie was struggling through the story in his reading lesson. "No, said the captain," he read, "it was not a sloop. It was a larger vessel. By the rig I judged her to be a-a-a-a—" The word was new to him.

"Barque," supplied the teacher.

Still Willie hesitated.

"Barque!" repeated the teacher, this time sharply.

Willie looked as though he had not heard aright. Then with an apprehensive glance around the class he shouted:

"Bow-wow!"

TAKES OFF DANDRUFF HAIR STOPS FALLING

Girls! Try This! Makes Hair Thick, Glossy, Fluffy, Beautiful—No More Itching Scalp.

Within ten minutes after an application of Danderine you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine [illegible] dies the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance.

Get a 25 cent bottle of Knowlton's Danderine from any store, and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all—you surely can have beautiful hair and lots of it if you will just try a little Danderine. Adv.

Really Unkind.

"[illegible], yes," murmured Miss Scheech-[illegible], after the first selection at the musicale. "I have had some exciting experiences. Coming over a terrible storm arose, and I had to sing to quiet the passengers. You should have seen the heavy seas [illegible]unning."

And the big, rude man in the pink necktie gazed out of the window. "I don't blame the sea," he muttered.

THIS LADY OBEYED HUSBAND

In Matter Where Her Happiness Was at Stake, and is Mighty Glad She Did.

Sheldon, S. C.—In advices from this town, Mrs. J. H. Marvin writes as follows: "For more than three years, I suffered with womanly troubles, and none of the different treatments I underwent seemed to do me any good.

I also had pains in my left side, so bad, at times, I could hardly get up.

My husband told me to buy some Cardui, the woman's tonic, and I did. I started taking it, and soon began to feel better. I took only a few bottles and now I am perfectly well, and able to do anything.

Cardui has done me a world of good. It certainly cured me of the trouble I had and I am getting along nicely.

I have recommended the remedy to other sufferers, and they have all been benefited by it.

I will always keep Cardui in my home for use in time of need."

Cardui is a purely vegetable remedy, containing no harmful mineral products. Its ingredients act in a helping, building way, on the womanly constitution. It has been relieving womanly troubles for over half a century, during which time it has proven of more than ordinary value as a tonic for weak women.

You can get Cardui. It will do for you, what it has done for thousands of others. It will help you. Begin to take Cardui today.

E-W [illegible] Chattanooga Medicine Co., Chattanooga, Tenn., for [illegible] your case, and 64-page book, [illegible] for Women," sent in plain wrapper. Adv.

IN CAMP WITH MEXICAN REBELS

A REBEL OUTPOST

BAND OF MEXICAN REBELS

IN THE HOT BED OF REBELLION IN MEXICO

THE junta at El Paso agreed that a visit to the camp of Colonel Torribio Ortega and an interview with that Constitutionalist commander would be a very good thing for the cause. When it came to delivering a passport and letter which would take the party past outposts, that was another matter. They were willing to do it, but always tomorrow.

"If we let them guys manana us we'll never get there," commented Scotty. "They know they are going to give us those papers, but they hate to get down to work. There is only one way to make them get busy and I'm going to use it."

"The only way" meant cheerful, patient, persistent attendance on the junta morning, noon and night until finally, late one evening, after the last promise to have it ready the following morning at "tain o'clock" had been brushed aside, the passport was prepared with great mystery, duly sealed, elaborately addressed and ceremoniously handed over. Before the following daybreak the automobile was streaking down some of the best country road in the United States bound for somewhere around Guadaloupe, a little town something like forty miles distant on the Mexican side.

Locke, the owner of the car, and Jim, the chauffeur, were in front. Locke held the wheel on the country road, but later Jim would take the gasoline bridge. Jim would have been the working mate of Kit Carson, old man Bridger or some of the other giants of pioneer days if he had been a man fifty years ago. Now he is a border chauffeur, able to drive a car any place a goat can climb and willing to go anywhere into the seething interior of Mexico for his price.

"This ought to be a cinch today," Jim said. "We'll get through a humming if we don't run into a bunch of Salazar's men from Juarez outscouting, and they're bad hombres, or some of Castillo's bandits. Split out your passes and don't shove the wrong ones; let me do the talking."

About twenty-five miles east of El Paso the Rio Grande swings into the side of the country road and at the first turn two khaki-clad young cavalrymen with six-shooters strapped to the right hip stepped forth with uplifted hands. Uncle Sam is making an earnest effort to keep down the smuggling of contraband across the border and for that purpose has thrown his soldiers along the international boundary. Inasmuch as the soldiers not only have both factions of Mexicans against them, but the American business sentiment as well, the thing is somewhat in the nature of a farce.

These young cavalrymen, however, were doing their duty as best they could and they wanted to know who, what, where, etc. They were told, duly scrutinized an official pass from the military authorities and took a look through the automobile. Cartridges, like blessings, come and go unawares and they were not taking a chance. Just a little later at what was once an international bridge six more soldiers headed by a sergeant tumbled out of the underbrush and from under the abutments and cried "Halt!"

"Sorry, you know," said the sergeant crisply as he went through the car with the deftness of a customs inspector, "but we've got to do it. Have you an extra morning paper with you? Hey, Murphy, I win that bet! Washington did trim the Athletics."

The river ceased at this point to be the international line because whenever the irrigation will let her have a little water she gets even by finding new channels, cutting across lots and slicing up territory to give a boundary commission a nice summer job. In this particular instance she had sliced into the United States a mile or more, which threw the line a mile or two on the south side of the river, in a low lying flat land, which occasional floods have filled with willows, cottonwoods and dense undergrowth. It is a great point for smugglers.

Just at the end of that mile the fairly good road ended abruptly. Shifting sand, overgrown trails and desolation succeeded. It was as if the car had been dropped suddenly into a far distant country, unsettled and practically unexplored.

Just a mile to the north there has been a hard scientific road passing through farm land brought to the highest point of development. The fields were fragrant with growing, flowering alfalfa, kafir corn, milo maize, fruits and melons. The houses were pretty bungalows or modern concrete dwellings. There were men at work in the fields and their mules and horses were sleek and well cared for. Windmills were drawing water from wells where the gasoline pump was not used. It was all happy, all busy, all prosperous.

Over here the country was stricken. Land just as good as any in the world lay fallow, overgrown with brush.

"We ought to pick up an outpost about now," called back Jim finally. "Look out!"

As he spoke there came from the mesquite covered side of a mesa a single sharp detonating report and something sang by in the air above like a large humming top.

"Get still—unless you're one of the Castillo bunch," came the command. It is a long jump for the greaser."

Around the edge of the mesa came a blue-[illegible] with his pony on a dead run, a Winchester swung in the air, also Mexican [illegible]fanfaronading.

[illegible] the [illegible] all [illegible] out the junta later.

DIVERSIFICATION ON SOUTHERN FARMS

Demand for Staple Rapidly Increasing All Over World.

COTTON IS GREAT CASH CROP

Farmers Are Advised to Supplement It With Thoroughly Good Permanent Pastures, Inaugurating System of Rotation.

(By G. H. ALFORD.)

I do not wish to be understood as advocating the diversification of crops to the extent of developing a scarcity of raw cotton to meet the demand of the consuming world. Such a course would be fatal to our cotton-growing interests in more ways than one. I am anxious to see a sufficiency of raw cotton produced each year to meet all demands of consumption at, say 12 cents a pound.

Cotton is the greatest cash crop grown. The demand for it is rapidly increasing. The demands of the consuming world double every 22 years. If we estimate 13,000,000 bales as a minimum supply on the part of the United States for the world's clothing at the present time, it will require 26,000,000 bales in 1932 and 52,000,000 bales in 1954 to meet the demand for commerce. I do not advise the farmers of the cotton belt to supplant cotton as the main cash crop, but urge all of them to supplement it with thoroughly good permanent pastures, leguminous crops, grazing crops, forage crops and good live stock. The sensible thing for each farmer to do is to largely reduce his acrage in cotton, practice a system of rotation, including leguminous crops, and raise mules and horses, cattle, hogs, poultry and other live stock. Plant fewer acres in cotton, plant prolific seed, fertilize and cultivate better and obtain an increasing yield of lint cotton per acre. The acres which will not be needed for cotton under this modern system of farming can be thoroughly sodded in grasses and clovers and planted in leguminous crops, corn, oats, rape, sorghum and cane. Under these advanced methods the soil will rapidly increase in fertility, the money obtained for cotton will be kept at home, the cotton crop will cease to bear the entire burden of the

Colt Raised in Alabama.

total expense of each farm, the inequitous credit system that has for 40 years dragged the growers bound and broken will no longer exist, and the growers will each year grow in strength and permanent prosperity.

The first efforts at breaking away from cotton usually consist in going largely into another single crop system of farming rather than going into the production of a variety of crops. The evils of the new system are much greater than those of the all-cotton system. Many farmers rush into the truck business. Of course, truck crops should be grown on every farm and, in some particular localities, they may constitute the main reliance for cash, but I assert positively that the truck business is a gamble for the average cotton farmer and that he will win just enough to cause him to put up all he has and lose. Trucking has ruined many a farmer to financial ruin.

James J. Hill, one of the greatest thinkers of this age, says: "Give us a system of farming that will greatly increase the fertility of the soil." He further states: "Forty years ago a farmer had to provide for but one other than himself. Today every farmer has to produce food for two besides himself."

Hon. Henry Wallace recently said: "The nineteenth century farmer, speaking generally, was no farmer at all, but a miner of soil fertility, a soil robber." Mr. Hill, speaking along the same line, said: "The average American farmer has no equal for carelessness and for adhering to discredited methods of farming; we will soon be unable to feed ourselves or to feed the boasted home markets for the other industries that we are building on a constantly narrowing base."

Of course, the farmers must drain the land, thoroughly prepare the seed bed, plant prolific seed, practice frequent and shallow cultivation and make the most careful use of manures and fertilizers, but no problem is of such importance as the maintenance of the supply of plant food in the soil. The first step to be taken in order to add to the supply of plant food, is to reduce washing to a minimum. Flowing water removes more plant food each year than is removed in five by crops sold from the farm. The addition of the vegetable matter, winter cover crops, deep plowing and properly constructed terraces will reduce the washing of land to a minimum.

Diversification of crops enables the farmer's family to have sumptuously every day in the year on farm products, makes it possible for him to utilize three times as much land as the average farmer in such a way that his productiveness rapidly increases instead of wearing out about 15 acres at the time and keeps the cotton money at home, but as James J. Hill says, our prime object in adopting a system of farming should be to increase the fertility of the soil.

The wise farmer should always strive to grow that crop or crops which extended over a long period will possess the greatest money value. By this I do not mean that farmers should be so shortsighted as to sacrifice the fertility of their lands and future wealth for immediate returns.

Now, it has been found by actual tests on experimented plats that on a definite area, say 20 acres, that it is possible to produce as much cotton in ten years by practicing a three-year rotation of corn and peas, oats followed by peas and cotton, as it is possible to produce by planting the entire 20 acres in cotton every year.

WHY SHOULD WE HAVE A ROTATION OF CROPS?

1—To Increase Crop Production.
2—To Keep Soil in Good Physical Condition.
3—To Distribute Work Throughout the Year.
4—To Keep Out Weeds, Insects and Diseases.
5—To Provide a Balanced Ration for Stock.
6—To Provide a Diversity of Crops.
7—To Provide for a Definite Plan for Farm Work.
8—To Prevent Washing of Soil.
9—There Is Everything to Gain and Nothing to Lose.

Carefully conducted tests have also proven the maximum results. These tests show the absolute necessity for growing several crops and live stock.

Before adopting a system of cropping and selecting crops to grow therein, we must consider the local conditions, such as climate, labor supply, market demands and transportation facilities. We cannot grow perishable products unless we have quick transportation facilities. Even if a farm crop is not perishable and we have the quickest transportation facilities at our door, we must be careful and not glut the market. These observations being true, we find that we must devote our energies to staple farm crops such as grass, corn, oats, peas, soy beans, cane, poultry and live stock and some cotton.

Many agricultural writers and speakers are busy shaking the foundation of our present evil—the one-crop system. Their work is to a large extent destructive, not constructive. They seldom suggest a practical method to take the place of our present badly balanced, lopsided farming that compels a farmer to wear out about 15 acres at a time. It is not enough to expose the evils of the one-crop system. We must be able to show, on general lines, what system we intend to establish as a substitute, and on general lines how the average cotton farmer can do so.

The system of farming that I shall now suggest, if adopted and carried out by our cotton farmers, will, in ten years, make our soils exceedingly productive, our farmers rich, and the cotton belt the financial center of the world.

Cotton first year; corn and peas, soy beans or velvet beans, second year; oats, followed by lespedeza, soy beans or cow peas, third year; or cotton and crimson clover sowed at last working, first year; June corn and volunteer crimson clover, second year; oats, followed by soy beans, lespadeza or cow peas, third year; or cotton and crimson clover, first year; June corn and volunteer crimson clover, second year; oats, followed by lespedeza, third year; lespedeza, fourth year.

Of course, commercial fertilizers, thoroughly good permanent pastures and plenty of good live stock must be added to the above rotation or system of farming.

SECURE BENEFIT OF MANURE

Should Be Applied to Land Soon as Made and Before Plant Food Has Leached and Burned Out.

A little manure applied often bears just the same relation to the benefit of our land and crops as a moisture applied at intervals throughout the year. We should not want a deluge of water once a year and nothing between times. And the point of this is that to use the manure in a way so as to get the most benefit out of it we must spread it as fast as it is made practically throughout the year to our growing crops and hay land, says a writer in an exchange. There is always some part of our land that needs an occasional application of manure.

I believe that every reader will support me in this statement that manure applied to the land as quickly as it is made is worth at least six times as much in increasing crops as that which has lain in the barnyard until all the plant food has leached and burned out of it, and yet it takes just as much time and labor to distribute this almost worthless stuff as it does to haul it at its best.

Let's apply the manure just as soon as it is made, if possible. It's our gain.

Whitewashing Trees.

Whitewashing trees is a [illegible] practice. Dr. [illegible] the trees from the hogs [illegible]

STOMACH MISERY GAS, INDIGESTION

"Pape's Diapepsin" fixes sick, sour, gassy stomachs in five minutes.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid, or eructations of undigested food, no dizziness, bloating, or foul breath.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain indigestion remedy in the whole world, and besides it is harmless.

Please for your sake, get a large fifty-cent case of Pape's Diapepsin from any store and put your stomach right. Don't keep on being miserable—life is too short—you are not here long, so make your stay agreeable. Eat what you like and digest it; enjoy it, without dread of rebellion in the stomach.

Pape's Diapepsin belongs in your home anyway. Should one of the family eat something which don't agree with them, or in case of an attack of indigestion, dyspepsia, gastritis or stomach derangement at daytime or during the night, it is handy to give the quickest relief known. Adv.

Too Much Reform.

Mayor Cheney of Hartford said of a reformer who desired to revive some of the most intolerable of the Sunday blue laws:

"The man would stop us from reading our Sunday newspaper, from taking our Sunday auto ride."

He frowned.

"A reformer of this type," he said, "may be defined as one who believes in the divine right of interference."

FACE COVERED WITH PIMPLES

214 Brevard St., Tampa, Fla.—"Some three years ago I commenced to suffer from a rash on my face and back. Before the pimples came on my face there were a lot of blackheads. It looked as if the blackheads turned into pimples because after a little while all of them were gone and my face was covered with pimples. They were small at first but gradually grew and right at the end of each pimple it was all white. I carelessly picked them with my finger nails, which made them spread, and I soon discovered them on my back. My back was covered with pimples and my face the same way. At night I could hardly sleep on account of the burning and itching sensation they caused. I did not like to go out because the pimples caused disfigurement.

"Seeing the advertisement of Cuticura Soap and Ointment in one of the magazines I sent for a sample. I bought some Cuticura Soap and Ointment, and I am glad to be able to say that I am entirely cured of pimples." (Signed) Jno. O. Darlington, Jan. 25, 1913.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Easy Winner.

Senator Key Pittman was talking in Tonopah about two lobbyists who had quarreled.

"But there's no fear," he said, "of their maiming or mutilating each other. They are like Bluff and Stuff.

"'Who came out ahead,' a man asked, 'in that street row between Bluff and Stuff?'

"'Stuff did,' was the answer, 'but he had half a street's start.'"

"CASCARETS" FOR SLUGGISH LIVER

No sick headache, sour stomach, biliousness or constipation by morning.

Get a 10-cent box now.

Turn the rascals out—the headache, biliousness, indigestion, the sick, sour stomach and foul gases—turn them out to-night and keep them out with Cascarets.

Millions of men and women take a Cascaret now and then and never know the misery caused by a lazy liver, clogged bowels or an upset stomach.

Don't put in another day of distress. Let Cascarets cleanse your stomach; remove the sour, fermenting food; take the excess bile from your liver and carry out all the constipated waste matter and poison in the bowels. Then you will feel great.

A Cascaret to-night straightens you out by morning. They work while you sleep. A 10-cent box from any drug store means a clear head, sweet stomach and clean, healthy liver and bowel action for months. Children love Cascarets because they never gripe or sicken. Adv.

Never.

"Is your wife still away from home?"

"My wife is still [illegible]"—Boston Transcript.

The Kind.

"Do you like creepers about the house?"

"Yes, if they're fat babies."

The Use of Words.

"Talking about stupid ones, that Smith girl is dumb!"

"Yes, you can tell that as soon as you hear her talk."

Don't neglect a cold. It means Consumption or Pneumonia. Dean's Mentholated Cough Drops check colds—5c at Druggists.

His Place.

"The operatic tenor we heard lately ought to come under the dog laws."

"Why so?"

"Because his songs are mostly barky-roles."

DOES YOUR HEAD ACHE?

Try Hicks' CAPUDINE. It's liquid—pleasant to take—effects immediate—good to prevent Sick Headaches and Nervous Headaches also. Your money back if not satisfied. 10c., 25c. and 50c. at medicine stores. Adv.

Many Norwegians in U. S.

So many Norwegians have either worked for a few years in the United States or have relatives now working there, or have traveled or been educated there, that the number familiar with American goods is sufficient to have an appreciable effect upon the local demand.

ELIXIR BABEK A GOOD TONIC

And Drives Malaria out of the System.

"Your 'Babek' acts like magic; I have given it to numerous people in my parish who were suffering with chills, malaria and fever. I recommend it to those who are sufferers and in need of a good tonic."—Rev. S. Szymanowski, St. Stephen's Church, Perth Amboy, N. J. Elixir Babek 50 cents, all druggists or by Parcels Post prepaid from Kloczewski & Co., Washington, D. C.

Signatures on Paintings.

Experts rarely rely on signatures alone to determine the authenticity of an old painting, but trust rather to their knowledge of the painter's technique. Sometimes the painter's name is found in a conspicuous place, as, for instance, in Raphael's "Sposalizo" at Milan.

Proud of having surpassed his master the youthful genius wrote on a frieze in the very center of the canvas, Raphael Urbinas."

Reynolds hardly ever signed his work. But upon the completion of the portrait of Mrs. Siddons as "The Tragic Muse," he wrote his name large on the gold embroidery of her dress. He was unable, he said, "to resist the temptation of sending my name to posterity on the hem of your garment."

SAGE TEA DARKENS GRAY HAIR TO ANY SHADE. TRY IT!

Keep Your Locks Youthful, Dark, Glossy and Thick With Common Garden Sage and Sulphur.

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is mussy and troublesome. For 50 cents you can buy at any drug store the ready-to-use tonic called "Wyeth's Sage and Sulphur Hair Remedy." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant. You will also discover dandruff is gone and hair has stopped falling.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur and look years younger.—Adv.

And That Won Her.

"I don't see what argument your wife used to get that woman I was trying to get to cook for us, we told her we could treat her like one of the family!"

"My wife promised her that we wouldn't."

Women of Middle Age

From 40 to 50 Woman's Critical Period.

Such warning symptoms as sense of suffocation, hot flashes, severe headaches, melancholia, dread of impending evil, palpitation of the heart, irregularity, constipation and dizziness are promptly treated by intelligent women who are approaching the period of life.

This is the most critical period of woman's life and she who neglects the care of her health at this time invites incurable disease and pain. Why not be guided by the experience of others and take Lydia E. Pinkham's Vegetable Compound? It is an indisputable fact that this grand old remedy has helped thousands of women to pass through this trying period with comfort and safety. Thousands of genuine and honest testimonials support this fact.

From Mrs. HENRY HEAVILIN, Cadiz, Ohio.

Fort Worth, Texas.—"I have taken Lydia E. Pinkham's Vegetable Compound and derived great benefit from its use. It carried me safely through the Change of Life when I was in bad health. I had that all-gone feeling most of the time, and headache constantly, I was very nervous and the hot flashes were very bad. I had tried other remedies and doctors, but did not improve until I began taking Lydia E. Pinkham's Vegetable Compound. It has now been sometime since I took the Compound and I have had no return of my old complaints. I always praise your remedies to weak women."—Mrs. HENRY HEAVILIN, R. F. D. No. 5, Cadiz, Ohio.

From Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

Fleetwood, Pa.—"During the Change of Life I was hardly able to be around at all. I always had a headache and I was so dizzy and nervous that I had no rest at night. The flashes of heat were so bad sometimes that I did not know what to do.

"One day a friend advised me to take Lydia E. Pinkham's Vegetable Compound and it made me a strong, well woman. I am very thankful that I followed my friend's advice, and I shall recommend it as long as I live. Before I took the Compound I was always sickly and now I have not had medicine from a doctor for years. You may publish my letter."—Mrs. EDWARD B. HILBERT, Fleetwood, Pa.

From Mrs. F. P. MULLENDORE, Munford, Ala.

Munford, Ala.—"I was so weak and nervous while passing through the Change of Life that I could hardly live. My husband had to nail rubber on all the gates for I could not stand to have a gate slam.

"I also had backache and a fullness in my stomach. I noticed that Lydia E. Pinkham's Vegetable Compound was advertised for such cases and I sent and got a bottle. It did me so much good that I kept on taking it and found it to be all you claim. I recommend it to all women afflicted as I was."—Mrs. F. P. MULLENDORE, Munford, Ala.

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

Every subscriber is hereby appointed a committee of one to boost the subscription list of the Press. Manage to pity every body who does not read it. Can t you?

The editor of this paper is not an ex-preacher, but a preacher in good standing in a Methodist Conference, where his character has been passed with honorable mention for about thirty-six years. His talking aparatus is out of repair but our people will discover that his pen is a live wire. Keep in touch with him by taking the Press.

We farmed in Texas for several years, and next week's leading editorial will contain suggestions as to the best methods of growing Texas Rust Proof Oats. If these suggestions were adopted by our farmers it would be worth a hundred thousand dollars a year to the county of Chilton. Lay aside the paper and keep it for future reference.

Our editor is a preacher who believes with Woodrow Wilson that politics is a sacred calling, and who knows which end of the plow the single tree should be hitched to. He is a good judge of spring chickens, and desires to sample the products of every barnyard in the county wheuever he can get into the country homes, where he is at his best.

If the triumphant democracy continues to ruin the business interests of this country for a while longer, we may expect cotton prices to soar beyond the dreams of the most visionary enthusiast. In the past these fluctuations of prices for which different administrations have been praised or blamed have been due to fiscal or industrial influences over which politicians really had no control. But the present case is somewhat different. Attempts were purposely made to produce financial disaster in order to discredit the present administration, and in order to prevent this disaster certain measures were adopted which have eventuated in a prosperity that is marked and general. This demonstrates that the general government can influence such matters, and that Mr. Wilson's political acumen, broad culture, and sterling integrity have brought him to position and to power "for such a time as this."

Let us not forget that the 27th of October is the date for the election to determine whether the Town of Clanton will issue bonds to the amount of fifteen thousand dollars for the purpose of installing a system of waterworks, and also bonds to the amount of twenty thousand dollars for storm and sanitary sewerage. It is a fine opportunity for the man of small means to get the bloated bondholder who possesses public spirit and business enterprise, to turn loose some money in a way that will protect the health of the general public and redound to the convenience and happiness of every citizen. The waste and garbage accumulations in a town the size of ours becomes the source of infection and disease which spreads throughout the population, and hence the families that are most cleanly are as much exposed to the contagion as the negro cabin where it may originate. In this as in everything else we are our brother's keeper or else he will become our slaver. We are all in the same boat and must sink or swim in this fifty question of sewerage from which this section offers the means of escape. This bond issue is the lifeline of rescue which all good citizens should throw out to the perishing. The town of Marshall, Texas, recently took up this question and settled it right, and today its name is heralded to the ends of the ends of the earth as a small county town which does not contain a single house-fly or mosquito. Many of our citizens are from rural districts, and are indebted to past surroundings for many physical as well as moral advantages. But among the many disadvantages they suffer is the notion that those blessings of the country home which were due to its isotion and remoteness may be imported into the crowded town, where everybody trains your children for you, and every back alley breeds disease for your benefit. It is not oftep that we people upon whom the tax is light because of our small holdings have an opportunity to carry a measure which falls heavily upon the man of large means, who must protect our families in order to protect his own and purify our atmosphere because he must breathe it along with us.

The water-works question is voted upon separately, but the two questions are indissolubly joined together, and they are both questions of health, as well as of convenience and comfort. Surface wells such as ours are all supplied by the soil-water, as it is called, which has percolated through our porous lands taking along with it all the filth and refuse that is in a soluable state. Experts have demonstrated that typhoid fever and hook-worm, as well as many other dreadful diseases, are due to fecal matter in the driuking water. Our worse diseases are water diseases and to avoid them we must derive our water supply from a region far below the infected soil water, which is frequently little better thay a liquid manure—very good indeed for plants, but poisonous to all forms of animal life. Where people are crowded together they must have deep wells that require large pumping plants, and these are expensive for individuals, though very cheap where people co-operate and own them together as municipalities. They have made some of the modern cities healthier than the country surrounding them, and have caused the medical profession to unite in other lines of popular co-operation looking to the complete eradication and abolition of all preventable diseases. It is a short sighted policy which stands in path of a great wave of uplifting influence, and the wise thing to do is to climb onto the crest of that wave, and drift into security by voting the bonds on the 27th instant.

Legal Notice.

Birmingham, Ala., Oct. 1, 1913

Hon. B. L. Jones,
Sheriff Chilton County, Ala.

The following United States Internal Revenue License have been issued to your (Chilton) county in the month of September, 1913: Smitherman, J. D., R. L. D., Maplesville, from July 1st, 1913, to June 30th, 1914.

I hereby certify that I have carefully examined the record of the Collector of Internal Revenue and the above is complete and correct.

Yours very truly,
SAM. P. JONES.

Sworn to and subscribed before me this 1st day of Oct., 1913.
10-16-2t J. B. Mosley, Notary Public.

Avoid Sedative Medicines.

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places for the germs of pneumonia or other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world-wide reputation for its cures. It contains no morphine or other sedative. For sale by Alred Drug Co.

FOR SALE—Cabbage plants, (all varieties) field grown $1.25 per thousand. Send for booklet.
H. B. HALE, P. O. 418,
10-9-2t Montgomery, Ala.

Notice of Stock Law Election

Notice is hereby given to all persons concerned that an election will be held by the qualified voters of Precinct No. 2, in Chilton county, on Monday, the 3d day of November, 1913, at the usual places of voting, to determine whether or not there shall be established a Stock law in said Precinct No. 2, wherein stock shall not be allowed to run at large. Said election shall be held according to law in such cases made and provided.

W. T. WHITAKER, ET ALS,
Petitioners.

Carnival Company's General Agent In Town Last Week

THE SHOW TRAIN WENT THROUGH SUNDAY.

Mr. Dick A. Fulton, general agent for the well known Howard Amusement Company, who has the contract for the shows and concessions at the Chilton County Fair this year, was in the city Saturday and part of Sunday. Mr. Fulton was here looking after the locations for the various attractions and concessions. In speaking of the amusements this year, he said, "We have the best up-to-date small show in America, and we are booked here this year because we had that reputation; all of our attractions are clean and that is what the public wants, so that the ladies and children can attend them alone; that is one feature the Howard Company guarantees Mr. W. L. Howard, the general manager, has always catered to the ladies and children, especially this year: we are carrying two free attractions and a mighty good band of ten pieces. The high dive by HUGO is about the highest that has ever been attempted by anyone, and the man who rides the hot air balloon rides it farther than anyone has ever attempted.

The shows went through Sunday afternoon enroute to big Wire Grass Fair at San Ala., the shows carrying a s train of eight cars to tran their outfit.

Fair Visitors

When you come to the Fair next week you have a most cordial invitation to make our store your headquarters.

Whether you buy or not, we shall be pleased to have you call and make yourself at home. We want you to feel free and easy and will do all we can to make your stay pleasant. Leave your bundles with us, we will take care of them while you have a good time at the Fair. And while you are here we invite you to inspect our large and complete line of

Dry Goods, Clothing, Shoes, Hats, Groceries Etc., and everything for the Whole Family.

Kemp Bros.

This Beautiful Hair

Is like what you want your hair to be—

Lustrous, bright and glossy; soft, silky and wavy.

To have beautiful hair like this, use

HARMONY
HAIR BEAUTIFIER

It's just what its name implies—just to make the hair glossy, and lustrous, and more beautiful—just to make it easier to dress, and more natural to fall easily and gracefully into the wavy lines and folds of the coiffure, just to give that delightful fresh and cool effect, and leave a lingering, delicate, elusive perfume.

Will not change or darken the color of the hair. Contains no oil; therefore, cannot leave the hair sticky or stringy.

Very pleasant to use, very easy to apply—simply sprinkle a little on your hair each time before brushing it.

To thoroughly clean your hair and scalp, use

Harmony Shampoo

A liquid shampoo to keep the hair clean, soft, smooth and beautiful. It gives an instantaneous rich, foaming lather, penetrating to every part of the hair and scalp. It is washed off just as quickly, the entire operation taking only a few moments.

It leaves no lumps or stickiness.
—Just a refreshing sense of cool, sweet cleanliness.
—Just a dainty, pleasant and clean fragrance.

Both in odd-shaped ornamental bottles, with sprinkler tops.

Harmony Hair Beautifier, $1.00; Harmony Shampoo, 50c.
Both guaranteed to please you, or your money back.

Sold only by the more than 9000 Rexall Stores—The World's Greatest Drug Stores—and sold and guaranteed by them throughout the civilized world, where all the delightful HARMONY, VIOLET RUBY and BOUQUET SEARCH Perfumes and Toilet Preparations are made.

Sold in this community only at

Upchurch Drug Co.
Clanton, Alabama.

LOCAL & PERSONAL

The Board of Stewards of the M. E. Church held their regular monthly meeting at the Palmer Hotel on Monday evening last. The Board was entertained by Mr. W. D. Wilson, and a banquet was served after the business of the evening was finished.

Mr. and Mrs. B. M. Roberts spent several days in the Magic City last week attending the Fair.

Mr. R. C. Middleton of Birmingham was a visitor to Clanton last week.

Mr. J. Wiley Littlejohn was among the large number of Clantonians who took in the State Fair at Birmingham this week.

Mr. John Patton, Jr.. of Jemison, was in town on business Monday.,

Miss Lucile Gross went up to Birmingham Saturday to hear the great Evangelist Gipsy Smith.

Mr. J. W. Carwile killed a mad dog in South Clanton Thursday last. The canine showed unmistakable signs of being infected with rabies, and had been terroizing the negro population in that part of town; fortunately no one was bitten.

Mr. Will Lambert, of Cane Creek, was in town Tuesday.

Mr. J. M. Curlee was in town Tuesday.

Miss Mattie Hand, of Jemison, spent a day with friends in Clanton last week.

Is it a hat you want? Call on Miss Muse.

Mr. M. A. Killgore, of Cane Creek, with his handsome little son, Simpson, was a pleasant caller at our office Wednesday.

Mr. G. D. Retherford, of Union Grove, was in the office Tuesday. Regret that we were out. Call again.

Mr. J. P. Morrow spent Saturday last in Birmingham on Business.

Mrs. Jennie Davis and daughter, Miss Kate, have returned home from a visit of five weeks to relatives and friends in South Alabama.

Mr. F. W. Denty went up to Birmingham Monday on a business mission; he returned in the afternoon.

Mrs. Tipton Mullins spent a few days at home, returning to Mr. Mullins' bedside Tuesday morning.

Mr. and Mrs. George C. Polk and little Miss Corrin, visited Sylacauga the week end.

Mrs. Will Goodgame and daughters, Misses Kate and Lena, visited Birmingham this week.

Mr. Tipton Mullins has greatly improved and his many friends will be glad to hear that he will soon return to his home.

Senator Curry visited Montevallo Saturday. Miss Mary accompanied him home and spent a day or two. They visited the capital city Monday.

Mrs. J. H. Middleton spent a few days with relatives at Montevallo last week.

Mr. Buck Davis came through muddy roads to meet business engagement in this city one day this week.

Our sanctum was favored by a call from our fellow townsman W. D. Ruffin, whom we found a genial and whole-soul fellow.

Messrs. Henry Gore and Jesse Fetherman were on our streets Wednesday.

Mr. W. J. Armstrong showed his smiling face at our desk, and shivered our atmosphere with his genial laugh. For a desperate case of the blues take about ten minutes of him.

Messrs. Charlie, Lewis, and Bill Sterling have all been in town this week.

LOST.—On the streets of Clanton Monday, a Ladies' Brooch with initials "B. L. H." engraved thereon. Finder will please return to Miss Bessie Hall, Clanton, Ala.

Mr. J. P. Smith was in town re-

RHEUMA-TISM

Will cure your Rheumatism, Neuralgia, Headaches, Cramps, Colic, Sprains, Bruises, Cuts and Burns, Old Sores, Stings of Insects and Bites. Antiseptic Anodyne, used internally and externally. Price 25c.

Rev. L. H. S. Chappelle, wife and daughter, Miss Marguerite, took in the Gipsy Smith meeting this week.

Miss Mattie Wright is visiting in Birmingham.

Mr. W. S. Keller, the State Highway Engineer, will be in Clanton, Wednesday, Oct. 22, and would like to meet all citizens interested in the Birmingham and Montgomery highway. Judge E. B. Deason has had long distance talk with him, and he wishes to discuss with our people the means for putting this important enterprise on foot.

Marshal Hayes arrested Jno. Griffin, Oct. 11th, and found on his person six pint flasks of liquor which he was supposed to be peddling. He was taken before Mayor E. A. Matthews and committed to jail to await a hearing next Friday.

The Press will have a booth at the Fair grounds, where the new editor will be glad to get acquainted with the people. If you are not a subscriber, be certain to register your name and post office address in the book found there so that you will have a chance at the prize drawing to be pulled off after awhile.

The following marriage licenses have been issued this week; Mr. H. I. Strickland to Miss Ophelia Deramus; Mr. J. A. Depositor to Miss Anna Brewer; Mr. Edgar Crumpton to Miss Mattie Cleckler.

Everybody's "Uncle Dick" Jones is still able to blow a fox horn, and to appreciate the music of the pack in full cry. Long live big hearted "Uncle Dick." May his shadow never grow less.

Mr. W. B. Rubenstein has not suffered any loss of enterprise by reason of his recent accident. He has arranged to have the most up-to-date moving pictures in anticipation of a big crowd during Fair week at the Lyric theatre.

FURNISHED ROOMS for Rent cheap; Also Plain Sewing cheap. Your patronage solicited.

CLANTON - ALABAMA

Freckled Girls

It is an absolute fact, that one 50 cent jar of WILSON'S FRECKLE CREAM will either remove your freckles or cause them to fade and that two jars will even in the most severe cases completely cure them. We are willing to personally guarantee this and to return your money without argument if your complexion is not fully restored to its natural beauty. WILSON'S FRECKLE CREAM is fine, fragrant and absolutely harmless. Will not make hair grow but will positively remove TAN, FRECKLES, and PIMPLES. Get it today and try it. Regular size jars 50c and $1.00. Sent by mail if your druggist does not keep it. Address Lyric Laboratory, Clanton, Ala.

The Ladies Missionary Society of Mount Nebo will exhibit and offer for sale to the highest bidder Thursday from two to three p.m. at the County Fair, a beautiful quilt. Help those women who labor in the Gospel. It is an honor and a privilege to sleep under a quilt like that. Angels guard such slumbers because angelic hands stitched that quilt.

Miss Norma Denty returned home Monday from a pleasant visit to friends in Birmingham.

Take One Pain Pill, then—Take it Easy.

To Head-Off a Headache

Nothing is Better than

Dr. Miles' Anti-Pain Pills

They Give Relief Without Bad After-Effects.

"It gives me great pleasure to offer a word of recommendation for Dr. Miles' Anti-Pain Pills, as there are thousands suffering unnecessarily from headache. I was afflicted intermittently for years with headache and after other remedies failed, I tried Dr. Miles' Anti-Pain Pills. For the past ten years I have carried them constantly with me, getting instant relief by using one or two on the approach of headache. They are also effective for neuralgia, giving immediate relief." C. M. BROWN, Estherville, Ia.

For Sale by All Druggists.
25 Doses, 25 Cents.
MILES MEDICAL CO., Elkhart, Ind.

Chronic Dyspepsia.

The following unsolicited testimonial should certainly be sufficient to give hope and courage to persons afflicted with chronic dyspepsia: "I have been a chronic dyspeptic for years, and of all the medicine I have taken, Chamberlain's Tablets have done me more good than anything else," says W. G. Mattison, No. 7 Sherman St., Hornellsville, N. Y. For sale by Alred Drug Co.

Messrs. T. G. Taylor and Riley Robinson were in from Providence Wednesday.

Mr. Jno. Maddox, of route four, was looking after his interests in Clanton Wednesday.

Mr. Joe Cleckler greeted his Clanton friends Tuesday.

Mortgage Sale.

Under and by virtue of the power of sale contained in a mortgage executed by T. R. Robterds and his wife, Sarah Robterds, to J. S. Johnson on the 17th day of November, 1892, to secure an indebtedness to said Johnson by said Robterds and wife, in the sum of $240.58-100, which said mortgage was recorded in Vol. 31, on page 57 of the Book of Mortgages in the office of the Judge of Probate of Chilton county, Alabama, on the 6th day of April, 1893, which said mortgage and debt has been duly assigned to Roberta A. Mullins, the undersigned; default having been made in the payment of said debt, I, said Roberta A. Mullins, will proceed to sell the lands conveyed by said mortgage, to-wit:

The east half of the northeast quarter of Section twenty-six (26), Township twenty (20), Range Twelve (12) situated in Chilton county, Alabama, to the highest bidder for cash, at the hour of 12 o'clock noon on

MONDAY, OCTOBER 20th, 1913,

in front of the Court House Door in Clanton, Chilton county, Alabama, said sale to be made for the purpose of satisfying said debt together with interest thereon and to pay the expenses of this sale, including a reasonable attorney's fee.

This the 25th day of September, 1913.

(Dutch Boy Painter Trade Mark.)

and Pure Linseed Oil

paint is used on your building. You can secure the most beautiful as well as the most durable results with this paint. By adding colors-in-oil any tint and any shade can be obtained.

We sell these materials as well as all the other painting requisites.

Come in and have a talk with us, and see if we can't suggest a color scheme for your house that will appeal to your good taste.

Gamble Hardware Co.

Clanton, Alabama.

Alabama's Growth

The human brain is the greatest known motive power. It has made ships sail before the winds; steamers to plow the sea; the earth to yield its coal, iron, gold and silver; steam engines to travel safely at a high rate of speed; automobiles to annihilate street and road distances; men to fly in the air; machines to talk and pictures to walk.

Thinking has produced these results. Men intent on development and advancement have devoted nights of sleeplessness, days of labor, years of toil to the work. Consequently a steady growth has gone on in the world since the days when we lived in thatched huts and practiced cannibalism.

Alabama has had, and now has, her thinking men—men big of brain and of unselfish patriotism. They have devoted their best efforts to keep the state in the forefront of progress. They realize that all wealth comes out of the earth. Every known article of food and clothing is dependent upon the earth for production. Money—be it gold, silver or paper—comes out of the earth, as do diamonds, rubies and other precious stones of commercial value.

It is, therefore, important that men think and think seriously of the soil.

The L. & N. realizes that Alabama is an empire within herself; that her soil is productive of almost every known article of food and clothing. That is why we are thinking hard of the soil of Alabama, and that is why we are trying to get others within and without the borders of the state to think of the soil of Alabama.

Practically one-fourth of L. & N. mileage is within the state of Alabama. The growth of the L. & N. and the growth of the state are interdependent. We are spending time and money and energy, plan, thought, in an effort to build up the state so that we can build up the L. & N.

We ask the people to think, and urge them to think along co-operative, constructive lines. We ask them to remember that the welfare of the L. & N. and its ability to continue its constructive work are dependent upon them.

We have faith in the people, and believe that, once they have a full understanding of the situation, the march of progress will be rapid and sustained.

LOUISVILLE & NASHVILLA

Personal Appearance is a Personal Asset

LOOK PROSPEROUS——GAIN STATION!

THE old saying that a "Man is known by the clothes he wears" may be obsolete. In fact Bobby Burns said

"A Man's a Man For All O' That."

But somehow the world doesn't look at it that way.

You've Got to Dress to Dance, You Must Dance to Borrow Money, You Ought to Dress Anyway for Your Own Sake.

¶We are moving heaven and earth to clothe Clanton and the country side. Realizing our responsibility we bought largely of the best manufacturers. We bought so that we could sell closely and dress our customers fashionably at the least cost.

Suits, Trousers, Coats, Hats, Shoes, Underwear, Shirts, Collars, Socks, Cravats, Handkerchiefs, Gloves.

We are moving these goods at phenominal prices—prices that would astonish the WHOLESALER and make him scared.

It's Up to You to Get Yourself Rigged Out In Togs That Tell.

THRILLING STORY TOLD OF BURNING OF SHIP, VOLTURNO, BY A SURVIVOR

LATEST ACCOUNTS CONFIRM LOSS OF LIFE ON THE VOLTURNO LIMITED TO 136—TERRIBLE PICTURE OF HORROR.

SURVIVOR SWIMS THROUGH RAGING SEAS TO CUNARDER

German Declares Majority of the Crew Sought Lifeboats. Forty of the Lost Were in Two Lifeboats Which Were Swamped.

London.—The latest accounts of the disaster to the steamship Volturno, burned and abandoned in mid-ocean October 10, confirm that the loss of life will be limited to about 136. The Carmania, first of the rescuing ships to reach the burning steamer, arrived off Queenstown, but, owing to the gale, proceeded direct to Fishguard.

A graphic story by the solitary survivor aboard the Carmania was received by wireless and presents a terrible picture of the horror, the panic and confusion aboard the burning liner. Walter Trintepohl, a German, who tells the story, however, is clearly suffering from the stress of illness and his awful experiences and his story is too incoherent to be accepted in every detail.

Most important, if true, is his denial that two boats got away from the Volturno. According to otheer accounts, Captain Inch was the last to leave his vessel, which was still burning late in the night and was a danger to navigation.

Forty of the 136 persons lost from the steamship Volturno in mid-Atlantic were in the two boats which succeeded in getting away from the burning vessel and which were without doubt swamped. The majority of the other persons who lost their lives were in four other boats which were smashed against the steamer's sides in attempts to launch them.

All this occurred before the arrival of the Carmania and the other liners summoned by wireless calls for help. The Carmania, with one lone survivor of the Volturno aboard, found it too rough to stop at Queenstown and proceeded direct to Fishguard. From that survivor, however, comes a thrilling story of the burning of the steamer, of the terror, the struggle for the boats, the death of those who went over the sides and his own desperate fight for life.

Arthur Spurgeon, a passenger on the Carmania, in a wireless dispatch supplements his own description of the race of the Carmania to the burning vessel. Volturno by the story told him by the survivor, Walter Trintepohl, a German, who swam to the Carmania and was rescued in an exhausted condition.

Since being taken aboard the Carmania Trintepohl has been in the ship's hospital threatened with pneumonia. He told his story to Mr. Spurgeon before he became seriously ill, but owing to his exhausted state and his broken English, his account of the disaster was somewhat incoherent.

Trintepohl had been employed at Barcelona and took third class passage on the Volturni to secure a position offered him in New York.

"All went well," said Trintepohl, "until 6 o'clock on the morning of October 9, when the fire alarm sounded. We were aroused and told to go on deck, as fire had broken out in the hold. On assembling lifebelts were handed around and much time was occupied in fastening them. We were told that the fire might soon be quenched, but the captain thought it wise for all to have belts as a precaution.

"The fire frightened the children, who cried bitterly. There were many babies in arms. The fire grew worse. We saw things blazing down below. About 10 o'clock there was a cry to lower the boats.

"The captain behaved splendidly. So did the officers, who were English. I am sorry to say that the crew, who were Germans and Belgians, behaved very badly. The people rushed about wildly and the crew seemed to think they ought to have first place and instead of quieting the passengers they made the panic worse.

"The first officer took charge of the first boat, but although he wanted the women and children saved first, a majority of those who entered the boat were members of the crew.

"This boat was smashed against the ships side. Just as it reached the water it broke in two and all in it were drowned.

"Meanwhile, attempts were made to lower the second boat. I cannot say who was in charge of this, but I do know that after the chief steward had thrown provisions in he jumped himself. There were more men than women and children in this boat, which did not go down, for it was broken against the ship and all were drowned.

"These two boats were amidships. Three other boats were put out after. The fourth officer was in one of them, but I cannot say which one. All was confusion. The ropes broke and the occupants were thrown into the water and drowned or killed. When the captain saw what had happened he cut the tackle of the other boats so that they could not be launched.

"We were so glad when we saw the Carmania come, for we said, 'Now we shall all be saved.'

"The firemen rushed up from below and refused to go back. The captain drew his revolver and drove them below, but soon after as the fire was spreading, they were obliged to abandon the engines.

"As soon as the Carmania was sighted the captain made all the women and children go to one side and the men to the other side. He had been compelled to leave the bridge and go aft because it was too hot. Women wept, shrieked, laughed and became hysterical.

"We had not thought of food, but in the afternoon we considered it better to get something and went to the kitchens, which we found deserted, made coffee and helped ourselves to biscuit and beef. But most of the passengers refused to eat.

"We saw rafts sent from the Carmania, but nobody told us to jump in. In fact, we knew not what they were there for. About 6 o'clock the decks aft began to get very warm, then hotter and hotter. But we did not seem to feel the heat."

When shown his boot with the sole half burned through Trintepohl said:

"I don't remember this, but it was awful when the flames burst out. Some of the men and women tore their hair, but others were quite still.

"After the explosion I thought it better to jump, for I am a good swimmer, and an English passenger and one of the crew said they would accompany me. I jumped first; they followed, but I never saw them again.

"I made for the German ship, but they did not hear me. Then I came toward the Carmania and shouted 'Help, help,' and was saved by the said of the searchlight. I was about an hour in the sea and became half unconscious. I know not how I was got out.

"During the day five sailors and one steward fell into the fire and were burned to death.

"I know nothing more. I came away because it was too hot to stay any longer, and I feared the whole ship would blow up."

When Trintepohl was told that according to the captain's wireless message six boats had been launched and two got away, he said:

"It is not so; I was there all the time and saw everything. No boat got away."

Mr. Spurgeon in his own account tells of the attempts t oget lifeboats alongside the Volturno.

"Nothing," he said, "was seen of the two boats launched with about 20 passengers each after they left the Volturno's side. Four others were smashed aaginst the ship's side and the occupants either killed or drowned.

"At 8 o'clock Thursday night the captain of the Volturno sent a despairing message which read: 'For God's sake, help us or we perish.'

"By a miracle the flames did not spread to the after deck. Eventually the seas moderated and boats saved 521 persons. The death roll numbers 136."

The wireless operator aboard the Carmania sends the following message:

"Two boats were lowered from the Volturno before the Carmania arrived and 19 passengers were kept. Disembarkation commenced before daylight. The total number lost is 136, as far as known."

A wireless message from the captain of the Devonian, one of the rescuing steamers, said he had 521 survivors aboard, comprising 19 men, 39 women and 41 children, all well.

ALL COUNTIES WILL BE REPRESENTED

ALABAMA FARM DEMONSTRATION AGENTS WILL MEET AT AUBURN NOVEMBER 18-20.

MAY BE FORCED TO DISBAND

Lack of Sufficient Financial Support Is Given as Reason for Action of Second Regiment Band.

Montgomery. — Representatives of every county and district in Alabama will attend the annual meeting of the Alabama Farm Demonstration Agents, which will be held in Auburn, Nov. 18-20, the program of which meeting was announced. The program, which is being mailed to the agents, shows a large array of speakers who are experts in farming, stock raising, health and almost any line of interest to farmers.

Among those who will be heard during the meeting are Bradford Knapp, head of the work at Washington; H. E. Savely, field agent of the department; B. L. Moss, state agent; Dr. C. C. Thach, president of the Alabama Polytechnic Institute; Dr. J. W. Kiernan of Nashville; Dr. C. A. Cary of Auburn; Dr. I. S. McAdory of Auburn; Prof. J. F. Duggar of Auburn; Dr. C. W. Stiles of the United States health service at Washington; Dr. W. H. Sanders, state health officer; Dr. J. Frazer Orr of the Rockefeller hookworm commission; Dr. W. E. Hinds of Auburn; Dr. F. A. Wolf of Auburn; Capt. R. F. Kolb, commissioner of agriculture; Mrs. B. I. Robnison, president of the Girls' Tomato Clubs; Prof. L. N. Duncan, of Auburn; Prof. J. B. Hobdy of Auburn, and others.

Eufaula. — On account of financial straits, the 2nd Regiment Band, of this city, which has earned for itself boat at state and national encampments the reputation of being the "best National Guard band" in the South, may be disbanded, much to the regret of the city and of the 2nd regiment at large. The band is supported by both state and city appropriations, but these are not sufficient to meet the expenses of a director, who is maintained here, as well a sother expenses for music, etc. The band was promised the support of a number of business men, but even this is not meeting expectations, and unless something is done at once, the band will be disorganized.

LIBRARY FUND FIXED.

Each County Will Get the Sum of $184.92.

Montgomery. — Alabama's library fund for the present fiscal year is $12,390. Each county will get $184.92. The apportionment has just been made by the department of education.

The library fund was created by the legislature in 1911 for libraries in rural, town and village schools. Under the law, each county is due $100 annually, provided its schools meet the provisions for procuring the fund. If any of the fund is left over one year it is added to the next year's fund and that accounts for the fund having increased.

Each town or school district may collect $10 from the state provided its citizens give $10 and the county commissioners $10.

WEEVIL IN TUSCALOOSA.

Experts State No Damage Done This Year.

Tuscaloosa. — The boll weevil has appeared in Tuscaloosa county, information to this affect having been telephoned to Tuscaloosa by Farley Maxwell, one of the leading farmers of the county, from his plantation near Phifer. It was reported that the weevils were there in considerable numbers, but according to statements of experts here no damage will be done by the insects this year. It is also reported that if an early crop is made next year, only slight damage will result, but unless measures are taken to check the weevil the crop of the following year will be practically destroyed.

Mosely is Appointed.

Montgomery. — C. C. Mosely, superintendent of the city schools at Camp Hill, has been appointed superintendent of education of Tallapoosa county by H. J. Willingham, state superintendent of education. Mr. Willingham went to Tallapoosa county and personally looked over the field. He selected Mr. Mosely after conferring with leading citizens of Tallapoosa county. There were seven applicants for the place, but none of them were chosen by Mr. Willingham. Mr. Mosely was not an applicant.

Big Increase in Building.

Gadsden. — A substantial increase in building permits during the year ending October 1 is reported by City Engineer C. L. Marsh. Permits were issued for $115,009 worth of buildings and improvements. The total amount for stores was $34,000. The total revenue for building permits was $1,711.25, compared with $475.75 for the preceding year. Buildings other than stores and residences approved during the year were the Federal building, several churches, the Gadsden Hotel, etc.

ORDERS CONVICTS REMOVED

Cruelty to Convicts at Huxford-Orvin Camp Furnishes Ground for O'Neal's Order.

Montgomery.—Upon the recommendation of the board of inspectors of convicts, Governor O'Neal has ordered that the contracts between Mobile and Baldwin counties and the Huxford-Orvin Naval Stores Company, in Escambia county, for the employment of convicts, be at once annulled and cancelled, and that all convicts be removed from the Huxford-Orvin camp at once. Telegrams directing the cancellation of convict contracts with the Huxford-Orvin Company were sent to Judge of Probate Price Williams of Mobile county and Probate Judge J. H. H. Smith of Baldwin county. Cruelty to convicts furnished ground for the governor's order.

Governor O'Neal took this action following the return of the special commission whom he selected to investigate charges of cruelty to convicts at the Huxford-Orvin camp. The commission was composed of Dr. William H. Oates, state prison inspector; Dr. J. M. Austin and Len F. Greer of the state board of convict inspectors, and T. Howard Seay of the attorney-general's department. The commission has not yet filed its report with the governor, owing to the voluminous mass of testimony taken in the investigation, but the situation is understood to have been so serious as to warrant immediate action, and as a result Governor O'Neal notified the office to have the convicts immediately removed.

It is known that the commission found that practically every charge which had been preferred against the Huxford-Orvin Naval Stores Company was true. The convicts told the comsion stories of inhuman treatment, stories which they had not dared to tell investigators on previous occasions owing to fear. It is declared that the convicts were kept in constant fear of the lash; that many of them were driven to work at the point of the gun, and that their lives were threatened if they should report to the authorities conditions which obtained at the camp.

APPORTION SCHOOL FUND.

Per Capita Appropriation For Fiscal Year Is $2.84.

Montgomery.—The public schools of Alabama will receive for the year 1913-1914 the sum of $2,064,571.12, according to an announcement made by Superintendent of Education Henry J. Willingham. Earlier in the day Mr. Willingham had received a letter from State Auditor C. Brooks Smith setting for the amount of money which had been placed to the credit of the educational fund, and shortly thereafter the superintendent of education apportioned the fund among the various counties of the state.

The per capita for the ensuing year is $2.84, or 15 cents in excess of the per capita for 1912.

The apportionment among the various counties is as follows:

Autauga, $19,025.16; Baldwin, $18,303.80; Barbour, $32,106.20; Bibb, $21,876.52; Blount, $22,893.24; Bullock, $34,145.32; Butler, $33,651.16; Calhoun, $38,751.80; Chambers, $35,656.20; Cherokee, $18,224.28; Chilton, $20,856.96; Choctaw, $20,487.76; Clarke, $30,618.04; Clay, $19,763.56; Cleburne, $12,666.40; Coffee, $27,963.32; Colbert, $27,317.96; Conecuh, $20,993.28; Coosa, $16,619.63; Covington, $28,283.56; Crenshaw, $20,746.20; Cullman, $27,505.40; Dale, $21,623.76; Dallas, $54,459.84; DeKalb, $26,943.08; Elmore, $27,625.24; Escambia, $19,837.40; Etowah, $33,935.16; Fayette, $14,995.20; Franklin, $17,932.16; Geneva, $26,119.48; Greene, $20,309.36; Hale, $28,691.68; Henry, $19,536.50; Houston, $30,138.00; Jackson, $29,233.06; Jefferson, $203,707.52; Lamar, $16,364.08; Lauderdale, $29,794.44; Lawrence, $20,195.01; Lee, $32,154.48; Limestone, $25, 517.40; Lowndes, $36,130.48; Macon, $25,619.64; Madison, $42,040.52; Marengo, $37,086.47; Marion, $17,542.68; Marshall, $29,615.52; Mobile, $61,255.96; Monroe, $35,906.48; Montgomery, $33,058.64; Morgan, $30,138.08; Perry, $32,700.00; Pickens, $25,687.80; Pike, $31,515.48; Randolph, $28,875.88; Russell, $29,720.60; Shelby, $24,100.24; St. Clair, $21,371.00; Sumter, $34,804.20; Talladega, $36,161.72; Tallapoosa, $33,690.92; Tuscaloosa, $41,893.77; Walker, $33,256.72; Washington, $13,132.16; Wilcox, $35,603.24; Winston, $12,864.32; total, $2,064,571.12.

CORN CLUB DAY NOVEMBER 14.

Supt. Willingham to Issue Circular to Schools.

Montgomery.—A circular will be issued by Superintendent of Education Henry J. Willingham designating Friday, November 14, from 2 to 4 p. m., as corn club day in the public schools of Alabama. It will be the policy to have this day observed every year on the second Friday in November.

Girl Makes Cotton Record.

Anniston. — M. J. Stephens, a well-known citizen, prominent in education and farming affairs of Boaz (who was in Anniston recently, told of a cotton record made by Miss Arden McCullers, aged 10. Her father, J. D. McCullers, gave her an acre of land and on this she has already raised a bale of cotton weighing 480 pounds, classed by the ginner. This is all the cotton she has ever had but she is going to have more next year.

DON'T WALK ON RAILROAD

More Than Half Fatalities on Railroads Caused by Using Track for Walkway.

Atlanta, Georgia. — "He was in the habit of walking home nights along the railroad tracks," says a newspaper account of the death of a minister of the Gospel, who was recently killed by a freight train near a Georgia city. A college graduate, a man far above the average in intelligence, and a useful citizen, yet this man by his daily habits, formed probably because the railroad track offered smoother walking than the public road, did nothing less than invite the fate which finally overtook him.

Commenting on this dangerous practice the Atlanta Journal says editorially:

The loss of fourteen lives in a wreck would loom forth as a national horror; yet statistics show that there is an average of fourteen deaths every day caused by the dangerous custom of walking on railroad tracks or otherwise trespassing on such property. It is estimated, indeed, that in this manner occur more than half the fatalities incident to railroads in the United States; and the majority of the persons thus killed are not tramps, but children and valued citizens.

The time has come when the public should take serious note of this record with its grim warning to all who are accustomed to use railroad tracks as a common highway. The transportation companies are exerting themselves to end this peril and the Interstate Commerce Commission has spoken to the same purpose. After all, however, it is upon the individual that responsibility must rest; it is popular sentiment and popular judgment that must correct this evil. Five thousand lives a year is a terrible sacrifice to carelessness. It can be reduced and prevented only through individual recognition of the great risk in walking on a railroad track.

This matter should now be of peculiar concern to the South, where railway traffic is fast increasing. In Georgia and neighbor states many more trains are in operation today than ten or even five years ago, and their number is continually multiplying. The danger to pedestrians who venture on the tracks is accordingly more and more serious. It is far better to stick to the muddiest highway or the roughest woodland path than to take the deadly chance of following a railroad track simply because the latter affords easier walking.

Much emphasis is now laid on the need of greater caution in the traffic of crowded cities, but it is scarcely less important to remember that in rural districts and in the open country there lies a constant jeopardy of life to everyone who walks on a railroad track.

MISSISSIPPI-ALABAMA FAIR

Grand Pageant of Sowashee's Dream Will Be Big Feature.

Meridian, Mississippi — The details of the grand pageant of Sowashee's Dream which will be presented on the streets of Meridian on Tuesday night, October 21st, have been completed and it is announced that there will be 21 floats, each drawn by four horses and that one hundred of the fairest daughters of Meridian will appear in the pageant. There will be four bands of music and two companies of U. S. soldiers will come from Ft. Morgan, Ala., to escort the parade.

The Boy Scouts of Meridian will operate a Scouts' lodging house during the fair for the convenience of men who are visiting the fair and who desire clean, comfortable lodgings at a reasonable price. The Scouts will patrol the streets until time to turn in and strangers are invited to "ask the Scouts" if they want lodging.

President Finley of the Southern railway will make the opening address at the third annual Mississippi-Alabama Fair which opens in Meridian on Oct. 20th. President Finley has watched the growth and progress of his enterprise designed to promote the development of East Mississippi and West Alabama, and is ever ready to do whatever is possible to extend its influence.

Twenty-five thousand school tickets have been sent out to 500 schools in Mississippi and Alabama which will admit the student of any educational institution of either state to visit the fair on school day, Oct. 21st, for the small sum of ten cents.

SPARKS FROM THE WIRES

Seattle, Wash. — Commissioner of health has ordered the demolition of a two-story wooden structure on the water front believed to be infected with bubonic plague through the discovery of a rat.

Savannah, Ga. — All of the officers of the Central of Georgia were re-elected at a meeting of the stockholders here. Charles H. Markham of Chicago is president of the corporation.

New York. — John Purroy Mitchell, fusionist candidate for mayor of New York, has tendered his resignation as collector of the port of New York, to which position he was appointed early last summer by President Wilson.

Baltimore. — Dr. Robert Stuart MacArthur, president of the Baptist World Alliance, has been called to the pastorate of the First Baptist church of this city. It is said Dr. MacArthur has accepted that by would accept.

UNDERWOOD AND HOBSON IN TILT

LATTER CALLS DEMOCRATIC LEADER "TOOL OF WALL ST. AND LIQUOR INTERESTS."

PROOF OF CHARGES ASKED

Hobson Alleges Underwood Had His Support Under False Pretenses.

Washington.—Congressman Hobson launched a hot attack against the senatorial campaign of Democratic Leader Underwood in the House when he charged that his support of Underwood's presidential candidacy at the Baltimore Convention was obtained under "false pretenses."

Hobson, himself a candidate in the present Alabama contest, referred to printed reports of a recent speech in which he charged "Underwood was the tool of Wall Street and the liquor interests."

He read from the Senate investigation of campaign contributions the testimony of Senator Bankhead, containing the record of a contribution of $35,000 from Thomas Fortune Ryan, and the statement of Mr. Bankhead that Mr. Underwood had not known who financed his campaign.

When Mr. Underwood arose to answer Hobson there was an uproar of applause on the Democratic side of the hall and the applause both on the floor and in the galleries was so loud and long that it was several minutes before the distinguished Democratic leader could proceed.

Mr. Underwood questioned Captain Hobson with great deliberation about his Wetumpka speech, in which the latter had charged that he (Underwood) was the tool of the Wall Street and the liquor interests, and after that part of the contention was about ended, Mr. Underwood challenged any man or men to find a blot on his public or private record. This produced thunderous applause both on the floor and in the galleries.

EUROPEAN POWERS CONCERNED

Evident That Provisional President Huerta Is Unable to Control Situation.

Washington.—Germany's decision to dispatch a warship to Mexican waters attracted wide attention in official circles here. No intimation had been received here of Germany's intention and President Wilson was informed only by press dispatches of the action.

No formal comment was made on the incident, but it was apparent that the Washington government was not displeased. The sending of a German warship is in line with the policy of other European governments which had vessels cruising off the Mexican coasts from time to time during critical moments of Mexico's internal strife.

Significance was attached to the action by official Washington, however, because it was accepted as indicating that European powers who previously had recognized the Huerta government, among which were Germany and Great Britain, how saw evidences of Huerta's inability to control the situation.

PROUTY TO RETIRE.

Leaves Commerce Body to Take Charge of Physical Valuation of Railroads.

Washington.—Charles A. Prouty will retire as a member of the Interstate Commerce Commission in the near future, to become director of the physical valuation of railroad companies. Commissioner Prouty has been a Commissioner since December, 1896, when he was appointed by President Cleveland and since has served continuously.

Georgia Girl Found Dead.

Thomasville, Ga.—A pistol on the floor nearby with one chamber empty furnishes the only clue to the death of Miss Dorothy Naug, a young woman found dead in her room in a hotel here. Her skull had been crushed in. The young woman's mother found the body soon after she heard a pistol shot.

J. R. Parrott Dead.

Oxford, Me.—J. R. Parrott, president of the Florida East Coast Railroad, died at his summer camp here of angina pectoris. The end came suddenly. During the day Mr. Parrott was apparently in normal health.

Aviator Committed Suicide in Air.

Oran, Algeria.—One of the most dramatic cases of suicide on record came to light here at the inquest into the death of Justin Soulbeilland, a military aviator. The evidence showed that Soulbeilland, after ascending 3,600 feet in his monoplane, killed himself.

Earthquakes Destroy Japanese Village.

Tokio.—Earthquake tremors continue. Thirty-two have been recorded by the Kobe Meteorological Station.

WILSON DYNAMITES LAST PANAMA DAM

PRESIDENT PUSHES BUTTON AND DIKE, 4,000 MILES AWAY, IS DEMOLISHED.

THOUSANDS SEE EXPLOSION

Only a Little Work Now Remains Before Waters of Atlantic and Pacific Are United.

Panama.—The Gamboa dike, the last artificial barrier to actual communication between the Atlantic and Pacific oceans by way of the Panama canal, was rent in twain by the hand of President Woodrow Wilson. Between three thousand and four thousand persons from Panama and Colon cities and various sections of the Canal Zone journeyed to the scene to witness the demolition of the barrier, and while the event of destroying the dike was spectacular to a degree and successful in its every detail, some disappointment was evinced because the entire dike was not destroyed.

Utter demolition was not carried out because of the fear that the concussion might damage the railroad trestle crossing the cut near San Miguel locks. The two remaining sections will be dynamited at some future date. The spectators lined the banks of the cut outside the danger zone, occupying every available vantage point. As the hour approached when the event was to happen, expectancy fell over all. When the minute hand of watches passed the hour of two o'clock the suspense became still greater and the ensuing two minutes seemed like as many hours.

Then suddenly came the muffled roar of the discharge of 1,600 pounds of dynamite which sent a shower of water and rock high into the air, spreading out as it went upward, the whole heavily veiled in a cloud of smoke. It was considered among local dynamite experts as a remarkably clean explosion. A section of the dike sixty feet wide was lifted bodily from its bed and its component parts scattered far and wide.

As water began to pour through the rent made by the explosion whistles were tied down and the crowd sent up a great cheer. Not an obstruction was left in the opening except some iron pipes which stuck up here and there.

There was only one accident, a woman spectator was struck on the head by a rock which was dislodged by others from the hillside where she was watching the explosion. Her injury is not serious. All the heads of the canal departments were present for the epoch-making event, as also were all the members of the cabinet of President Perras.

TROOPS DESERT GENERALS

Soldiers Under General Aubert and General Alivrez Flee at Danger.

Mexico City.—The failure of General Trucy Aubert to get to the city of Torreon in time to relieve it—a mission upon which he set out from Sultillo nearly a month ago with a large force of Federal troops—is explained by the fact that the greater part of his 2,000 men deserted him before he had completed half of his journey.

He had reached Madero, 25 miles east of Torreon, when news of the evacuation of the city reached him. As soon as the vanguard of the retreating Federal troops came into view General Aubert's men fled with all their arms and ammunition.

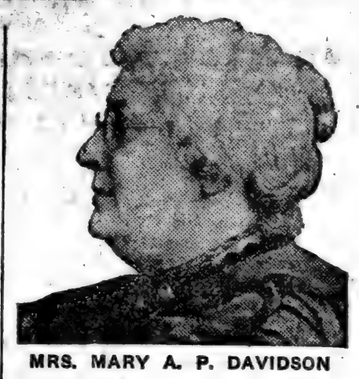
General Alvirez, who started with 1,000 men, two siege guns and a number of pieces of light artillery to retake the city of Durango from the rebels and whose defeat caused the evacuation of Torreon, fell into an ambuscade at La Loma, 30 miles to the southwest of Torreon. Relying on information that the rebels had left the vicinity, he moved forward. Suddenly he found both his advance and his retreat cut off in a canyon by heavy forces of rebels, who poured in a sharp fire from both sides of the pass. General Alvirez made a stout resistance and managed to get word back to Torreon asking for reinforcements.

Crew of Schooner Rescued.

Norfolk, Va. — The British steamship Kilnsea, Captain Husband, from Galveston, Texas, to Hamburg, via Norfolk, landed here the master and ten members of the crew of the four-masted schooner John Twohy of Boston, from Jacksonville, Fla., to New York, lumber laden. The Kilnsea discovered the Twohy in distress sixty miles south of Fryin Pan Shoals October 7. A first effort to take the Twohy's crew from the schooner failed, and one man from the Kilnsea was rescued after being thrown in the sea.

State Branches Urged.

Washington.—Active efforts to establish state branches of the National Conservation Congress, and to make the next meeting to be held in November in Washington, the biggest in the history of the congress, are being undertaken. There is already a state conservation society in Oregon, and also in all of the states in the Pacific northwest. Plans for the organization of the other states are now under way.



Old People Need A Bowel Stimulant

The Ideal One Is a Mild Laxative-Tonic That Will Keep the Bowels Gently Active.

Healthy old age is so absolutely dependent upon the condition of the bowels that great care should be taken to see that they act regularly. The fact is that as age advances the stomach muscles become weak and inactive and the liver does not store up the juices that are necessary to prompt digestion.

Some help can be obtained by eating easily digested foods and by plenty of exercise, but this latter is irksome to most elderly people. One thing is certain, that a state of constipation should always be avoided, as it is dangerous to life and health. The best plan is to take a mild laxative as often as is deemed necessary. But with equal certainty it is suggested that cathartics, purgatives, physics, salts and pills be avoided, as they do but temporary good and are so harsh as to be a shock to a delicate system.

A much better plan and one that thousands of elderly people are following, is to take a gentle laxative-tonic like Dr. Caldwell's Syrup Pepsin, which acts as nearly like nature as is possible. In fact, the tendency of this remedy is to strengthen the stomach and bowel muscles and so train them to act naturally again, when medicines of all kinds can usually be dispensed with. This is the opinion of many people of different ages, among them Mrs. Mary A. P. Davidson of University Mound Home, San Francisco, Cal. She is 78 and because of her sedentary habits

MRS. MARY A. P. DAVIDSON

had continual bowel trouble. From the day she began taking Dr. Caldwell's Syrup Pepsin she has had no further inconvenience and naturally she is glad to say kind things of this remedy.

A bottle can be bought of any druggist at fifty cents or one dollar. People usually buy the fifty cent size first, and then, having convinced themselves of its merits, they buy the dollar size, which is more economical. Results are always guaranteed or money will be refunded. Elderly persons of both sexes can follow these suggestions with every assurance of good results.

Families wishing to try a free sample bottle can obtain it postpaid by addressing Dr. W. B. Caldwell, 419 Washington St., Monticello, Ill. A postal card with your name and address on it will do.

WINCHESTER

BIG GAME CARTRIDGES

The time of all others when reliable cartridges are invaluable is in big-game hunting. A miss-fire, an inaccurate cartridge, or one having poor penetration may mean the loss of a coveted trophy or even injury to the hunter. Winchester, the W brand of cartridges, smokeless or black powder, can always be relied on to be sure fire, accurate, and to have speed and penetration. You can help

MAKE YOUR HUNT A SUCCESS BY USING THEM.

No man likes to hear a woman praise some other man.

"Did you attend that terrible play?"

"I did?"

"And was it as immoral as you had been led to hope?"

Why Old Backs Ache

What a pity that so many persons past middle age are worried with lame backs, aching kidneys, poor eyesight, sick headache, dizziness, gravel, dropsy or distressing urinary ills. Kidney weakness brings these discomforts in youth or age and is a dangerous thing to neglect, for it leads to Bright's disease and uric acid poisoning. Doan's Kidney Pills have brought new strength to thousands of lame backs—have rid thousands of annoying urinary trouble.

A Kentucky Case

"Every Picture Tells a Story."

Capt. T. G. Page, Washington St., Glasgow, Ky., says: "I was hardly able to stoop or lift on account of the pains in my back. It was hard for me to straighten. I couldn't get a good night's rest and I had many other kidney ailments. Doan's Kidney Pills drove away the backache as soon as I used them and strengthened my kidneys. I seldom have any kidney trouble now."

Tutt's Pills

Dr. R. A. Armistead's Ague Tonic

has become famous as a general tonic as well as a most effective cure for chills and malarial fever. Too many people allow themselves to get run down and in a very weakened condition, so that they are easy victims for any disease to attack. When you first begin to feel poorly, and, perhaps, become nervous and irritable, if you would take some good general tonic, a very serious illness could probably be warded off.

For this purpose there is nothing on the market equal to Dr. R. A. ARMISTEAD'S AGUE TONIC, which is perfectly harmless and contains those ingredients which tone the entire system, make the food assimilate properly and build up the worn tissues.

No home is complete without a bottle of this wonderful tonic. Perfectly harmless. Children like the taste of it and it is no trouble to give it to them.

50c and $1.00 bottles

EXTRA! AN UNUSUAL INVENTION

I have discovered a way by which fuel can be manufactured with a very little expense and yet it is much better than the regular coal. I had the invention patented, and it is listed under No. 890196. The fuel can be made by everyone, and one person can make several tons of it in one day without any machinery. I will impart to you the secret ABSOLUTELY FREE, providing that you will do something in return for me which will also be of benefit to you. Write for information enclosing a 2c stamp for reply.

CHILTON COUNTY FAIR

CLANTON, ALA., Oct. 20 to 25

Prizes offered on everything in the home or on the farm, including

Boys' Corn Club, Girls' Tomato Club, Boys' Pig Club, Swine, Cattle, Sheep, Poultry, and All Kinds of Woman's Work, Including Art, Needle ork and Children's Work of All Kinds

All exhibits, except milk cows, will be required to be on the grounds all during the Fair. Milk cows will only be required to be there on Friday, October 24th. On this day they will be judged and can be returned home that night. This is done for the convenience of the owners. While we would be glad to have them all the time, it is not required to compete for a prize with the milk cows. All other animal exhibits of whatever description will be required to be there all the time.

We have secured TWO FINE FREE ACTS to be on the ground each day, therefore you may rest assured that there will be something interesting each day and each hour.

The judges for each deprtment will be announced in the next week or so.

BRING SOMETHING TO THE FAIR AND LET US MAKE IT THE BEST FAIR IN THE STATE

aited. dering prizes will be paid at the Fair grounds on the last day of the Fair, in time for all exhibits to be carried home that night.

Chilton County Fair Association

SALEM

There will be an all-day singing at Salem the fourth Sunday in October, 1913, which will be the 26th. Everybody is invited to come and bring your books and well filled baskets. The books to be used are "New Songs" and "Hymns and Lyrics of Praise."

A Marvelous Escape.

"My little boy had a marvelous escape," writes P. F. Bastiams of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger." Sold by Alred Drug Co.

OATS

Every farmer, no matter how much corn he may have in his crib, and no matter how urgent may be the other concerns which press upon him for consideration, should now turn his attention to sowing oats and other small grain. The profits of any business are found in the extra efforts put forth after the bare success of the ordinary efforts are assured.

No amount of dry feed can take the place of green pasture during winter and spring. It puts the muscular system of all farm animals into an elastic and lively state, which corresponds to the gloss with which it adorns their hair. A winter spent in grazing a succulent growth of oats, wheat, rye, or even barley not only saves feed, but enables the comparatively small quantity of feed consumed to maintain the animals in better condition, and at the same time brings benefits which are permanent, and which add to the health and efficiency of the animals throughout the subsequent months of the year. Horses and mules are often dull and off therir feed in springtime because they have been kept fat during the cold season on carbo-hydrates, which build up energy at the expense of muscle. If hairy vetch, or winter peas, as it has been properly called, is sown with the small grain, the value of the grazing is greatly increased, as it becomes more grateful to the palate as well as more nutricious and strength-giving in its influence. It greatly promotes the flow of milk in cows, and gives a rich color to the butter.

No animals are benefitted by such grazing more than hogs, and they may be allowed to continue on these grain fields until the harvest, if there is not more than one grown hog to the acre. If allowed to run on it at will, and to keep themselves full, they will not root it up, or mash it down, and their presence will benefit it, far beyond the damage they do, by thinning it out as they eat.

But aside from its value as a pasture, and finally as a forage crop, the fall sowing is worth all it costs as a soil saver. The most unobservant among us can see that the roots hold together the soil in the presence of the flood water which sweeps over the surface during the winter rains, but, there is another benefit which is not so obvious. A large portion of this water is absorbed by the land just where it falls, and one of the great advantages of fall plowing is that it promotes this absorption, and thus stores the soil with with moisture for the crops to draw from during the following summer.

Some small amount of this rain water will soak into lands that have not been freshly broken, but it will pass down through the capillary spaces and wash out the plant food. This is the reason why commercial fertilizer left in the soil by this year's crops do so little good the coming year. It is leached out like lye from ashes in the old-time ash-hopper. But if the soil has been loosened by the plow, and especially if it is filled with the rootlets of winter-growing plants, there are other spaces or pores through which the water may perculate without passing through the soil-grains themselves, where the capillaries hold the fertilizing elements, dissolved in the moisture films. If you have a favorite piece of land that you are "petting" and bringing up to the highest state of cultivation and fertility, it will pay to plant it in rye to be turned under [illegible] to plant next year's cotton. [illegible] putting on to the plant-food already in the soil, it will [illegible] ply humus, and add greatly to next year's production. We have tried it.

All small grain that is intended to be harvested and fed in the straw; should be mixed with hairy vetch. As has already been said, this is really a winter pea, which makes a hay fully equal to that produced from the ordinary field pea, and enriches the land, through the agency of a nitrogen-gathering bacteria, which inhabits the nodules formed on the roots of the plant, as in the case of the ordinary field pea. The seed mixture should consist of a bushel and a half of oats to ten pounds of vetch per acre. The vetch cannot be planted alone, for the reason that it trails on the ground, where the pea-pods are easily rotted. The oats serve to hold it up, while its rank growth fills all the space intervening between the oat-stalks and towers above them, so as to wrap the field in a tangled mass of precious forage, to a depth of from four to six feet. At harvest time the mixed crop is mowed about as easily as would be a crop of oats alone, and yields many times the quantity of a feed which possesses a far more nutricious quality. This mixed forage, fed with a small quantity of corn—say one third the amount usually fed—gives a balanced ration which makes the muscular strength and the nervous energy of your animals exactly equal. We have all heard it said, when a horse seemed frolicsome, and fond of exercise for exercise's sake, that "he feels his oats," but you ought to once behold a happy, playful animal which feels a mixture of oats and vetch. To such an animal and also to his owner, life is indeed worth living.

The vetch makes a growth that is much more rank than the ordinary pea-vine, but it is spindling and fragile, and hence very easy to cure, and the presence of the oat-straw mingled with it prevents it from becoming bound together in inseperable masses. The mixture is as easy to rake, and to handle as the oats alone, and it cures far easier. Vetch will make more hay than alfalfa, is fully equal to it as a feed, and besides will grow on any land that will produce cow-peas, and can be cured in any climate. It makes surprising yields on poor, thin land, and is a soil renewer of rare value. It contains more protein, and butter-fat and fertilizing materials than any other known plant. It makes from 12 to 20 tons of green forage to the acre, and yields more dry hay from green forage than any other plant. The United States Department of Agriculture estimates an acre of vetch, turned under, to be equal in value to twenty to forty dollars worth of commercial fertilizer. If the thinnest lands in Chilton County were limed, at an expense of five dollars per acre (which would be good for twenty years) and then treated with Kanit and phosphate at an expense of one dollar per acre (every year or two) these lands would make more and better feed per acre than the rich irrigated lands of New Mexico are producing in alfalfa, and in five years would be as rich in plant food for all crops as the New Mexico lands. In orchards and on waste lands, vetch will re-seed itself, and fertilze your soil while you are too busy with other things to pay it any attention. We have tried it out and know.

We regret that we could not get in this issue a very meritorious and [illegible] from Prof. J. J. Pickens. It will [illegible] until next week, but it [illegible] opposite on the subject for our [illegible] Sunday [illegible] open

"No, You are Right"

Dr. J. V. Higgins, at Clanton, did not say that he would do your Watch and Eye work cheaper than any body else, but he did say, "Taking into consideration his education, experience, tools and materials, that he would give you a **Better and a nicer job for the same money than you could get any body else to do at any price.**

Think about HIGGINS when you have a real particular job to do, and that you don't want to risk a "cheap John" with.

J. V. Higgins

"The Reliable Watch & Eye Man"

THE SCREWS MONUMENT

The movement now on foot to honor the memory of Major Wallace Screws by a monument to be erected on the Capitol grounds in Montgomery, is timely and commendable. His was a great and valiant soul which flamed forth at an epoch of stress and opportunity, to illumine the path of duty and danger. Like the plume of Navarre, his brilliant pen led where the conflict was thickest, and many a thrust aimed at our honor, or at our welfare, fell upon his burnished shield, or pierced his often bleeding heart. He loved Alabama with a devotion that was knightly, as well as fervent and true. When difficulties thickened and disappointments overwhelmed and brave hearts grew sick, because of hope long deferred, the clarion voice of his superb leadership rang in our ears like a blast of destiny, and inspired such courage as prompted a follower of Napolen to draw from his own heart the bayonet with which he transfixed the adversary who had thrust it through him. It was the trials of his position that developed his character, but the same trials developed few such men as he, for the reason that few men possess the basis for such character. Broad in his sympathies, noble in his aspirations, single in his purposes, pure in his motives, true to his friendships, unerring in his judgment of men, practical in his wisdom and possessing in a large measure a genius for government, the energy of his great character made him a great factor in the life of our state, and a permanent element in our civilization. In the day of need we looked to him and trusted in him, and now our bereaved hearts yield the tribute of sincere regret and the tear of undying affection. In common with a host of the younger men about him, we felt the impress of his personal friendship, and can testify that in the inner circle of personal contact, as in the broader field of public life, his words impelled all hearts to nobler efforts in behalf of the state he loved so well.

PEACHES IN CHILTON

Can we grow peaches successfully? Situated as we are, between Birmingham and Montgomery, both of which consume immense quantities of California fruit, we ought to rake off large profits on peaches if we can produce them.

In this section, and in all parts of the state which I have visited, since my return to it a year ago, I notice a great many dead peach trees, and it is not surprising that people have almost abandoned the hope of raising this fruit, which was once so abundant here, and so luscious in its quality. Upon close inspection, I find that, in almost every case, these trees are the victims of San Jose scale, with which I am very familiar, and which I have controlled successfully in my orchard of twenty-five acres in Texas. San Jose, California, from which place the pest gets its name, was once my home, where I was at first pastor, and afterwards presiding elder of the M. E. Church, South, with fine opportunities for observing its ravages, and also for studying the methods employed for its control. If this scale could destroy, or even permanently cripple, the peach growing industry, then surely the very spot where it first appeared on American soil, and where it has been most difficult to control, would not be leading the entire world in peach production today. It presents a difficulty to be overcome, that is all. It is not a difficulty that is insuperable. It is enough to discourage the faint-hearted, and thus to open up to the men of pluck and enterprise an exclusive field of opportunity, which promises the greatest profits. In the fruit belt of east Texas, I saw thousands of acres of peach trees cut down because they were blasted by this pest, while at the same time, and in the same section, I restored to vigorous growth and to abundant fruitfulness an orchard in which the trees had already died half way down the limbs from the tips. The truth is, that peach growing in Chilton county is one of the most inviting industries now open to those who will master the arts of grafting and spraying for San Jose scale. However, we must beware of those [illegible] which serve as mere distractions, where this pest is destroying [illegible] planted it is [illegible]

---

doomed, for its peculiar mission is to chase away the sombre clouds of apprehension and dread which hover above some heads, and to wipe the perspiration of agony from the brow of care. Our young people naturally relish what is bright and cheerful, and so it is impossible to put "old heads on young shoulders." Older people who have passed the hey-day of life sometimes imagine that their loss of interest in those things which attracted and charmed them in earlier years, is due to greater wisdom, when in point of fact, it is simply due to less vitality, and to a loosening of their grasp on life, as well as to a growing obtuseness in their perceptions. The old should be wise and not supercilious. Their counsel should guide us, and not balk our progress, or discourage our attempts to achieve better things than the past has known. No man of sound mind and healthy spirit can long for the good old days, because he has his back to the past, and his face toward the glorious opportunities that flame like a blazing sun-rise on the horizon of our future. The world moves forward, and the old people who have tried to turn back the shadow on the dial of progress, have always found themselves out of touch with their times, and have proved themselves to be just so many night-mares upon the enterprises of the vigorous and the young. Some years ago, when an abundant crop had been made, a neighbor said in a cheerful tone to one of these grouchy old men, who was always full of mutterings and complaints: "Well, Uncle Zeke, you can't find anything to find fault with this year. We have made more cotton than we can gather, our cribs won't hold the corn crop, potatoes and peas and sugar cane are all fine, grass has been good, and hence cattle are all in good flesh," etc., etc. But Uncle Zeke interrupted him in this inventory of the farmer's prosperity to say: "Yes, but a big crop like this one is going to be a great strain on the land." Let us be kind and considerate of these dear old complainers, but let us not grow small crops in order to save the strength of our land or to humor the pessimist. If Woodrow Wilson's administration has given us good prices, we will put forth all our energy in happy rejoicings, and not waste our time in dark forebodings as to future misfortunes, or paralyze our ambition by vain regrets of a past prosperity which is largely imaginary. When these old croakers say that the world is growing worse, they are really saying that they themselves have lived to no purpose, and that all their prayers have been unanswered, and their labors unblessed.

I once heard an old man say that he would give fifty dollars for a ginger cake that tasted like the cakes did when he was a boy. There has been a great change, it is true, but it is not in the flavor of ginger or other ingredients that compose the cakes. The great change which has really taken place is in the gustatory nerve of that old man who has lost his relish for life, with all its wholesome pleasures. If he was young again—that is to say, if he was a normal boy, full of vigor for the present and hope for the future—then the cake and all the other good things of life, would seem as they often did to him, and as they may do to us. Let us be good to the old people, for some of us shall be old ourselves some days, but we can only [illegible]

THE FAIR

The Chilton County Fair opened its gates Tuesday morning, and disclosed an exhibit in all departments that would have done credit to an agricultural fair in any section of our wonderful state.

The individual exhibit of Mr. S. E. Bruce and wife was very remarkable for the exceedingly large number of articles assembled together and for the superior excellence of each. Mrs. Bruce is a daughter of Mr. Willis Lowe, whose gracious hospitality and friendship is kindly remembered by the editor of this paper, who was a citizen of Chilton county thirty years ago, and who has carried through all these years the memory of the fruit drying and fruit canning habits of Mr. Lowe. His name has always been "as ointment poured forth." May we have many such homes where daughters, as well as sons, are trained to make the Chilton county farm a paradise.

The ladies department is a thing of great beauty. The flower and fern display present some rare specimens, and the ornate needle work show many painstaking hours woven into garlands of beauty. Two good specimens of the citrus ponderosa are seen. It is not generally known that for all flavoring and culinary purposes, this fruit is far superior to the ordinary lemon, and one goes as far as a dozen, because of their immense size.

The quilts were especially tasteful in design, and some were very rich in material. Several of them were made by Mrs. Jno. H. Flem[illegible] while attending her husband in the Soldiers Home at Mountain Creek. She is 70 years of age and he is 86.

There are cakes and candy galore—but "Hands off" appears everywhere. Well, it is really "disencouraging," as the little boy thought.

HOBSON-UNDERWOOD

The plot thickens in the Hobson-Underwood play, which is becoming tragic. The prospective senatorial campaign promises to parallell the fight of the Texas wild-cats. This celebrated fight took place when the old hunter, who described it, was encamped on the plains, with a party of friends. He said that two huge cats, well matched, both in size and ferocity, "fout" and squalled and squalled and fout, until at last they clim one another. They clim up and up, higher and higher, on and on, until they clim clear out of sight. We remained a stayin' thar in them air parts a'fishin' and a'huntin' for nigh on to two weeks longer, when we broke camp and moved away, the fur was still a'fallin'.

Everybody should hear Captain Hobson here next Friday, the 24. He is a stem-winder.

The optimist on the other hand is the man who, though he recognizes the presence of evil and does not underestimate its baneful influence, at the same time realizes that good largely predominates in our lives, and is destined ultimately to triumph. Men with young people are, naturally optimistic, and hence hopeful and happy without effort. This is not only sound philosophy but good religion. The man who goes around [illegible] like a [illegible] and groaning, his followers [illegible] complaints, is not a true [illegible] but the hope dawning

VOL. 1. CLANTON, ALA., THURSDAY OCTOBER 23, 1913 NO. 29

OATS

Every farmer, no matter how much corn he may have in his crib, and no matter how urgent may be the other concerns which press upon him for consideration, should now turn his attention to sowing oats and other small grain. The profits of any business are found in the extra efforts put forth after the bare success of the ordinary efforts are assured.

No amount of dry feed can take the place of green pasture during winter and spring. It puts the muscular system of all farm animals into an elastic and lively state, which corresponds to the gloss with which it adorns their hair. A winter spent in grazing a succulent growth of oats, wheat, rye, or even barley not only saves feed, but enables the comparatively small quantity of feed consumed to maintain the animals in better condition, and at the same time brings benefits which are permanent, and which add to the health and efficiency of the animals throughout the subsequent months of the year. Horses and mules are often dull and off therir feed in springtime because they have been kept fat during the cold season on carbo-hydrates, which build up energy at the expense of muscle. If hairy vetch, or winter peas, as it has been properly called, is sown with the small grain, the value of the grazing is greatly increased, as it becomes more grateful to the palate as well as more nutricious and strength-giving in its influence. It greatly promotes the flow of milk in cows, and gives a rich color to the butter.

No animals are benefitted by such grazing more than hogs, and they may be allowed to continue on these grain fields until the harvest, if there is not more than one grown hog to the acre. If allowed to run on it at will, and to keep themselves full, they will not root it up, or mash it down, and their presence will benefit it, far beyond the damage they do, by thinning it out as they eat.

But aside from its value as a pasture, and finally as a forage crop, the fall sowing is worth all it costs as a soil saver. The most unobservant among us can see that the roots hold together the soil in the presence of the flood water which sweeps over the surface during the winter rains, but, there is another benefit which is not so obvious. A large portion of this water is absorbed by the land just where it falls, and one of the great advantages of fall plowing is that it promotes this absorption, and thus stores the soil with with moisture for the crops to draw from during the following summer.

Some small amount of this rain water will soak into lands that have not been freshly broken, but it will pass down through the capillary spaces and wash out the plant food. This is the reason why commercial fertilizer left in the soil by this year's crops do so little good the coming year. It is leached out like lye from ashes in the old-time ash-hopper. But if the soil has been loosened by the plow, and especially if it is filled with the rootlets of winter-growing plants, there are other spaces or pores through which the water may percolate without passing through the soil grains themselves, where the capillaries hold the fertilizing elements, dissolved in the moisture films. If you have a favorite piece of land that you are "petting" and bringing up to the highest state of cultivation and fertility, it will pay to plant it in rye to be turned under in time to plant next year's cotton. [illegible] sticking on to the plant food already in the soil, it will [illegible] ply humus, and add greatly to next year's production. We have tried it.

All small grain that is intended to be harvested and fed in the straw; should be mixed with hairy vetch. As has already been said, this is really a winter pea, which makes a hay fully equal to that produced from the ordinary field pea, and enriches the land, through the agency of a nitrogen-gathering bacteria, which inhabits the nodules formed on the roots of the plant, as in the case of the ordinary field pea. The seed mixture should consist of a bushel and a half of oats to ten pounds of vetch per acre. The vetch cannot be planted alone, for the reason that it trails on the ground, where the pea-pods are easily rotted. The oats serve to hold it up, while its rank growth fills all the space intervening between the oat-stalks and towers above them, so as to wrap the field in a tangled mass of precious forage, to a depth of from four to six feet. At harvest time the mixed crop is mowed about as easily as would be a crop of oats alone, and yields many times the quantity of a feed which possesses a far more nutricious quality. This mixed forage, fed with a small quantity of corn—say one third the amount usually fed—gives a balanced ration which makes the muscular strength and the nervous energy of your animals exactly equal. We have all heard it said, when a horse seemed frolicsome, and fond of exercise for exercise's sake, that "he feels his oats," but you ought to once behold a happy, playful animal which feels a mixture of oats and vetch. To such an animal and also to his owner, life is indeed worth living.

The vetch makes a growth that is much more rank than the ordinary pea-vine, but it is spindling and fragile, and hence very easy to cure, and the presence of the oat-straw mingled with it prevents it from becoming bound together in inseperable masses. The mixture is as easy to rake, and to handle as the oats alone, and it cures far easier. Vetch will make more hay than alfalfa, is fully equal to it as a feed, and besides will grow on any land that will produce cow-peas, and can be cured in any climate. It makes surprising yields on poor, thin land, and is a soil renewer of rare value. It contains more protein, and butter-fat and fertilizing materials than any other known plant. It makes from 12 to 20 tons of green forage to the acre, and yields more dry hay from green forage than any other plant. The United States Department of Agriculture estimates an acre of vetch, turned under, to be equal in value to twenty to forty dollars worth of commercial fertilizer. If the thinnest lands in Chilton County were limed, at an expense of five dollars per acre (which would be good for twenty years) and then treated with Kanit and phosphate at an expense of one dollar per acre (every year or two) these lands would make more and better feed per acre than the rich irrigated lands of New Mexico are producing in alfalfa, and in five years would be as rich in plant food for all crops as the New Mexico lands. In orchards and on waste lands, vetch will re-seed itself, and fertize your soil while you are too busy with other things to pay it any attention. We have tried it out and know.

We regret that we could not get in this issue a very meritorious and a very timely article from Prof. J. J. Pickens. It will keep until next week, and we can never open on the subject of our much needed High School. If Clanton does not get this school [illegible]

"No, You are Right"

Dr. J. V. Higgins, at Clanton, did not say that he would do your Watch and Eye work cheaper than any body else, but he did say, "Taking into consideration his education, experience, tools and materials, that he would give you a **Better and a nicer job for the same money than you could get any body else to do at any price.**

Think about HIGGINS when you have a real particular job to do, and that you don't want to risk a "cheap John" with.

J. V. Higgins

"The Reliable Watch & Eye Man"

THE SCREWS MONUMENT

The movement now on foot to honor the memory of Major Wallace Screws by a monument to be erected on the Capitol grounds in Montgomery, is timely and commendable. His was a great and valiant soul which flamed forth at an epoch of stress and opportunity, to illumine the path of duty and danger. Like the plume of Navarre, his brilliant pen led where the conflict was thickest, and many a thrust aimed at our honor, or at our welfare, fell upon his burnished shield, or pierced his often bleeding heart. He loved Alabama with a devotion that was knightly, as well as fervent and true. When difficulties thickened and disappointments overwhelmed and brave hearts grew sick, because of hope long deferred, the clarion voice of his superb leadership rang in our ears like a blast of destiny, and inspired such courage as prompted a follower of Napolen to draw from his own heart the bayonet with which he transfixed the adversary who had thrust it through him. It was the trials of his position that developed his character, but the same trials developed few such men as he, for the reason that few men possess the basis for such character. Broad in his sympathies, noble in his aspirations, single in his purposes, pure in his motives, true to his friendships, unerring in his judgment of men, practical in his wisdom and possessing in a large measure a genius for government, the energy of his great character made him a great factor in the life of our state, and a permanent element in our civilization. In the day of need we looked to him and trusted in him, and now our bereaved hearts yield the tribute of sincere regret and the tear of undying affection. In common with a host of the younger men about him, we felt the impress of his personal friendship, and can testify that in the inner circle of personal contact, as in the broader field of public life, his words impelled all hearts to nobler efforts in behalf of the state he loved so well.

WEDDING AT MT. CREEK

Mr. Ernest Barnett and Miss Ellen Deans were married by Rev. R. H. Long at the home of the bride on last Friday evening. A large number [illegible] present and all joined in [illegible]

PEACHES IN CHILTON

Can we grow peaches successfully? Situated as we are, between Birmingham and Montgomery, both of which consume immense quantities of California fruit, we ought to rake off large profits on peaches if we can produce them.

In this section, and in all parts of the state which I have visited, since my return to it a year ago, I notice a great many dead peach trees, and it is not surprising that people have almost abandoned the hope of raising this fruit, which was once so abundant here, and so luscious in its quality. Upon close inspection, I find that, in almost every case, these trees are the victims of San Jose scale, with which I am very familiar, and which I have controlled successfully in my orchard of twenty-five acres in Texas. San Jose, California, from which place the pest gets its name, was once my home, where I was at first pastor, and afterwards presiding elder of the M. E. Church, South, with fine opportunities for observing its ravages, and also for studying the methods employed for its control. If this scale could destroy, or even permanently cripple, the peach growing industry, then surely the very spot where it first appeared on American soil, and where it has been most difficult to control, would not be leading the entire world in peach production today. It presents a difficulty to be overcome, that is all. It is not a difficulty that is insuperable. It is enough to discourage the faint-hearted, and thus to open up to the men of pluck and enterprise an exclusive field of opportunity, which promises the greatest profits. In the fruit belt of east Texas, I saw thousands of acres of peach trees cut down because they were blasted by this pest, while at the same time, and in the same section, I restored to vigorous growth and to abundant fruitfulness, an orchard in which the trees had already died half way down the limbs from the tips. The truth is, that peach growing in Chilton county is one of the most inviting industries now open to those who will master the arts of pruning and spraying for San Jose scale. However, we must beware of those industries which serve as mere incubators, where this pest is fostered, and whence it is disseminated. We shall have much to say on this subject next week.

doomed, for its peculiar mission is to chase away the sombre clouds of apprehension and dread which hover above some heads, and to wipe the perspiration of agony from the brow of care. Our young people naturally relish what is bright and cheerful, and so it is impossible to put "old heads on young shoulders." "I suppose he hated to go on spending more breath."

It is better for a girl to be given in marriage than it is for a man to be sold.

TORTURING TWINGES

Much so-called rheumatism is caused by weakened kidneys. When the kidneys fail to clear the blood of uric acid, the acid forms into crystals like bits of broken glass in the muscles, joints and on the nerve casings. Torturing pains dart through the affected part whenever it is moved. By curing the kidneys, Doan's Kidney Pills have eased thousands of rheumatic cases, lumbago, sciatica, gravel, neuralgia and urinary disorders.

A NEW YORK CASE

John A. Gould, 74 Gatchell St., Buffalo, N. Y., says: "I was laid up for two months with inflammatory rheumatism and was in bed most of the time. My left limb swelled one-quarter again its natural size. The swelling kept getting worse and the pain nearly killed me. Two doctors failed and then I began using Doan's Kidney Pills. They cured me."

MOTHER! LOOK AT CHILD'S TONGUE

If cross, feverish, constipated, give "California Syrup of Figs"

A laxative today saves a sick child tomorrow. Children simply will not take the time from play to empty their bowels, which become clogged up with waste, liver gets sluggish; stomach sour.

Look at the tongue, mother! If coated, or your child is listless, cross, feverish, breath bad, restless, doesn't eat heartily, full of cold or has sore throat or any other children's ailment, give a teaspoonful of "California Syrup of Figs," then don't worry, because it is perfectly harmless, and in a few hours all this constipation poison, sour bile and fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftimes all that is necessary. It should be the first treatment given in any sickness.

Beware of counterfeit fig syrups. Ask at the store for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

Vindicated.

"I always knew John would grow up to be a great help to us," said the fond mother.

"I haven't seen him do any regular work yet," replied Farmer Corntossel.

"Well, if you'll take notice, he's the only person around the place who knows how to teach the summer boarders to do the tango and the turkey trot."

No. SIX-SIXTY-SIX

This is a prescription prepared especially for Malaria or Chills and Fever. Five or six doses will break any case, and if taken then as a tonic the fever will not return. 25c.—Adv.

How Famous Hymn Was Written.

As Tennyson's nurse was sitting one day at his bedside, sharing to a degree the general anxiety about the patient, she said to him suddenly:

"You have written a great many poems, sir, but I have never heard anybody say that there is a hymn among them all. I wish, sir, you would write a hymn while you are lying on your sick bed. It might help and comfort many a poor sufferer."

The next morning, when the nurse had taken her quiet place at the bedside, the poet handded her a scrap of paper, saying: "Here is the hymn you wished me to write."

She took is from his hands with expressions of grateful thanks. It proved to be "Crossing the Bar," the poem that was sung in Westminster abbey at Tennyson's funeral, and which has touched so many hearts.

How to Work While You Play.

A French collaborator of Thomas Edison has just invented a sewing machine which is also a piano. Its mechanism is so arranged that every time the operator strikes a note on the keyboard, she completes one stitch. A single waltz will hem three handkerchiefs—Beethoven symphony will sew an entire trousseau. Thus, the dressmaker can work and play at one and the same time, and the more they play, the more they work. To bring the invention into the vogue it so fully merits, schools will be established in many parts of France for the training of young women for the degree of M. P. M.—"master piano machinists." Music with its charms will thus be given an undoubted utilitarian value, and all the roundabout societies "for the furtherance of musical appreciation" will be left in the shade by a simple mechanical contrivance.

NEWS and GOSSIP of WASHINGTON

Capital Is Taking on the Attributes of a Metropolis

WASHINGTON.—"I used to think that Washington was the quietest big city in the world," sighed a "good old times" person, "and I loved it on that acount. But now—!" The sigh and the shake of the head were eloquent.

If memory serves, it was Mrs. Adams, wife of the president, who complained of Washington as a wilderness. The streets, she said, were composed of mud that covered the hubs of the wheels of her carriage. Probably, with such a paving there was practically no noise of traffic—likewise no traffic.

"The city protects its citizens from unnecessary noises," said Maj. Sylvester, "but as Washington each year takes on more and more the attributes of a metropolis the number of necessary noises increases."

Just then a man blustered into the outer office and demanded a copy of the police regulations.

"I want," he said, "to find out what we've got to submit to and what we haven't. A crowd of boys congregates in the alley back of our house. They yell and howl there and play ball, and they cut up the brooms that they find in the alley entrances and use them for bats."

"What will you do about that?" the correspondent asked Maj. Sylvester.

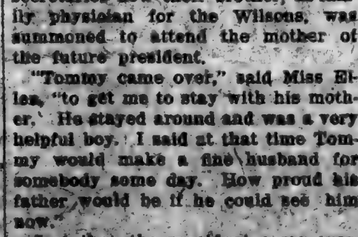
"It must go through the courts."

"But the policeman on that beat—shouldn't he have done something?"

"We'll investigate that. There are regulations forbidding ball playing and disorderly conduct on the city thoroughfares."

Meanwhile the irate gentleman had followed a quiet-spoken individual who had asked him to "come with me and make a statement."

Then there is the tragic story of the apartment house resident—the cliff dweller of civilization. One of these, wooing a greatly desired morning nap, is awakened in the young hours of the morning by the milkman. The milkman has been awake these many hours, and has absorbed all that exhilaration which, so we are told, may be extracted from the dawn. Having absorbed said exhilaration, the milkman proceeds to exude it again for the benefit of all whom it may concern—whether the beneficiaries desire it or not.



Then comes the ice man, clatter, clatter, into the alley. Certain horses must be addressed in loud and mandatory tones—else they will not stand just right. A swarm of boys must deliver ice in all directions, and call across intervening space for instructions. But, at last, they, too, go.

Fewer Strong Men Found Among Recruits of Today

RECRUITS in the army are deteriorating in physical standards since the days of the Civil war, according to Captain Harold W. Jones and other officers of the army medical corps. During a recent investigation measurements of 500 recruits were examined, and it was found that the percentage of strong men enlisted is by far the lowest at the present day, only 83 per cent., as against 57 per cent. in 1875.

The men considered weak at the present time are 43 per cent. as against 10 per cent. in 1875. Attention is called to the fact that the percentage of foreign-born recruits has fallen from more than 60 per cent. to about nine per cent. It is suggested that many of the recruits obtained years ago were hardy German and Irish emigrants of stocky build, which may account for the great difference in the percentage of strong men.

"We must take the figures cautiously," says that officer. "As I have said, I think there is no doubt that we are getting a different type of man in the service today from what we got years ago; he may be just as good and he may have more brains, but

he does not seem to have as much brawn.

"Whether the present-day recruit would last as well under the old conditions of hard frontier service with sanitary conditions far inferior to those of the present time is hard to say, but I think it doubtful if he would.

"The high percentage of strong men in 1876 to 1879 may be due to the fact that the recruiting, at least in this part of the country, was not very active then and the army could pick its men, accepting only the hardiest and best. Finally, I believe further investigation along the lines suggested in this paper in other parts of the country might tell us whether our standard is really deteriorating or not."

They Knew President Wilson as Boy, "Tommy"

IN the throng of visitors at the executive offices the other day President Wilson found two friends of his boyhood days, the Misses Elizabeth M. and Ellen D. Bellamy of Wilmington, N. C. The two sisters, well advanced in age, were ushered into the outer offices just as the president, according to his usual custom, began shaking hands with the friends of congressmen.

"There he is now," said one of the sisters; "I knew I could tell him, but how old he has gotten. We used to call him Tommy. I am afraid I'll call him that yet."

"You mustn't do that," interrupted the other. "It's Mr. President now."

"You know the first time I ever saw him," said Miss Ellen, reminiscently, "he was riding a bicycle."

"It was the first time I ever saw a bicycle, too," rejoined her sister.

The two sisters told one of the secretaries how their brother, as family physician for the Wilsons, was summoned to attend the mother of the future president.

"Tommy came over," said Miss Ellen, "to get me to stay with his mother. He stayed around and was a very helpful boy. I said at that time Tommy would make a fine husband for somebody some day. How proud his father would be if he could see him now."

Just then the president came over, the two women introduced themselves, and President Wilson said he remembered them quite well. He expressed his regret that Mrs. Wilson and the members of his family were not home to greet them, and the two sisters went forth beaming with satisfaction.

She Proves to Husband Her Wifely Devotion

REPRESENTATIVE Clayton of Alabama dropped in on Postmaster-General Burleson the other day and found him sweltering over some unpronounceable patriotic addresses. He came in the nick of time by telling of some of his own experiences.

"One of my good friends and supporters in all my races for congress, Judge Clayton avowed, had the unique name of Dorcenus Athenus Cadwalader Riddlespurger. One night I continued the judge a guest to a country dance and the boys got home and among the dances was Mr. Pinkney Contortion's favorite and he and his fair partner were

big, good-looking, mean but quit home one day leaving a fat little baby at the female door. The proud mother on being asked about the name of

Arouses the liver to action and purifies the blood. A True Tonic and sure appetizer. A Complete Strengthener. No family should be without it. Guaranteed by your Druggist. We mean it. 50c.

HAD NO COMPLAINT COMING

Bad as Entertainment Was, Attendant Had Escaped From a Worse Affliction.

It was at the vaudeville. The girl with the excruciating voice had just finished her song.

"Just think!" groaned Brown, to the stranger beside him. "we paid real money to hear that!"

"I didn't," was the placid response. "Came in on a 'comp.'"

"But you had to spend carfare to get here, did you not?" asked Brown.

"Nope," replied the uncomplaining one. "I live in walking distance."

"But," persisted Brown desperately "at least you hoped to be entertained, not punished."

"No, I didn't care," grinned the stranger. I came to get away from home. My wife is cleaning house."—Judge.

SKIN TROUBLE ITCHED BADLY

Glenns P. O., Va.—"My baby's trouble began with an itching and then a little bump would come and she could not rest day or night. The trouble affected her whole body. The bumps festered and came to a head and the corruption looked like thick matter, kind of a yellow color. The sores itched so badly until it seemed to me she would scratch herself to pieces and then a sore would form and her clothes would stick to her body and pull off the little scab. In some places she would scratch and irritate the sores until they seemed to be large. She was affected about a year.

"I wrote for a sample of Cuticura Soap and Ointment. I bathed her body in warm water and Cuticura Soap and then I applied the Cuticura Ointment, and they afforded relief after twice using. I bought some more Cuticura Soap and Ointment and inside of two weeks she was cured." (Signed) Mrs. J. R. Greggs, Nov. 21, 1912.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 32-p. Skin Book. Address postcard "Cuticura, Dept. L, Boston."—Adv.

Oil From Trees.

The Chinese wood-oil tree is the subject of a circular by David Fairchild, recently published by the U. S. bureau of plant industry, the purpose of the publication being to advocate an extensive cultivation of the tree in this country, where it has been grown in a small way since 1906.

The importance of this recommendation is shown by the fact that five million gallons of wood oil (also known as tung oil), made from the seeds of this plant, was imported from China last year, and the product is said to have had a revolutionary effect on the varnish industry of the United States.

"JUST AS GOOD AS BOND'S PILLS?"

Don't you believe it! No such a Liver remedy is made. But do not abuse the dealer who tells you so! He does not intend to injure you or us; he only likes to make a larger profit than Bond's Pills afford him.

Just laugh at him and insist on BOND'S LIVER PILLS, the gentle, safe and effective liver stimulant, that are honestly made from the best known ingredients and without regard to cost or trouble.

They are expressly intended to cure Biliousness, Headaches, Constipation, Indigestion, Malaria and all the ailments due to an inactive liver or bowels.

"ASK YOUR NEIGHBOR!"

Take just ONE pill at bedtime and wake up well, without any unpleasant feeling. They are guaranteed to give satisfaction.

If the Pills cannot be obtained in your town, send 25c to us and get them by return mail.

Sold by leading druggists, 25c. Send to us for free sample.

BOND'S PHARMACY CO., LITTLE ROCK, ARK.

AROSE TO THE EMERGENCY

How Engineer Proved Worthy of His Position When the Occasion Came to Try Him.

The engineer of a Chicago suburban train showed the other day that a cool and experienced head is equal to almost any emergency. A side rod had broken, and with every revolution of the wheels, was demolishing the cab and the mechanism by which the engine is operated. He was able to shut off the power, but the airbrake control had been destroyed, and the train went dashing on. Having done all that mortal could do with the apparatus that was left intact, he left the cab, climbed over the coal in the tender and swung down on the platform of the first car. There, reaching for the air cord, he brought the train to a stop in a few hundred feet. If he had whistled for brakes the train crew might not have responded in as little time as it took him to do the thing himself.

To Clean Light Woolen.

Make a mixture of cornmeal, a handful of borax, and half a cake of magnesia. Mix this dry, and scrub the goods with it. To clean wool shawls, sweaters, etc., sprinkle the mixture over the garment, place inside a sheet folded several times, and beat lightly. It is surprising how much the borax assists in the cleaning process.

Not There.

"Dearie, the doctor says I need some change."

"Well, you needn't go looking through my pockets for it."

MRS. PANKHURST FREE; ENTERS U. S.

COMMISSIONER OF IMMIGRATION CAMINETTI REVOKES ORDER OF INQUIRY BOARD.

U. S. OFFICIALS CONFER

Assurance Is Given That the Militant Leader Will Do No Violence.

Washington.—Mrs. Emmeline Pankhurst, the militant British suffragette leader, is free. She entered the United States shortly after the decision of the immigration authorities was made known to her.

The Ellis Island board's order of deportation was reversed after President Wilson had conferred on the celebrated case with Secretary Wilson and a hearing had been concluded before Immigration Commissioner Camminetti.

Secretary Wilson announced at the conclusion of his conference with the President Mrs. Pankhurst would be admitted on her own recognizance with the understanding that she would depart at the end of her lecture engagements. No bond was exacted.

Secretary Wilson declared that he and the President had discussed the question briefly.

"We agreed," he said, "that Mrs. Pankhurst should be admitted on her own recognizance. My own reason is—and the President feels the same—that there is naturally an element of doubt as to whether her acts constituted moral turpitude or were otherwise political in character.

"Being admitted on her own recognizance, of course, if she violates any of our laws we have two remedies. Our courts may pass on her acts or we may deport her. There being the element of doubt as to whether moral turpitude or political offense was involved we decided that we have sufficient safeguards and that there can be no harm in admitting her."

The decision by the President and Secretary Wilson was communicated to Commissioner General Caminetti, who issued the formal order of release.

17 SOLDIERS ARE KILLED

Cause of Wreck Is Unknown—Relief Trains Rushed from Mobile, Meridian and Whistler.

Meridian, Miss.—Seventeen soldiers were killed and about 100 hurt when a special troop train on the Mobile and Ohio railroad plunged through a trestle near Stateline, Miss. This casualty list is that given in a report of the disaster by Division Superintendent Pigford of the Mobile and Ohio to headquarters of the road in Mobile.

The wreck was caused by the engine tender jumping the track about 200 feet from a trestle. The engine was not derailed and passed over the trestle safely. The tender broke loose from the engine, however, and plunged with the baggage car and three coaches to the ground, 25 feet below.

One hundred and seventy-nine soldiers were on board the special train. They were from Fort Morgan and Fort Barancas. They were going to Meridian to participate in the Mississippi-Alabama joint state fair. They were under command of Major Taylor, coast artillery, United States army.

As meager news of the wreck filtered into Meridian a special relief train bearing physicians and nurses left for the scene. Other trains left from Mobile and Whistler, Ala.

SULZER BACK IN POLITICS.

Impeached Governor Candidate for the Legislature.

New York.—William Sulzer, impeached Governor of the State, was nominated for the assembly by the progressives of the Sixth assembly district. Mr. Sulzer, in 1889, began his public career as a member of this branch of the state legislature.

Mr. Sulzer has agreed to accept the nomination, it was announced at the meeting where he was chosen as the candidate. Max Steindler, progressive leader in the Sixth assembly district, who placed the former governor's name in nomination, said Mr. Sulzer reached him by telephone from Albany inquiring if he had been designated. Mr. Steindler replied in the affirmative. He said he asked Mr. Sulzer if he would accept and Mr. Sulzer replied that he would gladly do so.

GEORGE T. MAY DEAD.

Aged Government Employe Passes Away.

Washington.—George R. May of this city, who knew Daniel Webster and John Calhoun, and was for many years chief clerk of the office of the comptroller of the currency, died here suddenly. He was 81 years old. He organized the National Bank of Virginia at Richmond and had been in the government service continuously

IRREGULARITIES IN REPORTS

Business, However, Is in Excess of Last Year — Demand for Goods

New York. — Bradstreet's trade review says:

Trade reports manifest more or less irregularities, though they quite generally agree that business is in excess of last year, when activity was well nigh super-abundant. Belated buying for fall and winter lines is clearly evidenced in exigent calls for prompt shipment of textiles. It is upon current requirements that most attention is focused, for far future trade is held in check by changed tariff conditions or by high rates for money.

A number of trades are engaged in adjusting prices to new tariff schedules and this factor tends to cause hesitancy, but actual competitive sales have not been felt to any appreciable extent as yet. In general, the prevailing spirit is that tariff reductions will be met; that because of evident advantages domestic interests will hold their own and optimism is pronounced.

Business failures for the week were 292, compared with 187 in 1912. Wheat including flour exports from the United States and Canada for the week total 5,834,447 bushels against 5,785,610 last year.

New York. — R. G. Dun & Co.'s weekly trade review says:

Distribution of merchandise in some sections reflects the stimulus of seasonable weather while industrial operations apart from iron and steel are expanding.

Decided improvement appears in some mercantile lines, uniformly encouraging advices being received from the leading trade centers which with scarcely an exception report a larger volume of business than a year ago.

Collections are fairly prompt and an optimistic sentiment generally prevails. There is a steady demand for dry goods for quick delivery. Considerable activity is noted in wool. The tendency of leather values is still higher.

Least satisfactory conditions obtain in iron and steel where the trend toward lower quotations is more pronounced. Failures this week numbered 323 in the United States, against 248 last year, and 39 in Canada compared with 32 a year ago.

NEWS BREVITIES

Seattle, Wash. — The court order forbidding street speaking in Wentlake Square was withdrawn by Superior Judge John E. Humphires, who also rescinded the jail sentence and fine he had imposed on Dr. Herman M. Titus for contempt of court in having violated the injunction.

Binghamton, N. Y.—After handling $200,000 worth of business a year for 33 years, Reed B. Freeman, head of the Binghamton Clothing Company, in whose factory 30 girls were burned to death July 22 last, will begin life anew in New York in a commission firm.

Key West, Fla.—The freight steamer Venus, plying between Havana and the Mexican coast, is aground at Tortugas reef, 80 miles off the Florida coast, according to advices reaching here. The Venus, whose grounding was due to the loss of a propellor, is not reported to be in danger.

Atlanta, Ga.—After examining the record of John Henry, a negro arrested here, on charges of burglary and assault, local police announced their belief that Henry is the murderer of Miss Ida Leegson, the art student who was lured to her death October 4, at Chicago.

Washington. — Fifteen girls, one from each of 15 Southern states, will visit Washington probably December 11, as a reward for their success in being awarded first place in the Girls' Canning Club state contests, the department of agriculture announced. Women correspondents of the canning clubs will assemble here at the same time.

As is usual with troop trains, the coaches were well filled and when the three cars tumbled through the trestle the men had little protection. The dead and injured were entangled in a twisted mass of wreckage, making it difficult to remove dead bodies or rescue the injured.

Washington. — Garrett Droppers, professor of economics at Williams college, Williamstown, Mass., has been offered the post of minister to Greece by President Wilson. He is an intimate friend of President Wilson.

Washington. — To extend its missionary work in foreign fields during 1914 the council of the general conference of Seventh Day Adventists, in session at Takoma Park, Md., appropriated $463,619 to be used in China, India, Japan, the Philippines, Cuba and Manchuria.

Kansas City. — George Mayes, a Creek Indian orator, was arraigned, charged with the murder of William L. Goodall, a prominent Kansas City, Kans., attorney, whose body was found in the Kansas river several months ago.

MRS. MANGES ESCAPES OPERATION

How She Was Saved From Surgeon's Knife by Lydia E. Pinkham's Vegetable Compound.

Mogadore, Ohio.—"The first two years I was married I suffered so much from female troubles and bearing down pains that I could not stand on my feet long enough to do my work. The doctor said I would have to undergo an operation, but my husband wanted me to try Lydia E. Pinkham's Vegetable Compound first. I took three bottles and it made me well and strong and I avoided a dreadful operation. I now have two fine healthy children, and I cannot say too much about what Lydia E. Pinkham's Vegetable Compound has done for me."—Mrs. LEE MANGES, R. F. D. 10, Mogadore, Ohio.

Why will women take chances with an operation or drag out a sickly, half-hearted existence, missing three-fourths of the joy of living, when they can find health in Lydia E. Pinkham's Vegetable Compound?

For thirty years it has been the standard remedy for female ills, and has restored the health of thousands of women who have been troubled with such ailments as displacements, inflammation, ulceration, tumors, irregularities, etc.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

WHAT CAUSED THE AGONY

Voluminous Telegram From Wife Worse to Merchant Than a Break in the Market.

The merchant uttered a sharp exclamation and sank back into his chair. A telegram fell from hos shaking hand. His eyes were wide, his face white, beads of perspiration stood on his brow.

The men in the outer office whispered among themselves.

"Touch of heart disease?" asked one.

"No; the old man can't take up a note," said another.

"I've heard rumors of that kind. We fellows will have to be looking for another place."

"Get to work; he's coming to again."

The merchant wiped his brow, fetched a despairing sigh, picked up the paper from the floor, frowned and stamped his foot, as if to summon all his resolution, placed the telegram on his desk and forced himself to read the bitter message. This was it:

"Dearest James: Please send the waist for my gros grain suit at once. You will remember the one, as it has revers on the frontage and chained stitched biases on the back. It is in the lower trunk in the closet beside the hall room, under your winter overcoat. If not there, it must be in the sealed box on the third shelf in the front room closet. If you don't find it there, it must be somewhere else. The trunk keys are in the second bureau drawer unless they were put in the chiffonier, and I think the closet keys are in a vase on one of the mantels. Pack the waist so as not to wrinkle it, and, oh! James, please do not swear!

"Your loving wife."

GAS, DYSPEPSIA AND INDIGESTION

"Pape's Diapepsin" settles sour, gassy stomachs in five minutes—Time it!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any dealer and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its prompt, certain and easy action in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

Discovery.

"I don't tell all I know," said the "I believe in economizing time."

"But why begrudge a moment to

New York is to have several new bus lines. English women will act as conductors.

How About It.

"I have $5,000 to put into a house."

"Then you'd better let the contracts for a $7,500 one."

Sore Eyes: Granulated Eyelids and Sties promptly healed with Roman Eye Balsam. Adv.

The Reason.

"Pop, why do secret society candidates have to ride the goat?"

"That's the way they have to butt in."

Bronchial troubles weaken the system. Pneumonia sometimes follows. Dean's Mentholated Cough Drops prevent trouble.

Which?

"I understand our visitor is a husbandman."

"Farmer or matrimonial bureau bureau agent?"

FOR SUMMER HEADACHES

Hicks' CAPUDINE is the best remedy—no matter what causes them—whether from the heat, sitting in draughts, feverish condition, etc. 10c., 25c and 50c per bottle at medicine stores. Adv.

Its Nature.

Will cure your Rheumatism and all kinds of aches and pains—Neuralgia, Cramps, Colic, Sprains, Bruises, Cuts, Old Sores, Burns, etc. Antiseptic Anodyne. Price 25c.—Adv.

Going South.

Bill—He's an up-to-date architect. He's just designed one of those slit-skirt houses.

Jill—What on earth is that kind of a home?"

"One with a southern exposure."

FOR MALARIA, CHILLS, FEVER Colds and La Grippe take Elixir Babek, a preventative and remedy.

"I have used 'Elixir Babek' for four years for Malaria, and found it all that is claimed for it. Without it I would be obliged to change my residence, as I can not take quinine in any of its forms."—J. Middleton, Four-Mile Run, Va. Elixir Babek 50 cents, all druggists or by Parcels Post prepaid from Kloczewski & Co., Washington, D. C.

Earthquakes in Scotland.

Earthquake shocks have recently been experienced in the central part of Scotland. A tremor was distinctly felt in all parts of Bridge of Allan the other morning, but no damage was done. Two earthquake shocks were experienced in Dunblane district early the previous morning. Generally sound sleepers were awakened by the rattling of windows and doors, and more than one housewife had to gather up the fragments of broken china in the morning caused by the shock. It is also reported that the pheasants from the hills had been scared by the unusual occurrence, as those about at that time observed them as if in a panic. The shock lasted nearly half a minute.

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Girls! Beautify Your Hair! Make It Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most, will be after a few weeks' use, when you see new hair, fine and downy at first—yes—but really new hair—growing all over the scalp.

A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

Get a 25 cent bottle of Knowlton's Danderine from any store and prove that your hair is as pretty and soft as any—that it has been neglected or injured by careless treatment—that's all. Adv.

His Threat.

"Man overboard!" shouted an excited passenger on an Atlantic liner, as he hastily left his place at the dinner table and scrambled up the companion way.

An affrighted crowd of ladies and gentlemen followed him. He was wildly expostulating with the captain on deck when they surrounded him with eager inquiries.

"Where is he? Who is he?" they demanded, and the originator of the scare held his hand on his breast and said with melodramatic fervor:

"Here he is! I am the man. Everything I have been complaining of for four days at the mess table with three stars over each bill should surrender will power. I shall not get out and walk."

Shoes in all leathers, styles and sizes to suit everybody. If you could visit W. L. Douglas large factories at Brockton, Mass., and see for yourself how carefully W. L. Douglas shoes are made, you would then understand why they are warranted to fit better, look better, hold their shape and wear longer than any other make for the price.

If W. L. Douglas shoes are not for sale in your vicinity, order direct from the factory. Shoes for every member of the family, at all prices, by Parcel Post, postage free. Write for Illustrated Catalog. It will show you how to order by mail, and why you can save money on your footwear.

W. L. Douglas, 201 Spark Street, Brockton, Mass.

WINCHESTER

REPEATING RIFLES FOR HUNTING

No matter what you hunt for or where you hunt, the answer to the question "What rifle shall I take?" is—a Winchester. Winchester Repeating Rifles are made for all styles of cartridges, from .22 to .50 caliber. Whichever model you select you will find it an accurate shooter, reliable in action and strong in construction.

Winchester Guns and Ammunition—the Red W Brand—are made for each other.

WINCHESTER REPEATING ARMS CO., NEW HAVEN, CONN.

AMERICAN FUR MFG. CO., CHARLESTON, S.C.

Dr. R. A. Armistead's Ague Tonic

Acknowledged by leading physicians and the largest wholesale druggists everywhere as the BEST CHILL and Malaria remedy on the market today.

As a general tonic for a run down system it has no equal. It is good for the Stomach, nerves and blood, destroys all poison in the system and at the same time builds up and restores the affected regions to their normal and healthy condition.

There are no bad after-effects as are experienced with quinine. It is pleasant to the taste and is absolutely harmless. This tonic has cured more old chronic cases of chills and fever than any other remedy known. An absolute necessity in every home, not only as a remedy for, but as a preventive against sickness.

Insist upon Armistead's Tonic. 50c and $1.00 bottles.

Entered at the Post Office at Clanton, Ala., as second-class mail matter under act of Congress, March 3rd, 1879.

Pay your poll tax and get in readiness to vote at the Spring primary for Sheriff, County Rep-Representative and two Commissioners.

Dr. J. F. Dugger of the A. P. I. at Auburn, has just announced the publication of a new bulletin on the subject of oats. We have written for it, and advise everybody else to do the same. What Dr. Dugger does not know on such subjects "has been tore out."

Has Woodrow Wilson cut wages in this country? If not, who has lied? The same people still say that a cold wave of financial disaster is on its way down from the White House, but we have already worn out our overcoats carrying them aroung on our arms waiting for it to blow down their storm signals.

The Press is headed straight for the home of every family in Chilton county, and we wish to carry your advertisement with us. We ask you to consider this proposition from the bread-winner's standpoint, and consult your own interest. Can you afford to be left out of these columns? If you have no space then take some at once, and if you have space already, then take some more.

Any soil that will produce cowpeas will also produce hairy vetch. Any soil her will make far better cow peas or vetch if it has lime applied at the rate of one thousand pounds to the acre every ten or fifteen years. We are near the lime kilns and could procure the refuse lime for a mere song, perhaps. Get up a concert or at least a chorus in your neighborhood, and if this cannot be done then get up a solo.

Few people know how to read a newspaper so as to get out of it exactly what is coming to them. The personals are for those in whom curiosity predominates, the editorials are for those who thirst for knowledge, and the advertisements are for those who buy for the family. Advertisers always put their bargains to the front, and those who have no bargains usually keep their business out of the papers.

New Editor In Charge.

The announcement, of interest to the Alabama press, is made that the Board of Directors of the Clanton Press have selected Mr. C. R. Lamar as editor of that paper. Mr. Lamar has assumed his new duties and if his first issue is a sample of what he is going to do as editor, the Press is going to be a bright and readable paper. In a brief introduction Mr. Lamar says with justifiable pride, that he is not an ex-preacher, but a preacher in good standing in the Methodist Conference, where his character has been passed upon year after year. That is assuredly a good recommendation. The new editor says further that he is not in active work in the ministry because his voice has gone back on him, but he is convinced that he can handle a pen as well as he ever could. He makes a fine showing in his first issue.—Montgomery Advertiser.

Judge W. H. Thomas, formerly of the City Court of Montgomery, offers for Associate Justice of the Supreme Court. Alabama has no son who is more capable or who is more deserving both because of the high character of the man, and also because of the distinguished service which he has rendered to his native state. The Greenville Advocate says "He is a man who will grace the Supreme bench and all Alabamians will feel proud of him when he is elected." The Selma Journal says "Clean as uprightness in life can make him versed in the law, even tempered, and in every sense a man of dignity and ability, he is well qualified to sit on the Supreme bench of Alabama." The Montgomery Times says: "Montgomery takes pleasure in presenting him not only as a favorite son, but as an able and distinguished lawyer, who will reflect credit upon the state and honor upon the bench."

The remarkable success of the present administration speaks well not only for Woodrow Wilson but for the American people who have rallied to him, and who have shown themselves capable of appreciating moral worth and political wisdom. Long years of Republican misrule, and social as well as business demoralization which have grown out of it, has had a tendency to weaken the faith of our people in the final ascendency of true and upright principles. Instead of the old adage, so popular among our fathers—"Honesty is the best policy." We have been accustomed to hear that "Greed is great," until we had well nigh lost confidence in the ultimate ascendency of purity in public life. The elevation of Woodrow Wilson, and the brilliant success now attendant upon the influences which are regnant in our public life, demonstrate that "Truth crushed to earth will rise again," and have restored to the American people their old time confidence in patriotism and political integrity. It's particularly gratifying to our section that this general and happy result is due largely to a renaisance of Southern influence. That fervid patriotism and unswerving devotion to duty, as opposed to selfish interest, which once misled us into hasty rebellion, are the very qualifications necessary to save our country and our generation from the greater evil of graft.

HAIR DOESN'T DIE--IT HAS TO BE KILLED

Hair often continues to live and grow long after the death of the body. But it is oftee killed through neglect or misuse. Almost always the woman or man whose hair is falling out or is stringy, lifeless and dull-looking, is entirely to blame because of not giving it the proper care. It is easy to take care of the hair—easy to make it more beautiful. Use Harmony Hair Beautifier, to make it glossy, soft and silky, and Harmony Shampoo to keep hair and scalp thoroughly clean.

Harmony Hair Beautifier, delightfully perfumed with the true rose, is very easy to apply—simply sprinkle a little on your hair each time before brushing it. It contains no oil, and will not change the color of the hair, nor darken gray hair.

To keep your hair dandruff-free and clean, use Harmony Shampoo. This pure liquid shampoo is most convenient to use, giving an instantaneous rich foaming lather that immediately penetrates to every part of the hair and scalp, insuring a quick and thorough cleansing. It is washed off just as quickly, the entire operation taking only a few moments. Contains nothing that can harm the hair, and leaves no harshness or stickiness—just a sweet cleanliness.

Both preparations come in odd-shaped, ivory ornamental bottles, with sprinkler tops. Harmony Hair Beautifier, $1.00. Harmony Shampoo, 50c. Both guaranteed to satisfy you in every way or your money back. Sold in this community only at our store—the Rexall Store—one of the more than 7,000 leading drug stores of the United States, Canada and [illegible] which owns the [illegible]

Drug Co. Clanton, Ala.

STATE HIGHWAY

At a meeting held at our Clanton Court House yesterday afternoon the Birmingham and Montgomery Highway Association was organized with W. S. Keller, the State Highway Engineer, as President. Barney M. Roberts, Secretary and H. G. Reynolds, Treasurer. W. W. Fox was named as Committeeman from Chilton county.

After transacting much important business, the Association adjourned to meet the second Monday in November, when the Executive Committee will report by-laws, and work will be shaped up.

Clanton was made headquarters for the road, as it has more to gain than any other point.

Our town has been alive this week with a large number of visitors attending the Fair.

WAS FOLLOWING HIS ORDERS

Friend Tells Woman of Her Husband's Unfaithfulness, but Is Rebuked.

"Mrs. Watterson, I am very sorry to have to tell you what I am about to divulge, but I consider it my duty as your friend to let you know the truth. It is about your husband."

"Mercy sakes! Don't tell me anything terrible has happened to him."

"It's worse than that. If he were my husband I'd rather hear that he had met with a fatal accident than have to be told what I feel that I really must tell you. Your husband is deceiving you. He is a villain—a wolf in sheep's clothing. Don't interrupt me. I am going to tell you everything. My conscience urges me to do it. I saw him this morning—and where, do you suppose? He was in a taxicab with a young woman, and he had his arms around her and was so busy saying things to her that he had no time to notice me."

"O, is that all? He was bringing our new maid out from the employment agency. I had told him to do anything he could to make it interesting and pleasant for her, so that she wouldn't change her mind and go back on us before she got here."

UPHOLDS THE PRODIGAL SON

Woman Declares He Wouldn't Find Fault With Fatted Calf as the Modern Man Does.

"The late Emerson Taylor, our consul at Port of Spain," said a Washington official, "hailed from Dry Run, and he had a fund of happy Dry Run humor.

"Taylor once compared a disgruntled brother consul to a Dry Run housewife.

"This woman, he said, often took a queer, disgruntled view of things. Thus she said one day:

"'I don't think the prodigal son was so bad, after all.'

"'He wa'n't no good to his family,' said her husband.

"'That's a fact,' said the Dry Run woman. 'But when he got home, all the same, he knowed enough to keep his mouth shet. If he'd been like the twentieth-century man, by crinus, the first thing he'd done would 'a' been to find fault with the way the fatted calf was cooked.'"

Why She Knew.

Little Mary's Sunday school teacher had just showed her the beautiful picture of Christ before Pilate.

"How do you know it is Trist?" the little one asked.

"By the sweet, tender look upon his face and the crown of thorns upon his head," the teacher explained.

A few days later Mary found the same picture in the family Bible, and, taking it to her mother, she said:

"Mamma, this is the picture of Trist."

"How do you know it is a picture of Christ?" the mother asked.

"Taws he has a sweet look on his face and a trown of h[illegible] his head," Mary replied

LOCAL & PERSONAL

At the regular church conference held at Baptist church last Sunday Rev. J. H. Longerier, of Jasper, was caleld to the pastorate.

Commissioners Court will meet next Monday in October.

Why don't some man go into the millinery business? Wherever there is a will, there is a Wilson.

Mr. J. D. Henley and Mr. O. C. Overton made a highly appreciated call at our office yesterday. Such substantial citizens are always welcome.

A Marvelous Escape.

"My little boy had a marvelous escape," writes P. F. Bastiams of Prince Albert, Cape of Good Hope. "It occurred in the middle of the night. He got a very severe attack of croup. As luck would have it, I had a large bottle of Chamberlain's Cough Remedy in the house. After following the directions for an hour and twenty minutes he was through all danger." Sold by Alred Drug Co.

Many friends throughout the county will be pained to hear of the death of Mrs. J. W. Cooper, which occurred at Talladega Springs on the 17th inst. Interment took place at the Cooper's graveyard. She had been for many years a consistent member of the Baptist church, and leaves a wide circle of sorrowing friends.

Give us pure air and water, or give us death. This about expresses the points involved in the question of issuing bonds for sewerage and waterworks. Election to be held on the 27th instant.

Mesdames Guy Higgins and Gamma Anderson were visitors to Montgomery Monday.

Messrs. Henry Culver and E. H. Carroll, two of Chilton's prominent planters, attended the Fair at Birmingham last week.

Miss Marguerite Chappelle is visiting Miss Florida Zelius in Pensacola, Fla.

Miss Emma Edwards of Route 1 was among friends here some days ago.

Misses May and Arthia Dorminy of Jemison were shopping among Clanton merchants the last of the week, as were also Mrs. Cox and Mrs. Minor of Thorsby.

Mrs. Blalock, Miss Mae Curlee and Miss Mae Bell of Coopers took home some Clanton hats in time for the Fair this week.

Mrs. Louis Robinson and daughter, accompanied by Mrs. Ben Franklin and daughter, also by Miss Moreton, all of Thorsby, took a try at Clanton's bargains during a recent visit, and seemed pleased with results.

Mrs. M. J. Greene was called unexpectedly to the bedside of her brother, Mr. R. M. (Tip) Phillips, who was strickened a second time with paralysis a few days ago, at his home at Sylacauga. He is the only surviving brother of the late T. S. Phillips of this city.

We have had in front of our office a huge cotton stalk grown by Frank Morgan (colored), living six miles southwest of town. He is a farmer of thrift and intelligence, and will make close to a bale per acre. He left his subscription to the Press, and will want some oats.

Attorney J. O. Middleton was in Montgomery Monday in attendance upon the sessions of the Supreme Court.

Mr. J. T. Arant of Route No. 2, Mountain Creek, spent Friday in Clanton. Mr. Arant expects to move to Chilton county.

Mr. E. H. Foshee, formerly of Clanton, but now farming out near Lock 12, spent Saturday in town.

William Traywick, Enoch Traywick and John Bean were visitors to Clanton last Friday.

Mr. A. J. Culp, merchant, farmer and sawmill man of Route 6, was in town Saturday.

Mr. Wm. Driver and daughters were in town Saturday.

Mr. E. M. Bean of Collins Chapel was in town Tuesday on business.

Mr. P. T. Hinkle, one of Chilton's most progressive farmers, is attending the County Fair.

Mr. J. O. Wesson, one of the largest planters in this section is taking in the Chilton County Fair.

Mr. E. T. Gullahorn of Verbena was on our streets Saturday.

Mr. Elbert Taylor of Route 1 was in town Saturday.

Clanton is having great trouble to get cars in consequence of the great quantities of lumber and cotton being offered for shipment. This is inconvenient to the shippers, but speaks well for the town.

The cotton ginners estimate that about three-fifths of the crop has already been ginned. On this basis we may expect six thousand bales to be ginned at Clanton. This by no means represents our receipts as there are many gins in the surrounding country.

All members of the Boys' Pig Club in Chilton county are specially requested to meet Mr. Chas. S. Jones at the Fair grounds, Saturday by eleven o'clock.

Legal Notice.

The State of Alabama, Chilton County. In Chancery at Clanton, Alabama, 7th District Northeastern Chancery Division.

W. M. Adams vs. Sallie A. Stewart, et als.

In this cause it is made to appear to the Register, by the affidavit of W. M. Adams that the Defendants, Sallie Stewart Duncan, Mattie Ivea Racine and Samuel Adams Duncan are non-residents of the State of Alabama and reside at 223 Woodland street, in in the city of Nashville, in the county of Davidson and State of Tennessee, and further, that in the belief of said affiant, the Defendadts are over the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring them, said Sallie Stewart Duncan, Mattie Ivea Racine and Samuel Adams Duncan, to answer or demur to the same within thirty days after the 20th day of November, 1913, and failing so to do, a decree pro confesso may be taken against them in said cause.

Done at office, in Clanton, Ala., this 21st day of October, 1913.

H. M. SIMPSON, Register.

B. M. Roberts

Has solved the "high cost of living" proposition by providing for our planters an abundant supply of Texas Red Rust Proof Oats for Seed purposes, and also the Hairy Vetch for those who wish to sow the mixed seed. Recently the farmers north and east of us organized a protective league and advanced the price of feed stuff. Our only protection is to organize to produce all we need and some to sell. Get busy and see.

HARMONY IS BIG FACTOR

Man Who Can See No Way but Their Own Apt Detrimental to Society.

Some matters are properly instrusted to the discretion and the energy of one man to carry out; others are necessarily—or at least advantageously—assigned to the composite acumen and activity of several persons composing a committee. A committee is like a jury—it must decide one way or the other. One obstinate man can seriously impede and embarrass its principles or preconceptions—though he may not know it—which are bound to be respected. There are always men who can see no way but their own way, no safe and proper policy that is not born and bred of their own inspiration. Such men make service in a committee difficult for others who realize that all the wisdom does not lie with the most pertinacious and vociferous. It does not imply lack of backbone to be willing to march part of the way toward a compromise. Many an important decision must be a composite matter, to which the wisdom of several councilors contribute, and the attitude of contrasting points of view, like sticks rubbed together to make fire, engenders illumination as well as the ardor of friction. The man who cannot see any reason in any argument but his own is not the most serviceable agent in human society. He is scarcely more respectable than "the man with his wishbone where his backbone ought to be," who trims his sails and changes his tack to suit every wandering breeze of fortune and other men's opinions.

ODD LAWS ON ISLE OF MAN

All the Revenue Is Raised by Taxes on Food and Drink—Workers Are Unprotected.

In some respects the Isle of Man, which has defeated a workmen's compensation act, is one of the most backward portions of the British empire. All the revenue is raised by taxes on food and drink. There are no death duties, no property tax, no land tax. The working classes are unprotected as well as overtaxed. No factory laws exist, and no attempt has ever been made to limit the hours of shop assistants, although Manxland is essentially a nation of shopkeepers. Then, although usury is forbidden by law, imprisonment for debt is still legal, and is commonly resorted to.

Yet Manx laws, although backward in some respects, are in other ways well advanced. Every woman, widow or spinster in the Isle of Man, be she owner, occupier or lodger, enjoys the parliamentary franchise. Every widow enjoys half her husband's personal estate and has a life interest in his real estate, and she cannot be deprived of this by will.

The sale of cigarettes and intoxicants to children was forbidden in Man for years before such a prohibition was enforced in England. Englishmen have legislated mildly against money lenders. The highest interest that can be charged in the island is six per cent., and that has been the law for over 200 years.

A Philosophic Chinese.

Recalling the horrors of the Civil war, General Sickles once said in a Memorial day address:

"Those horrors were so grisly and so numerous that we became, in a certain sad sense, hardened to them—not really hardened, but so it seemed. Our mood seemed almost like the Chinaman's.

"A Chinaman, you know, was employed as a cook in Los Angeles at the time when the Yellow river flood carried off its thousands. The man's master hurried to tell him of the calamity, thinking it would overwhelm him; but the cook's only comment was the calm and practical one:

"'Plentee Chinamen left.'"

Rational Love.

"The rational rather than the romantic view of marriage is the one most in favor with the young people of the twentieth century," said Dr. H. Lamas Wentworth, the well-known eugenics expert in an address in Cleveland.

"The rational view will make for happier marriages. And this rational view is beautifully illustrated in two questions—a little dialogue—passing thus:

"'Will you always love me?'

"'Will you always be lovable?'"

Ought to Be, Anyhow.

At dinner Mollie gazed for a long time at a bachelor guest, and then exclaimed:

"Mother, what is an old bachelor?"

A frown was the only reply. But a laugh burst forth from the astonished company when Mollie answered the question to suit herself.

"Oh, I know! An old husband with an old maid's heritage!"

Held in the Vestibule.

"I don't see you running after me as much as I used to."

"No. It takes me longer to get over an accident now than it used to."

Work Wanted.

Boss—Did ye raise your wages on further consideration?

Hod-carrier—No, sor; I quit work and that's all the raise I got.

Chronic Dyspepsia.
